EPS	2.84	(4.28)	6.65	(2.94)

** Amt in INR*

S&S Power delivered a strong operating performance in Q3 FY26, driven by a sharp acceleration in revenues and improved profitability. Revenue growth during the quarter led by strong domestic and global demand across all three businesses, while EBIDA turned positive. Year-to-date performance remains solid, with revenues and EBIDA significantly higher than the previous year, underpinned by a robust cumulative order book of ₹245.3 crore. The company continues to remain well-positioned to sustain momentum through the remainder of the fiscal year.

Commenting on the results, Krishnakumar Ramanathan, Group CEO & Managing Director, S&S Power said, "It has been an exciting quarter for us at the S&S Power Group. Our systematic efforts over the last 18 months, starting from the capital restructuring of the company, acquiring HART, strengthening our team of professional managers with rich industry credentials, focusing on innovation, customers, and our employees, are showing results. With a supportive market across our core segments – Transmission, Distribution, and Industrial Automation – backed by a strong order book, robust execution, and effective risk management, we are well-placed for the foreseeable future.

I would like to thank our team of employees across Kolkata, Chennai and the UK, for their outstanding efforts, our customers for their trust in our products, and our promoters and shareholders for believing in the strategy and vision and actively supporting the same."
