Q3 & 9MFY26 Highlights

Business Highlights

9MFY26

**Rs 14,633 mn
Revenue**

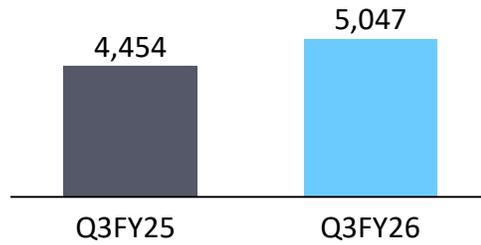

**Rs. 1,317 mn
EBITDA**

**Rs. 158 Mn
PAT**

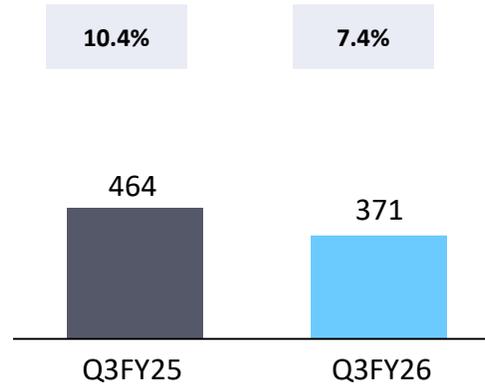

- During the 9MFY26, Company achieved total revenue of Rs 14,633 mn, growth by 12% on YoY basis. This growth is led by sales from Basic Chemicals and additional sales from Benzene downstream products. During the Q3 FY26, post impact of the New Labour Code, amounting to Rs. 17.97 million, the absolute EBITDA stood at Rs. 1,317 mn, 9% growth on YoY basis. Interest, depreciation and other overheads have increased at company level on capitalization of Saykha's Benzene downstream project. This plant has started contributing to the topline; hence we are expecting the additional contribution in near term. Currently, the increased overhead from the Saykha plant is partially offsetting the profitability of other divisions
- Revenue from Dye intermediates grew by 2%, Dyestuff grew by 3% and Basic Chemicals, growth by 40% YoY due to increase in raw materials prices i.e. Sulphur followed by finished goods prices during the 9MFY26. In Q3FY26, Revenue from Dye Intermediates stood at Rs.1,826 mn, grew by 2% quarterly on YoY basis, Revenue from Dyestuffs stood at Rs.1,315 mn, grew by 15% quarterly on YoY basis. Revenue from Basic Chemicals stood at Rs.247 mn, de-grew by 15% quarterly on YoY basis, due to annual maintenance shutdown during the quarter.
- During the 9MFY26, Chlor Alkali business has reported revenue of Rs. 2,553mn, growth by 5% on YoY basis, led by comparative better realization on YoY basis. The revenue grew by 3% on QoQ basis. We anticipate steady performance from this division, supported by steady demand from end-use industries.
- Chinese, BCTPL and Indonesian subsidiaries have performed overall satisfactory during the Q3FY26. Sener Boya, Turkish subsidiary is impacted due to hyperinflation. During the quarter Q3FY26, due to AS 29 there is Rs. 10 mn loss and the same is already a part of the declared result.
- In Saykha's the Benzene downstream products, The company has achieved normal production levels compliant with required quality standards; however, margins remain under pressure from intense competition and subdued demand. During the quarter, revenue is improved on QoQ basis, We expect gradual growth and meaningful contributions to both top and bottom lines on a quarter-on-quarter basis.
- Improvement in volumes across divisions, stable and under control input raw material cost, will help us to enhance revenue and margins in the near term. The management's relentless cost-control measures have been helpful in sustaining growth during challenging time.

Our Key Strengths

India's Edge in the Global Chemicals Market

Industry Megatrends

Structural Shift

Unorganized players in the Dye Intermediates and Dyestuffs Industry have been declining

China +1

India is emerging as the next alternative supplier for the global market

Compliance

Companies that are compliant with global environment laws will sustain

Policy Changes in China

Stringent measures & environment norms have eliminated small companies in china

Rising Exports

India has increased their chemical exports over the last few years

Textile Industry

Textiles constitutes ~80% of the total Dyestuffs demand and is expected to recover gradually

Atamanirbhar Bharat Abhiyan

The govt. initiative to reduce dependency on import of chemicals

Dyestuff Production

Gujarat is a leader with over 75% market share in Dyestuff Industry

Integrated player

Companies that have backward integration will have higher competitive edge

Availability of Raw Material

All key raw materials are available in India

Responding To Critical Issue

Key Challenges

- High costs involved in complying with environmental regulations. Moreover, the rising industrial water and power rates are a concern.
- Scarcity of water can lead to insufficient supply affecting our production needs.
- The Chemical Industry is energy and CO₂ intensive. It represents more than 30% of global Greenhouse Gas (GHG) emissions. If not controlled, it can have a profound effect on climate change

Our Response

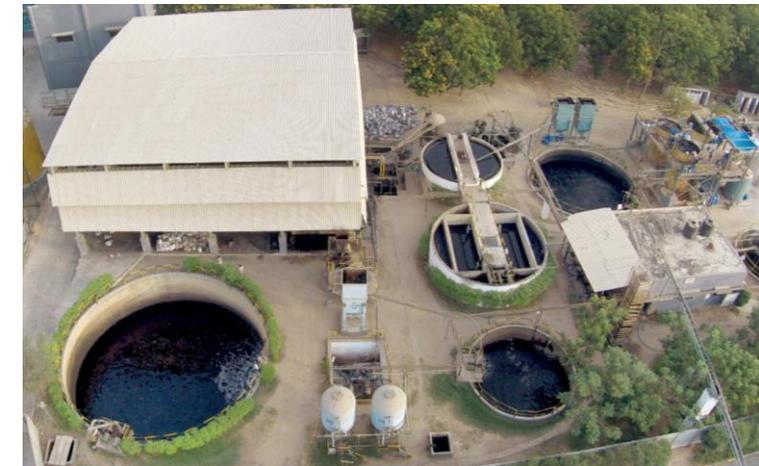

- Abides by the mantra of reduce, recover and reuse of natural resources
- Taken appropriate pollution control systems including implementation of Effluent Treatment Plants (ETPs), Multiple Effect Evaporator Plant (MEEP), Brine Treatment Plant and Effluent Spray Dryer Plant (ESDP).
- The Company possesses 5 MW Co-generation lignite-based & 1.73 MW steam (waste recovery heat) based captive power plant at Unit 7

Outcome

- Reusable clean water
- Zero liquid discharge
- Salt extracted through MEEP process is captively used or sold
- Cost optimization through proper management of the energy consumption
- Creating a better future for all stakeholders

Multiple Effect Evaporator Plant (MEEP)

Effluent Treatment Plant (ETP)

Key Focus Areas

- Eradicating hunger, poverty and malnutrition
- Promoting healthcare and sanitation including contribution to the Swachh Bharat Kosh
- Promoting education and enhancement of rural infrastructure
- Ensuring environmental sustainability
- Providing funds for construction for drinking water pipelines
- Conducting regular health check-up camps
- Promotes Sports, with Contribution to :
 - Sports Council of the Deaf Basketball Club
 - Promoting individual talent to represent the country in sporting events
- To support various Trusts and NGO's like YUVA Unstoppable
