## STRATEGICALLY LOCATED MANUFACTURING FACILITIES TO CATER TO THE REGIONAL DEMAND

### Nationwide manufacturing footprint

- Optimised distribution cost
- Faster time-to-market

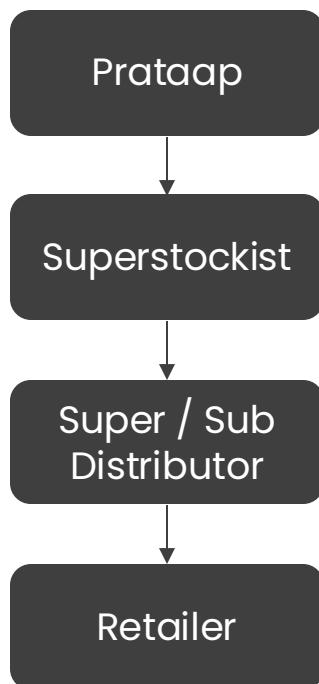

### Leveraging mix of contracted and owned manufacturing

- Disciplined investment approach: Scale-up after proving market viability

# OPTIMISED DISTRIBUTION MODEL

Direct distribution model on a nationwide scale

**OLD  
DISTRIBUTION  
MODEL**

**DIRECT  
DISTRIBUTION  
MODEL**

**Shifted to a direct distribution model upon hitting critical scale**

- Decentralized manufacturing footprint allows us to supply directly to distributors
- Reduced distribution costs (realized ~3% improvement in EBITDA margin)

**Amongst one of very few Snacks food players in India with a pan-India distribution network**

- Supported by over 5,200 super/sub distributors reaching ~2.5M touchpoints across India
- Ability to tap growth across all parts of India

# OUR ESG APPROACH

## Cornerstones of doing good business

- Actively working in accordance with Uniform Framework for Extended Producers Responsibility (EPR) issued by the Ministry of Environment, Forest, and Climate Change
- We engage in mass collection for processing and disposal of empty packets in collaboration with accredited NGOs in several states.
- We are also exploring development and use of recyclable packaging laminate with our suppliers

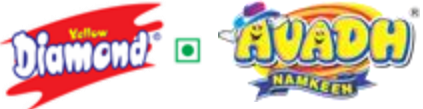

- Aligned to the strategy to combat climate change and transition to a low carbon economy, our aim is to reduce our carbon footprint and reduce our energy consumption
- This will be realised through adopting solar energy in factories, increasing the use of non-fossil fuels at manufacturing facilities, incorporating energy efficient building designs, implementing energy efficient devices and implementing automated energy management solutions
- Use of bio-mass briquettes for generating heat for manufacturing process, currently representing over 45% of fuel cost

- Our newly-installed Effluent Treatment Plant (ETP) and Reverse Osmosis unit at Indore plant is helping to recycle the used water from production units which is then reused
- This has led to initial savings in overall water consumption
- We also aim to minimise our freshwater requirements through our rainwater harvesting initiative.

# APPROVAL UNDER PERFORMANCE LINKED INCENTIVE ('PLI') SCHEME

Received approval under PLI scheme of the Government of India under 'Ready to Eat' segment

All products are covered under the PLI scheme except for Potato Chips

The base year for calculating the PLI benefit on-incremental sale is FY 19-20 for the first 4 years and FY 21-22 and FY 22-23 for the fifth and sixth years respectively

The minimum CAGR for sales for calculating the incentive is 10% with the maximum cap of 13% CAGR for eligible products

- From FY 21-22 to FY 24-25, the incentive rate for eligible products is 7.5% on the incremental sales over base year sales
- The incentive for FY 25-26 is 6.75% and FY 26-27 is 6% calculated on the incremental sales over base year sales

The benefit is available including growth in Avadh sales

The company has fully deployed its investment commitment aggregating to ~ Rs.105 crore as of 31<sup>st</sup> March 2025.

# **PROOF OF THE PUDDING:**

## **Q4 & FY25 Performance Update**

# OPERATIONAL OVERVIEW

**Revenue growth of 6% YoY for FY25 and 3% YoY in Q4FY25**

- Delivered positive topline growth despite challenging market conditions, including persistent inflation and subdued consumer demand, whose impact was more pronounced in the value segment.
- Key enablers of the topline growth have been initiatives such as further expansion in distribution network, a sharpened focus on core markets and data-driven sales strategies. In addition to witnessing encouraging trends in market share, a key highlight has been that leadership position in extruded snacks remains intact.
- Topline growth in Q4 would have been slightly higher, but for some lost sales due to the fire at the Jammu facility. The Company has enhanced capacities at other facilities located in North India towards end of the quarter to offset the impact.

**Witnessed improvement in profitability in Q4FY25 compared to Q3FY25, Board declares Dividend**

- During the year, there was a sharp increase in input costs, particularly in palm oil and potatoes, alongside broader inflationary pressures across other key inputs. Ongoing cost optimization efforts delivered meaningful impact, partially offsetting margin pressures.
- As input prices eased marginally towards the end of the fiscal year, the Company recorded improved profitability in Q4 compared to Q3.
- Despite the challenging environment, the Company has generated a positive cash profit and further strengthened its working capital position, maintaining robust financial health with healthy levels of free cash.
- The Board has recommended a dividend of 10% of face value for the year, reaffirming the Company's commitment to shareholder value creation.

**PSL is working on further levers for growth and structural enhancement of margin**

- The Company is actively pursuing additional levers to drive growth and structurally enhance margins. Key strategic initiatives—including distribution expansion, deeper integration of data & analytics into the sales function and the implementation of a market segmentation framework—are strengthening the foundation for long-term growth by enabling sharper market-specific execution and more efficient resource allocation.
- Comprehensive cost optimization measures, including detailed benchmarking of manufacturing processes and operational efficiencies, are expected to further enhance competitiveness and support structural margin improvement.
- In the near term, the Company will focus on driving sustainable, profitable growth through tighter cost control, continued distribution expansion, and technology-enabled governance.

# MD & CEO's Message

**Commenting on  
Q4 & FY25  
performance,  
Mr. Amit Kumar  
Managing  
Director & CEO,  
Prataap Snacks  
Limited said:**

"In FY25, we witnessed sustained inflationary pressures and weak consumption trends which have impacted demand for consumer products. The impact is more visible in the value segment. Given this backdrop, we are pleased to report positive revenue growth of 6% YoY for FY25 and 3% YoY in Q4FY25. Topline growth in Q4 would have been slightly higher, but for some lost sales due to the fire in our Jammu facility. We have enhanced capacities at other facilities located in North India towards end of the quarter. Our sharpened focus on core markets, data-driven sales strategies, and expanded distribution have been key enablers of the topline growth. In addition to witnessing encouraging trends in market share, we are pleased that our leadership in extruded snacks remains intact.

During the year, we witnessed a sharp rise in input costs, especially palm oil and potatoes with other inputs also witnessing inflationary pressures. Our ongoing cost optimization initiatives delivered meaningful impact, easing some part of the margin pressures. As input prices eased slightly towards the end of the fiscal, we reported improved profitability in Q4 over Q3. Despite a challenging year, we have delivered a positive cash profit and improved working capital further. As a result, we continue to maintain a robust financial position with healthy levels of free cash. The Board has recommended a dividend of 10% of face value for the year, reinforcing our commitment towards creating value for shareholders.

Over the year, we executed several strategic initiatives aimed at strengthening the foundation for sustained future growth. Our market segmentation framework will enable sharper, market-specific execution and more efficient resource allocation along with distribution augmentation. Comprehensive cost optimization efforts, including detailed benchmarking of manufacturing processes and operational efficiencies, are set to enhance competitiveness further by providing additional levers to structurally elevate margins.

Looking ahead to FY26, our focus will be to drive sustainable profitable growth through sharper cost control, distribution expansion, and technology-led governance. With the strong foundation built in FY25 and a clear strategic roadmap ahead, we are confident in our ability to deliver enhanced value to all stakeholders in the coming years."

## Commentary

- Strong balance sheet with free cash position (Cash & Cash Equivalents + Bank Balance incl. Bank FDs – short-term borrowings) of INR 814 Mn

# SIGNIFICANT COST PRESSURES

UNDERTAKING MULTIPLE INITIATIVES TO OVERCOME SHARP RISE IN INPUT PRICES

RM/PM Price Increase from  
FY24 (avg) to Q4 FY25

↑ +42%

Palm Oil

↑ +17%

Wheat  
Pellet

↑ +31%

Potato

↑ +21%

Besan/  
Gram Flour

↑ +9%

Corn

There has been sharp inflation in RM prices in FY25 compared to the average during FY24

Raw materials comprising over 50% of input costs have witnessed sharp increase in prices

While price rise was severe in the case of palm oil and potatoes, there have been broader inflationary pressures across several other key inputs

In the face of these pressures, the company has undertaken multiple initiatives to offset the impact. These include :

- Recipe adjustment
- Process reengineering
- Driven better sales realization through a mix of reduction in trade margin and rationalization of grammages

These initiatives have enabled the company to partially offset the impact of RM price inflation

The Company is undertaking aggressive cost optimisation measures in the areas of distribution, operations and logistics to structurally enhance the margin profile

# FINANCIALS – Q4 & FY'25 PERFORMANCE

## Income from Operations (INR Mn)

**Topline growth of 6% YoY for FY25 and 3% YoY in Q4FY25**

- Delivered positive topline growth despite challenging market conditions
- Topline growth in Q4 would have been slightly higher, but for some lost sales due to the fire at the Jammu facility

## Gross Profit (INR Mn)

**Gross margin stood at 26% in Q4 FY25**

- There has been strong and sustained inflationary pressures in input prices during FY25 which have slightly eased in the fourth quarter. The net effect has been contraction in gross margin by 773 basis points on a YoY basis in Q4.

# FINANCIALS – Q4 & FY'25 PERFORMANCE

## EBITDA (INR Mn)

**Reported EBITDA of Rs. 49.2 Mn in Q4 FY25**

- Ongoing cost optimization efforts have helped to partially offset margin pressures.
- Slight easing in input prices has helped, enabling the Company to deliver a positive EBITDA margin in Q4 compared to Q3.

## PAT (INR Mn)

**Reported PAT of Rs. (119) Mn in Q4 FY25**

- Impact on EBITDA due to input costs was further exacerbated by increase in depreciation and interest costs.

# FINANCIALS – Q4 & FY'25 PERFORMANCE

## Cash profit (INR Mn)

**Reported  
positive Cash  
profit in Q4  
FY25**

- Despite the pressures due to input price inflation, the company has reported positive cash profit during Q4 and for the fiscal year

## Cash EPS (INR)

**Cash EPS  
remains  
resilient**

- The Company follows a conservative accounting policy and is amortizing intangible assets of Avadh Snacks
- A lateral benefit has been contained tax outflow
