Management Commentary

Commenting on the results, **Mr. Ankit S Patel , Executive Director of Bodal Chemicals** said

“We are pleased to report another strong quarter for Bodal Chemicals in terms of operational and financial performance. The robust sales growth and improvement in profitability was primarily driven by better price realization in certain products in Dye Intermediaries segment coupled with increase in domestic demand.

Our various initiative for product innovation, diversification and capacity expansion which we have started during last few quarters are running as per schedule. We have started the production of speciality chemicals at Trion Chemicals and expect meaningful contribution to start from Q1 FY2018. Moreover, our proposed dyestuff capacity expansion work has been started and expected to be complete by FY2018.”
