# ABOUT GLOBAL EDUCATION LIMITED

*The organization was incepted with the objective of broadening the horizons of what learning can be. Today, that intent stands vindicated.*

Global Education Limited (GEL) is riding on the next big wave – the education industry. With the Government intensifying its focus on making India a knowledge-based society, the education industry is poised to track high growth trajectory over the next few years. The Company, with its vast experience and expertise in providing education support and related services, is well positioned in the market to leverage its potential on the upcoming opportunities. The focus of GEL has been in delivering skill and educational interventions to the sections of societies and parts of the country where they are most needed and where the youth have limited exposure and lack access to opportunities to achieve their career or livelihood goals. Even as a Company we have changed over the years growing larger, diversifying, and integrating with other entities, and operating in a rapidly changing world, our core ideology has remain unchanged, defining the very structure of our organization. We believe this gives us longevity as an organization and will enable us to grow our corporate brand to greater heights.

At GLOBAL we are not just passionate about being a diversified education solution provider in India, but we also provide the platform for achieving success. Our core strength lies in the quality of education solutions we deliver across various platforms.

Diverse but focused approach has been the key enabler of GEL's growth over the years. The initial phase of our growth was focused on establishing ourselves as the only Education based company providing high quality technology and content solutions to education institutions and concurrently ramping up our market reach and presence. This was followed by focused expansion of our footprint across professional training and skill developments to Corporate, teachers and students for human capital development and other various business support services to education institutions; to become India's largest education service provider company.

Today, GEL is truly a national player with multi-city presence and a diverse product portfolio, standing a class apart due to technology enabled business processes, digital content delivery and 24 x 7 support for the skill development and professional courses offered. We are about to expand our pan-India presence through various alliances, partnership with government bodies and tie-ups which has helped us to penetrate unexplored territories, giving access to a larger student base and opening up fresh opportunities.

*“At Global, it is not only delivering the numbers that matters, but also conducting business with integrity and respect.”*

### DEEN DAYAL UPADHYAYA GRAMEEN KAUSHALYA YOJANA (DDU-GKY):

**DDUGKY** is a youth employment scheme launched on 25 September 2014 by Union Ministers, Shri Nitin Gadkari and Shri Venkaiah Naidu on the occasion of the 98th birth anniversary of Pandit Deendayal Upadhyaya. Strong demand for the economic opportunities among the poor, social mobilization and the need to make rural poor desirable to both Indian and Global employer have been the guiding principles of this scheme.

It aims to skill rural youth who are poor and provides them with jobs having regular monthly wages. It is one of the clusters of initiatives of the Ministry of Rural Development, Government of India that seeks to promote rural livelihoods. It is a part of the National Rural Livelihood Mission (NRLM) – the Mission for poverty reduction called Aajeevika. This is a major step to eradicate unemployment and poverty. This scheme takes into consideration every single factor and makes an effective plan to reach out the rural poor youth. Guidance is all they need because the lack of resources has made it difficult for them to even think of a well-paid job. Global Education Limited has been sanctioned Skill Development Project under the Deen Dayal Upadhyay – Grameen Kaushalaya Yojna (DDU GKY Scheme) of Maharashtra State Rural Livelihoods Mission (MoRD) to train One Thousand Three Hundred and Fifty (1350) Candidates (Rural BPL Youth) with placement linkage by setting up a training center at Nagpur for the State of Maharashtra. Training them and providing suitable placement along with financial support in the early stages of the job is a big step towards economic and social growth.

#### PUBLICATION :

Global Education Limited is in the business of publication of Syllabus based supplementary books for State Board school students in central India and other Non-Syllabus based books for schools across India. Books are the medium of delivering the content created by the reputed authors. Global Education Limited enjoys strong position in Supplementary books having a strong content team of 90+ Authors. Global Education Limited intent to be a dominant player in India for Supplementary books, Workbooks, Notebooks & other competitive books forms part of portfolio of Global Education Limited's Publication division.

#### NCERT Book Distribution:

We are very happy to share that we have been empanelled for being authorized as whole-seller agency for distribution of all academic NCERT books in states of Maharashtra, Madhya Pradesh and Chhattisgarh. This will help us to boost market expansion and build better relationships with vendors and customers which can be encashed for other business purposes.

GEL is very confident on delivering state of the art transformative solutions to businesses and has raised its benchmarks in service delivery through sharpened skill sets via training and automation. In the 21st century, Training is a Key Result Area across all institutions. Learning and Development has become an integral part of the modern HRs. Institutions which regularly impart training to their staff will be the institutions which will move forward and meet the challenges that lie ahead.

Our major clientele includes Power Sector Skill Council, and many more..

Global Education Limited has been conducting training programs for students, teachers and corporate organizations with various pre-designed and client custom training modules. Our programs have gained popularity because of the strong connect which our speaker establish with audience and activity based delivery. You can leverage the brand and impeccable program qualities of Global Education's programs in promoting these programs to student groups, educational institutes, tuition & coaching classes, Corporate & SME for their employee training. Apart from training we are pioneer in Teacher Performance Assessment to explore the performance of the teachers and suggest educational institutions of upgrades through our training programs.

**GLOBAL SIMULATION MEDICAL TRAINING:**

Medical education has experienced rapid changes worldwide in line with all present challenges. These changes emerged as the product of various problems, including the changing needs of the population and the multiple scientific and technological advances generated by the evidence-based accumulation of medical knowledge. The changing world of medical education, and the consolidation of new educational paradigms, demand the incorporation of innovative strategies. Clinical simulation is an innovative methodology for medical education and has been developing rapidly in recent years. Simulation has become an

important tool in meeting the challenges posed by COVID-19.

Simulation trainings are used as a tool to teach trainees about the skills needed in the real world. It provides a lifelike point-of-care learning experience, and has been widely applied in fields such as aviation, the military, and healthcare. Simulation allows for training exactly as one practices, thus providing for creation of a skilled workforce which is comfortable in adapting to their roles with real-life medical emergencies.

Simulation therefore acts as a bridge between classroom and workplace. National Medical Commission curriculum has now mandated skill training for undergraduate medical students in simulation laboratories to be set up by every medical teaching institution. The role of simulation in healthcare education is to transition an academic learner to a practicing clinician. Medical simulation has been found to enhance clinical competence at the undergraduate and postgraduate levels. The greatest benefit of simulation-based education is the ability to provide an experience by immersing and engaging learners in an artificial environment that captures their attention and exposes them to important contextual characteristics relevant to their performance.

GEL has a very versatile training division and has ventured into the business of providing simulation training in medical field. It enhances the skill of Health Care providers towards mitigating health care needs using simulation technologies and improving clinical abilities by improved communication, attitude, and professional behavior. Mannequins are typically involved in team training for medical crises and resuscitation. High-fidelity simulators and well-equipped simulation facilities have provided great support to the training need of healthcare workers in the twenty-first century. Faculty development in the form of training in simulation programme design, feedback and debriefing skills for simulation can equip educators with the necessary skills to ensure the effective use of simulation.

With the continuous advances in technology, it is inevitable that the fidelity and cost of simulation-based education will have a more favourable impact on the effectiveness and utility of simulation. Simulation is already an integral part of mainstream medical and healthcare education and will likely play an even greater and more important role in the near future. GEL's standardisation of training practices and research methods will further enhance the utility of simulation.

**GLOBAL POWER TRAINING INSTITUTE (GPTI) :**

Global Power Training Institute (GPTI) armed with its state-of-art infra structural facilities and well trained faculties, aims to enrich the Human Resources of the Power Sector. Our various training programs enrich professional and students with contemporary knowledge and skills for success and growth in power sectors. We are certified by Solar Power Skill Sector Council. We are also in the process of applying for Green Jobs Council.

Global Education Limited has several short-term and long-term training programs to meet the urgent and long term needs and objectives of the power sector and allied industries.

Global Education Limited has identified as one of important power training institutes developing comprehensive capsule courses covering areas of Hydro, Thermal, Power Systems, Total quality management, Executive Development Training etc.,

covering technology-management interface, power-environment interface, power financing, privatization and regulatory issues through workshops, seminars, conferences etc. for dissemination of the latest information to blend technology with management in the power sector.

#### **FACILITY MANAGEMENT:**

Facility Management (FM) refers to the use of a third-party service providers to maintain a part or entire building facility in a professional manner. It is increasingly gaining popularity amongst commercial as well as residential clients driven by modernization, rapid urban development and a growing awareness of advantages arising from outsourcing non-core business activities.

The Indian Facilities Management (FM) industry is in the midst of rapid developments in end-user industries, which has led to the considerable growth of commercial activities in metropolitan areas and Tier II and III cities like Coimbatore, Visakhapatnam, Surat, Nagpur, Lucknow etc.. At Global we offer world class automated Infrastructure Management Services. Our focus also remains on Cyber security offerings where threats are growing manifold and we have created new innovative models to combat such cyber threats.

The role of facilities management (FM) has become increasingly more important at higher education institutions across the globe. Facility management (FM) encompasses multiple disciplines to ensure functionality, comfort, safety and efficiency of the built environment by integrating people, place, process and technology. FM plays a key role in making sure a campus's operations run smoothly in every single aspect, from the buildings and grounds, to the classrooms and even future expansion

projects. We are at a time where the population of traditional college-aged students is shrinking, so the competition for enrollment is more intense than ever. As a result, colleges and universities that are managed most effectively are best positioned to weather these challenging times, and FM is one area that can elevate a campus over its peers. GEL is in the business of providing operations and management services to various colleges, intuitions and universities and corporates. Our emphasis is on scaling up of our operations in other markets which will provide us with attractive opportunities to grow our client base and revenues. GEL's higher education facility management teams also focus on keeping occupants safe, ensuring that critical assets work properly, and simultaneously aim to save money for their colleges, intuitions and universities and corporates.

#### **DIGITAL SERVICES:**

GEL is at the forefront to provide e-commerce, e-governance, e-education, e-healthcare solutions to its clientele using new age technologies like Digitalization and Machine learning. The Company is moving with Government of India vision of Digital India. Our Shared services approach in Cloud environment is helping us to provide cost effective services and position us one of the major player in e-education.

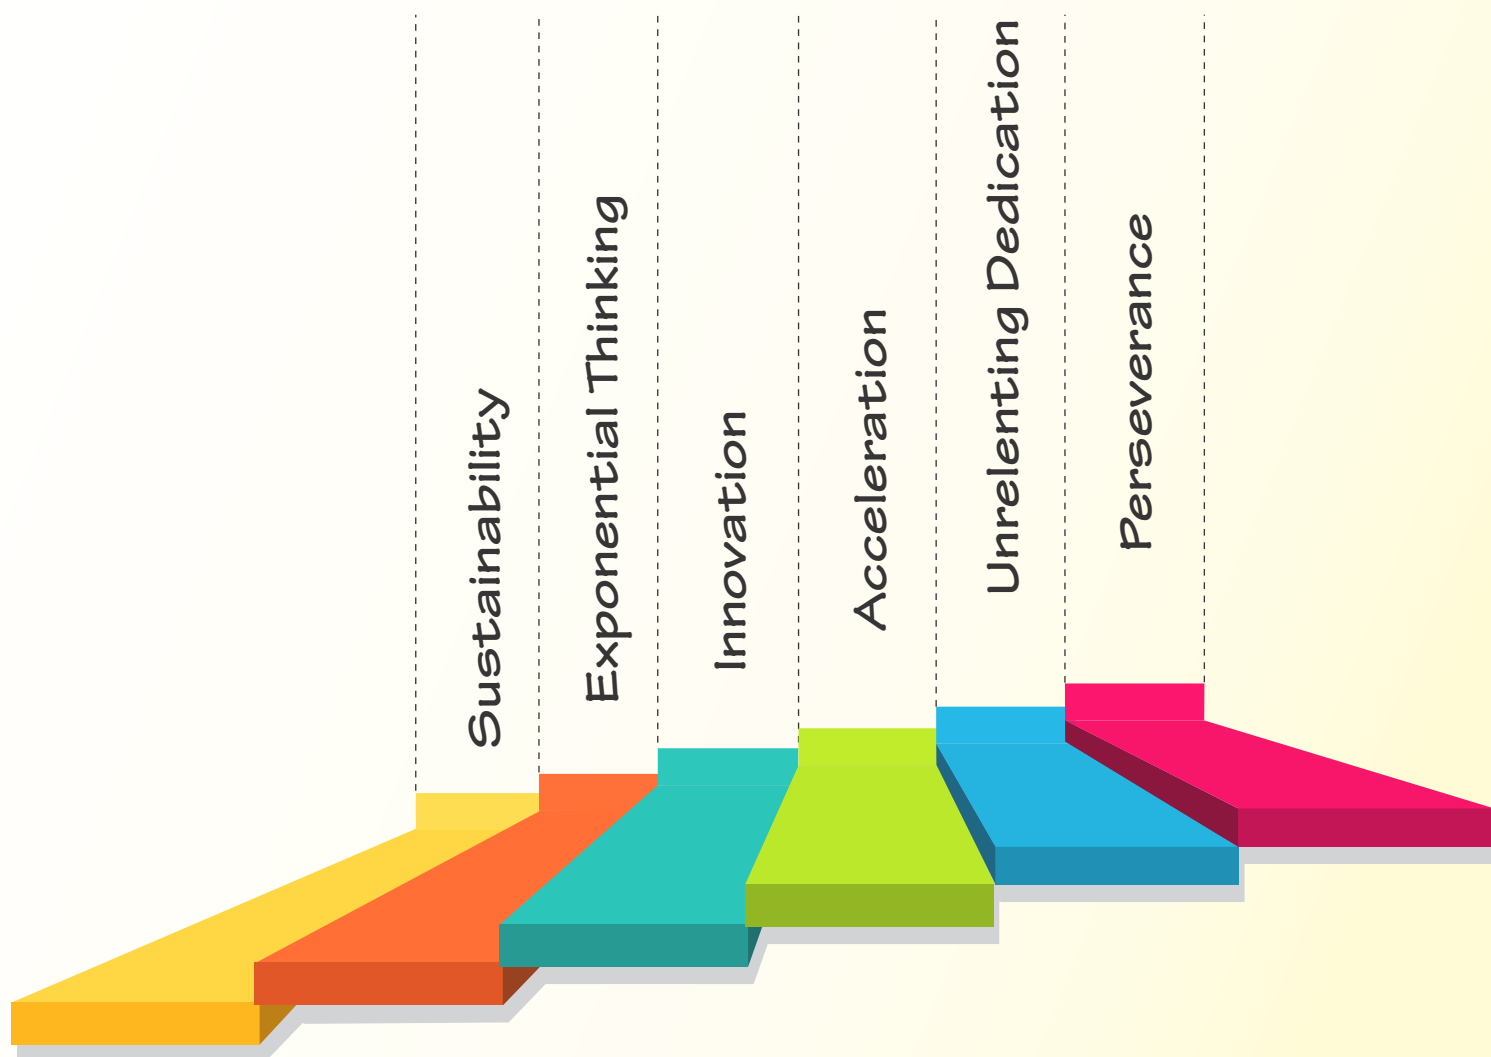

Today we are truly a global architect in Digital Transformation for B2G (Business to Government) and B2E (Business to Enterprise) customers by bringing innovation and transformation in business. ## M E S S A G E

*Dear Stakeholder's,*

Your Company had a good year amidst economic changes, technology transformations and some degree of global challenges. The confidence placed in us by our customers, partners and employees has been our accomplishment as well as motivation in creating long-term value for our stakeholders. FY22 has been an eventful year in the history of the Company due to momentous changes that have unraveled both within and outside the walls of your Company, over the past few months.

The world economy and social dynamics have been impacted by a virus in a way that few could have foreseen. No country and certainly no company, has been left unscathed. The overall environment and sentiment has become dubious however we were confident to sail through this difficult and unprecedented phase through collective and united efforts led by numerous institutions and countries. The results speak for themselves. In addition to delivering industry-leading profitable growth in FY22, we have simultaneously built a platform for accelerated development that can be sustained far into the future. Against these odds, I am pleased to report that your Company's revenue from operations was ₹ 3940.19 Lakhs. On a constant currency basis, we saw demand strengthen and growth accelerate right through the year in our Training & Soft Skill Development Programs cluster and Trading of Books & Journals cluster contributing to 33% and 12% growth of revenue for the full year. The remarkable performance of your company is a testament to its commitment to deliver despite the uncertainty in our macro environment and increasingly changing dynamics of the education industry. Our results reflect the dedication and hard work of our talented employees, who are focused on creating value that matters for all our stakeholders-clients, shareholders, partners and communities-despite the ongoing and sometimes extreme challenges of the COVID-19 pandemic. Further during these times, in tune with business requirements, the leadership teams have been expanded by inducting industry veterans in the fields of training, sales and marketing.

At Global Education Limited, innovation is the difference-it's what drives everything we drive from developing products to fostering sustainability. 2021 -2022 was a challenging year but also a period of progress. The continued trust and support of our clients and dedication of our employees during this period helped us to mitigate the impact of our business and financial results. We are in the education sector with a common motto of making every individual competent, equipped and industry ready. We have since refocused our resources on serving our clients, driving our strategy forward and implementing the targeted growth initiatives that we have defined to refrain the trust of our clients, shareholders and other stakeholders.

Very few events have redefined so dramatically the way we live and work, as the second surge of the coronavirus global pandemic. I am extremely proud of GEL response to the onset of the pandemic and corresponding actions in ad mist of lockdown. The level of coordination, logistics and communication to maintain the highest levels of customer service while keeping the employees safe is truly commendable. It was our inherent preparedness as a future ready "Digital

Inside" Company that helped us to mobilize at breakneck speed while maintaining an unwavering focus on the health and safety of the GEL employees as well as business continuity and communications. A culture of working remotely with implantation of collaboration tools, well designed contact center and availability of the hardware that helped us during this global pandemic.

In addition to our code of conduct which sets out binding ethical values and professional standards for all employees world-wide, we have introduced a set of business conduct behavior recently to guide our employees in their daily activities and help to reduce the potential for operational or conduct losses resulting from breaches of ethical standards or the failure to identify escalate and resolve problems at an early stage. We are proud that we have been able to make a positive change in the lives of many individuals.

The value creation of an enterprise extends beyond financial capital. As more and more educated people become part of the organized workforce across the world, issues like sustainability and climate change have become everybody's business. For us at Global, creating value across social, natural, intellectual and human capital is central to our existence. Today Global Education Limited has come a long way making numerous remarkable contributions. We know that our customers have high expectations from us and we strive never to take our customers for granted. We are positive that the Company's revenue and Shareholder's value will be enhanced in the coming years. We invite you to learn more about our motto "Always A Step Ahead" which comes to life in our vibrant Global family.

As we stand at the end of another successful year, I am happy to report that our strong business fundamentals and capabilities will hold us in good stead in the coming years. Our objective will be to drive growth through the investments we have made, whether it is into transformation frameworks, disruptive solutions, products or services. While we continue to focus on profitable growth and maximization of value for our stakeholders as the key agenda, it is imperative for us to consolidate what all we have created so far. India remains a spectacular market for education products and services that is largely unpenetrated. With the largest number of young people in the world that are hungry for education, you can expect Global in the coming years to rapidly grow its network of consumers by providing services and products that are tailored to customer needs.

At Global we will continue to simplify the IT environment by removing complexities and differentiate through next-generation technologies. We'll also focus on heritage and evolution for market leadership and embracing and managing change in the market by increasing expertise through upskilling. GEL is well on its way to building the tools, platforms, insights and expertise that connect customer, context and experience, which delivers transformative omni-channel digital services and powerful one-to-one personalization for connected experiences. The Company will meet customer expectations even through dynamic technological, economic and environmental shifts with exceptional business models and delivery excellence.

Looking Forward for Financial Year 2022-2023, our overarching priority and objective is to continue to remain focused on increasing effectiveness and efficiency and giving back to the communities where we live and work, in line with our core values of Caring, Global Teamwork and Continuous Improvement. Our product/service pipeline will continue to be supported with engaging marketing programs and strong advertising investment. We are continuing to drive growth for clients, employees as well as communities by making key investments for long-term success. Our commitment to developing capabilities ahead of the curve and providing innovative solutions to help our customers remains steadfast.

As a company, our pursuit to make an impact in all walks of life continues unabated, I look forward to an exciting and challenging year ahead with new milestones and achievements. As I conclude, I want to thank all of our customers, shareholders, and employees for their continued faith and support in the company. We continue to rely on your whole-hearted support as we pledge to drive your company to a bigger tomorrow of performance and success.

At Global - We have the talent, the vision and the conviction. Together let's use them to continue building a rewarding future.!!

## M E S S A G E

Dear Shareholders,

Once again, I begin this letter with a sense of pride in Global Education Limited throughout a year of rapid change. The confidence placed in us by our customers, partners and employees has been our accomplishment as well as motivation in creating long-term value for our stakeholders. Throughout the year, we continued to advance our value proposition in reimagining customer business models by expanding our capabilities, diversifying our portfolio, and broadening our partnerships.

We play a vital role in achieving the mandate of keeping new generation competitive and create opportunities for our most imperative clients & customers to unlock their full potential. Because of our sustained commitment to academic excellence and values, we have become one of the influential leaders of education industry in India. We are developing a wide range of educational programs and services that broaden our demographic and geographic reach. The pandemic has necessitated for a lot of new digital initiatives across organizations, and we at Global have capitalized on this digitalization journey with open arms. We have made our business even more agile and flexible, and we now operate in a hybrid work culture.

In our journey to transform the lives through power of education, fiscal 2021-22 played a role of transformative and dynamic year for Global Education. It was marked by strategic investments to provide a diversification and sustainability to existing businesses. We committed a significant capital to ensure a healthy and conducive environment of learning across the Company's gamut of institutions. We further strengthened our academic quality by continued focus on excellence and value. However, we believe, our success is reflected in our students'/client's success. The growing strategic significance and scope of such transformation, increasingly delivered over multiple sprints and iterations, is manifest in an increasing number of deals evolving into larger strategic engagements for us. Our broad-based growth across industry segments, service lines, and geographies validates the disciplined execution of our strategy and investments in strengthening our capabilities and partnerships.

The current decade is of delivering on the promise of digital education and soft skill training development on time to redefine growth and work in new ways. The education and training sectors are the building blocks of the new economy and we at Global assure digital transformation by meeting the demanding customer expectations and yet conducting the business in a responsible manner. We take pride in being nimble and hungry in bringing innovation in everything we do! Our performance at formal education division has been quite excellent. Despite being the existing entrant in this vertical, we offered our services to higher education institutions including universities and technical campuses with uncompromised standards of education and laid a strong and deep-rooted foundation for a better tomorrow. Coming to financials, total income for the financial year 2021-2022 on standalone basis stood at ₹ 4127.33 Lakhs. EBITDA for the full year was reported at ₹ 1846.71 Lakhs. The net profit (excluding comprehensive income) grew at 244% from ₹ 315.32 lakhs for FY21 to ₹ 1085.23 Lakhs for FY22 in the backdrop of cost-optimization measures, innovative service-delivery models and operational efficiencies. Adjusted Diluted earnings per share was ₹ 10.73 as against ₹ 3.11 in FY 2021-2022. The return on capital employed improved from 11.10% during FY21 to 31.70% during FY22. We have increased the dividend to our shareholders from ₹ 2/- [Rupees Two Only] for FY21 to ₹ 3/- [Rupees Three Only] for FY22 for their continued support and trust during the most difficult of times.

As we instantly navigate the short-term challenges, we will not lose sight of our long-term vision to manage to deliver superior sustainable solutions to the customers. In fact, our senior management team and Board of Directors approved a new sustainability strategy that potentially increases the number of commitments and targets we intend to reach in the coming five years and also new products and solutions to the market. This development was reflected by enlarging the product/services platform and by introducing creative customized end products to the market. By using external and peer benchmarks, we have identified gaps and developed a more integrated and holistic set of goals and targets to drive sustainability further into our core business processes.

At Global, we commenced our journey more than ten years ago. We have been continuously investing to build strong brands, robust product development, wide and deep distribution network and high-quality products with a global appeal. We have not drifted from our core values. This has helped us in tiding over challenging times and continuing to grow without jeopardizing the financial strength and integrity of the business. At Global Education, the winning edge is about empowering talent with futuristic capabilities and an empathetic workplace, driven by our work ethos focused on purpose, caring, learning, and delivering results. This is what makes us an employer of choice for both experienced professionals and fresh graduates. In a competitive talent market, we have continued to differentiate ourselves with a people-focused, purpose-driven culture, as also cutting-edge career and development opportunities. Their proficiency and dedication combined with Global's cutting edge academic systems and methodologies create the most engaging, informative educational experience for students & clients. Our people will continue to be the driving force behind our success and growth. We zealously believe that the future of our group depends on the way in which Global Education Ltd cares for the people.

The second surge of the coronavirus proved to be an even more daunting challenge than the first. It continues to overturn many of the assumptions we had been living with and has highlighted a greater need for pragmatism and resilience while dealing with a pandemic of this scale. We enter current fiscal 2022 -2023 with a positive momentum and strong outlook. In the coming year, we will continue to sharpen and augment our strategy as the foundation for accelerated profitable growth. By sticking to our values and focusing on our core, emerging as well as new portfolios with a consulting-led approach centered on innovation and outcomes, we will continue to look forward and define what comes next, enabling enterprises to turn speed into a strength and get to the future, faster. We have the opportunity to lean into our strengths to build the future for ourselves and our customers alike. Global Education is well positioned with its focus on Simplify, Differentiate and Change to continue to create values for customers and develop strategies while maximizing shareholder's value. We will continue to invest and execute in accordance with our strategic plan to best position the company for long-term sustainable growth. In addition to organic growth plans, we also aim to grow and diversify through inorganic routes across verticals, in new geographies throughout the value chain of educational support services.

We are confident that we are building a stronger more resilient organization whose entire ethos is to understand the customers' needs and to develop effective and affordable solutions with exceptional business models and delivery excellence that keep customers nimble.

Our performance so far, and our initiatives going ahead, are both driven by people. Our achievements so far have been possible due to the outstanding Global Minds. They continuously challenge themselves to innovate and deliver the best results for our stakeholders. As I look towards the future, I commit to you that we will continue to reboot ourselves to meet clients' and industry needs but our passion will always stay the same. The passion that is hallmark of our company and which our clients trust. We look forward to another year of turning the unrelenting, unforgiving and unstoppable forces of change into long-term breakthroughs.!

Let me take this opportunity to share my gratitude to our Board of Directors for their guidance and leadership. We appreciate all our shareholders' continued support and trust in us. I would also like to thank all colleagues at Global for their support and guidance, and our employees for their relentless drive to take Global Education Limited to the next level. All together, we as a team dedicate ourselves to transform lives using the power of education. Your support helps Global become stronger everyday.

Here's looking forward to hope, happiness, and healthier times ahead.!!

# MANAGEMENT DISCUSSION AND ANALYSIS

## GLOBAL ECONOMIC SCENARIO:-

2021 has been another difficult year owing to the continuing and pervasive impact of COVID-19, especially with the advent of new variants causing increased fatalities. Supply side constraints disrupted financial markets and businesses. Central banks proposed an array of measures to ensure credit was available to businesses and individuals. Large-scale vaccination drives around the world, coupled with accommodative policy measures, boosted economic recovery.

However, many low-income, emerging economies continue to struggle with the uncertainties unleashed by the pandemic. Rising supply chain disruptions, semiconductor shortages and the continued energy crisis have further worsened the situation. According to the International Monetary Fund (IMF) outlook as of January 2022, global growth is predicted to be 4.4% in 2022, down from 5.9% in 2021, and will further drop to 3.8% in 2023. But the forecast hinges upon improved health conditions induced by aggressive vaccination drives, coupled with the availability of advanced and effective therapies. By the second quarter of 2022, the negative impact is expected to lessen, provided there are no fresh outbreaks.

The US economy bounced back on the growth trajectory in the fourth quarter by restocking to meet strong demands from consumers, recording its best performance in nearly four decades. GDP increased at a 6.9% annualized rate in the October-December quarter, as per US Commerce Department. 2020 saw the US economy contract to 3.4%, the lowest performance in 74 years. Massive fiscal stimulus coupled with extremely low interest rates helped the nation post its strongest growth since 1984, in 2021.

December however saw the rise of the Omicron variant, putting a damper on the growth rate. At its March meeting, the US Federal Reserve announced an increase in its target for the federal funds rate to 0.25%-0.5% and anticipated further ongoing increases, as appropriate. Growth is moderating in the euro area, but the economy is expected to encounter strong recovery during the year, boosted by ample policy support. Robust domestic demand and improved labor markets are expected to be the primary growth drivers.

To mitigate the effects of the ongoing pandemic, some euro area countries have reintroduced tighter containment measures, delaying recovery, especially in travel, tourism, hospitality and entertainment. In addition, rising energy costs, supply chain bottlenecks and shortages of equipment, materials and labor in some sectors, are hampering production and slowing down recovery. The European Central Bank (ECB) has announced it will end net asset purchases under the Pandemic Emergency Purchase Programme by March 2022. However, the ECB has committed to maintaining its key interest rates at current levels until adequate progress is made towards stabilizing inflation at its medium-term target. The ongoing Russia-Ukraine crisis also acts as a headwind for speedy economic recovery.

In the UK, a series of issues including supply chain disruptions, labor shortages, Brexit trade restrictions and panic buying, moderated growth in the second half of 2021. Private consumption, rather than investment, remained a real driver of activity. In the UK, majority of the population have already received a booster dose, but lower income households continue to struggle to manage the inflationary pressures as they attempt to re-enter the workforce post furlough.

## INDIAN ECONOMIC SCENARIO :

FY22 began on a mixed note in the wake of record increase in Covid infections as a result of the Delta variant. The situation led to mostly partial-to-full lockdown across nations and had an adverse impact on various economies in the first quarter of FY22. Since the Delta wave was relatively short-lived, most countries saw an immediate economic recovery from Q2 FY22 onwards driven by strong demand factors and the widespread vaccination measures undertaken by the different governments across the world.

While forecasting a real GDP growth of 9.2% for FY22, the Reserve Bank of India has projected the growth for FY23 at 7.8% in its February 2022 update, expecting some loss of momentum due to the adverse global events. As per the National Statistical Office, the country's real GDP expanded by 5.4% on a year on year basis in the third quarter of FY22. Record breaking kharif crop productions have kept the growth of the farm sector steady, while Industrial and services activity experienced a staggered recovery.

The Union Budget 2022-23 aims to bolster a sharp economic recovery from the pandemic lows against the backdrop of a strong capital market. The focus of the budget has rightly been on growth revival and the government has continued to focus on driving capital expenditure and supporting the manufacturing sector.

These measures will deliver inclusive growth, job creation and welfare for its citizens, while slowly guiding the economy towards modern and renewable energy. On the vaccination front, India has made rapid strides, conducting the world's largest vaccination drive, covering its adult population, and extending it to children of age groups 12-18. As per the government COWIN portal as of March 31, 2022, India had administered 184+ Crore vaccine doses across 58,000 sites, including 99+ Crore first doses, 83+ Crore as second shots, and 2.2 Crore precaution doses. India has also become the first country in the world to administer a DNA vaccine through ZyCoV-D, a plasmid DNA vaccine developed by Zydus Cadila.

The Indian equity market has been the beneficiary of strong inflows from both institutional and retail markets, led by its continuing efforts at economic reforms for filling the void left by the Chinese enterprises struggling with regulations and debt.

Amidst the prospect of global interest rate hikes to tame inflation, the offloading of holdings by Foreign Institutional Investors (FIIs) in India has led to a market correction, albeit propped up a little with support from Domestic Institutional Investors (DIIs). However, a strong balance sheet, optimism about business potential, the Indian Government's PLI schemes along with a strong capex outlook, provide the confidence of a resilient economy.

The global and local macroeconomic equation changed in Q4 FY22 as geopolitical tensions increased in Europe from February 2022 onwards. The ramifications of the intensifying Russia-Ukraine crisis on the global financial markets as well as economies have been stark and swift. Globally, inflation has surprised on the upside in Q4 FY22 driven by broad-based supply issues, and resultant increase in food, commodities, manufacturing and services prices. In fact, inflation has sharply increased across developed economies to multi-year highs by the end of FY22. In line with these trends, inflation has been on the rise across emerging economies too. Now with the new virus variant, supply side issues are likely to persist for longer, possibly making higher inflation even more entrenched. India's headline CPI rose to 6.95% in March 2022 from 6.07% in February 2022 driven by a low base and increase in food prices. It's noteworthy that, in the Indian context, while the direct trade linkages with Russia and/or Ukraine are limited, the indirect economic impact of the conflict is higher in the form of higher commodity prices-led trade deficit and cost push inflation. The RBI has acknowledged these trends. In its latest policy announcement in April 2022, the RBI shifted focus towards policy normalisation and changed their stance towards lesser accommodation. While the RBI has acknowledged downward pressure on near term growth, it has declared combating inflation as a key priority with an increase in the FY23 CPI inflation forecast to 5.7%.

Given the current government vaccination initiatives and efforts taken to avoid further economic loss, we expect the economic growth to sustain in the coming years. The Indian economy is showing early signs of a broad V-shaped recovery, owing to the large public stimulus spends, revival of consumer confidence, robust financial markets and an uptick in manufacturing activity. Income levels and livelihood opportunities are expected to further improve in FY23, as economic recovery gathers pace and vaccine administration progresses. The Indian government has undertaken a slew of reforms, including labor reforms, corporate tax cuts and production linked incentives (PLIs) to steer the recovery. The coronavirus pandemic has been responsible for millions of infections globally, affecting almost every sector across the world. Amid COVID-19 disrupted academic year, educational institutions are coming up with better methods, albeit as complementary to traditional classroom education. Caught in the vortex, the Indian education system is shifting the paradigm towards online education.

The nationwide lockdown that was imposed, in hopes to contain the virus, resulted in schools and colleges being closed across the country affecting over 500 million students. In order to continue with classes, institutions are focussing on e-learning methods of learning on digital platforms. This has, however, increased the workload for educators due to extended work hours. Nevertheless, statistics have shown that online has proven to enhance learning and the students' ability to retain information.

#### **EDUCATION & TRAINING INDUSTRY IN INDIA:**

Education industry is one of the fastest developing sectors worldwide, generating large scale revenues and employment. There have been major changes occurred in recent past in the structure and education technology driven by foreign education demand, e-learning and test preparation market. With the effect of globalization, the demand for better education has increased, largely through increased private participation. E-education market is a burgeoning segment with high growth potential in the industry.

The growth of internationalization in the education sector is one of the major reasons for the market growth of the higher education sector. Several higher education institutes are integrating intercultural and international dimensions into education due to the rising need to attract the best students and staff, improve the quality of education, and generate revenue. Also, the increase in tertiary enrollments globally has led to a rise in the need for internationalization. The internationalization of teaching and research is one of the major growth strategies adopted by various higher education institutes.

India holds an important place in the global education industry. India has one of the largest networks of higher education institutions in the world. However, there is still a lot of potential for further development in the education system. Moreover, the aim of the Government to raise its current gross enrolment ratio to 30 per cent by 2022 will also boost the growth of distance education in India. India's education sector offers a great opportunity with approximately 29 per cent of India's population in the age group of 0 to 14 years.

The Central Government plans to disburse US\$ 1 billion to states for introducing skill development initiatives. Skill India Mission 2015 is aimed at skilling 400 million Indian youths by 2023. Skill India program has benefitted more than one crore (10 million) youth annually.

Education sector in India remains to be a strategic priority for the Government. The Government has allowed 100 per cent Foreign Direct Investment (FDI) in the education sector through the automatic route since 2003. Total FDI inflow in India's education sector stood at US\$ 3.24 billion between April 2000 to March 2023 according to the data released by Department for Promotion of Industry and Internal Trade (DPIIT).

In 2020-21, Rs 818 crore was shared by the central government across states to promote online learning, and Rs 268 crore was allocated for online teacher training under Samagra Shiksha to ensure professional development of teachers. Allocation of budget for Samagra Shiksha went up to INR 37,383 crore in 2022-23 from INR 29,999 crore in 21-22. Similarly, allocation for Strengthening Teaching-Learning and Results for States (STARS) went up from INR 340 crore to INR 550 crore. For programmes such as Accelerating State Education Program to Improve Results (ASPIRE) and Exemplar Schools where there was no allocation in the last budget, amount of INR 600 crore and INR 1800 crore respectively have been allocated for the year 2022-23. The Economic Survey 2021-22 observes that, as of October 2021, the percentage of students in government and private schools owning a smartphone increased from 36.5% in 2018 to 68.8% in 2022 in rural India. Further, to optimise the impact of COVID-19 pandemic on school education, the central government launched several initiatives. Some of these initiatives are as follows:

**PM eVidya:** The initiative was launched in May 2020 under the Aatma Nirbhar Bharat Abhiyaan. Under this initiative all states were provided access to various e-content through the web portal - DIKSHA. The e-content included courses for teachers, and quizzes. In addition, the initiative provided for Swayam Prabha channels, which helped in telecasting educational programmes for students who did not have internet access. The initiative also included a channel for differently abled children.

**Swayam MOOCs:** 92 online massive open online courses (MOOCs) were provided to open school students in Class 9-12.

**National Repository of Open Educational Resources (NROER):** NROER was created with around 17,500 e-contents for various school subjects in all classes.

**Manodarpan:** This initiative was part of the Aatma Nirbhar Abhiyaan. It aimed at providing psychological support to students, parents, and teachers.

**Virtual Labs:** Virtual labs and skilling e-labs to promote critical thinking skills and stimulated learning environment. To promote crucial critical thinking skills, to give space for creativity, 750 virtual labs in science and mathematics, and 75 skilling e-labs for simulated learning environment, will be set up in 2022-23.

**Skill Development:** Digital Ecosystem for Skilling and Livelihood (DESH-Stack e-portal) will be launched to promote online training. In October 2021, the NSDC launched the largest 'Impact Bond' in India, with a US\$ 14.4 million fund, to help 50,000 youngsters in the country acquire skills necessary for employment.

**National Apprenticeship Promotion Scheme (NAPS)** has been allocated a sum of INR 170 crore in 2022-23 as against no allocation in the last budget. Skill Acquisition and Knowledge Awareness for Livelihood Promotion (SANKALP) budget has gone up from INR 193.47 crore in 2021-22 to INR 300 crore in 2022-23.

**Digital Ecosystem for Skilling and Livelihood the DESH-Stack eportal** has been launched with an aim to empower citizens to skill, reskill or upskill through on-line training. It will also provide API-based trusted skill credentials, payment, and discovery layers to find relevant jobs and entrepreneurial opportunities.

**Allocation for World Class Institutions** increased to INR 1700 crore for the year 2022-23 from INR 1200 crore in 2021-22. Rashtriya Uchchatar Shiksha Abhiyan (RUSA) has been allocated a sum of INR 2042 crore for the year 2022-23 while it was INR 793 crore in 2021-22.

**Digital e-learning:** National Mission in Education Through ICT has been allocated INR 400 crore and Programme for Apprentice Training has been allocated INR 500 crore for the year 2022-23. No allocation was made to these programmes last year.

**Promoting Higher Education by setting up a Digital University** to provide access to students across the country for world-class quality universal education with personalised learning experience at their doorsteps. This will be made available in different Indian languages and Information and communications technology (ICT) formats. The University will be built on a networked hub-spoke model, with the hub building cutting edge ICT expertise. The best public universities and institutions in the country will collaborate as a network of hub-spokes.

#### E-Learning:

**The online education industry is transforming rapidly, and it is evident with the growing adoption of digital learning.**

The online platform providers play a core role in online education system. Initially, the platform served as enablers by connecting prospective students and content providers. Online education in India has a mix of dedicated online only and offline players with an online presence. C2C business models have also emerged where the platform connects prospective teachers and student. B2B offerings are prevalent in higher education, where institutions offer degree/diploma courses to students through their own platforms or third party aggregators.

The country has become the second largest market for E-learning after the US. The sector is expected to reach US\$ 2.46 billion by 2023 with around 9.5 million users. 2021 changed the course of education across the world, but it has especially been a year of change for online learning. This year proved that blended learning, video classes and upskilling are not just temporary trends but will continue to grow and evolve in the years to come. The online learning industry in India is expected to reach \$4 billion by 2025.

In FY 2022, online education entered into the second year of the pandemic. The covid period has opened up several opportunities for tech talent and with several advancements and innovations coming to the fore; the sector is continuously striving to provide new opportunities for young talent, both in terms of realigned skill sets as well as completely new job roles. Technology is playing a large role in how we're approaching education.

Technologies such as Augmented and Virtual Reality (AR/VR) and Artificial Intelligence (AI) were already on an upswing, but the pandemic has accelerated the pace of their adoption. Edtech revolution is not just a temporary trend fuelled by the pandemic, but a permanent change in the way education will be imparted in the future. The colossal scale of the transfer of knowledge, and the availability of interactive learning, made possible by edtech platforms have breathed in a new life into India's education system that was traditionally rigid when it came to adoption of tech. Thus, in 2022 and the decades to come, edtech will continue to transform teaching-learning processes for the better. Industry reports suggest that the aggregate revenue of Indian Edtech startups has doubled since FY 2018 and this rate is expected to only multiply. Coupled with an exponential rise in the number of paid Edtech users (projected by KPMG to reach 37 million by 2025), the Indian Edtech industry presents huge opportunities for foreign investors.

#### Increasing Investments from Venture Capital Firms in Education-Technology to Surge Market Opportunities

Over the past ten years, education-technology (EdTech) deals have exploded in value and number, reaching approximately 300 transactions by 2020. In parallel, the number of venture capital (VC) investing in EdTech companies is increasing dramatically. As per the World Economic Forum (WEF) report of April 2019, the global Ed-tech investments have reached USD 18.66 billion in 2019. According to the annual report published by European EdTech VC Educapital, global Ed-tech investment was projected to be growing by 77% in 2018 to reach USD 8.3 billion. The United States, France, India, and China are the major investors in Ed-tech. Similarly, prominent companies such as Owl Ventures, Kapor Capital, Exceed Capital, and others are investing in many educational technologies to improve the education system. Thus, growing funding for transforming the education system will drive advanced higher education technology market opportunities.

### Automation to the new normal for schools

Covid paved the way for schools to incorporate automation in the form of ERP software. They have been embracing automation as a solution to minimize the burden on teachers as well as bridge the teaching-learning gaps. It is anticipated that automation in schools will pick up pace in the times ahead! This trend was highlighted by Modor Intelligence in its recent report which states that the global ERP market size for schools in 2020 was valued at \$8.05 billion and is projected to reach \$18.82 billion by 2026 growing at a CAGR of 16.2%. The study also points out that the Asia Pacific region especially India is the fastest-growing market. It further highlights that schools are increasingly adopting automation and the solution will emerge to be the new normal for schools in the times to come.

Automation is playing a major role in seamless school management as well as fulfilling the demand of schools, students and parents. By adopting ERP software, they are able to function with a data-based approach and manage operations smoothly. Not only it offers high-end educational experiences to the learners but even enables parents to stay updated about their child's progress and ongoing school activities in real-time. With this new-age technology, schools have been able to turn paperless! On the whole, the solution is streamlining the workflow, offering superior educational experiences as well as bringing parents closer to their children's school life.

### Corporate Training:

Due to the inadequacies in the Indian Education system which does not prepare an individual with vocational and employment ready skills, the companies have to spend a significant amount of financial resources on the proper organizational training of the employees. This is one of the main reasons that the Indian Corporate training market is expected to experience a steady growth by 2023. It is anticipated to reach Rs. 3,800 crore by FY2023 by a CAGR of 11% (FY17-FY22). With a plethora of new, advanced technologies and concepts such as Artificial Intelligence, the demand for training is not only going to increase but also be diversified. Companies have realized that while normal calendar training is important, disruptive training is becoming the need of the hour as it is more effective in creating a more productive and skilled taskforce.

Soft skills gaining prominence as this helps in better communication and coordination with their counterparts at work. Companies are more and more looking for job-ready talent who can hit the road running from day one. The tech industry has been one of the major contributors in terms of employment and in terms of achieving the government mission in taking the economy to \$5 trillion by 2024.

### Robust Flexibility of Online Learning to Increase Its Popularity:

Offline learning captures maximum share due to the high preference for traditional teaching-learning methods. However, the amalgamation of digitalization such as e-learning or smart learning in the traditional teaching methods. Incorporating advanced learning methods has reduced the faculty's workload by automating various educational processes, and it is encouraging organizations to adopt these technologies.

The online learning segment is likely to witness remarkable growth during the forecast period. This is owing to the rise in funding for online education programs. Besides, the scalability and flexibility offered by online learning platforms are likely to aid segmental growth in the forthcoming years

### IMPACT OF COVID-19:

The petrifying and severe impact of COVID-19 has shaken the world to its core. Further, most of the Governments around the world have temporarily closed educational institutions in an attempt to stop the spread of the COVID-19 pandemic. Nevertheless, Covid-19 has prompted experts to rethink the conventional mode of education. Digital education appears to be a viable solution to fill in the void for classroom education for a period of three to four months while minimizing the chances of any infection to students until classes resume. More importantly, it has also brought the hitherto peripheral issue of digital education in India to the centre stage. Going forward, digital education is likely to be integrated into mainstream education. This will enable inclusive education by facilitating learning across diverse geographies in India. Moreover, it will provide an opportunity for educators to come up with customized learning solutions for every student. Through the use of technology, we can, if not provide a strong alternative to the conventional education system, mitigate and compensate for the impediments posed and inconvenience caused due to COVID 19 pandemic to the education system and learners by extension. Learning, as they say, is a continuous and ever-evolving process. The educational institutions in India, from schools to universities, can use this present adversity as a blessing in disguise and make digital education a major part of the learning process for all learners in the future.

### OPPORTUNITIES IN EDUCATION & TRAINING INDUSTRY:

**(a) Investments in Education:** 100 per cent FDI (automatic route) is allowed in the Indian education sector. An estimated investment of US\$ 200 billion is required to achieve the government's target of 30 per cent GER for the education sector by 2022. The government also promotes Public Private Partnership (PPP) and tax concessions to encourage foreign players in the industry. There is a large opportunity for financial institutions in the sector.

### (b) Immense Growth potential:

India has the world's largest population of about 500 million in the age bracket of 5-24 years and this provides a great opportunity for the education sector. The Indian education sector is set for strong growth, buoyed by a strong demand for quality education. The education industry in India is estimated to reach US\$ 144 billion by 2022 from US\$ 97.8 billion in 2016. The Online Education Market share in India is estimated to grow by USD 2.28 billion from 2021 to 2026. Factors such as *skill development and employment* and the *emergence of cloud computing* are significantly driving the Online Education Market in India

### (c) Growth driver for Online Education:-

- **A Low-cost Alternative:** Online platform needs lower infrastructure cost to serve a large base of students hence leading to saving on cost through economies of scale.

- **Provides Quality education to aspirants:** It has been observed that areas where availability of quality offline education is a challenge the aspirants adopt nontraditional education methods. There is a vast difference between the quality of education between rural and urban India which can be met by use of online courses. As per KPMG, open courses and distance learning enrolments in India to rise to round 10 million in 2022 witnessing a CAGR (Compound Annual Growth Rate) of around 9%.
- **Strong growth in internet penetration:** There is an increasing penetration of internet in semiurban and rural areas of India. Nearly 735 million internet users are projected by 2022. This provides huge growth opportunity for online education.
- **Growing penetration of Smartphone :** There are around 291 million smart phone users in India and it is estimated to reach 490 million by 2022. This will further add to the demand for online education due to convenience of medium. Availability of low-cost smartphones has led to an increase in the demand for internet services. This has spurred the demand for online content, including education material, in both rural and urban areas. People are considering online learning as a low cost substitute for traditional learning.
- **Rising aspirations for a better job opportunity:** As per KPMG, around 280 million job seekers are expected to enter the job market by 2050 in India. Hence there will be an increased competition and the demand for industry relevant training is expected to grow.
- **Strong Government Push:** Government initiatives such as SWAYAM, E-Basta, Rashtriya Madhyamik Shiksha Abhiyan (RMSA), Skill India and Digital India will enable the infrastructure needed by students to study online.
- **Automation at Scale :** Constant look out for smart and intelligent automation solutions.
- **Going Digital:** Increased digital transformation efforts across domains in the post-COVID world
- **Emergence of cloud computing:** online education market trends in India is the rise of cloud computing. The government, has established the National Digital Library and the National Academic Repository to support e-learning in educational institutions. The adoption of cloud-based learning platforms in the online education market will assist in resolving the issue of insufficient infrastructure and security, resulting in increased adoption of cloud-based learning platforms.

**(d) Public Private Partnership (PPP) :**

Setting up of formal educational institutes under the Public Private Partnership (PPP) mode and enlarging the existing ones . In the case of PPP the Government is considering different models like the basic infrastructure model, outsourcing model, equity/hybrid model and reverse outsourcing model.

**(e) 'Study in India' Campaign:**

Government promoted new scheme 'Study in India' to bring foreign students to higher educational institutions.

**(f) Adoption of the online learning model:**

Amid the COVID-19 crisis, education instruction and study patterns have drastically changed in the country. The lockdown has accelerated the adoption of the online learning model, which was already on its way to becoming a booming market in India. Virtual classrooms and various online tools are enabling better interaction between teachers and students daily and more users are getting familiar with these platforms. Digital education is providing both teachers and students with new opportunities to teach and learn thereby ensuring greater participation in the overall learning process. With the advent of new technology-aided learning tools such as smartphones, smartboards, MOOCs, tablets and laptops etc has transformed the way education is being imparted in schools and colleges.

As e-learning continues to grow more popular, its scope is widening worldwide due to pandemic led restrictions. As a result, India's own education technology (Edtech) sector is expected by industry analysts to become a US\$30 billion industry over the next decade. The Internet of Things (IoT) is further proving to be one of the most cost-effective ways to educate students. It is also powerful system to integrate a world-class learning experience for everyone. The EdTech companies are constantly working to find innovative solutions to increase access to education.

**EDUCATION SECTOR - THREATS & CHALLENGES & CONCERNS FOR GEL:**

With having the business operations in different industry segments, Global is exposed to variety of external and internal risks. Though the company has a robust mechanism for risk management in place, however, complete risk avoidance on all the financial, operational and strategic objectives cannot be promised. Boards of directors and management of the company regularly review and aim to mitigate various risks related to regulatory, competition, geography, human resource, technology, legal, political etc.

- **Lack of infrastructure and essential learning environment:** In India, high-speed broadband is either not available in many places or is too expensive, rendering the idea of cost-effective online education unworkable. Facilities such as optical fiber transmission and internet service providers are not available in less developed states or isolated towns. Furthermore, fundamental IT infrastructure, such as advanced hardware, software, and data centres, are not available for services that incorporate both classroom and e-learning. As a result, despite widespread use of the Internet and cellphones, the market for online education faces challenges due to a lack of infrastructure and learning settings.
- **Regulatory risk:** Any changes in regulatory norms on the Formal as well as Informal Education front may significantly impact the investment made in education by the Company. The Company is continuously making an effort to upgrade its services, leveraging technological advancements, expanding the product portfolio to minimize the regulatory risk, if any.
- **Pressure on margins:** There could be a margin pressure due to staff costs, cost of study material, high advertising and business promotions, etc, going forward. We believe the Company has sufficient tools to counter these factors, if the same arises.

- *Attrition:* Attrition in the senior management/faculty team may impact the business. The Company's strategy for retaining talent involves offering competitive compensation packages, faculty training system in place for new entrants and existing faculty, along with a healthy working environment.
- *Geographical concentration:* The Company derives the larger share of its revenue from Maharashtra. Hence, any disruption in operations, or competition at this location could impact overall operations significantly. The Company is making a concerted effort to expand its operations pan-India, overseas and is also boosting its Technology Offerings, Distance Learning segment etc.
- *Threat of New Entrants* with moderate Minimal infrastructure requirements allow start-ups to venture into the pre school and vocational study sectors. The rapidly changing world, the speed of knowledge creation, and economic pressures are causing higher education institutions to place greater emphasis on flexibility.
- *Education Institutions are in serious financial crisis.* Moreover, increased student fees, substitutions of loans for grants, diminishing subsidies to student facilities and so on form a financial barrier to perspective students.
- *Fragmentation of Online Markets* and the vendors are deploying various organic and inorganic strategies to compete in the market.

## ROAD AHEAD

- Various government initiatives are being adopted to boost the growth of distance education market, besides focusing on new education techniques, such as E-learning and M-learning. The concept of anywhere, anytime, self-paced learning through live and interactive digital media is gaining widespread popularity and acceptance among students, especially those who are otherwise unable to receive quality education in physical classrooms. Over the next five years, the digital education segment looks set to track higher growth trajectory even as the government intensifies its focus to transform India into a digitally empowered and knowledge-based society.
- Education sector has seen a host of reforms and improved financial outlays in recent years that could possibly transform the country into a knowledge haven. With human resources increasingly gaining significance in the overall development of the country, development of education Infrastructure is expected to remain the key focus in the current decade. In this scenario, infrastructure investment in the education sector is likely to see a considerable increase in the current decade.
- Moreover, availability of English speaking tech-educated talent, democratic governance and a strong legal and intellectual property protection framework are enablers for world class product development.
- The Government of India has taken several steps including opening of IIT's and IIM's in new locations as well as allocating educational grants for research scholars in most government institutions. Furthermore, with online modes of education being used by several educational organisations, the higher education sector in India is set for some major changes and developments in the years to come.
- As e-learning continues to grow more popular, its scope is widening worldwide due to pandemic led restrictions. As a result, India's own education technology (Edtech) sector is expected by industry analysts to become a US\$30 billion industry over the next decade. The pandemic carved the path for the digital revolution of the market and upscaled its landscape significantly. While the sector was resilient in its approach last year; it is bracing for growth and transformations in 2022. With digitization at its prime; it is anticipated that the education technology (Edtech) sector will become outcome-focused in the times to come.
- In Year 2022, digitization was aggressive. Artificial Intelligence and Machine Learning has gained prominence in the times ahead. It is due to technology that education has been able to reach even remote areas as well. The growth of the internet, easy availability of smartphones, and the affordable pricing of the internet are driving the expansion of online education in urban areas and even remotest of locations.
- *Accreditation and Recognition-*

With a steady vision and focused growth strategy, GEL is currently involved in the mission for enhancing the human capital of the country through skill development and employability training. GEL has collaborated with Deen Dayal Upadhyaya Grameen Kaushalya Yojna (DDU-GKY) (a scheme of Ministry of Rural Development (MoRD)) skilling for imparting for training & skill development programs in the State of Maharashtra and to transform rural poor youth into an economically independent and globally relevant workforce.

## OUTLOOK:

Revenue growth with significant margin development during year 2021-2022 was an outcome of the Company's consistent investments into business fundamentals. Increasing contribution from the new & existing divisions was quite remarkable as well. Now, the Company is well placed to capture the enormous potential and large opportunities available in key education verticals such as e-Learning and Vocational Education.

Strategically, the Company has got a perfect mix of high returns and more sustainable business segments. Educational Training and Development Activities provide higher returns whilst Educational Business Support Activities offers annuity and sustain ability. The new initiatives ie e- Learning (Tapping multiple media – Youtube, Mobile Apps and Portals), Skill Development and Publication are also expected to fuel the growth without any additional significant capex. There is a continuous thrust from the management to develop a strong R&D and technical service team to develop new products, explore new applications and understand better the changing customer needs.

Given the above macro-economic conditions, GEL will continue to focus on its core Consumer and Enterprise business to grow. In the upcoming years the GEL has focus on digital expansion by tapping multiple media. Further, GEL also focus on expansion of Business Partner networks. The GEL continuous endeavour to align with the ever evolving technology landscape and customer expectations. The GEL focus on creating a

business-friendly environment that supports overall industry growth. The Gel endeavour to build a collaborative strategic relationship with its customers and also to generate adequate shareholder returns over the next several decades.

With the Company's continuous endeavour to improve efficiencies and performance at all levels and functions, your Board view the prospects for the financial year 2022-23 with cautious optimism.

**10. CORPORATE SOCIAL RESPONSIBILITY (CSR):**

Corporate Social Responsibility has come of age as an anchor for businesses in the country recently. No business is successful or viable if it does not contribute positively to the society or stakeholders at large. The education sector in the country provides ample opportunity to make contributions to upliftment of the society. Problems continue to plague the education sector - the country will face a serious shortage of a skilled and smart workforce. CSR activities undertaken around education need to and have evolved to become imperative in changing the face of education.

At Global Education we make a conscious effort to create a positive impact on the livelihoods we touch - be it through our business or non-business activities. We are engaged in distinguished corporate Social Responsibility program having potential to create stronger relationships with society and which is focused in contributing to the upliftment of the underprivileged sections of the societies. Our CSR arm works towards a common vision of supporting the needy persons

During the financial year (2021-2022) we have contributed ₹ 17,00,000 (Rupees Seventeen Lakh only) towards Corporate Responsibility (CSR) and the budget for CSR to be spent is in line with the provisions under the Companies Act, 2013 and the allocated budget has been approved by the CSR committee. The detailed Annual report on Corporate Social Responsibility forms as a part of the Board Report as "Annexure-B". The Board of Directors has formed a committee on CSR in accordance with Companies Act, 2013. We have examined the compliance of conditions of Corporate Governance by Global Education Limited ('the Company') for the financial year 2021-2022 ended 31 March 2022, as stipulated in Regulation 15(2) [Regulation 17 to 27 and Clauses (b) to (i) of Regulation 46(2) and Para C and D of Schedule V] of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 [as amended], (hereinafter referred to as 'SEBI Listing Regulations').

### Managements' Responsibility

The compliance of conditions of the Corporate Governance is the responsibility of the Management. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in Listing Regulations.

### Auditor's Responsibility

Our responsibility is limited to examining the procedures and implementation thereof, adopted or followed by the Company, for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We have examined the books of account and other relevant records and documents maintained by the Company for the purposes of providing reasonable assurance on the compliance with Corporate Governance requirements, by the Company.

### Opinion

Based on our examination of the relevant records and according to the information and explanations provided to us together with the representations provided by the Company Management and considering the relaxation/s granted by the Ministry of Corporate Affairs and Securities and Exchange Board of India warranted due to the spread of the COVID - 19 Pandemic and also, the limitation for verification of physical record/s of the Company, which were obtained through electronic mode, we certify that, the Company has complied with the conditions of Corporate Governance, as stipulated in Regulation 15(2) [Regulation 17 to 27 and Clauses (b) to (i) of Regulation 46(2) and Para C and D of Schedule V] of the Listing Regulations, for the financial year 2021-2022 ended 31 March 2022.

We further state that such compliance is neither an assurance as to the further viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

# INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF GLOBAL EDUCATION LTD.**

**CIN No: L80301MH211PLC219291**

## Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of GLOBAL EDUCATION LTD ("the Company"), which comprise the Balance Sheet as at 31 March, 2022, the statement of Profit and Loss (including other comprehensive income), the statement of change in equity and the statement of cash flow for year ended on that date and a summary of significant accounting policies and other explanatory information. (hereafter referred as 'standalone Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of state of affairs of the Company as at 31st March, 2022, the loss and the total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis of opinion

We conducted our audit of standalone financial statement in accordance with standard on Auditing ("SA") specified under section 143 (10) of the Act. Our responsibility under those standards is further described in the auditors' responsibilities for the audit of standalone financial statement section of our report. we are independent of the company in accordance with the code of Ethics issued by institute of chartered Accountants ("ICAI") together with the ethical requirement that are relevant to our audit of the standalone financial statement under provision of the act and the rules are made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's code of ethics. We believe that audit evidence obtained by us sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statement.

### Key Audit Matters

The Key audit matters are those matters that, in our professional judgement were of most significant in our audit of standalone financial statement of the current period. These matters were addressed in the context of our audit of the standalone financial statement as a whole, and in forming our opinion thereon, and we do not provide separate opinion on these matters. we have determined the matters described below to be key audit matter to be communicated in our report.

The Management has assessed the impact of the outbreak of COVID-19 on the day-to-day business operations of the Company, based on the assessment management concludes that no adjustments are required in the current financial year.

### Information other than the Standalone Ind AS Financial Statements and Auditor's Report thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the company's annual report, but does not include the Standalone financial statement and our auditor's report thereon. Our opinion on the Standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matter relating to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease the operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our Objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement whether due to error or fraud, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable users of a financial statement may be influenced. We considered quantitative materiality and qualitative factors in

- (i) Planning the scope of our Audit work and evaluating results of our work.
- (ii) To evaluate the effects of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matter communicated with those charged with governance, we determined those matters that were of most significance in the audit of standalone financial statement of the current period and are therefore the key audit matters. We describe these matters in our Auditor's report unless law or regulations preclude public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be accepted to outweigh the public interest benefit of such communication.

### Report on Other Legal and Regulatory Requirements

- A. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013 we give in the Annexure-A, a statement on the matters specified in paragraphs 3 and 4 of the Order.

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as Income during the year in the tax assessments under the Income Tax Act, 1961(43 of 1961).
- ix. (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause 3(ix)(a) of the Order is not applicable.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short- term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable.
- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

- xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.  
(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.  
(c) According to the information and explanation given to us, the company has not received any whistle blower complaints during the year.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.  
(b) We have not considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors. and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.  
(d) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.  
(b) In respect of ongoing projects, the Company has No unspent Corporate Social Responsibility (CSR) amount as at the end of the previous financial year. Accordingly, reporting under clause 3(xx)(b) of the Order is not applicable for the year

## ANNEXURE - 'B' TO THE INDEPENDENT AUDITOR'S REPORT

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Global Education Limited ("the Company") as of 31st March, 2022 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the period ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants (ICAI) of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance note on Audit of internal financial controls over financial reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022 based on criteria for the internal control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Nature of reserves**

- i. Surplus in P & L Account represent the undistributed profits of the Company.
- ii. Capital Redemption Reserve represents the Statutory Reserve.
- iii. General reserve represents the statutory reserve, this is in accordance with Indian Corporate Law wherein a portion of profit is apportioned to general reserve. Under erstwhile Companies Act, 1956 it was mandatory to transfer the amount before a company can declare dividend. However under Companies Act, 2013, transfer of any amount to general reserve is at the discretion of the Company
- iv. Securities Premium reserve represents the amount received in excess of par value of securities. Premium on redemption of securities is accounted in security premium available. When security premium is not available, premium on redemption of securities is accounted for in Statement of profit and loss. Section 52 of Companies Act, 2013 specifies restriction and utilisation of security premium.

These standalone financial statements are presented in Lacs (Rs.)

**2. Significant accounting policies**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

**a) Statement of Compliance :**

These financial statements of the Company have been prepared to comply in all material respects with the Indian Accounting Standard ('Ind AS') notified under section 133 of the Companies Act, 2013, read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 issued by the Ministry of Corporate Affairs ('MCA').

Accordingly, the Company has prepared these Standalone Financial Statements which comprise the Balance Sheet as at 31 March, 2022, the Statement of Profit and Loss for the year ended 31 March 2022, the Statement of Cash Flows for the year ended 31 March 2022 and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as 'Standalone Financial Statements' or 'financial statements'). These financial statements are approved for issue by the Board of Directors on 05th May 2022.

The financial statements are based on the classification provisions contained in Ind AS - 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act, 2013. Further, for the purpose of clarity, various items are aggregated in the statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the financial statements, where applicable or required based on materiality of item being classified.

**b) Basis of Measurement :**

The separate financial statements of the company are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis as per the provisions of the Companies Act, 2013 ("the Act"), unless otherwise stated.

**c) Current and non-current classification**

Assets and liabilities are classified into current and non-current as follows:

**Assets -**

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realised within 12 months after the reporting period; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current assets include the current portion of non-current financial assets. All other assets (including deferred tax assets) are classified as non-current.

**Liabilities**

A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is due to be settled within 12 months after the reporting period; or
- The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Terms of a liability that could, at the option of the counterpart, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities (including deferred tax liabilities) are classified as non-current.

**Operating cycle –**

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle being a period of 12 months for the purpose of classification of assets and liabilities as current and non-current.

**d) Foreign currency translations**

- **Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (Rs.), which is the Company's functional and presentation currency.

- **Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period end exchange rates are generally recognized in the statement of profit or loss.

**e) Use of estimates**

The preparation of financial statements is in conformity with Indian Accounting Standard ('Ind AS'), which requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as on the date of financial statement and the result of operations during the reporting period. Although these estimates are made on reasonable and prudent basis based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

**f) Investments****Classification**

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or profit and loss) or
- Those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through profit and loss. The Company reclassifies debt investments when and only when its business model for managing those assets changes classification.

\*The unquoted equity instruments on the basis of prudence and reasonable estimate by the management are carried over at Purchase cost which involves the irrevocable election by the management to carry the same at cost and based on the market data and significant changes in the values are incorporate by revaluing the same at fair value through profit and loss.

For the detail policy regarding the same the company would draw your attention to note no. n on Financial Instruments.

**g) Property, plant and equipment****i. Property, plant and equipment**

Tangible fixed assets are stated at actual cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements on transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

## ii. Capital work in progress

Asset that is still not completed and is in process of development is shown as capital work in progress. Capital work in progress is recognised on the basis of stage of its completion which adheres to the criteria of recognition that a future benefit can be obtained at the current stage of completion. Cost incurred till date is capitalized and once the asset is ready to use it is shifted to the block of fixed assets with unique identity and depreciation is charged accordingly thereafter.

Borrowing costs directly attributable to acquisition of property, plant & equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

## iii. Depreciation and amortization

Depreciation is provided on the written down value basis at the rates determined based on useful lives of assets, where applicable, prescribed under Schedule II to The Companies Act, 2013. Depreciation on assets acquired / sold during the year is provided on pro-rata basis with reference to the date of installation / put to use/ disposal.

The carrying cost of assets is reviewed at each balance sheet date to determine if there is any indication of impairment thereof based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds their recoverable amounts in accordance with IND AS-36 – "Impairment of Assets" which represent the greater of the net selling price of assets & their 'value in use'.

Asset Description	Useful life as per schedule II of the companies Act, 2013	Useful life
Building	60 Years	60 Years
Plant and Machinery	8 - 40 years	8 - 20 years
Office equipment's	5- 10 years	5 years
Computers	3 years	3 years
Servers and network	6 years	6 years
Vehicles	8-10 years	8 years
Furniture and fixture	10 years	10 years
Electrical Installation	10 years	10 years

Leasehold improvements are amortized over the period of lease.

## Derecognition

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

## h) Intangible assets:

An intangible asset is recognized, where it is probable that future economic benefits attributable to the asset will flow to the enterprise and where the cost can be reliably ascertained. A prudent basis for recognition of intangible asset is always a key consideration. Intangible asset are stated at cost of acquisition less accumulated amortization and impairment loss, if any. Their technical feasibility and ability to generate future economic benefits is established in accordance with the requirements of IND AS-38, "Intangible Assets."

## Derecognition

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount.

The Company has elected to continue with carrying value of all its intangible assets recognised as on transition date, measured as per the previous GAAP and use that carrying value as its deemed cost as of transition date.

**i) Impairment of Non-financial assets:**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

**j) Inventories:**

Traded goods are stated at the lower of cost or net realisable value. Cost of traded goods comprises cost of purchases and all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average method. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**k) Revenue recognition:****i. Sale of goods:**

Revenue is recognised when significant risks and rewards of ownership of the goods have passed to the buyer. Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and revenue can be reliably ascertained. Discounts and concessions are accounted for separately in a similar manner. Revenue from Product sale are recognized upon delivery or when delivered to the carrier and stated net of returns, discounts/price incentives which are estimated and accounted for based on the terms of contract & excludes applicable indirect taxes. Amount received in advance of sale are recorded as Advances from Students/Unearned Revenue.

**ii. Service income includes income from:****Supply of infrastructure & other services:**

Revenue from Supply of Infrastructure & Other services to corporate and other organizations is recognized on accrual basis.

**Training programs:**

Revenue from providing Training to Educational as well as Non-Educational Institutions is recognized on accrual basis. In case of online training the revenue is recognized on the basis of prudence and estimates made by the concerned department to the maximum possible level of accuracy, however sometimes the actual conformity is obtained after the counterparty confirmation.

**Advertising, broadcasting & marketing services:**

Revenue from Advertising & Marketing Services provided to various organizations is recognized on accrual basis.

**Management services:**

Revenue from Management Services provided to various organizations is recognized on accrual basis.

**Income from other operations:**

Revenue from other operations is recognized on accrual basis.

Revenue recognition is based on the terms and conditions as per the contracts entered into with the customers. In respect of expired contracts under renewal or where there are no contracts available, revenue is recognized based on the erstwhile contract / provisionally agreed terms and/or understanding with the customers.

**iii. Other income:**

Interest income is recognized on time proportion basis at applicable interest rates. Dividend income is accounted for when the right to receive dividend is established. Rental income is recognised on the time proportion basis over the term of relevant agreement.

**l) Employee benefits****i. Short term employee benefits:**

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render services. Bonus expenditure is charged to statement of profit and loss on accrual basis.

**II. Post-employment benefits:****i. Defined Contribution Plans:**

A defined contribution plan is a post-employment benefit plan under which the company makes specified monthly contributions towards Provident Fund. The company's contribution is recognized as an expense in the statement of profit and loss during the period in which the employees renders the related service.

**ii. Defined Benefit Plans :**

Gratuity liability under the Payment of Gratuity Act is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

The present value of the defined benefit obligation denominated in ₹14.90 Lacs is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

**m) Borrowing costs**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other borrowing costs are expensed in the period in which they are incurred.

**n) Financial Instruments****Financial assets**

The Company classifies its financial assets in the following categories:

**i. Financial assets at amortised cost-**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. These are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value plus transaction costs and subsequently, if maturing after 12 months period, using the effective interest method, less any impairment loss. Debt instruments which do not meet the criteria of amortised cost are measured at fair value and classified as fair value through profit and loss or through other comprehensive income, as applicable. Financial assets at amortised cost are represented by trade receivables, security deposits, cash and cash equivalents, Loans and other advances.

**ii. Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)-**

All equity investments are measured at fair values. Investments which are not held for trading purposes and where the Company has exercised the option to classify the investment as Fair Value through other comprehensive income ('FVTOCI'), all fair value changes on the investment are recognised in OCI. The accumulated gains or losses recognised in OCI are reclassified to retained earnings on sale of such investments.

**iii. Financial assets at Fair Value through Profit and Loss (FVTPL) –**

All equity investments are measured at fair values. Investments which are held for trading purposes and where the Company has exercised the option to classify the investment as Fair Value through Profit and Loss ('FVTPL'), all fair value changes on the investment are recognised in profit and loss. The accumulated gains or losses recognised in Profit and Loss.

Financial assets which are not classified in any of the categories above are fair valued through profit or loss (FVTPL).

**iv. Impairment of financial assets –**

The Company assesses expected credit losses associated with its assets carried at amortised cost and fair value based on Company's past history of recovery, credit-worthiness of the counter party and existing market conditions. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Company applies the simplified approach for recognition of impairment allowance as provided in Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

**Financial liabilities****Initial recognition and measurement**

All financial liabilities are recognised initially at fair value and in case of loans and borrowings net of directly attributable costs. Financial liabilities are subsequently measured at amortised cost using effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying value approximates fair value due to short maturity of these instruments.

**Investment in Subsidiaries, Associates, and Joint Ventures**

Investment in subsidiaries, associates and joint ventures are accounted at cost in the financial statements.

**Offsetting of Financial Instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**Fair value measurement**

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) Level 1 - The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date.
- ii) Level 2 - The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions.
- iii) Level 3 - The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data.

**o) Leases**

Upon adoption of Ind AS - 116, the Company applied a single recognition and measurement approach for all leases that it is the lessee, except for short-term leases and leases of low-value assets. The Company recognized lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

As a lessee Ind AS - 116 will replace the existing leases Standard, Ind AS - 17 Leases, and related interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS - 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of profit & loss.

The company considers that all its operating leases are of low value compared to its revenue and thereby accord to recognize all the lease expenses to the statement of profit and loss and the company has entered into lease contract which are not long term in nature.

At inception of a contract, the Company assesses whether a contract is or contains a lease. A contract is, or contains, a lease if a contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract conveys the right to use an identified asset;
- the Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the identified asset.

At the date of commencement of a lease, the Company recognises a right-of-use asset ("ROU assets") and a corresponding lease liability for all leases, except for leases with a term of twelve months or less (short-term leases) and low value leases. For short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. Company has considered all leases where the value of an underlying asset does not individually exceed Rs. 0.50 Crores, or equivalent as a lease of low value assets.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. Lease payments to be made under such reasonably certain extension options are included in the measurement of ROU assets and lease liabilities.

Lease liability is measured by discounting the lease payments using the interest rate implication the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option. Lease payments are allocated between principal and finance cost. The finance cost is charged to statement of profit and loss over the lease periods as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives and restoration costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. ROU assets are depreciated on a straight-line basis over the asset's useful life (refer 2. (f)) other lease whichever is shorter.

Impairment of ROU assets is in accordance with the Company's accounting policy for impairment of tangible and intangible assets.

#### **As a lessor**

Lease income from operating leases where the Company is a lessor is recognised in the statement of profit and loss on a straight – line basis over the lease term.

### **p) Taxes on income**

#### **i. Current tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate in India adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted in India at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

The actual tax expense or tax payments made to the tax authorities can differ significantly on the basis of the interpretations being made. The management tries to interpret the law under the normal business parlance and the business acumen of the common man.

#### **ii. Deferred tax**

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred tax is recognized in Statement of Profit and Loss, except to the extent that to relate to items recognized in Other Comprehensive Income or directly in equity. In this case, deferred tax is also recognized in other comprehensive income or directly in equity, as the case maybe.

#### **iii. Minimum Alternate Tax**

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.

### **q) Provisions, contingent liabilities and contingent assets**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provision care discounted. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the Company. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is a possible asset arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised till the realisation of the income is virtually certain. However, the same are disclosed in the financial statements where an inflow of economic benefit is possible.

A contingent asset is neither recognized nor disclosed in the financial statements considering strict adherence to prudence.

#### **r) Exceptional Items**

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the company. These are material items of income or expense that have to be shown separately due to their nature or incidence.

#### **s) Earnings per share**

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

#### **t) Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, Cash and cash equivalents comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

#### **u) Cash flow statement :**

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

#### **v) Segment reporting :**

In accordance with IND AS - 108 – "Segment Reporting", Segments are identified based on the manner in which the Company's Chief Operating Decision Maker ('CODM') decides about resource allocation and reviews performance. Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment and intangible assets other than goodwill.

The company has identified two reportable business segments viz. "Educational Training and Development Activities" and "Educational Business Support Activities". A Detailed disclosure has been made in these financial statements. There are no other primary reportable segments. The major and material activities of the company are restricted to only one geographical segment i.e., India, hence the secondary segment disclosures are also not applicable.

#### **w) Equity share capital :**

Issuance of ordinary shares are recognized as equity share capital in equity. Incremental costs directly attributable to the issuance of new equity shares are recognized as a deduction from equity, net of any tax effects.

**x) Dividends:**

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. The Company declares and pays dividends in Indian rupees. The Finance Act, 2020 has repealed the Dividend Distribution Tax (DDT). Companies are now required to pay/distribute dividend after deducting applicable tax at source. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at source applicable rates.

**y) Offsetting instruments**

Assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amount and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counter-party.

**z) Key accounting estimates and judgements :**

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis.

There are no assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year.

(c)	Debt Service Coverage Ratio (EBITDA & Non-Cash Items/ Total Installment)	NA	NA	NA	NA
(d)	Return on Equity Ratio (Net Profit After Tax/ Average Shareholders Equity)	107.25%	31.15%	76.11%	Revenue Growth due to purchase of new assets has resulted in increase in earnings.
(e)	Inventory turnover ratio (Net Sales/Average Inventory)	3.44	1.64	109.76%	Revenue growth and efficient inventory operations during the year has led to faster inventory churning and thereby the inventory turnover ratio has been improved.
(f)	Trade Receivables turnover ratio (Net Sales/Average accounts receivable)	3.13	1.68	86.01%	Overall improvement in market scenario. Our receivables have also improved thereby the ratios has improved.
(g)	Trade payables turnover ratio (Net Purchases/Average account payable)	6.00	6.79	-11.71%	Substantial Purchases during the end of Financial Year. However, we are utilizing the credit cycle in effective and efficient manner.
(h)	Net capital turnover ratio (Net Sales/Working Capital)	1.37	0.76	79.27%	Due to growth in revenue along with purchase of fixed asset which has reduced our working capital and improvement in ratio
(i)	Net profit ratio (Profit After Tax/Net Sales)	27.71%	12.39%	15.32%	Overall Revenue growth, improvement in Inventory churning and receivable has resulted in Earnings growth thereby the ratio has improved
(j)	Return on Capital Employed (EBIT/(Net Worth-Intangible Asset - Deferred Tax Asset + Total Long-Term Debt)	31.70%	11.10%	20.60%	Overall Revenue growth, improvement in Inventory churning and receivable has resulted in Earnings growth thereby the ratio has improved
(k)	Return on Investment (Gain on Investment/ Total Investment)	0.06%	0.00%	0.06%	Gain on investment is very negligible. Hence the ratios are also very low.

### Measurement of fair values

The basis of measurement in respect to each class of financial asset and financial liability is disclosed in note 2(m) of the financial statement.

### Financial Risk Management

The Company has exposure to the following risks arising from financial instruments:

- Credit Risk
- liquidity risk
- Market risk.

### Credit Risk

Credit risk is the risk that the counterparty will not meet its obligations leading to a financial loss. Credit risk arises from cash and cash equivalents, investments carried at amortised cost and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables and unbilled revenue.

**i. Credit risk management**

Credit risk has always been managed by the company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the company grants credit terms in the normal course of business.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 90 days past due.

A default on a financial asset is when the counter party fails to make contractual payments of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

**ii. Provision for expected credit losses**

The company follows 'simplified approach', for recognition of impairment loss allowance on trade receivables or contract revenue receivables and unbilled revenue.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables and unbilled revenue. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

**Financial instruments and cash deposits**

The credit risk from balances / deposits with banks, other financial assets and current investments are managed in accordance with the company's approved policy. Investments of surplus funds are made only with approved counter-parties and within the limits assigned to each counter-parties. The limits are assigned to mitigate the concentration risks. These limits are actively monitored by the Company.

**Liquidity Risk**

Liquidity risk is the risk that the Company may encounter difficulty in meeting its obligations. The Company monitors rolling forecast of its liquidity position on the basis of expected cash flows. The Company's approach is to ensure that it has sufficient liquidity or borrowing headroom to meet its obligations at all point in time. The Company has sufficient short-term fund-based lines, which provides healthy liquidity and these carry highest credit quality rating from reputed credit rating agency.

**Market risk**

Market risk is the risk that the fair value of the future cash flows will fluctuate because of changes in the market prices such as currency risk, interest rates risk and commodity price risk.

**a. Currency risk**

The Company operations are not exposed to foreign exchange risk

**b. Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate risk can also impact the provision for retrial benefits. The Company does not have any outstanding borrowing and therefore not subject to interest rate risk, The Company is not exposed to significant interest rate risk as at the respective reporting dates.

**c. Price Risk**

The price risk is the risk arising from investments held by the Company and classified in the balance sheet either at fair value through Other Comprehensive Income or at fair value through profit or loss.

The Company's equity investments are mainly strategic in nature and are generally held on a long-term basis. Further, the current investments are in units of liquid mutual fund and these are not exposed to significant price risk.

**d. Commodity Risk**

The Company is not exposed to the fluctuations in commodity prices. The Company manages these price fluctuations, if any by actively managing the sourcing, private purchases and alternate strategies.

**48. Capital Management**

For the purpose of the company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The company includes within debt, interest bearing loans and borrowings, trade and other payables, less other bank balances.

Total Equity (Equity Capital and Other equity) (B)	4671.13	3984.21
<b>Gearing ratio (%) (A/B)</b>	<b>3.69%</b>	<b>8.25%</b>

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define capital structure requirements. The financial covenants relate to gearing ratio, ratio of net finance cost to EBITDA, fixed assets coverage ratio etc.

## FOR KIND ATTENTION OF SHAREHOLDERS

Dear Member,

### Subject: Deduction of tax at source on dividend

We hope that you are safe and healthy. Please take care of yourselves.!

We wish to inform you that the Board of Directors of your Company has, in its meeting held on 05th May, 2022, recommended a final dividend of ₹ 1.00 [ Rupees One Only] per equity share having a nominal value of ₹ 10/- each for the financial year ended 31st March, 2022.

The dividend, if approved at the ensuing Eleventh (11th) Annual General Meeting of the Company, will be paid to the Members on the basis of the details of beneficial ownership furnished by the Depositories, as at the close of Friday, 29th July, 2022 and in respect of shares held in physical form to those Members whose names will appear in the Register of Members of the Company as on the close of Friday, 29th July, 2022.

As you may be aware that in terms of the provisions of the Income Tax Act, 1961 ("the Act") as amended by the Finance Act, 2020, dividend paid or distributed by a Company on or after 1st April, 2020 is taxable in the hands of the Members. The Company is, therefore, required to deduct tax at source at the time of payment of dividend to the Members.

**For resident members :** Tax will be deducted at source ("TDS") under Section 194 of the Act (read with Press Release dated May 13th, 2020) @ 10% on the amount of dividend payable unless exempt under any of the provisions of the Act. However, in case of individuals, TDS would not apply if the aggregate of total dividend distributed to them by the Company during FY 2021-22 does not exceed ₹ 5,000/-.

Tax at source will not be deducted where a member provides Form 15G (applicable to Individual in case of dividend) / Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are being met. Blank Form 15G and 15H can also be downloaded from the link given at the end of this communication i.e. [www.globaledu.net.in](http://www.globaledu.net.in) or from the website of the RTA viz. <https://www.bigshareonline.com/form15>

**Needless to mention, the Permanent Account Number (PAN) will be mandatorily required.** If PAN is not submitted, Tax at source will be deducted @ 20% as per Section 206AA of the Act.

In order to provide exemption from withholding of tax, the following organisations must provide a self-declaration as listed below:

- **Insurance companies :** A declaration that they are beneficial owners of shares held.
- **Mutual Funds :** A declaration that they are governed by the provisions of Section 10(23D) of the Act along with copy of registration documents (self-attested).
- **Alternative Investment Fund (AIF) established in India :** A declaration that its income is exempt under Section 10(23FBA) of the Act and they are established as Category I or Category II AIF under the SEBI Regulations. Copy of registration documents (self-attested) should be provided.
- **New Pension System Trust :** A declaration that they are governed by the provisions of Section 10(44) [subsection 1E to Section 197A] of the Act along with copy of registration documents (self-attested);
- **Corporation established by or under a Central Act** which is, under any law for the time being in force, exempt from income tax on its income - Documentary evidence that the person is covered under Section 196 of the Act.

**For non-resident members :** Tax is required to be withheld in accordance with the provisions of Section 195 of the Act at applicable rates in force. As per the relevant provisions of the Act, the tax shall be withheld @ 20% (plus applicable surcharge and cess) on the amount of dividend payable. However, as per Section 90 of the Act, a non-resident member has the option to be governed by the provisions of the Double Tax Avoidance Agreement ("DTAA") between India and the country of tax residence of the member, if they are more beneficial to the member. For this purpose, i.e. to avail tax treaty benefits, the non-resident member will have to provide the following:

- i. Self-attested copy of Permanent Account Number (PAN Card), if any, allotted by the Indian income tax authorities;
- ii. Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the member is resident;
- iii. Self-declaration in Form 10F, if all the details required in this form are not mentioned in the TRC;
- iv. Self-declaration by the non-resident member of having no permanent establishment in India in accordance with the applicable Tax Treaty;
- v. Self-declaration of beneficial ownership by the non-resident member.

The documents referred to in point nos. (iii) to (v) can be downloaded from the link given at the end of this communication or from the website of the RTA viz. <https://www.bigshareonline.com/form15>

The Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by non- resident member.

Notwithstanding the above, tax shall be deducted at source @ 20% (plus applicable surcharge and cess) on dividend paid to Foreign Institutional Investors and Foreign Portfolio Investors under section 196D of the Act. Such rate shall not be reduced on account of the application of the lower DTAA rate, if any.

**To enable us to determine the appropriate TDS / withholding tax rate applicable, we request you to provide the above details and documents not later than before 02nd August 2022 (5:00 p.m. IST).**

To summarize, dividend will be paid after deducting the tax at source as under:

- NIL for resident members receiving dividend upto ₹ 5000/- or in case Form 15G / Form15H (as applicable) along with self-attested copy of the PAN is submitted.
- 10% for resident members in case PAN is provided / available.
- 20% for resident members, if PAN is not provided / not available.
- Tax will be assessed on the basis of documents submitted by the non-resident members.
- 20% plus applicable surcharge and cess for non-resident members in case the aforementioned documents are not submitted.
- Lower / NIL TDS on submission of self-attested copy of the certificate issued under Section 197 of the Act.

Kindly note that the aforementioned documents should be uploaded with Big Share Services Private Limited, the Registrar and Transfer Agent at <https://www.bigshareonline.com/form15>.

**No communication on the tax determination / deduction shall be entertained after Tuesday, 02<sup>nd</sup> August, 2022.**

In case tax on dividend is deducted at a higher rate in the absence of receipt of the aforementioned details / documents, you would still have the option of claiming refund of the excess tax paid at the time of filing your income tax return. No claim shall lie against the Company for such tax deducted.

We request you to submit / update your bank account details with your Depository Participant, in case you are holding shares in the demat form. In case your shareholding is in the physical form, you will have to submit a scanned copy of a covering letter, duly signed by the first member, along with a cancelled cheque leaf with your name and bank account details and a copy of your PAN card, duly self-attested, to BigShare Services Private Limited. This will facilitate receipt of dividend directly into your bank account. In case the cancelled cheque leaf does not bear the members' name, please attach a copy of the bank pass-book statement duly self-attested. **We also request you to register your email IDs and mobile numbers with the RTA.**

Stay healthy and safe.

Yours sincerely,

**For Global Education Limited**
