Neuland Q2FY25 income at Rs.315.2 crore; EBITDA at Rs.65.7 crore

Hyderabad, India, November 06, 2024 – Neuland Laboratories Limited (NLL) (NSE: NEULANDLAB; BSE:524558), a pharmaceutical manufacturer providing active pharmaceutical ingredients (APIs), complex intermediates and custom manufacturing solutions services to customers located in around 80 countries, today announced financial results for the second quarter & half year ended September 30, 2024.

Commenting on the performance Mr. Sucheth Davuluri, Vice-Chairman and Chief Executive Officer of the Company said, *"The numbers of this quarter are subpar relative to how the business has been performing over the last few quarters. However, they are in line with our commentary right at the beginning of the year as to how we see FY25 panning out. The inherent uneven nature of our business means that annual progression is a better indicator of the company's prospects than quarterly performance. We continue to make progress on our strategic plans and are enthusiastic about sustainable long-term growth driven by customer acquisitions, deepening capabilities, agile capacity expansion and optimization of processes."*

In addition, Mr. Saharsh Davuluri, Vice Chairman and Managing Director, Neuland Laboratories added *"The revenues this quarter were driven by a few key molecules on the commercial CMS and GDS specialty side. Completion of additional manufacturing facilities in this year coupled with anticipated commercial launch of molecules on the CMS side gives us the confidence of achieving high growth in FY26 and beyond. We believe that the environment remains favourable for us in the medium to long term as indicated by customer interest and addition of early-stage projects.*"

Financial Summary

Rs. crore
