- Profit After Tax reported was at Rs. 48.39 crore in 9MFY26 as against Rs. 31.23 crore in 9MFY25
- EPS stands at Rs. 1.05 as in 9MFY26

Quarterly Business Highlight:

During Q3FY26, Blue Cloud Softech Solutions Limited demonstrated strong financial performance and growth. The company achieved a Profit Before Tax of Rs. 25.11 crore, up from Rs. 22.14 crore in the previous quarter, while Profit After Tax rose to Rs. 18.58 crore compared to Rs. 15.42 crore in Q2FY26. Earnings per share (EPS) for the quarter stood at Rs. 0.37.

Revenue from operations reached Rs. 723.38 crore for the nine months ended FY26, marking a significant increase from Rs. 613.24 crore in the same period of the prior year. EBITDA improved to Rs. 77.57 crore versus Rs. 51.63 crore, reflecting enhanced operational efficiency. The company also reported a Profit After Tax of Rs. 48.39 crore for 9MFY26, up from Rs. 31.23 crore in 9MFY25, and EPS for the nine-month period was Rs. 1.05.

BCSSL continued to expand its international presence and invest in advanced technologies, including AI-driven enterprise solutions, next-generation 5G Fixed Wireless Access, and data center innovation. This strategic focus bolstered its position in mission-critical sectors such as defense, cybersecurity, and enterprise digital transformation, enabling the delivery of high-speed, secure, and scalable solutions for clients across the globe.

During the quarter, Blue Cloud Softech Solutions Limited completed the acquisition of AIS Anywhere through a share-swap arrangement approved by the Board of Directors. As a result, AIS Anywhere has become a wholly-owned subsidiary of the company.

The financial results for the period include only a partial consolidation of AIS Anywhere's revenue and profitability, reflecting its profit and loss from the effective date of acquisition. The subsidiary's full-year performance will be reflected in future financial periods.

Recent Highlights & Announcements:

- **Strategic collaboration with Orange for BSNL 5G FWA**
Announced partnership to deploy enterprise grade BSNL 5G Fixed Wireless Access (FWA) using BNG architecture, strengthening presence in India's 5G enterprise infrastructure space.
- **Semiconductor & Edge AI SoC MoU (Automotive Cybersecurity)**
Signed MoU with ConnectM Technology Solutions Pvt. Ltd. for development of Edge AI System on Chip (SoC) solutions focused on automotive cybersecurity.
- **AIoT healthcare deployment completed (Hyderabad)**
Announced successful deployment of Access Genie AIoT Video Analytics Platform at Rajiv Aarogyasri Health Care Trust dialysis centers, indicating production level execution.
- **BluHealth Screener & Scanner PoC completed with KRCL**
Disclosed successful Proof of Concept (PoC) completion with Konkan Railway Corporation Limited, validating healthcare screening solution for PSU usage.
- **Strategic plan to invest up to USD 1 billion in AI data centers**
Announced long term plan to invest in AI powered next generation data center business, outlining future platform scale growth ambition.

LEADERSHIP COMMENTS:

Commenting on the results, Sri Tejesh Kumar Kodali, Group Chairman, Blue Cloud Softech Solutions Limited, stated, "Our robust financial performance in the third quarter and the nine months ended FY26 demonstrates our relentless focus on innovation and operational excellence. The notable growth in revenue and profitability not only underscores our commitment to delivering world-class digital solutions and expanding our global footprint but also highlights the strategic value of our recent acquisition of AIS Anywhere. This acquisition, completed during the quarter, further strengthens our capabilities and positions us for enhanced growth as we integrate AIS Anywhere's expertise and offerings. We continue to invest in advanced technologies and strategic partnerships to drive sustainable value for our clients and stakeholders."

Mr. Vinod Babu Bollikonda, Group Chief Executive Officer, Blue Cloud Softech Solutions Limited, added, "We are proud of the company's achievements this quarter, including the successful acquisition of AIS Anywhere, which reflects our dedication to empowering mission-critical industries through AI-driven enterprise solutions, next-generation 5G connectivity, and data center innovation. The acquisition expands our portfolio and international presence, allowing us to deliver secure, scalable, and high-speed digital solutions to a broader range of clients. Our teams' efforts in enhancing operational efficiency and integrating AIS Anywhere's capabilities have enabled us to support digital transformation across defense, cybersecurity, and enterprise sectors. We remain committed to pioneering advancements that drive value and growth for our clients worldwide."

Investor Update: Strategic Business Segmentation

Blue Cloud Softech Solutions Ltd (BCSSL) is implementing a segmented business technology model as part of its strategic planning for the upcoming quarter. This approach focuses on targeted growth in AI-driven solutions, cybersecurity, and next-generation 5G connectivity, enabling BCSSL to optimize resources, foster innovation, and address sector-specific challenges. By tailoring strategies to each technology domain, BCSSL aims to enhance operational efficiency, maximize profitability, and strengthen its market presence, ultimately delivering greater value to investors and solidifying its leadership in enterprise solutions.

About Blue Cloud Softech Solutions Ltd

Established in 1991, Blue Cloud Softech Solutions Limited (BCSSL) has emerged as a premier provider of AI-driven enterprise solutions, distinguished by its unwavering commitment to technological innovation and operational excellence. With a rapidly expanding footprint across India, the United Kingdom, the United States, the United Arab Emirates, Israel, France, Singapore, and Tanzania, BCSSL is strategically positioned to serve a broad spectrum of clients in the defense, cybersecurity, and enterprise digital transformation sectors.

BCSSL stands at the forefront of next-generation connectivity and data center innovation, leveraging advanced 5G Fixed Wireless Access (FWA) alongside state-of-the-art data center capabilities to deliver high-speed, secure, and scalable digital solutions for mission-critical industries.
