Profit After Tax	2.44	10.80	11.46	39.48	55.62

Highlights of Q4 FY25 Results

- FY25 Revenue from operations stood at Rs. 1,486.19 crs, against Rs. 1,370.86 crs in the corresponding previous year, showing a growth of 8.41%.
- Q4 FY25 Revenue from operations stood at Rs. 359.14 crs, against Rs. 373.35 crs in Q4 FY24.
- EBITDA stood at Rs. 109.79 crs in FY25 as against Rs.134.39 crs in FY24.
- The Company has done stock split/ sub-division of its existing equity shares having face value of Rs. 10 each to equity shares having face value of Rs 5 each during FY25.

Commenting on the Results, Mr. K.K.Sardana, Managing Director said,

"We are pleased to share our financial and business performance for Q4 and FY25. For the year ended March 2025, our company has delivered a resilient performance despite a dynamic operating environment marked by fluctuations in maize prices and subdued demand in some sectors.

The starch industry as a whole has navigated a year of elevated raw material costs and limited export opportunities owing to shifts in the global tariff structure. Domestic demand from certain segments also remained muted. Despite these headwinds, your Company has maintained its revenue momentum, recording a top line of Rs 1,486 crores with an increase of 8.41% over the previous year.

Margins were impacted during the year, primarily due to volatility in maize prices influenced by varying demand from ethanol producers, as well as pricing pressure in finished goods across some downstream sectors. This scenario is expected to ease by H2FY26 supported by improved maize availability from the Rabi harvest and spring crops in key producing states there by stabilizing the price volatility. Additionally, the recent allocation of substantial quantities of rice to ethanol manufacturers by the Central Government is anticipated to ease the pressure on maize prices and improve overall availability. Throughout the year, our proactive procurement strategies have ensured consistent supply of raw materials, allowing uninterrupted production across all our facilities.

The expansion of our manufacturing facility is on track and as we progress ahead we are optimistic about further emerging opportunities and sustainable growth. With a continued focus on customer engagement, strategic initiatives, and sustainable practices, we are confident in our ability to create long-term value for all stakeholders and sustain our growth trajectory in the coming years."
