Management Discussion and Analysis Report

Industry Structure and Development, Opportunities and Threats

The tourism industry is a significant contributor to economic growth of a country. In consequence, massive investments have been made across the world for development of tourism and reap benefits therefrom.

In 2018, travel and tourism contributed as much as 9.2% to India's GDP and generated 26.7 million jobs. The industry not only provides jobs at all levels requiring different sets of skills in urban centres but it also creates diverse earning opportunities for the rural population. In fact, according to published data, the tourism sector accounts for 12.75% of employment in India, 5.56% of it is direct and 7.19% indirect. According to the Ministry of Tourism (MOT) annual report for 2019-20, over 87 million people in the country were employed in the travel sector in 2018-19.

In 2018-19, the annual revenue of branded and organised hotels in India was ₹ 38,000 crore (US \$5 billion), while the restaurant sector had a turnover of approximately ₹ 400,000 crore (US \$53 billion), providing direct employment to more than 7 million people.

The tourism sector was facing growing difficulties before the breakout of Covid-19 pandemic due to the global economic slowdown raising concerns of a recession gripping the world. Global economic growth in 2019 was 2.9% compared with 3.6% in the previous year and 3.8% in 2017. This economic downturn resulted in India recording a weaker growth in foreign tourist arrivals and foreign exchange earnings from tourism.

The WTTC (World Travel and Tourism Council) has forecast a dreadful impact of Covid-19 on white and blue-collar jobs in the travel and tourism sector. Up to 50 million jobs are at risk globally, representing a reduction of 12 to 14%.

The tourism industry is a significant contributor to economic growth of a country and massive investments have been made throughout the world for the development of tourism. In 2018, travel and tourism contributed 9.2% in India's GDP and generated 26.7 million jobs in that year. The industry not only provides jobs at all levels in urban centres but also provides diverse earning opportunity for the rural population. In fact, according to published data, the tourism sector accounts for 12.75% of employment in India, 5.56% of it is direct and 7.19% is indirect. According to the Ministry of Tourism (MOT) annual report for 2019-20, over 87 million people were employed in the travel sector in 2018-19 in India.

Outlook

Based on empirical evidences, whenever there is any major negative impact on a country's economy, tourism will always be the first to be affected as people start cutting down on their travel budget. The health crisis centering on Covid-19 pandemic is the biggest challenge that the world has ever faced leading to complete breakdown of the travel and tourism industry. The pandemic may have brought travel and tourism industry in India to a total standstill. But what it hasn't been able to do is to crush the spirit of the people involved in the sector. What is sustaining their morale is the belief that this health crisis too will pass and people's wanderlust will once again flourish. This has already started happening in the West.

At this point, one should take solace in the fact that travel has become an important part of everyone's life. It is no longer considered a luxury but a necessity to break away from a mundane and monotonous routine for periodic rejuvenation. Therefore, it is widely believed that the long postponed travel will have a robust take off once health concerns are left behind. The post Covid world will, however, see a major change in tourists' destination preferences. Offbeat yet exotic places, which have experienced a limited exposure to the pandemic will see an upward trend in terms of tourist arrivals. The domestic market and self-driven accommodations at boutique hotels and resorts will be the focus of tourism as social distancing and staying at smaller properties will be de riqueur in the new circumstances.

One will need to focus on the potential of domestic tourism. There are suggestions for setting up a 'Travel and Tourism Stabilisation Fund' with direct benefit transfer to each unit to prevent financial and job loss. At the present juncture, it appears to be a dream. It is time the government realised the importance of tourism and accepted the industry's proposal for a complete GST Tax-free Holiday for the Tourism, Travel and Hospitality Industry for the next twelve months facilitating recovery.

The recovery cannot but be slow; however, the silver lining is that once we manage to control the virus, the tourism industry will be the first one to record major growth. After a long time of suspension of international travel, people would be looking forward to exploring the world beyond once again.

Risks and Concerns

The growth of your Company's portfolio is linked to the overall economic growth. Primary risk to the business will be on account of adverse changes to the economy. Further, the changes in consumer behavior, travelling preferences and working environment arising due to Covid-19 has given rise to new challenges.

Risk mitigation

In view of Covid-19, the hotels are required to set up certain safety facilities in their operations, as mandated by Ministry of Health, Government of India and FSSAI. These measures have been proposed to stop/minimise the risk of spread of the corona virus. The properties of Sinclairs Hotels are well known for high standards of cleanliness and hygiene; in the changed situation Sinclairs has introduced a series of safety checks and measures to ensure that guests have a safe, healthy and enjoyable stay.

Internal control systems and their adequacy

Your Company maintains adequate internal control systems commensurate with the Company's size and business, which provide, *inter alia*, reasonable assurance of recording the transactions of its operations in all material aspects and providing protection against misuse or loss of the Company's assets. The systems and processes are continually reviewed for their effectiveness and augmented by documented policies and procedures.

Financial and Operating Performance

The Company witnessed moderate growth in the first half of the year. The fourth quarter saw a drastic fall in revenues, being impacted by the unforeseen development of the Covid-19

pandemic. Revenue for the year was ₹ 4716.66 lakh (₹ 4958.31 lakh) and EBITDA ₹ 1854.06 lakh (₹ 2161.10 lakh). The gross profit margin at 37% continues to be amongst the highest in the industry.

Covid-19 has had a catastrophic impact on people and economy globally. On account of the lockdown all the seven operating properties of your Company were closed for operations. The launch of Company's eighth property at Gangtok scheduled for 15 April 2020 was also postponed. It will be quite some time before the hotels/resorts returns to its normal operations.

Your Company shall review the long term impact of the pandemic and take all steps necessary to adapt itself to emerging changes and the new normal. Your company has the resilience to withstand this crisis and is confident that with the support of all stakeholders bounce back into new heights of growth and profitability.

Material developments in Human Resources

Value based policies have been laid down to attract, train, retain and motivate employees. Your Company continuously takes adequate steps to maintain a competitive, healthy and harmonious work environment. As on 31 March 2020, there were 380 employees in the Company.

Disclosure of Accounting Treatment

The Company has adopted Indian Accounting Standards ('Ind AS') with effect from 1 April 2016. Financial Statements for the year ended 31 March 2020 have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time, read with Section 133 and other applicable provisions of the Companies Act, 2013.

Independent Auditors' Report

TO THE MEMBERS OF SINCLAIRS HOTELS LIMITED

Report on the Audit of the Financial Statements Opinion

We have audited the financial statements of Sinclairs Hotels Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Going Concern

See note 2(D) to the financial statements

| The key audit matter | How the matter was addressed in our audit |
|---|--|
| As more fully explained in note 2(D), The lockdowns and restrictions announced by the Government of India on account of the Covid-19 pandemic have posed major challenges to the Company. | We have evaluated management's assessment of the Company's ability to continue as a going concern, relying on the sources of liquidity and funding available to the Company. We have discussed with management to obtain an understanding on the business plans and financing requirements and obtained written representations from management and those charged with governance, regarding their plans for |

The management has prepared the financial statements on a going concern basis after considering the future cash flow projection, the Company will have sufficient cash flow to meet the operating requirements.

Management's assessment of the Company's ability of having sufficient funds available for its operations are important considerations for the going concern assumption. In view of uncertainties identified outlined above, we identified a key audit matter related to going concern due to judgement required to conclude on the going concern assumption.

future actions and the feasibility of these plans.

We have considered the developments during the year and subsequent to the year end (including the potential impact of Covid-19) that would affect the operations of the Company. We have obtained and evaluated the cash flows forecasts prepared by management as approved by the Board of Directors and assessed the reasonableness of the key assumptions used by checking against the Company's business plan and historical performance. We challenged the appropriateness of the key assumptions used by management comprising the Company's forecasts of revenue, gross margin and operating expenses

Impairment

See note 2.1(c) to the financial statements

As more fully explained in note 2.1(c), the management required to make an impairment assessment for property, plant and equipment when there is an indication that an asset may be impaired. The process for measuring and recognizing impairment under Ind AS 36 Impairment of Assets is complex and highly judgmental, particularly as each individual hotel unit is treated as a separate cash-generating unit for impairment purposes.

The key audit matter

We therefore identified the valuation of property, plant and equipment as a significant risk requiring special audit consideration.

How the matter was addressed in our audit

Our audit work included, but was not restricted to, using our valuation specialists to evaluate the methodology and assumptions used by the management to perform the impairment assessment, in particular those relating to the forecasted growth and discount rates for each cashgenerating unit. We compared the methodologies applied and the assumptions used to our expectations and emerging market activity. We also used our valuations specialists, to challenge the key assumptions used by management.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board
 of Directors use of the going concern basis of accounting and,
 based on the audit evidence obtained, whether a material
 uncertainty exists related to events or conditions that may cast
 significant doubt on the Company's ability to continue as a
 going concern. If we conclude that a material uncertainty exists,
 we are required to draw attention in our auditor's report to the
 related disclosures in the financial statements or, if such
 disclosures are inadequate, to modify our opinion. Our
 conclusions are based on the audit evidence obtained up to the
 date of our auditor's report. However, future events or conditions
 may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016

("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- 2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its financial statements - Refer Note 34 to the financial statements:
- The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.
- With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, there is no remuneration paid by the company to its directors during the current year. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure 'B' to the Independent Auditor's Report

Annexure B to the Independent Auditor's Report on the financial statements of Sinclairs Hotels Limited for the year ended 31 March 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

[Referred to in clause (f) of paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Opinion

We have audited the internal financial controls with reference to financial statements of Sinclairs Hotels Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financialstatements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Srushti Mody Company Secretary

Kunal Bose Director (DIN: 02891649)

Notes to financial statements for the year ended 31 March 2020

1. CORPORATE INFORMATION

The Company is in the hospitality industry and has hotels/ resorts at Siliguri, Darjeeling, Chalsa, Kalimpong and Burdwan in West Bengal, Gangtok in Sikkim, Ooty in Tamil Nadu and Port Blair in Andaman and Nicobar Islands. The Company is a public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognized stock exchanges in India. The registered office of the Company is located at Pressman House, 10A, Lee Road, Kolkata, West Bengal 700020.

2 BASIS OF PREPARATION

A. Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements were authorised for issue by the Company's Board of Directors on 30 June 2020.

B. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakh, unless otherwise indicated.

C. Basis of measurement

The financial statements have been prepared on a historical cost basis, except for Investments that are required to be carried at fair value by Ind AS.

D. Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Critical accounting estimates

Measurement of defined benefit obligations: key actuarial assumptions - The cost of defined benefits that include gratuity and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An

actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Recognition and measurement of provisions and contingencies: Key assumptions are made about the likelihood and magnitude of an outflow of resources. Provision is towards known contractual obligation, litigation cases and pending assessments in respect of taxes, duties and other levies in respect of which management believes that there are present obligations and the settlement of such obligations are expected to result in outflow of resources, to the extent provided for.

Impairment test of non-financial asset: The Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Judgements

Going Concern

The lockdowns and restrictions announced by the Government on account of the Covid-19 pandemic have posed major challenges to the Company.

The Company's hotels were closed during the lockdown phase as per Government guidelines. With the easing of restrictions, the Company has started re-opening its hotels in the non-containment zones in a phased manner, after establishing proper safety protocols. The Company expects demand to pick up at a slow pace driven by domestic business and leisure tourism, staycations and limited international tourism.

The Company has assessed the potential impact of Covid-19 on its capital and financial resources, profitability, liquidity position, ability and other financing arrangements, supply chain and demand for its services. The Company has a healthy liquidity position to meet its commitments.

The Company has also assessed the potential impact of Covid-19 on the carrying value of property, plant and equipment, investments, trade receivables, inventories, and other current assets appearing in the financial statements of the Company. In developing the assumptions and estimates relating to the future uncertainties in the economic conditions because of this pandemic, the Company has used internal and external sources of information and based on current estimates, expects to recover the carrying amounts of these assets.

The Covid-19 pandemic has no precedents and its impact could widely differ from estimates. The Company will continue to closely monitor the environment.

E. Measurement of fair values

A number of accounting policies and disclosures require the measurement of fair values of assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the Management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions and valuation techniques made in measuring fair values is included in Note 33.

2.1 SIGNIFICANT ACCOUNTING POLICIES

(a) Current versus non-current classification

The Company's present assets and liabilities in the balance sheet are based on current/non-current classification.

An asset is treated as current when:

- It is expected to be realised or intended to be sold or consumed in normal operating cycle
- It is held primarily for the purpose of trading
- It is expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

A liability is current when:

- · It is expected to be settled in normal operating cycle
- · It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Current liabilities include the current portion of long term financial liabilities.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(b) Property, Plant and Equipment

i. Recognition and measurement

Items of Property, Plant and Equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost of an item comprises of its purchase price and any attributable cost of bringing the asset to its working condition for its intended use. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

On transition to Ind AS, the Company had opted to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that future economic benefits associated with the item will flow to the entity.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions/ (disposals) is provided on a pro-rata basis i.e. from/ (up to) the date on which asset is ready for use/ (disposed off).

Estimated useful lives of items of property, plant and equipment are as follows:

| Class of Assets | Estimated useful life (in years) |
|--------------------------|----------------------------------|
| Buildings | 5 to 60 |
| Furniture and Fixtures | 5 |
| Electrical Installations | 5 |
| Plant and Machinery | 5 |
| Computers (included in | |
| office equipment) | 3 to 6 |
| Office Equipment | 5 |
| Vehicles | 6 to 10 |

The management has estimated, supported by independent assessment by professionals, the useful lives of furniture and fixtures, electrical installations, plant and machinery, leasehold improvements and office equipment as 5 years. These lives are lower than those indicated in Schedule II to the Act.

Leasehold land is amortised over the period of lease. Leasehold improvements are amortised over the period of lease or estimated useful life, whichever is lower.

(c) Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are combined together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or Company of CGUs) on a pro rata basis.

In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(d) Leases

The Company as a Lessee

The Company assesses whether a contract contains a lease as per the requirements of Ind AS 116 "Leases" at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset

- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

The Company recognizes a right-of-use asset ("ROU") and a lease liability at the lease commencement date, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the incremental borrowing rate of the company. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease payments are classified as financing cash flows.

Transition

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, had notified Ind AS 116 "Leases" which replaced the erstwhile lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Effective 1 April, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to lease contracts existing on April 1, 2019 using the modified retrospective method on the date of initial application. Accordingly, the Company has not restated comparative information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on 1 April, 2019.

Refer note 2.1 (d) – Significant accounting policies – Leases in the financial statements of the Company for the year ended 31 March, 2019, for the policy as per Ind AS 17.

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application.

There is no significant impact of transition to Ind AS 116 on the date of initial application.

(e) Government subsidies

Government grants including non-monetary grant are recognised when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant.

Government grants relating to income are deferred and recognised in the statement of profit and loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in other liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

(f) Inventories

Inventories are valued as lower of cost and net realizable value. However, materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be used are expected to be sold at or above cost. Cost is determined on "First in First Out" basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(g) Revenue Recognition

The Company earns revenue primarily from providing hospitality services. The services are provided through seven hotels/ resorts located at Siliguri, Darjeeling, Chalsa, Kalimpong and Burdwan in West Bengal, Ooty in Tamil Nadu and Port Blair in Andaman and Nicobar Islands.

i. Income from Services

Revenue is recognised upon transfer of control of promised products or services to customers at an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from hospitality services is recognised over time when the services are rendered and the same becomes chargeable. GST and other statutory dues are collected on behalf of the government and are excluded from revenue. It comprises of sale of room and food and beverages, membership fees and other services.

Membership fee which entitles the members the access to the club is recognized as income equally over the period of lease on which the club is constructed.

Membership fees which will be recognised in future periods are disclosed under Other Liabilities – Deferred revenue - Advancesmembership fees.

(h) Recognition of dividend income, interest income or expense i. Interest income and expenses

Interest income or expense is recognised using the effective interest method. $% \label{eq:condition}%$

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

ii. Dividends

Revenue is recognised when the shareholders' right to receive payment is established by the Balance Sheet date.

(i) Foreign Currency Transactions

i. Initial Recognition

Transactions in foreign currencies are translated into the functional currency of Company at the exchange rates prevailing on dates of the transactions.

ii. Translation

Foreign currency monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Foreign currency monmonetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Nonmonetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

iii. Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

(j) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Recognition and initial measurement

Financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Financial assets

Classification of financial asset

On initial recognition, a financial asset is classified as measured at

- · amortized cost;
- Fair Value through Other Comprehensive income (FVOCI) equity investment; or
- Fair Value through Profit and Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL.

Subsequent measurement and gains and losses of Financial Asset Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when the rights to receive cash flows from the asset have expired.

Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with

no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

Financial Liabilities

Classification, subsequent measurement and gains and losses
Financial liabilities are classified as measured at amortised cost or
FVTPL. A financial liability is classified as at FVTPL if it is classified
as held- for- trading, or it is a derivative or it is designated as such
on initial recognition. Financial liabilities at FVTPL are measured
at fair value and net gains and losses, including any interest expense,
are recognised in profit or loss. Other financial liabilities are
subsequently measured at amortised cost using the effective
interest method. Interest expense and foreign exchange gains and
losses are recognised in profit or loss. Any gain or loss on
derecognition is also recognised in profit or loss.

Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of Financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(k) Employee benefits

Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Defined contribution plans

A Defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Post-employment benefit plan

Post-employment benefit plan in the form of Gratuity is a plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(I) Income Tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary difference or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

MAT credit entitlement is recognised in respect of temporary difference between the taxable profits under the normal provisions of the Income tax act 1961 and taxable profits under sec 115JB. MAT credit entitlement is recognised to the extent that it is probable that in future year the taxable profit under the normal provisions of Income tax Act will be higher than the taxable profit as per Sec 115JB to set-off the available MAT credit. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

(m) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting

period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potentially dilutive equity shares are adjused retrospectively for all periods presented in case of share splits.

(n) Provisions

A provision is recognised if, as a result of a past event, the Company has a present, legal or constructive, obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the

risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(o) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not record a contingent liability in books of account but discloses its existence in the financial statements.

(p) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(q) Standards issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which are applicable from 1 April, 2020.

31) Employee Benefits

The Company has a defined benefit gratuity plan in India with Life Insurance Corporation of India (LICI), governed by the Payment of Gratuity Act, 1972. The plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days salary/ wages for every completed year of service or part thereof in excess of six months, based on the rate of salary/ wages last drawn by the employee concerned.

The defined benefit plan for gratuity is administered by a single gratuity fund that is legally separate from the Company. The board of the gratuity fund is required by law to act in the best interests of the plan participants and is responsible for setting certain policies (e.g. investment and contribution policies) of the fund.

These defined benefit plans expose the Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk.

A. Funding

The Plan is fully funded by the Company. The funding requirements are based on the gratuity fund's actuarial measurement framework set out in the funding policies of the plan. The funding of the Plan is based on a separate actuarial valuation for funding purposes for which the assumptions may differ from the assumptions set out in (E). Employees do not contribute to the plan.

B. Reconciliation of the net defined benefit (asset)/liability

The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit (asset) liability and its components

| | | < in lakn |

^{*} The carrying amount of the Company's financial assets and financial liabilities are reasonable approximation of their fair value. ii) The following table shows the fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy

| | Fair value - Level 2 | |
|--|----------------------|---------------|
| | 31 March 2020 | 31 March 2019 |
| Investments in mutual fund and alternate investment fund | 4,289.34 | 4,056.20 |

B. Measurement of fair values

For Investments in mutual funds and alternate investment funds, the fair value is determined using Level 2 inputs. The mutual funds and alternate investment funds are valued against closing Net asset value.

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk (see (C) (ii));
- liquidity risk (see (C) (iii)); and
- market risk (see (C) (iv)).

i. Risk management framework

"The Company is exposed to normal business risks from changes in market interest rates and from non-performance of contractual obligations by counterparties. The Company does not hold or issue derivative financial instruments for speculative or trading purposes.

Risk management is integral to the whole business of the Company. The Company has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. The management continually monitors the Company's risk management process to ensure that an appropriate balance between risk and control is achieved."

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables, investment in mutual funds, investments in Corporate bonds and bank deposits which are represented by the carrying amount of receivables in the Balance Sheet.

Trade receivables

A significant part of the Company's sales are against advances or payable at the time of checkout which entails no credit risk. For others, an impairment analysis is performed at each reporting date on an individual basis for all the customers.

The Company's historical experience of collecting receivables and the level of default indicate that credit risk is low and generally uniform across locations; consequently, trade receivables are considered to be a single class of financial assets. All overdue customer balances are evaluated taking into account the age of the dues, specific credit circumstances, the track record of the counterparty, etc. loss allowances and impairment is recognised, where considered appropriate by responsible management.

Details of concentration of revenue are included in Note 35.

The ageing analysis of the receivables has been considered from the date the invoice falls due.

₹ in lakh

| Trade Receivables | Less than 30 days | 31 - 90 days | 91 - 180 days | Greater than 180 days | Total |
|---------------------|----------------------|--------------|---------------|--------------------------|--------|
| As at 31 March 2020 | 22.71 | 45.01 | 7.71 | 6.79 | 82.22 |
| As at 31 March 2019 | 68.87 | 30.28 | 10.26 | 5.94 | 115.35 |

Investments and bank deposits

Credit risk from balances with banks and financial institutions is managed by the management in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. Credit risk on investments and cash and cash equivalents including other bank balances is limited as the Company generally invests in deposits with banks, financial institutions and investees with high credit ratings assigned by international and domestic credit rating agencies.

Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the year ended 31 March 2020 was Nil.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

As of 31 March 2020, the Company had cash and bank balances of ₹ **35.59 lakh**. As of 31 March 2019, the Company had cash and bank balances of ₹ 56.81 lakh.

The contractual maturities of financial liabilities at the reporting date are due within one year from the reporting date.

iv. Market risk

Market risk is the risk when the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Financial instruments affected by market risk includes FVTPL Investments only. Market risk comprises only the fluctuations in the net asset value of the respective funds. Reports on the investment portfolio are submitted to the Company's senior management on a regular basis. The Board of Directors reviews and approves all investment decisions.

- Price Risk

Exposure

The Company's exposure to price risk arises from investments held by the Company and classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Sensitivity

The table below summarizes the impact of increases/decreases of the NAV on the Company's equity.

| Mutual Funds | 31 March 2020 | 31 March 2019 |
|-----------------------|---------------|---------------|
| Increase in NAV by 5% | 214.47 | 9.41 |
| Decrease in NAV by 5% | (214.47) | (9.41) |

Profit and equity for the period would increase/decrease as a result of gains/losses on mutual funds classified as at fair value through profit or loss.

35) Operating Segment

The Company has identified seven operating segments viz, based on the seven hotel units. As per Ind AS - 108, due to similar nature of products, production process, customer types, etc., the seven operating segments have been aggregated as single operating segment of "Hoteliering" during the year. The analysis of geographical segments is based on the areas from which the Company render services. The Company primarily operates in India and therefore the analysis of geographical segment is not applicable.

The Company is not reliant on revenues from transactions with any single external customer and does not receive 10% or more of its revenues from transactions with any single external customer.

36) Capital Management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The Company is not subject to any externally imposed capital requirements.
