STATEMENT ANNEXED TO THE NOTICE AND SETTING OUT THE MATERIAL FACTS CONCERNING EACH ITEM OF SPECIAL BUSINESS PURSUANT TO SECTION 102 OF COMPANIES ACT, 2013:-

Item No.4

As per the provisions of Section 149, Section 152 and Schedule IV of the Companies Act, 2013 read with rules thereunder, the Company had appointed Mr. Ajay M. Khatlawala (DIN: 00124042) as Independent Director as per the requirement of the Companies Act, 2013 at the 27th Annual General Meeting of the Company held on September 30, 2014 for a term of 4 years upto the conclusion of this 31st Annual General Meeting.

Since, Mr. Ajay M. Khatlawala (DIN: 00124042), Independent Director of the Company has completed one term, he is further eligible for re-appointment for one more term.

The Performance evaluation of the Board Members were conducted by the entire Board (excluding the Director being evaluated) on the basis of criterias such as Transparency, Performance, participation in formulation of business strategy, risk implication and ability to take balanced decisions regarding stakeholders, etc. and after considering the recommendation of respective Board members and Board Committees, the Board were found the performance of Mr. Ajay Khatlawala as satisfactory.

Accordingly, based on the performance evaluation of the Directors and Keeping in view the experience and expertise, his appointment as an Independent Director of the Company is recommended by the Nomination & Remuneration Committee and Board of Directors of the Company at its respective meeting held on May 18, 2018 for a second term as provided in the resolution, and he shall not be liable to retire by rotation at the Annual General Meeting as provided under Section 152(6) of the Companies Act, 2013.

The Company has received declarations from Mr. Ajay M. Khatlawala, Independent Director confirming that he meets with the criteria of Independence as prescribed under sub-section (6) of Section 149 of the Companies Act, 2013 and as per SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. In the opinion of the Board, he fulfills the conditions specified in the said Act for reappointment as Independent Director.

The Company has also received notice pursuant to Section 160 of the Companies Act, 2013 from members proposing the candidature for appointment of aforesaid Independent Director.

The brief profile of Mr. Ajay M. Khatlawala is mentioned under "PROFILE OF DIRECTORS" forming part of this Notice and details of remuneration paid/payable are as provided in the Corporate Governance Report forming part of the Annual Report for 2017-18.

The Board recommends the Resolution as set out in item no. 4 of the Notice for approval of the Members.

None of the Directors or Key Managerial Personnel of the Company and their relatives, other than Mr. Ajay M. Khatlawala, is in any way concerned or interested in the Resolutions, as set out in item no. 4 of the Notice.

Item No.5

The members at the Thirtieth Annual General Meeting held on September 27, 2017, had approved the appointment of Dr. Raghavachari Srinivasan (DIN 00003968), as an Independent Director of the Company for a period of 4 consecutive years commencing from conclusion of 30th AGM till the conclusion of 34th AGM of the Company.

Further, SEBI based on the several recommendation of the Kotak Committee, issued a notification on May 9, 2018 to further amend SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 ("SEBI LODR") with SEBI (Listing Obligations & Disclosure Requirements) (Amendment) Regulations, 2018. Pursuant to the said notification, a new regulation 17(1A) has been inserted which shall be effective from April 1, 2019, and wherein it requires the Companies to obtain the approval of members through special resolution in order to appoint or continue with the directorship of any person as a Non-Executive Director who has attained the age of seventy five years.

Thus, as per the current composition of the Board of Directors of the Company, Dr. Raghavachari Srinivasan, a Non-Executive Independent Director having age of 87 years, and hence the approval of the members by way of special resolution is sought by the Company.

Further, based on the declaration received from time to time, Dr. Raghavachari Srinivasan meets the criteria of independence as provided in Section 149(6) of the Companies Act, 2013 read with applicable rules made there under and Regulation 16(1) (b) of SEBI LODR.

MANAGEMENT DISCUSSION AND ANALYSIS

This report covers the operations and financial performance of the Company for the year ended March 31, 2018. The Company has two segments viz. jewellery manufacturing and investment activity. The contribution of Jewellery manufacturing segment to the total standalone turnover of the Company was 96.44% during the FY 2017-18 and residual portion was contributed by investment activity.

Business Segment:- Gold, silver Jewellery and diamonds

INDUSTRY STRUCTURE AND DEVELOPMENTS:

India's gems and jewellery sector contributes about 15.71 per cent to India's total merchandise exports and employs over 4.64 million employees and is one of the largest in the world contributing 29 per cent to the global jewellery consumption. Gems and jewellery sector market size is about US\$ 60 billion as of 2017 and is expected to reach US\$ 100-110 billion by 2021-2022.

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country and also one of the fastest growing industries in the country, contributing around 6-7 per cent of the country's GDP. It is extremely export oriented and labour intensive.

During the Financial Year 2017-2018 the gems & jewellery sector gross exports contracted by 5.06 per cent to US\$ 40,972.36 million in financial year 2017-18 as compared to gross exports amounting to US\$ 43,157.11 million for the previous financial year, owing to demand slowdown in major markets, including the US. Whereas the total exports of cut and polished diamonds (CPD) were at US\$ 23,732.96 million in FY 2017-18 as against exports worth US\$ 22,783.85 in the previous financial year; marking a growth of 4.17%.

Total imports of gems and jewellery for the period amounted to US\$ 31,516.70 million as compared to imports of Gems and Jewellery products worth US\$ 28,733.60 million in the previous fiscal; registering a rise of 9.69%.

However, the gold jewellery exports registered a growth of 10.91 per cent growth to US\$ 9,673.23 million in FY18, against US\$ 8,721.88 million in FY17, while the exports of silver jewellery decreased by 15.80 per cent to US\$ 3385.65 million in FY18 as compared to exports worth US\$ 4021.03 in FY17.

On the other hand, imports of rough diamonds for the period under discussion amounted to US\$ 18,889.01 million as compared to imports of rough worth US\$ 17,080.23 million in the previous year; a rise of 10.59%.

OPPORTUNITIES:

In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large

retailers/brands. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. Further GJEPC has spent USD 16 million in promotions of the sector in FY18, which will be further increased in this financial year. With all these efforts, we expect the exports to grow by 10 per cent in FY19.

In the Union Budget 2018-19, a proposal to cut down corporate tax of Companies with annual revenues of up to ₹250 crore to 25 per cent is expected to lead to increased investment and employment generation in the gems and Jewellery sector.

The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

The Company looking for a new ventures and use improved technology for increasing its sales to satisfy the requirement of its customers.

THREATS:

The Company is exposed to risk in exchange rate fluctuations as the Company is dependent on exports sales. However, the Company closely monitors and takes appropriate steps to reduce such risks.

Competition which has always been a challenge is countered by better quality and designs, branding, catering to changing customer demands/styles and cost control measures. Increasing prices of raw materials have affected and can affect the profit margins. However, the Company continuously thrives for improved production efficiency to counter this risk as far as possible.

RISKS AND CONCERNS:

The nature of the Company's business exposes it to several inherent risks and concerns. The Company strives to closely monitor the risks and to mitigate them by adopting suitable, pragmatic strategies.

a) Bullion Risk:

The volatility in the gold prices exposes the Company to bullion risk as gold forms approximately between 30% to 50% of the cost of the finished product.

b) Raw Material Supplies Risk:

Though India plays a dominant role in the Gems & Jewellery industry in terms of processing and consumption, mining of gold and diamond is amongst the lowest in the world.

India imports gold and rough diamonds along with other precious metals.

c) Currency Risk:

Currency risk arises from exposure to foreign currencies and the volatility associated therewith.

100% of our exports have been transacted in US Dollars. While the Company hedges majority of its receivables, any sharp fluctuation in currency is likely to affect the cash flow of the Company as well as its profitability.

d) Geography Risk:

Dependence on any geographic location makes the Company's business in that region vulnerable to the economic slowdown therein. While USA continues to be our prime export destination.

OUTLOOK:

There are signs of improving consumer confidence and major policy changes in some of the developed markets which may provide the required momentum to spurt global growth and kick start the parth of recovery. However we expect to grow exports this year as the US market has started looking up. China would have bottomed out and smaller markets like CIS and Asian countries also should do well. The relaxation of restrictions of gold import is likely to provide a fillip to the industry.

We are focusing on refining our offerings every year and on making the requisite investments that will enable us to continue our growth journey.

INTERNAL CONTROL AND ITS ADEQUACY:

The Company has proper and adequate systems of internal controls in order to ensure that all assets are safeguarded against loss from unauthorised use or disposition and that all transactions are authorised, recorded and reported correctly. Regular internal audits and checks are carried out to ensure that the responsibilities are executed effectively and that adequate systems are in place. The Management continuously reviews the internal control systems and procedures to ensure orderly and efficient conduct of business. The emphasis of internal control will be further strengthened across functions and processes, covering the entire gamut of activities including manufacturing, finance, supply chain sales & distribution, marketing etc. The Company has adopted Risk management policy.

FINANCIAL PERFORMANCE:

The Company achieved a consolidated turnover of ₹31978.29 lakhs as compared to ₹31495.62 lakhs in the previous year thereby consolidated turnover increased by 1.53% over previous year. The consolidated Profit before tax and exceptional items were ₹3273.12 lakhs as against ₹3066.01 lakhs of the previous year resulted in growth of consolidated profit approximately by 6.76% over previous year. The consolidated Profit after tax stood at ₹2048.86 lakhs as compared to the profit of ₹2224.50 lakhs in the previous year.

The Company has achieved a standalone turnover of ₹12,201.99 lakhs during the FY 2017-2018 as compared to ₹13842.20 lakhs during the previous year resulted in decline of approximately 11.86% over previous year. The standalone profit after tax of the Company decreased by 17.42% from ₹1087.90 lakhs to ₹898.42 lakhs in the current year.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/ INDUSTRIAL RELATIONS:

The Company considers its human resources as amongst its most valuable assets and continues to place emphasis on their development. It has been Company's constant endeavour to impart requisite training and thereby develop and hone the skills and talent of its personnel and enable them to realize their potential.

The overall Industrial Relations in the Company have been quite peaceful and cordial.

CAUTIONARY STATEMENT:

INDEPENDENT AUDITORS' REPORT

To the Members of GOLDIAM INTERNATIONAL LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of GOLDIAM INTERNATIONAL LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (Including other comprehensive income) and Cash Flow Statement and the statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Ind As Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("The Act") with respect to the preparation of Ind As these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards specified in the companies (Indian Accounting Standard) rules 2015 (as amended) under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act and the Rules made there under including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the Ind AS Financial Statement in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain

reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind As financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its total comprehensive income (comprising of profit and other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

REFERRED TO IN PARAGRAPH 1(F) OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF GOLDIAM INTERNATIONAL LIMITED:

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Goldiam International Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Independent Auditor's Report on Standalone Financial Results of Goldiam International Limited pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

1. We have audited the standalone financial results of Goldiam International Limited ('the Company') for the year ended 31 March 2018, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Attention is drawn to Notes of the standalone financial results regarding the figures for the quarter ended 31 March 2018 as reported in these standalone financial results, which are the balancing figures between audited standalone figures in respect of the full financial year and the published standalone year to date figures up to the end of the third quarter of the financial year. Also, the figures up to the end of the third quarter had only been reviewed and not subjected to audit.

These standalone financial results are based on the standalone financial statements for the year ended 31 March 2018 prepared in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 ('the Act') and published standalone year to date figures up to the end of the third quarter of the financial year prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, Interim Financial Reporting, specified under Section 133 of the Act, and SEBI Circulars CIR/CFD/CMD/15/2015 dated 30 November 2015 and CIR/CFD/FAC/62/2016 dated 5 July, 2016, which are the responsibility of the Company's management. Our responsibility is to express an opinion on these standalone financial results based on our audit of the standalone financial statements for the year ended 31 March 2018 and our review of standalone financial results for the nine months period ended 31 December 2017.

2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free of material misstatement(s). An audit includes examining, on a test basis, evidence supporting the amounts disclosed as financial results. An audit also includes assessing the accounting principles used and significant estimate made by management. We believe that our audit provides a reasonable basis for our opinion.

In our opinion and to the best of our information and according to the explanations given to us, the standalone financial results :

- (i) are presented in accordance with the requirements of Regulation 33 of the SEBI (Listing obligation and Disclosure Obligations and Disclosure Requirements) Regulations, 2015, read with SEBI Circulars and CIR/CFD/CMD/15/2015 dated 30 November 2015 and CIR/CFD/FAC/62/2016 dated 5th July 2016 in this regard; and
 - (ii) give a true and fair view of the standalone net profit (including other comprehensive income) and other financial information in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act for the year ended 31 March 2018.
4. The comparative financial information for the year ended 31 March 2017 prepared in accordance with Ind AS included in these standalone financial results have been audited by the predecessor auditor, on which they had expressed an unmodified opinion vide their report dated 26 May 2017.

Summary of Significant Accounting Policies and Other Explanatory Information for the year ended 31st March 2018

Company Information

Goldiam International Limited (the Company) is a public limited company domiciled in India with its registered office located at Gems & Jewellery Complex, M.I.D.C., SEEPZ, Andheri (East) Mumbai - 400 096. The Company is listed on the Bombay Stock Exchange (BSE) and The National Stock Exchange (NSE). The Company is engaged in manufacturing and export of Diamond studded Gold & Silver Jewellery.

A. Basis of Preparation

I) Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements for the year ended 31st March, 2018 are the first the Company has prepared under Ind AS. For all periods up to and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (here in after referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The financial statements for the year ended 31st March, 2017 and the opening Balance Sheet as at 1st April, 2016 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's Balance Sheet, Statement of Profit and Loss and Statement of Cash Flows are provided in financial statement.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2016 being the 'date of transition to Ind AS'. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Financial statements are presented in ₹ which is the functional currency of the Company and all values are rounded to the nearest Lakhs, except when otherwise indicated, further the transactions and balances with values below the rounding off norm adopted by the Company have been reflected as "0" in the relevant notes in these financial statements.

The financial statements of the Company for the year ended 31st March, 2018 were approved for issue in accordance with the resolution of the Board of Directors on 18th May, 2018.

II) Current versus non current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is :

- Expected to be realised or intended to sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All Other liabilities are classified as non-current

B KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect their reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments

based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- (a) Measurement of defined benefit obligations - Note 25
- (b) Measurement and likelihood of occurrence of provisions and contingencies - Note 39
- (c) Recognition of deferred tax assets - Note 6

a) Standards issued but not yet effective :

- i) Ind AS 21 - The Effects of Changes in Foreign Exchange Rates
- ii) Ind AS 40 - Investment Property
- iii) Ind AS 12 - Income Taxes
- iv) Ind AS 28 - Investments in Associates and Joint Ventures and
- v) Ind AS 112 - Disclosure of Interests in Other Entities

b) Recent Accounting Developments :

IND AS 115: Revenue from Contracts with Customers

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying Ind AS 115, 'Revenue from Contracts with Customers'. The Standard is applicable to the Company with effect from 1st April, 2018.

Revenue from Contracts with Customers Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 Revenue, Ind AS 11 Construction Contracts when it becomes effective. The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. The Company has completed its evaluation of the possible impact of Ind AS 115 and will adopt the standard from 1st April, 2018.

C SIGNIFICANT ACCOUNTING POLICIES

a) Property, Plant and Equipment:

property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful lives) :

Depreciation on property, plant and equipment is provided on written-down value, computed on the basis of useful lives (as set out below) prescribed in Schedule II the Act:

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Description of Asset	Estimated useful life (in years)
Buildings	30
Plant and equipment	15
Office equipment	5
Computers	3
Computers Servers	6
Computer software	5
Furniture and fixtures	10
Vehicles	8

Leasehold improvements have been amortised over the estimated useful life of the assets or the period of lease, whichever is lower. The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all its property, plant and equipment recognised as at 1st April, 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of property, plant and equipment.

b) Leased Assets :

Company as a lessee :

Operating Leases :

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straight line basis, except where scheduled increase in rent compensate the lessor for expected inflationary costs.

c) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

The impairment losses and reversals are recognised in statement of profit and loss.

d) Investments in Subsidiaries, Associates and Joint Ventures:

Investments in subsidiaries, associates and joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

e) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

Subsequent measurement

On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at

- amortised cost.
- fair value through profit and loss (FVTPL).
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Mutual Funds, Equity investment, bonds and other financial instruments :

Mutual Funds, Equity investment, bonds and other financial instruments in the scope of Ind As 109 are measured at fair value through profit and loss account(FVTPL).

Financial liabilities**Initial recognition and measurement**

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost.

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de- recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

f) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive. When estimating the cash flows, the Company is required to consider –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

Trade receivables

The Company applies approach permitted by Ind AS 109, financial instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

g) Inventories

Raw Material: Lower of cost or net realisable value. Cost is determined on first in first out ('FIFO') basis.

Work in progress, manufactured finished goods and traded goods are valued at lower of cost and net realisable value. Cost of work in progress and manufactured finished goods comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Trading goods are valued at Cost or net realisable value, whichever is lower.

Finished goods: Lower of cost or net realisable value. Cost is determined on FIFO basis, includes direct material and labour expenses and appropriate proportion of manufacturing overheads based on the normal capacity for manufactured goods.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs of necessary to make the sale.

Inventories of cut and polished diamonds are valued at cost or net realisable value whichever is lower based on the valuation report obtained from Government approved Valuer.

h) Foreign Currency Translation

Initial recognition

The Company's financial statements are presented in Rupees, which is also the Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

i) Income taxes :

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income ('OCI') or directly in equity.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income-tax Act. Current income-tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

Deferred income-tax is calculated using the liability method. Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Deferred tax assets or liability arising during tax holiday period is not recognised to the extent it reverses out within the tax holiday period. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

j) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, demand deposits with banks/corporations and short-term highly liquid investments (original maturity less than 3 months) that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

k) Post-employment, long term and short term employee benefits

Defined contribution plans

Provident fund benefit is a defined contribution plan under which the Company pays fixed contributions into funds established under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution.

Defined benefit plans

Gratuity is a post-employment benefit defined under The Payment of Gratuity Act, 1972 and is in the nature of a defined benefit plan. The liability recognised in the financial statements in respect of gratuity is the present value of the defined benefit obligation at the reporting date, together with adjustments for unrecognised actuarial gains or losses and past service costs. The defined benefit/obligation is calculated at or near the reporting date by an independent actuary, using the Projected Unit Credit Method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to the statement of OCI in the year in which such gains or losses are determined.

Other long-term employee benefits

Liability in respect of compensated absences is estimated on the basis of an actuarial valuation performed by an independent actuary, using the Projected Unit Credit Method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the year in which such gains or losses are determined

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

l) Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or as incurred.

m) Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

n) Fair value measurement

The Company measures financial instruments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

o) Provisions, contingent assets and contingent liabilities

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized. However, when inflow of economic benefit is probable, related asset is disclosed.

p) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

q) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

Significant management judgements and estimates

The following are significant management judgements and estimates in applying the accounting policies of the Company that have the most significant effect on the financial statements.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence.

r) Revenue recognition

Sales of goods

Revenue from sale of goods is recognised on transfer of risk and rewards of ownership of goods to the buyer and when no significant uncertainty exists regarding the amount of consideration that will be derived. Domestic sales are accounted on dispatch of products to customers and Export sales (Net of Returns) are accounted on the basis of dates of Airway Bills. Domestic Sales are disclosed net of Value Added Tax / Goods and Service tax and returns as applicable.

Interest Income

Interest income is recognised on an accrual basis using the effective interest method.

Dividend

Dividends are recognised at the time the right to receive the payment is established.

s) Operating Segment

The managing committee is considered to be the 'Chief Operating Decision Maker' (CODM) as defined in IND AS 108. The Operating Segment is the level at which discrete financial information is available. The CODM allocates resources and assess performance at this level. The group has identified the below operating segments:

- a) Jewellery Manufacturing Activity.
- b) Investment Activity.

NOTE 35 - FINANCIAL INSTRUMENTS:

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observe ability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The carrying value of borrowings, trade payables and other financial liabilities recorded at amortised cost is considered to be a reasonable approximation of fair value.

ii) Risk Management :

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost	Aging analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

Market risk - gold prices	Payables linked to gold prices	Sensitivity analysis	The gold is purchase at the prevailing price from nominated agencies.
Market risk - security price	Investments in equity. Mutual Fund, securities & bond	Sensitivity analysis	Portfolio diversification

A) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due to the Company causing financial loss. It arises from cash and cash equivalents, deposits with banks and financial institutions, security deposits, loans given and principally from credit exposures to customers relating to outstanding receivables. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at reporting date.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company's policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. The Company has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, mutual funds, bank deposits, loans and derivative financial instruments is considered negligible, since the counterparties are reputable organisations with high quality external credit ratings.

Company provides for expected credit losses on financial assets by assessing individual financial instruments for expectation of any credit losses. Since the assets have very low credit risk, and are for varied natures and purpose, there is no trend that the company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

Detail of trade receivables that are past due is given below:

(Amounts are in lakhs unless stated otherwise)

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

C) Market risk - foreign exchange

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to US Dollar. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company, as per its overall strategy, uses forward contracts to mitigate its risks associated with fluctuations in foreign currency, and such contracts are not designated as hedges under Ind AS 109. The Company does not use forward contracts and swaps for speculative purposes.

Sensitivity

The sensitivity to profit or loss from changes in the exchange rates arises mainly from financial instruments denominated in USD. In case of a reasonably possible change in ₹/USD exchange rates of +/- 2% (previous year +/- 3%) at the reporting date, keeping all other variables constant, there would have been an impact on profits of ₹ 250.23 Lakhs (previous year ₹ 324.20 Lakhs).

Below is the summary of Expenditure In Foreign Currency:

Particular	As at March 31, 2018	As at March 31, 2017
1. Foreign Travels	-	8.76
2. Others	21.76	20.63

Below is the summary of Earnings In Foreign Exchange:

1. F.O.B.Value of Exports	10,459.26	13,726.47

Below is the summary of Remittance in Foreign Exchange Currency on Account of Dividend:

No. of Foreign Company	Nil	One
No. of Shres on which remittances were made	Nil	2,700,000.00
Net Dividend (₹)	Nil	54.00

D) INTEREST RATE RISK**i) Liabilities**

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2018, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

(Amounts are in lakhs unless stated otherwise)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 01, 2016
Variable rate borrowing	834.21	-	662.55
Fixed rate borrowing	221.49	1,395.84	1,536.61
Total Borrowings	1,055.70	1,395.84	2,199.16

Sensitivity

The sensitivity to profit or loss in case of a reasonably possible change in interest rates of +/- 50 basis points keeping all other variables constant, would have resulted in an impact on profits by INR 8.34 lakhs

ii) Assets

The Company's financial assets are carried at amortised cost and are at fixed rate only. They are, therefore, not subject to interest rate risk since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

E) Price risk

Exposure from investments in mutual funds:

The Company's exposure to price risk arises from investments in mutual funds held by the Company and classified in the balance sheet as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Sensitivity

The sensitivity to profit or loss in case of an increase in price of the instrument by 5% keeping all other variables constant would have resulted in an impact on profits by ₹ 586.57 lakhs (previous year ₹ 7565.87 lakhs).

Exposure from trade payables:

The Company's exposure to price risk also arises from trade payables of the Company that are at unfixed prices, and, therefore, payment is sensitive to changes in gold prices.

NOTE 37 - CAPITAL MANAGEMENT

The Company's capital management objectives are:

to ensure the Company's ability to continue as a going concern

to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

The Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in the economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

(Amounts are in lakhs unless stated otherwise)

NOTE 38 - FIRST TIME ADOPTION OF IND AS

These standalone financial statements, for the year ended 31 March 2018, are the first financial statements prepared by the Company in accordance with Ind AS. For periods up to and including the year ended 31 March 2017, the Company prepared its standalone financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('Indian GAAP' or 'Previous GAAP').

Accordingly, the Company has prepared standalone financial statements which comply with Ind AS applicable for periods ending on 31 March 2018, together with the comparative period data as at and for the year ended 31 March 2017, as described in the summary of significant accounting policies. In preparing these standalone financial statements, the Company's opening Ind AS balance sheet was prepared as at 1 April 2016, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Previous GAAP standalone financial statements, including the balance sheet as at 1 April 2016 and the standalone financial statements as at and for the year ended 31 March 2018.

The Company has applied Ind AS 101 in preparing these first standalone financial statements. The effect of transition to Ind AS on equity, total comprehensive income and reported cash flows are presented in this section and are further explained in the notes accompanying the tables.

Exemptions and exceptions availed :

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from Previous GAAP to Ind AS.

A.2 Ind AS mandatory exceptions:

A2.1 Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with Previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2015 are consistent with the estimates as at the same date made in conformity with Previous GAAP.

A2.2 Classification and measurement of financial assets

The classification and measurement of financial assets will be made considering whether the conditions as per Ind AS 109 are met based on facts and circumstances existing at the date of transition.

Financial assets can be measured using effective interest method by assessing its contractual cash flow characteristics only on the basis of facts and circumstances existing at the date of transition and if it is impracticable to assess elements of modified time value of money, i.e., the use of effective interest method, fair value of financial asset at the date of transition shall be the new carrying amount of that asset. The measurement exemption applies for financial liabilities as well.

Applying a requirement is impracticable when the entity cannot apply it after making every reasonable effort to do so. It is impracticable to apply the changes retrospectively if:

- a) The effects of the retrospective application are not determinable;
- b) The retrospective application requires assumptions about what management's intent would have been in that period;
- c) The retrospective application requires significant estimates of amounts and it is impossible to distinguish objectively information about those estimates that existed at that time.

A2.3 De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the derecognition requirements in Ind AS 109 retrospectively from a date of the entity's choice, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

B. Reconciliation between Previous GAAP & IND AS

Ind AS 101 requires a first-time adoption of Indian Accounting Standards, requires an entity to reconcile equity, total comprehensive income and cash flow for prior period. The following table reconciliations from previous GAAP & IND AS

B.1 Effect of Ind AS adoption on the standalone balance sheet as at 31st March 2017 and 01st April 2016

Equity as per Ind AS	19,497.59	18,072.94
As per P & L	19,497.59	18,072.94

B.4 There is no impact of Ind AS adoption on the statements of cash flows for the year ended 31 March 2017.

Under Previous GAAP, proposed dividend is recognised as liability in the period to which they relate irrespective of the approval of shareholders.

Under Ind AS, proposed dividend is recognised as liability in the period in which it is declared (approval of shareholders in general meeting) or paid.

Note – 2 Measurement of financial assets at fair value

Under Previous GAAP, current investments were stated at lower of cost and fair value.

Under Ind AS, these financial assets have been classified as Fair Value Through Profit and Loss ('FVTPL') on the date of transition to Ind AS and fair value changes after the date of transition have been recognised in the statement of profit and loss.

Note – 3 Measurement of financial assets and liabilities at amortised cost

Under Previous GAAP, the financial assets and financial liabilities were typically carried at the contractual amount receivable or payable.

Under Ind AS, certain financial assets and financial liabilities are initially recognised at fair value and subsequently measured at amortised cost which involves the application of effective interest method. The effective interest rate is the rate that discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of the financial asset or financial liability.

For certain financial assets and financial liabilities, the fair value thereof at the date of transition to Ind AS has been considered as the new amortised cost of that financial asset and financial liability at the date of transition to Ind AS. The application of effective interest method results in adjustment to carrying amount of Loans, Other Financial Assets, Borrowing and Other Financial Liabilities.

Note – 4 Fair valuation of derivatives

Under Previous GAAP, foreign exchange derivatives used for hedging purposes were restated at each balance sheet date and the premium was amortised over the term of the forward contract.

Under Ind AS, all derivatives are measured at FVTPL and mark-to-market gains or losses are recorded in the period when incurred.

Note - 5 Remeasurements of post-employment benefit obligations

Under the Previous GAAP, these remeasurements were forming part of the profit or loss for the year.

Under Ind AS, remeasurements i.e. actuarial gains and losses, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of the statement of profit and loss.

Note - 6 Deferred tax

Under Previous GAAP, deferred tax was accounted as per the income statement approach which required creation of deferred tax asset/ liability on timing differences between taxable income and accounting income. Under Ind AS, deferred tax is accounted as per the Balance Sheet approach which requires creation of deferred tax asset/ liability on temporary differences between the carrying amount of an asset/ liability in the Balance Sheet and its corresponding tax base. The adjustments in equity and net profit, as discussed above, resulted in additional temporary differences on which deferred taxes are calculated.

Note - 7 Business promotion and discount expenditure

On certain sale transactions, if a particular threshold is met, the Company gives a free gift. Under Previous GAAP, revenue is recorded at the total amount received and the cost of the free gift is recognised as an expense.

Under Ind AS, the value of the free gift is adjusted from revenue.

Note 8: Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in the statement of profit and loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under Previous GAAP.

Note 9: Micro, Small and Medium Enterprises

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GOLDIAM INTERNATIONAL LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of GOLDIAM INTERNATIONAL LIMITED (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising the Consolidated Balance Sheet as at 31st March, 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included

in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2018, and its consolidated profit, consolidated total comprehensive income, consolidated statement of changes in equity and its consolidated cash flows for the year ended on that date.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF GOLDIAM INTERNATIONAL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2018, We have audited the internal financial controls over financial reporting of Goldiam International Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)]. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about

whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, and its associate companies which are companies incorporated in India have, in all material

respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The consolidated financial statements have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Accordingly, the consolidated financial statements for the year ended 31 March 2018 are the Group's first Ind AS consolidated financial statements. For periods up to and including the year ended 31 March 2018, the Group prepared its consolidated financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013 (the 'Act'), read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). Refer note 43 for the explanation of transition from previous GAAP to Ind AS.

Note 1: Significant Accounting Policies:**(a) Overall consideration**

The consolidated financial statements have been prepared using the significant accounting policies and measurement bases summarised below. These were used throughout all periods presented in the financial statements.

Basis of preparation

The Consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the Consolidated financial statements. All assets and liabilities have been classified as current or non current as per the Group normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Subsidiaries are entities where the group exercise or controls more than one-half of its total share capital. The net assets and results of acquired businesses are included in the consolidated financial statements from their respective dates of acquisition, being the date on which the Group obtains control.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies adopted in the preparation of consolidated

financial statements are consistent with those of previous year. The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra group balances, intra-group transactions and the unrealised profits/losses, unless cost/revenue cannot be recovered.

The excess of cost to the Group of its investment in subsidiaries, on the acquisition where the share of equity in subsidiaries as on the date of investment is in excess of cost of investments of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Other Equity' in the consolidated financial statements.

Non-controlling interests in the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately within equity. Non-controlling interests in the net assets of consolidated subsidiaries consists of:

- (i) The amount of equity attributable to non-controlling interests at the date on which investment in a subsidiary is made; and
- (ii) The non-controlling interests share of movements in equity since the date parent subsidiary relationship came into existence. The profit and other comprehensive income attributable to non-controlling interests of subsidiaries are shown separately in the Statement of Profit and Loss and Statement of Changes in Equity.

Financial statements are presented in ₹ which is the functional currency of the Company and all values are rounded to the nearest Lakhs, except when otherwise indicated.

The Consolidated Financial statements of the Company for the year ended 31st March, 2018 were approved for issue in accordance with the resolution of the Board of Directors on 18th May, 2018.

The consolidated financial statements have been prepared on a going concern basis under the historical cost basis except for the following –

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These accounting policies have been consistently applied to all the years presented by the Company unless otherwise stated.

(c) Recent Accounting Developments :

IND AS 115: Revenue from Contracts with Customers

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying Ind AS 115, 'Revenue from Contracts with Customers'. The Standard is applicable to the Company with effect from 1st April, 2018.

Revenue from Contracts with Customers Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 Revenue, Ind AS 11 Construction Contracts when it becomes effective. The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

The Company has completed its evaluation of the possible impact of Ind AS 115 and will adopt the standard from 1st April, 2018.

d) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is:

- i) Expected to be realised or intended to sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is classified as current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

e) Foreign Currency Transactions And Translation Of Financial Statements Of Foreign Subsidiaries

Initial recognition

The Group's financial statements are presented in INR, which is also the Parent Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Group, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Group's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Translation of foreign operations

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the INR are translated into INR upon consolidation. The functional currency of the entities in the Group has remained unchanged during the reporting period.

On consolidation, assets and liabilities have been translated into INR at the closing rate at the reporting date. Income and expenses have been translated into INR at the average rate over the reporting period. Exchange differences are charged or credited to other comprehensive income and recognised in the currency translation reserve in equity. On disposal of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to profit or loss and are recognised as part of the gain or loss on disposal.

d) Recognition of Income And Expenditure :

Revenues/Incomes and Costs/Expenditures are generally accounted on accrual basis as they are earned or incurred.

Sales :

Domestic sales are accounted on dispatch of products to customers and Export sales (net of returns) are accounted on the basis of dates of Airway Bills. Domestic Sales are disclosed net of Value Added Tax / Goods and Service Tax, discounts and returns as applicable.

Dividend :

Revenue is recognised when the right to receive is established.

Interest :

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

f) Property, Plant & Equipment :**Recognition and initial measurement :**

Recognition and initial measurement Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Depreciation on property, plant and equipment is provided on written-down value, computed on the basis of useful lives (as set out below) prescribed in Schedule II the Act:

Description of Asset	Estimated useful life (in years)
Buildings	30
Plant and equipment	15
Office equipment	5
Computers	3
Computers Servers	6
Computer software	5
Furniture and fixtures	10
Vehicles	8

Leasehold improvements have been amortised over the estimated useful life of the assets or the period of lease, whichever is lower. The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

Transition to Ind As :

On transition to Ind AS, the Group has elected to continue with the carrying value of all its property, plant and equipment recognised as at 1 April 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of property, plant and equipment.

De-recognition :

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

f) Intangible Assets :**Recognition and initial measurement :**

Intangible assets includes trademarks and computer software which were purchased by the Group. All items of intangible assets are stated at their cost of acquisition. The cost comprises purchase price, and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (depreciation and useful lives)

Amortisation on intangible assets is provided on written down value for computer software and straight line method for trademarks, computed on the basis of useful lives (as set out below) prescribed in Schedule II the Act:

De-recognition

An item of intangible asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

Investment in associates and joint ventures

Joint ventures

Interests in joint ventures are accounted for using the equity method of accounting, after initially being recognised at cost.

Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profit or loss and other comprehensive income of the investee in the statement of profit and loss. An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. If the associate or joint venture subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as of the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Unrealised gains on transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments is tested for impairment in accordance with the impairment of non-financial assets policy described above.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value and that fair value is regarded as its fair value on initial recognition in accordance with Ind AS 109. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in the statement of profit and loss. If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in the other comprehensive income are reclassified to profit and loss where appropriate.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

g) Leases

Group as Lessee

Operating Lease

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straight line basis except where scheduled increase in rent compensate the lessor for expected inflationary costs.

The Group does not enter into any leases as a lessor.

h) Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

i) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

Subsequent measurement

- i) **Financial instruments at amortised cost** – the financial instrument is measured at the amortised cost if both the following conditions are met:

The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All the debt instruments of the Group are measured at amortised cost.

- ii) **Financial liabilities**

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost.

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group is required to consider –

- i) All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- ii) Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

The Group applies approach permitted by Ind AS 109, financial instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

j) Inventories :

- i) Raw materials are valued at cost or market value, whichever is lower on First In First Out (FIFO) basis.
- ii) Stores and Spares are valued at cost on First In First Out (FIFO) basis.
- iii) Work in progress, manufactured finished goods and traded goods are valued at the lower of cost and net realisable value. Cost of work in progress and manufactured finished goods comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Trading goods are valued at cost or net realisable value, whichever is lower.

Inventories of cut and polished diamonds of holding company and its subsidiaries in India are valued at cost or net realisable value whichever is lower based on the valuation report obtained from Government approved Valuer.

k) Income taxes

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income ('OCI') or directly in equity.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income-tax Act. Current income-tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

Deferred income-tax is calculated using the liability method. Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant nontaxable income and expenses and specific limits on the use of any unused tax loss or credit. Deferred tax assets or liability arising during tax holiday period is not recognised to the extent it reverses out within the tax holiday period. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

l) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, demand deposits with banks/corporations and short term highly liquid investments (original maturity less than 3 months) that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

m) Post Employment long term and short term benefit :

a) Short-term employee benefits :

All employee benefits payable within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia.

b) Defined Contribution Plan :

Employee benefits in the form of contribution to Provident Fund managed by Government authorities, Employees State Insurance Corporation and Labour Welfare Fund are considered as defined contribution plan and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are due.

c) Defined Benefit Plan :

Retirement benefit in the form of Gratuity benefit is considered as defined benefit obligation and is provided for on the basis of an actuarial valuation.

d) Gratuity :

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee's salary and the tenure of employment. Vesting occurs upon completion of given years of service. The company makes contribution to employees group gratuity fund established by Life Insurance Corporation of India. Actuarial gains and losses arising from changes in actuarial assumptions are recognised in the Profit and Loss account in the period in which they arise.

n) Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or as incurred.

o) Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

p) Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the principal market for the asset or liability, or
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

q) Provisions, contingent assets and contingent liabilities

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- i) Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized. However, when inflow of economic benefit is probable, related asset is disclosed.

r) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

s) Operating Segment :

The managing committee is considered to be the 'Chief Operating Decision Maker' (CODM) as defined in IND AS 108. The Operating Segment is the level at which discrete financial information is available. The CODM allocates resources and assess performance at this level. The group has identified the below operating segments:

- a) Jewellery Manufacturing Activity.
- b) Investment Activity.

t) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

Significant management judgements and estimates

The following are significant management judgements and estimates in applying the accounting policies of the Group that have the most significant effect on the financial statements.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Group enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence.

NOTE 29 - FIRST TIME ADOPTION OF IND AS

These consolidated financial statements, for the year ended 31 March 2018, are the first financial statements prepared by the Group in accordance with Ind AS. For periods up to and including the year ended 31 March 2017, the Group prepared its consolidated financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('Indian GAAP' or 'Previous GAAP').

Accordingly, the Group has prepared consolidated financial statements which comply with Ind AS applicable for periods ending on 31 March 2018, together with the comparative period data as at and for the year ended 31 March 2017, as described in the summary of significant accounting policies. In preparing these consolidated financial statements, the Group's opening Ind AS balance sheet was prepared as at 1 April 2016, the Group's date of transition to Ind AS. This note explains the principal adjustments made by the Group in restating its Previous GAAP consolidated financial statements, including the balance sheet as at 1 April 2016 and the consolidated financial statements as at and for the year ended 31 March 2018.

The Group has applied Ind AS 101 in preparing these first consolidated financial statements. The effect of transition to Ind AS on equity, total comprehensive income and reported cash flows are presented in this section and are further explained in the notes accompanying the tables.

A Exemptions and exceptions availed :

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from Previous GAAP to Ind AS.

1.1 Ind AS optional exemptions:

1.2 Deemed cost for property, plant and equipment :

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition. Accordingly, the Group has elected to measure all of its property, plant and equipment at their Previous GAAP carrying value.

A.2 Ind AS mandatory exceptions:

A2.1 Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with Previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2015 are consistent with the estimates as at the same date made in conformity with Previous GAAP.

A2.2 Classification and measurement of financial assets

The classification and measurement of financial assets will be made considering whether the conditions as per Ind AS 109 are met based on facts and circumstances existing at the date of transition.

Financial assets can be measured using effective interest method by assessing its contractual cash flow characteristics only on the basis of facts and circumstances existing at the date of transition and if it is impracticable to assess elements of modified time value of money, i.e., the use of effective interest method, fair value of financial asset at the date of

transition shall be the new carrying amount of that asset. The measurement exemption applies for financial liabilities as well.

Applying a requirement is impracticable when the entity cannot apply it after making every reasonable effort to do so. It is impracticable to apply the changes retrospectively if:

- The effects of the retrospective application are not determinable;
- The retrospective application requires assumptions about what management's intent would have been in that period;
- The retrospective application requires significant estimates of amounts and it is impossible to distinguish objectively information about those estimates that existed at that time.

A2.3 De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the derecognition requirements in Ind AS 109 retrospectively from a date of the entity's choice, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

B Reconciliation between Previous GAAP & IND AS

Ind AS 101 requires a first-time adoption of Indian Accounting Standards, requires an entity to reconcile equity, total comprehensive income and cash flow for prior period. The following table reconciliations from previous GAAP & IND AS.

B.1 Effect of Ind AS adoption on the consolidated balance sheet as at 31st March 2017 and 01st April 2016

NOTE 31 - FINANCIAL INSTRUMENTS

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observe ability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The carrying value of borrowings, trade payables and other financial liabilities recorded at amortised cost is considered to be a reasonable approximation of fair value.

II) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost	Aging analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting sensitivity analysis	Forward contracts
Market risk - interest rate	Borrowings at variable rates	Sensitivity analysis	Mix of borrowings taken at fixed and floating rates
Market risk - gold prices	Payables linked to gold prices	Sensitivity analysis	Gold is Purchased at the prevailing price from Nominator Agency
Market risk - security price	Investments in equity securities	Sensitivity analysis	Portfolio diversification

The Company's risk management is carried out by a central treasury department of the Company under policies approved by the Board of Directors. The Board of Directors provide written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, market risk, credit risk and investment of excess liquidity.

A) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due to the Company causing financial loss. It arises from cash and cash equivalents, deposits with banks and financial institutions, security deposits, loans given and principally from credit exposures to customers relating to outstanding receivables. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at reporting date.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company's policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various geographical areas. The Company has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, mutual funds, bank deposits, loans and derivative financial instruments is considered negligible, since the counterparties are reputable organisations with high quality external credit ratings.

Company provides for expected credit losses on financial assets by assessing individual financial instruments for expectation of any credit losses. Since the assets have very low credit risk, and are for varied natures and purpose, there is no trend that the company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

Detail of trade receivables that are past due is given below:

Total	10,982.34	9,521.87	11,595.35

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at 31-Mar-18	As at 31-Mar-17	As at 1-Apr-16
Expiring within one year (bank overdraft and other facilities)	3,673.74	3,090.14	4,764.81

Total	59.04	11,021.65	969.00	9.81	201.79	12,261.29

C) Market risk - foreign exchange

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to US Dollar. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company, as per its overall strategy, uses forward contracts to mitigate its risks associated with fluctuations in foreign currency, and such contracts are not designated as hedges under Ind AS 109. The Company does not use forward contracts and swaps for speculative purposes.

Sensitivity

The sensitivity to profit or loss from changes in the exchange rates arises mainly from financial instruments denominated in USD. In case of a reasonably possible change in INR/USD exchange rates of +/- 2% (previous year +/-3%) at the reporting date, keeping all other variables constant, there would have been an impact on profits of (+) 247.71 lakhs (previous year 481.11 lakhs).

D) Interest rate risk

i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2018, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

(Amounts are in lakhs unless stated otherwise)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 01, 2016
Variable rate borrowing	834.21	-	662.55
Fixed rate borrowing	2,839.53	3,090.14	4,102.26
Total Borrowings	3,673.74	3,090.14	4,764.81

Sensitivity

The sensitivity to profit or loss in case of a reasonably possible change in interest rates of +/- 50 basis points, keeping all other variables constant, would have resulted in an impact on profits by 8.34 lakhs.

ii) Assets

The Company's financial assets are carried at amortised cost and are at fixed rate only. They are, therefore, not subject to interest rate risk since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

E) Price risk

Exposure from investments in mutual funds:

The Company's exposure to price risk arises from investments in mutual funds held by the Company and classified in the balance sheet as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Sensitivity

The sensitivity to profit or loss in case of an increase in price of the instrument by 5% keeping all other variables constant would have resulted in an impact on profits by 728.24 lakhs (previous year 817.24 lakhs).

Exposure from trade payables:

The Company's exposure to price risk also arises from trade payables of the Company that are at unfixed prices, and, therefore, payment is sensitive to changes in gold prices.

The Company applies fair value hedge for the gold purchased whose price is to be fixed in future. Therefore, there will no impact of the fluctuation in the price of the gold on the Company's profit for the period.

Capital Management

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

The Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in the economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.
