OPERATIONS - MARKETING FOCUS:

Ice-cream Division :

Industry Structure & Development, Business Overview & Sustainable Growth Opportunities :

India is the world's largest milk producer with an estimated annual production of more than 100 million tons of ice cream per year. Keeping up with the economy's quantum growth in recent years, the ice cream market has also set new records. The total Indian ice cream market is estimated at approx. Rs. 6000 crores with the organized sector estimated at Rs. 3500 crores.

An ice cream makes everything better; be it an everyday occasion or life's most precious moments. Our range of ice creams and frozen desserts have always fulfilled this promise by making these special moments even more beautiful. Our communication and positioning is now focusing on Millennials, making sure that we become 'The Best Part of Everyday'.

Increasing urbanization, rising disposable incomes and increasing 'out of home' food consumption coupled with the ever increasing availability of various foods in the markets close to residential areas are some of the reasons driving the ice cream segment.

The structure of the industry and the ongoing transformation offers ample and more opportunities for organized players to invest and grow. Vadilal's Ice Cream division has shown sustainable annual growth consistently and aims to maintain it further in the years to come.

Since inception, we have been committed towards delivering the best quality products at affordable prices to every customer. We are constantly working towards improving our products in terms of their nutritional profile and benefits.

Developments

The biggest development in 2016 has been the appointment of a brand ambassador for Vadilal Ice Creams. **Parineeti Chopra** has been chosen as the young new face of Vadilal Ice Creams and is all set to take the company to new heights of success.

Taking forward our tradition of introducing innovative products year on year, we have launched Badabite Select, rich chocolate bar covered with premium dark Belgian chocolate. Butterscotch flavor in Flingo, Indulge flavors in Party Pack, namely, Berry cake, Shahikalakand and Mango Choco as well as Cyclone in the Ice Trooper range.

Our new campaign for Badabite, Flingo & Gourmet with Parineeti Chopra has received a great response and high brand recall. Our Ice Trooper advertisement has also become very popular amongst children.

Along with newly launched flavours, our existing flavours and sub brands like Badabite, Flingo, Ice Trooper, Frootful Juices & Gourmet Tubs continue to show substantial movement in the market. The challenge of sustaining the innovation trend has been met by introducing new variants in these brands regularly.

As multinational ice cream brands enter India, it has become imperative for us to reinvent our strategy to consolidate our leadership. We have always endeavored to offer innovative products to the consumers and are proud of the fact that there are many products which have been introduced by us in the Indian market that have gone ahead to become regular products for all ice cream manufacturers.

The overall consumer awareness and size of the premium ice cream segment has increased with the entry of international brands in India. Following these developments, we have also launched many variants in the premium segment like ice cream bars, ice cream sandwiches, ice cream cakes, etc. under the brand name Artisan.

With an upgrade in production technology, it has become more feasible for us to offer premium and innovative products in the market. Our Ice Trooper range, launched in 2012, continues to lead the kids segment and has become a favorite across India.

Vadilal has started exclusive parlors in two formats: Scoop Shop and Hangout. These formats offer a contemporary trendy range of Premium Ice Creams and Concoctions in a very chic ambiance. The purpose of launching these two formats is to present the brand in a very contemporary and modern way. It is in line with our efforts towards shifting the brands focus from mass to mass premium.

FUTURE STRATEGY:

Looking at the trends from the recent past, we foresee fast growth in the traditional "out of home food" category like ice creams and frozen desserts. However, along with the increasing demand for convenience, the continuing need for value as a trend is also growing. We plan to continue with the strategy of consolidating our presence in the high end premium segment. Earlier Vadilal was only focused on offering mass segment products. However, we have been able to increase our share in the premium segment as well and it has helped the overall growth.

Distribution definitely plays a key role in the success of our business. The Company is planning to increase our reach in the existing market in terms of consolidating our presence in Cash and Carry format as well as the Modern Retail segment. The logistics of ice cream, being a cold chain product, are complex and the Company is continuously expanding its cold chain distribution network through refrigerated vehicles and deep freezers.

The Company is working on increasing the physical touch points with our consumers with an ever-increasing network of dealers, FOWs (Freezer On Wheels), POWs (Parlour On Wheels) and Ice Cream parlours.

Along with various ATL campaigns, the Company also plans various BTL activities to enhance consumer experience with Vadilal. The Company plans to organize innovative cross promotional activities to enhance the brand engagement with the consumers and use the digital space actively as well for the same. The Company also plans to increase the branding activity at retail level.

Marketing

To ensure maximum exposure to the public in terms of marketing, we spend on an optimum mix of ATL and BTL activities. We utilize various communication touch points like Retail, Outdoor, Print, TV, Internet, Social Media etc. to get the brand message across. This year, we have a 360 degree marketing plan. However, the advertising budgets are skewed more towards television as we have a nationwide reach now. Apart from traditional media platforms, we also enjoy commendable brand presence and preference in the digital space.

Our consumer engagement initiative, 'Vadilal Freeze the Moment Contest' Calendar, launched in 2012, has become a successful annual event and is eagerly awaited by consumers every year.

On the sales promotions front, we constantly engage our trade patrons through various schemes and offers. Vadilal also invests in consumer promotional activities from time to time. As an example, last year we had a "surprise gift" available with each candy of Ice Trooper to delight our young customer which we have continued this year as well.

PROCESSED FOOD DIVISION:

Today the world's market is all about convenience. Beyond the basic needs and necessities, luxury has now become synonymous with convenience and ease of operation. 'Quick and easy' is the new market *mantra*, and one area where this behavioral evolution has turned out to be a boon is the Convenience Foods market.

The frozen foods segment has been the segment that has catered the most to these altering lifestyle needs. Garden-picked fresh and as delicious as home-cooked food, with qualities like longer shelf life and made with advanced technological expertise, the Frozen Foods category is making positive strides towards representing a more attractive and relevant proposition to a wider range of consumers today.

Vadilal Quick Treat, one of the country's leading processed food brand, has adopted a very organized approach towards attaining the market leadership. Launching new products, strengthening existing product verticals through product extensions, thoughtful and insightful consumer oriented market communications are few steps that have given the brand a strong hold on the distribution channel and the market itself. Collaborations with strong regional distribution companies across the world, consistent delivery of quality products remains the agenda of the company.

Vadilal Quick Treat, has focused on increasing the product offerings. While it has one of the biggest 'IQF vegetables' range, the brand has now launched a range of potato based snacks as well. Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Vadilal Enterprises limited** ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Vadilal Enterprises limited** ("the Holding Company and its associate which are companies incorporated in india") as of 31 March 2016 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Holding Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations given to us, Holding company and its associate have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
