Macroeconomic conditions

- Textile exports during the year 2015-16 are estimated to be \$40bn vs \$41bn, despite country's exports down 15%. This is despite falling average selling rates.
- India's export of man-made fiber spun yarn to Turkey (our key market) continues to suffer because of anti-dumping duty imposed by Turkey. RSWM's yarn attracts ADD of US cents 28/kg where as other Indian exporters suffer US cents 38/kg.
- Import of VSF from Indonesia and China attracts an anti-dumping duty of US 11 cents and US 21 cents/kg respectively. Currently a sunset review of the present duty is on, results of which will come out by July-16. RSWM has taken up the matter effectively, through Indian Spinners Association, with concerned government authorities strongly. In case this duty is removed, entire industry is going to be benefitted substantially.
