Management Discussion and Analysis

Quarter Ended September 30, 2024, Compared to Quarter Ended September 30, 2023

- Net Revenue of ₹39.06 billion during Q3 CY24 was a decrease of ~5.7% as compared to ₹41.43 billion during Q3 CY23.
 - Carbon segment sales volumes during Q3 2024 were 653 thousand metric tonnes, an increase of 19.8% as compared to 545 thousand metric tonnes in Q3 2023. The increase in volumes was primarily driven by higher CPC volumes due to higher capacity utilization of Indian CPC plants post the relief granted by Honorable CAQM in February 2024 and implementation of the same during the third quarter. During Q3 2024, the average blended realisation decreased by ~21.0% on account of lower market quotations across all regions. There was an appreciation of the Euro against the Indian Rupee by ~2.3% and an appreciation of the US Dollar against the Indian Rupee by ~1.3%. Overall, due to the aforesaid reasons, revenue from the Carbon segment decreased by ~5.4% in Q3 2024, as compared to Q3 2023.
 - Advanced Materials segment sales volumes during Q3 2024 were 74 thousand metric tonnes, an increase of 8.8% as compared to 68 thousand metric tonnes in Q3 2023. The increase in volumes was primarily driven by higher throughput from our HHCR plant supported by the Red Sea crisis and higher demand. During Q3 2024, average realisations decreased by 9.5% due to fall in commodity prices offset by an appreciation of the Euro against the Indian Rupee by ~2.3%. Due to the aforesaid reasons, revenue from the Advanced Materials segment decreased by ~1.5% during Q3 2024, as compared to Q3 2023.
 - Cement segment revenue decreased by 19.2% during Q3 2024 as compared to Q3 2023 due to decrease in realisations by 8.8% and decrease in volumes by 11.3% due to extended monsoon in key markets.
- During Q3 2024, Adjusted EBITDA was ₹2,918 million, as compared to Adjusted EBITDA of ₹3,762 million achieved during Q3 2023, a decrease of ₹844 million.
 - Carbon segment Adjusted EBITDA decreased by ₹523 million, as compared to Q3 2023, driven primarily by continued pressure on margins, which was partially offset by increased volumes and appreciation of the US Dollar and the Euro against the Indian Rupee.
 - Advanced Materials segment Adjusted EBITDA decreased by ₹122 million as compared to Q3 2023 due to fall in commodity prices partially offset by increased volumes and appreciation of the Euro against the Indian Rupee.
 - Cement segment Adjusted EBITDA decreased by ₹199 million due to decreased realisations coupled with decreased volumes and a marginal increase in operating costs.
- Reconciliation of Reported EBITDA and Adjusted EBITDA for Q3 CY24 is as follows:

		(₹ in Millions)
Particulars		Q3 2024
A. Reported EBITDA		2,746
B. Adjustments/exceptional items:		
•	Insurance claims related to prior periods	(503)
•	Expenses towards non-recurring items	123
•	Prior period expenses due to regulatory changes	75
•	Foreign Exchange Loss / (Gain) on inter-company Debt Note	477
C. Adjusted EBITDA (A + B)		2,918

RAIN INDUSTRIES LIMITED

- Finance costs were ₹2.34 billion during Q3 2024 as compared to ₹2.42 billion in Q3 2023. The decrease was primarily on account of lower average working capital borrowings partially offset by appreciation of US Dollar and Euro against Indian Rupee compared to Q3 2023
- The Company recorded an income tax expense of ₹0.47 billion for Q3 2024 as compared to ₹0.46 billion for Q3 2023. The effective tax rate ("ETR") was higher than normal range due to non-recognition of deferred tax assets in Germany and US on tax attributes.
- The Adjusted Loss After Tax during Q3 2024 was ₹ 1.66 billion as compared to Adjusted Loss After Tax of ₹ 0.57 billion during Q3 2023.
- The Company achieved an Adjusted Loss per Share of ₹ 4.94 during Q3 2024 as compared to Adjusted Loss per Share of ₹ 1.69 during Q3 2023.
- Reconciliation of Reported Profit / (Loss) After Tax and Adjusted Profit / (Loss) After Tax for Q3 2024 is as follows:

(₹ in Millions)	
Particulars	Q3 2024
A. Reported Profit / (Loss) After Tax	(1,791)
<i>B. Adjustments/Exceptional items:</i>	
• Insurance claims related to prior periods	(503)
• Expenses towards non-recurring items	123
• Prior period expenses due to regulatory changes	75
• Foreign Exchange Loss / (Gain) on inter-company Debt Note	477
• Tax impact on above adjustments	(41)
C. Adjusted Profit / (Loss) After Tax (A + B)	(1,660)

RAIN INDUSTRIES LIMITED

About RAIN:

RAIN is a leading vertically integrated global producer of a diversified portfolio of products that are essential raw materials for staples of everyday life. We operate in three business segments: Carbon, Advanced Materials and Cement. Our Carbon business segment converts the by-products of oil refining and steel production into high-value carbon-based products that are critical raw materials for the aluminium, graphite, carbon black, wood preservation, titanium dioxide, refractory, and several other global industries. Our Advanced Materials business segment extends the value chain of our carbon processing through the downstream refining of a portion of this output into high-value advanced material products that are critical raw materials for the specialty chemicals, coatings, construction, petroleum, and several other global industries. Our Cement segment consists of two integrated cement plants that operate in the South Indian market, producing two primary grades of cement: ordinary portland cement ("OPC") and portland pozzolana cement ("PPC"). We have longstanding relationships with most of our major customers, including several of the largest companies in the global aluminium, graphite, and specialty chemicals industries, and with most of our major raw material suppliers, including several of the world's largest oil refiners and steel producers. Our scale and process sophistication provide us the flexibility to capitalise on market opportunities by selecting from a wide range of raw materials, adjusting the composition of our product mix, and producing products that meet exacting customer specifications, including several specialty products. Our production facility locations and integrated global logistics network also strategically position us to capitalise on market opportunities by addressing raw material supply and product demand on a global basis in both established and emerging markets.
