

27 th ANNUAL REPORT

2012-2013

BODAL

We believe in excellence

MESSAGE FROM THE CHAIR

Dear Members,

The Company as well as dyestuff industry in India have faced another tough and challenging financial year 2012-13. The industry has faced uncertainty in the market due to global economic recession including in India and financial meltdown in the world and the same resulted into the slow down in the industry across the India as well as world. Further, US Dollar went as high as Rs.61.50 i.e. highest percentage down in the value of the Indian Rupee in last 6 to 8 months, for the first time in the history of Indian rupee, resulted in heavy Losses for the dyes and dye intermediates industry in India.

Your company has faced several unprecedented adversities like uncertainty in global market leading to lower demand, higher inflation leading to higher inputs cost, volatility in crude prices, fluctuation in currencies and high interest rates and others. In fact, most of the adversities have been faced by dyes and dye Intermediates Industry. The recent downstream in the global market had affected India and particularly in Gujarat, the

dyestuff industry. Gujarat is known for the dyestuff hub in the India. Gujarat dyestuff industry exports more than 70% of total production and the situation had affected more than a thousand units in Gujarat.

Bodal Chemicals Limited had faced financial liquidity crunch during last two years due to losses and heavy capex in earlier years. Your Company, due to this condition, for the realignment of its entire debt, had approached Corporate Debt Restructuring (CDR) cell through company's lead banker i.e. Union Bank of India.

The scheme for the realignment of debt was approved by Corporate Debt Restructuring (CDR) cell through its CDR EG group in the month of December and after that approval of Debt restructuring scheme. Your Company has got new mouthful air to perform better in the current and coming years and so the performance of the company in the first quarter of the current financial year is satisfactorily improving.

In recent times, Bodal Chemicals Limited is focusing on improving the bottom-line and thereby creating wealth for its shareholders and strengthening its position in the dyestuff industry- Domestic as well as global level. The company wants to achieve this mainly by expanding its market shares in the domestic and export market particularly in the dyestuffs sector and also by diversified, forward integration and backward integration of its product line.

The problems faced by entire industry have moderated but effects of the same are still there. However, the business environment has been considerably stabilizing after the sudden impact in last few years. The company is taking steps of cost cutting at all levels of the operations while ensuring that efficiency and operations are not hampered. I expect that margins will also slowly improve in the coming years and company has been taking several measures to improve margin and to get maximum productivity. In this way, Bodal Chem has confidence and ability to set benchmarks on various parameters and outperform in the dyestuff industry and will generate more revenue during the current financial year.

So far as financial year 2012-13 is concerned, in spite of all adversities, your company has achieved decent total Income from operation of Rs.523.83 crore. However, same did not reflect in bottom line of the company. Many micro and macro economic factors have affected the company's performance and it has incurred net loss of Rs.21.12 crore for the financial year 2012-13.

However it really was hurricane rather than lasting phenomena and it has passed. The industry is at the moment bouncing back and recovery phase has already started in the industry.

Your Company has performed satisfactory in the first quarter of the current financial year 2013-14, as compared to the performance of Dyes, Dye Intermediates industry. The Company has posted profit of Rs.16.89 crore EBITDA by achieving Total Income from operation of Rs.178.87 crore and your company has posted net profit of Rs.1.86 crore for the period of April to June, 2013. Result of the first quarter, April to June-2013, shows that the company is fundamentally strong enough and able to perform satisfactory in coming quarters of the financial year 2013-14 as well as in the upcoming financial years.

Success of any business can be possible if its employees and peoples who put in insistent efforts to rise to their excellence level. I would like to reiterate that your company's employees are its valuable assets and it is entirely due to their hard works, firmness, commitment and dedication that your company has been able to come out from the said gloom conditions and will able to deliver sustainable growth and value creation in coming years.

I wish to place on record my deep gratitude to all of you for your unstinted support towards our journey. Also I express my sincere gratitude to my team in Bodal Chem for their support and valuable guidance. I also like to thank the Union Bank of India and Bank of India for their support extended to the Company, particularly for smooth implementation of restructuring package under Corporate Debt Restructuring (CDR). I also take this opportunity to thank the Government of India and the State Government for their support and co-operation.

I would like to assure you that your company will strive to capitalize by remaining focus on operational excellence and to remain committed to deliver strong growth and enhance 'shareholders and other stakeholders' values in every possible ways.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OVERVIEW-DYES AND DYE INTERMEDIATES

The Dyestuff industry in India is playing an important role for the development of economy of the country. Today, in India a self-sufficient dyestuff industry with a majority of its inputs manufactured locally to outfit to the needs of domestic textile industry by providing more than 90% requirement of the domestic textile industry for the raw materials.

The Indian Dyestuff industry based on chemical and comprises mainly three sub divisions as key constituents, namely, dyestuffs, pigments and intermediates along with other ranges of dyes such as disperse reactive, vats and leather dyes. Both dyestuffs and pigments are critical inputs to several industries such as Textile, Paper and Packaging, Leather, Food, Polymer, Coating, printing ink etc. Dyes are soluble and essentially used in textile industry. Pigments, on other hand, are insoluble and are important impurities to the products such as paints. The main end use segments for these products are textiles, paper and leather industries which together account for more than 85% of the total demand.

The Indian dye stuff industry is made up about 900 units in the small scale unit and about 50 large organized units, who produce 1,50,000 tones of dyestuff. Gujarat and Maharashtra account for 90% dyestuff production in India due to dominance of textile industry and easy availability of raw material in this region. The main drivers for consolidation are the stringent environmental norms and awareness among customers increasing the cost of operations for small-scale players.

The important Dyes are basic dyes, azo acid and direct dyes; disperse dyes, reactive dyes, sulphur dyes, vat dyes, organic pigments, naphthols and optical brighteners.

The main drivers for Dyes are Reactive Blacks, Acid Blacks, Reactive Blues, Reactive yellows and Reactive reds. The main drivers for Dye Intermediates are Xylidine, Vinyl Sulphone, Para Dichlorobenzene, Dichloroaniline and H-Acid.

There is huge potential of domestic demand due to low consumption of dyestuff, which leads to strong potential for Indian Dyestuff industry. The Indian Dyestuff industry is a potential powerhouse benefiting from comparative low labour cost, talented technical manpower, capabilities for research and development etc. However, Safety, Health and Environment protection issues have become the major issues for Indian Dyestuff Industry. The Indian dyestuff industry has also created very good impression in the Global Market by exporting the dyestuff products. India Dyestuff industry is exporting most of its production to the developed countries.
