## MANAGEMENT DISCUSSION AND ANALYSIS

### BACKGROUND & INDUSTRY OUTLOOK

In FY-2018-19, fears related to global financial crisis have intensified. The trade dispute between the United States and China has aggravated the ongoing slowdown in Chinese economy and is also having a chain effect on many major economies. This has led to violent fluctuation in the prices of key raw-materials and input costs of manufacturing.

India remained the fastest growing major economy in the world in the first half of FY-2018-19 backed by its strong domestic consumption. The most important reforms such as GST, the inflation-targeting monetary policy, the success of Insolvency and Bankruptcy Code in NPA recovery for Banks, supported the growth. However, issues in the Non-Banking Financial Companies (NBFC) segment, the drag from higher crude prices resulting in fall in the foreign exchange reserves and depreciation of the rupee kept the financial liquidity tighter. Political uncertainty in view of elections also weighed on consumer confidence during last quarter. The slowdown in the automotive industry intensified in the last quarter thus affecting the business of the company.

### BUSINESS & FINANCIAL REVIEW

With the current business portfolio, we are largely operating in the area of Automotive, Consumer & Industrial and Thermoplastic Additives. We have number of developments that are taking place in all of the above-mentioned areas. The clear focus is in the area of Additives and Automotive as those are the business areas that are able to give us higher margins. We are looking at developing markets and application areas where we have higher margins in order to drive higher margin productivity from our assets.

A dedicated team of application development specialists works with the sales team to develop new applications that will allow us to expand out opportunity base in the longer term.

During the year under review, the Company reported gross revenue from operations of ₹10,993.96 Lac as against ₹11,151.62 Lac during the FY 2017-18. The Company reported Profit before Tax of ₹ 2,177.71 Lac and Profit after Tax of ₹1,535.52 Lac as against ₹2,987.04 Lac and ₹ 1,955.25 Lac respectively for the previous Financial year. Due to the global restructuring, the Company's agreement to sell one of their products namely Antifoam stands terminated with effect from 01 April 2019. The primary reason for overall decline in the revenue, is due to increase in raw material prices and reduction in trading products sales namely Silicon master batch, thermoplastic elastomer due to subdued market demand along with reduction in Antifoam sales for the quarter ended 31<sup>st</sup> Mar 2019 over same quarter in the previous year.

While there is no product which can immediately replace revenues from the anti-foam product, the Company will evaluate all commercially prudent measures to increase

its share of business in other segments like additives and automotive.

### KEY FINANCIAL RATIOS AS ON 31<sup>ST</sup> MARCH, 2019

In accordance with the SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018, the Company is required to give details of significant changes (change of 25% or more as compared to the immediately previous financial year) in key sector-specific financial ratios.

The Company has identified the following ratios as key financial ratios:

Ratios	2018-19	2017-18
Inventory turnover	3.68	3.20
Debtors turnover	5.20	5.18
Assets turnover	1.01	1.04
Current ratio	9.63	3.44
Debt equity ratio	0.12	0.38
Gross profit (%)	30.75	37.47
Operating profit margin (%)	27.15	33.84
Net profit margin (%)	13.97	17.53

### The reason for variation in key ratios are as under:

**Current ratio:** Increase in Current ratio is tripled primarily due to below reasons;

- Reduction in inventory and debtors by 28.3% & 22.7% respectively due to liquidation of existing inventory and better collections for FY 2018-19 and thereby resulting in increase in cash by 13.3%.
- Reduction in current liabilities by 68.5% due to payout of trade creditors outstanding of previous year.

### OPPORTUNITIES AND THREATS

In general, India is poised to show the highest growth in GDP (percentage terms) amongst the major economies. This will present us with opportunities for higher growth in the coming years. There are new safety regulations that are being implemented in the automotive industry by the Government of India, that will drive opportunities for us as the number of airbags being implemented in cars increase. In the longer term we expect the industry to grow as the GDP grows in all segments. Apart from the organic growth, we are looking at the application development capability in the team to identify new avenues of growth for us.

Though the longer term potential for industry is strong, we are seeing a slowdown in Industry especially in the Auto Sector where the car builds from January 2019 to June 2019. These market conditions have created a challenging environment for the business. While we expect things to improve in the 3<sup>rd</sup> quarter of the current financial year, we do have a risk if the same soft market conditions persist for a longer duration.

### RISKS AND CONCERNS

The Company being part of DuPont de Nemours Inc. (erstwhile DowDuPont Inc.) has always come out with positive mitigations against such risks. However; at the same time it may be noted that being a part of global company; Multibase operations can be impacted by re-organization that may happen at global level.

The biggest risk we see is from the emergence of lower priced Chinese competitors that are trying to make inroads into the Indian market. This is a long-term threat that we are working on trying to mitigate through our relationships with customers and higher level of customer service that we can offer being a local supplier.

The Risk, which the Indian Plastics Industry foresees are possible slowdown of Indian and global economy, myths and misconceptions about plastics and its impact on environment and increased competition from the foreign manufactures. The other risks which prevail in the industry are high fluctuations in the prices of raw materials, fluctuations in market demand, currency exchange fluctuations, technology obsolescence and competition from the global players.

### HUMAN RESOURCES AND INDUSTRIAL RELATIONS

The Industrial relations with workmen during the year were cordial. The Directors place on record their appreciation for the sincere and efficient services rendered by the executives, staff and workmen of the Company and are confident that they will continue to the Company's prosperity and growth.

### INTERNAL CONTROL SYSTEMS

The Company has put in place adequate system of internal control measures in all risk areas, implemented by the management towards achieving efficiency in operations, optimum utilization of resources and effective monitoring thereof and compliance with applicable laws.

The directors had laid down internal financial controls to be followed by the company and that such internal financial controls are adequate and were operating effectively.

These measures are in the form of procedures/ processes set by the management covering all critical and important areas. These controls are periodically updated and are subject to review by internal auditors. Internal audit function has been outsourced to independent firm of Chartered Accountants who submit quarterly reports to the Board. The Audit Committee reviews the report of the Internal Auditors and recommends steps to be taken to tighten up internal controls.

### CAUTIONARY STATEMENT

This section of the Annual Report has been included in adherence to the spirit enunciated in the Code of Corporate Governance approved by the Securities and Exchange Board of India. Shareholders and Readers are cautioned that in the case of data and information external to the Company, though the same are based on sources believed to be reliable, no representation is made on its accuracy or comprehensiveness. Further, utmost care has been taken to ensure that the opinion expressed therein contain its perceptions on most of the important trends having a material impact on the Company's operations.

The opinions expressed by the management may contain certain forward-looking statements in the current scenario, which is extremely dynamic and increasingly fraught with risks and uncertainties. The Company undertakes no obligation to publicly update or revise any of the opinions or forward-looking statements expressed in this report, consequent to new information, future events, or otherwise. Estimation and expectation made in the Report may differ from actual performance due to various economic conditions, government policies and other related factors.

## INDEPENDENT AUDITOR'S REPORT

To the Members of

**Multibase India Limited**

**Report on the Audit of the Financial Statements**

### Opinion

We have audited the financial statements of Multibase India Limited ("the Company"), which comprise the balance sheet as at 31 March 2019, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Description of Key Audit Matter

### Revenue Recognition

**See note 2.6 (k) to the financial statements**

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter	How the matter was addressed in our audit
<p>Revenue is measured based on transaction price, which is the consideration, adjusted for rebates, discounts and estimated sales returns. As disclosed in Note 2.6 to the financial statements, revenue is recognized upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods.</p> <p>We have identified recognition of revenue as a key audit matter as revenue is a key performance indicator and there is a risk of revenue being fraudulently overstated arising from pressure to achieve performance targets as well as meeting external expectations.</p>	<p>Our audit procedures included following:</p> <ul style="list-style-type: none"> <li>Assessing the appropriateness of the policies in respect of revenue recognition by comparing with applicable accounting standards;</li> <li>Evaluating the design, testing the implementation and operating effectiveness of the Company's internal controls over recognition of revenue and measurement of discounts and schemes in the system.</li> <li>Performing substantive testing (including year-end cut-off testing) by selecting samples of revenue transactions recorded during and after the year and verifying the underlying documents, which included sales invoices/ contracts and dispatch/shipping documents. Obtaining and assessing appropriateness of positions for returns and incentives.</li> <li>Testing controls over review of contracts and revenue recognition.</li> </ul> <p>Assessing manual journals posted to revenue to identify unusual items not already covered by us.</p>

## Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- (A) As required by Section 143(3) of the Act, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
  - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act

- e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.

- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

- (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31 March 2019 on its financial position in its financial statements - Refer Note 38 to the financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2019.

- (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

## ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

on the standalone financial statements of Multibase India Limited for the period ended 31<sup>st</sup> March 2019.

**Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013**

**(Referred to in paragraph A (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

### Opinion

We have audited the internal financial controls with reference to financial statements of Multibase India Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over

Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

### Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial

statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

#### **Meaning of Internal Financial controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those

policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **NOTES TO THE FINANCIAL STATEMENTS AS AT MARCH 31, 2019**

(Currency: Amounts INR in Lakhs, unless other wise stated)

### **Note 1 Corporate Information**

Multibase India Limited ('the Company') is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company's equity shares are listed on the Bombay Stock Exchange ('BSE') in India. The registered office of the Company is located at 74/5 & 6 Daman Industrial Estate, Kadaiya village, Nani Daman 396210, Daman and Diu.

Multibase India Limited is engaged in manufacturing, trading and selling of polypropylene compound, thermoplastic elastomer, silicon master batch and thermoplastic master batch.

### **Note 2 Basis of preparation**

#### **2.1 Statement of compliance**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 ('the Act') and other relevant provisions of the Act.

The financial statements under Ind AS were authorised for issue by the Company's Board of Directors on 29 May 2019.

Details of the Company's accounting policies are included in Note 2.6.

#### **2.2 Functional and presentation currency**

These financial statements are presented in Indian Rupees (INR) amount in lakhs, unless otherwise stated, which is also the Company's functional currency.

#### **2.3 Basis of measurement**

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Net defined benefit (asset) / liability	Fair value of plan assets less present value of defined benefit obligations.

#### **2.4 Use of estimates and judgments**

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 34 – determining the amount of expected credit loss on financial assets (including trade receivables) and
- Note 30 – identification of reportable operating segments.

#### **Assumptions and estimation uncertainties**

- Note 3 and 27 – estimate of useful life used for the purposes of depreciation and amortisation on property plant and equipment, investment properties and intangible assets.
- Note 16 and 36 – recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note 31 – measurement of defined benefit obligations: key actuarial assumptions; and
- Notes 17, 20 and 37 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

## 2.5 Measurement of fair values

Some of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 34 – financial instruments.

## 2.6 Significant accounting policies

### (a) Operating cycle

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalent, the Company has considered the operating cycle as the life of the project for project related assets and liabilities and for rest of the assets and liabilities it has been considered as twelve months.

### (b) Foreign currency

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined.

Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

### (c) Financial instruments

#### ***Recognition and initial measurement***

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss ('FVTPL'), transaction costs that are directly attributable to its acquisition or issue.

#### **Financial assets - classification and subsequent measurement**

On initial recognition, a financial asset is classified as measured at

- amortised cost;

- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At present the Company does not have investment in any debt securities classified as FVOCI.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis. At present there are no such investments.

All financial assets not classified are measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Subsequent measurement and gains and losses for financial assets held by the Company***

<b>Financial assets at FVTPL</b>	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
<b>Financial assets at amortised cost</b>	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

**Financial liabilities: Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Presently, all the financial liabilities are measured at amortised cost.

**Derecognition**

**Financial assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

## Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

### Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

## (d) Property, plant and equipment

### Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labor, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

### Subsequent measurement

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

### Depreciation

Depreciation/amortisation on tangible assets (other than for those class of assets specifically mentioned below) is calculated on a straight-line basis as per the useful life prescribed and in the manner laid down under Schedule II to the Companies Act, 2013 and additions and deletions are restricted to the period of use; The class of assets where the company based on its internal assessment of usage pattern of assets believes that useful life is different from those prescribed in Schedule II of the Companies Act, 2013 are as under:

Asset Category	Useful life
Buildings	5-60 years
Plant and Machinery	15 years
Laboratory Equipment	10 years
Office Equipments	5 years
Furniture and fixtures	10 years
Computer systems	3 years
Computer software	6 years

The management believes that these estimated useful lives reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each Balance Sheet date are disclosed as other non-current assets.

### Derecognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The consequential gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of profit and loss.

## (e) Intangible assets

### Other intangible assets

Other intangible assets including those acquired by the Company in a business combination are initially measured at cost.

Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

**Subsequent measurement**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

**Amortisation**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in Statement of profit and loss.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

**(g) Inventories**

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the moving average basis and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- **Raw materials:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving average basis.
- **Finished goods and work in progress:** cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on moving average basis. Finished goods includes appropriate proportion of overheads and wherever applicable, excise duty or goods and service tax.
- **Traded goods:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

The comparison of cost and net realisable value is made on an item-by-item basis.

**(h) Impairment**

**Impairment of financial assets**

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being significantly past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;

or

- it is probable that the borrower will enter bankruptcy or other financial reorganization.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition, which are measured as 12 month expected credit losses.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables. Under the simplified approach, the Company is not required to track changes in credit risk. Rather,

it recognises impairment loss allowance based on lifetime ECL's together with appropriate management estimates for credit loss at each reporting date, right from its initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the Company of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

#### **Measurement of expected credit losses**

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

#### **Presentation of allowance for expected credit losses in the balance sheet**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

#### **Write off**

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

#### **Impairment of non-financial assets**

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest Company of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated to reduce the carrying amounts of the other assets of the CGU (or Company of CGUs) on a pro rata basis.

Assets (other than goodwill) for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### **(i) Employee benefits**

#### **Short term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

#### **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

#### **Defined benefit plans - Gratuity**

The Company has Defined Benefit Plan for post employment benefits in the form of Gratuity in accordance with the Payment of Gratuity Act, 1972. Liability for Defined Benefit Plan is provided on the basis of valuation, as at the Balance Sheet date, carried out by independent actuary. The actuarial valuation method used by independent actuary for measuring the liability is the Projected Unit Credit Method.

#### **Defined benefit plans - Leave encashment**

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation the balance sheet date.

#### **Other long-term employee benefits**

The employees of the Company are entitled to Other Long-term Benefit in the form of Compensated Absences as per the policy of the Company. Liability for Other Long-term Employee Benefit is provided on the basis of valuation, as at the Balance Sheet date, carried out by independent actuary. The actuarial valuation method used by independent actuary for measuring the liability is the Projected Unit Credit Method.

#### **Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring.

### **(j) Provisions, contingent liabilities and contingent assets**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non - occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised in the statement of profit and loss.

### **(k) Revenue**

The Company earns revenue primarily from selling of thermoplastic elastometers.

Effective April 1, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115 using the cumulative effect method. The effect of initially applying this standard is recognised at the date of initial application (i.e. April 1, 2018). The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18. The impact of the adoption of Ind AS 115 on the financial statements of the Company is insignificant.

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods.

**Sale of goods**

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates, sales tax, goods and service tax, value added tax except excise duty. The Company does not provide any warranties or maintenance contracts to its customers.

**Other income**

**Interest**

Interest revenue is calculated by using the effective interest method for financial assets measured at amortised cost. Interest income is recognised on accrual basis.

**(l) Income taxes**

**Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

**(m) Borrowing cost**

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

**(n) Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company. For the disclosure on reportable segments see Note 30.

**(o) Cash and cash equivalents**

Cash and Cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

**(p) Earnings per share**

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for the effects of dividend, interest and other charges relating to the dilutive potential equity shares by weighted average number of equity shares plus dilutive potential equity shares.

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

	March 31, 2019	March 31, 2018
Discount rate	7.60%	7.60%
Future salary growth	7.00%	7.00%
Rate of employee turnover	25 & Below - 5% 26 to 35 - 4% 26 to 45 - 3% 46 to 55 - 2% 56 & Above - 1%	25 & Below - 5% 26 to 35 - 4% 26 to 45 - 3% 46 to 55 - 2% 56 & Above - 1%
Mortality rate	Indian Assured Lives Mortality (2006-08)	Indian Assured Lives Mortality (2006-08)

Assumptions regarding future mortality have been based on published statistics and mortality tables.

#### iv. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below;

	March 31, 2019		March 31, 2018	
	Increase	Decrease	Increase	Decrease
Discount rate (0.5% movement)	47.89	53.02	52.43	58.16
Future salary growth (0.5% movement)	52.62	48.24	58.16	52.41
Rate of employee turnover (10% movement)	50.45	50.27	55.22	55.15

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.77 years (March 31, 2018: 9.83 years).

#### v. Expected future cash flows

The expected future cash flows in respect of gratuity March 31, 2019 were as follows:

##### Expected contribution

The expected contributions for defined benefit plan for the next financial year will be in line with the contribution for the year ended March 31, 2018.

Expected future benefit payments from the fund	2018-19	2017-18
1 <sup>st</sup> following year	1.41	1.41
2 <sup>nd</sup> following year	6.67	6.08
3 <sup>rd</sup> following year	1.51	1.57
4 <sup>th</sup> following year	1.57	1.67
5 <sup>th</sup> following year	1.59	1.74
Sum of Years 6 to 10	17.79	17.63

#### (C) Other long-term employee benefits:

Compensated absences are payable to employees at the rate of daily salary for each day of accumulated leave on death or on resignation or upon retirement. The total liability for compensated absences as at the year end is ₹ 33.97 lakhs (March 31, 2018: ₹ 21.68 lakhs), as shown under non-current provisions ₹ 31.96 lakhs (March 31, 2018: ₹ 19.93 lakhs) and current provisions ₹ 2.01 lakhs (March 31, 2018: ₹ 1.75 lakhs). The amount charged to the Statement of Profit and Loss is ₹ 14.64 lakhs (March 31, 2018 : ₹ 4.34 lakhs).

	-	-	<b>2,831.55</b>	<b>2,831.55</b>	-	-	-	-

## B. Calculation of fair values

- The fair values of the financial assets and liabilities are defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistent with those used for the year ended March 31, 2018.
- Cash and cash equivalents, trade receivables, other financial assets trade payables, and other financial liabilities have fair values that approximate to their carrying amounts due to their short-term nature.

## Note 34 Financial risk management

The Company has exposure to the following risks arising from the financial instruments:

### a) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations. The carrying amount of financial assets represent the maximum credit exposure.

### Impairment of Trade receivables

At March 31, 2019, the ageing of trade and other receivables that were not impaired was as follows.

	Carrying amount	
	March 31, 2019	March 31, 2018
Neither past due nor impaired	<b>1,464.98</b>	2,249.75
Past due 0-90 days	<b>353.23</b>	104.27
Past due 91-180 days	<b>24.56</b>	21.44
Past due 181-270 days	-	8.10
Past due 271-360 days	-	-
More than 360 days	-	-
	<b>1,842.77</b>	<b>2,383.56</b>

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk and the current provision for the bad debts represents the impacted credit loss it foresees in its receivables.

Financial assets other than trade receivables are not impaired and further, there are no amounts that are past due. Management believes that the amounts are collectible in full, based on historical payment behaviour.

## b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

### Exposure to liquidity risk:

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

March 31, 2019	Contractual cash flows

	<u>2,831.55</u>	<u>2,831.55</u>	<u>2,831.55</u>	<u>-</u>	<u>-</u>	<u>-</u>

## c) Market risk

The Company is exposed to currency risk on account of its Trade payables and other payables in foreign currency. The functional currency of the Company is Indian Rupee.

### Exposure to currency risk

The currency profile of financial assets and financial liabilities March 31, 2019 and March 31, 2018 are as below:

	March 31, 2019	March 31, 2019	March 31, 2018	March 31, 2018

<b>Net exposure</b>	<u>(435.04)</u>	<u>-</u>	<u>(1,866.61)</u>	<u>(105.33)</u>

**Sensitivity analysis**

A reasonably possible strengthening (weakening) of the foreign currencies against INR at March 31 would have affected the measurement of financial instruments denominated in US dollars and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Future cashflows in respect of the above matter is determinable only on receipts of judgement / decisions pending at various forums / authorities.

The company does not expect any reimbursement in respect of above contingent liability.

**Provident Fund:**

The Hon'ble Supreme Court of India ("SC") by their order dated February 28, 2019, in the case of Surya Roshani Limited & others v/s EPFO, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. Subsequently, a review petition against this decision has been filed and is pending before the SC for disposal.

"In view of the management, the liability for the period from the SC order to 31 March 2019 is not significant. Further, pending decision on the subject review petition and directions from the EPFO, the impact for the past period, if any, is not ascertainable and consequently no effect has been given in the accounts. Accordingly, this has been disclosed as a Contingent liability in the financial statements."

**Note 41 Transfer pricing**

Transactions with related parties are governed by transfer pricing regulations of the Indian Income-tax Act, 1961. The Company's international and domestic transactions with related parties are at arm's length as per the independent accountants report for the year ended 31 March 2017. Management believes that the Company's international and domestic transactions with related parties post March 2017 continue to be at arm's length and that the transfer pricing legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

**Note 42**

Previous year figures have been regrouped / reclassified wherever necessary to correspond current year classification/disclosure.

**Note 43 Recent Indian Accounting Standards (Ind AS)**

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective for annual periods beginning on or after April 1, 2019:

Ind AS 116 Leases

Ind AS 12 Income taxes

**Ind AS 116 – Leases**

Ind AS 116 will replace the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The Company will adopt Ind AS 116, effective annual reporting period beginning April 1, 2019. The Company will apply the standard to its leases, retrospectively, with the cumulative effect of initially applying the standard, recognised on the date of initial application (April 1, 2019). Accordingly, the Company will not restate comparative information, instead, the cumulative effect of initially applying this Standard will be recognised as an adjustment to the opening balance of retained earnings as on April 1, 2019. On that date, the Company will recognise a lease liability measured at the present value of the remaining lease payments. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement date, but discounted using the lessee's incremental borrowing rate as at April 1, 2019. In accordance with the standard, the Company will elect not to apply the requirements of Ind AS 116 to short-term leases and leases for which the underlying asset is of low value.

On transition, the Company will be using the practical expedient provided the standard and therefore, will not reassess whether a contract, is or contains a lease, at the date of initial application. The Company is in the process of finalising changes to systems and processes to meet the accounting and reporting requirements of the standard.

With effect from April 01, 2019, the Company if any, will recognise new assets and liabilities for its operating leases of premises and other assets. The nature of expenses related to those leases will change from lease rent in previous periods to a) amortization change for the right-to-use asset, and b) interest accrued on lease liability.

**Ind AS 12 – Income taxes (amendments relating to income tax consequences of dividend and uncertainty over income tax treatments)**

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Company does not expect any impact from this pronouncement. It is relevant to note that the amendment does not amend situations where the entity pays a tax on dividend which is effectively a portion of dividends paid to taxation authorities on behalf of shareholders. Such amount paid or payable to taxation authorities continues to be charged to equity as part of dividend, in accordance with Ind AS 12.

#### **Note 44 Subsequent events**

Due to the global restructuring, the Company's agreement to sell one of their products namely Antifoam stands terminated with effect from 01 April 2019. The revenue from Antifoam for the year ended March 31, 2019 and quarter ended March 31, 2019 is Rs.3683.14 lakhs and Rs. 409.77 lakhs respectively and for year ended March 31, 2018 and quarter ended March 31, 2018 was Rs. 3108.91 lakhs and Rs. 825.46 lakhs respectively.
