DIVIDEND

The Board of Directors has not recommended any dividend for the year ended 31st March 2015.

FINANCIAL PERFORMANCE

Your Company earned an income of `58,356.91 lakhs in the year 2014-15 as against `83,598.47 lakhs during the previous year. The Company has incurred a net loss of `5,275.84 lakhs as against the net loss of `2,667.60 lakhs incurred during the previous year.

OPERATIONAL PERFORMANCE

Sugar Division

The inadequate rainfall in the command area of the factories and the low sugar prices during the previous season led to reduction in sugarcane crushing in 2014-15. The average recovery of sugar was 9.14% as against 9% in the previous year.

The Company produced 1.45 lakh tons of sugar as against 2.22 lakh tons in the previous year. The Company sold 1.49 lakh tons (including exports) as against 2.24 lakh tons in the previous year.

The key operational data of our sugar division for the year 2014-15 are as follows:

Sugar Division - at a glance	2014-15	2013-14
Sugarcane crushed (Tons)	1,584,231	2,466,747
Recovery %	9.14	9.00
Sugar Produced (Tons)	144,789	222,035
Sugar Sold (Tons)		
- Domestic (including Levy)	138,959	224,095
- Exports	10,000	

Cogeneration Division

The operations of cogeneration division across all the Units were satisfactory. During the year under review, the total power generated by all our Units was 1,918 lakh units as against 2,672 lakh units in the previous year on the back of lower cane crushed. The company exported 1,252 lakh units during the year as against 1,643 lakh units in the previous year.

The Company has received 73,568 units of carbon credits during the year ended 31st March 2015 which has been accounted during the year under review.

Distillery Division

The distillery units located at Unit I and III have produced 193.82 lakh litres of Alcohol in 2014-15 as against 271.61 lakh litres of Alcohol in the previous year and sold 193.68 lakh litres of alcohol as against 268.56 lakh litres of alcohol in the previous year.

Operations of subsidiary company

Trident Sugars Limited

Your wholly owned subsidiary Company, Trident Sugars Limited, has crushed 5.04 lakh tons of sugarcane during the financial year 2014-15 as against 3.80 lakh tons in the previous year. The company produced 55,334 tons of sugar and sold 47,973 tons of sugar during the financial year as against 41,243 tons of production and 30,551 tons of sales in the previous year.

Accounts of Subsidiary

As per sub-section 3 of Section 129 of the Companies Act 2013, the consolidated financial statements are also being given in addition to the standalone financial statements of the Company. The financial statements of the subsidiary will however be made available to those members who request the same. A separate statement containing the salient features of the financial statements of the subsidiary in the prescribed Form AOC-1 is annexed with this report as Annexure 8.

FUTURE OUTLOOK

Sugarcane crushing for the year 2015-16 is likely to be marginally higher than the crushing for the year 2014-15 on account of increase in planting in our command area.

Falling trend of domestic sugar prices and the disconnect between sugarcane and sugar price continue to pose a great challenge to your company's financials and cash flow.

Your company earnestly hopes that both Central and State Governments would intervene with measures to remove surplus sugar from the system and support sugar prices to help the industry recover economical viability. Notwithstanding the above, your company is committed to working towards better crop management and improving operational efficiencies.

FIXED DEPOSITS

Your Company has not accepted any deposits within the meaning of Section 73 of the Companies Act, 2013 and the Companies (Acceptance of Deposits) Rules, 2014 during the year under review.

The earlier deposits (accepted as per the provisions of previous Companies Act 1956) outstanding as on 31st March 2014, amounting to `142.66 lakhs together with interest has been repaid in full within the stipulated period i.e. before 31st March 2015, as required under Section 74 of the Companies Act, 2013

AUDITORS

M/s.Srikishen & Co, Chartered Accountants, the present auditors of the Company, retire at the ensuing Annual General Meeting and are eligible for reappointment. They have furnished necessary certificate in terms of second and third proviso to Section 139(1) of the Companies Act 2013 read with Rule (4) of Companies (Audit and Auditors) Rules, 2014.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

Annexed herewith as Annexure 1

CORPORATE GOVERNANCE

The Company is committed to maintain the highest standards of corporate governance and adhere to the corporate governance requirements set out by SEBI. The Company has also implemented several best corporate governance practices as prevalent globally. The report on Corporate Governance (Annexure 2) as stipulated under the Listing Agreement forms an integral part of this Report. The requisite certificate from the Auditors of the Company confirming compliance with the conditions of corporate governance is attached to the report on Corporate Governance.

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members, M/s. RAJSHREE SUGARS & CHEMICALS LIMITED Coimbatore.

I have conducted the SECRETARIAL AUDIT of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. RAJSHREE SUGARS & CHEMICALS LIMITED (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March, 2015 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the company for the financial year ended on 31st March, 2015 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;

ANNEXURE 9 TO BOARD'S REPORT MANAGEMENT DISCUSSION AND ANALYSIS

Industry Scenario and Development

Global Sugar Outlook

Global output is set to exceed demand for a fifth straight year, leaving the biggest stockpiles on record. As per Global sugar market analysis firm, Platts Kingsman estimates, global production in the year ending September 30 will exceed demand by 3.39 million metric tons, leaving record stock piles of over 80 million tons, or almost enough to supply the world's top seven consuming countries.

However, Platts Kingsman expects a return of global deficit in Sugar Year 2015-16, a deficit of 0.47 million tons. Sugar prices are expected to recover in the coming years as the global sugar production slows down.

Notwithstanding the vicissitudes of current sugar market, in the longer run, world sugar production is expected to cross 216 million tons by 2023 according to the Agricultural Outlook 2014-2023 published by OECD and FAO. Production is projected to grow at 1.9% p.a with most of the increase originating from countries producing sugarcane rather than beet sugar and is attributable to higher yields rather than area expansion. Global sugar consumption is projected to grow by 1.9%, slightly lower than previous decade, to reach 211 million tons by 2023. Developing countries, with their dominant share of world sugar use, will continue to display fastest growth in demand, driven by rising income, urbanization and growing population.

India as the world's second largest sugar producer and the leading sugar consumer exerts an important influence on the world sugar market and global prices. India's production is projected to grow at 2.2% p.a on average, to reach about 31 million tons by the end of the decade. Relatively strong growth in sugar consumption is expected over the coming decade and consumption is projected to rise to more than 32 million tons by 2023.

Sugar Sector in India

In terms of sugar production, the country has produced 27.37 million tons of sugar till the end April 2015. This is about 3.4 million tons higher than the sugar produced during corresponding period of 2013-14 sugar season. Despite deficit rainfall in certain States and lower all India cane acreage, the sugar production is higher than the previous year production of 24.5 million tons mainly due to higher planting in Maharashtra and Karnataka where the sugarcane yields and recoveries are better. The biggest contributor to the increase in production is Maharashtra with around 34% increase in the sugar production as compared to the previous season. Mills in Maharashtra have produced 10.35 million tons of sugar which is the all-time record high production in the state. Uttar Pradesh and Karnataka too have registered increase in production. Barring these three states, the remaining states like Tamilnadu, Andhra Pradesh, Gujarat and Punjab have seen a fall in sugar production. Sugar mills of Tamilnadu have produced 0.9 million tons of sugar, as against 1.1 million tons produced in the corresponding period in previous season.

Indian Sugar Mills Association (ISMA) estimates that the country would produce over 28 million tons of sugar in the current sugar season, about 15% higher than the previous season. With an estimated domestic consumption of 24.8 million tons, this sugar season is likely end with a surplus of around 3.2 million tons leading to a closing stock of over 9.5 million tons.

Sugar prices

A global glut, originating from sugar bowls such as Brazil, Cuba and Thailand has suppressed sugar prices internationally. Sugar prices have been gradually dropping largely owing to surplus supply.

Benchmark global raw sugar prices ended in the last week of April at 12.91 cents a lb having fallen by more than half from a 30-year peak of 36.08 cents a lb set in February 2011.

Despite the efforts of many governments to protect rural income, lower sugar prices have affected mills' profits and farmers' revenues. Weak sugar prices have led to bankruptcy of mills, build-up in cane arrears and lower acre ages. The arrears to

be paid to sugarcane farmers stands at `21,000 crore as of April 2015. Further due to lower crude values and consecutive damage to their economy, oil exporting countries have curtailed their sugar buying. The global sugar prices are expected to recover by the end of 2015-16 owing to reduction in production and higher demands from regions like China.

In India, glut in the domestic market due to a fifth straight year of surplus production and a plunge in global prices have exacerbated the fall in local sugar price. The domestic ex-mill sugar prices have fallen by `8 to 9 per kilo since the beginning of this sugar season. The sugar prices are at the lowest in the last seven years. In Tamil Nadu, Value added tax of 5% was imposed on sugar with effect from 1st November 2014. This has put further pressure of the Tamil Nadu Sugar industry which has already been facing pressure due to flooding of sugar in Tamil Nadu market by the mills in Karnataka.

ISMA has requested the Government

- To engage with Commission for Agricultural Costs and Prices (CACP) to freeze FRP and make it more realistic and with the Government for Price Stabilization Fund.
- To incentivize ethanol production directly from cane juice so that 2 million tons of sugar can be diverted to it.
- Creation of a strategic reserve, which will take care of another 2 million tons of sugar
- To push for exports of another 2 million tons.

In the last week of April 2015, white sugar was trading around \$354 per ton and raw sugar around 12.91 cents per pound.

Sugarcane planting patterns

The total cane acreage in 2014-15 is estimated at 52.94 lakh hectares, which is just about 1 per cent less as compared to the last year. Sugarcane production is forecasted at 354.95 million tons in 2014-15 based on the advanced estimates released by Directorate of Economics and Statistics. The total cane acreage in Maharashtra is estimated at 10.41 lakh hectares, about 11% higher than the previous year. Karnataka is estimated to have about 4.9 lakh hectares of acreage, about 2% higher than previous year.

The rainfall in Tamilnadu has been very poor and this has adversely impacted the overall cane acreage. Around 2.5 lakh hectares are estimated to be under sugarcane cultivation, which is about 12-13% less than last year. Lack of water at crucial stages of crop growth, will also adversely impact the sugarcane yields and sugar recovery. It is estimated that the State will produce around 1.1 million tons of sugar in 2014-15, which will be about 20% less than last year.

Sugarcane Price

Government has announced Fair and Remunerative Price (FRP) of `230 per quintal for 2015-16 season against `220/per quintal. The FRP will be linked to a basic recovery rate of 9.5 per cent, subject to a premium of `2.42 per quintal for every 0.1 percentage point increase in recovery above that level. For the sugar year 2014-15, FRP was `220/- per quintal linked to basic recovery rate of 9.5% subject to a premium of 2.32 per quintal for every 0.1 percent increase in recovery.

Tamil Nadu Government has fixed SAP for sugar cane for 2014-15 season at the same level as for 2013-14 season, 2,650/- per ton inclusive of 100/- per ton for transportation. SAP is yet to be announced for 2015-16 sugar season.

The disconnect between sugarcane and sugar price continues to weigh heavily on the sector. In order to ensure long term viability and sustainability of the industry, there is a need to have a linkage between the sugar and sugarcane price.

Government Announcements

With a view to help boost sugarcane millers cash flow and enable them to pay sugarcane arrears to farmers, the Central Government has announced a subsidy of `4,000/- per ton for export of upto 1.4 million tons of raw sugar in 2014-15 marketing year. The millers are required to utilize the incentive to make payment to farmers within three months of its receipt. Other condition attached with the incentive is that in case of mills having alcohol production capacities, the incentive would be available if they offer to supply ethanol to Oil Marketing Companies under the Ethanol Blending Programme up to 25 per cent of their annual production level of alcohol.

As per average NY 11 futures price prevailed on 30th April 2015 at 12.98 cents/lb and after taking into consideration Rupee-Dollar exchange rate and all India average cost of production of raw sugar, export of raw sugar from India would be viable only at a subsidy of around `12,188/- per ton.

Apart from the export incentive scheme, the Government has notified a hike in Customs duty on import of sugar from 25% to 40% on 30th April 2015 in order to check the falling prices of sugar. The Government has also notified that the excise duty on ethanol supplied for blending, which is presently levied at 12.5%, will be withdrawn from the next sugar season. These measures are expected to ease the pressure on sugar industry which is reeling under a sugar surplus of 3.2 million tons for the next sugar season.

Ethanol

Government of India mandated 5% blending of ethanol with petrol on an all-India basis in November 2006. Despite the Centre allowing interested states to adopt a 10% blending target to cut down on pollution, less than a third of that modest target is set to be achieved in the current fiscal.

Oil Marketing Companies (OMC) were not even able to get bids for more than 50% of the amount offered for purchase mainly due to the price disadvantages in selling Ethanol. As per the estimates given in Auto Fuel Vision and Policy 2025 issued in May 2014, blended petrol is available only in 13 states and the average blend is 2%. Hence, in order to improve the availability of ethanol, the Government, on December 10, 2014, has fixed the price of Ethanol in the Range of `48.50 to `49.50, depending upon the distance of distillery from the depot/installation of the OMCs. It is expected that the recent move of Government waiving the excise duty on ethanol from 2015-16 sugar season will prop up ethanol blending programme.

In Tamil Nadu, the State Government has not yet given permission to sugar mills to participate in the national ethanol-blended fuel programme. In December 2014, the OMCs floated countrywide bids for sugar mills to supply 10 lakh kilolitres of ethanol at about `49/- a litre. But they are yet to get any supplies from Tamil Nadu. Added to this, State taxes make it uncompetitive for the industry to sell to local alcohol producers. Moreover the state government has allowed liquor industry to import Extra Neutral Alcohol (ENA) from other States. Locally made ENA is costlier because of a value added tax of 14.5% while ENA from other States comes in with an inter-State tax of just 2%. As a result, sugar mills in Tamil Nadu are drowning under stockpile of unsold stock of alcohol.

Outlook

The growth in sugar consumption and the production patterns suggest a beginning of a deficit era in sugar industry globally and prices may once again start climbing once the stockpile gets reduced. In India the recent Government announcements are in the right direction and as suggested by ISMA, Government should buy sugar at cost of production and create buffer stock. This measure would take out the surplus and help in recovery of sugar prices.

Risks and concerns

Your company continues to review and manage the risks emanating from such a dynamic environment at periodic intervals. The major risks faced by the industry include sugarcane availability, price realization and regulatory control by Government, financial liquidity, amongst others.

Sugarcane availability

Sugarcane is the main raw material in sugar mills. Sugarcane cultivation is monsoon dependent. Hence it becomes unpredictable in adverse climatic conditions. Similarly other factors like scarcity of harvest labour, lower sugarcane price, availability of attractive competitive/alternate crops will have a direct impact on cane availability and affect our business.

Risk mitigation: The Company has mitigated this risk by following:

Continuous yield improvement activities to obtain a better quality cane leading to a better recovery.

- Close monitoring of cane development activities, which includes supply of good quality seeds, fertilisers and manure, among others.
- Promoting drip irrigation.
- Testing new improved varieties of cane.
- Careful monitoring of cane planting and harvesting schedule.
- Introduction of mechanical harvesters.
- Timely cane payment to farmers and maintaining good relationship with them.

Sugar price realization risk

Sugar being a commodity, the sugar price remains volatile and realisations get adversely affected during a downturn. Coupled with this, higher cane price too affects profitability.

Risk mitigation: To address the challenge of cyclicality in the sugar business, the Company has adopted an integrated business model manufacturing sugar and also producing alcohol and cogenerating power from the sugarcane residue viz., molasses and bagasse. The Power and Alcohol business enhances the profitability of the company and de-risks the business from the adverse movements of sugar price. While Unit I (Varadarajnagar) is already an integrated complex, we have now made Unit II (Mundiyampakkam) and Unit III (Semmedu) also integrated complexes with the commissioning of a state of the art multi-pressure alcohol distillation plant.

The Company is also focusing on improving direct sales to institutional buyers to lock down on prices, thereby balancing the volatility of the market.

Regulatory risk

Last year, the Central Government partially decontrolled sugar sector by abolition of the levy sugar obligation and also dismantling the regulated free sugar release mechanism, thereby freeing mills to sell sugar without any limitation of periodic quotas as in the past. However, the sugar industry continues to be regulated by State Governments by other controls viz., reservation of cane area and fixing sugarcane price.

Risk mitigation: Indian Sugar Mills Association (ISMA) and South Indian Sugar Mills Association (SISMA) of which the Company is a member are in the process of presenting recommendation for appropriate policy changes to reduce governmental influence in the sugar sector and work toward complete decontrol of the sugar industry.

Financial liquidity risk

Sugar industry is highly working capital intensive. Raising adequate and rightly-priced working capital or arranging funds for payment of the interest and principal with respect to loans availed might pose challenge. The other associated risk is soaring interest rates.

Risk mitigation: The Company had already undertaken a debt restructuring exercise under the Corporate Debt Restructuring (CDR) mechanism duly approved by CDR Empowered Group.

With the active support of our secured lenders, the approved CDR Proposal was put into implementation as a result of which the risks associated with repayment obligations of principal debts and interest has been deferred. This measure gives your company to have more disposable liquidity, during the moratorium period, for improving its performance and reducing risk associated with credit repayment.

Consequent to implementation of CDR Proposal, risks associated with interest rate fluctuation has been substantially mitigated with reduction of interest rate and fixing the interest rate regime on the term debts for a longer period. However, the CDR lenders would have a right of recompense for their sacrifices, at the time of Company's exit from CDR.

Internal control systems and their adequacy

The Company has a well-established internal control system in the form of well-documented policies, authorization guidelines commensurate with the level of responsibility and standard operating procedures, to ensure proper functioning of operations. Moreover there exists an effective internal audit system, commensurate with the requirements of the company.

The Board, Audit Committee and the Management review the findings and recommendations of the Internal Auditors and take corrective action, wherever necessary. Moreover the Audit Committee periodically interacts with Statutory Auditors and makes continuous assessments of the adequacy and effectiveness of the internal control systems.

INDEPENDENT AUDITOR'S REPORT

To The Members of Rajshree Sugars & Chemicals Limited

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of RAJSHREE SUGARS & CHEMICALS LIMITED ("the company"), which comprise the Balance Sheet as at 31 March 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

X SIGNIFICANT ACCOUNTING POLICIES

a) BASIS OF ACCOUNTING & REVENUE RECOGNITION

The financial statements are prepared under historical costing convention on a going concern basis, with revenue recognised and expenses accounted on accrual concept (including provisions and adjustments) and in accordance with the applicable accounting standards referred to in Section 133 of the Companies Act, 2013.

b) EMPLOYEE BENEFITS

Short term employee benefits are charged off at the undiscounted amount in the year in which the related service is rendered.

Post employment and other long term employee benefits are charged off in the year in which the employee has rendered services. The amount charged off is recognized at the present value of the amounts payable determined using actuarial valuation techniques.

c) FIXEDASSETS

Fixed assets are stated at historical cost including allocable borrowing costs and exchange differences arising on reporting of long term Foreign currency loans relating to acquisition of fixed assets (as per option exercised in terms of clause 46 of AS 11) and net of specific subsidies, cenvat credit, if any, and depreciation.

Preoperative expenses

Expenditure (including financing cost and exchange rate fluctuations relating to the borrowed funds for construction and acquisition of qualifying fixed assets) incurred on projects under implementation are treated as pre-operative expense pending allocation to the assets and are shown under "Capital Work in Progress" and transferred to the concerned assets on pro-rata basis after installation and commencement of operations.

d) FOREIGN CURRENCY TRANSACTIONS

Transactions in foreign currency are initially recorded at the exchange rate at which the transaction is carried out. Gains or losses on the settlement of these transactions, if any, within the same accounting year are recognized in the Profit & Loss Account prepared for the said year on a net off basis, except exchange differences arising on restatement of borrowings for acquisition of fixed assets, which restatement has been done taking into consideration the terms of relevant hedge / derivative contracts applicable. The monetary assets and liabilities related to foreign currency transactions remaining outstanding at the year end are restated.

e) DERIVATIVE TRANSACTION

In respect of derivative contracts, bank charges, provision for losses on restatement and gains / losses on settlement are recognized alongwith the underlying transactions and charged to Statement of Profit and Loss.

f) INVENTORY VALUATION

Inventory is valued at lower of cost and net realizable value as under:

- a) Raw material is valued at cost on FIFO basis.
- b) In respect of sugar and industrial alcohol, cost is arrived at on historical cost basis after deducting the realisable value of the by-products. In respect of manufactured finished goods, excise duty and cess payable are added to the cost, wherever applicable.
- c) In respect of immovable property cost is taken as the net payment for acquisition and expenses incurred therewith till the date of title perfection.
- d) In respect of semi-finished goods (in process) cost is taken as cost of input raw materials and estimated cost of manufacture upto the various stages of completion.
- e) Stores and spares are valued at Weighted Average cost.

g) INVESTMENTS

Investments are stated at cost inclusive of expenses incidental to acquisition.

h) DEPRECIATION

Depreciation of fixed assets has been provided in terms of Schedule II to the Companies Act 2013 adopting the useful life and residual value as stated therein for the respective assets. In respect of additions during the year, depreciation has been provided on pro-rata basis.

i) INCOME AND EXPENDITURE RECOGNITION

Revenue on sales transactions is recognised as and when the property in the goods sold is transferred to the buyers for a definite consideration. Revenue from other sources and expenses are recognised on accrual basis.

j) EXCISE DUTY

Excise duty in respect of goods manufactured is accounted at the time of removal of goods from the factory for sale.

Cenvat credit, if any, in respect of capital goods is deducted from the respective assets and in respect of revenue items are deducted in the respective expenditure itself.

k) TAXATION

Provision for taxation is made as per estimated total income after considering various reliefs admissible under the provisions of the Income Tax Act, 1961.

In accordance with the Accounting Standard 22, the deferred tax for the timing differences between the book and tax profits for the year is accounted for using the tax rates and laws in force as of the balance sheet date.

I) TURNOVER

Sales are stated inclusive of excise duty and cess net of discount and rebate but exclusive of sales tax collected wherever applicable. Export sales include export incentives.

m) LEASEDASSETS

Operating lease rentals are expensed/recognized with reference to lease terms and other considerations.

n) IMPAIRMENT OF ASSETS

Impairment is recognized to the extent that the recoverable amount of an asset is less than its carrying amount and is charged to the Profit and Loss Account as prescribed in AS-28.

o) PROVISIONS, CONTINGENT LIABILITIES & CONTINGENT ASSETS

Provision is recognized only when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognized but are disclosed in the Financial Statements. Contingent Assets are neither recognized nor disclosed in the Financial Statements.

X 1) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements relate to Rajshree Sugars & Chemicals Limited ('the company') and its subsidiary Company, Trident Sugars Limited. The consolidated financial statements have been prepared on the following basis.

- i) The financial statements of the Company and its subsidiary company have been prepared on a line-by-line basis by adding together the book values like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses.
- ii) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements.
- iii) Goodwill represents the difference between the Company's share in the net worth of the subsidiary and the cost of acquisition of investment in the subsidiary. For this purpose, the Company's share of net worth is determined on the basis of the latest financial statements prior to the acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of acquisition.
- iv) The subsidiary companies considered in the Company financial statement are as follow:

Name of the Company	Country of	% of voting	Proportion of ownership interest as on		
Name of the Company	incorporation	power held	31.3.2015	31.3.2014	
Trident Sugars Limited	India	100.00%	100.00%	100.00%	

2) Other significant accounting polices

These are set out under the 'Significant Accounting Policies' in the Company's standalone financial statements.

3) Capital and other commitments (`in Lakhs)

4) Contingent Liabilities not provided for (`in lakhs)

Pertaining to Rajshree Sugars & Chemicals Ltd:

- a) Claims against the company not acknowledged as debt.
 - i) The Commissioner of Central Excise (Appeals) has upheld the order of the Central Excise department imposing a penalty of `21.92 lakhs (`21.92 lakhs) in the matter of payment of service tax for agency fees and other charges paid towards ECB availed. The company has filed an appeal before CESTAT (Central Excise and Service Tax Appellate Tribunal) and the appeal is pending before the said Appellate Tribunal and hence no provision has been made.
 - ii) CESTAT has set aside the central excise demand of ` 397.78 Lakhs with interest and penalty and passed orders in favour of the Company in the matter of eligibility of exemption on molasses captively consumed in Unit III and also cenvat credit availed on molasses procured from other Units. On the same issue for the subsequent period, Commissioner of Central Excise, Pondicherry has confirmed demand of ` 550.40 Lakhs with interest and a penalty of `10 Lakhs. The Company has preferred an appeal before CESTAT. Demand of ` 476.55 Lakhs with interest and penalty on the similar issue in Unit I is also being contested by the Company. In view of the CESTAT order referred above, the Company has not provided for these contingent liabilities in the account.
 - iii) Recompense amount payable as per Corporate Debt Restructuring (CDR) scheme as at the close of the year is `1,501 lakhs (`431 Lakhs)

b) The Government of Tamilnadu notified the State Advised Price (SAP) of `2,650/- per MT of sugarcane for the sugar seasons 2013-14 and 2014-15. The company has accrued and accounted the cane purchase at the rate of `2,350/- per MT (for the cane procured during April 2014 to September 2014) and at the rate of `2,400/- per MT (for the cane procured during the period October 2014 - March 2015). Since all the private mills in Tamilnadu disputing the State Government's announcement and the case is pending before the High Court of Madras. The total amount involved is `4,012.89 lakhs.

- 5) The Tamilnadu Government has issued a G.O. dated 31.08.2010 as directed by the Hon'ble Madras High Court, notifying the elephant corridor in the Nilgiris District, which includes company's land of 7.83 acres in Masinagudi Village Nilgiris District. The GO has now been disputed before the Hon'ble Supreme Court by the Company in SLP (C) 16898/2011 and interim stay has been granted. The carrying value of the said land in the books is ` 35.57 lakhs.
- 6) In terms of resolutions passed at the Extraordinary General Meeting held on 10th October 2012, 11,50,000 Equity warrants were issued to Ms.Rajshree Pathy, Chairperson and Managing Director at an exercise price of `55.20 per warrant. In terms of the regulations, 25% of the total amount (`158.70 lakhs) was deposited on 24th October 2012. Since Ms.Rajshree Pathy did not exercise the option, the initial amount of `158.70 lakhs is forfeited in April 2014. The same has been shown under reserves and surplus.
- 7) The Company has changed the method of providing depreciation and has adopted useful lives and residual value as prescribed in Schedule II of Companies Act, 2013 read with Accounting Standard 6 (AS 6) 'Depreciation Accounting'. Consequent to the above change, the charge for depreciation in respect of fixed assets held as at April 1, 2014 is lower by `311 Lakhs. Further carrying value of assets, where the remaining useful life of the asset was determined to be NIL as on April 1, 2014, aggregating to `426.92 lakhs is adjusted against the balance brought forward in General Reserve.
- 8) The details of amounts outstanding to Micro, Small and Medium Enterprises based on available information with the Company is as under: 31.3.2015
