COMMENTING ON FINANCIAL 9 MO FY 11 PERFORMANCE

Dewang Neralla,

Whole Time Director, Financial Technologies said:

“This was a steady quarter for financial technologies. Total income from operations increased by 6% to Rs. 2,643 million and net profit excluding capital gain on sale of shares increased by 6% to Rs. 1,526 million on a year on year basis. We are confident that the company is well positioned for the long term growth.

Our operating exchanges continued to maintain the leadership position in the respective asset classes. MCX witnessed an encouraging 50% growth in year on year volumes. NSEL has also experienced good growth in volume with its newly introduced e-series products. Our international exchanges, SMX in Singapore and GBOT in Mauritius are shaping up well post the last quarter launch. On the ecosystem front also, the companies have been witnessing encouraging growth.”

AVERAGE DAILY TURNOVER (Rs. Million)

FT GROUP - INTERNATIONAL EXCHANGE BUSINESS

(www.dgcx.ae)

- DGCX 2010 Annual Volumes Increase 28% to Record 1.925 Million Contracts
 - Annual volumes for 2010 on DGCX registered a 28% growth on 2009, reflecting a surge in the popularity of DGCX's cleared and regulated derivatives both as an asset class and a hedging tool. Year to date volume stands at 1.36 million contracts, a 37% increase on last year
 - The value of the Exchange's annual volume reached \$104.18 billion, a 32% increase on last year.

(www.smx.com.sg)

- Singapore Mercantile Exchange (SMX) is a pan-Asian global commodity derivatives exchange based out of Singapore and is poised to offer futures and options contracts on precious metals, base metals, agriculture commodities, energy, currencies and commodity indices
- SMX will act as a proxy to the Asian economies and facilitate transparent price discovery and benchmarking in Asian time zone by offering a single platform for execution of trades, clearing and settlement
- SMX is a member of Futures Industry Association (FIA), Associations of Futures Markets (AFM), and Futures and Options Association (FOA). SMX also provides settlement guarantee as a central counterparty for all trades executed on it through its wholly owned clearing corporation, Singapore Mercantile Exchange Clearing Corporation Pte Ltd. (SMXCC)
- Monetary Authority of Singapore (MAS) has granted SMX the final approval to operate as an international commodity and currency derivatives exchange.
- SMX commenced operations on its cutting-edge electronic trading platform with the ringing of the opening bell by Mr. Ong Chong Tee, Deputy Managing Director of the Monetary Authority of Singapore (MAS) ON 31st August 2010.
- The four SMX futures contracts launched from the first day of trading on its platform include two leading crude oil benchmarks – Euro-denominated Brent Crude and West Texas Intermediate (WTI), a currency pair – Euro-US Dollar Currency Futures Contract and the first Gold futures contract in Singapore to be settled via physical delivery.
- Further products will be rolled-out in market segments such as Energy, Agriculture, Metals (precious and base), Indices, and Currencies.

FT GROUP - INTERNATIONAL EXCHANGE BUSINESS

(www.gbot.mu)

- Global Board Of Trade (GBOT) was incorporated in the Republic of Mauritius to establish a multi-asset class electronically operated market, licensed by the Financial Services Commission (FSC), the regulator for non bank financial services sector in Mauritius
- GBOT provides a comprehensive framework, encompassing electronic exchange trading and clearing solutions, risk management and online risk-based supervision, membership development, contract specification and structuring. GBOT also provides banking system interfaces leading to real-time settlement, business rules and by-laws, effective corporate governance frameworks, investor awareness and knowledge development
- The Global Board of Trade (GBOT), was officially launched on 15th October 2010 by the Guest of Honour, Dr The Honourable Navinchandra Ramgoolam, GCSK, FRCP, Prime Minister of the Republic of Mauritius at the InterContinental Resort, Mauritius
- GBOT offers trading in Gold and Silver futures as well as USD/MUR, ZAR/USD, EUR/USD, GBP/USD and JPY/USD futures. For the first time worldwide, two African currency futures are being traded on this platform.

(www.bfx.bh)

- The Bahrain Financial Exchange BSC Closed (BFX) is a pioneering cross-border and multi-product exchange in the Middle East and North Africa and will be internationally accessible to trade cash instruments, derivatives, structured products and Shari'ah-compliant financial instruments
- Regulated by the Central Bank of Bahrain (CBB) and underpinned by the BFX Clearing and Depository Corporation (BCDC), the BFX is well positioned to become the leading exchange venue in the Middle East to trade, clear and settle the contracts it trades
- Complementing its offerings, the BFX has established the Bahrain Financial Exchange Training Institute (BFX-TI) a training institute of global standards providing internationally accredited programmes in conventional and Islamic financial training, along with education courses for both individuals and corporate clients

(www.bourseafrica.com)

- Bourse Africa is a licensed spot and derivatives demutualised exchange which will offer multi-asset class trading to serve markets worldwide from Africa. It will provide efficient price discovery, and facilitate trade, financing, risk management and investment transactions between participants from across African markets, and between African and international participants
- Bourse Africa will operate on a hub and spoke model, a network of linked exchanges with Botswana as the technology and regulatory hub. The hub exchange in Botswana is licensed as a Self-Regulatory Organisation by the country's Non-Bank Financial Institutions Regulatory Authority and accredited under the Botswana International Financial Services Centre

www.ftindia.com

Notes:

- The above unaudited financial results, have been reviewed by the Statutory Auditors, recommended by the Audit Committee and approved by the Board of Directors of the Company at its meeting held on January 27, 2011.
- The Board of Directors in their meeting held on January 27, 2011 have declared third interim dividend of Rs. 2/- per equity share of face value Rs. 2/- each (i.e. @ 100%) on equity share capital of the Company.
- The Company, as a part of its core business strategy, promotes and invests in new ventures that utilise its technological capabilities and domain expertise towards creating world class enterprises. The investment in each such venture is assessed for its risks and is limited to a pre-determined level and will generate returns after the ventures start ramping-up operations in about 2 to 4 years time frame. The Company, as part of its non-linear business model, will continue to unlock value by broadening the investor base of its ventures.
- The Company's investments aggregating Rs. 95,853.04 lacs and debts and other recoverable aggregating Rs. 10,491.78 lacs, as at December 31, 2010, in certain subsidiaries and a joint venture company, which presently have accumulated losses, but are expected to be recovered, and have their values unlocked in the near future, since these companies are already at various stages of executing their business plans and operations, with expected profitability. Accordingly, a provision for other than temporary diminution of Rs. 5,690.26 lacs made during an earlier year is considered to be adequate.
- During the year ended March 31, 2010, the Company had sold 71.875 million equity shares of Re. 1/- each at Rs. 35/- per share in an unlisted company to an investor under a Share Purchase Agreement which, inter alia, included a covenant for a price reset, in the event of certain conditions not being met within the prescribed timeframe, which has not arisen. Accordingly, no liability is due for recognition in terms of Accounting Standard 29.
- Other income consists of:

Profit before tax	8,707.94	6,864.72	22,800.16	40,264.75	44,717.29

FINANCIALS FOR QUARTER ENDED DEC 31, 2010

Notes:

- i) Segments have been identified in accordance with the Accounting Standard (AS 17) "Segment Reporting" considering the organisation structure and the return / risk profiles of the business.
- ii) STP Technologies / Solutions segment represents straight through processing solutions and includes an integrated mix of various products, projects and activities incidental thereto. Others segment represents trading activities, process management services and shared business support and IT Infrastructure sharing services.
- iii) Due to diversified nature of business, significant assets are interchangeably used between segments and the management believes that it is currently not practicable to provide segment disclosure relating to total assets and liabilities since a meaningful segregation is not possible.
- 8. No. of investor complaints (i) at the beginning of the quarter: Nil (ii) received during the quarter: 7 (iii) disposed off: 7, and (iv) unresolved at the end of the quarter: Nil
- 9. Previous year / period figures have been regrouped / reclassified, wherever necessary, to conform to current period's presentation.
- 10. Management states that as at December 31, 2010 the Company has cash and bank balances of Rs. 11,490.43 lacs and investment in mutual funds of Rs. 95,909.08 lacs (aggregating Rs. 107,399.51 lacs).
