### “In Steps With The Changing Times” Message From Managing Director

Dear Shareholders,

Greetings. It gives me great pleasure presenting to you the 16th Annual Report of Star Housing Finance Limited (Formerly Akme Star Housing Finance Limited). I wish and pray for your safety and well being and your near and dear ones as we are collectively fighting out against the Covid-19 pandemic. Please stay safe and protected. FY'2020-2021 was marked with business disruption due to Covid-19 pandemic across the globe. India too had to face the consequences of the lockdown imposed across the geographies for most part of the first half of the financial year. There could not have been an alternative as the fight was against an unknown virus that spread with alarming speed and that too vaccine for the same back then was not available. Almost every sector faced the heat as business was virtually at a standstill. Housing Finance and specifically Affordable Housing Finance Space in which your Company operates faced the challenge.

While your Company's transformation journey in the current version 2.0 is underway, this disruption tested the fabric of our framework that we established. Collectively we decided that we will walk the

talk with our customers across our geographies of operations. We maintained close connect with them through the lockdown through modes of communication other than face to face meeting. We educated them about the importance of being regular in repayment of EMIs for their home loans. We also provided any support that they may need and encouraged them to use online payment methods that are available including ACH/auto debit facility. We transparently communicated the moratorium guidelines issued by the RBI across our website / social media platforms and through our interaction with the customers. Around 33% of our live accounts opted for the moratorium. Further, we restructured assets of 136 customers to help them in these difficult times. The operations team facilitated the overall process. Our focus during the first half was solely on maintaining our asset quality and addressing any slippages that may come to the fore. We decided that we will adopt conservative provisioning policy as a part of which we created and provided Rs.53 lakhs towards Covid impairment reserve. We monitored the performance of our accounts as the collection efficiency increased from 35% in Apr 2020 to more than 95% in Mar 2021. Seriously affected accounts were decided to be written off and accordingly we wrote off Rs.1.26 crs through the financial year. However, we continue to interact with these 32 accounts and are confident of getting most of them regularized as we move ahead. Overall your Company has been able to withstand the disruption through dedicated efforts of staff on ground and have recorded even better performance in lockdown 2.0 in FY'2021-2022. I am confident that getting tested during such time which would probably be a once in a century event, your Company stands strong and would continue to ensure the asset quality remains intact.

Your Company slowly resumed our business in the second half of FY'2020-2021 and opened our centers in line with guidelines issued by the Central and State Government and competent authorities. Our staff

observed all Covid-19 safety protocols and took safeguard measures while at work. We revisited our credit policy, operations guidelines and overall risk framework factoring in the information /experience during the lockdown and made necessary changes. We started disbursement activity and have disbursed Rs.29.43 crs during the financial year. Our AUM stands at Rs.94.54 crs with 1108 live accounts. We retained our focus on providing housing finance assistance to EWS (Economically Weaker Section) home buyers looking to purchase/construct their own home in the form of low cost housing units. Our presence through our network that includes physical branches and digital PoPs across Maharashtra, Madhya Pradesh, Gujarat, Rajasthan and Tamil Nadu; we focus on Tier II, Tier III locations and semi urban areas.

Your Company's liability franchise has been strengthened with credit lines received from the State Bank of India, the Union Bank of India and the National Housing Bank (The NHB). Your Company has been able to raise Rs. 43.60 crs during FY'2020-2021 and the same has been deployed for incremental disbursements. We have expanded our ambit and are now engaging with various public sector banks, private sector banks and financial institutions

Your Company is now formally known as Star Housing Finance Limited. This new name reflects the standalone identity and the collective endeavor of our 85+ strong staff across our locations and business functions to become a meaningful player in the retail low cost housing finance space. We have got all necessary approvals and have received the fresh CoR from the RBI with this new name. We shifted our corporate / central office to bigger premises in North Mumbai in line with our growth requirements and long term business plan. Your

Company continues to strengthen our business verticals by on boarding HFC professionals with strong domain who can be a part of our long term journey of creating a housing finance institution of repute. Post necessary approvals, we have announced our first Employee Stock Option Scheme and have made necessary communication to our employees. This is a step to enable value creation for them as your Company grows sustainably over a period of time. Your Company's corporate governance framework was strengthened with Shri. A P Saxena, an ex NHB official having strong domain in risk and compliance joining the board as an independent director. Going ahead, your Company looks to engage with senior professionals of repute at board/advisory levels as we resolve to be a board governed institution

Your Company decided to have constant communication with stakeholders. In this regard, we organize earning calls in each of the quarters and apprise them about the developments across business areas. Our Mumbai office acts as a central point for engagement with banking partners, rating agencies, business associates, media partners and finding the right talent for scale up.

Concluding this communication, I express my gratitude to all stakeholders, the Reserve Bank of India (RBI), the National Housing Bank (NHB), our Lenders, our rating agencies, our bankers, and our Customers for their unwavering faith in Star Housing Finance Limited. This journey would not have been possible without the guidance and support of the Board. Last, but not the least, I must acknowledge the unwavering efforts of our employees. They have been a source of inspiration during these uncertain times and deserve huge appreciation.

I also want to express my deepest gratitude to scientists, doctors, nurses, police, volunteers and many others who continue to wage the battle against COVID-19. We all owe a great deal to them. I am confident that we are going to ultimately win the fight against COVID-19 because each one of us is engaged in this fight and the human spirit to fight and survive is greater than any disease or pandemic. With the collective effort of all Indians, India will eventually triumph over the crisis and emerge stronger, bigger and better than ever. India inspires us and we too at Star Housing Finance look forward to march ahead with our heads held high aiming to create value for all stakeholders

**Yours Truly,**

**Ashish Jain**

## Message from Chief Financial Officer

### For the year ended 31st March, 2021

Dear Shareholders

FY 19-20 was a very unique and challenging year for business and personal alike, FY 20-21 was equally exciting and challenging. The year provided ample opportunities for everyone and those who were well prepared did reap the benefits by tapping into the opportunities that came by. We started the year with a loan book of Rs. 77.1 crores and happy to submit to you all that we ended the year with a loan book of Rs. 94.54 crores. The 1st quarter of the year saw a complete nationwide lockdown across the nation. Fresh Disbursements had come to a complete standstill due movement restrictions as well the inability to predict how the Pandemic and lockdown will play out during the year. July – January were the period during which we could operate with some semblance of normal operations. Our branches started functioning in phased manner depending on the local restrictions in July and by September all our branches were functioning with full adherence to local level guidelines. We reached our highest disbursement of Rs. 7.90 crores in March 2020 before the advent of the dangerous 2nd wave in late January 2021. We disbursed a total of Rs. 29.43 crores in FY 21. Business again was affected in the last quarter which sees the highest disbursement traditionally. Despite the challenges we managed to grow the loan book by 23% in FY 21. We also have managed to reduce our Project Loan Book to Rs. 15 crores which is 16% of our overall Loan book.

We started FY 21 with 2 sanctions from NHB Rs. 13.25 crores in June 2020 that was followed by a new sanction of Rs. 7 crores from SBI. We ended the year on a high note by increasing our liability franchise by successfully adding Union Bank of India as a lender who sanctioned a Term Loan to Star HFL for the 1st time. We were successful in lowering our cost of borrowing to 9.04% p. a. and our overall outstanding borrowing stands at Rs. 64.28 crores as of March 2021. Our gearing has improved to 1.2X as of March 2021.

This year being dominated by pandemic and challenges it had offered to us and our borrowers, required us to be cautious and conservative when it comes to provisioning or write offs. Since our loan book also has seasoned with passage of time, the team was constantly looking out for early warning signals of stress, recognizing the challenge and working with the borrowers to address it jointly with our borrowers. Our on ground effort of staying connected with our customers yielded us rich dividends and was well appreciated by our borrowers too. Consequently we have written off Rs. 1.26 crores of retail loans and also provided Rs. 0.70 crores towards Impairment of Loan Assets as part of IND AS requirements besides an additional transfer of Rs. 0.53 crores to the COVID19 Impairment Reserves as on March 2021.

Investment in building capacities in our branches, write off of 1.26 crores and the additional provisioning resulted in our PAT Rs. 1.56 crores in March 2021 as against Rs. 5.04 crores in March 2020. Total Revenue for the year was marginally down to Rs. 15.60 crores in March 2021 as against Rs. 15.90 crores in March 2020. Our liquidity position is extremely comfortable at Rs. 20.1 crores. The Yield on our Loan portfolio stood at 16.61% and NIM at 11.31% as on March 2021 vis a vis 21.05% and 14.23% respectively. The moderation in the Portfolio Yield and NIM is primarily driven by our focus on increasing Retail Individual Home Loan and reduction in the Project Loan during the entire FY. We have also paid a 2 Interim Dividends of 0.10% and 0.15% in the month of October 20 and January 21 respectively.

**Regards**

# MANAGEMENT DISCUSSION AND ANALYSIS 2020-21

## **Global Economic Review**

In a little over a year into the COVID-19 pandemic, global economic activity is making a hesitant and uneven recovery on the back of extraordinary policy responses by governments and central banks on monetary, fiscal and regulatory fronts. While the accumulating human toll continues to raise concerns, as growing vaccine coverage lifts sentiment, focus is shifting to developing policies and strategies to nurse adversely affected sectors back to health and normalcy. The contraction of activity in 2020 was unprecedented, but it could have been a lot worse. Economic recoveries are diverging across countries and sectors, reflecting variation in pandemic-induced disruptions and the extent of policy support. As per IMF, after an estimated contraction of -3.3% in 2020, the global economy is projected to grow at 6% in 2021.

On the back of policy support, economic activity in various sectors is gaining momentum while adapting to pandemic-induced restrictions. USA has already announced opening up of economy as a large portion of its population has been vaccinated. Europe too is slowly opening up borders to revive summer holiday tourism. With vaccination gaining momentum, UK is also opening up its economy.

Vaccine rollout in major world economies has raised hopes of higher economic growth. However, the bounce back will also be largely dependent on controlling the pandemic in low-income and emerging market economies. Strong international cooperation is vital for achieving these objectives, especially towards ensuring adequate worldwide vaccine production and universal distribution at affordable prices so that all countries can quickly and decisively beat back the pandemic.

The future of global economic growth will depend on three major factors: the evolution path of the health crisis, including whether the new COVID-19 strains prove susceptible to vaccines or they prolong the pandemic; the effectiveness of policy actions to limit persistent economic damage; and the evolution of financial conditions across countries and the adjustment capacity of their economies.

According to IMF's World Economic Outlook (Apr'21), the world economy is projected to grow by 6.0% in FY22 from a decline of 3.3% in FY21 and normalize to 4.4% growth in FY23. The projections for FY22 and FY23 are promising and are aided by additional fiscal support in the few large economies and anticipated vaccine powered recovery.

## **Indian Economic Review**

The Indian Government announced the strictest lockdown in public movement and economic activity from March 24, 2020, to control the spread of COVID-19 pandemic. As economic activity came to a grinding halt, the lockdown had a devastating impact on an already-slowing economy as 1.36 billion Indians were required to stay indoors - one of the most stringent lockdown enforced in the world.

As a result, the first quarter FY 2020-21 registered a 24.4% contraction in the Indian GDP, which was followed by a contraction of 7.3% in the second quarter. With the economy opening up in the second half, Q3 and Q4 of FY 2020-21 saw GDP growth of 0.3% and 1.6% respectively. Overall, India saw GDP contraction of 7.3% in FY 2020-21, its first ever since FY 1980-81. While steady growth in the agricultural sector throughout the year was the silver lining for FY 2020-21, the second half was buoyed by growth in construction, manufacturing and financial services sector. The scars of the pandemic were evident in the retail, airlines, hotels and the wider hospitality industries. MSMEs faced a bigger crisis due to shortage of liquidity and supply chain disruptions.

Economic recovery process following the first wave. The second wave created enormous stress on the health infrastructure of the country with death rates rising far beyond that seen in the first wave. Exponential rise in infections and renewed restrictions have caused a large dent in consumer confidence. Lockdown in various states, slowing production and distribution of vaccine doses throughout the country, rise in occurrences of fungal infections and burdened finances of various states due to decreasing revenues and higher expenditure on health have added to an already uncertain near term economic growth, and has dealt a blow to hopes of double-digit growth rate in FY 2021-22. As infections recede, the economy is slowly opening up again. Vaccination in the country has picked up commendable pace, and it is hoped that further waves of infection do not occur.

The Reserve Bank of India (RBI) also announced several measures to ease the financial system stress, including enhancing system liquidity, reducing interest rates, moratorium on loan repayments for borrowers, asset classification standstill benefit to overdue accounts where a moratorium had been granted amongst others to alleviate the economic stress induced by the pandemic which had an impact across sectors that were already showing signs of a slowdown before the outbreak.

Under the Rs. 45,000 crore partial credit guarantee scheme, announced as a part of the Atmanirbhar Bharat package, three additional months were given to banks to purchase the portfolio of non-banking financial companies.

The Union Cabinet approved the Production-Linked Incentive (PLI) scheme for 10 sectors: pharmaceuticals, automobiles and auto components, telecom and networking products, advanced chemistry cell batteries, textile, food products, solar modules, white goods, and specialty steel. These incentives could attract investments in modern technology, catalyzing India's journey towards becoming a global player.

### **Impact of COVID-19 on Housing Finance and Non-Banking Finance Companies**

Housing Finance Companies [HFCs] and Non-Banking Finance Companies [NBFCs] have been impacted by COVID-19 by way of operational disruptions, subdued collections, and requirement of creating additional provisions to meet the post-COVID uncertainties. The financial year saw equity fund raise by all major players in the financial sector, including private sector banks, to keep up the capital adequacy cushion in the post COVID scenario. However, since opening up of the economy from August 2020 onwards, all major players have seen their collection efficiencies gradually returning to pre-COVID levels. Adapting to the restrictions of the imposed lockdown, Banks, NBFCs and HFCs are ramping up their digital initiatives in order to keep up the loan book growth and to attend to the customer requirements.

### **New Regulatory Framework**

In August 2019, the RBI took over the powers to regulate HFCs from the NHB. However, the NHB continues to carry out the function of supervision of HFCs. In October 2020, the RBI issued changes in the regulatory framework for HFCs in supersession of the corresponding regulations by the NHB. The new framework introduced certain regulatory changes for HFCs such as the principal business criteria for housing finance, definition of housing finance, requirement of minimum percentage of total assets required towards housing finance and housing finance for individuals, minimum net owned fund requirements, guidelines on liquidity risk management framework and liquidity coverage ratio, amongst others. In November 2020, the RBI issued guidelines around co-lending by Banks and NBFCs (including HFCs) to priority sector in order to improve the flow of credit to the unserved and underserved sector of the economy and make available funds to the ultimate beneficiary at an affordable cost, considering the lower cost of funds from banks and greater reach of the NBFCs/ HFCs. On February 17, 2021, the RBI issued Master Direction - Non-Banking Financial Company - Housing Finance Company (Reserve Bank) Directions, 2021 (RBI HFC Directions). These directions came into force with immediate effect. In January 2021, the RBI issued a discussion paper to introduce a revised scale-based regulatory framework for NBFCs. The final guidelines for the same have not been released yet.

### **Government initiatives for the Housing Finance Companies**

The spread of COVID-19 pandemic and the consequent lockdowns across the country led to large scale economic disruption across sectors and industries. In order to alleviate financial burden on borrowers and to help businesses get back on their foot, the government and the RBI announced a slew of regulatory forbearances and schemes during the year - some of the key being:

- **Moratorium:** The RBI on March 27, 2020 announced a COVID-19 regulatory package wherein it allowed eligible borrowers - whose accounts were standard as at February 29, 2020, to avail moratorium for term loan instalments falling due between March 1, 2020 and May 31, 2020. In May 2020, the moratorium was further extended for 3 months i.e. up to August 31, 2020. During the moratorium, a standstill was imposed on asset classification norms to mitigate the impact on credit quality. The asset classification standstill order was later vacated on March 23, 2021 by the Honourable Supreme Court of India.
- **Resolution Framework:** In August 2020, the RBI announced a Resolution Framework, whereby it allowed a one-time restructuring of loans experiencing COVID-19 related stress, without classifying them as NPA. Borrowers classified as standard but not in default for more than 30 days as at March 1, 2020 were eligible to avail the benefits under the resolution framework.
- **ECLGS Scheme:** The Finance Ministry of India launched the Emergency Credit Line Guarantee Scheme (ECLGS) in May 2020 with an aim to provide Rs. 3 Lakh Crores of unsecured loans to MSMEs and business enterprises to mitigate the distress caused by the COVID induced lockdowns. In November 2020, the scheme was extended to 26 other sectors as identified by the Kamath Committee and the health sector. The scheme provides 100% guarantee on loans up to 20% of the eligible borrower's total outstanding credit as of February 29, 2020 subject to the loans being less than or equal to 30 days past due as on February 29, 2020.

- **Waiver of interest on interest:** In October 2020, the government announced ex-gratia payment of the difference between compound interest and simple interest on loans up to Rs. 2 Crores, during the six-month moratorium period from 1st March to 30th August 2020, for certain eligible categories of loans such as MSME loans, education loans, housing loans etc. All eligible borrowers, which were standard as at February 29, 2020, whether or not they had availed the moratorium, were eligible to receive the difference between compound interest and simple interest on their loans.
- **Atmanirbhar Bharat 3.0:** Income tax relief measures for real estate developers and homebuyers for primary purchase/sale of residential units of value (up to Rs. 2 crore from November 12, 2020 to June 30, 2021).
- **Pradhan Mantri Awas Yojana (Urban):** Around 1.12 crore houses were sanctioned in urban areas.
- **Affordable Housing Fund:** Created in NHB with an initial corpus of Rs. 10,000 crore using priority sector lending short fall of banks/financial institutions for micro financing of housing finance companies.
- **Tax moderation:** GST Council cut tax to 5% from 12% on premium houses and to 1% from 8% for affordable houses.

#### **GOVERNMENT POLICIES FOR THE HOUSING FINANCE COMPANIES:**

In June 2020, the RBI released draft framework for the regulation of HFCs. The Draft Framework proposed to bring HFCs under the regulatory umbrella of the RBI, putting it on a level playing field with other NBFCs. The RBI issued a master circular titled 'Non-Banking Financial Company - Housing Finance Company (Reserve Bank) Directions, 2021' on February 17, 2021, which supersedes the previously issued directions by NHB and the RBI. The circular provides a consolidated regulatory framework applicable to HFCs.

1. To qualify as HFC, 60% of the total assets (net of intangible assets) should comprise of housing finance, of which at least 50% should be towards individual housing loans.
2. HFCs to achieve CRAR of 15% by March 2022.
3. RBI permitted lending to individual home buyers or construction of the same project.
4. Capital market exposure has been capped at 40% of the net worth for HFCs.
5. HFCs to achieve minimum Net owned fund of H20 crore by March 31, 2023.

The Government of India approved a scheme to improve NBFC/HFC liquidity through a SPV to minimize systemic risks. The eligible non-bank lenders were to be provided short-term liquidity through a special purpose vehicle (SPV) that would purchase the short-term papers from eligible NBFCs/HFCs and utilize proceeds for extinguishing existing liabilities.

#### **Star HFL Review: Setting the Foundation for Next Phase of Growth**

The year under review was a challenging one for the Indian economy and it had a domino effect on the housing finance sector, and inevitably, on us as well. During the year, we embarked on a journey of strategic priorities that we set for ourselves in order to create value for all the stakeholders. The three major areas viz strengthening the Core, Drive Efficiency and Accelerate Growth are the fulcrum of the new agenda that we had set for ourselves during the year. The triumvirate consists of seven focus areas that will help grow business, strengthen risk management, increase profits, and create value for the stakeholders.

#### **Outlook:**

The outlook of India's housing finance sector is likely to be robust across the long-term for a fundamental reason: more Indians want to buy houses for enhanced security and asset creation even though renting could be cheaper in the short-term.

As the Indian economy matures, the mortgage-to-GDP ratio of less than 10% (which is significantly lower than other countries) could move towards the mid-teens and make the housing finance a USD 750 billion market over five years, creating a sweet spot for specialized affordable HFCs.

The housing finance sector is expected to grow sustainably on account of sustained population growth, rapid growth coming out of non-metro India, increased per capita incomes, home ownership preference, affordable home prices along with a need for external financing, consistent government support and extensive under penetration.

**NATIONAL HOUSING BANK (NHB) GUIDELINES:**

In August 2019, the RBI took over the powers to regulate HFC from the NHB. However, the NHB continues to carry out the Function of supervision of HFC. In October 2020, the RBI issued changes in the regulatory framework for HFC in supersession of the corresponding regulations by the NHB.

The new framework introduced certain regulatory changes for HFC such as the principal business criteria for housing finance, definition of housing finance, requirement of minimum percentage of total assets required towards housing finance and housing finance for individuals, minimum net owned fund requirements, guidelines on liquidity risk management framework and liquidity coverage ratio, amongst others.

In November 2020, the RBI issued guidelines around co-lending by Banks and NBFCs (including HFC) to priority sector in order to improve the flow of credit to the unserved and underserved sector of the economy and make available funds to the ultimate beneficiary at an affordable cost, considering the lower cost off funds from banks and greater reach of the NBFCs/ HFC. On February 17, 2021, the RBI issued Master Direction - Non-Banking Financial Company - Housing Finance Company (Reserve Bank) Directions, 2021 (RBI HFC Directions). These directions came into force with immediate effect. In January 2021, the RBI issued a discussion paper to introduce a revised scale-based regulatory framework for NBFCs. The final guidelines for the same have not been released yet.

# INDEPENDENT AUDITOR'S REPORT

To,

The Members of

**STARHOUSING FINANCE LIMITED,**

## REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Star Housing Finance Limited ("the Company") (formerly known as Akme Star Housing Finance Limited), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss, Statement of Changes in Equity and the Statement of Cash Flow for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its profit, changes in equity and its cash flow for the year ended on that date

### BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

### EMPHASIS OF MATTER

We draw your attention to Note No. 34 to 38 to the financial statements which describe the extent to which the COVID-19 pandemic will impact the company's operations and its financial metrics including the expected credit loss on financial assets which are dependent on uncertain future developments. Our opinion is not modified in respect of this matter.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatements of the financial statements. The result of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

### Key Audit Matter

#### INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITORS' REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual Report, for example, Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

The other information is expected to be made available to us after the date of this auditors' report. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

#### RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of

these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in

the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- 1 As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure 'I' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, based on our audit we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - (c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
  - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - (e) On the basis of written representations received from the directors as on March 31, 2021 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of section 164 (2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure 'II'.
  - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended: In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 read with schedule V to the Act.
  - (h) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
    - i. The company does not have any pending litigations which would impact its financial position.
    - ii. The Company did not have any long term contracts including any derivative contracts for which there were any material foreseeable losses;
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.

**Annexure 'II' to the Independent Auditors' Report**

(Referred to in Paragraph 2(f) under the heading "Report on other legal and regulatory requirements" of our report of even date)  
Report on the Internal Financial Controls under clause (i) of sub section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Star Housing Finance Limited (formerly known as Akme Star Housing Finance Limited) ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING**

company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**OPINION**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

## 1. Reporting entity

Star Housing Finance Limited (Formerly known as "Akme Star Housing Finance Limited") ("The Company"), was incorporated on March 21st, 2005 and Registered office at Udaipur, India. The company is registered with National Housing Bank (NHB) under section 29A of the National Housing Bank Act, 1987 with effect from 31st August, 2009. We have received a new incorporation certificate from ROC dated 10th May, 2021 in the name of Star Housing Finance Limited and we have applied for a new certificate of registration to our regulator NHB/RBI. The company is primarily engaged in the business of providing loans to individuals, corporate and developers for the purchase, construction, development and repair of houses, apartments and commercial properties in India. The Company is a public listed company and its shares are listed on Bombay Stock Exchange (BSE), India.

## 2. Basis of preparation

### 2.1 Statement of compliance and basis of Preparation and Presentation

The standalone financial statements ("financial statements") have been prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 as per Section 133 of the Companies Act, 2013 and relevant amendment rules issued thereafter ("Ind AS") on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained below, the relevant provisions of the Companies Act, 2013 (the "Act").

The financial statements are prepared and presented on going concern basis and the relevant provisions of the ACT and the guidelines and directives issued by the Reserve Bank of India (RBI) and National Housing Bank ("NHB") to the extent applicable.

The standalone financial statements are prepared in accordance with the provisions contained in section 129 of the Companies Act, 2013, read with Division III of schedule III.

The standalone financial statements are presented in Indian Rupee (₹) and all values are rounded off to the nearest rupees in Lakh, except where otherwise indicated.

### 2.2 Presentation of financial statements

The company presented its financial statements as per Division III of Schedule III. Balance sheet is prepared in order of liquidity.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognized amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstance :-

- (i) the normal course of business
- (ii) the event of default

### 2.3 Functional and presentation currency

These financial statements are presented in Indian rupee (INR) which is also the company's functional currency. All amounts have been rounded off to the nearest rupees in lakhs and at two decimal places, unless otherwise indicated.

### 2.4 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting date as required under relevant Ind AS.

### 2.5 Use of estimates and judgments

Preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expense. Actual results may differ from these

estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

## Judgments

### (i) Business model assessment

Classification and measurement of financial assets depend on the results of the assessment of sole payment of principle and interest (SPPI) and the business model test. The company determines the business model at a level that reflects how group of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and measured, the risks that affects the performance of the assets and how these are being managed. The company monitors the financial assets on a continuous basis to assess whether the business model for which the financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of the assets.

### (ii) Fair value of financial instruments

The fair value of financial instruments is the price that would be received upon selling an asset or paid upon transforming liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether the price is directly observable or estimated using another valuation technique. When the fair value of financial assets and liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The input to these models are taken from observable markets wherever possible, where this is not feasible, estimation is required in establishing fair values. Judgments and estimations include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

### (iii) Effective interest rate ("EIR") method

EIR methodology recognizes interest income/expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given/taken and recognizes the effect of potentially different interest rates at various stages and characteristics of the product life cycle (including prepayments, penalty interest and charges).

This estimation by nature requires an element of judgment regarding the expected behavior and life cycle of the instruments, as well expected changes to interest rates and other fee income / and expense that are integral part of the instrument.

### (iv) Impairment of financial asset

The measurement of impairment losses across all categories of financial assets require judgment, in particular, the estimation of the amount and the timing of the future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

### (v) Provisions and other contingent liabilities

The company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. Cases where the company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflow probable, it recognizes a provision against the same. Where the probability of outflow is considered remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed for the same..

## 3.. Significant accounting policies

### 3.1 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery.

#### A. Interest Income

Interest income on financial instrument is recognized on a time proportion basis taking into account the amount outstanding and the effective interest rate applicable.

**EIR method**

Under Ind AS 109, interest income is recorded using the effective interest rate method for all financial instruments measured at an amortized cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument, or when appropriate, a shorter period to the net carrying amount of the financial asset.

The EIR (and therefore, the amortized cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and cost that are an integral part of the EIR. The company recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of financial instrument.

If expectations regarding the cash flow on the financial assets are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortized through interest income in the statement of profit and loss.

The company calculate the interest income by applying EIR to the gross carrying amount of financial assets other than credit impaired assets.

When a financial asset becomes credit impaired and is, therefore, regarded as 'Stage-3', the company calculates interest income on the net basis. If the financial asset cures and is no longer credit impaired, the company reverts to calculating interest income on gross basis.

**B. Fee and Commission Income**

Fee and commission income include fees other than those that are an integral part of EIR. The company recognizes the fee and commission income in accordance with the terms of the relevant contracts / agreements and when it is probable that the Company will collect the consideration.

**C. Other Income**

Other Income represents income earned from the activities incidental to the business and is recognized when the right to receive the income is established as per the terms of the contract.

**3.2 Financial instrument-initial recognition****A. Date of recognition**

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognized on the trade date, i.e., the date that the company becomes a party to the contractual provisions of the instrument. Loans are recognized when fund transfer is initiated or disbursement cheque is issued to the customer. The Company recognizes debt securities, deposits and borrowings when funds are received by the Company.

**B. Initial measurement of financial instruments**

The classification of financial instruments at initial recognition depends on their purpose and characteristics and the management's intention when acquiring them. All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

**C. Measurement categories of financial assets and liabilities**

The company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at amortized cost.

**3.3 Financial assets and liabilities****A. Financial assets****Business model assessment**

The company determines its business model at the level that best reflects how it manage group of financial assets to achieve its business objective.

The company's business model is not assessed on an instrument-by-instrument basis; but at a higher level of aggregated portfolio and is based on observable factors such as:-

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the company's key management personnel.
- b) The risk that affect the performance of the business model (and the financial assets held within that business model) and in particular, the way those risks are managed.
- c) The expected frequency, value and timing of sales are also important aspects of the company's assessment.

### **SPPI test**

As a second step of its classification process, the company assesses the contractual terms of financial asset to identify whether they meet SPPI test.

Principal for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial assets (for example, if there are repayments of principal or amortization of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the company applies judgment and considers relevant factors such as the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement that do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows:

#### **i) Financial assets carried at amortized cost (AC)**

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold in order to collect contractual cash flows and the contractual terms of the financial assets that give rise on specified dates to cash flows that are sole payments of principal and interest on the principal amount outstanding.

#### **ii) Financial assets at fair value through other comprehensive income (FVTOCI)**

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of financial assets give rise on specified dates to cash flows that are sole payments of principal and interest on the principal amount outstanding.

#### **iii) All other Financial assets at fair value through profit or loss (FVTPL)**

Financial assets: subsequent measurement and gains and losses

#### **i) Financial assets at fair value through profit and loss (FVTPL)**

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in statement of profit or loss.

#### **ii) Financial assets carried at amortized cost (AC)**

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairments are recognized in statement of profit and loss. Any gains and losses on de recognition is recognized in statement of profit and loss.

### **B. Financial Liability**

#### **i) Initial recognition and measurement**

All financial liabilities are initially recognized at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value on initial recognition.

**ii) Subsequent measurement**

Financial liabilities are carried at amortized cost using the effective interest method.

**3.4 Reclassification of financial assets and liabilities**

The company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The company did not reclassify any of its financial assets or liabilities in the year ended 31st March, 2021

**3.5 De-recognition of financial assets and liabilities****A. De-recognition of financial assets due to substantial modification of terms and conditions.**

The company derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially it becomes a new loan, with the difference recognized as a de-recognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognized loans are classified as Stage 1 for ECL measurement purposes.

**B. De-recognition of financial Instruments other than due to substantial modification****i) Financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when the contractual right to the cash flow from the financial assets expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership are transferred and it does not retain control of the financial asset.

On de-recognition of a financial asset in its entirety, the difference between the carrying amount (measured at the date of de-recognition) and the consideration received (including any new asset obtained less any new liability assumed) is recognized in the statement of profit and loss.

Accordingly, gain on sale or de-recognition of assigned portfolio are recorded upfront in the statement of profit and loss as per Ind AS 109. Also, the company recognizes servicing income as a percentage of interest spread over tenure of loan in cases where it retains the obligation to service the transferred financial asset.

**ii) Financial liability**

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in the statement of profit and loss.

**3.6 impairment of financial assets****A. Overview of ECL principles**

In accordance with Ind AS 109, the company uses ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL). Expected credit losses are measured at fair value through a loss allowance at an amount equal to:

- i) the 12 months expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date or,
- ii) Full lifetime expected credit losses that result from all possible default events over the life of the financial instrument.

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original EIR, regardless of whether it is measured on an individual basis or a collective basis.

Based on the above, the company categorizes its loans into stage 1, stage 2 and stage 3, as described below:

Stage 1:

When loans are first recognized, the company recognizes an allowance based on 12 months ECL. Stage 1 loans include those loans where there is no significant credit risk observed and also includes facilities where the credit risk has been improved and the loan has been reclassified from stage 2 or stage 3.

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the company recreates an allowance for the lifetime ECL. Stage 2 loans also include facilities where the credit risk has improved and the loan has been reclassified from stage 3.

Stage 3:

Loans considered credit impaired are the loans which are past due for more than 90 days. The company records an allowance for life time ECL

Loan commitments:

When estimating LTECLs for undrawn loan commitments, the company estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down.

The mechanics of ECL calculations are outlined below and the key elements are as follows:

PD:

Probability of default ("PD") is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognized and is still in the portfolio.

EAD:

Exposure at default ("EAD") is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayment of principal and interest.

LGD:

Loss given default ("LGD") is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realization of any collateral. It is usually expressed as a percentage of the EAD.

The company has calculated PD, EAD and LGD to determine impairment loss on the portfolio of loans and discounted at an approximation to the EIR. At every reporting date, the above calculated PDs, EAD and LGDs are reviewed and changes in the forward looking estimations are analyzed.

The mechanics of the ECL method are summarized below:

Stage 1:

The 12 months ECL is calculated on the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within 12 months after the reporting date. The company calculates the 12 months following the reporting date. These expected 12 months default probabilities are applied to forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.

Stage 2:

When a loan has shown a significant increase in credit risk since origination (if financial asset is more than 30 days past due), the company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.

Stage 3:

For loans considered credit impaired (if financial asset is more than 90 days past due), the company recognizes the lifetime expected credit losses for these loans. The method is similar to that for stage 2 assets, with the PD set at 100%.

#### **B. Loans and advances measured at FVOCI**

The ECLs for loans and advances measured at FVOCI do not reduce the carrying amount of these financial assets in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortized cost is recognized in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognized in OCI is recycled to the profit and loss upon de-recognition of the assets.

#### **C. Forward looking information**

In its ECL models, the company relies on a broad range of forward looking macro parameters and estimated the impact on the default at a given point of time.

- i) Gross domestic products
- ii) Domestic demand
- iii) Current economic Conditions prevailing in the market (like COVID-19 Pandemic)

#### **3.7 Presentation of allowance for expected credit losses in the balance sheet**

Loss allowance for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

#### **3.8 Write-offs**

Financial assets are written off when the company has stopped pursuing recovery. If the amount to be written off is greater than the accumulated loss allowance, difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in the statement of profit and loss.

#### **3.9 Determination of fair value**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participation at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, the company has taken into account characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair value measurements under Ind AS are categorised into fair value hierarchy based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access on measurement date.
- Level 2 inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 where unobservable inputs are used for the valuation of assets or liabilities.

#### **3.10 Property, plant and equivalent**

##### **i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit and loss.

## ii. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

## iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the Written down value method, and is recognized in the statement of profit and loss.

The company follows estimated useful lives which are given under Part C of the schedule II of the Companies Act, 2013. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset category	Estimated useful life
Furniture and fittings	8 years
Office equipment	5 years
Computers	3 years

## 3.11 Intangible assets

### I. Recognition and measurement

Intangible assets include those acquired by the company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses.

### ii. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

### iii. Amortization

Amortization is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight line method, and is included in depreciation and amortization in statement of profit and loss.

Asset category	Estimated useful life
Computers Software	5 years

Amortization method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

## 3.12 Impairment of non-financial assets

The Company determines periodically whether there is any indication of impairment in the carrying amount of its non-financial assets. The recoverable amount (higher of net selling price and value in use) is determined for an individual asset, unless the asset does not generate cash inflow that are largely independent of those from other assets or group of assets. The recoverable amount of such assets are estimated, if any indication exists and impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Where it is not possible to estimate the recoverable amount of an individual asset, the company

estimates the recoverable amount of the cash-generating unit to which the asset belongs.

### 3.13 Employee benefits

#### i. Post employee benefits

##### Defined contribution plan

The Company's contribution to provident fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

##### Gratuity

The company's net obligation in respect of Gratuity is calculated separately by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. Accordingly, company is making provision for the liability as on date of gratuity in the books of accounts.

##### Short term employee benefit

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive which are expected to occur within 12 months after the end of the year in which the employee renders the related service.

### 3.14 Provisions, contingent liabilities and contingent assets

#### Provisions

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation, when the effect of the time value of money is material, the company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

#### Contingent liability

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or; present obligation that arises from past events where it is not probable that an amount of the obligation cannot be measured with sufficient reliability are disclosed as contingent liability and not provided for.

#### Contingent asset

A contingent asset is a probable asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of company. Contingent assets are neither recognized nor disclosed in the financial statements.

### 3.15 Income Tax

Income tax comprises current and deferred tax. It is recognized in Statement of profit or loss except to the extent that it relates to a business combination or to an item recognized directly in equity or in other comprehensive income.

#### i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purpose and the corresponding amount used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- a) Temporary "differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- b) Temporary differences related to investments in subsidiaries, associates and joint arrangements, to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- c) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The Existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax assets can be realized. Deferred tax assets-unrecognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company accepts, at the reporting date, to recover or settle the carrying amount of its assets & liabilities.

Deferred tax assets & liabilities are offset if there is a legally enforceable right to offset current tax liabilities & assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a net basis or their tax assets and liabilities will be realized simultaneously.

**3.16 Borrowing cost**

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use and are capitalized as part of the cost of the asset. All other borrowings costs are recognized as an expense in the profit & loss in the year in which they are incurred.

**3.17 Cash & cash equivalents**

Cash & Cash equivalents comprise cash on hand, cheques on hand and balance with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investment that are readily convertible into known amounts of cash & which are subject to insignificant risk of changes in value.

**3.18 Segment reporting-identification of segments**

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments & geographic segments.

**3.19 Earnings per share**

The Company reports basic & diluted earnings per equity share in accordance with Ind AS 33, Earnings per Share. Basic Earnings per equity share is computed by dividing net profit/ loss after tax attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed & disclosed by dividing the net profit/ loss after tax attributable to the equity share holders for the year after giving impact of dilutive potential

equity shares for the year by the weighted average number of equity shares & dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

### 3.20 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing & investing activities of the Company is segregated.

### 3.21 Accounting of Leases

Company has applied Ind AS 116 "Leases" for all lease contracts covered by the Ind AS. Under Ind AS 116 a contract is, or contains a lease, if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company undertook an assessment of all applicable contracts to determine if a lease exists as defined in Ind AS 116. This assessment will also be completed for each new contract or change.

#### Measurement of Lease Liability

At the time of initial recognition, the Company measures lease liability as present value of all lease payment discounted using the Company's incremental cost of borrowing rate. Subsequently, the lease liability is

- i) Increase by interest on lease liability
- ii) Reduce by lease payments made

#### Measurement of Right-of-Use asset

At the time of initial recognition, the Group measures 'Right-of-Use assets' as present value of all lease payment discounted using the Group's incremental cost of borrowing rate w.r.t said lease contract. Subsequently, 'Right-of-Use assets' is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any re-measurement of the lease liability specified in Ind AS 116 'Leases'. Depreciation on 'Right-of-Use assets' is provided on straight line basis over the lease period.

In contract going forward. The Company has further elected not to recognize ROU assets and lease liabilities for leases of low value assets and for short-term leases (less than 12 months).

- i. Loans and receivables are non-derivative financial assets which generate a fixed or variable interest income for the Company. The carrying value may be affected by changes in the credit risk of the counterparties.
- ii. Loans granted by the Company are secured by equitable mortgage/registered mortgage of the property and/or undertaking to create a security and/or personal guarantees and/or hypothecation of assets and/or assignments of life insurance policies.
- iii. Loans sanctioned but undisbursed amount is Rs.5.62 cr. as on March 31, 2021 (P.Y. 8.73 cr)
- iv. COVID-19 pandemic had led to a significant impact on global & local economic activities, which may persist. The company has used the principle of prudence to provide for the impact of pandemic on the financial statements specifically while assessing the expected credit loss on financial assets by applying management overlays, approved by its Board of Directors. This has resulted in an additional provision of Rs. 51.89 Lakh (PY Rs 31.59 Lakh) against financial assets during the year, taking the overall additional provision of INR 83.48 Lakh as of March 31, 2021. The extent to which COVID-19 pandemic, including the current "second wave" that has significantly increased the number of cases in India will continue to impact the Company's operations and financial metrics will depend on future developments, which are highly uncertain.

In accordance with the COVID-19 regulatory packages announced by RBI on March 27, 2020, April 17, 2020 and May 23, 2020, the company has offered moratorium on payment of all the installments and/or interest, as applicable, falling due between March 01, 2020 and August 31, 2020 to all eligible borrowers. For all such accounts that were granted moratorium, the prudential assets classification remain standstill during the moratorium period (i.e., the number of days past due shall exclude the moratorium period for the purposes of asset classification under Income Recognition, Asset classification and provisioning norms), As per RBI circular relating to COVID-19 regulatory package. Company has created an additional reserve amounting to Rs. 52.82 Lakh (PY. 76.92 Lakh) on the accounts where moratorium benefit is extended, taking the overall additional reserve of INR 129.74 Lakh as of March 31, 2021.

\*The company has not disclosed the fair values for financial instruments which are short term in nature because their carrying amounts are a reasonable approximation of fair value.

**B) Measurement of Fair Value****Valuation methodologies of financial instruments not measured at fair value:**

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the financial statements. These fair values were calculated for disclosure purpose only.

**Short Term financial assets and liabilities**

For financial assets and financial liabilities that have a short term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value.

Such instruments include: cash and cash equivalent, other financial assets (excluding security deposit), trade payables and other financial liability.

**Loans and advances to customers**

In case of retail loans and term loans with floating rates, the interest rate represents the market rate. Consequently the carrying amount represents the fair value.

Term Loan with fixed rate: - The fair values estimated by discounted cash flow model that incorporates assumptions for credit risk, probability of default and loss given default estimates. As per management assumptions, the fair value of the loans & advances has been at par with the carrying value of the portfolio considering the fact that the competitive interest rates in the operational area of the company and the portfolio in which the company has exposure are more or less as per prevailing market rates.

**Investments**

The fair values estimated by discounted cash flow model that incorporates assumptions for credit risk, probability of default and loss given default estimates.

**Borrowings**

In case of borrowings with floating rates, the interest rate represents the market rate. Consequently the carrying amount represents the fair value.

**Transfer between Levels I and II**

There has been no transfer in between level I and level II.

**C) Capital**

The company maintains an activity managed capital base to cover risks inherent in the business and is meeting the capital adequacy of the local regulatory body, National Housing Bank (NHB). The adequacy of the Company's capital is monitored using, among other measures the regulation issued by NHB.

The Company has complied in full with all its externally imposed capital requirements over the reported period. Equity share capital and other equity are considered for the purpose of Company's capital management.

**Capital Management**

The Primary objectives of the company's capital management policy are to ensure that the Company complies with externally imposed capital requirement and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholder value.

The company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment of shareholders, return capital to shareholder or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the board.

The Company's policy is to keep the gearing ratio at reasonable level of 5-6 times in imminent year while Master Direction - Non-Banking Financial Company - Housing Finance Company (Reserve Bank) Directions, 2011 dated February 17, 2011 currently

permits HFCs to borrow up to 13 times of their net owned funds ("NOF"). The Company includes with in debt, its all interest bearing loans and borrowings.

**Debt to Net Worth Ratio****(INR in Lakh)**

Particulars	As at March 31, 2021	As at March 31, 2020
Debts	6428.3	3769.58
Net Worth	5363.95	5247.47
Debt to Net Worth (in times)	1.2	0.72

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

**33. FINANCIAL RISK MANGEMENT OBJECTIVES AND POLICIES**

The Company's Principal financial liabilities comprise borrowings. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loans, cash, and cash equivalents, investments and other financial assets and that derives directly from its operations.

**(i) Credit Risk**

Credit Risk is the risk of financial loss to the company if a customer or counter party to financial instruments fails to meet its contractual obligations and arises primarily from the company's loan and investments.

The carrying amounts of financial assets represent the maximum credit risk exposure.

**A. Loans and Advances**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry.

The risk management committee has established a credit policy under which every new customer is analyzed individually for credit worthy before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information etc.

The Company's gross exposure to credit risk for loans and investments by type of counterpart is as follows:

Carrying Amount	INR. In Lakh	
Particulars	As at 31 Mar 2021	As at 31 Mar 2020
Retail Loan	7,882.45	5666.41
Corporate Loan	1,571.74	2043.74
Investments	356.14	356.14
Total	9810.33	8066.29

The above exposures are entirely concentrated in India. There is no overseas exposure.

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purpose of this analysis, the loan receivables are categorized into groups based on days past due. Each group is then assessed for impairment using the Expected Credit Loss (ECL) model as per the provisions of Ind AS 109- Financial instruments.

**Staging**

As per the provisions of Ind AS 109 general approach all financial instruments are allocated to stage 1 on initial recognition.

However, if a significant increase to credit risk is identified at the reporting date as compared with the initial recognition, then an instrument is transferred to stage 2. If there is objective evidence of impairment, then the asset is credit impaired and transferred to stage 3.

The Company considers a financial instruments defaulted and therefore stage 3 (credit- impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

For Financial assets in stage 1, the impairment calculated based on defaults that are possible in next twelve months, whereas for financial instruments in stage 2 and 3 the ECL calculation considers default event for the lifespan of the instrument.

As per Ind AS 109, Company assesses whether there is a significant increase in credit risk at the reporting date from the initial recognition. Company has staged the assets based on the day past dues criteria and other market factors which significantly impacts the portfolio.

DAYS PAST DUE STATUS	STAGE	PROVISIONS
Current	Stage 1	12 Months Provision
1-30 days	Stage 1	12 Months Provision
31-60 days	Stage 2	Lifetime Provision
61-90 days	Stage 2	Lifetime Provision
90+ days	Stage 3	Lifetime Provision

### Grouping

As per Ind AS 109, Company is required to group the portfolio based on the shared risk characteristics. Company has assessed the risk and its impact on the various portfolios and has divided the portfolio into following groups:

- Retail Loans (Housing and Non housing Loans)
- Other Loan & Advances
- Builder and Developer loans

### Impairment-Expected Credit Loss ("ECL"):

The accounting standard, Ind AS 109 does not specifically prescribe any methodology for computing ECL. However, entities are required to adopt sound and market acceptable methodologies which are in line with the size, complexity and risk profile of the financial entity for computing the ECL. The Company uses following three main components to measure ECL:-

- a. Probability of default. (PD)
- b. Loss given default (LGD).
- c. Exposure at default (EAD).

### Probability of default (PD):

PD is defined as the probability of whether borrowers will default their obligations in an ensuring period of 12 months. Historical PD is derived from the HFC's internal data calibrated with forward looking macro-economic factors.

For computation of probability of default company has considered three years Historical data and the current Macroeconomic conditions along with probable Impacts of COVID-19. Based on these factors PD has been worked out.

### Loss Given default (LGD):

LGD is an estimate of the loss from a transaction given that a default occurs. Under Ind AS 109, Lifetime LGD's are defined as collection of LGD's estimates applicable to different future periods.

Various approaches are available to compute the LGD. Company has considered workout LGD approach.

The following steps are performed to calculate the LGD.

- 1.) Haircut was applied on the value of the collateral (asset cost) as of reporting date.
- 2.) The outstanding amount was adjusted with the haircut adjusted collateral value.
- 3.) LGD has been computed using the outstanding amount in step 2.

Over and above the LGD has been floored using regulatory guidelines.

#### Exposure at default ("EAD")

As per Ind AS 109, EAD is estimation of the extent to which the financial entity may be exposed to counterparty in the event of default and at the time of counterparty's default. Company has modeled EAD based on the contractual and behavioral cash flows till the lifetime of the loan and considering the expected prepayments.

Company has considered expected cash flows for all loans at DPD bucket level for each of the segments which were used for computation for ECL. Moreover, the EAD comprised of principal component, accrued interest on the outstanding exposure for the ensuring 12 months. So discounting was done for computation of expected credit loss.

#### ECL Computation:

Proportion of expected credit loss provided for across the stage is summarized below:

Particulars	INR In Lakh	
	As at March 2021	As at March 2020
Stage1	70.77	49.30
Stage 2	81.94	45.35
Stage 3	18.13	6.68
Amount of expected	170.85	101.33
Credit loss provided for		

The loss rates are based on actual credit loss experience over past years. These loss rates are then adjusted approximately to reflect differences between current and historical economic conditions and the Company's view of prevailing economic conditions over the expected lives of the loan receivable.

Movement in provision of expected credit loss has been provided in below note.

#### Movement of ECL

Particulars	INR in Lakh

Addition of during the year	69.51	47.97
Utilization/ reversal during the year	-	-
Closing provision of ECL	170.85	101.33

#### Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral. The main types of collateral obtained are mortgaged properties based on the nature of loans. Management monitors the market value of collateral in accordance with underlying

agreement. The Company advances loan to maximum extent of 80% of the value of the mortgaged properties.

## (ii) Analysis of risk concentration

The Company's concentrations of risk are managed based on Loan to value (LTV) segregation as well as geographical spread. The following tables stratify credit exposures from housing and other loans to customers by range of loan to-value (LTV) ratio. LTV is calculated as the ratio of gross amount of the loan - or the amount committed for loan commitments - to the value of the collateral.

**(iii) Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due.

The company is monitoring its liquidity risk by estimating the future inflows and outflows during the start of the year and planned accordingly the funding requirement. The company manages the liquidity by unutilized cash credit facility, term loan and the direct assignment.

The composition of the Company's liability mix ensures healthy asset liability maturity pattern and well diverse resource mix.

The total cash credit and working capital limit available to the Company is INR 600 Lakh spread across 2 banks. The utilization level is maintained in such a way that ensures sufficient liquidity on hand.

Majority of the Company's portfolio is individual housing loans. The company does not have any off book asset under management.

The table below summarizes the maturity profile of the Company's non-derivative financial liabilities based on contractual discounted payments along with its carrying value as at the balance sheet date.

**(iv) Market Risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes interest rate risk and foreign currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's exposure to the risk of changes in market interest rates relates primarily to the company's investment in bank deposits and variable interest rate on borrowings and lending. Whenever there is a change in borrowing interest rate for the company, necessary change is reflected in the lending interest rates over the timeline in order to mitigate the risk of change in interest rates of borrowings.

The sensitivity analysis has been carried out based on the exposure to interest rates lending and borrowing carried at variable rate.

**v) Foreign Currency Risk**

The company does not have any instrument denominated or traded in foreign currency. Hence such risk does not affect the company.

**34. Impact of COVID-19**

COVID-19 pandemic had led to a significant impact on global & local economic activities, which may persist. The company has used the principle of prudence to provide for the impact of pandemic on the financial statements specifically while assessing the expected credit loss on financial assets by applying management overlays, approved by its Board of Directors. This has resulted in an additional provision of Rs. 51.89 Lakh (PY Rs 31.59 Lakh) against financial assets during the year, taking the overall additional provision of INR 83.48 Lakh as of March 31, 2021. The extent to which COVID-19 pandemic, including the current "second wave" that has significantly increased the number of cases in India will continue to impact the Company's operations and financial metrics will depend on future developments, which are highly uncertain.

In accordance with the COVID-19 regulatory packages announced by RBI on March 27, 2020, April 17, 2020 and May 23, 2020, the company has offered moratorium on payment of all the installments and/or interest, as applicable, falling due between March 01, 2020 and August 31, 2020 to all eligible borrowers. For all such accounts that were granted moratorium, the prudential assets classification remain standstill during the moratorium period (i.e., the number of days past due shall exclude the moratorium period for the purposes of asset classification under Income Recognition, Asset classification and provisioning norms), As per RBI circular relating to COVID-19 regulatory package. Company has created an additional reserve amounting to Rs. 52.82 Lakh (P.Y. 76.92 Lakh) on the accounts where moratorium benefit is extended, taking the overall additional reserve of INR 129.74 Lakh as of March 31, 2021.
