ANNEXURE- I TO THE DIRECTORS' REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Management of the Company is pleased to present Management Discussion and Analysis Report (to the extent applicable to the company) covering overall performance and outlook of its activities.

MACRO ECONOMIC OVERVIEW

Indian Economy:

The Country seems to be witnessing a slow but clearly perceptible pick-up in growth. The table below gives the growth of real Gross Value Added (GVA), the newly calculated measure of national income prepared by the Central Statistical Organisation (CSO) of the Government of India.

% Growth of real GVA	April-June (Q1)	July-September (Q2)	October - December (Q3)	Full year (estimate)
FY2014	7.2	7.5	6.6	6.6
FY2015	7.0	7.8	7.5	7.5

From the data it looks as if growth has been gradually increasing from the second quarter of FY2015. If these numbers are correct, India should be witnessing 7.5% growth of real GVA (at constant 2011-12 prices) for the year that has just concluded — a 90 basis points (bps) increase in the growth rate versus the previous year.

Considering that Indian GDP will continue to remain in the range of 8.00% to 8.50% for the FY 2015-16 and India having the world's largest population below 40 years (estimated at over 200 million) with significant purchasing power, business opportunities will touch new echelons. However, sustaining high growth is likely to be the overarching concern in 2015-16, although the risk of inflation will remain, mainly because of a weak rupee.

The Reserve Bank of India (RBI) cut policy rates by 25 bps in January 2015 followed by another 25 bps in March 2015, and has also eased liquidity with a reduction in Statutory Liquidity Ratio (SLR) in three tranches of 50 bps in June 2014, August 2014 and February 2015.

Despite the easing of liquidity and reduction in policy rates, FY2015 was a difficult one for the banking sector. Credit growth at 9.5% was the lowest in the last 18 years. Low credit growth coupled with high non-performing assets (NPAs) resulted in banks being reluctant to pass on the benefits of the eased liquidity and rate cuts. It

was only in March 2015 that a few banks reduced their lending rates. However, unseasonal rains in February and March 2015 have badly affected the winter (rabi) crop; and a prediction of a poor monsoon could dampen optimism regarding the economy.

It remains to be seen whether the slew of initiatives announced by the Central Government like 'Make in India' programme, coal and telecom auctions, increased FDI limits in certain sectors, a financial inclusion effort through its Pradhan Mantri Jan Dhan Yojana and India's improved rating outlook gives a fillip to the performance of the banking and financial sector in the coming year.

The government has set its targets to achieve its ambitious goal of "Make in India" for Indian as well as Foreign Institutions. To encourage the Corporates to manufacture or produce their products in India, there are many important government policies and reforms in the pipeline such as land acquisition reform, new manufacturing policy, FDI, among others. To put this dream of Make in India into reality, there would be a huge Capital demand from the Corporates. This demand of Capital in India can be predominantly fulfilled by Banking Institutions and Non-Banking Financial Institutions (mostly Investment Companies), etc. Therefore, these reforms would also open the gates for the Non-Banking Financial Institutions to prosper taking Indian Economy to new heights.

RISKS AND CONCERNS

SIL is exposed to specific risks that are particular to its businesses and the environment within which it operates, which include market risk, interest rate volatility, execution risk, and economic cycle.

- The company has significant quoted investments which are exposed to fluctuations in stock prices. These investments represent a substantial portion of the Company's core capital, and are vulnerable to fluctuations in the stock markets. Any decline in these quoted investments may severely impact its financial position and results of operations.
- Credit risk is a risk arising from default or failure on the part of borrowers in meeting their financial obligations towards repayment of loans and interest. This risk is comprehensively addressed by the company both at the strategic level and at the client level.
- Liquidity Risk: Asset/Liability Management: The company is exposed to liquidity risk principally as a result of lending to its customers for periods which may differ from those of its funding sources. Financial firms are now increasingly focused on asset-liability risk. Asset-liability risk is a leveraged form of risk. The capital of most financial institutions is small relative to the firm's assets or liabilities, so small percentage changes in assets or liabilities can translate into large percentage changes in capital.

The problem was not that the value of assets might fall or that the value of liabilities might rise. It was that capital might be depleted by narrowing of the difference between assets and liabilities—that the values of assets and liabilities might fail to move in tandem. The Company is alive to the dynamics of this problem and has in place a control structure for closely monitoring incipient signs of risk in this area and to unleash necessary corrective measures, if needed. SIL's treasury actively manages asset liability positions in accordance with the overall guidelines laid down by the Management in the Asset Liability Management (ALM) framework.

- The company can be adversely affected by volatility in interest rates in India, which could cause its

margins to decline and profitability to shrink. Earnings from interest income is steadily becoming one of the important businesses of the Company. It is therefore exposed to interest rate risk, principally as a result of lending to its customers at interest rates, in amounts, and for periods which may differ from those of its funding sources. The company is hedged to some extent against this risk through the reset clause in its advances portfolio.

- While the Indian economy has shown sustained growth over the last several years, a slowdown could cause the business of the company to suffer. SIL manages such risks by maintaining a conservative financial profile and following prudent business and risk management practices.
- The risk appetite is enunciated by the Board from time to time. Company has in place specially mandated Committees such as ALCO, Risk Management Committee, besides the Audit Committee.

INTERNAL CONTROL SYSTEMS

SIL Investments Limited has an independent internal control system which is commensurate with the size and scale of the Company. It evaluates the adequacy of all internal controls and processes, and ensures strict adherence to clearly laid down processes and procedures as well as to the prescribed regulatory and legal framework. Conforming to the requirements of the regulatory authorities such as the RBI and the SEBI and consistent with the requirements of the Listing agreements with the Stock Exchanges, the company has institutionalized an elaborate system of control processes designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, reliability of financial controls and compliance with applicable laws and regulations. The Internal Auditors are mandated to carry out periodical audit and report on areas of non-compliances/ weaknesses. Corrective actions in case of reported deficiencies, if any, are taken actively to further strengthen the internal control systems. These reports are reviewed by the Audit Committee of the Board of Directors for follow-up action, and instructions are issued for taking necessary measures.

However, the income from the advances/lending business is steadily growing, contributing significant volume to the overall business of the Company. To the Members of SIL Investments Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of SIL Investments Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the Consolidated Balance Sheet as at 31st March, 2015, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical

requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters paragraph below, insufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.
