ROHAN BHAGWAT
COMPANY SECRETARY

42ND
ANNUAL REPORT 2017-18

VENKY'S (INDIA) LIMITED

**Padmashree Late Dr. B.V. Rao
(1935-1996)**

"VH Group has earned this leadership position because of our extraordinary high standards in quality, service and absolute integrity."

"All our plans and programmes should be aimed at ensuring that the small farmer continues to remain in the industry and prosper."

"My group is passionately committed in bringing quality and technology to the Indian Poultry Industry."

"To succeed in any business one must have a firm commitment and an affinity for the business – more so in the poultry business. Making money, though welcome, should not be the sole criteria."

"The poultry industry must become self-supporting and self-reliant through better productivity, scientific management and an organised marketing effort."

"Technologically Indian poultry can match the world's best. Our productivity levels both in layer and broiler segments are second to none. Yet we also feel small, for there is so much to be done and so much more that can be done."

"Every successful organisation needs a clear commitment to excel in a chosen field; and this commitment will hold up over the years only by staying true to an original vision even in the worst of times."

Padmashree Dr. B. V. Rao

A Message From The Chairperson

Dear Shareholders,

I am happy to report that financial year 2017-18 was a good year for Venky's (India) Limited. The Company has clocked year-on-year growth of 8.6% in revenue, 63.7% in profit before tax and 60.1% in profit after tax. Better realizations for the poultry and poultry products, product mix, higher capacity utilization are the main reasons for the improved performance as compared to the previous year. The performance of the oilseed segment was satisfactory. The animal health products segment registered improved performance.

The Company has undertaken expansion projects viz.

- (a) expansion in oilseed segment by setting up a new solvent extraction plant and vegetable oil refinery; and
- (b) expansion of Specific Pathogen Free eggs capacity by setting up new production unit.

Both the projects will involve investment of approx. Rs. 110 crores.

Guided by the vision of our Founder Chairman, Padmashree Dr. B.V. Rao, Venky's has today built a robust foundation with three business segments i.e. (1) poultry and poultry products; (2) oilseed; and (3) animal health products. In order to meet the increasing demand for the Company's products, the Company is expanding its production capacities in all the segments periodically which will help to post steady improvement in performance in the years to come.

I wish you and your families all the best.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Structure and Development :

As per the International Monetary Fund (IMF), the global economy is on the road to recovery and grew by 3.8% in 2017, an increase of 0.6% over 2016, due to increase in manufacturing activity, private consumption, investments and global trade.

The overall GDP growth seen by the Indian economy during the financial year ended 31st March, 2018, stood at 6.7% as against 7.1% for the previous financial year, due to lower performance in the agricultural and manufacturing sectors. However, in the quarter ended March, 2018, India has bounced back as the fastest growing economy in the world with a 7.1% growth. The Government of India has put in place multiple enablers to bolster the country's consumption demand. Higher spending on social schemes, continued thrust on rural infrastructure project, raising of minimum support prices are likely to lead to robust disposable income leading to higher spend and consumption.

The poultry industry continued to grow at satisfactory rates in 2017-18. Presently, the poultry industry is Rs.110,000 Crore industry that provides direct and indirect employment to 5 million people and also supports the economy of over 2.5 Crore agricultural farmers, especially the maize and soya growers who are dependent on this industry. Price movements of maize and soya are very important for the poultry industry since 75% to 80% of the cost of poultry feed ingredients consist of these two crops.

With an annual production of 70,000 million eggs, India ranks second in the world in egg production. The broiler production is estimated at 4.50 million tons of chicken meat and India ranks 3rd in the world.

2. Opportunities, Threats, Risks and Concerns:

The vast gap between our present per capita consumption (67 eggs and 4.2 kgs of meat) and National Institute of Nutrition (NIN) recommended level (180 eggs and 11 kg of meat) offers an excellent opportunity for the growth of poultry industry at least for the next 20 years. Various factors like increasing disposable income and

expected revival in industrial activity will contribute to the growth in demand for poultry products and the industry has promising future. However, lack of adequate cold storage facilities at key locations and retail infrastructure are the main reasons which are impacting the industry's growth. Further, unpredictable price behaviour of feed ingredients is another concern to the poultry industry.

3. Segmentwise Performance:

a. Poultry and Poultry Products

The Company's major business segment is poultry and poultry products which consist of production and sale of day old broiler and layer chicks, specific pathogen free eggs, processed chicken products and poultry feed. In 2017-18 this segment's turnover was Rs.1,36,079 Lakhs as compared to Rs.1,24,236 Lakhs in the last year. The profit before tax and interest of this segment was Rs.28,014 Lakhs as compared to Rs. 18,438 Lakhs in the previous year.

b. Animal Health Products

The Company has its animal health products manufacturing facility at Pune. This segment's sales turnover was Rs.20,458 Lakhs as compared to Rs.17,911 Lakhs. Profit before tax and interest was Rs.4,444 Lakhs as against Rs. 3,327 Lakhs in the last year.

c. Oilseed

This segment registered a sales turnover of Rs.1,20,578 Lakhs as compared to Rs. 1,10,310 Lakhs last year. Profit before tax and interest was Rs.7,142 Lakhs as against Rs. 7,428 Lakhs in the previous year.

4. Outlook

With the expectation of a normal monsoon, the key raw materials prices are likely to be stable in the foreseeable future. With higher capacity utilization and better product mix, the outlook for the year ending March, 2019 appears to be good, barring unforeseen circumstances.

5. Internal Control Systems and their adequacy

The internal control system is designed to ensure

that all the financial and other records are reliable for preparing financial statements and for maintaining accountability of the assets. The Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorised use or disposition and that transactions are authorised, recorded and reported correctly.

Commensurate with the size of operation, your Company has Internal Audit department which continuously reviews the internal control system by an exclusive programme of Internal Audit. The significant findings are then discussed by the Audit Committee of Directors and corrective measures are initiated. The Audit Committee also monitors the implementation of recommendations made by it.

6. Discussion on Financial Performance with respect to Operational Performance:

The turnover of the Company increased by 8.60% over the last year from Rs.2,47,558 Lakhs to Rs.2,68,881 Lakhs. The profit before tax from operations increased by 63.70% from Rs.20,590 Lakhs to Rs.33,696 Lakhs.

The long term borrowings of the Company during the year decreased by about 56.31% from Rs.16,907 Lakhs to Rs.7,386 Lakhs. The short term borrowings of the Company during the year were decreased by about 42.56% from Rs. 30,102 Lakhs to Rs.17,290 Lakhs. Finance cost of the Company has decreased by 35.28% from Rs. 7,707 Lakhs to Rs.4,988 Lakhs.

Keeping in view liquidity, returns and also safety, the Company invests periodically certain funds in bank deposit and debt/liquid schemes of mutual funds.

7. Material Development in Human Resources / Industrial Relations front, including number of people employed:

In line with VH Group's corporate philosophy, the Human Resource is considered as the most valuable resource in the Company. The focus is on developing a performance culture with high standards of efficiency and innovation. Employee relations at all levels continue to remain cordial. As on 31st March, 2018 the Company has 5,366 employees.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31st March, 2018

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To

The Members,

VENKY'S (INDIA) LIMITED,
"Venkateshwara House",
S.No.114/A/2, Pune-Sinhagad Road,
Pune - 411030.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Venky's (India) Limited (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's Books, Papers, Minute Books, Forms and Returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the Books, Papers, Minute Books, Forms and Returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 and made available to me, according to the provisions of:

INDEPENDENT AUDITORS' REPORT

To,
The Members of
Venky's (India) Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Venky's (India) Limited ("the Company")**, which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report

under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at March 31, 2018, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government in terms of sub-section (11) of section 143 of the Act, we give in "Annexure A" a

Venky's (India) Limited

statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by section 143 (3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

(c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

(d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act and rules made thereunder, as applicable;

(e) On the basis of written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness

of such controls, refer to our separate Report in “**Annexure B**”.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. the Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements— Refer Note 7.1 to the Ind AS financial statements;

ii. there are no material foreseeable losses on long-term contracts including derivative contracts for which provision is required to be made by the Company under the applicable law or accounting standards;

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of Independent Auditor's Report on Ind AS financial statements of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) As explained to us, fixed assets of the Company have been physically verified during the year by the management in accordance with a phased program of verification designed to cover all assets over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on physical verification.
- (c) Based on audit procedures performed by us for the purpose of reporting the true and fair view of the Ind AS financial statements of the Company and based on records produced to us and according to information and explanations provided by the management, the title deeds of immovable properties forming part of property, plant and equipment, are held in the name of the Company except for the cases mentioned below wherein it is informed to us that registration of said property is in process.

(Rupees in Lakhs)

Particulars	Location	Total number of cases	Gross block as at March 31, 2018	Net block as at March 31, 2018
Freehold Land and Building thereon	Nalagarh, Larsouli	2	1,673.03	1,589.58

- ii. As explained to us, the management has conducted physical verification of its inventories during the year. In our opinion, having regards to size of the Company and nature of its business, the frequency of verification is reasonable. Based on records produced to us, discrepancies noticed on verification between the physical stocks and the book records were not material and were properly dealt with in the books of account.
- iii. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Consequently,
- sub clause (a), (b) and (c) of the paragraph 3 (iii) are not applicable to the Company.
- iv. In our opinion and according to the information and explanations given to us, in respect of loans, investments, guarantees and securities, the provisions of section 185 and 186 of the Companies Act, 2013 have been complied with by the Company.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposit from the public within the meaning of the provisions of sections 73 to 76 or any relevant provisions of the Companies Act, 2013 and the rules framed there under.
- vi. We have broadly reviewed the cost accounting records maintained by the Company, pursuant to the Companies (Cost Accounting Records) Rules, 2013 prescribed by the Central Government under section 148(1) of the Companies Act, 2013. However, we have not made a detailed examination of the records with a view to determine its accuracy. Based on our review we are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.
- vii. In respect of statutory dues:
- a) According to the records of the Company, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods and services tax, duty of custom, duty of excise, value added tax, cess and other statutory dues applicable to it. As per the records of the Company, as at March 31, 2018, the Company does not have any undisputed statutory dues which are outstanding for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us, the particulars of dues in respect of income tax (including TDS), sales tax, service tax, good and services tax, duty of customs, duty of excise and value added tax that have not been deposited with the appropriate authorities on account of dispute and the forum where the

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of Independent Auditor's Report on Ind AS financial statements of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Venky's (India) Limited ("the Company")** as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including

the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based

on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1.1 CORPORATE INFORMATION

Venky's (India) Limited ("the Company") is a listed public company domiciled in India and is incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two recognised stock exchanges in India. The registered office of the company is located at Venkateshwara House, S. No. 114/A/2, Pune-Sinhagad Road, Pune 411030.

The Company has diversified its activities in poultry sector that includes production of SPF eggs, chicken and eggs processing, broiler and layer breeding, animal health products, Poultry feed & equipment, soya bean extract and many more. The Company has its growing and other manufacturing facilities across India and sells primarily in India.

1.2 BASIS OF PREPARATION

Compliance with Ind AS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") as notified by Ministry of Corporate affairs pursuant to section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments through Companies (Indian Accounting Standards) Amendment Rules thereafter.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

Current / non-current classification

All assets and liabilities have been classified and disclosed as current or non-current as per the Company's normal operating cycle and other criteria set out in division II of Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as up to twelve months for the purpose of current or non-current classification of assets and liabilities.

Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the assets and liabilities that require measurement at fair value in accordance with Ind AS. These assets and liabilities mainly consist of biological assets and certain financial instruments (including derivative instruments). In addition, the carrying values of recognised liabilities that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationships.

The financial statements are presented in Indian Rupees and all values are rounded to the nearest lakhs (INR 00,000) except otherwise indicated.

1.3 RECENT ACCOUNTING PRONOUNCEMENT

On 28 March, 2018, the Ministry of Corporate Affairs ("MCA"), through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new amendments to Ind ASs effective for annual periods beginning on or after April 01 2018:

Ind AS 115- Revenue from Contract with Customers

Ind AS 21-The effect of changes in Foreign Exchange rates

The Company has evaluated the requirements of the amendment and the effect on the financial statements is not expected to be material.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Key accounting estimates and judgements

The preparation and presentation of financial statements in conformity with Indian GAAP requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the financial statements and reported amounts of revenues and expenses during the period.

Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Accounting estimates could change from period to period. Any revision to accounting estimates is recognized prospectively in the current and future periods, and if material, their effects are disclosed in the financial statements. Actual results could differ from the estimates. Any difference between the actual results and estimates are recognized in the period in which the results are known/materialize.

Information about critical judgements in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

1. Measurement of defined benefit obligations
2. Measurement and likelihood of occurrence of contingencies
3. Recognition of deferred tax assets
4. Impairment of intangible assets
5. Measurement and recognition of cash flow hedges
6. Determination of fair value of biological assets

b. Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any; except for land which is stated at cost less impairment, if any. Cost comprises of purchase price net of trade discounts and rebates, non-refundable duties and taxes, any directly attributable cost of bringing the asset to its working condition for its intended use. Cost also includes borrowing cost directly attributable to acquisition / construction of a qualifying asset up to the date the asset is ready for its intended use.

Subsequent expenditure on fixed assets is capitalised only if such expenditure results into an increase in the future benefits from such asset beyond its previously assessed standard of performance.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Capital work-in-progress comprises the cost of property, plant and equipment that are yet not ready for their intended use at the balance sheet date.

The depreciable amount of a depreciable fixed asset is allocated on a systematic basis to each accounting period over the useful life of the asset. Management's estimate of useful life, which is duly supported by technical evidence, is as stipulated in Schedule II to the Companies Act, 2013.

The useful life is for the whole of the asset, except where cost of a part of the asset is significant to total cost of the asset and useful life of that part is different from the useful life of the remaining

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

asset, useful life of that significant part ("component") is determined separately and the depreciable amount of the said component is allocated on a systematic basis to each accounting period during the useful life of the asset

In arriving at the depreciable amount, residual values considered are not more than 5% of the original cost of the asset. The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and adjusted if appropriate.

Leasehold improvements are amortised over a period of lease or useful life whichever is less.

Depreciation on assets acquired during the year is calculated on a pro-rata basis from the date of addition. Similarly, depreciation on assets sold, discarded, demolished or destroyed during the year is also calculated on a pro rata basis up to the date on which such asset has been sold, discarded, demolished or destroyed. Depreciable assets costing up to Rupees 5,000/- are depreciated fully in the year of acquisition.

c. Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value. Acquisition-related costs are expensed as incurred.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Transaction costs are expensed as incurred. Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised either in profit or loss or as a change to other comprehensive income (herein after referred to as "OCI"). If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

d. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. An intangible asset shall be regarded by the entity as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the entity. Indefinite life intangibles mainly consist of brands/ trade mark/ Technical know-how etc. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues. If not, it is impaired or changed prospectively basis revised estimates.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

The amortization expense on intangible assets is recognised in the statement of profit and loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Acquired intangible assets are amortized on a straight line basis over the useful lives of the intangible assets, as estimated by the management. Management estimate of useful life of Intangible assets are as follows:

Software	-	3 years
Trade mark/Technical know-how/License cost	-	5 years

e. Impairment of assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated.

These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to projected future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in profit or loss section of the statement of profit and loss.

f. Fair value measurement

The Company measures financial instruments such as derivatives and certain non-financial assets such as biological assets, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, In the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Management of the Company determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and for non-recurring measurement, such as assets held for distribution in discontinued operations.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Independent external valuers are involved for valuation of derivative for hedge agreements. Criteria for selection of the independent external valuers include market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the independent external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

g. Income Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Minimum Alternate Tax (MAT)

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is a convincing evidence that the Company will pay income tax higher than the tax computed under MAT, during the period under which MAT is permitted to be setoff under applicable laws.

In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with recommendations contained in the Guidance Note issued by the Institute of Chartered Accountants of India (ICAI), the said asset is created by way of a credit to the statement of profit and loss and shown as a MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent the Company does not have convincing evidence that the Company will pay income tax higher than MAT during the specified period.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised,

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

h. Government grants

Government grants are recognized by the company where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. Revenue grants are recognized in the statement of profit and loss in the same period, in which the related costs are incurred are accounted for.

Government grants related to assets are recognized / presented as deferred income, i.e., wherever the company receives capital grants towards asset acquisition, the grant received thereon are recognized as an income in the statement of profit and loss over the useful life of the asset.

i. Inventories

Inventories are valued at lower of cost and net realizable value (except as otherwise stated) on an item-by-item basis, as under:

Raw materials, packing materials, stores and spares:

Cost of inventory comprises all costs of purchase, duties and taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition. Raw materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a first-in first-out formula.

Cost of oilseeds inventories is determined on quarterly moving weighted average basis.

Work-in-progress and finished goods:

Cost includes direct materials and costs of conversion in the form of Labour and a systematic allocation of fixed and variable production overheads. It also includes other costs which are incurred in bringing the inventories to their present location and condition. The allocation of fixed production overheads is based on normal capacity of production. Realisable value of pre-determined normal rate of scrap is deducted from the cost of inventories. However, cost of inventories neither includes abnormal amounts of wasted material nor any scrap realisations there from.

By products and scrap are recognised at their net realisable value.

For the production processes which result in more than one product being produced, costs of

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

conversion are allocated between the joint products based on relative sales value of each product at the stage when the products become separately identifiable. Net realizable value of by-products as well as scrap is deducted from the cost of main product.

Stock-in-trade:

Cost includes cost of purchases, duties and taxes (other than those subsequently recoverable from authorities) and other costs which are incurred in bringing the inventories to their present location and condition. Cost is determined on a first-in first-out formula.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make sale.

j. Biological Assets

Biological assets include Poultry for live-stock breeding parent (Broiler and Layer), hatching eggs and live commercial birds (Broiler and Layer).

Biological assets, except breeder flocks and commercial layer birds are measured at fair value less cost to sell.

The valuation of the Breeder biological assets and commercial layer birds are determined on the following basis:

Birds are used for captive consumption or to support farmers, it is uncommon to be sold before the end of its useful life and as such, there is no active market for the Company's useful breeding stock and commercial layer birds. Other references to market prices such as market prices for similar assets are also not available due to the uniqueness of the breed. Valuation based on a discounted cash flow method is considered to be unreliable given the uncertainty with respect to mortality rates and production. Consequently, breeder flocks and commercial layer birds are measured at cost, less depreciation and impairment losses.

Breeder flocks are depreciated over the production cycle which is estimated to be ten to twelve months on average based on anticipated output month to month.

The fair value of the consumable biological assets is determined on the following basis:

The fair values of biological assets are level 3 fair values and are determined based on market prices or, where market prices are not available, by reference to sector benchmarks.

Level 1 inputs could not be used due to the unique breed used by the Company due to which identical products are not available in the market.

Level 2 inputs require adjustments to be made in quoted or unquoted prices available for similar products. The qualitative adjustments are highly subjective and may not show the true & fair picture. Hence, Level 2 inputs are ruled out from the selection criteria of valuation.

Gain and losses arising on the initial recognition of biological asset at fair value less estimated point of sale costs and from a change in fair value less estimated point-of-sale costs are recognised in the statement of profit and loss in the period in which they arise.

k. Investments and other financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit and loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss account.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the assets and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortized cost**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in interest income using the effective interest rate method.

- **Fair value through other comprehensive income (FVOCI)**

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- **Fair value through profit or loss**

Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 7.3 details how the Company determines whether there has been a significant increase in credit risk.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Derecognition of financial assets

A financial asset is derecognised only when

- the Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Whether the Company has not transferred substantially all risks and rewards of ownership of financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, if so, the nature of the item being hedged and the type of hedge relationship designated.

The Company designates their derivatives as hedges of foreign exchange risk associated with the cash flows of highly probable forecast transactions and variable interest rate risk associated with borrowings (Cash flow hedges).

The Company documents at the beginning of the hedging transaction the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset changes in the cash flows of hedge items. The Company documents its risk management objective and strategy for undertaking various hedge transactions at the inception of each hedge relationship.

The fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months. It is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

Cash flow hedges that qualify for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedge reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/ (losses).

When option contracts are used to hedge forecast transactions, the Company designates only the intrinsic value of the option contract as the hedging instrument. Gains or losses relating to the effective portion of the change in intrinsic value of the option contracts are recognised in the cash flow hedging reserve within equity. The changes in the fair value of the option contracts that relate the hedged item ('aligned time value') are recognised within other comprehensive income in the costs of hedging reserve within equity.

When forward contracts are used to hedge forecast transactions, the Company designates the full change in the fair value of the forward contract (including forward points) as the hedging instrument. Gains or losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedging reserve within equity.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedge item affects profit or loss.

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any accumulated deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred cost of hedging that were reported in equity are immediately reclassified to profit or loss within other gains/losses.

If the hedge ratio for risk management purpose is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedge item so that the hedge ratio aligns with the ratio used for risk management purpose. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of hedge relationship rebalancing.

l. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

m. Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

n. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cash on deposit with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown in current liabilities in the balance sheet.

o. Borrowings

Borrowings are initially recognised at fair value, net of transactions cost incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent, there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has not extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

p. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expense recognised in the profit and loss account over the period of borrowing using effective interest method and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

q. Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A disclosure for contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an out flow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

r. Trade and other payables

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

s. Revenue recognition

Revenue is measured at the fair value of consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade discount or rebates and applicable taxes and duties collected on behalf of the government and which are levied on such sales.

The Company recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Company.

Revenue from Sale of goods

Revenues from sales of goods are recognised when risks and rewards of ownership of goods are passed on to the customers, which are generally on dispatch of goods and the customer has accepted the products in accordance with the agreed terms. There is no continuing managerial involvement with the goods and the Company retains no effective control of goods transferred to a decree usually associated with ownership. Revenue from sales of goods is based on the price quoted in the market or price specified in the sales contracts.

Revenue from services

Revenue from services is recognised pro-rata as and when services are rendered.

Interest Income

Interest income is recognised using effective interest method on time proportion basis taking in to account the amount outstanding.

Dividend income

Dividend income is recognised when the Company's right to receive is established by the reporting date, which is generally when shareholders approve the dividend.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

t. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease, if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

The Company has decided to recognise operating lease as expense/ income on a straight-line basis since the management believes that straight-line method is more representative of the time pattern of the user's benefit.

u. Foreign currencies

The Company's financial statements are presented in Indian Rupees, which is also the Company's functional currency. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the "functional currency").

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

v. Employee benefits

Short term employee benefits

All employee benefits which fall due wholly within twelve months after the end of the period in which employee renders the related service are classified as short-term employee benefits. Undiscounted value of short term benefits such as salaries, wages, bonus and ex-gratia are recognized in the period in which the employee renders the related service.

Defined Contribution Plans:

The Company's Employee's Provident Fund scheme, Employee's State Insurance Scheme and Employee's Superannuation Scheme are defined contribution plans. The Company's contribution payable under the schemes is recognized as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plan

Gratuity

The Company operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund. The surplus or deficit arising in the defined benefit plan on the balance sheet date comprises of the total for each of the fair value of plan assets less the present value of the defined liabilities.

The cost of providing benefits under the defined benefit plan is determined based on independent actuarial valuation using the projected unit credit method. The gratuity liability is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, is based on the market yield on government securities as at the balance sheet date.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

The date of the plan amendment or curtailment, and

The date that the Group recognises related restructuring cost"

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Other long term employee benefits:

Entitlement to annual leave is recognized when they accrue to employees. Annual leave can either be availed or en-cashed subject to a restriction on the maximum number of accumulation of leaves. The present value of the liability is determined based on independent actuarial valuation using the Projected Unit credit method. The discount rates used for determining the present value of the

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

liability is based on the market yields on Government securities as at the balance sheet date. Actuarial gains and losses are recognized immediately in the statement of profit & loss.

w. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the management of the company.

Identification of segments

The Company's management examines the Company's performance both from a product and geographic perspective. The Company's operating businesses are organised and managed separately according to the nature of products, with each segments representing a strategic unit that offers different products and serves different markets. The analysis of the geographical segments is based on the areas in which major operating divisions of the Company operate.

Intersegment transfers

The Company accounts for intersegment sales on the basis of price charged for inter segments transfers.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

x. Earningsper share

Earnings per share (EPS) is calculated by dividing the net profit for the year attributable to the equity shareholders by weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and weighted average number of shares outstanding during the period is adjusted for the effects of all diluted potential equity shares.

Notes:

- 6 The Company test Goodwill impairment at the end of each reporting period annually.

Goodwill relates to the acquisition of North based poultry and packaging division from Venkateshwara Hatcheries Private Limited in March 2014 situated at Naraingarh - Haryana, Nalagarh - Himachal Pradesh and Ludhiyana - Punjab. These divisions are engaged in the production of commercial layer chicks and packing boxes for day old chicks and eggs respectively.

The recoverable amount of each CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management, which include assumptions on profit before interest and tax, depreciation, working capital movements and capital maintenance expenditure. Cash flows have been forecasted to grow at 8%. Cash flows beyond a five-year period are extrapolated using the estimated growth rates stated below.

Key assumptions used in the goodwill impairment test:

	North based poultry	North based packaging
Discount rate (%)	14%	12%
Perpetuity growth rate (%)	3%	3%
Period (years)	5	5

The perpetuity growth rate is consistent with long-term industry growth forecasts.

The discount rate reflects specific risks relating to the CGU.

No impairment was required in the current year.

Sensitivity analysis of assumptions used in the goodwill impairment test:

	North based poultry	North based packaging
Discount rate – Movement (%) -1%	– Impairment (Rs) _Nil	– Impairment (Rs) - 36.52 Lakhs
Perpetuity growth rate – Movement (%) -1%	– Impairment (Rs) _Nil	– Impairment (Rs) - 19.59 Lakhs

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Fair value estimation

Ind AS 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table presents the Company's assets and liabilities that are measured at fair value as at:

	(Rupees in Lakhs)			
	Level 1	Level 2	Level 3	Total
31st March 2018				
Assets				
- Investments in mutual funds	-	-	-	-
- Derivative assets	-	1,370.08	-	1,370.08
- Biological assets	-	-	5,390.69	5,390.69
31st March 2017				
Assets				
- Investments in mutual funds	200.17	-	-	200.17
- Derivative assets	-	2,246.13	-	2,246.13
- Biological assets	-	-	6,446.70	6,446.70

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the company is the current bid price. These instruments are included in Level 1.

Instruments included in Level 1 comprise of investments in mutual funds.

The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. Instruments included in Level 2 comprise of derivative assets taken for hedging purpose.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The following valuation techniques and significant inputs were used to measure the level 3 inputs.

In measuring the fair value of biological assets, management estimates and judgements are required for the determination of fair value.

These estimates and judgements relate to the market prices, average weight and quality of animals and mortality rates.

Description	Fair value as at 31 March 2018	Unobservable input	Range of unobservable input	Relationship of unobservable input to fair value
Biological assets	5,390.69	Hatching Eggs per hen	187 -260 Eggs	The higher the eggs per hen, the higher the fair value
		Cost of a day old breeder bird	Rs. 235 - Rs. 280 per chick	The higher the cost per chick, the lower the fair value
		Mortality	5.00%	The higher the mortality, the lower the fair value
		Feed cost	Rs. 22,000/- - Rs. 26,000/- per ton	The higher the feed cost per ton, the lower the fair value
		Average Body Weight	1.75 kgs - 2.50 kg per bird	The higher the average body weight, the higher the fair value
		Feed Conversion Ratio	1.60 kg - 1.90 kg per bird	The higher the feed conversion ratio, the lower the fair value

Sensitivity analysis

A sensitivity analysis is shown for the significant unobservable inputs below:

Input	Sensitivity
Feed cost	A 5% change in the feed cost would result in a Rs. 57.45 Lakhs change in fair value.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

7.3 FINANCIAL RISK MANAGEMENT

Financial risk factors

This note presents information about the Company's exposure to financial risks, the Company's objectives, policies and processes for measuring and managing these risks and the Company's management of capital.

The Company's financial instruments consist primarily of cash and cash equivalents, investment in mutual funds, derivatives taken for hedge purpose, loans receivable, trade and other receivables and payables and long term and short borrowings. In the normal course of business, the Company is exposed to credit, liquidity and market risk. In order to manage certain of these risks, the Company may enter into transactions which make use of derivatives. They include forward exchange contracts, interest rate swaps, cross currency swaps and options. A separate committee is used to manage the risks and the hedging activities of the Company. The Company does not speculate in derivative instruments. Certain of the Company's forward exchange contracts qualify as designated hedges for accounting purposes. Their fair values are disclosed in note 3.5.

The Board has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Board has established the Risk Committee which is responsible for developing and monitoring the Company's risk management policies. The Risk Committee reports regularly to the Board on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training, management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk primarily relates to trade and other receivables, long-term loans, cash and cash equivalents, the investment in mutual fund and derivative financial instruments.

The Company's exposure to credit risk with regards to trade and other receivables is influenced mainly by the individual characteristics of each customer and there is no significant concentration of risk related to industry segments. The granting of credit is controlled by well-established criteria that are reviewed on a regular basis. The terms granted to trade debtors are determined by the respective credit policies of each operating segment. The maximum exposure to credit risk at the reporting date is the carrying amount of each trade receivable (refer to note 4.4).

The credit risk surrounding trade receivables is assessed as low as the counterparties represent large, well established trading companies within India.

The credit policy requires each new customer to be analysed individually for credit worthiness before delivery and payment terms are offered.

The Company's review includes external ratings where available and in some cases bank references. Limits are established for each customer which represents the maximum trading amount without requiring

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

further approval. These limits are reviewed on an ongoing basis. Customers that fail to meet the Company's benchmark creditworthiness may transact with the Company on a cash basis. Customers that default on payments are closely monitored and put on "stop supply" if required.

The Company has various credit terms with its trade debtors specific to each operating segment.

Other receivables consist primarily of security deposits, loans to employees and other receivables.

The risk of default is assessed as low.

Security deposits include amounts due in respect of certain distribution and lease contracts.

The risk of default is considered low as the counterparties represent large, well established trading companies within India.

The credit risk surrounding loans receivable is assessed as low risk.

Credit risk on cash and cash equivalents is assessed as low risk as the Company deposits cash surpluses with financial institutions of high quality and standing with high credit ratings assigned by international and domestic credit rating agencies.

Derivative instruments are limited to transactions with financial institutions with an acceptable credit rating.

Liquidity risk

The Company actively monitors its cash flows to ensure there is sufficient cash available to meet its working capital requirements. Due to the dynamic nature of the underlying businesses, the Company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's cash and cash equivalents on the basis of expected cash flow.

The Company's current trade and other payables are all due within one year.

The table below summarises the maturity profile of the Company's financial liabilities as at 31st March 2018 based on contractual undiscounted payments:

(Rupees in lakhs)

Particulars	Less than 1 year	1-2 Years	2-4 Years	>4 Years	Total
Trade payables	22,747.63	-	-	-	22,747.63
Long term borrowings	10,366.24	4,830.13	2,297.77	328.10	17,822.24
Short term borrowings	17,289.54	-	-	-	17,289.54
Other financial liabilities	1,168.13	-	14.00	38.00	1,220.13

Market risk

Interest rate risk

The Company is exposed to interest rate risk on its cash and cash equivalents, long-term loans and borrowings, which can have an impact on the cash flows of these instruments. The exposure to interest rate risk is managed through the Company's Board by using counterparties that offer the best rates which enables the Company to maximise returns whilst minimising risk.

In response to interest rate risk on the variable rate portion of the external borrowings, the Company has entered into hedge derivatives which are effective till the maturity of external borrowings.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Foreign currency risk

In the normal course of business the Company enters into transactions denominated in Indian Rupees and few transactions in foreign currencies. The Company has also taken external commercial borrowings denominated in US\$. As a result, the Company is subject to exposure from fluctuations in foreign currency exchange rates. The Company utilises forward exchange contracts and currency options to minimise foreign currency exchange risk on external commercial borrowings in terms of its risk management policy. All forward exchange contracts and currency options are supported by underlying transactions.

The hedges in respect of currency risk are expected to mature in line with the maturity of external commercial borrowings.

There was no ineffectiveness to be recorded from the cash flow hedges.

Commodity price and procurement risk

Commodity price risk arises from the risk of an adverse effect on current or future earnings from fluctuations in the prices of commodities.

The principal directive is to procure commodities at the lowest cost to meet forecast requirements, both internally and for external sales. The overall procurement strategy and net positions are reported monthly to the Board and the oversight committees. The oversight committees are responsible for the setting of the monthly company view with regard to future price movements. The daily trading by the procurement teams are restricted in terms of this company view, unless prior approval is obtained from the Procurement Committees.

Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain shareholder, creditor and market confidence and to sustain the future development needs of the business. The Board monitors both the spread of shareholders return on equity (which is defined as profit for the year expressed as a percentage of average total equity) and the level of dividends paid to shareholders. There were no changes to the Company's approach to capital management during the year.

12.1 SEGMENT REPORTING

Business segment

The Company's management examines the Company's performance both from a product and geographic perspective and has identified three reportable segments of its business. The 'Poultry and Poultry Products' segment produces and sells chicks, grownup commercial broiler and layer, processed chicken, S.P.F. eggs, poultry feed and other miscellaneous poultry products. The 'Animal Health Products' segment produces and sells medicines and other health products for birds. The 'Oilseed Segment' produces and sells edible refined soya oil and soya de-oiled cake.

The operating businesses are organised and managed separately according to the nature of the products, with each segment representing a strategic business unit that offers different products and serves different markets. Transfer price between segments are measured on the basis of price charged for inter segment transfers. Segment revenue includes transfer between inter segments. Those transfers are eliminated in total revenue. Corporate expenses are allocated to other segments at cost.

Geographical segment

Revenue and receivables are specified by location of customers while other geographic information is specified by location of the assets.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

- 16** During the current financial year, a notice was issued to the Company under provisions of section 148 and 153A of the Income Tax Act, 1961, directing the Company to furnish return of its income for the financial years 2010-11 to 2016-17. Consequently, the additional income tax liability of Rs. 1,396.80 Lakhs pursuant to such revision / re-computation of the tax liability for the aforesaid financial years has been paid and provided by the Company during the year. The additional tax liability is included and disclosed under the "tax adjustments in respect of earlier period" in the statement of Profit and Loss.

The Company has prepared and presented its first set of IND AS compliant financial statements for the year ended 31 March 2017 with comparative financial year ended 31 March 2016. The financial statements for the year ended 31 March 2016 have been accordingly restated from then Indian GAAP to IND AS. Accordingly as per the requirements of IND AS, the Company valued certain biological assets at its fair market value less cost to sales as at 31 March 2017 as well as 31 March 2016 in accordance with IND AS 41 on Agriculture and IND AS 113 on Fair Value Measurement. The matter on taxability of the difference of fair value over the cost as at 31st March 2016 being the transitional adjustment had been referred to an independent tax consultant. Based on the professional advice received from the tax consultant, the excess of such fair value of biological assets as at 31 March 2016 over the corresponding value of inventories as reported under financial statements for the year ended 31 March 2016, of Rs. 1,732.69 Lakhs have been offered to income tax voluntarily by the Company for the financial year 2016-17 and income tax of Rs. 599.65 Lakhs has been paid as well as provided during the year and is disclosed under "tax adjustments in respect of earlier period" in the statement of Profit and Loss.

Interest on above payments of Rs. 287.03 Lakhs has been paid during the year and is disclosed under "finance cost" in the statement of Profit and Loss.

- 17** Previous year's figures have been regrouped/recast/rearranged wherever necessary in order to conform to current year's presentation. Previous year's figures have been audited by a firm of chartered accountants other than B. D. Jokhakar & Co.

DIVIDEND DISTRIBUTION POLICY

1. Introduction:

The Securities And Exchange Board of India vide notification No. SEBI/ LAD-NRO/GN/2016-17/008 dated 8th July 2016 amended the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. The said amendment requires top five hundred listed entities based on market capitalization (calculated as on March 31 of every financial year) to formulate a dividend distribution policy which shall be disclosed in their annual reports and on their websites.

2. Applicability:

Venky's (India) Limited, as on 31st March 2018, falls well within the criteria as mentioned above and therefore needs to formulate and disclose the dividend distribution policy as required by the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016. This policy will be applicable to dividend payable to equity shareholders of the Company.

3. Dividend:

According to the generally accepted definition, "dividend" means the profit of a company that is not retained in business and is distributed amongst the shareholders in proportion to the amount paid-up on the shares held by them. For the purpose of this policy dividend shall mean dividend proposed and payable to equity shareholders only and shall include interim dividend as defined in Section 2(35) of the Companies Act, 2013.

4. Parameters of Dividend Distribution Policy:

- (a) The circumstances under which the shareholders may or may not expect dividend:

The circumstances under which the shareholders may or may not expect dividend depends upon internal as well as external factors which shall be considered by the company while declaring the dividend. Generally, the internal factors may be defined as those factors which are part and parcel of the organization and may be in control of the company whereas external factors are those which are beyond the control of the management. In some cases, both the factors will be inter-connected to each other and decision of dividend will always be taken after jointly considering the factors. In addition to the above, shareholders may not expect dividend in case of inadequacy of profits or losses. The internal and external factors are defined in clause 4 (b) of this policy.

- (b) Internal and external factors that shall be considered for declaration of dividend:

Internal Factors:

- Profit for the year under consideration;
- Expansion plans in near future;
- Availability of surplus funds;
- Short term and long term liabilities of the Company;
- Cyclical nature of business;
- Corporate actions such as Bonus, Split of Shares etc.;
- Past dividend distribution record of the Company.

External Factors:

- State of the economy
- Monsoon
- Industry outlook
- Govt. Rules and Regulations

- Taxation policy
- Environment and Disease outbreak.

(c) The Company will consider the following financial parameters while declaring dividend:

- Cost of borrowing;
- Availability of alternate source of funding;
- Operating cash flows;
- Profitability.

5. Policy as to how the retained earning shall be utilized:

The retained earnings of the company shall be utilised as per the provisions of the Companies Act, 2013 and rules and regulations made thereunder. Generally, retained earnings shall be used for the following purposes:

- Issue of bonus shares;
- Declaration of dividend;
- Funding for expansion plans;
- Repayment of debts.

6. Payout Ratio:

Considering the parameters mentioned in this policy, the Company aims to provide a balance between rewarding its shareholders and retaining earnings for the Company's growth. The Company is engaged in the livestock industry which is prone to several unpredictable factors, like higher volatility in prices of feed ingredients, mis-match in demand and supply, vagaries of climatic conditions etc. Keeping these factors in mind, it is the endeavour of the Company that the dividend amount in each financial year will be stable and steady. Therefore, the Company will distribute dividend upto 10% of its after-tax profits in each financial year.

7. Parameters for various classes of shares:

Currently, the Company has only one class of issued shares i.e. equity shares to which this policy shall be applicable.

8. Changes / modification in the policy:

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

1. Does the policy relating to ethics, bribery and corruption cover only the company? Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

The policy relating to ethics, bribery and corruption does not only cover the company but also it is applicable to the stakeholders of the Company. The stake holders of the Company includes the employees and suppliers associated with the Company.

The company has put in place policy which emphasizes on good ethical practices within the organization. The policy extends not only to the entire group but also to the Suppliers, Contractors of the Company. The company, in its day to day operations, always accentuate on fair and transparent business practices which inter alia debar acceptance of bribe as well as giving bribe. While effectively monitoring the above practices in the organization the Company believes the agenda of "Corruption Free Business".

- 2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.**

In the past financial year the company has not received any complaint from its stakeholders in this segment.

Principle 2

- 1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.**

As a leader in poultry industry the company has employed state of the art technology in its operations. The operations of the company ensure that it shall not disturb the ecology and environmental balance surrounding to it. For this, the company has adopted the latest technology which is at par with the global standards.

- (a) The “Venky’s XPRS” chain of retail outlets of the Company has put in place clean and best hygienic practices for preparation and serving food items at the restaurant as well as for the take away products.
- (b) The live bird operations of the company ensure safety and optimal use of resources over the life-cycle of the product – from design to disposal. The waste generated from these operations is biodegradable in nature, is recycled and used in poultry activities and other allied activities like agriculture. The company also regularly reviews and improves the process of new technology development, so as to incorporate social, ethical, and environmental considerations.
- (c) The Company is also in the business of processed chicken products which are being sold through retail outlets as well as through various chain of suppliers/ distributors. The Company ensures that the manufacturing processes and technologies required to produce these products are resource efficient and sustainable. It also follows all the statutory guideline pertaining to the packaging, disclosure of information which results in consumer awareness.

- 2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):**

- (a) Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain?

The abovementioned operations/ technology results into use of less water at the plant. The water which is used in operational functions is being recycled and used in the plant itself for gardening and plantation purpose. The equipments used in the “Venky’s XPRS” retail chain outlet is based on electrical installation which eliminates usage of LPG gas which in turn reduces the environmental pollution.

- (b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The products mentioned herein above even though are not being used by the consumers directly but in the process of design to disposal they are environment friendly products which has less adverse impact on the environment.

- 3. Does the company have procedures in place for sustainable sourcing (including transportation)?**

- (a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Apart from the required energy and water, inputs used in poultry industry are basically agricultural produce and land. The Company is effectively treating the water used in its farms, hatcheries, units and re-using the same. This reduces the requirement of fresh water substantially thereby saving water. The poultry industry is generally not a “High Technology Intensive Industry” and hence it has less environmental impact compared to other industries. The Company has in place the sustainable sourcing practices including transportation.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

The Company along with its poultry farming operations also carries out the business of poultry feeds and feed supplements. The main ingredients of the poultry feed are Soya and Maize. The Company directly procures the agricultural produce like Soya from local farmers in the area where company is operating, thereby eliminating the role of mediators. The Company while procuring good quality of material (Soya & Maize) from farmers gives them competitive rate in the market.

(a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The company has from time to time interacted and educated farmers about latest available practices in farming. It has always encouraged the framers to produce the best quality of Soya and Maize. While doing this the Company has provided comfort to the farmers to buy their produces at remunerative prices.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The Company's live chicken business does not generate any hazardous waste. All the waste generated is bio-degradable and used in some form or other. Further in case of processed chicken products, the Company has set up rendering plants which recycles the waste generated and the same is re-usable. The company believes in minimum waste generation and optimum resource utilization. In line with several environmental rules & regulations mandated by Central /State Government the Company has set up a mechanism for waste minimization and its recycling. The products which are being sold by the Company in the domestic market as well as outside India are packed in the recyclable material.

Dear Shareholder(s),

Option for ECS Mandate / Bank Mandate

ECS Mandate

As an added service to our shareholders, we are pleased to offer the facility of electronic credit of dividend directly to the respective bank accounts of our shareholders, through Electronic Clearing Service (ECS). Shareholders who would like to avail this facility are requested to fill up the mandate form provided on Page No.137 and submit the same to the Company' Registrar and Share Transfer Agent's office **latest by 5th September, 2018**. This service not only protects a shareholder against fraudulent interception and encashment of dividend warrants but also eliminates dependence on postal system, loss / damage of dividend warrants in transit and correspondence relating to revalidation / issue of duplicate dividend warrants.

Kindly note that as per the directives of Securities and Exchange Board of India (SEBI), in respect of shareholders holding shares in dematerialised form, dividend shall be paid through ECS (where such facility is available) directly into the bank account furnished by the shareholders to their respective Depository Participant at the time of opening the Demat Account, provided that bank particulars and MICR details are made available to the Company in the beneficiary positions provided by NSDL & CDSL. **Such shareholders therefore need not submit the mandate form provided on the reverse of this letter but should ensure that the Bank particulars submitted to their respective Depositories are correct and valid.** In case it is desired to receive dividend in an account other than the one specified while opening the Demat Account, such shareholders may please inform the same to their respective Depository Participant immediately. The details informed to the Company or its Share Transfer Agent will not be considered in such cases.

Bank Mandate

Shareholders holding shares of the Company in physical form and who, for any reason, would not like to avail of the ECS facility being offered to such shareholders as mentioned above, are requested to furnish, (if not done earlier) in the mandate form provided on Page No.137, details of their Bank Account Number and name of the Bank and the Branch, which would be printed on the dividend warrants to avoid fraudulent encashment thereof.

Kindly note that the ECS / Bank Mandate instructions should be under the signature of the shareholder(s) as per specimen lodged with the Company.

We seek your co-operation to enable us to serve you better.
Yours faithfully,

For **Venky's (India) Limited**
