INDEPENDENT AUDITOR'S REPORT

**To the Members of
Hotel Rugby Limited**

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Hotel Rugby Limited** ("the Company"), which comprise the Balance Sheet as at 31 March, 2018, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of Matter

Hence, there was a delayed compliance of section 186 of the Companies Act 2013 during the year.
- (b) We are unable to verify the non current investments amounting to Rs. 400,000 (Refer Note No. 1) and the valuation thereof as the supporting evidences for the same has not been produced for our verification.
- (c) The accounts are prepared on going concern basis though all the fixed assets of the company have been disposed off long back (Refer note no. 20).
- (d) The investments in Equity Instruments are not valued at Fair Value through Profit & Loss or Fair Value through Other Comprehensive Income as required by IND AS 109.

Opinion

Subject to the matters specified in the basis for qualified opinion stated as above, in our opinion and to the best of our information and according to the explanations given to us, the Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, & its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

ANNEXURE “B” OF THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Hotel Rugby Limited (“the Company”) as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

	The Company's Audit Committee oversees compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.			
	(a) Credit risk			
	Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.			
	The carrying amount of financial assets represents the maximum credit exposure. The Company monitor credit risk very closely. The Management impact analysis shows credit risk and impact assessment as low.			

Current Assets				
	The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate. Since there are no revenue generated from operations, there are no major risks.			
	The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables			
	The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer/party. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate. In view of no operations from its core activities, there are no risks envisaged by the company

(b) Liquidity risk				
	Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation			
	Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding to meet obligations when due and to close out market positions.			
	Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out and monitored through caproate office of the Company in accordance with practice and limits set by the Company. These limits vary to take into account requirement, future cash flow and the liquidity in which the entity operates. In addition, the Company's liquidity management strategy involves projecting cash flows considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.			

	(i) Financing arrangements			
	The company did not have any financial arrangements during the year from the banks or any other financiers except interest free loan from directors			
	(ii) Maturities of financial liabilities			
	The company does not have any contractual maturities of financial liabilities at the reporting date.			
	(c). Market risk			
	Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Company does not envisage any market risks presently as it does not have any operating activity related to its hotel business after the sell off of its fixed assets.			
	Currency risk			
	Since the Company does not have any exposure related to foreign exchange transactions, there is no currency risk exposure			
	Sensitivity analysis			
	Since there is no currency risk exposure, no sensitivity analysis can be presented.			
	Interest rate risk

	(i) Cash flow sensitivity analysis for variable-rate instruments

	(j) Fair value sensitivity analysis for fixed-rate instruments			
	The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.			

27	The financial assets consisting of non current and current investments, non current loans and advances which constitute less than 50% of its total assets, though the income is 100% from the financial assets. Since both the conditions are not fulfilled by the company for registration as a deemed NBFC, provisions as a loan company are not attracted. However, in the previous year both the conditions were fulfilled but the company was of the opinion that its principal business being not providing finance with all Loans/Advances in the ordinary course of business, such provisions were not applicable to it in the previous year also

C. Basis of measurement

The financial statements have been prepared under the historical cost convention on accrual basis.

D. Use of estimates and judgments

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual result may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

E. Measurement of fair values

Company's accounting policies and disclosures require the measurement of fair values, for both financial and non- financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values, based on which the fair value is measured as and when applicable.

This includes a regular reviews for significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorized in a fair value hierarchy based on the inputs used in the valuation techniques as under:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfer between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

31.2 SIGNIFICANT ACCOUNTING POLICIES:**A. Current and non-current classification**

All the assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

Assets:

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realised within twelve months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities:

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or

- d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other assets/ liabilities are classified as non-current.

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in Cash or cash equivalents, the Company has ascertained its normal operating cycle as 12 months for the purpose of Current / Non-current classification of assets and liabilities.

B. Financial Instruments

i. Financial assets

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

All financial assets are recognised at fair value on initial recognition.

Financial assets are subsequently classified as measured at:

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVTOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of financial assets

The Company recognises loss allowances for expected credit losses on:

- financial assets measured at amortised cost;

At each reporting date, the Company assesses whether financial assets carried at amortised cost has impaired and provisions are made for impairment accordingly. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

ii. Financial liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss.

Financial liabilities are subsequently measured at amortised cost using the effective interest rate (EIR) method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

iii. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

C. Borrowing costs

Borrowing costs include interest expense calculated using the effective interest method (EIR), finance charges in respect of assets acquired on finance lease and exchange differences arising on foreign currency borrowings to the extent they are regarded as an adjustment to interest costs.

Borrowing costs net of any investment income from the temporary investment of related borrowings, which are attributable to the acquisition, construction or production of a qualifying asset are capitalized / inventoried as part of cost of such asset till such time the asset is ready for its intended use or sale.

A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

D. Income tax

Income tax comprises current and deferred tax. It is recognised in statement of profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- Temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- Temporary differences related to investment in subsidiary to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets- unrecognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Minimum Alternate Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the

carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

E. Cash and cash equivalents

Cash and bank balances also include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

F. Provision and contingent liabilities

The Company sets up a provision when there is a present legal or constructive obligation as a result of a past event and it will probably requires an outflow of resources to settle the obligation and a reliable estimate can be made. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or where reliable estimate of the obligation cannot be made. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

G. Contingent Assets

Contingent Assets are not recognised in the financial statements. However, these are disclosed in the Director's report.

H. Revenue recognition

Revenue is recognised based on nature of activity when consideration can be reasonably measured and recovered with reasonable certainty. Revenue is measured at the fair value of the consideration received or receivable and is reduced for estimated customer returns, rebates and other similar allowances.

(i) Revenue from operations

Revenue includes excise duty if applicable and but excludes Goods and Services Tax (GST) and Value Added Tax.

Escalation and other claims, which are not ascertainable/acknowledged by customers are not taken into account.

A. Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have been passed, provided all the following conditions are satisfied:

1. significant risks and rewards of ownership of the goods are transferred to the buyer;
2. the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the good sold;
3. the amount of revenue can be measured reliably;
4. it is probable that the economic benefits associated with the transaction will flow to the company; and
5. the costs incurred or to be incurred in respect of the transaction can be measured reliably.

However, there has not been any sale of goods during the year.

B. Rendering of services

Revenue from rendering of services is recognised when the outcome of a transaction can be estimated reliably by reference to the stage of completion of the transaction. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

1. the amount of revenue can be measured reliably;
2. it is probable that the economic benefits associated with the transaction will flow to the company;
3. the stage of completion of the transaction at the end of the reporting period can be measured reliably; and
4. the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Stage of completion is determined by the proportion of actual costs incurred to-date, to the estimated total costs of the transaction. Unbilled revenue represents value of services performed in accordance with the contract terms but not billed. Such revenue is measured as based on the stage of completion of service.

However, there has not been any sale of services during the year.

C. Other operational revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

However, there has not been any income from other operations during the year.

(ii) Other income

- A. Interest income is accrued on a time basis by reference to the principal outstanding and the effective interest rate.
- B. Dividend income is accounted in the period in which the right to receive the same is established.
- C. Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

I. Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the company is treated as an exceptional item and the same is disclosed in the notes to accounts.

J. Segment reporting

There has not been any operations during the year and accordingly segment revenue is not applicable.

K. Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

L. Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- a) estimated amount of contracts remaining to be executed on capital account and not provided for, and;
 - b) other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.
- Other commitments related to sales/procurements made in the normal course of business are not disclosed to avoid excessive details.

M. Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method, adjusting the net profit for the effects of:

- i. changes during the period in inventories and operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses, and undistributed profits of associates; and
- iii. all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

N. Key sources of estimation

The preparation of financial statements in conformity with Ind AS requires that the management of the company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include useful lives of property, plant and equipment, Intangible assets, allowance for doubtful debts/advances, future obligations in respect of retirement benefit plans, provision for rectification costs, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

O. First time adoption of Ind AS

The company has prepared opening Balance Sheet as per Ind AS as of April 1, 2016 (transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, derecognising items of assets or liabilities which are not permitted to be recognised by Ind AS, reclassifying items from I-GAAP to Ind AS as required, and applying Ind AS to measure the recognised assets and liabilities. The exemptions availed by the company under Ind AS 101 are as follows:

- (i) The estimates as at April 1, 2016 and at March 31, 2017 are consistent with those made for the same dates in accordance with I-GAAP.

P. New / Amended Ind AS and impact thereof:

- (a) Ind AS 115 Revenue from Contracts with Customers Ind AS 115 was issued on 29 March 2018 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under Ind AS and the guidance note of real estate issued by ICAI.

Ind AS 115 is applicable to the Company for annual periods beginning on or after April 1, 2018.

(b) The MCA has also carried out amendments of the following accounting standards:

- i. Ind AS 12 – Income Taxes
- ii. Ind AS 21 – The Effects of Changes in Foreign Exchange Rates
- iii. Ind As 28 – Investments in Associates and Joint Venture;
- iv. Ind AS 40 – Investment property, and
- v. Ind AS 112 – Disclosure of Interests in Other Entities

(c) Application of above standards is not expected to have any significant impact on the company's financial statements.
