The Annual Report together with the Audited Accounts and the Directors' Report for the year ended 31st March, 2016, have been with you for quite some time. I hope it gives you a clear idea of working of the Company during the year under review.

The Company achieved net revenue of Rs. 1876 Crores for the year 2015-2016 as against Rs. 1729 Crores in the previous year. Profit before exceptional items and tax is Rs. 43 Crores, as compared to Rs. 32 Crores in the previous year.

The Global microeconomic environment continues to be in a state of flux with recession in key developed economies, soft commodity prices, geo-political tensions and volatility in global financial markets, causing uncertainty and trepidation. Even then, your company reported increase in operating margin compared to the previous year. The polymer prices remain at affordable level. It is expected that they will remain range bound in coming years.

As mentioned in earlier reports, in its drive towards the strategic expansions, your Company has commissioned a new production unit at Surangi, with capacity of handling 200,000 TPA of its products. This unit is spread over an area of approximately 56000 square metres and having FSI available to the extent of 500,000 square metres for construction. The production capacities of Bhiwadi and Daman units have been shifted to Surangi unit. The new unit produces various grades of Compounds which include XLPE, HFFR, Filled PP for furniture & appliances, Filled PE Compounds for antifab used for Woven Sack, White & Black Master Batches, Rigid and Flexible PVC Compound used for Cable insulation,

Footwear & Pipe jointing and other value added compositions like Zero Halogen Fire Retardant Compound and Engineering Plastics. Your company has also installed machineries at Surangi to produce HV & EHV insulation Compound. This will establish your Company in the league of very few top notch players in the world. Your Company also has many expansion projects in pipeline for catering to the untapped regions to enlarge geographic footprint in various parts of the country and abroad.

Today, your Company has one of the strongest operating matrix in the Plastic industry in India. With its cost competitiveness, quality products, a robust marketing distribution system and extensive network, your Company has re enforced its formidable brand image.

Your Company has taken timely and adequate steps in the area of its finance to ensure healthy leveraging and availability of adequate financial resources to meet its growing aspirations.

Your Directors have not recommended any dividend for the year under review due to increased working capital requirement in the year 2016-17.

Lastly, I sincerely wish to thank my colleagues on the Board, the dedicated Management team and employees at all levels for their unflinching support. I would also like to thank the Company's shareholders, distributors, vendors and financial institutions for their unstinted support.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL OVERVIEW

Global economic growth is generally interlinked to petrochemical consumption where plastic is an important partner. Plastic processing is the pillar of economy in most of the advanced economies. Per capita consumption of the world is 28 kg whereas India's is 11 kg and China 38 kg and Brazil 32 kgs. USA, Germany, UK, Italy, Spain, Australia, Japan, Korea, Taiwan it is more than 100 kg. This means India has big potential to grow as India's per capita consumption is one of the lowest in Asia.

The world economy stumbled in 2015, amid weak aggregate demand, falling commodity prices and increasing financial market volatility in major economies. The world gross product was projected to grow by a mere 2.4 per cent in 2015, marking a downward turn from the 2.8 per cent forecast in the *World Economic Situation and Prospects as of mid-2015* (United Nations, 2015a). The growth rates of gross fixed capital formation and aggregate demand continue to remain subdued. The world economy is projected to grow by 2.9 per cent in 2016 and 3.2 per cent in 2017, supported by generally less restrictive fiscal and still accommodative monetary stances worldwide. The anticipated timing and pace of normalization of the United States monetary policy stance is expected to reduce policy uncertainties, while preventing excessive volatility in exchange rates and asset prices. While the normalization will eventually lead to higher borrowing costs, rising interest rates should encourage firms to front-load investments in the short run. The improvement in global growth is also predicted on easing of downward pressures on commodity prices, which should encourage new investments and lift growth, particularly in commodity-dependent economies.

INDIAN SCENARIO

The **Economy of India** is the seventh Largest economy in the world measured by nominal GDP and the third-largest by purchasing power parity (PPP). The country is classified as a newly industrialised country, one of the G-20 major economies, a member of BRICS and a developing economy with an average growth rate of approximately 7% over the last two decades.

The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy. And the outlook for short-term growth is also good as according to the IMF, the Indian economy is the "bright spot" in the global landscape. India also topped the World Bank's growth outlook for 2015-16 for the first time with the economy having grown 7.6% in 2015-16 and expected to grow 8.0%+ in 2016-17.

INDUSTRY OVERVIEW

The Indian cable industry is highly fragmented with a large number of producers. The market for cables and wires is mainly dominated by the unorganized sector controlling about 70% of the domestic demand for wires and cables. However, the situation is changing. With the slew of advertising and the publicity campaigns targeted at this segment, companies are getting more and more aware about the quality of products in this category too and making queries before deciding on the purchase of cables and wiring. The government has announced ambitious plans for infrastructure development. One of the primary focus area of the Central Government's development plan is railways, with over Rs. 800,000 Cr as promised investment over the period of 2015-2020.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The company's polymer compounds business is directly related to the fortunes of cable industry/packaging industry and footwear industry. If there is demand push in these segments of Indian economy, the top line and bottom line of Kkalpana will significantly increase.

Kkalpana has been able to develop a number of products for domestic and international market such as Medium Voltage XLPE, Medium Voltage Semi conducting grades and also grades suitable for Pipes.

Annexure B to the Independent Auditor's Report- 31st March 2016

(Referred to in our report of even date)

Report on the Internal Financial Controls under clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013. ("The Act")

We have audited the internal financial controls over financial reporting of **KKALPANA INDUSTRIES (INDIA) LTD. ("The Company")**, as of 31st March 2016 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's Policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note Require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of record that, in reasonable detail, accurately and fairly reflect the transaction and disposition of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Financial Controls over Financial Reporting

Because of the Inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
