Building a differentiated bank

Last fiscal, we undertook one big leap; which was to transform ourselves into a bank and to accomplish that we took several important initiatives.

For us, becoming a bank was a natural progression and a well-earned extension of the relentless work of serving the financial needs of millions of unserved and underserved people for the last 22 years. At the same time, we fully realise the greater fiduciary responsibility that comes with the banking platform and as a

custodian of public money. In a short timeframe, we have already built a strong and robust risk, compliance and governance framework which is commensurate with scale and pedigree of this iconic platform of a bank.

In our transitioning, we were greatly aided by our background, long standing track record, differentiated business model, distribution franchise and strong execution focus. These

core USPs are helping us to establish ourselves faster on the banking platform.

Sticking to our DNA and management philosophy, we challenged the status-quo in banking and tried to bring in a fresh perspective with features such as monthly interest pay-outs on deposits, paperless and digital customer acquisition, no 'home branch' concept, extended banking hours, no slips for cash deposits or withdrawal or Real Time Gross Settlement (RTGS), among others.

FIRST-YEAR REPORT CARD

- Commenced banking operations on 19th April 2017 with 200+ bank branches. Gradually expanded to nearly 500 customer touch points covering 377 branches including 71 Bank Correspondents, 97 asset centres, 23 offices and 292 ATMs
- Initial Public Offer (IPO) of ₹1,913 crore (entirely Offer for Sale) – oversubscribed by 54x. Listed on NSE and BSE
- Got the Scheduled Bank status on 1st November 2017. Became a Fortune India 500 Company
- Long-term rating upgrade from India Ratings & Research and CARE Ratings to 'AA- / Stable'
- Leveraged distribution franchise for cross selling
 - Tied up with 17 asset management companies (AMCs) for distributing Mutual Funds
 - Corporate agency tie-up with Aditya Birla Health Insurance, Cholamandalam MS General Insurance

- Tied up with Future Generali Life Insurance (in April 2018)

- Started new product lines such as Agri-SME Loan, Gold Loan, Home Loan and Consumer Durable Loan. Installed 450+ point of sale (POS) machines

ALONG WITH THIS MAJOR TRANSITION, WE DELIVERED ANOTHER STRONG SET OF RESULTS

- Clocked 61% growth in disbursements, gross AUM grew ~49% to ₹16,038 crore and NNPA's stood at 1.3%
- Branch banking division got an encouraging and overwhelming response – Current Account (CA), Savings Account (SA) and Term Deposits clocked at ₹7,923 crore (including certificate of deposit of ₹1,181 crore)
- Despite impact of higher cost of transitioning reported PAT of ₹292 crore
- A dividend of 5% proposed by our Board

While we may seem to have addressed a lot of things in the first year, we feel that building a pan-India, trusted, preferred and a truly customer centric retail franchise will be a long-term journey. We look forward to tread this exciting journey with the continued support and guidance of all our stakeholders.

Forward Looking Statement

In this Annual Report, we have disclosed forward looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements – written and oral – that we periodically make contain forward looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

Thank you for believing in us!

We had a successful track record of over two decades as an NBFC. In our new avatar as a next-generation bank, we remain committed to playing our part in the development of the nation.

A solid foundation and a differentiated business model, deep network of ~500 touch points, comprehensive product suites, strong customer service orientation and an execution-oriented team assures and motivates us to evolve, develop and scale new heights at this new banking platform. These attributes and our approach have helped us settle in fast and lay a strong foundation for future. We have made a small beginning, and have a long way to go.

We would like to thank our investors, shareholders, team members, customers and partners for their continued support throughout our journey.

We would especially like to thank Reserve Bank of India (RBI) for entrusting us with the responsibility of providing banking services to the unserved and underserved pockets of India to drive financial inclusion.

We would also like to thank SEBI, NHB, NABARD, IRDAI and SIDBI for their continued guidance and support.

Our journey

22 years of trust and service

We have evolved from a retail-focused Non-Banking Finance Company (NBFC) into a Small Finance Bank (SFB). Our operating model is lean, our credit processes are robust and our business model is technology driven and cost-efficient. Our recently expanded comprehensive product suite strongly aids us to holistically serve our customers for their banking, financing, investment and insurance needs.

Revisiting our past

FY95-96 to FY01-02

- Started by a first-generation entrepreneur as a Non-Deposit taking NBFC in one-room office with no capital
- Built the business with HNI support for six years

FY02-03 to FY06-07

- Became Channel Business Partner for HDFC Bank in Rajasthan and subsequently in Maharashtra

FY07-08 to FY14-15

- Attracted investment from Marquee Investors including Motilal Oswal, IFC, Warburg Pincus, Chrys Capital and Kedaara Capital
- Built successful subsidiary/associate companies – Au Housing and Au Insurance
- Expanded from one to six products and from one state to 10

FY15-16 and FY16-17

- Bagged SFB license (the only asset financing NBFCs amongst 10 licensees) and started the bank transition process
- Reported AUM of ₹10,734 crore with more than 5 lakh customers served till 31st March 2017
- Converted into a domestic owned company
- Divested Au Housing and Au Insurance

FY17-18

- Commenced SFB operations with a wide bouquet of retail loans, SME & Mid corporate loans, deposit products, payments and transaction banking
- Completed ₹1,913 crore IPO which was oversubscribed by 54x and got listed on NSE and BSE
- Registered as Corporate Agent with IRDAI for Bancassurance
- Received 'Schedule Bank' status
- Featured as Fortune India 500 Company
- Long Term Credit rating upgrade from IND A- / Positive to IND AA - / Stable

Focused on our present

'Bank' is a preferred and deeply trusted customer platform. It must be built as a safe, stable, inspiring and responsible business franchise. We are determined to build a profitable bank with a superior asset quality. We are poised to progress sustainably through:

- Our core strengths of strong assets underwriting and keep doing the same to take the bank to the next level
- The uniqueness of SFB's niche to capitalise on the big opportunity in growing India
- A differentiated value proposition to attract deposits and building stickiness and deepening customer engagement
- Accelerating branches break-even to make them viable sooner
- Focussing on customer's profitability by enhancing our value proposition
- An opportunity to holistically serve the wider customer segment on the banking platform
- 'Phy-gital' distribution strategy

Aiming big for the future

- Build a retail bank by leveraging digital, technology and analytics
- Build a customer-centric franchise
- Continue with 'go to market' strategy on assets side with higher growth momentum
- Funded by granular deposit base
- Become the most eligible SFB to be promoted as a Universal Bank
- Consistent performance aimed at maximising stakeholders value

Our philosophy

Fulfilling dreams and transforming lives

In a constantly evolving operating environment, there are several facets that help AU Bank to stand out in the crowd as an emerging institution focused on financial inclusion and empowerment.

We are offering bespoke products and services to millions of customers, helping them fulfill their aspirations and transform their lives.

The Bank's ability to predict industry trends well in advance, 'ears on the ground' approach to lending, customer-centric model and thrust towards paperless banking make us one of India's fastest growing banks.

Strategic priorities

Carefully crafted roadmap for the future

At AU Bank, we are emerging stronger by focussing on our strategic priorities.

Deepening our customer engagement and communication

Deepening our engagement with customers by increasing our communication and thereby building a strong brand recall is a key priority for us. We have a strong pedigree in our core retail segment for smaller ticket loans for vehicle and business financing, and now after becoming a bank, we are building a similar recall for our deposit offerings too. Our newly built bank branches have given us a superior and distinct identity and cemented the pull of our retail franchise across all the 11 states of our operations. Expanding our outreach to a wide range of customers across all sections of society assumes paramount importance for us. We are gradually building our brand through continued engagement with existing and potential customers by various social impact initiatives, customer literacy programmes, partnering and sponsoring important local events, etc. We are also improving our prominence through advertisements on print and electronic media channels.

Delivering banking through nearly 500 customer touch points, across the country with products and services tailor-made to suit micro, rural and upcoming urban markets.

Becoming a preferred retail banking franchise

Earlier, as an NBFC, we had a limitation on the number of products. However, this no longer holds true at the bank platform and we have already rolled out more than 21 new products at your bank. While in assets we continue to focus on secured asset financing, our new personal finance offerings also include Gold Loan, Housing Loan, Consumer Durable Loans and Two-Wheeler Loans. At the same time, a customer can bank with us for his deposit, locker, investment and insurance requirements and get an extended and convenient branch banking experience. Similarly, we have expanded our business banking offerings with both fund based and non-fund based products. Going forward, we aim to continue to focus on secured lending with special emphasis on retail assets and cross-selling, and become a port of first call for a convenient, simplified retail banking experience.

About 97.1% of the Advances as on 31st March 2018 were secured, highlighting the strength of our retail franchise.

Building a differentiated, granular and sticky deposit franchise

While we have a running engine of strong asset acquisition, we are also concentrating our resources and energy to create a quality deposit franchise. Our focus has always been to strengthen our footprint in semi-urban and rural geographies. In the liability segment, our emphasis is also on urban/metro locations. At the same time, we are also cross-selling Current Accounts and Savings Accounts to our existing asset customers.

We have a complete bouquet of deposit products for a wide cross-section of customers – CASA ratio of 32% in FY 2017-18.

Being 'phy-gitally' ready

We believe that our socio-economic environment requires us to create and deploy both physical and digital banking channels for our customers. We continue to upgrade our technology systems with automated, digitised and other technology-enabled platforms and tools, to strengthen our banking and financing initiatives and derive greater operational, cost and management efficiencies. We are striving to offer technology-enabled complete suite of assets, liabilities and investment products with industry-first features. We have a real-time centralised IT system with end-to-end solutions, including loan sourcing, disbursements and collections, among others. We have Aadhaar-based tablets to open accounts digitally in just a few minutes. We started consumer durable loans through fully digital channel.

We began eKYC from 1st July 2017 and incremental we are opening ~95% of Savings Accounts directly through TAB.

Reinforce low-cost, localised, innovation-driven business model

Historically, our strategy has always been to keep costs low by operating with lean branches and hiring local talent. The reliance on largely local personnel has helped us to establish personal rapport with customers, which is critical in semi-urban and rural markets.

This approach also helps us to improve collection efficiency and reduce delinquencies in a segment where income and cash flows are volatile. We tailor our solutions with focus on diverse aspirations of different customer segments.

We have carried this forward with our transition into a bank. The bulk of our branch banking team has been hired and deployed locally.

Localised manpower and no home branch concept allows us to provide customised solutions for rural markets.

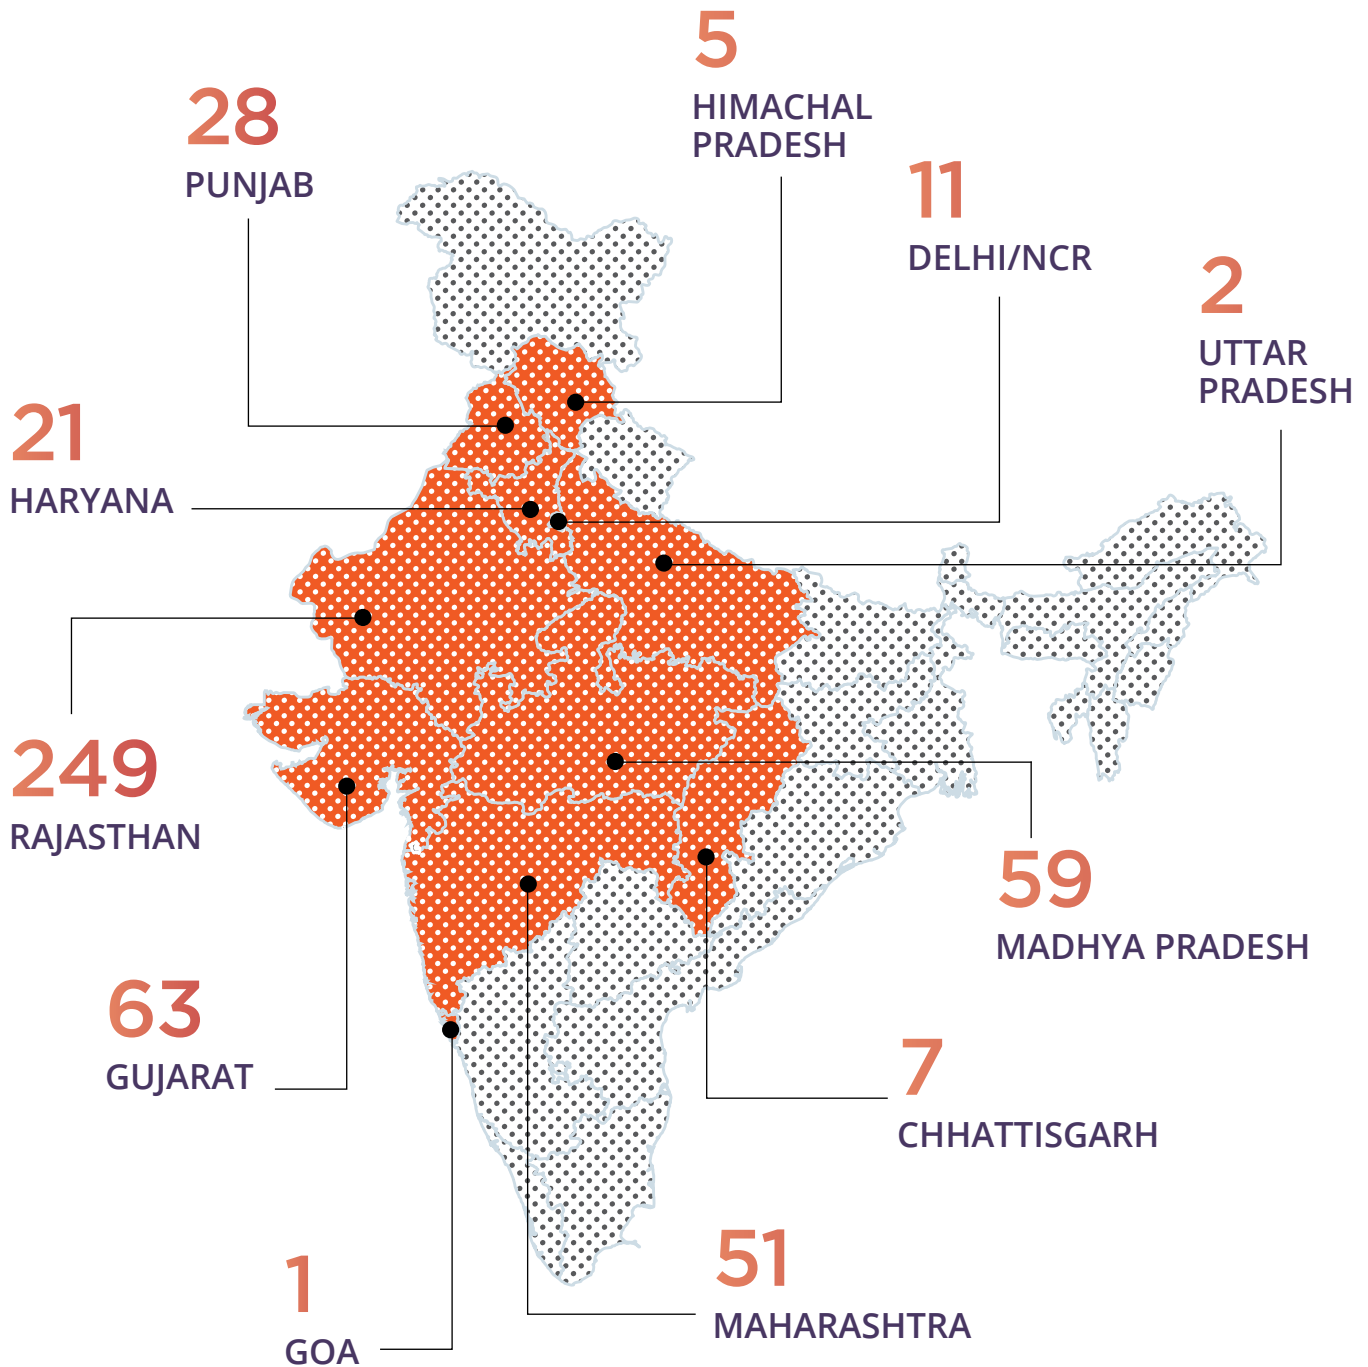

Expand our talent pool

We have been hiring aggressively to support our expansion as a bank. A number of these hires have been front-line sales staff, branch staff as well as experienced middle management/senior level hires from the financial services industry.

During FY2017-18, our headcount expanded from 8,515 to 11,151 people.

Our reach

Deeper distribution outreach across ~500 touch points in India

Note: Bank footprint including branches, asset centers, offices and banking outlets through Business Correspondents

Branches and Business Correspondents

RAPID URBANISATION

India is marching ahead as one of the world's fastest growing economies. Urban clusters are driving this growth while more consumers and higher purchasing power are emerging beyond the metros, particularly in Tier II/III cities.

The country's cities (including small towns) are home to 377 million people, a number that could reach 900 million by 2050 (Source: McKinsey). This means there will be a greater demand for infrastructure, products and services and more opportunities for businesses that will cater to emerging requirements. In a country like India, banking penetration remains low, entailing a significant headroom for growth. To serve these demands, greater credit would be required and thus there will be a push for a more formal system of financing.

RIISING MIDDLE CLASS POPULATION

India is progressing at a rapid pace. In its seventh decade of Independence, over US\$1 trillion has been added to the national GDP, propelling tens of millions into the middle class. This growth has primarily come from cities and the population of urban areas has expanded from 340 million in 2006 to 430 million in 2016. Indeed, the additional 90 million alone would rank as the 16th largest country in the world today. Given that urban areas are projected to grow their share of national GDP from 65% in 2015 to over 70% by 2020, the dynamism of these clusters will continue to hold the key to growth (Source E&Y Report 2017).

With rising incomes and growing aspirations of the rural and middle class population, the demand for vehicles, consumer durables and its financing will increase at a faster pace.

FOCUS ON DIGITAL INITIATIVES

With the Government's continued thrust on cashless transactions and the growing mobile internet penetration across India, digitisation has become the new normal. Three key trends can be identified:

- Thrust on digital marketing to engage with customers; developing online channels as a medium of sales and payments;
- Use of digital analytics to strengthen business operations, demand predictability, cost optimisation, among others;
- Ease of consumer access to apps and other digital payment routes, among others

REVITALISING MSME SECTOR

The Union Budget 2018 extended significant support to micro, small and medium enterprises (MSMEs). The Government proposed to cut the corporate tax rate to 25% for companies with annual revenue of up to ₹250 crore. The budget also earmarked ₹3 trillion for 2018-19 under the Pradhan Mantri

Mudra Yojana or Mudra scheme. In addition, ₹3,794 crore was allocated for credit support, capital and interest subsidy to MSMEs.

HOUSING FOR ALL

Housing for All by 2022 is the Indian government's flagship scheme to provide affordable housing to people. There has been a slew of government measures to provide a fillip to the affordable housing scheme. This includes the interest subvention scheme (CLSS), infra status for affordable housing and tax breaks for developers of affordable housing.

INSOLVENCY AND BANKRUPTCY CODE

The Insolvency and Bankruptcy Code will lay down a faster insolvency resolution process (IRP). This will benefit businesses through faster revival of viable organisations and would also aid the banking sector by quicker resolution of NPAs.

Product portfolio

Comprehensive product suite for all customers

Post after becoming a bank in FY 2017-18, we significantly broadened our product portfolio from just six assets products to more than 27 product offerings. These are designed keeping in mind the interest of the wide spectrum of customers at the bank platform including individuals and household customers, smaller businesses, salaried/self-employed professionals, transport operators, educational institutes, government departments, municipal corporations, hospitals and asset and micro-finance companies, among others.

We strongly believe that, at the banking platform, serving the customer holistically and profitably is most important. As we aim to build our retail banking franchise, we look to leverage the speed, cost and convenience attributes of digital channels to ensure best-in-class customer service.

We started our retail liabilities franchise with a complete bouquet of products, comprising Current Accounts, Savings Accounts, Term Deposits, Recurring Deposits, and Transaction Banking services.

At the Bank, we expanded our retail offerings to include gold loan, two-wheeler loans, consumer durable loans and agri-SME loans. Notably, consumer durables loan is AU Bank's first digital asset offerings. We have re-entered the home loan segment and our learning curve of home loans under housing finance subsidiary which we divested in FY 2016-17, will enable us to gain size in home loans segment faster. We feel that with a combination of vehicle loans, gold loans, housing loans, consumer durable loans and two-wheeler loans, we would be able to meet most of the

financing requirements of individuals and households. Similarly, for smaller businesses, we have expanded our sales, distribution and credit underwriting strengths.

Like our retail, SME & Mid Corporate Financing division and our Branch Banking franchise also caters to the Indian masses. In line with the objective of the Reserve Bank of India, we are committed to increase the reach of formal banking services across the country and serve the, 'belly of the nation'.

AU Bank's Branch Banking team serves a wide spectrum of customers including domestic individuals and households along with small and medium business segments with liabilities products ranging from Savings Accounts, Current Accounts, Term Deposits, Lockers, OD limits and Working capital limits, and value-added services such as Mobile Banking and Net Banking. The Bank has ensured that all segments of customers such as women, senior citizens and children are catered to with specifically tailored products and services. Through our empaneled partners, AU Bank also

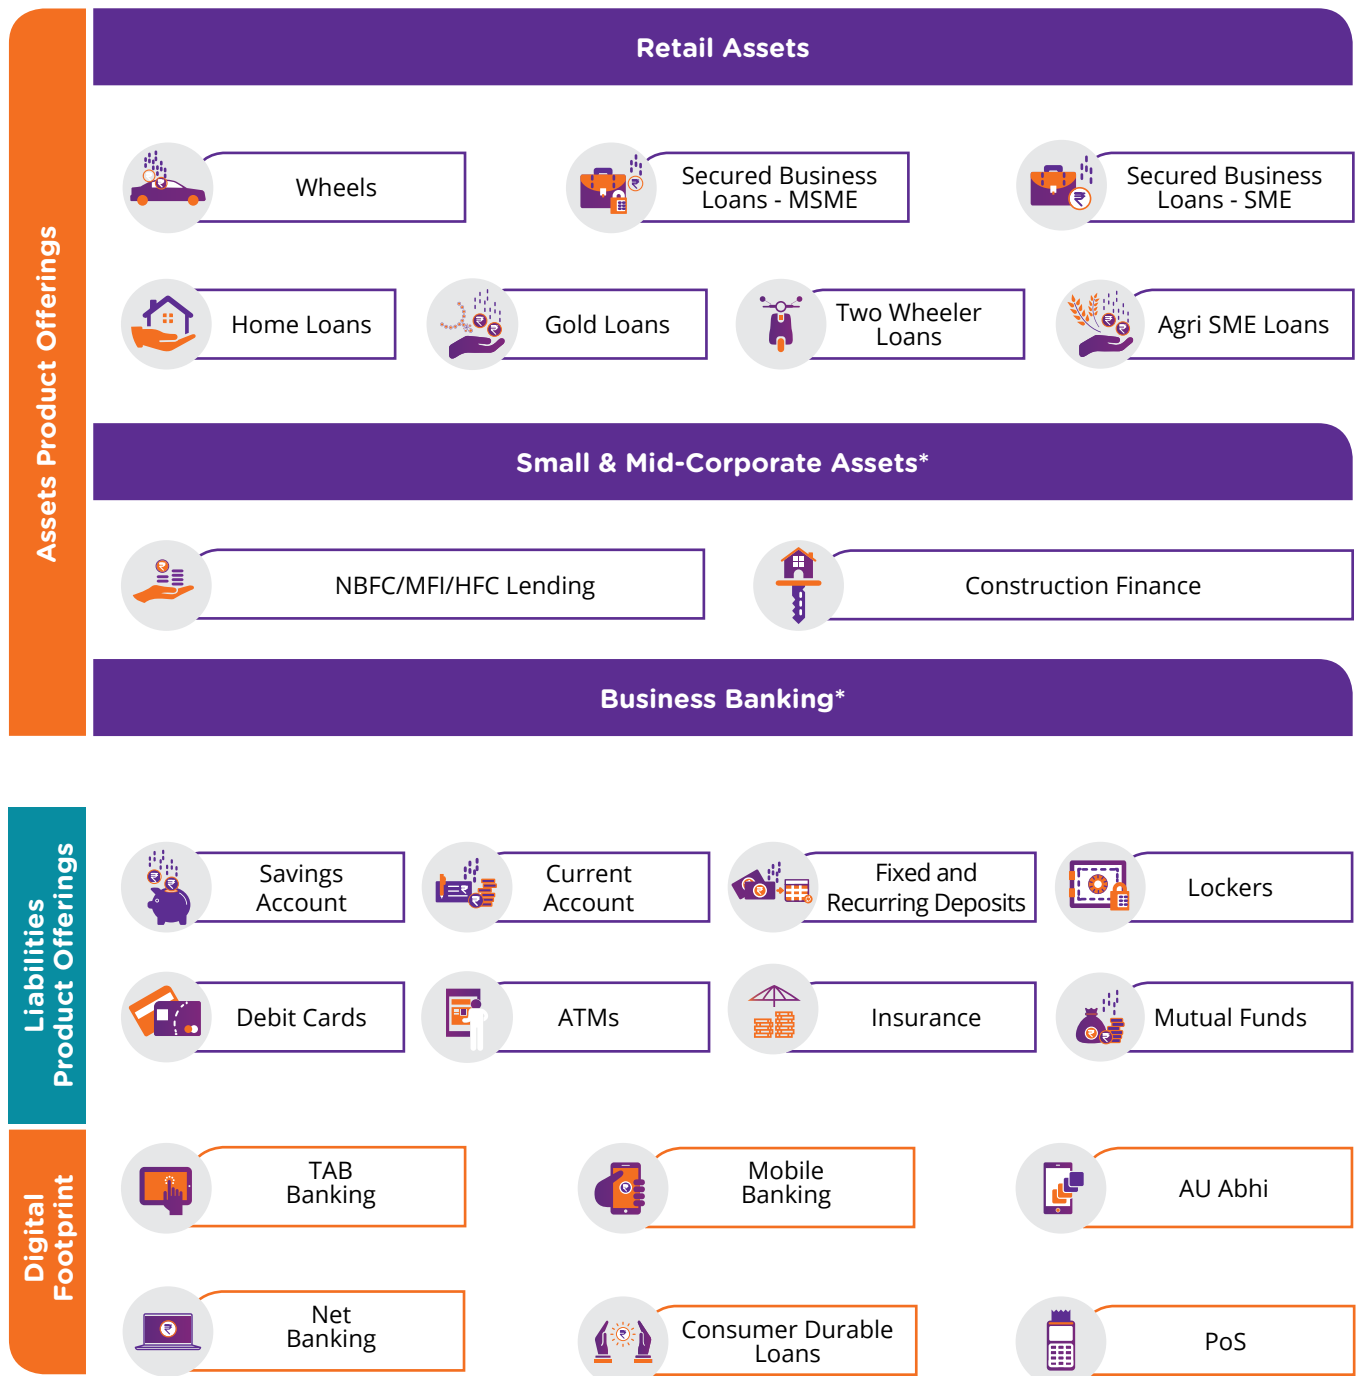

provides Point of Sale (PoS), Doorstep Banking, Insurance and Investment solutions to our customers.

We are committed to continuously upgrade and enhance our product portfolio in alignment with the constantly evolving needs of the Indian consumer, across all demographics. Our superior product offering in tandem with the detailed salient attributes (below) will hold the Bank in good stead for the coming years.

SALIENT ATTRIBUTES

- Higher Interest Rate and Monthly Interest Payout
- Extended Locker, Cash Deposit and Banking Hours
- True Anywhere Banking / No 'home branch' concept
- Minimum documentation / forms

Diversified bouquet of products

Chairman's review

Committed to growth and value creation

Our experience and expertise enable us to support the aspirations of people, who have the ambition, but not the resources to change their lives. Our insight of local characteristics has enabled us to understand the diverse requirements of target customers and create a bank, which they really want.

DEAR SHAREHOLDERS,

India has witnessed robust economic growth in the recent years and now the challenge is to broad-base the benefits of economic development. Despite the Government's drive towards financial inclusion, around 19 crore Indian adults (Source: World Bank) are without a bank account. It is precisely here that your bank will play a pivotal role for upliftment of the unreached section of the society. Our experience and expertise enable us to support the aspirations of people, who have the ambition, but not the resources to change their lives. Our insight of local characteristics has enabled us to understand the diverse requirements of target customers and create a bank, which they really want. Along with offering best-in-class banking services at affordable cost to the underprivileged sections of the country, we also revel on providing value-driven banking through innovative approach in product development, distribution, sales and marketing.

A BANK FOR ALL

We successfully completed one year of our journey as a Small Finance Bank. During the year, we went through a remarkable technology transformation, developed a robust liability franchise and built a strong risk management system with IT security.

We continued to be aggressive on our lending business for all customer segments, especially those from mid- and low-income groups. We are focusing on customer convenience and simplifying banking processes and practices to ensure that we are accessible when the customer wants us. We have laid a strong foundation and acquired the knowhow to serve various customer categories.

Currently, we have nearly 500 touch points with 306 bank branches, 97 asset centres, 71 Business Correspondents and 23 offices in 11 states catering to over nine lakh customers. We have laid a firm foundation for a 'future-ready, retail focused bank'.

We raised ₹7,923 crore of deposits in FY 2017-18 including certificate of deposits, enabling us to reduce the cost of funds to 8.4% as on 31st March 2018. We disbursed more than ₹10,825 crore of loans in FY 2017-18, with the gradual uptick in credit demand after the impacts of demonetisation and GST implementation began to wane.

Each branch is working as an agent of change to drive digital education and cash-less initiatives.

While achieving spectacular business growth, we could maintain stringent control over asset quality by developing a robust risk management systems, credit approval processes and collection mechanism. Besides, we also diversified our portfolio of products and services (across both asset and liability segments) by adopting best-in-class technology architecture to cater to a wide spectrum of customer requirements

and to drive digital banking initiatives in semi-urban and rural geographies.

TOUCHING AND TRANSFORMING LIVES

We always aim to walk with our customers and be their friend in their needs. This personal touch results in better customer insight, high collection efficiency and increased business referrals generating repeat business.

We employ local talent to better connect with the customers of a particular geography. We strive to instil a high-performance culture, where our people are geared to serve our customers in a manner that not just meets but exceeds their expectations.

LAST-MILE BANKING

To ensure financial inclusion and achieve greater outreach of banking services, the Reserve Bank of India had permitted banks to use the services of Business Correspondents (BC). During the year, we opened 71 Banking outlets under the BC model to extend our reach and offer banking services to the under-banked and unbanked population of India.

BUILDING TALENT

We have signed a Memorandum of Understanding with the reputed Institute of Company Secretaries of India (ICSI) to provide their students and members a career launch pad, with an apprenticeship programme offering employment opportunity. We have built a learning organisation which attracts, retains, engages, develops and inspires people. We are on-boarding the best talent from renowned institutes to build a strong and dynamic team.

The management is ensuring the credo 'I love my job' and 'I love my organisation' through regular engagement and motivation of employees. Going forward, we will continue to build on our differentiation as a customer-focused retail-led bank and enhance our prominence in operating geographies.

REWARDING SHAREHOLDERS

Your bank is committed to reward all stakeholders well. We have rewarded our shareholders by protecting and improving EPS, net worth, book value and valuation. We are confident of further enhancing shareholder value.

I would like to place on record my deep appreciation and gratitude to all my Colleagues, Board Members, the Management and other stakeholders for their sincere efforts and faith in us. Further, I am grateful to Reserve Bank of India and other Regulatory Authorities for empowering and guiding us to build AU Bank as one of India's most preferred banks.

With warm regards,

M. VENUGOPALAN

Chairman

Managing Director & CEO's insight

The backdrop and the beginning

It gives me immense pleasure to share this with you that as the MD & CEO of a 22 years old institution but more importantly of a one-year young, fresh and vibrant bank, I feel privileged, honored, happy, excited, confident, committed and obliged to have got this opportunity.

DEAR SHAREHOLDERS,**Namaskar!****Well begun is half done****- Aristotle**

Last April we had transformed ourselves into a bank. With more than two decades of proven track record in secured retail asset lending, it was a natural progression for us, yet we had made several underlying assumptions and had our own reasons to become a bank.

On the banking platform, with every passing day, we see these underlying assumptions and reasons coming true. We realise the magnetic pull of this powerful, deeply trusted, preferred and holistic platform and its scalability. It has got a natural entry barrier and a substantive regulatory environment. It has perpetual existence and is synonymous to the concept of money. Now that we have completed our first year as a bank, I believe that we have found the real purpose of our existence in the financial services spectrum. By becoming a bank, our longstanding efforts have got a meaningful direction and our path has become clearer as to where we must go. It gives me immense pleasure to share this with you that as the MD & CEO of a 22-years-old institution but more importantly of a one-year young, fresh and vibrant bank, I feel privileged, honoured, happy, excited, confident, committed and obliged to have got this opportunity.

We are grateful to RBI and Government of India for building such a wonderful platform which is trusted, respected and widely accepted and for allowing us to earn that respect and become a bank. I understand

that there are a lot of expectations from us right now and thus in our first year, we have begun with setting our priorities, building right products and processes and developing a committed team. We reckon that this platform requires a lot of detailing and patience and greater focus on customer acquisition, customer handling and servicing, building the trust, creating and building a brand image, imbibing technology and managing risks. And therefore, it is as much about customers, longevity and scalability as is about ROAs and ROEs.

We believe that the macro-economic scenario is now replete with opportunities for emerging players like us. Being a new-age bank operating in a globalised economy, we, too, are impacted by events like rising oil prices, fluctuating dollar, quantitative easing, rising interest rates in other foreign economies, trade and tariff war fears, etc. and are required to take our slice of cake in these events. However, India, despite this ever-changing global macro environment, remains well poised to grow around 7-7.5% for next few years. Recently, our Hon'ble Prime Minister had called a brainstorming session to take this growth to double-digit.

With both the macros and micros in a healthy harmony, India is now at a vantage point of economic value creation. Fiscal and current account discipline, tempered inflation, growing investment in infrastructure-building and stable and sensible economic policies signify healthy macros.

Many major structural changes and reforms have been undertaken over the last few years, among which goods and services tax (GST) stands

Now that we have completed our first year as a Bank, I believe, that we have found the real purpose of our existence in financial services spectrum. By becoming a Bank, our longstanding efforts have got a meaningful direction and our path has become clearer as to where we must go.

out as the most transformational step in India's history. It will eventually help improve the way in which businesses operate in India. The Insolvency and Bankruptcy Act, for the first time, makes businesses accountable. Recapitalisation of banks and RBI's rapid and time-bound monitoring and recognition of problem loans are expected to strengthen banks in supporting India's growth trajectory. The Government's increased spend and focus on fiscal consolidation will further provide a greater and balanced growth impetus.

Over the years, the Indian banking sector has evolved to a considerable extent. Banks, which were earlier offering basic services of deposits and financing, have now transformed into an Inclusive Growth Franchise by providing the development financing for infrastructure creation and by becoming implementation channels of several government schemes and direct transfers therein. Today, banking is at cross roads – new Small Finance Banks and Payment Banks have come up, new Universal Bank

Licenses were given in last two-three years, a lot of Housing Finance Companies (HFCs) and Non-Banking Finance Institutions (NBFCs) have come up, Asset Reconstruction Companies (ARCs) are coming up and there has been listing of a few Insurance Companies and new Mutual funds. Public Sector banks (PSUs) are impacted by internal challenges of poor risk / process management, stock of bad quality loans and management supplementation requirements. Against this backdrop, the incumbent private sector banks and new-age SFBs are expected to grow by 20-25% annually. I truly feel that we are fortunate to have received the banking license in today's time when the entire financial services sector is being reoriented.

As an organisation, we see both positive and negative sides of the current environment and events. However, we remain focused on seeing the positives in the negative, maintain our integrity and grow the right way. Banking is gradually undergoing a structural shift wherein customers increasingly are preferring and transacting with private sector players and we will continue to be one of the major beneficiaries of that. It is now our job to sustain this trust and build a franchise that lasts forever. It is a challenging time for many other banks, but as a new-age, nimble and agile bank with no baggage of legacy issues, we remain thrilled and eager to win the hearts of customers by giving them due respect and convenience, providing them with good products and quality services, serving them courteously, and striving hard to give them a delightful experience. I feel that our strong foundation and fresh approach

We remain thrilled and eager to win the hearts of the customers by giving them the due respect and convenience, providing them with good products and quality services, serving them courteously, and striving hard to give them a delightful experience.

strongly points to a far higher growth trajectory, and being a young bank, we aim to grow by 35-40% for the next few years, and that's the energy, confidence and optimism we have.

WERE THE EXPECTATIONS VALIDATED?

Banking, hitherto, was an uncharted territory for us and our transitioning coincided with a tepid but evolving macro-economic environment. You would be pleased to note that, despite the hiccups, your bank delivered a stellar set of numbers on all counts. This is in line with our objective to create a strong, profitable and sustainable retail banking franchise.

As we increased disbursements in traditional areas, we also expanded our portfolio of products, and launched more than 21 new products in the first year of banking. This has allowed us to holistically serve our customers for all their requirements and drive a greater cross-sell within our community of customers. Our granular and sticky deposit mobilisation helped us bring down our cost of funds, which was further fast tracked post our becoming a scheduled bank in November last year.

Operational and financial highlights

Our total income grew by 52% from ₹1,417 crore in FY 2016-17 to ₹2,155 crore in FY 2017-18.

Our net interest income increased by 20% from ₹784 crore in FY 2016-17 to ₹940 crore in FY 2017-18.

We maintained robust loan growth with 49% growth in Gross AUM from ₹10,734 crore in FY 2016-17 to ₹16,038 crore in FY 2017-18, led by growth in all segments of retail and wholesale banking operations. Retail loans now exceed ₹13,000 crore in FY 2017-18, comprising ~81% of loan book.

We reported disbursement growth of 61% from ₹6,730 crore in FY 2016-17 to ₹10,825 crore in FY 2017-18, witnessing steady rise across all segments of retail assets.

We started new product lines such as Agri-SME Loan (Disbursement ~ ₹50 crore), Gold Loan (Disbursement ~ ₹30 crore), Home Loan (Disbursement ~ ₹1.8 crore) and Consumer Durable Loan (Disbursement. ~ ₹1.6 crore).

We installed more than 450 POS machines.

We have over 473,000 CASA customer accounts and we maintained a CASA ratio of 32% as on 31st March 2018.

Our net non-performing asset (NNPA) stood at 1.3% in FY 2017-18.

Our profitability ratios – Return on Assets (ROA) and Return on equity (ROE) stood at 1.7% and 13.7%, respectively.

We strengthened our third-party product franchise; and tied up with 17 mutual funds and a set of three premier insurance companies to offer health insurance, life insurance and general insurance products.

The banking space is a crowning platform in the financial services industry, as it enjoys the highest trust from customers and holds a distinct ability to holistically serve them. We witnessed a glimpse of this in the first year of our operations as our customer accounts count went up by more than twice over FY 2016-17.

Distribution and digital infrastructure

Today, your bank stands strong with presence on 5.5 lakh square feet area, comprising 306 Bank Branches, 71 Business Correspondents, 292 ATMs, 23 Offices and 97 Asset Centres. Our robust backend operations and the state-of-the-art, full suite technology stack has enabled us to rapidly scale up our business which is now driven by a workforce of 11,151 people.

Your bank has made significant investments in IT infrastructure to be able to provide quality services at low cost to our customers. We are ensuring mobility solutions for our customers and sales force with the concept of Aadhaar linked TAB-based 'Paperless' account opening. We are launching Unified Payments Interface (UPI) and Bharat QR, to offer more efficient and better method of payments.

We collect customer data across multiple touchpoints: call centres, reach out by sales force, branches, and web based and mobile applications and have the capability to have single view

of customer and his relationship with the bank through CRM. Leveraging our analytics capabilities, we are extracting meaningful and actionable customer insights which allows us to offer differentiated products and services to our customers.

During FY 2017-18, your bank went live with 20+ applications including CBS, CRM, LOS, Treasury applications and migrated data from legacy applications to new application without any errors. The uptime for all critical applications was more than 98% (excluding planned downtime). NEFT, RTGS and CTS payment modes were launched in the first month of operations.

Digital initiatives

- On the assets side, we started processing Consumer Durable Loans via a straight through digital process wherein the credit underwriting, decisioning and disbursement happens on the same day. Similarly, we are providing two-wheeler loans through self-assisted digital modes via a mobile app and credit decisioning through analytics.
- On the liability side, we began eKYC from 1st July 2017 and opened ~93% of savings account directly on TAB. As on 31st March 2018, we had nearly 2,000 TAB users in your bank.
- We made Internet Banking and Mobile Banking live in FY 2017-18, initiated NACH and e-Mandate and launched IMPS for Internet Banking.
- Your bank launched AU ABHI – a self-downloadable digital Savings Account (with limited eKYC) allowing more flexibility, convenience and choice.

The banking space is a crowning platform in the financial services industry, as it enjoys the highest trust from customers and holds a distinct ability to holistically serve them.

- Your bank launched AU Business App for instant lead capturing, cross-sell allocation and tracking execution.
- The field force automation of the collections team through mobile app is also successfully in place.

We at AU Bank are constantly pushing for digital initiatives. Our Mobile Banking and Internet Banking will further evolve to cater to all the needs of our customers and the UPI will also become functional soon.

Products

With an ambition to become the Best Retail Franchise, we offered our customers the full bouquet of Branch banking products from Savings and Deposit Accounts to Lockers, from Gold Loan to Third party products (Insurance and Mutual Funds). Along with our existing Asset products, we have begun with Business Banking, Trade Finance, Home Loans, Consumer Durables loans, etc. Your bank would be the amongst the few banks in the country to have started all these products in the first year of operations and with many more products to come. Whatever our customer wants, and the regulators allow, we make it happen!

Our customers have also reciprocated to our efforts. This is reflected in the growth of business numbers, usually unheard of in the initial stage of a bank. We have and will always deliver as per the customer expectation. Our attitude has always been to prioritise to serve our customers, solve their problems, catch their imagination and give them a delightful experience.

Differentiated features

To deliver an easy and a seamless experience to our customers, we introduced several new features viz;

- Extended banking hours and extended locker operating hours
- Paperless transactions at branches with no or minimal forms, no cash deposit or withdrawal slips, no RTGS forms, and so on

- True Anywhere Banking as No Home or Base Branch concept, every customer is AU Bank customer and not a branch customer
- Higher interest rates and monthly interest pay-outs
- Provision of cash recyclers at 50 locations.
- Disbursements in AU Bank Accounts: Incrementally 30% of loan accounts have been opened with us.
- Creating products as a separate business unit.

THE ACHIEVEMENTS Scheduled Bank

We are thankful to the Reserve Bank of India for extending the Scheduled Bank status to us in November 2017. Your bank's name has now been included in the Second Schedule

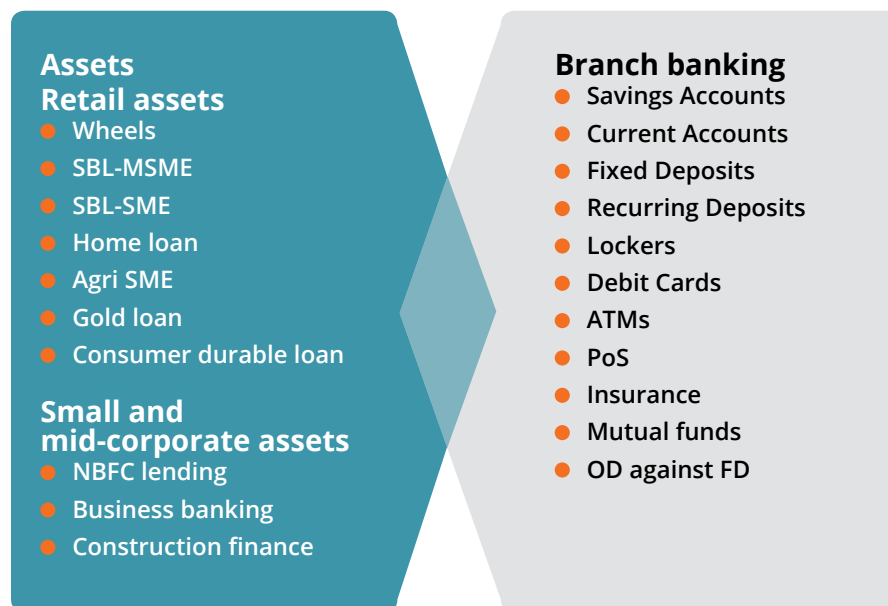

of Reserve Bank of India Act, 1934. This has significantly helped us broaden our liabilities and treasury operations and has provided us with more liquidity avenues and enhanced our visibility, brand image and acceptability.

After acquiring scheduled bank status, we are now borrowing and lending with RBI under Liquidity Adjustment Facility (LAF) and Marginal Standing Facility (MSF). This has helped us to acquire business from public sector undertakings (PSUs), corporates, banks, mutual funds, insurance companies and other market participants, who can transact with scheduled banks in compliance with their regulatory or internal guidelines. Your bank also offers Certificate of Deposits (CDs) on competitive interest rates in the market.

Dividend

Your bank proposed a dividend of 5% in the very first year of banking and listing, sharing our wealth with our shareholders.

The bouquet of products available in the very first year of operations are as under:

Strong Focus on Cross Sell

By 2022, we aspire to serve 10 million customers and reach \$10 billion asset book.

- Your bank got featured in Fortune 500 India rankings, being in Top 500 Companies of India.
- Our long-term rating was upgraded by India Ratings and Care Ratings to 'AA-/with stable outlook' as we continued to enjoy a highest short-term credit rating at 'A1+'.

- We are extremely pleased to share that TEMASEK HOLDINGS Pvt. Ltd., Singapore Government owned high pedigree, long-term investment company, via their indirect wholly-owned subsidiary Camas Investments Pte. Ltd, is investing ₹10 billion (₹1,000 crore) in your bank (announced and approved by shareholders in Q1FY19)

THE LEARNINGS & WAY FORWARD

As we are settling ourselves quickly on this bank platform, we are gaining important insights and learnings. Our key takeaways for the last year include:

Reorient ourselves as customer-centric bank

As an NBFC we were product driven, but as we start to serve our customers on this holistic platform, we quickly realised that we ought to be a customer-centric bank. We should understand who our customer is, segment them and then build products for them. We are beginning to move ourselves away from a product driven organisation to a customer-centric organisation, which would be largely around personal assets and commercial assets in terms of loans. In the liabilities vertical, from the very beginning we have worked on customer segmentation and are building bulk of that business through customised strategies.

Customer profitability

Customer needs to be profitable and we can make them profitable by creating a pool of revenue around them. We reckon that merely offering a single product at competitive and reasonable rate we may not make him profitable but by offering multiple products, for instance, a Current Account and an insurance plan and a loan all at reasonable rates, we could create a revenue pool of many streams and achieve the customer-level profitability. We remain committed to comprehensively understand the customers and make revenue pools around them.

Differentiated customer value proposition

Akin to the above, it is important to keep offering a differentiated value proposition to our diverse customers segment to get them to bank with us and be of value to them.

Go phy-gital

We are mindful of India's socio-economic conditions and we feel that as we grow our business, adopting a Phy-gital Distribution Strategy, i.e. a combination of physical and digital channels, will be paramount. As we expand our brick and mortar setup, we would augment our outreach with newer alternate formats of phy-gital distribution.

Adapting the new rules of the game

As we gained more experience, we realised that for us as a Bank, the regulations are deeper than we expected. We must respect them, adhere to them both in letter and in spirit. We also realise that earning customer's respect, trust and acceptance is a game of patience.

By 2022, we aspire to serve 10 million customers and reach \$10 billion asset book. To do so, we will continue to be Retail Assets led bank by experience, distribution and technology and focus on growing our retail asset book, while maintaining a healthy portfolio quality. On Liabilities side, we will optimise our cost and build a high-quality CASA book and retail focused deposit franchise with the support from digital banking and digital assisted services.

FINANCIAL INCLUSION

AU started its journey in 1996 as an NBFC – Au Financiers – and under the aegis of Reserve Bank of India, for the last two decades, we worked relentlessly as a retail focused, customer centric, premier and a trusted asset financing NBFC. We touched over a million plus underbanked and unbanked customers prior to becoming a bank in April 2017. Since our inception and till 31st March 2018, we have provided ~7,00,791 loans for a total disbursement of around ₹30,000 crore.

In our NBFC avatar, the loans were extended on a bottom-up approach which concentrated on understanding the customer and their business. As a number of target enterprises are not registered and many of them do not have formal income documentation proofs, AU, as an NBFC, devised ways to assess them, which included evaluating their purchase bills, visiting the businesses and assessing their turnover, calculations through informal income sources, inclusion of guarantors in loan structure etc. Even after becoming a Bank, AU continues to provide loans through this approach.

Lending to priority sector is our business model and was also one of the major reasons why we got the revered Small Finance Bank License.

We operate in territories where the target segment for Financial Inclusion resides. The Unbanked Rural Branches form 26% of total 395 banking outlets (306 Bank branches, 89 Business Correspondents - including 18 BCs opened post 31st March 2018) as on 19th April 2018. (RBI's requirement was for 25% banking outlets in unbanked rural centers) and we have around 60% of our branches in Semi-Urban, Rural and Unbanked Rural Areas. Through our distribution network we have always served customer profiles such as Drivers, Small Transport Operators, Automobile Dealers, Kirana Shops, Hardware and Electrical Shops, Carpenters and Furniture works, Brick Making Units, Fabrication Units, Flour Mills, Educational Institutes and various other Small Manufactures and Traders, and they continue to be our target customer base even in our Bank avatar.

As evident, in FY 2017-18, 97% of the total number of loans disbursed were of amounts less than ₹25 lakh and over the last four years AU has funded ~1,65,000 first-time buyers of vehicles.

Therefore, AU in its essence, serves the segment which has a big unmet demand for financial services.

Lending to the priority sector is our business model and was also one of the major reasons why we got the revered Small Finance Bank license. As on 31st March 2018 we had priority sector lending Qualified Advances of ₹9,424 crore out of Total Advances of ₹13,312 crore. Further, around ₹1,800 crore of On-Book AUM represents loans to weaker sections of the society including SC/ST/OBC/Women/etc.

We truly believe that for India to grow it is important for the hinterland to prosper and we thus align ourselves with the Government of India's novel Jan Dhan Yojana which represents India's National Mission for Financial Inclusion. As a Bank, we provide the facility of opening of Jan Dhan Accounts and encourage our customers to enable Aadhaar seeding in our accounts.

The status of Small Finance Bank differentiates us and put us in the territory which is under-served and where lies an unexhausted capacity. We are working towards building the financial ecosystem and are contributing our bit to the Financial Inclusion in the country.

BOARD OF DIRECTORS

Bank is a synonym of hope and trust. It gives hope to people that when they want to move ahead in life, they will be monetarily supported by an institution called bank. People trust us with their hard-earned money, which they want to save for their future or business, for

livelihood, for education, for family or for retirement. They trust us with their future! Your bank is led by a Board of Directors which is uncompromisingly committed to keeping their trust and ensuring sound corporate governance practices.

A majority of our Board comprises Independent Directors and I am pleased to share with you that last year we expanded our Board and inducted Mr. Raj Vikash Verma as an Independent Director and Mr. Narendra Ostawal as a Nominee Director for Redwood Investments Limited. Mr. Verma, Ex-Chairman of National Housing Bank, brings on Board more than 35 years of experience in the field of Housing Finance, Mortgage and regulatory affairs and his guidance will enable your bank to build and scale it's Housing Loan Book in coming years. Mr. Ostawal, MD of Warburg Pincus India Private Limited, has experience of over 18 years in investment management and financial services space. We extend them a heartfelt warm welcome at your bank.

Time and again we have received guidance and support from our Board of Directors and I would express a sincere thanks to all my present and past Board members for their immense contributions in our journey.

SOCIAL COMMITMENTS

For us, Corporate Social Responsibility goes way beyond just fulfilling our duty. It has become an inherent part of everything that we do. To ensure our CSR initiatives are aligned with the overall CSR objectives, this year we

Bank is a synonym of hope & trust. It gives hope to people that whenever they want to move ahead in life, they will be monetarily supported by an institution called Bank.

identified our core CSR focus areas as Livelihood Enhancement, Promotion of Sports and Financial & Digital literacy.

Apart from this, we also supported initiatives other than our core areas like promotion of education, healthcare, sanitation, traditional art and culture, etc. As we aligned our efforts in these directions, we ensured that we continue to extend support to all such initiatives that were focused on benefiting the marginalised communities.

ACKNOWLEDGEMENT

It is an honour for me to lead a young bank driven by an enthusiastic team. As an organisation with a long-standing pedigree and as a new generation Bank, we are committed to play our part in the development of the nation. Your bank is well-positioned for profitable and sustainable growth. We have a lot planned for the future and we will continue to focus on customer centricity, stakeholder integrity and value creation. We have just made a small beginning and have a long way to go.

I would like to thank our Board of Directors for their constant guidance and support and I also express my sincere thanks to RBI, SEBI, MCA, IRDAI, UIDAI, CERSAI, Government of India, credit information companies and other regulatory authorities for bringing in timely changes and for creating a facilitating environment for orderly development of financial services sector in India. I am grateful to all our shareholders, investors,

bankers, vendors, partners and customers for strengthening our vision and strategies.

चलो आगे बढ़ें ।

Encouraging performance

We expanded our outreach to nearly 500 touch points, grew our disbursements by 60% (at ₹10,825 crore) and in turn grew our Assets Under Management (AUM) by 49% at ₹16,038 crore

CASA and deposit accounts were opened in FY 2017-18

DEAR SHAREHOLDERS,

FY 2017-18 was the first year of our operations as a Bank and it gives me immense pride and satisfaction to share with you that despite the uncertainties and hiccups, we have had a wonderful first year and we aspire to deliver yet another year with a stronger set of results on all fronts.

At the outset, I would like to express my sincere thanks to Reserve Bank of India (RBI), Securities and Exchange Board of India (SEBI), our Board members and all other stakeholders for supporting us in our journey of growth. Most importantly, I want to

express my earnest gratitude to each and every AU family member who has been a part of our exciting journey.

In our first year of operations, we have emerged as one of the fastest growing Small Finance Banks in India owing to strong customer focus, high-quality asset growth and a growing liability franchise.

Moreover, during FY 2017-18, we expanded our outreach to nearly 500 touch points, grew our disbursements by 60% (at ₹10,825 crore) and in turn grew our Assets Under Management (AUM) by 49% at ₹16,038 crore.

We also mobilised ~₹8,000 crore of branch liabilities and deposits and brought down our cost of funds. Despite a significant increase in operating expenses on account of depreciation, our Return on Equity (RoE) stood at 13.7% and Return on Asset (RoA) stood at 1.7% in FY 2017-18. Sequentially, we have maintained consistent asset quality reporting with a gross NPA of 2.0% and net NPA of 1.3%. Clearly, the transition challenges were outweighed by our improved performance and the countless opportunities that benefited us.

On the bank platform, we made sincere efforts to reorient ourselves and become more customer centric. We devised products and services keeping in mind the diverse set of customers we serve and their requirements. For our individual retail customers, we expanded our product

suite by adding three new products viz. gold loans, two-wheeler loans and consumer durable loans, besides restarting housing loans. Similarly, to address the requirements of our smaller businesses associated with agriculture and its value chain, we have launched agri SME loans. In the Small and Medium Enterprises (SMEs) and mid corporate segment, we have increased our thrust within the Business Banking Division and have started offering an entire gamut of products to meet their working capital and term loan requirements. Aligning with India's robust infrastructure development plans, we have added new sub-product lines (within the existing products segments) by creating sub verticals for tractors, construction equipment and Medium and Heavy Commercial Vehicles (M&HCVs), among others.

In parallel, we also launched an entire suite of branch banking products, with multiple investment and insurance products to choose from. In the first year, we have taken giant strides in building our liability franchise with a stronger Savings Account (SA) and Current Account (CA) base. Most of our CASA and deposits franchise was built by acquiring new customers. Reflecting on our last year's performance, we opened 5.31 lakh CASA and deposit accounts. In FY 2017-18, around 85% of the deposit accounts opened were from non-AU borrowers. Going forward, we expect to target our existing customers and develop banking relationships with them through differentiated value-added services.

In my view, our retail distribution franchise, proven track record of the last 22 years and strong execution capabilities have allowed us to establish ourselves firmly on the bank platform. Simultaneously, our differentiated value proposition in terms of paperless account opening, extended banking hours, monthly interest pay out, higher rate of

interest and our go-to-market and customer-centric approach have greatly supported us in staying relevant and differentiated with the customer.

As a Bank, today, we are able to fulfil the diverse needs (personal and business) of our myriad customers throughout their life cycle with our comprehensive product portfolio and extensive reach.

With a more structured approach targeted around our asset segments, we expect consistent growth in AUM across all categories. Moreover, a strong bank brand-pull and access to lower cost of funds will allow us to maintain a strong growth momentum. There is also an opportunity to cross-sell financial products and services to existing and potential customers.

Mass banking is challenging due to lower income customers, low ticket size loans and the requirement of a deeper geographical presence. This presents a massive opportunity for small finance banks like us with retail-focused lending business models. Our focus on assessing the repayment capacity and the intent of the small businesses is a huge differentiator in building a small business-lending franchise. This involves hiring local sales and collection employees, customised training, parameterisation of credit proxies through on-field assessment and streamlining the customer processes on a single technological platform. Replicating this in a scalable manner across our core geographies is extremely challenging for a private sector bank, which prefers larger ticket sizes and standardised loan processes to build scale.

'PHY-GITAL' IS A WAY FORWARD

We believe that a strong physical presence of branches, supported by customised, easy digital banking solution, is the way forward for banking. On the back of this belief, we are providing a unique proposition

for our customers, we are facilitating them with digital convenience while maintaining our personalised connect with them. We are sure that this step will take us forward in the space of banking.

On the bank platform, we are strongly leveraging digital, technology and analytics to enhance our productivity, profitability and outreach. We have given tablets to our entire 'feet-on-the-street' sales force to conduct our operations. For all practical purposes, a 'feet-on-the-street', armed with a tablet, can become a functional branch in an unbanked location. Similarly, we have devised a new lead-capturing app called AU Business, which allows us to seamlessly capture, allocate, activate and monitor a lead across all 11,000+ colleagues at the bank-wide level. Another case in point is the automation of our collection process. Besides that, recently we also launched AU Abhi, an app that allows you to become our customer and open a bank account with us digitally and instantly by simply downloading our account app.

Being a new-generation modern bank with no legacy issues, allows us to leverage the benefits of technology to offer low-cost solution to our customers.

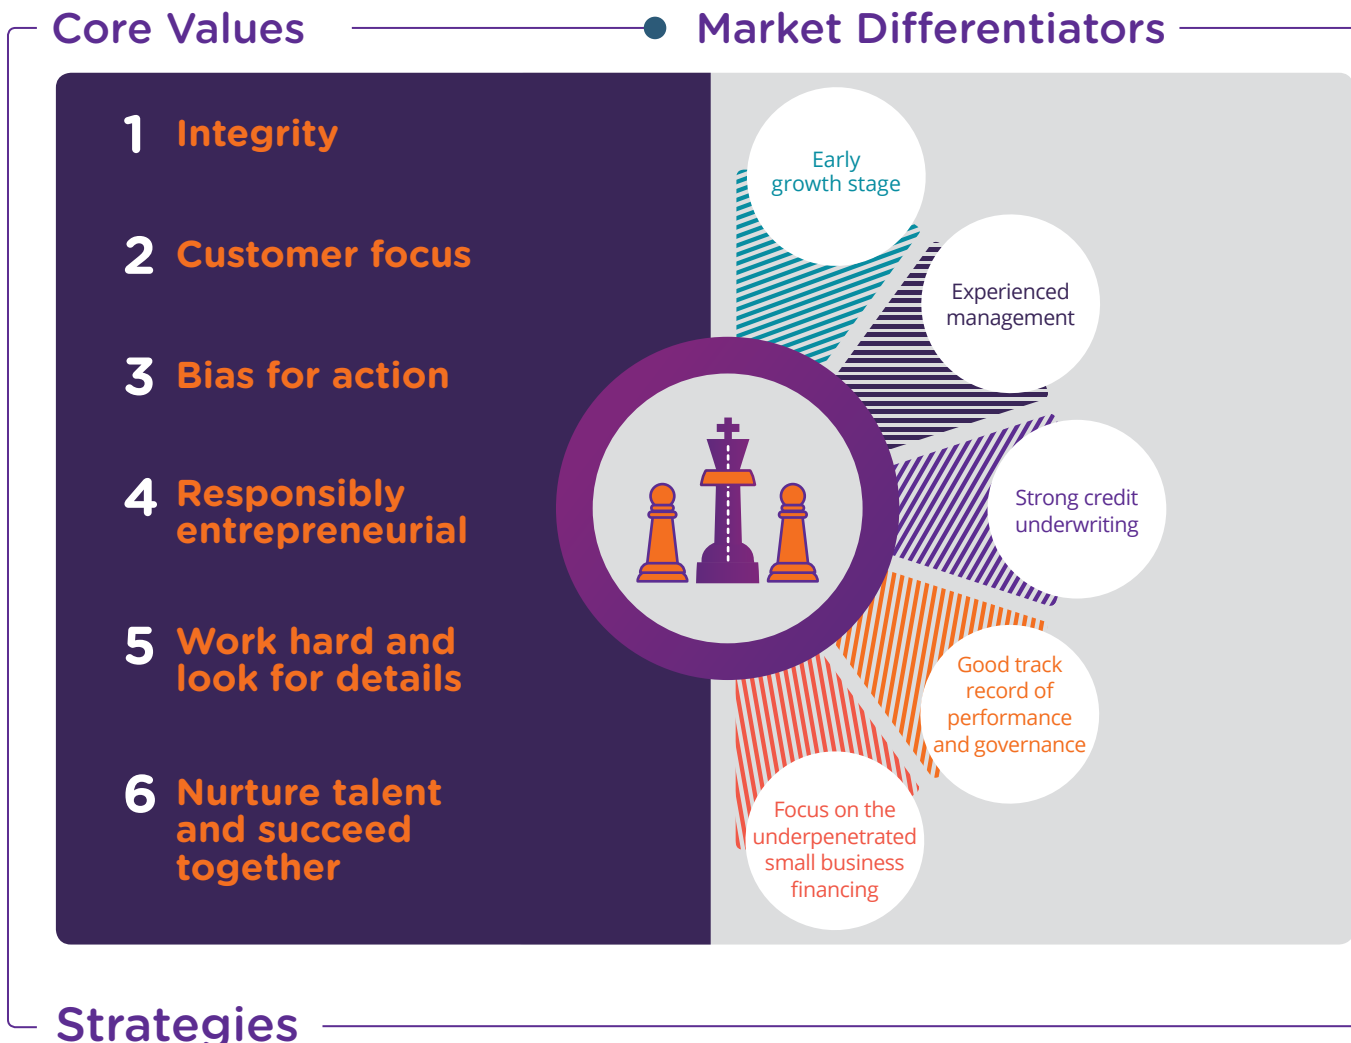

The banking industry is going through significant transformation with the emergence of small finance banks, payments banks and digital disruptions, among others, to take banking to the last mile. Our mission is to build the most preferred retail distribution banking franchise of India and we would always remain focused on serving our customers holistically and profitably.

Human capital

With our 11,151 strong workforce, we work continually to develop competencies and capabilities of our people, a critical asset. We develop the expertise of employees to enable them to serve all our clients better.

Financial capital

We deploy funds efficiently, whether obtained through financing or generated from operations and investments.

Intellectual capital

We use deep analytics in our credit appraisal, monitoring and collection processes. Our knowledge-based customised products, processes and proprietary technologies also demonstrate our intellectual acumen. Using digital technologies optimally in an innovative manner we ensure stable and safe digital services that safeguard the privacy of our clients.

Manufactured capital

With our technology enabled, extensive network of nearly 500 customer touch points across the country, we are trying to make banking accessible to everyone. Our growing infrastructure of 292 ATMs and service kiosks further strengthen our purpose.

Natural capital

Although our operations do not have a significant consumption footprint, we use natural resources like water and energy judiciously. As a bank, we ensure that our products or project financing has minimal environmental footprint.

Social and relationship capital

We facilitate access to banking for those near the bottom of the pyramid and contribute to India's inclusive growth agenda. We also engage proactively with all our customers, business partners and regulatory authorities through various channels and platforms to meet their requirements and ensure highest standards of corporate governance.

Values Created

By running a profitable, sustainable and responsible business, we create value, which is subsequently both retained by our business, making it stronger and also shared with all stakeholders.

Financial inclusion

Driving financial inclusion

Inclusive Financing has been the core of our existence and we have been relentlessly serving the bottom of the pyramid population and the 'belly of India' since our inception in 1996.

With a wide geographical reach and strong connect with the rural and semi-urban markets and low-income urban populace, we have served over a million-plus unserved and under-served customers and contributed our bit in financial inclusion in India.

Our focus has always been on funding micro, small enterprises who are often denied credit due to lack of formal income documents, credit history and limitation of banking reach in deeper markets.

In our journey of financial inclusion, we had several first's to our credit, including:

- As on 31st March 2018 we had priority sector lending Qualified Advances of ₹9,424 crore out of Total Advances of ₹13,312 crore
- 60% branches in semi-urban, rural and unbanked rural areas
- Focused on serving low-income population: Over 3 lakh number of loans with average loan ticket size of less than ₹25 lakh;
- Providing Solutions to Customers with no formal credit history (new entrepreneurs)

The Indian Government and Reserve Bank of India (RBI) have been making several concerted efforts to promote financial inclusion as one of the important national objectives of the country. Licensing of Small Finance Banks was also a key step towards the same.

For us, the conversion to banking platform has given us a bigger opportunity and stronger alignment to keep providing consistent, customised and the most trustworthy

financial solutions to the unreached and unbanked rural and emerging masses of India.

Target customer base

AU Bank's target customer segment includes low-and middle-income individuals and credit-worthy micro/ small enterprises that possess business potential but are unable to avail financing from formal channels viz. drivers, small transport operators, automobile dealers, carpenters, owners of kirana stores, hardware and electrical shops, furniture works, brick kilns, fabrication units, flour mills and educational institutes, and various other small manufactures and traders.

AU Bank's contribution

AU Bank has 377 branches and 97 asset centres, and 5,31,062 deposit accounts with a deposit base of ₹7,923 crore, as on 31st March 2018.

We believe that it's not only important that rural customers have a bank account but also that they actively use the account. Being a committed institution we are tracking this closely. Of the ~1,84,000 account-holders in semi-urban, rural and unbanked areas, ~1,79,000 have transacted at least once through these accounts. At the same time, of the total ~2,50,000 debit cards issued in semi-urban, rural and unbanked rural area, around 1,70,000 cards are active.

97%

Of the total number of loans disbursed in FY 2017-18, were < ₹25 lakh

97%

Of the deposit accounts in semi-urban, rural and unbanked regions are active

Micro and small enterprises loans

In its earlier avatar as an NBFC, AU provided loans to customers who were denied financial assistance from other banks due to unavailability of required documentation or credit history. Since inception, the Bank has disbursed ~7,00,000 loans (amounting to ~₹30,000 crore) till 31st March 2018.

Digital innovation focus

In line with the Government's Digital India initiative and to meaningfully enhance accessibility of financial services, AU has tried to reinvent banking through:

- Digital TAB-based account opening
- Minimal paperwork and forms, such as no cash deposit slips
- 'True Anywhere Banking' based on a no home and base branch concept

In the very first year of its operation, the Bank opened ~3,30,000 savings accounts using digital TABs, while launching internet banking and mobile banking channels. The total number of transactions through the two channels for FY 2017-18 stood at ~30,000, of which ~9,000 transactions were performed in semi-urban, rural and unbanked rural areas.

Financial literacy

For holistic awareness about the benefits of banking institutions, AU conducts financial literacy camps. In the reporting year, the Bank has conducted 60 camps reaching more than 2,000 people.

Way forward

On the lending front, AU continues to target the under-served and unbanked population. On the deposit side, the Bank is evolving the Unified Payments Interface (UPI) and Unstructured Supplementary Service Data (USSD) to enable free transactions for the rural masses. The Bank will also provide Social Security Schemes and continue conducting awareness camps.

Your bank remains committed to play its part in making individuals and households financially literate, to help them make informed choices about how they save, borrow and invest. And this will be achieved by providing the entire gamut of banking services to the hitherto financially excluded population.

Bolstering the spirit of young India

Jainath Patel AN ASPIRING ENTREPRENEUR

In 2006, 24-year-old Jainath Patel was quick to see a business opportunity amid the rising popularity of computers that had arrived in his town Jabalpur. With faith in his vision, he set out to educate himself. He not only gained technical training from an institute in Mumbai, but also honed his expertise on-the-job for a year.

Returning to Jabalpur, he visited homes and offices to repair computers. In 2013, he started a small shop, employing two others. As his business grew, he wished to save rent that was a big drain on his income and sought to own a larger space. One of his customers, who happened to be a AU SFB employee, understood his requirements and promptly processed on requirements and assisted him in getting a loan from AU Bank.

एयू बैंक ने फटाफट लोन देकर मुझे मेरा खुद का बिज़नेस शुरू करने में मदद की और मेरे सपने को सच करा दिया।

AU Bank promptly sanctioned my loan and helped me in starting my own business and converted my dreams into a reality.

Today, Jainath runs a thriving computer repair and refurbishment shop and generates employment for four others. Jainath states that AU helps those with a vision and assists young India to realise its potential.

Nurturing citizens of new India

Shankarlal Meena OWNER OF A SCHOOL

Shankarlal Meena started a small school in 2004 to provide quality education to rural children. He began his venture in a modest manner with 40 children and steadily upgraded the school to secondary and senior secondary levels in 2012.

In this journey, he has always received proactive support of Au Financiers (now AU Small Finance Bank). Today, his school has over 350 students and is a well-known institution of learning in the entire district.

He envisions setting up a college in the district as a lot of young people travel long distances to receive quality education when it can be provided in his district. He is confident that with the support of AU he will be able to turn his vision into reality.

He shares a cordial relationship with all members of the AU team and recommends AU to people who approach him for suggestion on financial assistance.

राजस्थान के गाँव के बच्चों को अच्छी शिक्षा देने और एक शिक्षित समाज बनाने के मेरे सपने को मजबूती देने के लिए मैं एयू का हार्दिक आभारी हूँ।

**I am deeply indebted to AU
For strengthening my vision of
providing a quality education
to rural children of Rajasthan
and help create a knowledge
driven society.**

Building an institution of trust

Catching imagination of customers

According to World Bank, India has 19 crore adults without a bank account, making it the world's second largest unbanked population after that of China. There were around 24.97 million vehicles sold across all vehicle types in FY 2017-18 and there are more than 63.38 million MSMEs. Considering the size of the market, there is a huge opportunity for AU and other banks to serve these financial needs.

Our customer base has widened with the addition of a deposit franchise on our banking platform. Given their unique set of requirements, each segment needs to be approached and addressed separately.

Customer profitability and serving them holistically are thus our key focus areas.

Keeping in mind the paramount need for customer convenience, we undertook several initiatives, including not asking customers to fill an EMI deposit slip. Having a big pool of customers with no CIBIL records, ~60% of our branches are in deeper unserved parts of India which reflects our DNA of being customer centric.

While transforming into the bigger platform of banking, we have assumed customer centricity with an even greater responsibility. Keeping customer convenience as our top priority, we have challenged and changed a few traditional ways of doing banking. We follow 'True Anywhere Banking' with 'no home branch concept' – at AU, every customer is a bank customer and not a 'branch' customer. Some of our key initiatives include:

DIGITAL ACCOUNT OPENING

We had kick-started Aadhaar linked TAB-based 'paperless' Savings Account opening facility for Individual

Growing trend in Savings Account opened via TAB

(Nos.)

Savings Accounts. It is a completely automated process wherein a customer account is opened within 15 minutes and the customer is handed over his account opening kit with a debit card and a cheque book instantly.

Our sales executives are equipped with TAB devices. Our TAB adoption had reached ~95% in March 2018.

We started straight through process of consumer durable (CD) loans via the fully digital channel.

STARTED POS SERVICES

We strengthened our POS services by on-boarding Bijlipay, along with our existing partner India Transact Services Limited (ITSL). During FY 2017-18, we reported successful installations of over 450 machines.

ENHANCING DIGITAL BANKING EXPERIENCE FOR SME AND MSMEs

We implemented our corporate internet banking and cash management platform through iCashPro+ to offer seamless customer experience across multiple delivery channels.

iCashPro+ is designed to provide comprehensive day-to-day services with robust back-end engines for 100% automated payments and accounts receivables operations, easy bulk payments, need-based collection/payment/trade modules, checking balance and downloading statements, among others. To provide easy access, these services can be availed anywhere via net banking and mobile banking.

Building an institution of trust

Leadership through 'cost optimal phy-gital' distribution

In our first fiscal as a Bank, we served a wide segment of customers who had different requirements. Keeping this diversity in mind, we designed a host of new products and solutions and expanded our footprint.

At AU Bank, we are adopting a phy-gital distribution strategy wherein we are striving towards holistically serving customers through a combination of physical and digital channels. Our phy-gital approach allows us to offer multiple convenient banking options to our customers and at the same time allows us to bring down the overall cost of service delivery. Availability of multiple channels including Branches, ATMs, Business Correspondents, Tablet Banking, Mobile Banking, Emails, call centres allow our customers to engage through a mode of their choice and at a time of their choice. Across all our service delivery channels, we strive to offer a standardised experience to our customers.

In FY 2017-18, we completed the roll-out of 306 modern bank branches and 71 business correspondents. To leverage the powerful bank platform, we also expanded our product bouquet and took our product count to 27 products from mere six on our last balance sheet date.

With this, we have almost all secured products required to serve retail customers. Additionally, we have also forayed into Consumer Durable Financing last year which is offered

via dual channels viz. fully online and tech-assisted offline model.

WAY FORWARD

- Roll out Aadhaar enabled payment system
- Popularise mobile banking app across both Android and iOS platforms
- Facilitate digital onboarding of individual joint accounts and Current Accounts
- Go live with IMPS on mobile banking, UPI, Bharat Bill Pay (BBPS) and ASBA facility (for IPO), among others
- Drive merchant acquisition through physical POS terminals and Bharat QR

Building an institution of trust

Backed by a reliable technology infrastructure

We have embraced technology by automating and digitising transactions for faster, safer and secured banking. We have also equipped our sales force with tablets integrated with biometric devices and bluetooth printers to enable faster customer verification and account opening and activation.

PRIORITIES ON THE RADAR

At AU Bank, we have on boarded key Tier 1 OEMs and partners for our core banking and digital requirements. Besides that we also work with a host of small and niche fin-tech players. This is helping us build an agile, modern and well integrated products stack commensurate with our present and future requirements. Our enterprise architecture is a multi-layer platform with various applications being integrated through the service bus.

Internally, we have ~200 member strong in-house technology team which is divided into three core groups viz. 1) Build the Bank 2) Run the Bank and 3) Govern the Bank. This internal team segregation allows them to focus on set of specific issues, build super specialization and deliver a faster turnarounds. Besides that we also draw a seamless service support from all our core technology partners.

KEY TECHNOLOGY ADVANCEMENTS IN FY 2017-18

FY 2017-18 has been a year of transformation for AU Bank. In terms of technology implementation and adoption, we moved from single application for loan lifecycle management to implementation and adoption more than 20+ applications. This has been a great achievement for every stakeholder involved.

From the first day of the Bank going live, we have been able to migrate all existing customers and their loan accounts to the new application. Some of the key achievements for last year in technology are as below:

- **Technology change management**

Training and adoption of more than 9,000 employees for about 10 front-end applications which are being used at branches for day-to-day operations. This also included MPLS connectivity and branch infra upgrade across 306 Branches, 71 Banking Correspondents and other offices

- **End-to-end implementation of ESB architecture**

No application is interfaced point-to-point and all the integrations are done through ESB

- **Digital onboarding of customers**

We have gone live with paperless account onboarding where customers' Savings Account is opened in less than 15 minutes

- **Workforce digitisation and automation**

We have been able to roll out a mobile app for our collections employees where they can track pending tasks and perform collections from the field itself

- For loan origination, a workflow-based application ensures we have data point available for measuring

TAT at each level which would later provide input for business process reengineering to remove process bottlenecks

- We are live on all key payment channels (NEFT, RTGS, CTS, NACH, IMPS (For Internet Banking)

In the ongoing year, we are planning to enhance our digital footprint for customers and internal employees. Key driving principles for projects being undertaken are as follows:

- Provide convenient banking solutions to customers to help them reach out to us with ease and perform transactions digitally 24x7. This would include payments like UPI, BBPS and solutions like corporate internet and mobile banking for corporate customers
- Digital onboarding (assisted as well as self-onboarding) of customers across the product portfolio
- Workforce automation to reduce operations cost and achieve higher efficiencies
- Tracking and proactive monitoring of applications and infrastructure to ensure minimum downtime and production outages
- Primary and secondary connectivity to all the branches

Building an institution of trust

By establishing a striking brand identity

In the last one year, AU Bank brand has taken an exponential leap while it continued to stay grounded as an NBFC. With all our brand associations and outreach initiatives, our marketing endeavours continue to extend reach to every strata through initiatives that resonate with each one of them.

We ensure that our brand reaches people wherever they are and supports their aspirations. We also capitalise on local insight, experience and the support infrastructure of our existing operations to communicate and engage with the target audience.

ON-GROUND OUTREACH INITIATIVES

AU Bank Social Connect

Connecting our branches with nearby colonies, markets, societies, corporates in their respective catchment areas. These activities would help branches to have local connect, social impact & business opportunities in terms of leads/queries.

AU Bank Jagriti

We have about 71 BC points spread across our territories and aligned with respective branches. Since they are situated in unbanked areas and are a new concept in the localities, we plan to organise health check-up camps alongside a financial literacy camp which can attract the local audience to the newly appointed BC point.

AU Vehicle Activity

A promotional vehicle at every operating states runs across all rural/urban markets for financial literacy of rural audience and data collection as well as for business purpose

while taking customer's feedback and interacting with prospective customers.

AU Samarth

A small canopy is set up in a strategic area to create awareness about our various offerings and their significance. It is conducted twice in a month.

AU ATM - Saturday

All branch teams at AU Bank conduct this activity every Saturday. The teams take contact details of people passing by and using ATM services.

AU Samanvaya

To foster new relationships with dealers and manufacturers, we invite them to AU Bank to display their vehicles on EMI Days outside the Bank as we host the maximum number of prospective customers. It helps us to cross-sell various products that we have to offer to our customers.

BRAND ASSOCIATION Jaipur Literature Festival Powered by AU Bank

AU has been associated with this initiative focussed on promoting literature from its NBFC days. As a bank, this year we became a key sponsor for this world-renowned event that brings together some of the world's most invigorating minds. The footfall was around five lakh in this annual event in 2018. The event saw participation from writers, thinkers and opinion makers from around the world. There were three different AU lounges where this event was conducted.

AU Bank Jaipur Marathon

Fitness remains our priority for both our employees and the community at large. Our continuous association with one of the largest marathons of India, AU Jaipur Marathon, highlights our commitment to this cause. The 9th edition this year witnessed registration of almost 80,000 people across categories. The various running categories included Monsoon run, Independence run, Santa run, Woman run, collage activities, school activities and so on. We conducted several pre-promotion activities for this event through our branding zone and an exclusive AU lounge for employees, along the marathon route.

FADA – National Auto Summit 2018

AU Bank became the Platinum Partner of National Auto Summit organised by FADA (Federation of Automobile Dealers Association of India). This event witnessed more than 1,000 dealer principals and manufacturers from all over India. AU Bank's leadership was one of the key panel members for the various sessions along with industry leaders. It helped us to position well with the trade partners and let them know about AU Bank's products and services.

AU Bank Utsav

The first year completion of the bank was made memorable with a high profile event, Bankotsav. The two day extravaganza brought eminent personalities to Jaipur for intellectual discussions including business baron and Future Group CEO - Mr. Kishore Biyani, investment guru & joint MD of Motilal Oswal Financial Services - Mr. Raamdeo Agarwal, former SEBI chairman - Mr. G.N. Bajpai, former Deputy Governor of RBI - Mr. S.S. Mundra and former NHB Chairman - Mr. Raj Vikash Verma. Besides, motivation sessions by Mr. Navjyot Singh Sidhu, Super 30 fame - Mr. Anand Kumar and first women amputee Mt. Everest climber - Ms. Arunima Sinha lifted the audiences' spirits. The gala event proved to be a great platform to engage the senior bureaucrats, industry leaders, investors and important clients from across the country leading to an enhanced brand equity. The 2nd day was event was especially for the employees where, besides striking performances by singer Shaan and stand-up comedian Sunil Grover, over 3,000 employees enjoyed informal interaction with all the senior management of the bank.

Building an institution of trust

By nurturing a team of go-getters

Our colleagues take pride in working for an inclusive and diverse bank, and with their support we are building a culture in which everyone feels included, empowered and inspired to enrich customer experience.

11,151
Team strength

With a diverse talent base of 11,000+ people, we are focusing on attracting, developing and retaining relevant industry talent.

EMPLOYEE ENGAGEMENT

We have adopted top-notch HR strategies to strengthen employee engagement. Several cultural and functional activities are conducted throughout the year to keep the morale of our people high.

● Sports

We organise tennis and badminton championships, cricket tournaments and football leagues for employees and their kids.

● AU Connect

The extensive one-day induction programme is designed to familiarise and engage new members with the organisational structure, its culture and principles.

● AU Dharma

We are imparting AU dharmas (core values) for all the Bank's employees.

● Mandatory trainings

RBI-mandated trainings are imparted to each employee of the Bank to keep them abreast of changes in banking regulations.

PERFORMANCE AND REWARD

At AU Bank, we have a clearly defined appraisal process and incentive structure, which is communicated to all employees. Motivational programmes are conducted for employees to bring out their best performance. Quarterly rewards and recognition programmes are conducted to value every effort of our employees.

● Celebrating achievements

The achievements of high performers are celebrated at all locations for departments such as collections, sales, human resource and branch banking, among others.

LEADERSHIP DEVELOPMENT

We understand the importance of a robust and effective leadership and conduct talent development programmes to develop internal leadership pipelines. We align the competencies required for the job with the skillset of each employee and provide the right growth opportunities to them. We direct our efforts in mentoring, coaching and supporting our people at each step.

● Work better programme

We imparted managerial skills to first-time managers, motivating them to shoulder more responsibilities.

● Leadership skill workshop

We organised pan-India leadership workshop for all of the Bank's leadership.

LEARNING AND DEVELOPMENT

Training modules were developed on the e-Learning mode and AU'ites were encouraged to maximise the use of the digital platform. Each member of the AU team received the in-system Human Capital Management (HCM) training.

Functional training

- Formal training for asset and liability products was imparted to employees at Manipal University
- Cluster refresher training for sales and operations staff of liability department was provided
- Employees were trained on gold loan products and services
- Training on MS-Excel was imparted to various departments of the Bank

Soft-skill trainings

- Soft-skill trainings are conducted at various branches to enhance customer communication skills of our people
- Both in-bound and out-bound call centre employees are imparted training to improve their communication efficiency

Giving wings to aspirations

Vimla Mahawar OWNER OF AN EMBROIDERY FACTORY, JAIPUR

Mrs. Vimla Mahawar was a homemaker who dreamt of contributing to the family income that wasn't sufficient to support her three children. She thought about buying an embroidery machine to start her own venture. Her husband liked the idea as he was working in a garment export company. He explained the business dynamics to her and eventually, she bought her first machine. They invested all their savings and borrowed from the family. With her committed efforts, soon the business started picking up and within months the demand increased beyond what she could supply. More machines were needed. She wanted to take the leap but, with all her funds exhausted, she was unable to buy then. Her husband's salary was only ₹10,000.

So, she, along with her husband, started looking for funding options. They were turned down by many banks and finance companies. It was AU that came to their rescue.

एयू ने हमें बेहतर आय कमाने और बेहतर जीवन जीने में मदद की। उनकी वजह से मैं बड़ा सोच पायी और अपने सपनों को सच कर पायी।

AU helped us in getting a better earning and a better life. Because of them I could dream big and achieve my dreams.

The bank provided her the required funding. She bought two more machines, expanded her business, built a team of seven workers and took up all the new orders. Now her children are getting educated at good schools and she is contributing to the family income more than her husband and providing livelihood to seven more people.

Fostering relationships of trust

Sunil Saini OWNER OF A TOUR AND TRAVELS COMPANY

Sunil Saini grew up in a poor family in Rajasthan, but was determined to change the circumstances of his life. His father was a cart puller and Sunil knew he would have to struggle hard to get ahead in life. He decided to start a tours and travels business. His friend had told him he could only get loan from AU, because AU helped even those who do not have proper documents.

Sunil did not waste time. He approached AU and purchased his first car in 2009. Since then, Sunil did not look back. With the support of AU, he grew his business and today owns a decent fleet of nine cars.

He is grateful to AU for the support he received and now brings more people into the growing fraternity of the bank's customers.

मैं अपने आप को एयू के ब्रांड एम्बेसडर के रूप में देखता हूँ, जो लोगों की मदद करता है और उनकी क्षमता को समझ कर आगे बढ़ने में मदद करता है।

I look at myself as one of AU Bank's brand ambassadors, bringing more people who need critical help and support to realise their potential.

Business drivers

Enabling sustainable business growth

Collection management

Four key attributes of collections

- | | |
|-----------------------------------|---|
| 1 Relentless | 2 Business-to-employee (B2E) Communication |
| 3 Robust MIS and reporting | 4 Customer profiling |

Collection management has been the backbone of our strong asset quality which has been further strengthened in the bank platform. Unlike many other organisations, we have divided our collection function with several specialised sub-units.

Moreover, we extensively use analytics for customer profiling, engagement with collection executives, daily intelligence and MIS reporting to management.

OUR APPROACH

- Delinquency is not tracked in percentage terms but in absolute value - this has been the hallmark of AU from beginning
- Vintage home-grown talent in key positions aligned to management thought process which provides stability and succession plans
- Strong camaraderie and ownership of collections between sales, credit and collections
- Over 1,500-member strong collections team
- 85% collection is in-house, thereby reducing cost of collections drastically

- Specialised partners in select metro and micro markets for bucket 1 and bucket 2 cases – an efficient model to manage efficiency and cost

OUR SPECIALISED COLLECTION TEAMS

AU Bond Team

Manages chronic pool of over ₹100 crore. Resolved over ₹45 crore of delinquent cases in FY 2017-18.

Legal Team

Regional presence for on-ground assistance for taking suitable legal measures.

Work from home concept

We have put in place a low-cost work from home team for collections with the advantage of vernacular calling.

Data analytics

At AU Bank, automation, digitisation and intensive technology are being used to expand the scale and scope of business.

We believe that with growing digitisation and evolving disruptive models of banking, it is important for us to remain concurrent and keep empowering our customers with the latest and best solutions that offer speed and convenience.

Since we cater to a wide variety of customer segments, since the last few years we have been capturing, learning and leveraging on data-driven insights to achieve mass personalisation and innovative tailor-made products and solutions. Simultaneously, we are swiftly automating our workflows and business processes to become more agile with Straight Through Processes and are collaborating with a number of companies including technology start-ups at one end and some well-known credible tech experts, on the other.

Since these open platforms require stringent monitoring, our Business & Operational Risk Management Team, together with our Chief Information Security Officer, are continuously building a comprehensive security and risk management framework with requisite checks and balances.

We have also put in place analytics which encompasses the entire spectrum of activities right from filed-level data collection, database management and database warehousing all the way up predictive and prescriptive outcomes.

Business analytics

- Wheels and SBL loan purchase propensity models
- Cross-sell/up-sell campaigns – using POD and propensity models to identify right set of customers for cross-sell campaigns
- Incentive structure design – using historical data analysis to align incentive policies with business goals
- Location Analytics – identifying the best locations for opening unbanked branches
- Loan Application scorecards and auto-approve algorithms – designed for wheels, already deployed for CD loans
- Repeat purchase identification and tracking

Collection and risk analytics

- Probability of default model – default prediction for early vintage customers as well
- Customer Contactability Model – identifying customers with high/low contactability
- Collectability prediction – identifying which customers are going to pay in a given month – current, 1st and 2nd bucket
- Collection allocation optimisation – optimising collection allocation based on collectability of customer
- Risk-based pricing for consumer durable loans
- Collection roll rates simulation – right upto 12th bucket

HR analytics

- Employee attrition tracking, analysis and prediction
- Sales Executive – 360-degree Performance View
- Using Roll Rate simulator for ACR prediction and manpower planning
- Employee performance improvement assistance – identifying specific areas of improvement and doing targeted communication

Credit management

Our robust and comprehensive credit assessment tool is crucial to our business, since a large proportion of our customers belong to the underserved segment of society and are primarily first-time purchasers of financial products. Our credit teams, through in-house field investigation officers, conduct an independent verification of customers and evaluate their business and financing needs and analyse their ability to repay loans.

We have a separate credit team for each business vertical – Wheels, Secured Business Loans, Agri - SME, Business Banking, and for other products. The teams evaluate business needs, identify expansion plans and analyse the borrower's ability to repay the loan. Our three-layered assessment process includes visits by credit officers, relationship officers and business officers to analyse collateral quality.

Legal check and organised set up

- Existing central Legal team with experienced and knowledgeable legal persons
- Both external and Internal legal check
- Two level check of title papers and legal report
- Empanelled legal person across all states and branches

Technical set up

- Centralised technical team with experienced coordinators
- Empanelled valuer across all states and branches
- Both external and internal technical checks

Risk Containment Unit (RCU)

- Centralised as well as regional RCU team and monitoring
- Detailed and proper check of fraudulent transactions
- Dual checking of the existence of customer and business

Post disbursal monitoring

- Process in place for internal and external audit to ensure adherence of policy and improved file quality disbursement

Treasury management

The treasury management at AU Bank is handled by a strong treasury management team. The front, middle and back office manages the consolidated fund of the Bank optimally and profitably, within the acceptable level of risk. They are responsible for handling the trading operations and mutual funds, resource management, asset liability management, and market risk management. The treasury effectively complies with the regulatory requirements in relation to treasury activities and operations. Moreover, there is significant contribution of treasury income in the bank's earnings.

TREASURY PRIORITIES

- Seek funding avenues in inter-bank market within prudential limits
- Enhance credit ratings to raise long-term debt and obtain higher credit lines
- Maintain a strategic mix of long-term and short-term debt to manage funds
- Perform view-based trading and diversify investment portfolio
- Facilitate increasing deposit base
- Invest in SLR securities and other low-risk asset securities for liquidity management

- Expand treasury activities to yield higher returns and profits

OUR KEY ACTIVITIES

Funding

The treasury team strategically builds funds by capturing secured and unsecured sources, within the applicable risk limits. The funding sources comprise deposits, unsecured money market instruments, existing NBFC sources, inter-bank liability limits and Certificate of Deposit (CD) issuance, among others.

Compliance

The team strictly ensures maintenance of the minimum regulatory reserves such as Structure Liquidity Ratio (SLR), Cash Reserve Ratio (CRR) and Liquidity Coverage Ratio (LCR).

Investments

Investment is an important activity. Investment platforms are explored judiciously to maintain regulatory reserves, manage the existing funds, maintain liquidity, along with optimising revenues. Going forward, investment activity of the treasury will act as a profit centre with its diversified investment portfolio.

Governance

Our resource management function is conducted by segregating the duties between risks and business functions. These functions represent the organisational structure and define the roles and responsibilities of the treasury department.

Focus on risk management

As a fast-growing bank, AU Bank's primary focus is on risk management. The Bank has set up a risk management function to shield exposure to additional risks such as market risk, increased liquidity risk, interest rate risk and funding risk. A sturdy liquidity regime has been set up to manage any unforeseen gaps that may arise.

Reports and findings of the treasury team on liquidity position, ALM, interest rate sensitivity, deposit rates, and so on are submitted to the Asset Liability Management Committee (ALCO) periodically. ALCO submits its findings to our Board, along with periodic reporting to the management. A periodic review of the Bank's investment portfolio is reviewed and approved by the Investment Committee, which is then presented to the Risk Management Committee of Board (RMCB) and the Board for their review and approval in compliance of applicable regulatory requirements.

Risk management

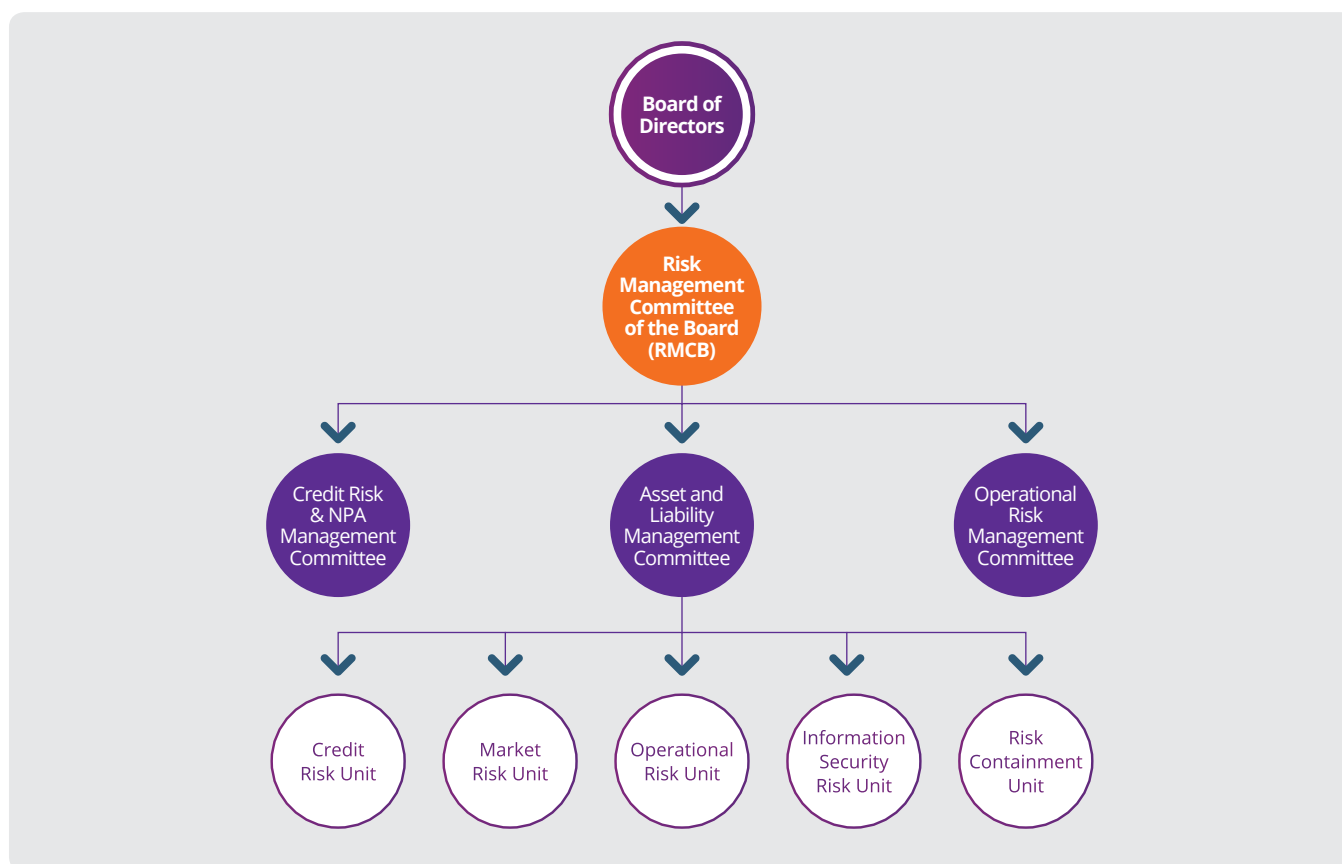

Robust risk governance

Effective risk management plays a vital role in the successful development and execution of our strategy.

RISK MANAGEMENT FRAMEWORK

At AU Bank, risk management implies a proactive approach towards future events. All necessary components for comprehensive risk governance are embedded in the Bank's risk

management framework. It comprises enterprise risk management, credit risk, market risk, financial and non-financial risk management, risk reporting and supporting IT infrastructure, and cross-risk analytical tools and techniques.

Our risk management system enables our business to achieve its strategic objectives, take measures to control such risk and deliver sustainable long-term growth, with a commitment to responsible business practices.

The key elements of our framework are:

- Identification of our key principal risks that are likely to have a direct impact on our strategic objectives
- Evaluation of the identified risks and reviewing their potential impact
- Developing processes for better control
- Preparing contingency/preventive plan
- Implementation and monitoring of the above

Types of risks and their mitigation techniques

Operational risk

DEFINITION

Losses resulting from inadequate/failed internal processes, people and systems or from external events

Our approach and mitigating actions:

- Implement Risk Control Self-Assessment (RCSA) across all key products
- Conduct root-cause analysis and gap analysis of all operational frauds
- Make periodic verification of outsourcing policies, perform annual evaluation of service providers to mitigate fraud and provide assessment to outsourcing committee
- Perform assessment of internal controls and incidents reported by OSP

Information security risk

DEFINITION

Likelihood of a failure in the confidentiality, integrity or availability of an information security system causing harm to informational assets

Our approach and mitigating actions:

- Periodic review, analysis and escalation of information security incidents to management
- Review of processes – network access logs, firewall log reports, port access reports for critical network devices, network operation centers, Security Operations Center (SOC) and process of change/incident management
- Conduct Business Continuity Plan (BCP) assessment and Disaster recovery drills and monthly audits of the data centre

Fraud risk

DEFINITION

Risks resulting from acts of deceptions, misrepresentation, illegal actions targeting business functions

Our approach and mitigating actions:

- Processes for fraud prevention and detection
- Product wise sampling strategy is in line with business teams
- Risk Containment Unit (RCU) responsible for filing police complaints, fraud recoveries, handling of critical cases and reporting to management

Central risk and analytics

DEFINITION

Exposure of debit card transactions to risk and its likely impact

Our approach and mitigating actions:

- Central risk function was developed;
- implemented transaction monitoring cell to monitor debit card transactions within and outside the Bank's network
- transactions performed for potentially fraudulent activity and conduct strict investigations
- Monitor patterns to identify
- Analyse latest trends to further improve, modulate and create new rules to monitor debit card transactions

Vigilance risk

DEFINITION

Existing rules and procedures of the organisation will result in corruption or malpractices

Our approach and mitigating actions:

- Framed the consequence management and anti-bribery policy of the Bank
- inspections to prevent and avoid corruption or malpractices
- Identify sensitive/corruption prone spots and enforce sudden
- Establish the Bank's whistle-blower mechanism to promote a culture of raising red flags on breaches, violations of the Bank's code of conduct and fraudulent transactions
- Promote trust and assurance to stakeholders by conforming to fair treatment on violations, breaches, and non-compliance at various levels of the Bank

Credit risk

DEFINITION

Risk that a borrower or counterparty will fail to meet its obligations in accordance with the agreed terms.

Our approach and mitigating actions:

- Implement effective risk management policy, driven by asset liability management committee and credit and risk committee.
- Separate credit teams for each of our business lines driven by in-house field investigation officers.
- Customised credit policies are periodically updated to cater to different market requirements.

Market risk

DEFINITION

Investors may suffer losses due to volatile market performance, leading to liquidity risk for banks, where the Bank is incapable of meeting its cash flow and collateral need obligations

Our approach and mitigating actions:

- Conduct thorough research and analysis of cash flow, gap reports and balance sheet ratios to mitigate funding liquidity risk
- To minimise the interest rate risk, studies are conducted for modified duration, and value at risk (VAR) computation

Compliance framework

- At AU Bank, the Compliance Function assumes great importance. The Board of Directors of the Bank/ Audit Committee/Risk Management Committee are responsible for overseeing the management of compliance risk and implementation of the compliance risk management framework across the Bank. The compliance function is responsible for all aspects of regulatory compliance across the Bank.

- There are dedicated resources deployed to focus on areas such as KYC/AML, regulatory reporting, review, monitoring and providing guidance on regulatory issues to the various functions. The compliance

team supports top management by managing and supervising the compliance framework along with providing compliance assistance to various businesses/ support functions. The Bank has a new product approval policy and all new products or modifications to the existing products are approved by the compliance team ensuring RBI regulation compliance.

- The Compliance Department continues to approve all the new products to ensure that they are in line with regulatory prescriptions. The Chief Compliance Officer is a member of various committees, which enables him to monitor the compliance risk of the Bank effectively. The Bank uses

Knowledge Management Tool and looks at the regulatory website for updating and monitoring regulatory changes and its compliance.

- The department also disseminates the changes in regulations by way of compliance communication to all the employees. Training on compliance matters is imparted to employees on an ongoing basis both online and in classroom. The Compliance Department keeps the Management/Board informed about important compliance related matters through monthly, quarterly and annual compliance reviews.

Corporate social responsibility

Engaging more with the community

The Bank promotes sustainable livelihood for the underprivileged through vocational skilling and digital and financial literacy. The Bank is also keen on promoting sporting talent by providing the right interventions in training for the Olympics and Paralympics events. The Bank follows various CSR principles while implementing these projects, based on which the activities are identified. Our CSR plan is centered around sustainability, accountability, environment protection, promotion of human rights and respect for the interests of all stakeholders, especially the disadvantaged, vulnerable and marginalised.

We assess the needs of the community by engaging with it in a participatory manner. This helps us to identify areas and projects that will be taken up by the Bank as part of its CSR plan. It also helps us work out the implementation schedules and directly or indirectly take up programmes that benefit the communities in and around our work centers, which results in enhancing the quality of life and economic wellbeing of the local populace.

We comply with the statutory and regulatory requirements pertaining to corporate social responsibility and ensure that the surplus arising

out of CSR projects, programmes and activities does not form part of the business profit of the Bank. The Bank has a three-tier structure for the governance of CSR responsibilities under the Companies Act and Rules, comprising the Board, CSR Committee and the Company Secretary. The Bank implements CSR activities through direct contribution and collaborates with credible implementing partners to achieve the right penetration and results for the CSR efforts of the Bank.

FOCUS AREAS OF CSR

- Livelihood enhancement through vocational skilling – high priority CSR area

- Promotion of rural, national, Paralympic & Olympic sports – high priority CSR area
- Financial and digital literacy – high priority CSR area
- Promoting education
- Healthcare and social welfare
- Environmental sustainability
- Rural development
- Eradicating hunger, poverty and malnutrition
- Gender equality
- Protection of national heritage, art and culture

INITIATIVES IN COLLABORATION

PRATHAM SHIKSHA CHARITABLE TRUST

AU Bank is providing financial support to 'Pratham Shiksha Charitable Trust' for operating a school for underprivileged children in Jaipur district. Illiteracy is a serious impediment to development and improvement in quality of life. This Trust is committed to promoting and supporting basic education for unprivileged children from backward and low-income families. It has special focus on improving the quality of education and to help the deprived sections of the society to uplift themselves into the mainstream economy. This institution is supported with funds from personal and corporate contributions.

MUSKAAN FOUNDATION

Muskaan Foundation is a not-for-profit organisation (NPO) trust committed to contributing towards safety on the roads through awareness, education, training and promotions. Road safety refers to the methods and measures used to prevent road users from being killed or getting seriously injured. The NGO

uses an integrated approach with collaborative community-centric measures. Road accidents claim around 1.5 lakh lives every year. This year on the world Remembrance Day, AU Bank joined hands with Muskaan Foundation to spread awareness

on road safety through an event on the theme of 'Love, Hope, and Positive Action'. The event witnessed performance on an inspirational song by 440 students from 35 schools.

AKSHAYA PATRA FOUNDATION

The Akshaya Patra Foundation is a not-for-profit organisation feeding millions of underserved children in India by implementing the mid-day meal scheme in the government schools and government-aided schools. Akshaya Patra Foundation is committed to eradicating two crucial issues - hunger and malnutrition in India. Today, Akshaya Patra is the world's largest (not-for-profit run) Mid-Day Meal Programme serving wholesome food every day to over 1.6 million children from 13,839 schools across 12 states in India. In Rajasthan, it has been providing food to 2,672 schools and ~1,70,729 children have benefitted under their mission.

The education sector in India has grown leaps and bounds and there have been significant improvements across different indicators. Over the years, your bank's persistent partnership with Akshaya Patra has made it possible to raise a generation of hunger-free, educated and nourished Indians. The mid-day meal scheme is truly one of the best interventions in promoting education, reducing dropout rates and improving overall physical and mental health of the children.

LOUIS BRAILLE DRISHTIHEEN VIKAS SANSTHAN

Louis-Braille Drishtiheen Vikas Sansthan is a non-governmental social service organisation based in Jaipur. It was established in 1981 on the birth date and in the loving memory of Sir Louis Braille, the father of literacy for the visually challenged. The organisation works to provide service towards the visually impaired through education and vocational training with special focus on women, socially backward and vulnerable persons. Vocational skills are also important and endeavour to build the children's social skills and confidence.

IMPLEMENTING AGENCIES FOR PROMOTION OF SPORTS

The Bank joined hands with Sports Omnibus for promotion of football at grass root level and rural areas. Sports Omnibus, with a team of technical experts, helped in moulding and shaping the first steps of children in the sport of football. More than 200 children associated with us for the grass root football festival hosted at AU Bank Sports Village. We also partnered with a public charitable trust for the second season of Jaipur Mahakhel where more than 5,000 students participated in sports events covering schools of rural Rajasthan.

HECARDS

Human Educational Cultural Art & Rural Development Society (HECARDS) has been a NGO partner for implementing of promotion of education-based CSR activities for the Bank. This year we joined hands with HECARDS for promoting sporting talent, educational activities and preventive healthcare facilities and also to organise vocational employment generating training programme for women.

DIRECT INITIATIVES

WATER COOLERS

One billion people around the world don't have access to clean, safe water. Safe water is a critical environmental and public health issue, as well as a means to lift people out of poverty and ensure human security. Yet the number of people without safe water is increasing. Providing safe water is an essential step for human health and development. By encouraging leadership and generating momentum for solutions, we can save millions of lives. Over last few years, AU Bank has installed several water coolers at various high population density areas across Rajasthan with the aim of providing chilled potable drinking water during the scorching summer months. AU Bank also tends to the timely repair and maintenance of these water coolers. AU Bank has set up over 73 water coolers in and around Jaipur.

HEALTH AND EYE CHECK-UP CAMPS

The Bank promotes the cause of good hygiene and sanitation practices in the community. For the underprivileged and poor people, receiving the right healthcare services is a tough task. AU Bank has been associated with Shekhawati Agrawal Samaj in providing affordable and free healthcare services to the poor.

AU Bank has collaborated with them for providing financial assistance to organise monthly health check-up camps and eye check-up camps at Jaipur. Through the eye check-up camps, 5,093 patients received benefit of free OPD services.

SANITATION-RELATED INITIATIVES - PROMOTING SWACHH BHARAT MISSION

AU Bank supports the Swachh Bharat Mission through multiple initiatives focussed on promoting sanitation. Our key sanitation initiatives for FY 2017-18 included:

- Public toilet facility at Vridhjan Park at Bikaner for providing facility to

morning walkers who frequent this public park. More than 1,000+ people use this facility daily.

- AU Bank supported the construction of toilets built at Girls Nursing College, Amarsar.
- AU Bank supported Kalyan Singh School, a government school in Shahpura, in building a urinal facility, thereby benefitting over 800 children.

MANAGEMENT DISCUSSION AND ANALYSIS

MACROECONOMIC ENVIRONMENT

During FY 2017-18, global growth was relatively synchronised and broad-based across USA, Europe and key markets of Asia, including India and China. According to the estimates of the International Monetary Fund (World Economic Outlook, April 2018) growth across geographies is gradually gaining momentum, despite headwinds. It has improved from 3.2% in 2016 to 3.8% in 2017.

Improvement in investments, robust global trade, favourable monetary policies and healthy traction in corporate earnings were the key enablers behind this broad-based growth. It is encouraging to note that in FY 2017-18, inflation remained broadly below the targets set by the central banks across the world.

In India, the macroeconomic environment remained broadly stable with stronger recovery emanating from the second half of the year (GDP growth of 7.4% vis-a-vis 6.1% in the first half) on the back of sustained economic reforms undertaken by the Government of India.

This primarily was led by increased Government consumption and revival in gross fixed capital formation. The Index of Industrial Production (IIP) grew 4.3% in FY 2017-18; and was a tad below the 4.6% growth posted in FY 2016-17. IIP and other high-frequency indicators suggest a more profound cyclical recovery in manufacturing than in services.

During the year, the Government expanded its fiscal deficit target by 30 bps and had made an upward revision to 3.5% of the GDP. The fiscal deficit for the year stood at 3.53% for FY 2017-18 and was largely in line with the revised target.

The Government has adopted key recommendations of Fiscal Responsibility and Budget Management (FRBM) panel, including that of assuming Government debt as the nominal fiscal anchor and fiscal deficit as operational anchor. The fiscal deficit target for FY 2018-19 remains at 3.3% of GDP and the target to reduce the central and state Government debt to 60% of GDP by 2025 from ~70% levels prevailing currently.

Retail inflation as measured by the Consumer Price Index (CPI) remained subdued at 3.5% in FY 2017-18 vis-à-vis 4.8% in the previous year. The Average Wholesale Price Index (WPI) inflation though moved up to 2.9% in FY 2017-18 as against 1.8% in FY 2016-17. In August 2017, the Reserve Bank of India (RBI) reduced the repo rates by 25 bps, post

CPI inflation lowering to 1.6% in June 2017. However, for the remaining half of the year RBI's Monetary Policy Committee (MPC) remained vigilant, amid the upward inflation trajectory.

In Feb 2018, RBI retained policy rates and maintained a neutral policy stance while highlighting about the prevalent and building inflation risks. The upside risk to inflation emanated from impact of HRA increase by state governments, rise in crude oil prices with rise in global growth, proposed revision in MSPs of kharif crops, increase in custom duties, fiscal slippages and normalization of monetary policies in developed economies.

Multiple factors weighed on the bond market sentiment, including hardening of US treasury yields, uptick in inflation in second half of FY 2017-18 and overshooting on fiscal deficit, as a result the 10-year G-Sec yield rose by 72 bps to 7.4% in FY 2017-18.

Considering the positive macroeconomic environment, a stronger growth momentum is expected to continue in FY 2018-19. The Reserve Bank of India (RBI) has forecasted a GDP growth of 7.4% for FY 2018-19. Amid concerns of tightening liquidity, upside risk to inflation, growth is likely to be driven by consumption and surge in urban infrastructure spends.

INDIAN BANKING INDUSTRY

During the last financial year, the outstanding credit of all scheduled commercial banks grew by 10.3%, a little higher from 8.2% in the year before. Therefore, the growth in FY 2017-18 over a medium-term period does not imply any acceleration in the credit off take. Over the previous four years, the year-on-year growth in bank credit has ranged between 8% and 11%.

Following the slowdown in credit offtake, its share in GDP has declined in the preceding four years from 53.4% in FY 2013-14 to 51.6% in FY 2017-18. The shrinkage could be attributed to the lack of demand from the private sector and greater reliance on alternative finance sources. However, the contracting liquidity conditions resulted in a sharp uptick in bond yields in the 2nd half of FY 2017-18 is likely to further cause a shift in credit demand back to banks from the bond markets.

Outstanding non-food credit (which accounts for 99.5% of total credit) grew by 10.5% in FY 2017-18 while food. Food credit declined.

Credit growth – Personal loans, loans to services sectors lead the way

Particulars	FY 2017-18 growth (%) over FY 2016-17
Non-food credit	10.5%
Personal Loans	17.8%
Loans for services sectors	13.8%
Loans for agriculture and allied activities	3.8%
Loans for industry	0.7%

Loan to industry, at 31.5% of total outstanding credit, continued to account for the largest share of outstanding commercial bank loans. However, its share in incremental credit was only 3.3%. Considering multiple growth enablers firmly in place and given the Government's continued thrust on reforms, India's IIP is expected to witness sluggish, but steady improvement over the next few years.

This is likely to be accompanied by a sustained improvement in capex incurred by private sector companies. Together, both these factors could bolster demand for project finance, particularly towards greenfield expansions.

The Government of India remains committed to improving the health of India's banking sector and it has implemented a host of reforms in this direction during the year. These initiatives includes identification and resolution of stressed assets in a time-bound manner, implementation of the Insolvency and Bankruptcy Code, recapitalisation of public sector banks, among others.

The RBI has provided MSME borrowers a further 180-day window to pay dues under standard category to stabilise themselves; and support their next growth phase.

The RBI noted that formalisation of business through registration under GST has adversely impacted cashflows of smaller entities during the transition phase, with consequent challenges in meeting their repayment obligation to banks and non-banking financial companies.

DEPOSITS SCENARIO AT A GLANCE

During FY 2017-18, the Bank's deposits grew by 6.7% (Source: RBI), which is in line with pre-demonetisation growth rates (during FY 2015-16, bank deposits grew by 7%). A high base effect in FY 2016-17 (when deposits with banks grew by 12%) riding high on the demonetisation wave could be a key reason behind the lower growth in bank deposits in FY 2017-18. Lower inflation rate, record growth in the mutual funds industry, strong upswing in the stock market, and rate cuts in savings and term deposits have lowered the appetite for bank deposits. Leading credit rating agency

CRISIL estimates bank deposits to grow by 8-9% during FY 2018-19. Improved access to opening CASA accounts and higher convenience of engaging in banking transactions via multiple digital platforms are critical enablers for the growth of future bank deposits in India. Firming up of interest rates will also be another enabler for growth of bank deposits over the near term.

ADVANTAGE SMALL FINANCE BANKS

Structurally, Small Finance Banks (SFB) were conceived for fostering financial inclusion of the unbanked and the underbanked segment of society, a section not actively pursued by other large incumbent banks.

Unlike, a pureplay lending platform, SFBs are well-placed to holistically engage with a customer, offer them more products and give them better rates, thanks to their fast-growing deposits and branch banking franchise. Moreover, the requirements of more smaller ticket loans (for 50% of their portfolio) and enhanced exposure targets at 75% for priority sector has always been their mainstay and their core competence. Therefore, the opportunity landscape for SFBs is gradually widening and the road ahead is optimistic. Interestingly, for customers and SFBs, it is a win-win situation.

Technology and asset quality are the other two major differentiators and a game changer for SFBs, as they do not suffer from legacy asset quality challenges and are fresh off the woods. On the technology front, the same proposition holds true. As a modern-day and agile bank, an SFB can choose the best-in-class technology and digital solutions for delivering a seamless, cost-effective and superior customer experience. As Aadhar linkage to bank accounts will trigger faster formalisation of financial resources, SFBs are well placed to grow sustainably. With multiple advantages, SFBs are likely to be the most preferred choice for retail customers.

APPLICABILITY OF IND AS

In January 2016, the Ministry of Corporate Affairs (MCA) announced the IND AS roadmap for scheduled commercial banks (excluding regional rural banks), insurers/insurance companies and NBFCs. Reserve Bank of India (RBI) deferred the implementation of Ind AS by one year for scheduled commercial banks and Phase I is made applicable from 1st April 2019 onwards.

This extension will give banks ample time to set up their infrastructure and align their financial reporting processes to the IND AS guidelines. Adoption of a credit-loss model, requirement of higher capital towards provisioning are among the major changes under the IND AS framework.

KEY GROWTH SECTORS

Indian automobile sector

Highlights of FY 2017-18

- Passenger vehicle sales grew by ~8%, primarily led by 21% growth in utility vehicles
- Similar trend was witnessed in the commercial vehicles (CVs) sales with strong traction in the LCV segment, which grew by 25.4% (516,000+ units were sold last financial year); the M&HCV segment grew by 12.5%
- There was a strong pick-up in tractor demand as well, which grew 22% (711,000+ units were sold last year)

Outlook - Indian automobile sector

- Expectations of a normal monsoon at ~97% of long period average
- Government's commitment to double farmer income by 2022 will continue to drive demand for tractors
- Improved rural investments to aid prospects of tractors and two-wheelers
- Increasing urbanisation, expanding working population and stable cost of ownership are the key growth enablers
- Taxi segment with several apps is also driving further cars sales

Indian vehicle finance business

Highlights of FY 2017-18

- CRISIL Research estimated auto finance disbursements to grow at 19-21% in FY 2017-18
- Higher GDP growth, improved industrial activity, increasing finance penetration and higher loan-to-value (LTV) supported disbursement growth

Outlook - Indian Vehicle Finance business

- Rising penetration of car/utility vehicles (UVs) finance beyond the top 20 cities
- Better availability of credit information
- Implementation of Bharat Stage-VI (BS-VI) in FY 2019-20 will further enhance prices of vehicles, subsequently supporting disbursement growth
- Ease of availability of financing in Tier II and Tier III cities

At the NBFC platform, AU remained focussed on first-time users, first-time buyers and small road transport operators customer segment for the growth of its vehicle finance book; and at banking platform AU provides full boutique of services for its all retail customers, including two-wheeler vehicle loans to trucks and other heavy commercial vehicles.

AU focusses on being a preferred financier and 'best of choice' for its customers. It targets to achieve adequate scale in the vehicle finance business in view of projected demand in the coming years in Indian markets.

MICRO, SMALL AND MEDIUM ENTERPRISES (MSME) SECTOR

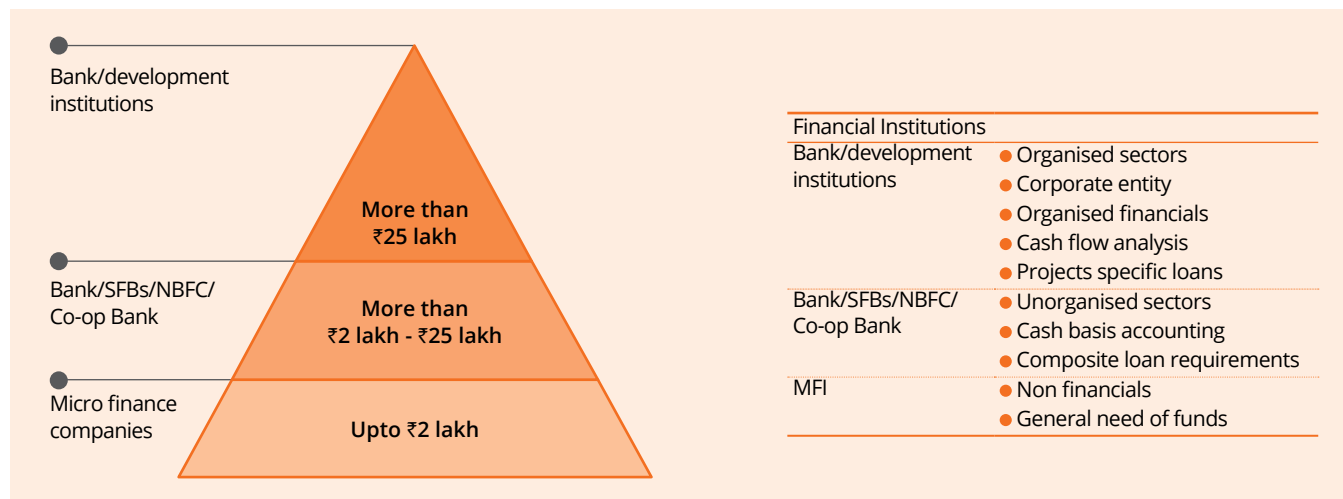

- The MSME sector employs over 111 million people and contributes to ~31% of India's GDP
- There are 63.3 million registered MSMEs in the country (Indian MSME Industry Annual Report 2018)
- Sharpening focus on the promotion of self-employment, the Government has increased funding for the Prime Minister's Employment Generation Programme from ₹11.95 billion (revised) in FY 2017-18 to ₹18.01 billion in FY 2018-19
- The target for the flagship Pradhan Mantri Mudra Yojana — which extends loans of up to ₹1 million to micro-entrepreneurs — has been increased from ₹2.44 trillion to ₹3 trillion
- Extension of multiple capital and interest subsidies to MSMEs have been announced
- In the formal sector, the Government proposes to contribute 12% of the wages of new employees in the Employee Provident Fund across sectors for three years
- Extension of the reduced corporate tax slab of 25% to companies with a turnover of up to ₹2.5 billion, from ₹500 million earlier
- The Government is encouraging the ease of doing business for MSMEs, making the norms of classification growth oriented

OUTLOOK FOR LENDING TO MSME

MSME credit is expected to grow at 12-14%, facilitated by higher lending by banks and non-banking finance companies (NBFC) to the segment. The initiatives will propel credit demand from the MSME segment, bolstering the prospects of banks that have a prominent presence in this segment.

AU positioned itself well to finance all customers segments, spanning the micro, small and medium enterprises. Following its conversion into a bank, AU Bank continues to touch all customer segments, within the MSME sector.

BRIDGING THE GAP IN INDIA'S MSME SPACE

HOUSING AND REAL ESTATE SECTOR

Highlights of the Indian housing and real estate sector

- India's housing and real estate sector has witnessed transformative reforms in the past few years, the government has been providing various incentives such as credit-linked subsidy scheme (in terms of interest rate subsidy) to the housing finance segment under the Pradhan Mantri Awas Yojana (PMAY), and infra status to affordable housing companies
- The RBI has also taken significant steps such as reduction in standard assets provisioning, risk-weights and increasing loan-to-value (LTV) ratio to build the confidence of financiers, as well as borrowers
- In FY 2017-18, disbursements to the sector were impacted by implementation of the Goods and Services Tax (GST) and Real Estate (Regulation and Development) Act or RERA

OUTLOOK FOR LENDING TO THE INDIAN HOUSING AND REAL ESTATE SECTOR

- CRISIL Research expects housing loan disbursements to grow at 18-20% CAGR over the next five years
- Going forward, increased higher Government support to affordable segments as well as enhanced disposable income in Tier II and III cities will boost overall housing loan demand
- Low mortgage penetration in India

GROWING OPPORTUNITIES

Evolving demographics

India's banking sector stands to benefit from multiple macro realities. Rising proportion of working middle-class families,

increasing trend of nuclear families and higher disposable incomes are expected to propel consumption demand and help drive banking sector growth.

Government's Digital India campaign

As a part of the Digital India drive, the Government of India has launched multiple initiatives to promote a cashless economy. These include Unified Payments Interface (UPI), Jan Aadhar Mobile, linking of Aadhaar number with Personal Account Number (PAN) and availability of free wifi at public places, among others. Such initiatives augur well for banks, offering a host of digital platforms, digital-only accounts, chatbots, artificial intelligence, to name a few. Rising trend of digitisation will accelerate the pace of customer acquisition and bring down costs incurred by banks towards servicing and retaining customers.

Improving Credit Growth

India's credit growth recovered at 10.5% (pre-demonetisation levels) to ₹86,507 billion in FY 2017-18 on the back of a strong demand for non-food credit. While corporate borrowings shifted largely towards working capital loans, retail borrowings fuelled this growth. Continued traction in housing loans, personal loans and vehicle loans was a key highlight of the year. Going forward, corporate borrowings are likely to improve due to a gradual improvement in corporate capital expenditure (capex). Improving credit demand from both retail and corporate segments augurs well for the country's banking and financial services industry.

Favourable Government policies

The Government of India has adopted a reforms-oriented approach to improve transparency and promote investments in various industries. Focus on recapitalising PSU banks and expediting the resolution of stressed loans continue to be major priorities for banks.

Higher thrust on achieving financial inclusion has been laid by the announcement of various initiatives. These include launch of the new portal 'Udyami Mitra' by The Small Industries Development Bank of India (SIDBI) to improve credit availability to the MSME sector. Simplification of KYC norms, introduction of no-frills accounts and Kisan Credit Cards are other measures aimed at driving financial inclusion.

Higher allocation to the infrastructure sector worth ₹50 lakh crore (US\$ 772.32 billion), as per the Union Budget FY 2018-19 will act as a key catalyst for the sector. Increasing formalisation of the economy via implementation of various reforms like demonetisation, GST, RERA, among others will bolster India's credit growth. The sector will derive benefits from the structural economic stability and continued credibility of monetary policies.

AU SMALL FINANCE BANK - PERFORMANCE OVERVIEW

AU Bank is one of the recent entrants in India's dynamic banking landscape. The Bank has recently transitioned from a prominent, retail-focused non-banking finance company (NBFC) to a Small Finance Bank (SFB), upon receiving a licence from the Reserve Bank of India to set up an SFB on 20th December 2016. Today, the Bank's expanded SFB operations offer a varied suite of banking products and services by capitalising on its asset-based lending strengths, NBFC customer base and cost-effective, technology-driven modernised branch operating model.

DIVISIONAL PERFORMANCE

Retail Assets

The Retail Assets continue to exhibit strong growth and comprise 81% of Gross AUM as on 31st March 2018

1. Wheels (Vehicle) Loans

In Wheels, we extended loans for new and pre-owned vehicles and for refinancing of vehicles across several categories including: (i) multi-utility vehicles (MUVs); (ii) cars; (iii) sports utility vehicle (SUVs); (iv) small commercial vehicles (SCV); (v) light commercial vehicles (LCV); (vi) medium- and heavy-commercial vehicles (MHCV); (vii) tractors; (viii) three-wheelers (TWH); (ix) two-wheelers (TW); and (x) construction equipment. Our Wheels loans are secured by the vehicles we finance. We have been serving first-time buyers (FTBs), first-time users (FTU), small road transport operators (SRTO) and captive users; who usually don't have formal income documents / proofs. As we transitioned into a Bank, we also started

serving customers with income proofs and also added medium- to large-fleet operators in our customer base. During FY 17-18, we also set up separate verticals for MHCV and tractors as they require specialised skillsets for originating and processing the loans. Further, we have also established separate vertical for TW, wherein we intend to digitise the loan processing to minimise the operational cost. Initially, we are focussing on our internal customer base for TW. This is reflected in the disbursement pattern of the segment, which recorded more than half of the disbursements to the existing customers.

Gross AUM for our Wheels business grew from ₹5,396 crore as on 31st March 2017 to ₹7,133 crore as on 31st March 2018 at an annual growth rate of 32%, constituting 44% of our total Gross AUM as on 31st March 2018.

2. Secured Business Loans – MSME (SBL-MSME)

In SBL-MSME, we extend loans to MSMEs primarily for business expansion, working capital and purchase of equipment. Typical customer base include are self-employed individuals who are carrying out small businesses (usually with annual turnover ranging between ₹10 lakh and ₹10 crore), having at least few years of track record in such business, generating cashflows at high frequency, having limited or no formal documented income proofs; for example: grocery/kirana stores, dairy/cattle rearing, hotel/restaurants, etc. Our approach to such customers is to first understand their business loan requirement, estimate business cashflows and thereupon determine their loan eligibility. Such loans are secured by immovable property. Gross AUM for our SBL-MSME loans grew from ₹3,213 crore as on 31st March 2017 to ₹4,977 crore as on 31st March 2018 (55% annual growth rate), constituting 31% of our total Gross AUM as on 31st March 2018.

3. Secured Business Loans – SME (SBL-SME)

In Secured Business Loans – SME, we extend loans to SMEs for business expansion, working capital and the purchase of equipment. Unlike MSME customers, SME customers have relatively bigger business in terms of turnover (typically annual turnover greater than ₹10 crore) and also have formal documented income proofs; for example: traders, wholesalers, distributors, retailers, manufacturers, self-employed professionals and others. Similar to MSME, our approach to such customers is to understand their business loan requirement, estimate business cashflows and in addition appraise documented income proofs and thereupon determine such customer's loan eligibility. Such loans are secured by immovable property.

We categorise our SBL-MSME and SBL-SME loans, basis their ticket size, with the initial SBL-MSME loan disbursed for an amount up to ₹1 crore; and the initial SBL-SME loan disbursed for amounts over ₹1 crore. Gross AUM for our SBL-SME loans grew from ₹630 crore as on 31st March 2017 to ₹842 crore as on 31st March 2018, at an annual 34% growth rate. This constitutes 5% of our total Gross AUM as on 31st March 2018.

4. Agri SME Loans

During FY 2017-18, we started the Agri-SME Loans vertical to focus on the agri value chain. While product features and approach are like SBL-SME loans, we set up a dedicated team to tap into credit needs of the agriculture and allied value chain like food processing units, fertiliser/seeds wholesalers and retailers, among others. Gross AUM for Agri-SME loans stood at ₹33 crore as on 31st March 2018.

5. Home Loans

Last fiscal, we relaunched housing loans on bank platform. At the bank platform, we intend to offer home loans from ₹2 lakh to above ₹50 lakh for a maximum 30-year tenure for salaried segment; and 20 years for self-employed non-income proof/self-employed income proof profile customers. Initially, we have started from Rajasthan and we plan to gradually expand this to 7 other states. We have enrolled with a subsidy scheme to offer relevant customer benefits under the Prime Minister Awas Yojana (PMAY)/ Credit Linked Subsidy Scheme. Gross AUM for home loans stood at ₹2 crore as on 31st March 2018 (Nil as of 31st March 2017).

6. Gold Loans

We offer gold loans from our branches and we have the requisite infrastructure for it. We have institutionalised adequate systems and processes to address relevant risks. In the gold loans segment, we intend to serve our existing customer base and walk-in customers at branches. Gross AUM for gold loans touched ₹26 crore as on 31st March 2018 (nil as of 31st March 2017).

7. Consumer Durable Loans

We also launched consumer durable loans as a pilot in partnership with 'Snapmint', a digital platform, wherein we offer cashless EMI option to customers purchasing consumer durables from various online retailers. We intend to offer consumer durable loans on a fully digital platform, wherein we either have sales personnel at to execute the entire loan process digitally at point of sale or customer himself/herself executes the entire loan process digitally, thereby reducing operational processes and cost. Gross AUM for consumer durables was ₹1 crore as on 31st March 2018.

Small & Mid-Corporate Assets

Small- and mid-corporate assets represent 19% of our Gross AUM as on 31st March 2018.

1. Lending to NBFCs, HFCs and AFCs

We extend credit facilities to non-banking financial companies (NBFCs), housing finance companies (HFCs) and micro finance institutions (MFIs). Further as a Bank, we can also offer short-term credit facilities like cash credit/overdraft, which further strengthen our product proposition with such financial institutions. Gross AUM for NBFC Lending grew from ₹555 crore as on 31st March 2017 to ₹1,527 crore as on 31st March 2018, at an annual 175% growth rate, constituting 10% of our total Gross AUM as on 31st March 2018.

2. Construction Finance

Under Construction Finance segment, we primarily serve the credit requirements of small builders, who typically construct G+2/G+3 structures having 7 to 12 dwelling units, completing the project between 18 and 24 months. Gross AUM for Construction Finance grew from ₹743 crore as on 31st March 2017 to ₹808 crore as on 31st March 2018 at an annual 8% growth rate. It constituted 5% of our total Gross AUM as on 31st March 2018.

3. Business Banking

We commenced business banking vertical to extend fund-based working facilities such as overdraft, cash credit and non-fund-based facilities like letter of credit and bank guarantee, among others to MSME and SME customer segments. Our past NBFC experience, customer connect and reach are enabling us to leverage the advantages of the bank platform in terms of serving fund-based and non-fund based working capital facilities to small businesses.

In the first year of banking operation, we built a Business Banking Gross AUM of ₹691 crore as on 31st March 2018.

LIABILITIES AND BRANCH BANKING

We commenced banking operation on April 19, 2017 with more than 200 branches in the first few weeks of launch. Gradually, we opened more branches and by the end of the financial year (as on March 31st 2018) we had operationalised 306 branches, along with 71 business correspondents, 97 asset centres, 23 offices and 292 ATMs across 11 states. Our contiguous expansion model

over the years and operational experience as an asset finance NBFC enabled us to develop our SFB operations into a single platform for multiple financial products and services. As a SFB, we offer entire bouquet of deposit products including Current Account, Savings Account, Term Deposit and Recurring Deposit. In the first year of operations as a Bank, we have opened 5,31,062 Deposit accounts of which about 83% were new to Bank. We garnered Deposits of ₹7,923 crore as on March 31, 2018 including Certificate of Deposits of ₹1,181 crore, excluding certificate of deposits, our branch deposits stood at ₹6,742 crore of which CASA stood at ₹2,133 crore and CASA ratio at 32%. In order to attract depositors, we introduced customer-centric initiatives to offer our customers convenience and value addition as below:

- Few product variants – easy to remember and recollect
- Top 3 Unique Selling Proposition (USP) for each product variant
- Hassle-free, paperless, digital TAB-based Savings Account opening
- Competitive interest rates
- Monthly credit of interest in savings account – compounding benefit to customers
- No home branch concept – true anywhere banking
- Extended banking hours
- Auto upgrade/downgrade of features – enabling automatic upgrade for customers maintaining higher than required average quarterly balance while no charge, only automatic downgrade for customers maintaining below threshold average quarterly balance, thereby removing fear of charges
- No deposit slips for cash withdrawal; no forms for demand draft or RTGS; less forms
- 'Customer Service Menu' form instead of 'Customer Request' form

We will continue to focus on our go-to-market approach to increase our customer base, implement customer reach programmes and will also encourage all our asset customers to open bank accounts with us. We have equipped our entire branch sales team with TABs, which has bio-metric for Aadhar validation, along with printer which in turn enable our sales team to seamlessly open Savings Account without any paper forms or documents or photographs. More than 95% of the Savings Account are being opened every month through this TAB-based equipment. We are working with our IT partner for enabling current account opening through this TAB-based equipment and should be able to launch the service in FY 2018-19. We have operationalised internet banking and mobile banking and are working to further ramp up both these channels with improvements

in user experience. We provide Debit Card offerings to our Savings Account customers in collaboration with VISA and RUPAY.

We offer locker facilities in our 238 branches and we have been able to market 5,445 lockers during FY 2017-18. We also offer payment solutions and have successfully installed more than 450 Point-of-Sale (POS) machines.

We also distribute general insurance products of Cholamandalam MS and health insurance of Aditya Birla Health Insurance. In April 2018, we tied up with Future Generali Life Insurance to distribute Life Insurance products through our distribution network. We have also partnered with 17 Asset Management Companies to distribute Mutual Fund to our customers.

*Note: Term Deposits excludes Certificate of Deposits of ₹1,181 crore as on March 31st, 2018. Including Certificate of Deposits, the CASA Ratio will be 27% as on March 31st, 2018 respectively.

RESOURCEFUL TREASURY MANAGEMENT

Our treasury department is responsible for fund raising and asset liability management, minimising the cost of our borrowings, liquidity management and control, diversify fund raising sources, managing interest rate risk and investing funds in accordance with the criteria set forth in investment policy. In addition to branch-based deposits, our funding sources include refinance facilities from All India Financial Institutions across India (like NABARD, SIDBI, NHB), capital market borrowings such as infrastructure bonds, tier II bonds and perpetual bonds, money market borrowings, inter-bank borrowings and liquidity adjustment facility and market stabilisation fund of the RBI.

The treasury department handles key initiatives such as raising funds, compliance with regulatory reserve requirements, judicious investment of funds, and resource management function, among others. In addition, with the Bank's evolution as an SFB, the risk-management function has become crucial to the team.

It undertakes safeguard measures to reduce market risk, liquidity risk, interest rate risk and funding risk. Our treasury team periodically submits its reports to the Asset Liability Management Committee which submits its findings to our Board.

*Average Cost of Funds represents simple average of monthly weighted average interest cost on deposits and borrowings and cost of securitisation and assignment, weights being daily average deposits and borrowings and principal outstanding of securitisation and assignment transaction as of the last day of the relevant period.

CUSTOMER ENGAGEMENT

Our core value proposition is our obsession with customer wellbeing. We partner with customers to address their financial requirements and provide them valuable insights to help them achieve their aspirations.

We have undertaken the following initiatives to focus on customer-centricity:

- In-person and frequent interactions with customers
- Call centres for quick redress of customers' grievances
- Local personnel for a better connect
- Conduct referral and other programmes
- Provide simple value proposition for deposit products
- Competitive interest rates for customers
- Introduced 'anywhere banking' for customer convenience

Our marketing initiatives include product promotion activities and referral programmes. Some of our initiatives include joint marketing activities with OEMs, event sponsorships and the broadcast of short advertisements in multiplexes. We have also engaged in data collection and increased brand visibility through strategies such as providing road safety training to drivers and arranging meetings at tea stalls.

We also introduced customer retention programmes 'Dost Banaye Dost Programme', a referral programme for our existing customers. Our referral programmes offer

incentives to employees who refer their family and friends to us and incentivises our sales team to cross-sell products to the same customer. In addition, we have separate tele-calling departments for each of our Wheels and SBL-MSME verticals that capture data from existing customers and generate new customers through referrals.

Our other marketing initiatives include AU on Wheels, AU Samarth, AU Chai Chopal activity, and AU Mandi activity, which enable us to generate substantial business. Several marketing initiatives like events, sponsorships and internal events – The Great Pink City Run, Jaipur Literature Festival, AU Bankotsav, and AU Samarth activity among others, have significantly helped to spread brand awareness.

WIDESPREAD RURAL AND SEMI-URBAN REACH

Around 60% of our branches are set up in rural and semi-urban markets of India. We have over 22 years of experience in the underserved regions that has enabled us to broaden our customer base in such areas as a bank. With a wide coverage in 11 states, we address the unique needs of our low and middle-income customers. Our understanding of the local markets and customers have enabled us to penetrate deeper into such markets. We focus on customers, particularly without a credit history, that offers us significant growth opportunities and customer loyalty.

Our competitive advantages:

- Decentralised model to optimise turnaround times
- Deep understanding of local markets and customers
- Personal interactive sessions with customers

ATMs**COMPREHENSIVE CREDIT ASSESSMENT AND RISK MANAGEMENT FRAMEWORK**

To identify, monitor and manage inherent risks in our operations, we have put in place a robust and comprehensive credit assessment and risk management framework.

We have set up separate credit teams for our key business lines of vehicle finance, MSME loans and SME loans. Our credit team (comprising in-house field investigation officers) conducts an independent verification of customers,

evaluates their businesses and financing needs, and analyses their loan-repaying capacity.

Our effective credit risk management is reflected in our portfolio quality indicators such as high repayment rates, lower Gross Non-performing Assets (GNPAs) and Net Non-performing assets (NNPAs) across business and economic cycles. As on 31st March 2018, our GNPAs and NNPAs were 2.0% and 1.3%, respectively.

**Asset Liability
Management Committee**

To evaluate liquidity and other risks, devise strategies to mitigate such risks and report its findings to our Board.

**Credit Risk and
NPA Management
Committee**

Set up for retail and wholesale banking to review and identify current and emerging risks, develop risk assessment and measurement systems and establish policies, practices and other control mechanisms.

**IT & Operational Risk
Management Committee**

To ensure rigorous monitoring and compliance.

Our key competitive advantages in risk management comprise:

- Robust policies and processes to assist people in risk-mitigation
- Loans disbursal towards revenue generating assets, resulting in lower risk
- Low ticket size (granular asset book)
- Substantially secured asset book
- Risk-based pricing
- Multi-layered system to strengthen our credit assessment process
- Deep understanding of vehicle finance and the MSMEs market
- Customised policies to cater to multiple customer requirements
- Specialised collections team to manage overdue collections

COMPLIANCE

Compliance starts at the top in the Bank. The Board of Directors of the Bank/Audit Committee/Risk Management Committee are responsible for overseeing the management of compliance risk and implementation of the Compliance risk management framework across the Bank. The compliance function is responsible for all aspects of regulatory compliance across the Bank. There are dedicated resources deployed to focus on areas like KYC/AML, regulatory reporting, review, monitoring and providing guidance on regulatory issues to the various functions. Compliance team supports top management by managing and supervising the compliance framework, along with providing compliance assistance to various businesses/support functions. The Bank has a new product approval policy and all new products or modifications to the existing products are approved by the Compliance so as to satisfy that these products are in compliance with the RBI regulations. The Compliance Department continues to approve all new products to ensure that the same are in line with the regulatory prescriptions. Chief Compliance Officer is a member of various committees, which enables him to monitor the compliance risk of the Bank effectively. The Bank uses the Knowledge Management Tools and looks at regulatory website for monitoring the changes in existing regulations as well as new regulations. Compliance also disseminates changes in regulations by way of compliance communication

to all employees. Training on compliance matters is imparted to employees on an ongoing basis both online and classroom. The Compliance Department keeps the management/Board informed about important compliance related matters through monthly, quarterly and annual compliance reviews.

MANAGING HUMAN ASSETS

At AU Bank, we are committed to build a formidable talent pool that can elevate the organisation to the next growth trajectory.

Our well-defined HR structure comprises HR managers, who report to the HR Head. The HR team at AU Bank focusses on strengthening the Bank's employee engagement and development framework with well-governed policies. The role of the HR department involves recruitment, training, engagement and performance management.

FY 2017-18 was critical in terms of recruiting people to fill the requirements at various levels and positions. With our expanding operations, the roles and responsibilities of the human resources team increased manifold. We successfully completed the task of matching the exact job requirements of the jobs with the candidates. Personnel from local communities were hired to enhance our sales force. We also employed in-house trainers and external training agencies to equip our team with better credit assessment, risk modelling and IT security skills. Bank continued to hire qualified manpower on Banking Platform and provided a range of employment opportunities to banking professionals covering liability, branch operation, treasury and for other functions. In FY 2017-18, your Bank expanded its workforce to 11,151 employees as on 31st March 2018 vis-à-vis 8,515 employees as on 31st March 2017.

We continue to invest in upskilling our people. During FY 2017-18, we conducted need-based trainings, induction, classroom sessions to help teams understand the organisational values and culture and their role in the organisation. Training and development sessions were conducted to ensure every employee undergoes trainings.

Performance management is crucial at AU Bank. We have a transparent appraisal process and incentive structure to reward the personnel. Special performers were recognised and rewarded with monthly and quarterly awards. During the year under review, our endeavour was to continuously motivate and nurture our employees, in alignment with the organisation's objectives.

BUILDING INFORMATION TECHNOLOGY FRAMEWORK

Our Best-in-class technology enhances customer convenience and streamlines operations to reduce cost. We underwent a radical transformation both in terms of business functions and hence, implementation of technology.

Going forward, we intend continuous technology upgradation with automated, digitised and other technology-enabled platforms and tools. The objective is to strengthen banking and financing initiatives and derive greater operational, cost and management efficiencies. We look forward to encouraging 24*7 convenient banking solutions, paperless onboarding, and workforce automation.

Greater adoption of our digital service delivery mechanisms and innovative applications will enable us to be more efficient, customer-friendly and over time perform more reliable data analytics. The result is profiling target customers and formulating offerings to suit diverse customer requirements.

INTERNAL CONTROL SYSTEMS

The Bank's internal audit department evaluates businesses and controls risks of all businesses and branches to create a risk-based internal audit plan, aligned to RBI's recommendation.

The annual risk-based internal audit plan is formulated, based on risk profiling of branches, businesses and departments, which is approved by the audit committee.

AU Bank's Audit Committee is appointed by the Board of Directors and it assists the Board. In review of the auditing and accounting matters and risks related thereto; and assesses the robustness, adequacy and reliability of our internal control systems.

Our Bank's internal audit function performs independent and objective assessment. It monitors adequacy, effectiveness and adherence to internal controls, processes and procedures instituted by the management and extant regulations. The function has adopted a risk-based approach of internal audit (RBIA). Following RBI's guidelines, we have adopted a robust internal audit policy, which helps us conduct RBIA across all auditable entities.

The internal audit function assesses business and controls risks of all branches and business units to formulate a risk-based internal audit plan, as recommended by the RBI. The audit frequencies are aligned with the risk profile of each unit to be audited with the objective assessment to monitor adequacy, effectiveness and adherence to the internal controls, processes and procedures instituted by Bank. The audit function also proactively recommends improvements in operational processes and service quality.

Moreover, the internal audit function conducts self-assessment of the Bank's Internal Financial Controls adequacy and operating effectiveness of such controls in terms of the Companies Act, 2013.

SWOT ANALYSIS

Strengths

- Diversified product portfolio and revenue streams
- Customer centricity
- Significant presence in rural and semi-urban markets with focus on low- and middle-income customers
- Robust and comprehensive credit assessment and risk-management framework
- Access to diversified funding sources
- Experienced management team and qualified operational personnel

Weakness

- Relatively new entrant in India's banking landscape. However, we have two decades of experience in retail lending as an NBFC and retail lending remains our primary source of asset growth as an SFB. The Bank has also made substantial investment in human resource, information technology and branch infrastructure to gain market share in assets, raise deposits and create brand awareness and recall.
- High proportion of Wheel loans and SBL-MSME segment and high concentration in the western states of India, particularly Rajasthan. The Bank is offering loans for all kinds of vehicles and have a diversified book within Wheels. Similarly, in SBL-MSME the Bank serves a wide variety of small businesses across various industries. Further, the Bank has diversified across various product segments with focus on retail customers. The Bank has expanded its footprint across 11 states in a contiguous manner.

With high-quality, new products and unexplored geographies, we will gain further market share, and thereby contribute in further diversification in product and geography base.

Opportunities

- Expanded market share in banking through greater financial inclusion and gaining market share from unorganised financiers and non-banks
- Capitalise on strong customer pull and access to cheaper and diversified source of funds
- Significant increase in consumption to further enlarge the financial market
- Leverage the Bank's distribution strength and customer reach

Threats

- Volatility in global or domestic economy may affect business

- Any political uncertainty and resultant impact on macro factors
- Inability to strengthen human resource, retain talent and imbibe AU DNA

OUR GROWTH STRATEGY

• Leverage existing capabilities and customer base

We intend to leverage our capabilities as a former asset finance NBFC, including our branch network, customer base, technology architecture, and local know-how in geographical areas in which we operate for our SFB operations.

As an SFB, we have strategically expanded our operations by offering a diverse suite of banking products and services, developed and set up additional branch architecture, improved our technology backbone in a phased manner and established our consumer branch footprint in geographical regions in which we conducted our NBFC operations. We will continue to focus on our go-to-market approach to increase our customer base, implement customer reach programmes and will encourage all our NBFC customers to open bank accounts with us.

• Deepen our presence in the existing and unserved markets

AU Small Finance Bank opened more than 306 bank branches and 71 BCs in the first year of operation in addition to 97 asset centres, 292 ATMs and 23 offices. While historically most of our operations were in Rajasthan, Gujarat and Maharashtra, we have grown our operations in relatively unexplored contiguous markets (Madhya Pradesh, Chhattisgarh, Punjab, Haryana, the National Capital Region and Himachal Pradesh).

We intend to leverage our branch network to drive greater and deeper penetration in the western and northern states of India in which we operate, focussing on low- and middle-income individuals and businesses that have limited or no access to formal banking and finance channels, spanning rural, semi-urban and urban markets.

• Provide a comprehensive suite of banking products and services

We offer a broad range of banking and financing products and services as part of our SFB business. We have expanded beyond our previous business lines to offer additional asset products such as home loans, gold loans, agriculture related SME loans, consumer durable loans, two-wheeler loans and working capital facilities to MSME and SME (business banking).

Our liability offerings include current accounts, savings accounts, term deposits and recurring deposits and collections and payments solutions for MSME and SME customers. We also intend to distribute mutual funds, general insurance, life insurance and health insurance. We intend to operate as a one-stop shop, delivering high-quality products and services, along with a standardised customer experience across branches to a diversified customer base.

- **Automation, digitisation and intensive technology use to expand business**

We continue to upgrade our technology systems with automated, digitised and other technology-enabled platforms and tools, to strengthen our banking and financing initiatives; and derive greater operational, cost and management efficiencies. We intend to provide a differentiated technology framework, enhancing convenience for our customers and reducing operational expenditure at our branches.

We have equipped our sales force with tablets integrated with biometric devices and Bluetooth printers to enable faster customer verification, account opening and activation. We will continue to digitise our processes to reduce turnaround times and enhance

efficiencies of our employees, improve customer friendliness and perform more reliable data analytics in future. Such a strategy will result in profiling of target customers, and tailor-made products to suit diverse customer requirements.

- **Enhancing brand presence**

We seek to leverage and enhance our brand to build our presence in the banking sector and develop new customer and industry relationships beyond our existing business lines. In this regard, we may explore opportunities to enter into strategic as well as service-level collaborations for customer aggregation and servicing, to take our SFB to the customer, and thereby build and expand our network of branches and increase our penetration of the non-institutional depositor and customer base.

We seek to build our brand by continuing to engage with existing and potential customers through customer literacy programmes, sponsor popular events in the regions we operate and place advertisements in newspapers, on the radio and in other advertising media. We have recently launched our new logo for our SFB operations; and will continue to invest in various brand-enhancement initiatives.

Branch Banking and Liability Products

Our Branch Banking and Liabilities Franchise caters to a diverse set of customers including self-employed, salaried individuals, children, women entrepreneurs, senior citizens, companies, societies, trusts, educational

institutions, hospitals, government corporations and local bodies, among others. The branch network is spread across 306 Branches and 71 business correspondents in 11 states and covers Tier I urban centres, metros and all the way up to Tier V and Tier VI rural and semi-urban unbanked and unreached markets.

Our comprehensive product suite includes Savings Account, Current Account, Term Deposits, Lockers, Bank Guarantee, Gold Loan and so on. Through our empaneled partners, we also provide Point of Sale (POS), Life and Health Insurance, along with Mutual Fund investment solutions to our customers.

The focus of Branch Banking services is on providing ease of banking to our customers by offering minimum documentation, paperless banking and extended banking hours.

In line with the Government of India's focus, your Bank is committed to increase the reach of formal banking services across the country and extending banking services to the 'belly of the nation'.

Products and services combined with our continuous focus on increasing customer convenience through innovative digital solutions and in-branch transactional conveniences aim at providing a robust banking platform to our customers. Our superior product offering coupled with our strong customer-centric approach shall translate into brighter prospects for the Bank in the coming years.

Business Correspondents

The regulatory intent of setting up Small Finance Bank was to enhance reach and financial inclusion in the country by provisions of saving vehicle and supply of credit to small business units, small and marginal farmers, micro and small industries and other unorganised entities through high-end technology and low-cost operations.

Keeping in mind above key guiding principles for setting up of Small Finance Bank, the Bank started financial inclusion initiatives by adopting business correspondent (BC) structure, an alternative for providing banking services to both urban and rural customers. The Bank provides various products and services such as Savings Accounts, Term Deposits, loans, Remittances, Loan Repayments and offers other services.

BC Structure is fully technology-enabled i.e. opening Savings Accounts through tabs via biometric authentication done by linking the accounts to Aadhaar. The focus of the Bank is on development of innovative and low-cost technology solutions for providing convenient banking services in rural areas. During FY 2017-18, we set up 71 banking outlets under BC structure and will leverage our capabilities in years to come.

Retail Assets

Your Bank provides a wide range of retail asset products including Vehicle Loan, Secured Business Loan to micro, small & medium enterprises (MSMEs) and small and medium-sized enterprises (SMEs), Gold Loan, Consumer Durable Loan, Agri-SME Loan and Home Loan to cater the entire financial lifecycle needs of customers.

As a '**New Generation Bank**', we focus on making banking simple for masses by smart use of technology. This leads to deeper customer engagement in a cost-effective manner.

In terms of retail finance, quantum of funding is gradually increasing industry wide. To acquire mindspace of our customers and to stay ahead of competition, we continue to focus on '**customer delight**' by building strong and personalised relationships with retail clients and serving their needs with the use of emerging technologies.

The performance of your Bank's retail banking business was robust during the year under review. Total Deposit base was ₹7,923 crore and excluding certificate of deposits, Deposits stood at ₹6,743 crore and healthy CASA Ratio of 32%.

Vehicle Loan and MSME Loan account for bulk of the retail loan book and revenues. The Bank's Retail Asset Under Management were ₹13,013 crore in this period. During the year under review, with a continued focus on semi-urban and rural markets, the Bank grew its active loan accounts from 2.80 lakh in previous year to 3.58 lakh in the current year.

The Bank recently announced launch of its Home Loan product and would continue to offer and introduce new tailor-made products to service home finance needs of customers.

Small & Mid Corporate Assets

The Bank's Small & Mid-corporate business caters to the diverse needs of a wide range of corporate customer segment including SMEs, Indian corporates, financial institutions, public-sector undertakings, mid-market companies and real estate businesses. The business offers a comprehensive portfolio of products and services to these customers including term loan, working capital finance, trade finance and other services including finance to non-banking financial company (NBFCs), microfinance companies, housing finance companies (HFCs) and for construction finance.

The disbursements in this segment were ₹3,303 crore against ₹1,161 crore in the previous year registering a growth of 185% and Asset Under Management stood at ₹3,025 crore with 102% increase over the previous year.

The Bank's NBFC experience empowers it to expand its loan book by focussing on development financing and ensuring deeper financial inclusion through credit extension to NBFCs/MFIs/HFCs.

Treasury Update

The Treasury Department of the Bank manages asset liability gaps, fund planning, regulatory liquidity requirements (CRR, SLR and LCR) and investments portfolio (both SLR and Non-SLR) of the Bank. The asset-liability mismatches and interest rate sensitivities of the Bank's portfolio are efficiently tracked (SLS and IRS) and managed through various market investments and money market products. On the other hand, the treasury is also responsible for managing and keeping cost of funds low for the Bank by utilising available resources and efficient planning.

The treasury also ensures that the Bank meets its regulatory requirements on Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR) through efficient liquidity management and government bonds position management. The SLR portfolio durations were efficiently placed in anticipation of the interest rates movements, within the overall risk framework and under the oversight of the Bank's Investment Committee. The treasury also successfully maintained appropriate liquidity buffers as per the regulatory requirement of the Liquidity Coverage Ratio (LCR) guidelines, while keeping the business requirements under consideration.

In its first year of operation, the Bank has successfully grown its relationship with major banks both in private sector and public sector, through mutual inter-bank limit set-up and executing money market transactions actively. The treasury is responsible to manage their excess funds through various investment as per approved regulatory frameworks and internal policies to get optimum yields with minimum risks. At the same time, the treasury could achieve the optimum cost of funds by encouraging branches to mobilise sufficient deposits and to build retail liability franchise by offering attractive rate of interest keeping in view prevailing interest rate scenario.

Update on Financial Institutions Group (FIG)

Financial Institutions Group (FIG) was formed to manage the overall relationship with various financial market participants like Banks, Mutual Funds, Insurance companies, Development Finance Institutions (DFI), Multilaterals, as well as with associates and intermediaries like credit rating agencies, legal firms, stock exchanges and merchant bankers. At the same time, FIG is responsible to facilitate long-term liquidity for the Bank according the requirement and limits set up including non-fund based limits for trade transactions (in the form of LC/BG) with counter parties and market participants.

During the year under review, your Bank got a rating upgrade to AA-(Stable) from two rating agencies – India Ratings and CARE Ratings. The Bank has also been able to set up counter-party limits with most of the private and

public-sector banks for ensuring various inter-bank transactions and liquidity management. Further, to provide cushion in extreme liquidity scenarios, the Bank has been able to secure Line of Credit facility from a public-sector bank as well. In this process, the Bank has tied-up with various private and public-sector banks to ensure availability of Trade and Remittance products for its clients and has successfully facilitated quite a few inward and outward foreign currency transactions including issuance of trade instruments (L/C and Bank Guarantees) and processing of trade payments.

At the SFB platform, the Reserve Bank of India (RBI) prescribed an additional capital charge of 25% on the secured borrowings brought forward in the Bank balance sheet (Grand-Fathered secured borrowings). To avoid any resulting reduction in the capital adequacy, the Bank could convert almost all its Secured Non-Convertible Debentures (NCD) and term loans to Unsecured. To reduce the overall cost of borrowing, the FIG team undertook specific projects with an aim to either pre-pay or re-price existing term loans, pre-pay and replace high-cost NCDs with alternate market borrowings and moved 90% of existing third-party secured bank guarantees to different banks on an unsecured basis and at lower pricing. This helped in optimising the cost of contingent liability on the Bank's securitisation obligations.

In terms of liquidity management, the Bank managed to enhance its relationship with domestic Development FIs (DFI) like NABARD, SIDBI, MUDRA and availed long-term, low-cost refinance facilities for substantial amount under various schemes. This helped your Bank to continue providing long-term assistance to various under-banked and under-served customers in rural and semi-urban locations and to manage its ALM.

Implementation of Treasury Software and Other Platforms

On the treasury systems front, the Bank went live and stabilised with RBI platform e-Kuber, Treasury Management System by Credence Analytics from the start of bank transactions, Structured Financial Messaging Systems (SFMS), National Electronic Fund Transfer (NEFT), Real Time Gross Settlement System (RTGS) and Clearing Corporation of India Limited (CCIL) systems, which include money market and sovereign bond dealing platforms. The Bank's treasury has established, in partnership with external vendors, a robust primary & secondary Data Centre and Disaster Recovery Centre, to secure the live systems, which are vital to the Bank's business continuity. All systems and platforms are working seamlessly as per treasury requirements. Treasury has also successfully implemented its Business Continuity Plan (BCP) for any contingency.

Investments

Treasury is required to maintain SLR investments in the form of Central and State Government Securities as per regulatory requirements of 19.50% of NDTL within approved policy criteria in terms of duration and risk profile.

Transaction Banking

Your Bank is committed to provide customers the convenient banking. Innovative thinking and increased ownership of the Bank has led to greater customer convenience through:

- **No deposit slips**
Our customers can just walk up to our branch counters and deposit their cheque/cash without going through the mundane and tedious task of having to fill up a deposit slip and its respective counterfoil. We ourselves generate a receipt of deposit and duly hand it over to our clients. Keeping the same thought of customer convenience at the helm, we also understand that there may be some clients who may desire the use of deposit slips and that is why, the deposit slips are also made available at all our branches.
- **Biometric authentication based 'paperless' customer on-boarding**
We have significantly reduced the use of account opening forms through our initiative of using a TAB-based application for on-boarding our customers. Through this initiative a customer is on-boarded through biometric authentication of Aadhar credentials.
- **Simpler customer instruction forms**
In all our customer instruction forms, we have consciously eliminated details being repetitively sought from our customers, such as we have eliminated the requirement to specify amount in figures and thereafter in words as well.
- **Extended banking hours**
We recognise the busy schedule of our customers and thus, provide formal banking services according to their convenience. We offer extended banking and locker operating hours for our customers.
- **Seeding of AU Bank account to receive Direct Benefit Transfer (DBT) benefit**

Our clients can choose to seed their AU Bank account with the NPCI (National Payments Corporation of India) mapper to receive DBT benefits and subsidies. This feature allows us to provide a more integrated offering to our clients.

Technology and Digital Banking

Digital solutions have always been at the core of all initiatives and offerings of the Bank with an overall focus

on increasing customer convenience and satisfaction. Your Bank has implemented a scalable best-in-class technology stack with 20+ advanced applications catering to the entire lifecycle of the customer engagement right from lead generation to loan satisfaction including digital on-boarding of customers, core banking system, human capital management, risk management and expense management, among others.

Some of the key digital initiatives undertaken by the Bank since its inception are:

- We offer instant account opening through a TAB-based application using biometric customer authentication. This initiative has not only increased customer convenience by providing instant account opening but has also reduced paperwork by e-validation of the customer's Aadhaar credentials. Along with customer convenience, this initiative also serves the objective of being 'eco-friendly' given that there is a significant reduction in paperwork. This initiative has been very well received by our customers and incrementally every month more than 95% of the savings account customers are being onboarded through TABs.
- Launch of our Mobile Banking application has made banking services available to our customers at their convenience.
- We have partnered with Bijli pay and India Transact Services Limited (ITSL) to provide POS solutions to our customers. This has equipped our customers (merchants) to digitally accept payments.
- We have aimed at providing utmost transactional convenience, in a completely secure environment, to our customers through our continuously evolving IPC and mobile banking based digital platforms. With facilities such as account summary, creation of Fixed Deposits, stop payments, fund transfers, NEFT, RTGS, IMPS and others, we are implementing the technological advancements for our customers' convenience.
- Your Bank implemented best-in-class technology stack including Core-Banking System, Human Capital Management, Risk management suite from Oracle.

Ratings of Debt Instruments

The Bank has been assigned by various credit rating agencies viz. India Ratings, CARE, CRISIL, ICRA and Brickworks for its Debt instruments and debentures. Credit rating of Bank was upgraded by India Ratings from 'IND A+ (Positive)' to 'IND AA- (Stable)' and by CARE Ratings from 'CARE A+/Stable' to 'CARE AA-/Stable' covering debt instruments of the Bank in view of strong consistent performance on quarter to quarter.

The Ratings of Debt Instruments are as follows :

**Mr. Sharad Vishvanath resigned and relieved during FY 2017-18 and No ESOPs were exercisable during the tenure of his employment with the Bank.

Note 3

The Securities and Exchange Board of India (SEBI) has prescribed two methods to account for stock grants; namely (i) the intrinsic value method; (ii) the fair value method. The Bank adopts the intrinsic value method to account for the stock options it grants to the employees. The Bank also calculates the fair value of options at the time of grant, using Black-Scholes pricing model with the following assumptions:

Particulars	31st March 2018
Risk-free interest rate (%)	7.42%
Expected life (years)	2.58 yrs - 5.34 yrs
Expected volatility (%)	44.68%
Expected dividend rate (%)	0%

Note 4

The Bank measures the cost of ESOP using the intrinsic value method. Had the Bank used the fair value model to determine compensation, its profit after tax and earnings per share as reported would have changed to the amounts indicated below:

(₹ in crore)		
Particulars	Year ended 31st March 2018	Year ended 31st March 2017
Profit after tax as reported	292.04	821.98
Add: ESOP cost using intrinsic value method (net of tax)	9.24	2.66
Less: ESOP cost using fair value method (net of tax)	12.51	4.09
Profit after tax (adjusted)	288.76	820.55
Earnings Per Share (in ₹)		
Basic		
- As reported	10.26	30.18
- Adjusted for ESOP cost using fair value method	10.14	30.12
Diluted		
- As reported	10.00	29.61
- Adjusted for ESOP cost using fair value method	9.89	29.56

(₹ in crore)		
Particulars	As on 31st March 2018	As on 31st March 2017
Stock options outstanding (gross)	94.04	14.01
Deferred compensation cost outstanding	73.76	7.86
Stock options outstanding (net)	20.28	6.15

The 3,60,000 options granted under plan C4 had a different vesting schedule, however, the options granted expired without any vesting to the grantee as the service conditions were not fulfilled. Accordingly, these options have not been considered for the purpose of computing the impact of ESOP fair value on profit before tax.

The Bank has granted 38,702 and 10,18,758 stock options on 27th October 2017 to Whole-time Director under Plan A3 and plan B5, which are pending for approval from the RBI. Accordingly, these options have not been considered for the purpose of computing the impact of ESOP fair value on profit before tax.

The Asset Liability Management Committee (ALCO) of the Bank oversees the framework for identification, measurement and management of market risk, interest rate risk and liquidity risk in the Bank and ensures compliance with established internal and regulatory, prudential limits.

IT Risk

Your Bank ensures that business information to which they have access, including computer systems they utilise in the performance of their duties, is protected from inappropriate access, disclosure or modification. The Chief Information Security Officer (CISO) is responsible for monitoring the information security risk covering all aspects of data security for the Bank. We have also placed a Cyber Security Operation Center (CSOC) with qualified professionals who report into CISO office for monitoring

of real time Cyber Security Incidents. The Chief Technology Officer of the Bank is responsible for overall IT governance covering Technology Infrastructure & Solutions, monitoring of product development & support. He is also responsible for supervision of process of network access logs, process of firewall log reports, process for port access reports for critical network devices, monitoring of Network Operations Center (NOC) and process of Change and Incident management.

Business Continuity Plan

The Business Continuity Plan (BCP) manages and supports business recovery in the event of facilities disruption or disaster. Your Bank has framed BCP, which includes policies, standards and procedures to ensure continuity, resumption and recovery of critical business processes, at an agreed level and to limit the impact of the disaster on people, processes and infrastructure. It minimises the operational, financial, legal and other material consequences arising from such a disaster.

Cyber Security

As technology has drastically changed banking services, products, methods of operation and the way banks function, your Bank has been able to offer more products to increase customers' delight, operational efficiency and reduce operational expenses of banking services. However, it is equally true that the advent of technology has also made banks vulnerable to cyber-attacks. To combat growing cyber threats and enhancing the resilience of the banking system to address cyber risks, your Bank has set up a framework for Cyber Security in compliance of guidelines issued by Reserve Bank of India.

Cyber security is the combination of technologies, processes and practices designed to protect networks, computers, programmes and data from cyber-attacks, damage or unauthorised access. Cyber space is a complex environment consisting of interactions between people, software and services, supported by worldwide distribution of Information and Communication Technology (ICT) devices and networks.

E. MANAGEMENT DISCUSSION AND ANALYSIS

Management Discussion and Analysis Report for the financial year under review is presented in a separate section forming part of this Annual Report.

F. OTHER STATUTORY DISCLOSURES

Conservation of energy and technology absorption

The Bank's systems and processes have been aligned by adopting sophisticated technology for conservation of energy, in view of the challenges faced due to increased uses of electronic equipment and computer systems in the banking industry.

Your Bank as part of its digitalisation strategy is focussed upon building an IT architecture in a manner to achieve internal natural resource consumption efficiencies and minimising its carbon footprint and efforts made by the Bank for Conservation of energy and absorption of technology have been detailed below:

Buying energy efficient hardware

Your Bank is procuring its hardware from major hardware vendors including notebooks, workstations and servers that meet the Environmental Protection Agency's (EPA's) Energy Star guidelines for lower power consumption. Further, multicore processors increases processing output without substantially increasing energy usage.

Using power management technology and best practices

Modern operating systems running on Advanced Configuration and Power Interface (ACPI) enabled systems incorporate power-saving features that allows to configure monitors and hard disks to power down after a specified period of inactivity. Systems can be set to hibernate when not in use, thus powering down the CPU and RAM as well.

Using virtualisation technology to consolidate servers

We have reduced the number of physical servers and using

virtualisation technology to run multiple virtual machines on a single physical server. The virtualised infrastructure would decrease energy costs substantially.

Consolidating storage with SAN/NAS solutions

Consolidation of storage using storage area networks and network attached storage solutions reduces the energy consumption.

Recycling systems and supplies

To reduce the load on already overtaxed landfills and to avoid sending hazardous materials to those landfills (where they can reach into the environment and cause harm), old systems and supplies are reused, repurposed and recycled. We have started by repurposing items within the Bank; for example, in many cases, when a graphics designer or engineer needs a new high-end workstation to run resource-hungry programs, the old computer is perfectly adequate for use by someone doing word processing, spreadsheets, or other less intensive tasks. This hand-me-down method allows two employees to get better systems than they had, while requiring the purchase of only one new machine (thus saving money and avoiding unnecessary e-waste).

Reduced paper consumption

Another way to save money while reducing the Bank's impact on the environment is to reduce consumption of paper. We have done this by switching from a paper-based to an electronic workflow by creating, editing, viewing, and delivering documents in digital rather than printed form. During FY 2017-18, substantial number of Savings Accounts were opened through TABs that has enabled savings for the Bank.

Foreign exchange earnings and outgo

During the year ended 31st March 2018, there was no foreign exchange earnings and outgo.

MD & CEO and CFO Certification

The MD & CEO and the CFO of the Bank have issued certificate certifying that the financial statements do not contain any materially untrue statement and these statements represent a true and fair view of the Bank's affairs. They also certify that no transactions entered into during the year were fraudulent, illegal or violative of the Code of Conduct of the Bank. They are responsible for establishment and maintenance of the Internal Financial Controls for financial reporting and they have indicated to the auditors and the Audit Committee about any significant changes in internal control over financial reporting, significant changes in the accounting policies and instances of significant frauds, if any, which they were aware of. The certificate of MD & CEO and the CFO is forming part of this report.

G. OTHER DISCLOSURES

Your Bank continued to comply with guidelines of RBI and other applicable regulations as applicable on our Bank.

SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

During the period under review, the Bank has complied with all the mandatory requirements of Regulation 17 to 27 of SEBI (LODR) and other applicable Regulations except for Regulation 24, which is not applicable to the Bank.

Accounting Treatment

The Bank has adopted accounting policies which are in line with the accounting standards and financial statements are prepared in adherence to the accounting policies, accounting standards and applicable provisions of Companies Act, 2013 and Listing Regulations.

Subsidiary Companies

During the period under review, the Bank does not have any subsidiary companies. Hence, Form AOC 1 as specified under Companies Act, 2013 is not applicable on Bank.

H. INVESTOR RELATIONS

Pursuant to the applicable compliance of Listing Regulations, your Bank publishes financial results on quarterly basis, which are duly reviewed by the Audit Committee before submission to the Board. The financial results of the Bank are also posted on the website of the Bank. The Managing Director and CEO/WTB and Chief of Investor Relations, at regular intervals comes on conference call with the analysts/shareholders and responds to the queries from investors on quarterly basis.

For share transfers, dividend payments and all other investor related activities are attended to and processed at the office of our Registrars & Share Transfer Agents, i.e. Link Intime India Private Limited, contact details of which are provided under corporate governance report section of Annual report.

The Bank's has the Board approved policy, 'Investor Grievance Redressal Policy', which lays down the simplified procedure for shareholders to submit their queries, concerns and grievances for timely resolution. Shareholders can write at investorrelations@aubank.in for any query and can also visit the Bank's website for more information on the Bank at www.aubank.in

DETAILS OF IMPLEMENTING AGENCIES

Pratham Shiksha Charitable Trust

AU Bank is providing financial support to 'Pratham Shiksha Charitable Trust' for operating school for underprivileged children in Jaipur district. Illiteracy is a serious impediment to development and improvement in quality of life and this trust is committed to promote and support basic education for unprivileged children from backward and low-income families with special focus on improving the quality of education and to help the deprived section of the society to uplift themselves to mainstream economy. This institution is supported with funds from personal and corporate contributions.

Muskaan Foundation

Muskaan Foundation is a not-for-profit organisation (NPO) trust committed to contribute towards safety on roads through awareness, education, training, and promotions. Road safety refers to the methods and measures used to prevent road users from being killed or getting seriously injured. The NGO uses an integrated, community-centric approach towards the issue of road safety. Road accidents takes around 1.5 lakh lives every year. This year on the world Remembrance Day, AU Bank joined hands with Muskaan Foundation, to spread awareness on road safety through an event on the theme of 'Love, Hope, and Positive Action'.

Akshaya Patra Foundation

The Akshaya Patra Foundation is a not-for-profit organisation feeding millions of underserved children in India by implementing the mid-day meal scheme in the government schools and government-aided schools. Akshaya Patra Foundation is committed to eradicating the two crucial issues of hunger and malnutrition in India. Today, Akshaya Patra is the world's largest (not-for-profit run) Mid-Day Meal Programme serving wholesome food every day to over 1.6 million children from 13,839 schools across 12 states in India. In Rajasthan, it has been providing food to 2,672 schools and 1,70,729 children have benefitted under their mission.

The education sector in India has grown in leaps and bounds and there have been significant improvements across different indicators. Over the years, your Bank's persistent partnership with Akshaya Patra has made it possible to raise a generation of hunger-free, educated and nourished Indians. The mid-day meal scheme is truly one of the best interventions in promoting education, reducing dropout rates and improving overall physical and mental health of children.

Louis Braille Drishtiheen Vikas Sansthan

Louis-Braille Drishtiheen Vikas Sansthan is a non-government social service organisation based in Jaipur. It was established in 1981 on the birth date of Sir Louis Braille, father of literacy for the visually challenged. The organisation works to provide service towards the visually challenged through education and vocational training with special focus on women, socially backward and vulnerable persons. Vocational skills are also important and endeavour to build the children's social skills and confidence.

HECARDS

Human Educational Cultural Art & Rural Development Society (HECARDS) has been a NGO partner for implementing of promotion of education based CSR activities for the Bank. This year we joined hands with HECARDS for promoting sporting talent, educational activities and preventive healthcare facilities and also to organise vocational employment generating training programme for women.

Promotion of Sports

The Bank joined hands with Sports Omnibus, for promotion of football at grass root level and rural areas. Sports Omnibus, with the team of technical experts, helped in moulding and shaping the first steps of children in football. More than 200 children associated with us for the grass root football festival hosted at AU Bank Sports Village.

We also partnered with Public Charitable Trust for the second season of Jaipur Mahakhel where more than 5000 students participated in sports events covering schools of rural Rajasthan.

DIRECT INITIATIVES

Water coolers

One billion people around the world don't have access to clean, safe water. Safe water is a critical environmental and public health issue, as well as a means to lift people out of poverty and ensure human security. Yet the number of people without safe water is increasing. Providing safe water is an essential step for human health and development. By encouraging leadership and generating momentum for solutions, we can save millions of lives. Over last few years, AU Bank has installed several water coolers at various high population density areas across Rajasthan with the aim of providing chilled potable drinking water during scorching summers. AU Bank also further extends to the timely repair and maintenance of these water coolers. AU Bank has set up over 73 water coolers in and around Jaipur.

Health camps and Eye check-up camps

The Bank promotes the cause of good hygiene and sanitation practices in the community. For underprivileged and poor people receiving the right healthcare services is a tough task. AU Bank has been associated with Shekhawati Agrawal Samaj in providing affordable and free healthcare services to the poor. AU Bank has collaborated with them for providing financial assistance to organise monthly health check-up camps and eye check-up camps at Jaipur. Through eye check-up camps 5093 patients got benefit of free OPD services.

Sanitation-related Initiatives – promoting Swachh Bharat Mission

AU Bank supports the Swachh Bharat Mission through multiple initiatives focussed on promoting sanitation. Our key sanitation initiatives for the FY 2017-18 included:

- Public toilet facility at Vridhjan Park in Bikaner for providing facility to morning walkers who frequent this public park. More than 1000+ people use this facility daily.
- AU Bank supported the construction of toilet built at Girls Nursing College, Amarsar.
- AU Bank supported Kalyan Singh School, a government school in Shahpura, in building a urinal facility for the children, thereby benefitting over 800 children

6. REASON FOR NOT SPENDING 2% OF THE AVERAGE NET PROFIT OF THE LAST THREE FINANCIAL YEARS OR ANY PART THEREOF:

AU Bank spent ₹4.23 crore in FY17-18 for CSR activities, the details of which were captured above. This amounts to 1.24% of average net profits of the last three financial years.

The lower spend in FY 2017-18 was on account of:

1) Adoption of a Collective and Sustainable CSR Framework on Bank Platform

It is pertinent to highlight that in FY 2017-18, AU transitioned from being an NBFC to a Bank and continued its mission of last 22 years of serving the unbanked and under-banked populous. In FY 2017-18, AU Bank also took a strategic call to develop a sustainable and collective CSR framework. Towards this, AU Bank developed their in-house capabilities, beefed up its CSR team.

Also, AU Bank approached RBI and received approval from it for setting up its own foundation. AU Bank is currently awaiting an approval from RBI on the names of Trustees of the foundation and post which the foundation would be set up.

2) Part diversion of management bandwidth for Bank transitioning

Given the transition into becoming a Bank, some portion of management bandwidth got consumed in key activities associated with the Bank transitioning and took their regular focus away from CSR projects. The Bank transitioning required investment of management bandwidth in hiring the entire new team of branch banking and liabilities, equipping the Bank with best-in-class technology stack to offer easy, convenient and accessible banking to its customers. Besides that, to comply with the SFB guidelines, the Bank went public and got listed on BSE and NSE.

Plan for FY 2018-19: AU Bank sincerely assumes its CSR responsibilities and is committed that all its CSR programmes cater to community needs, addressing issues of national interest through a long-term strategic approach. Therefore, AU Bank proposes to utilise the unspent amount of FY 2017-18 in due course.

7. A RESPONSIBILITY STATEMENT OF THE CSR COMMITTEE THAT THE IMPLEMENTATION AND MONITORING OF CSR POLICY IS IN COMPLIANCE WITH THE CSR OBJECTIVES AND POLICY OF THE COMPANY.

CSR Committee hereby confirms that the implementation and monitoring of CSR Policy is in compliance with the CSR objectives and CSR policy of the Bank.

Secretarial Audit Report

For the Financial Year Ended 31st March 2018

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
AU Small Finance Bank Limited
[Erstwhile Au Financiers (India) Limited]
19-A, Dhuleshwar Garden
Jaipur – 302 001 (Rajasthan)

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **AU Small Finance Bank Limited [Erstwhile Au Financiers (India) Limited]** (hereinafter called '**the Bank**'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Bank's books, papers, minute books, forms and returns filed and other records maintained by the Bank and also the information provided by the Bank, its officers, agents and authorised representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Bank has, during the audit period covering the Financial Year ended on March 31, 2018 (Audit Period) complied with the statutory provisions listed hereunder and also that the Bank has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Bank for the Financial Year ended on March 31, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 (SCRA) and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 (SEBI Act):
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; **(Not applicable to the Bank during the Audit Period);**
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; **(Not applicable to the Bank during the Audit Period);**
 - (i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- (vi) As confirmed, following other laws are specifically applicable to the Bank for which the Management has confirmed that the Bank has devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively:

- (a) The Reserve Bank of India Act, 1934;
- (b) The Banking Regulation Act, 1949;
- (c) Guidelines issued by Reserve Bank of India ("RBI") on Small Finance Bank dated 27th November 2014 and Operational Guidelines issued dated 6th October 2016;
- (d) Other Applicable RBI Guidelines to a 'Banking Company'; and
- (e) Master Circulars/Circulars/Press Releases issued by the RBI from time to time.

We have also examined compliance with the applicable clauses of the following:

- i. Secretarial Standards issued by The Institute of Company Secretaries of India;
- ii. The Listing Agreements entered into by the Bank with BSE Ltd. and National Stock Exchange of India Limited.

During the period under review, the Bank has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards and others mentioned above **except expense on CSR activities below the prescribed limit.**

We further report that the Board of Directors of the Bank is duly constituted with proper balance of Executive Directors, Non-executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Bank commensurate with the size and operations of the Bank to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period the Bank has:

- a. Changed its name from Au FINANCIERS (INDIA) LIMITED to AU SMALL FINANCE BANK LIMITED and has received Certificate of Incorporation pursuant to Change of

BUSINESS RESPONSIBILITY REPORT

At AU Small Finance Bank (AU Bank), the practices pertaining to Environment, Social and Governance (ESG) are an integral component of our business and of other support functions. These practices are well integrated within our systems and processes.

Our commitment to the ESG practices goes beyond the statutory requirements and therefore we follow the best ESG practices in carrying out our business operations. While conducting our business, we strive to continuously improve our internal management system, products and services to make a more positive and meaningful impact on society and the environment.

In this report, we have enlisted our activities in sync with the principles of the National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business (NVGs) released by the Ministry of Corporate Affairs in 2011.

We have prepared this report in accordance with the clause (f) of sub regulation (2) of regulation 34 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and in a format prescribed

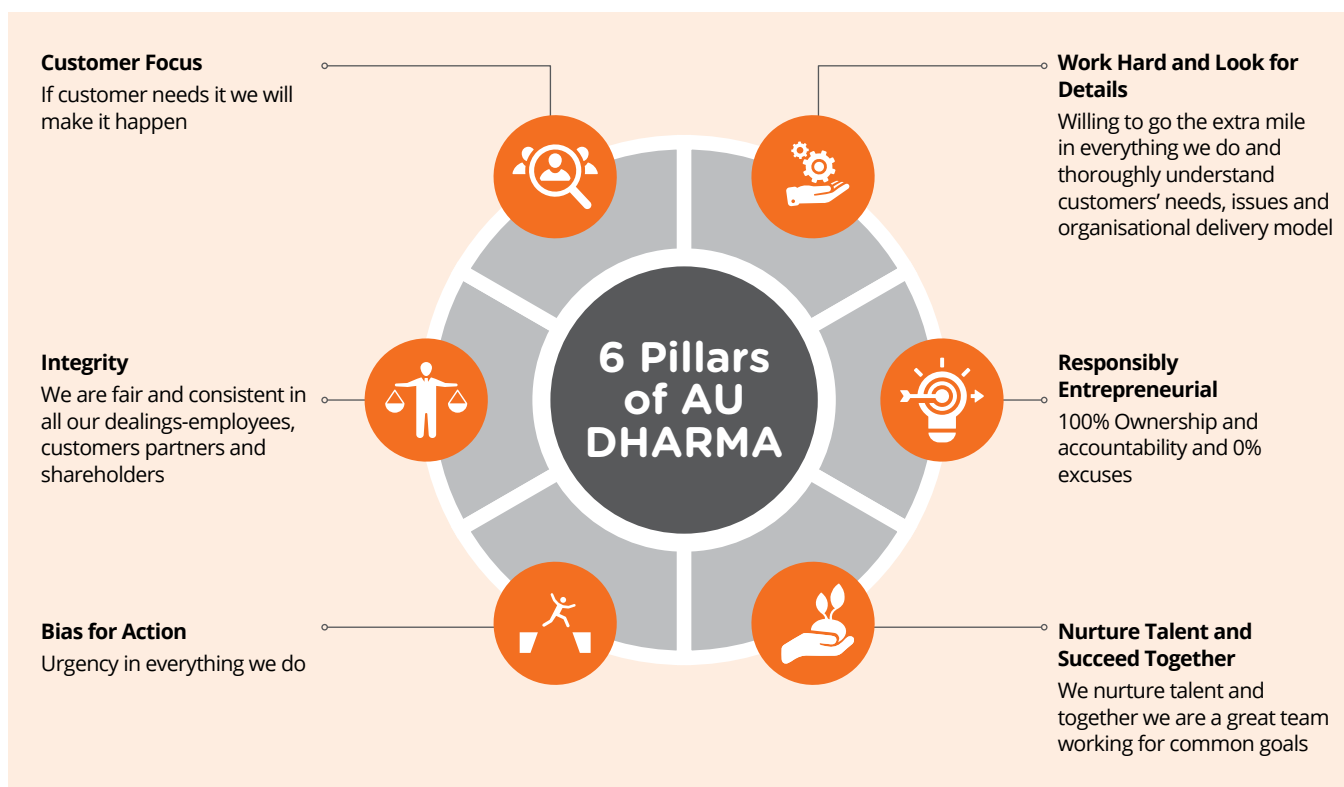

under SEBI Circular no. CIR/CFD/CMD/10/2015 Section 135, Schedule VII of the Companies Act, 2013, and the subsequent relevant notifications issued by the Ministry of Corporate Affairs, Government of India.

AU DHARMA – AU BANK’S APPROACH TO BUSINESS RESPONSIBILITY

At AU Bank, we conduct our business operations and activities in a fair, transparent and accountable manner, which is also backed by a strong policy framework and an internal Code of Conduct. We have implemented suitable monitoring mechanisms and controls to ensure adherence to all our ethical business practices.

We lay special attention on the fact that even in all our day-to-day workings our governance framework and predefined business practices are adhered to without any compromises. Therefore, we have defined and designed our working practices in the form of AU Dharma.

Our thoughtfully devised ‘AU Dharma’ guides the entire team of the Bank in discharging their everyday duties in a fair and professional manner.

PRINCIPLE WISE PERFORMANCE**PRINCIPLE 1: ETHICS, TRANSPARENCY AND ACCOUNTABILITY**

AU Bank has established lasting relationships with its customers, investors and all other stakeholders on the foundation of integrity, ethics and right governance. Our Board has laid a special emphasis on establishing the culture of transparency and accountability at every level within the Bank.

For discharging the responsibility on financial disclosures, the Bank has formulated the following mechanism:

The Bank has following policies in place viz. Compliance Policy, Fraud Risk Management Policy, Anti-Bribery and Anti-Corruption Policy, Code of Conduct for employees, Code of Conduct for Insider Trading, Related party and Materiality policy and other codes/policies and a charter that helps the Bank to govern itself in an ethical environment and enriching the transparency and accountability in its operations.

Policies/codes/chapter exclusively designed for internal management is accessible only to the Bank's personnel and other policies are hosted by the Bank on its website.

In addition to this, all our employees are empowered with a Whistle Blower Policy, which allows them to share a feedback with the Bank and its management team on anything which they deem unethical or inappropriate.

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

This Policy applies to all employees working at all levels and grades, including Directors and any other person

directly associated with the Bank including Business Correspondents of the Bank.

This Policy also applies in all dealings/transactions of the Bank's staff inter se or with customers, regulators, investors, Vendors or other agencies.

The Bank is not part of any other group nor it has any Joint Ventures/NGOs under its belt.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Bank received four Stakeholder's complaints in FY 2017-18 from Scores and 100% complaints were resolved satisfactorily and no complaint was outstanding on 31st March 2018.

PRINCIPLE 2: PRODUCTS AND SERVICES DESIGNED WITH ENVIRONMENTAL AND SOCIAL OPPORTUNITIES

AU Bank's products and services are developed to meet the constantly evolving needs of our customers. The Bank undertakes every such change keeping in view the prevailing regulations, customer convenience and its sustainable impact on our socio-economic environment.

Since, our inception in the year 1996 and erstwhile as Au Financiers, we have remained focussed on helping our lakhs of unserved and underserved customers in realising their dreams in rural and semi-urban India.

The case study of one of our customer Smt. Hema Rathore is an appropriate example of that.

**Mrs. Hema Rathore**

Brief description
Motor Driving Learning Business

Loan Amount
₹2,75,000, ₹2,15,000 and ₹2,36,000

2016 was not a happy new year for Hema Rathore surely. "When my 32 years old son passed away due to heart attack in the beginning of year 2016, I thought it was a very bad year, not realising that it was going to get worse. I lost my younger son in the next 2 months and eventually my husband by the end of that year. Suddenly, within a couple of months, my life was over" says a teary-eyed Hema.

It has been one year since this avalanche happened in her life, but Hema has regained control and hopes. This is the story of transformation of a docile woman into a fiery lady who went to work for the first time after she had lost everything in life. Even age was not on her side, she was 54. "I had not even finished grieving completely when I realised that I was the head of this delicate family of two young widows and four grandchildren. My husband had a motor driving school and within a month we were struggling to even pay the EMI of vehicles, leave aside running the business. That is when I decided to take control," says Hema.

Hema contacted Au Financiers (now AU Small Finance Bank) as she was unable to pay the EMI for the vehicles' funded by AU. She requested them for loan transfer in her name and a few months to get things in order. To her surprise, they agreed and assured her all kind of assistance in this difficult time, Slowly and steadily, she found her ground and developed an understanding of the business. She started paying the EMIs after two months. With the help of this loan and flexibility given by AU SFB, she took loan for more vehicles to run her motor driving business well.

One year later, today, Hema has a fleet of 4 vehicles and she employs 4 drivers in her motor driving school. The business

is running better than ever. She is earning sufficient amount every month, paying her employees well and her EMIs on time, providing good education to her grandchildren. Furthermore, she is inducting her daughters-in-law in the business, as she wants them to be self-reliant before any circumstances push them.

Details about the business including products/ services offered by the unit:

Hema runs a motor vehicle driving school in Jaipur area and is currently operating four vehicles through drivers. Now, she is planning to expand this and get her daughters-in-law involved in this business.

The success achieved

As briefed above, after the demise of her husband and sons, in a very short span, she was able to realign the motor driving school business where no male member was there for support and they had no capital to survive. Even, they had no money to pay EMIs of loans. With the help of AU, she first gained control of the business and hired people to run her vehicles. Her monthly income has grown manifold and she is giving good education and life to grandchildren.

Employment generated

Hema provides employment to four drivers in her motor driving school (employees with her) which further generates livelihood for their families. She is now planning for more vehicles, which will further generate employment opportunities for more drivers.

AU Bank has taken several initiatives for maximising the Stakeholders' value. For example, with customer-centric approach, we uniquely designed our products and services keeping in the mind the interest of our customers. Our product features such as monthly interest pay-out, no cash deposit/withdrawal slips, minimum documentation and digital onboarding of customers reflect our understanding of our social fabric and speak of our mission of making banking simple and accessible for all. Our customer-centric policies viz customer grievance policy, customer service policy, customer compensation policy ensures that every customer is provided equal and highest quality service at the Bank.

AU Bank has a Social and Environmental Management System policy that outlines the procedures/workflow that is to be followed by the Bank in its operations.

The Bank and its borrower comply with its Social & Environmental Management System requirements by adhering to the IFC Exclusion List and ADB Prohibited Investment Activity List (ADB PIAL), the applicable national laws on environment, health, safety, social issues and any standards established therein.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

All our products and services are designed keeping in mind the profile our customers and their impact on environmental concern, risk and opportunities.

Product Example – Secured Business Loans to MSME/SMEs

Since FY 2011-12, AU Bank (erstwhile as Au Financiers) has been systematically providing credit to smaller businesses and self-employed individuals segment, a section usually ignored by other banks, even without any formal data availability around them. AU Bank has been relentlessly supporting these businesses with its collateral backed loans and has been helping them in growing their operation. AU Bank sensed their potential and supported them through devising a way to informally assess them in the absence of reliable formal data. Similarly, AU Bank has strongly pushed on digital onboarding of customers with no paper work.

Example of a Service – No Deposit/Withdrawal Slip
Keeping in mind the lower literacy level in majority of our operational geographies, we allow customers to directly deposit cash even without filling a deposit slip, rather we issue a computer generated and filled slip to our rural customers.

Example of Service - Extended Banking Hours: Keeping in mind the requirements of our customers, AU Bank allows flexible business hours as per customer's needs.

In terms of our product suite, we have a full spectrum of retail loan, MSMEs, SME & Mid-corporate, branch banking, transaction banking and mobile & digital banking.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

(a) Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

AU Bank is focussed on efficient use of natural resources and reducing carbon footprint in the environment.

The Bank's products and processes are directed towards digitisation of our banking services in a customer friendly manner, thereby empowering our customers to carry out banking with more ease, less paper work and reduction in waste generation, and improved waste management.

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The Bank is rapidly adopting technology to digitise its operations and product offerings and has witnessed a strong growth in adoption of TAB-based account opening, android-based mobile banking, and internet banking, thus minimising paper usage. Through digitisation and door-to-door hassle-free services, we have reduced the customers' travel time and expenses, thereby reducing the fuel consumption and carbon emissions.

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

(a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Being in the banking industry, the resources of the Bank are intangible/fungible in nature. Adequate and timely measures are being adopted by the Bank to ensure that its resources are utilised in an efficient and optimum manner leading to sustainable use of its resources. The Bank does not utilise raw materials/resources directly, yet in procurements of electrical equipment ESP star ratings are taking into consideration while procuring products for its branches/offices to save electricity.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

(a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Bank believes that best quality products and services should be provided to the customers. AU Bank carefully selects its vendors keeping in mind development of the local economy. AU Bank directly procures a lot of marketing, promotional, stationary, consumable materials from local SME vendors.

Being in service industry, the Bank always conduct proper checks before appointing any consultants/ service providers and ensures to select the best. The Bank's Code of Conduct enumerates its expectations from vendors/suppliers and partners.

Through extending credit and banking facilities, AU Bank majorly contributes in development of capacity and capability of thousands of smaller businesses, quite a few of them being vendors of AU Bank.

5. Does the company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The above principle description is not applicable for a banking company.

AU Bank has always been an employee-centric bank and employees are an integral part of its growth and success strategy.

AU Bank is an equal opportunity employer and selects employees purely on merit and keeping in mind the job requirement, required skillsets and provides equal opportunities to all sections of society irrespective of the caste, creed, gender, race religion. At AU Bank, we develop our employees with regular trainings on products and services, behavioral and leadership development among others.

AU Bank also invested in a world-class human capital management system for its employees to redress their concerns, queries and to disseminate information. The system also offers e-learning modules for enhancement of employee skillset at work, which leads to greater employee satisfaction.

The Bank's operations do not promote any child labour, forced labour or any form of involuntary labour and discrimination.

The Bank views employees as the paramount asset for an organisation and believe in nurturing them. Its approach towards its employees revolved around the following policies viz., Code of Conduct for the employees, Maternity Leave policy, Whistle Blower Policy, Employee leave policy, prevention of Sexual Harassment policy and other policies, codes and charter.

Independent Auditor's Report

To
The Members of AU Small Finance Bank Limited
(formerly Au Financiers (India) Limited)

Report on the Financial Statements

1. We have audited the accompanying financial statements of AU Small Finance Bank Limited (formerly Au Financiers (India) Limited) (the "Bank"), which comprise the Balance Sheet as at March 31, 2018, the Profit and Loss Account and the Cash Flow statement for the year then ended, and a summary of significant accounting policies and notes to the financial statements.

Management's Responsibility for the Financial Statements

2. The Bank's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (the "Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Bank in accordance with the provisions of Section 29 of the Banking Regulation Act, 1949, accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2006 (as amended) specified under section 133 of the Act, read with the Companies (Accounts) Rules, 2014 in so far as they apply to the Bank and the guidelines issued by the Reserve Bank of India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters

which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Bank's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Bank's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

5. In our opinion and to the best of our information and according to the explanations given to us, the financial statements together with the notes thereon give the information required by the Banking Regulation Act, 1949 as well as the Companies Act, 2013, in the manner so required for the banking companies and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Bank as at March 31, 2018, its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

6. The Balance Sheet and the Profit and Loss Account have been drawn up in accordance with the provisions of Section 29 of the Banking Regulation Act, 1949 read with the Companies (Accounting Standards) Rules, 2006 (as amended) specified under section 133 of the Act, read with the Companies (Accounts) Rules, 2014.

7. As required sub section (3) of section 30 of the Banking Regulation Act, 1949 and the appointment letter dated September 30, 2017, we report that:
- (a) We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit and have found them to be satisfactory;
 - (b) The transactions of the Bank, which have come to our notice, have been within the powers of the Bank; and
 - (c) The financial accounting systems of the Bank are centralised and therefore, accounting returns for the purpose of preparing financial statements are not required to be submitted by the branches; we have visited 10 branches for the purpose of our audit.
8. Further, as required by section 143(3) of the Companies Act, 2013, we further report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Bank so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Profit and Loss Account and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid financial statements comply with the Companies (Accounting Standards) Rules, 2006 (as amended) specified under section 133 of the Act, read with the Companies (Accounts) Rules, 2014;
 - (e) On the basis of written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Bank and the operating effectiveness of such controls, refer to our separate Report in "Annexure 1" to this report; and
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Bank does not have any pending litigations which would impact its financial position;
 - ii. The Bank did not have any long-term contracts, including derivative contracts, for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Bank.

Annexure 1

to the Independent Auditor's Report of Even Date on the Financial Statements of AU Small Finance Bank Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

To the Members of AU Small Finance Bank Limited (formerly Au Financiers (India) Limited)

We have audited the internal financial controls over financial reporting of AU Small Finance Bank Limited (formerly Au Financiers (India) Limited) (the "Bank") as of March 31, 2018 in conjunction with our audit of the financial statements of the Bank for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Bank's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those

Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with

authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Bank has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Schedule 17 : Basis of Preparation and Significant Accounting Policies

1 Background

AU Small Finance Bank Limited (formerly known as Au Financiers (India) Limited) ("AUSFBL" or "the Company" or "the Bank") is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956.

The Company had originally obtained its license from Reserve Bank of India ('RBI') to operate as a non deposit accepting Non Banking Financial Company (NBFC-ND) on November 7, 2000 vide certificate of registration no. B-10-00139.

The Company has changed its name to AU Small Finance Bank Limited with effect from April 13, 2017 and commenced its operations as a Small Finance Bank from April 19, 2017 pursuant to the approval received from the Reserve Bank of India dated December 20, 2016.

The Company is engaged in providing a range of banking and financial services including retail banking, wholesale banking and treasury operations and other services. The Bank operates in India only and does not have presence in any foreign country.

The Bank is governed by the Banking Regulation Act, 1949, banking guidelines issued by RBI on Small Finance Bank 2016, and the Companies Act, 2013.

2 (a) Basis of preparation

The financial statements have been prepared under the historical cost convention and on the accrual basis of accounting, unless otherwise stated, and complying with the requirements prescribed under the Third Schedule of the Banking Regulation Act, 1949. The accounting and reporting policies of the Bank which is used in the preparation of financial statements conform to Generally Accepted Accounting Principles in India (Indian GAAP), the guidelines issued by RBI from time to time, the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014, Companies (Accounting Standards) Amendment Rules, 2016 in so far as they apply to banks and guidelines issued by RBI. The accounting policies adopted in the preparation of the financial statements are consistent with

those followed in the previous year, except for the change in accounting estimates explained below.

(b) Comparatives

The financial statements of AUSFBL for the previous year ended March 31, 2017 were prepared under the relevant requirements of Schedule III to the Companies Act, 2013, since at that time, the entity was not covered by the provisions applicable to banks. As mentioned in Note 17(1), the Company commenced its operations as a Small Finance Bank from April 19, 2017. Accordingly, the current year's financial statements have been prepared and presented in accordance with the requirements prescribed under Section 29 and Third Schedule of the Banking Regulation Act, 1949. On account of the foregoing, since banking operations were not carried out during the previous year, the figures for the previous year are not strictly comparable with those of the current year. Previous year figures have been reclassified/regrouped by the management, wherever necessary, to conform to the current year presentation. Further, the RBI guidelines on "Disclosure in financial statements – Notes to accounts" were not applicable for the year ended March 31, 2017 and accordingly, comparative disclosures are not provided to that extent.

(c) Use of estimates

The preparation of the financial statements in conformity with Indian GAAP as applicable to Banks requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses for the reporting period. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results could differ due to these estimates. Any revision in the accounting estimates is recognised prospectively in the current and future periods.

3 Change in Accounting Policies / Estimates

Change in provisioning for loan portfolio

Consequent to commencement of operations as a SFB, the Bank has revised its estimates related to provisioning and write off of loan portfolio. As a result of such change, the profit for the current period is

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

higher by ₹ 21.24 crore. The Bank has adopted a policy for maintaining higher provisioning and write offs as compared to the minimum provision requirements of the RBI Master Circular on Prudential Norms issued vide Notification No. RBI/2015-16/101 DBR. No.BP.BC.2/21.04.048/ 2015-16 dated July 01, 2015 as applicable to banks.

4 Significant accounting policies

(a) Advances

i) Classification

Advances are classified as Performing Assets and Non-Performing Assets ('NPAs') in accordance with the RBI guideline on Income Recognition and Asset Classification (IRAC). Further, NPAs are classified into substandard, doubtful and loss assets based on the criteria stipulated by RBI. The Advances are stated net of specific provisions made towards NPAs and unrealised interest on NPAs. Interest on NPAs is transferred to an interest suspense account and not recognised in the Profit and Loss Account until received.

ii) Provisioning

Provision for non-performing advances comprising Sub-standard, Doubtful and Loss Assets is made at a minimum in accordance with the RBI guidelines. In addition, the Bank considers accelerated specific provisioning that is based on past experience, evaluation of security and other related factors. Specific loan loss provision in respect of non-performing advances are charged to the Profit and Loss Account. Any recoveries made by the Bank in case of NPAs written off are recognised in the Profit and Loss Account. The Bank has applied following provisioning rates in respect of its NPAs.

Overdue bucket	% of Provision as per Bank policy	% of Provision as per Bank policy
	(Secured)	(Unsecured)
0-90	As mentioned below	
91-180	15%	25%
181-364	30%	30%
365-455	60%	60%
456-729	60%	100%
>729	100%	100%
Loss asset	100%	100%

The Bank considers a restructured account as one where the Bank, for economic or legal reasons

relating to the borrower's financial difficulty, grants to the borrower concessions that the Bank would not otherwise consider. Restructuring would normally involve modification of terms of the advance / securities, which would generally include, among others, alteration of repayment period / repayable amount / the amount of installments / rate of interest (due to reasons other than competitive reasons). Restructured accounts are classified as such by the Bank only upon approval and implementation of the restructuring package. Necessary provision for diminution in the fair value of a restructured account is made.

In accordance with RBI guidelines, the Bank has provided general provision on standard assets at levels stipulated by RBI from time to time - direct advances to sectors agricultural and SME at 0.25%, commercial real estate at 1.00%, restructured standard advances progressively to reach 5.00%, commercial real estate-residential housing at 0.75% and for other sectors at 0.40%. Provision made against standard assets in accordance with RBI guidelines as above is disclosed separately under Other Liabilities and not netted off against Advances.

Provision for Unhedged Foreign Currency Exposure of borrowers is made as per the RBI guidelines.

(b) Investment

Classification and valuation of Bank's Investments is carried out in accordance with RBI and Fixed Income Money Market and Derivatives Association ('FIMMDA') guidelines issued in this regard from time to time.

i) Classification

In accordance with the RBI guidelines on investment classification and valuation, investments are classified on the date of purchase into 'Held for Trading' ('HFT'), 'Available for Sale' ('AFS') and 'Held to Maturity' ('HTM') categories (hereinafter called "categories"). Investments, which the Bank intends to hold till maturity, are classified as HTM investments. Investments that are held principally for resale within a short period, including short sale, are classified as HFT investments.

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

All other investments are classified as AFS investments.

For the purpose of disclosure in the financial statements, the Investments are classified under six groups (hereinafter called "groups"):

- a) Government Securities
- b) Other Approved Securities
- c) Shares
- d) Debentures and Bonds
- e) Subsidiaries / Joint Ventures
- f) Others Investments

All Investment Purchase and Sale including Equity shares are recorded under "Settlement Date" Accounting.

ii) Acquisition cost

The cost of investments is determined on weighted average basis. Broken period interest on debt instruments and government securities are considered as a revenue item. The transaction costs including brokerage, commission, etc. paid at the time of acquisition of investments are recognised in Profit and Loss Account.

iii) Transfer between categories

Transfer of investments between categories will be accounted in accordance with the extant RBI guidelines as follows:

- a) Transfer from AFS/HFT to HTM is made at the lower of book value or market value at the time of transfer.
- b) Transfer from HTM to AFS/HFT is made at acquisition price/book value if originally placed in HTM at par or at a discount and at amortised cost if originally placed in HTM at a premium.
- c) Transfer from AFS to HFT category or vice-versa is made at book value and the provision for the accumulated depreciation, if any,

held will be transferred to the provisions for depreciation against the HFT securities or vice-versa.

iv) Valuation

Investment Classified Under HTM need not be marked to market and will be carried at acquisition cost, Unless it is more than face value, in which case the premium should be amortised over the period remaining to maturity by applying constant price method (Straight Line Method). Bank Should recognise any diminution in the value of thier investment under HTM and make provision for each investment individually.

Investments classified as AFS and HFT are marked to-market on a periodic basis as per relevant RBI guidelines. The securities are valued scrip-wise and depreciation / appreciation is aggregated for each category. Net appreciation in each category, if any, is ignored, while net depreciation is provided for. The book value of individual securities is not changed consequent to the periodic valuation of investments.

Treasury bills, commercial papers and certificates of deposit are valued at carrying cost including the pro rata discount accreted for the holding period.

Quoted investments are valued at traded/quoted price available on the recognised stock exchanges, subsidiary general ledger account transactions, price list of RBI or prices declared by Primary Dealers Association of India ("PDAI") jointly with Fixed Income Money Market and Derivatives Association (FIMMDA) applicable as at the balance sheet date. For deriving market value of unquoted fixed income securities (other than Central and State Government securities), yields / mark-up rates (reflecting associate credit risk) declared by the FIMMDA in consultation with PDAI is used. The market value of unquoted government securities which are in the nature of Statutory Liquidity Ratio ('SLR') securities included in the AFS and HFT categories is valued as per rates published by FBIL.

In case of unquoted bonds, debentures and preference shares where interest / dividend is received regularly (i.e., not overdue beyond 90

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

days), the market price is derived based on the Yield to Maturity (YTM) for Government Securities as published by Fixed Income Money Market and Derivatives Association of India (FIMMDA)/ Primary Dealers Association of India (PDAI) and suitably marked up for credit risk applicable to the credit rating of the instrument. The matrix for credit risk mark-up for each categories and credit ratings along with residual maturity issued by FIMMDA is adopted for this purpose.

Equity shares for which current quotations are not available or where the shares are not quoted on the stock exchanges, should be valued at break-up value (without considering 'revaluation reserves', if any) which is to be ascertained from the company's latest balance sheet (which should not be more than one year prior to the date of valuation). In case the latest balance sheet is not available the shares are to be valued at ₹ 1 per company.

Quoted Mutual Fund units are valued as per Stock Exchange quotations and un-quoted Mutual Fund units are valued at last available re-purchase price or Net Asset Value (where re-purchase price is not available). In case of funds with a lock-in period, where repurchase price/ market quote is not available, Units could be valued at Net Asset Value (NAV). If NAV is not available, then these could be valued at cost, till the end of the lockin period. Wherever the re-purchase price is not available, the Units could be valued at the NAV of the respective scheme.

Units of Venture Capital Funds (VCF) held under AFS category are valued using the Net Asset Value (NAV) shown by VCF as per the financial statement. The VCFs are valued based on the audited results once in a year. In case the audited financials are not available for a period beyond 18 months, the investments are valued at ₹ 1 per VCF.

Net depreciation in the value, if any, compared to the acquisition cost, in any of the aforesaid six groups, is charged to the Profit and Loss Account. The net appreciation, if any, in the six groups is not recognised except to the extent of depreciation already provided. The valuation of investments includes securities under repo transactions. The

book value of individual securities is not changed after the valuation of investments.

Non-performing investments are identified and depreciation / provision is made thereon based on the RBI guidelines. Interest on non-performing investments is not recognised until received.

v) Disposal of investments

Profit / Loss on sale of investments under AFS and HFT categories are recognised in the Profit and Loss Account. Profit in respect of investments sold from HTM category is included in the Profit on Sale of Investments and an equivalent amount (net of taxes, if any, and net of transfer to Statutory Reserves as applicable to such profits) is appropriated from the Profit and Loss Appropriation account to Capital Reserve account as per RBI guidelines. Loss on sale from HTM will be recognised in the Profit and Loss account.

vi) Repurchase transactions

Repurchase ('repo') and reverse repurchase ('reverse repo') transactions including liquidity adjustment facility (with RBI) accounted for as borrowing and lending transactions. Accordingly, securities given as collateral under an agreement to repurchase them are held under the investment account of the Bank and the Bank is accruing the coupon/discount on the security during the repo period. Also, the Bank is continue to value the securities sold under repo as per the investment classification of the security. The difference between the clean price of the first leg and clean price of the second leg is recognized as interest income/expense over the period of the transaction in the profit and loss account.

(c) Transactions involving foreign exchange

Initial recognition

Transactions in foreign currencies entered into by the Bank are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the Balance Sheet date

Foreign currency monetary items, if any, of the Bank, outstanding at the balance sheet date are restated at the rates prevailing at the year-

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

end as notified by Foreign Exchange Dealers Association of India ('FEDAI'). Non-monetary items of the Bank are carried at historical cost. Contingent liabilities on account of foreign exchange contracts, currency future contracts, guarantees, letters of credit, acceptances and endorsements are reported at closing rates of exchange notified by FEDAI as at the Balance Sheet date.

Treatment of Exchange differences

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Bank are recognised as income or expense in the Profit and Loss Account.

(d) Employee Benefits

Employee benefits include provident fund, gratuity and compensated absences.

Defined contribution plan:

The Bank's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made when the services are rendered by the employees.

Defined Benefits Plan

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the Profit and Loss Account in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested while otherwise, it is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Short term Employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long term Employee benefits

The Bank accrues the liability for compensated absences based on the actuarial valuation as at the Balance Sheet date conducted by an independent actuary which includes assumptions about demographics, early retirement, salary increases, interest rates and leave utilisation. The net present value of the Banks' obligation is determined using the Projected Unit Credit Method as at the Balance Sheet date. Actuarial gains / losses are recognised in the Profit and Loss Account in the year in which they arise.

(e) Share based payments

The Employee Stock Option Schemes (ESOSs) of the Bank are in accordance with Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. The Schemes provide for grant of options on equity shares to employees of the Bank to acquire the equity shares of the Bank that vest in a cliff vesting or in a graded manner and that are to be exercised within a specified period.

In accordance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments,

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

issued by The Institute of Chartered Accountants of India, the cost of equity-settled transactions is measured using the intrinsic value method. The intrinsic value being the excess, if any, of the fair market price of the share under ESOSs over the exercise price of the option is recognised as deferred employee compensation with a credit to Employee's Stock Option (Grant) Outstanding account. The deferred employee compensation cost is amortised on a straight-line basis over the vesting period of the option. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the number of equity instruments that are outstanding. The fair market price is the latest available closing price, preceding the date of grant of the option, on the stock exchange on which the shares of the Bank are listed.

The options that do not vest because of failure to satisfy vesting condition are reversed by a credit to employee compensation expense, equal to the amortised portion of value of lapsed portion. In respect of the options which expire unexercised the balance standing to the credit of Employee's Stock Option (Grant) Outstanding accounts is transferred to Profit & Loss Account.

(f) Revenue recognition

i) Interest Income is recognized on a time proportion accrual basis taking into account the amount outstanding and the interest rate implicit in the underlying agreements. Income or any other charges on non-performing assets or on assets taken in custody for recovery of loan through disposal of such assets during the period are recognized only when realized as per the IRAC norms of RBI. Any such income recognized and remaining unrealized, before the asset became non-performing or before disposal of assets in custody of the company, is reversed. Overdue interest is recognized on realization basis. Overdue interest is treated to accrue on realisation, due to the uncertainty of their realisation other than on running accounts where it is recognised when due.

- ii) Service charges, fees and commission income are recognised when due except for guarantee commission and letter of credit which is recognised over the period of the guarantee / letter of credit.
- iii) Income on discounted instruments are recognised over the tenure of the instrument on a constant yield basis.
- iv) Loan origination income i.e. processing fee and other charges collected upfront are recognised at the inception of the loan.
- v) All other charges such as cheque return charges, legal charges, seizing charges, etc. are recognised on realisation basis. These charges are treated to accrue on realisation, due to the uncertainty of their realisation.
- vi) Dividend is accounted on an accrual basis when the right to receive the dividend is established.
- vii) Interest income on deposits with banks and other financial institutions are recognised on a time proportion accrual basis taking into account the amount outstanding and the rate applicable.
- viii) Interest income on investment is be recognised on accrual basis.
- ix) Assignment and Securitisation:
 - a) Income on assignment transactions done prior to RBI circular no. DBOD.No.BP.BC-103/21.04.177/2011-12 May 07, 2012.
In case of assignment of loan assets and related receivables "at par", income is accounted for by applying the interest rate implicit in such assigned contracts as reduced by Internal Rate of Return (IRR) committed to the purchaser of loan assets.
 - b) For transactions done after issuance of RBI circular no. DBOD.No.BP.BC-103/21.04.177/2011-12 May 07, 2012.
Gains arising on securitisation of assets is recognised over the tenure of securities issued

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

by SPV as per guidelines on securitisation of standard assets issued by RBI. Income from excess interest spread is accounted for net of losses when redeemed in cash. Expenditure in respect of securitisation (except bank guarantee fees for credit enhancement) is recognised upfront. Bank guarantee fees for credit enhancement is amortised over the tenure of the agreements. Income arising on direct assignment is recognised over the tenure of agreement on accrual basis.

- x) Amounts recovered against debts written off in earlier years and provisions no longer considered necessary in the context of the current status of the borrower are recognized in the Profit and Loss Account.
- xi) Fees received on sale of Priority Sector Lending Certificates is recognised on proportionate basis during the financial year and considered as Miscellaneous Income, in accordance with the guidelines issued by the RBI.

(g) Accounting for leases

Operating Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership over the lease term is classified as operating leases. Operating lease rentals are recognised as an expense on straight-line basis over the lease period.

(h) Taxation

Tax expenses comprises of current income tax and deferred tax.

Income tax

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised

directly in equity is recognised in equity and not in Profit and Loss Account.

Deferred taxes

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the Profit and Loss Account.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

The carrying cost of the deferred tax assets are reviewed at each balance sheet date. The Company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

(i) Accounting for provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

(j) Earning Per Share (EPS)

Basic and diluted earnings per share is computed in accordance with Accounting Standard-20 – Earnings per share.

Basic earnings per share is calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the period.

For the purpose of calculating diluted earnings per share, the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(k) Cash and Cash Equivalents

Cash and Cash equivalents include cash in hand, balances with RBI, balances with other banks and money at call and short notice.

(l) Property, Plant and Equipment/ Software/ Capital work-in-progress/ Software under development, Depreciation and Impairment

(i) Property, Plant, Equipment and software

Property, plant, equipment and software are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Profit and Loss Account when the asset is derecognized.

(ii) Depreciation on property, plant and equipment:

Leasehold land is amortized on a straight line basis over the period of lease.

Depreciation on property, plant, equipment and software is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management as given below. The useful lives have been estimated by the management based on technical advice obtained. Determination of useful life of an asset is a matter of judgment and based on various factors such as type and make of an item, its place and pattern of usage, nature of technology, obsolescence factors, availability of spares, etc. and makes a significant impact on the useful life of an asset.

Schedules

forming part of the Profit and Loss Account for the year ended March 31, 2018

Particulars	Useful Life (years)
Buildings	60
Addition to Leased Premises	10
Furniture and Fixtures	10
Vehicles	8
Software	4-7
Computers, Printers, servers and other office equipments	3-6
ATM	10
Safe, Loker and loker gate	15

All fixed assets individually costing ₹ 5,000 or less are fully depreciated in the year of installation/purchase as the management estimates the useful life of such assets as one year.

Depreciation on assets acquired/sold during the period is recognised on a pro-rata basis to the Profit and Loss Account from/upto the date of acquisition/sale.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial period end and adjusted prospectively, if appropriate.

(iii) Impairment of assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(iv) Capital work-in-progress/ Software under development

Costs incurred towards acquisition of assets, including expenses incurred prior to those assets being put to use and directly attributable to bringing them to their working condition are included under "Capital Work in Progress". Capital Work in Progress and Software under development are stated at the amount incurred up to the date of Balance Sheet including advances given to vendors.

(m) Segment reporting

Part A: Business segments

Business segments have been identified and reported taking into account, the target customer profile, the nature of products and services, the differing risks and returns, the organisation structure, the internal business reporting system and the guidelines prescribed by RBI. The Bank operates in the following segments:

(a) Treasury

The treasury segment primarily consists of net interest earnings from the Bank's investment portfolio, money market borrowing and lending and gains or losses on investment operations.

(b) Retail banking

The retail banking segment serves retail customers through a branch network and other delivery channels. This segment raises deposits from customers and provides loans and other services to customers with the help of specialist product groups. Exposures are classified under retail banking taking into account the status of the borrower (orientation criterion), the nature of product, granularity of the exposure and the quantum thereof. Revenues of the retail banking segment are derived from interest earned on retail loans, interest earned from other segments for surplus funds placed with those segments, subvention received from dealers and manufacturers, fees from services rendered, foreign exchange earnings on retail products etc. Expenses of this segment primarily comprise

Schedules

interest expense on deposits, commission paid to retail assets sales agents, infrastructure and premises expenses for operating the branch network and other delivery channels, personnel costs, other direct overheads and allocated expenses of specialist product groups, processing units and support groups.

(c) Wholesale banking

The wholesale banking segment provides loans, non-fund facilities and transaction services to large corporates, emerging corporates, public sector units, government bodies, financial institutions and medium scale enterprises. Revenues of the wholesale banking segment consist of interest earned on loans made to customers, interest / fees earned on the cash float arising from transaction services, earnings from trade services and other non-fund facilities and also earnings from foreign exchange and derivative transactions on behalf of customers. The principal expenses of the segment consist of interest expense on funds borrowed from external sources and other premises expenses, personnel costs, other direct overheads and allocated expenses of delivery channels, specialist product groups, processing units and support groups.

(d) Other banking business

This segment includes income from para banking activities such as debit cards, third party product distribution and the associated costs.

(e) Unallocated

All items which are reckoned at an enterprise level are classified under this segment. This includes capital and reserves, debt classified as Tier I or Tier II capital and other unallocable assets and liabilities such as deferred tax, prepaid expenses, etc.

Segment revenue includes earnings from customers. Segment result includes revenue less interest expense less operating expense and provisions, if any, for that segment. Segment-wise income and expenses include certain allocations. Segment capital employed represents the net assets in that segment.

Part B: Geographic segments

The Bank operates in a single geographic segment i.e. domestic.

(n) Share Issue Expenses

Share issue expenses are adjusted from Securities Premium Account as permitted by Section 52 of the Companies Act, 2013.

(o) Accounting for Proposed Dividend

ii) Qualitative disclosure on Liquidity Coverage Ratio (LCR):

To assess Bank's resilience in liquidity stress scenario of 30 days with its high-quality liquid assets, Banks need to compute Liquidity Coverage Ratio (LCR) as per RBI - Basel III Framework on Liquidity Standards. High Ratio signifies Bank has enough liquid assets which it can use to fulfil its liquidity obligations in acute stress scenario. Ratio to compute as below

$$\text{LCR} = \frac{\text{Stock of High Quality Liquid Assets (HQLA)}}{\text{Net Cash Outflows over a 30 days period}}$$

Stock of High Quality Liquid Asset is total funding liquid assets could generate in stress scenario. Net Cash outflows is the difference as derived by multiplying the outstanding balances of various categories or types of liabilities by the outflow run-off rates and cash inflows are calculated by multiplying the outstanding balances of various categories of contractual receivables by the rates at which they are expected to flow in.

Minimum Requirement for Small Finance Banks (as per operating guidelines for Small Finance Banks RBI/2016-17/81 DBR.NBD.No.26/16.13.218/2016-17 dated Oct 06, 2016) is as below:

Till December 31, 2017	By January 1, 2018	By January 1, 2019	By January 1, 2020	By January 1, 2021
60%	70%	80%	90%	100%

The Bank has implemented LCR framework and has consistently maintained the LCR percentage well above the regulatory threshold limit. The average LCR for the quarter ended March 31, 2018 was 105% which is above the regulatory limit of 70%. For the quarter ended March 31, 2018 HQLA stood at ₹ 1,328 Crores.

Asset Liability Committee (ALCO) of the Bank is the primary governing body for Liquidity Risk Management, Treasury is entrusted with the responsibility, under the guidance of the ALCO operationalizing liquidity management within the Bank. ALM Risk unit independently measures, monitors & report Liquidity Risk as per regulatory & internal guidelines.

In computing the above information, certain estimates and assumptions have been made by the Bank's Management which have been relied upon by the auditors.

The RBI guidelines on "Disclosure in financial statements – Notes to accounts" is not applicable for the year ended March 31, 2017 and accordingly, comparative disclosures are not provided to that extent (Refer Schedule 17(2b)).

Diluted		
- As reported	10.00	29.61
- Adjusted for ESOP cost using fair value method	9.89	29.56

Particulars	(₹ in Crore)	
	As at March 31, 2018	As at March 31, 2017
Stock options outstanding (gross)	94.04	14.01
Deferred compensation cost outstanding	73.76	7.86
Stock options outstanding (net)	20.28	6.15

360,000 options granted under plan C4 had a different vesting schedule, however, the options granted expired without any vesting to the grantee as the service conditions were not fulfilled. Accordingly these options have not been considered for the purpose of computing the impact of ESOP fair value on profit before tax.

The Bank has granted 38,702 and 1,018,758 stock options on October 27, 2017 to whole time director under Plan A3 and plan B5 respectively which are pending for approval from RBI. Accordingly these options have not been considered for the purpose of computing the impact of ESOP fair value on profit before tax.

Explanatory Statement pursuant to the provisions of Section 102(1) of Companies Act, 2013

The following Statement sets out all material facts relating to the Special Businesses mentioned in the above Notice:

ITEM NO. 5

Mr. Raj Vikash Verma was appointed as an Additional Director with effect from January 30, 2018, in terms of Section 161 (1) of the Companies Act, 2013, in the category of 'Non-Executive Independent Director'. In terms of the aforesaid section of the Companies Act, 2013, an Additional Director shall hold office upto the date of the next Annual General Meeting and be eligible for appointment as director at ensuing Annual General Meeting in terms of Section 160 and 161 of the Companies Act, 2013.

"The Bank has received a notice in writing from a member under Section 160 of the Act proposing the candidature for Mr. Raj Vikash Verma as an Independent Director of the Bank who has given a declaration to the effect that he meets the criteria of independence as provided under Section 149(6) of the act and regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and consent to act as Director has also been received along with a declaration under Section 164(2) of the Companies Act, 2013 read with the rules made there under, confirming he is not disqualified to be reappointed as a Director of the Bank.

The Board is of the opinion that his continued association with the Bank would be beneficial to the Bank. Further, in the opinion of the Board, Mr. Raj Vikash Verma fulfills the conditions for independence as specified under Section 149 and schedule IV of the Companies Act, 2013 and the Rules made there under and he is independent of the management. He also complies with the 'fit and proper' criteria laid down under Banking Regulation Act, 1949.

He has a vast experience of over 27 years in Financial Services, Housing & Mortgage Finance and Real Estate sector.

In order to ensure compliance with the provisions of Sections 149 and 152 of the Companies Act, 2013 read with Rules made thereunder and Schedule IV of the Act, approval of the shareholders be and is hereby requested for the appointment of Mr. Raj Vikash Verma as an Independent Director for a period of three year commencing from 30th January 2018.

No Director other than Mr. Raj Vikash Verma himself or any of the Key Managerial Personnel of the Bank or their relatives are, directly or indirectly, concerned or interested in the Resolution set out at Item No. 5.

Further, Mr. Raj Vikash Verma is not related to any other Director or Key Managerial Personnel of the Bank.

The Board of Directors recommends the passing of the Ordinary Resolution as set out in Item No. 5 of the Notice.

During the year ended 31st March 2018, under the leadership of Mr. Sanjay Agarwal, Managing Director & CEO, the Bank has achieved all-round progress in terms of business growth and profitability of the Bank.

In a competitive and dynamically changing banking scenario, it is critical for the Bank to leverage on his expertise, knowledge and experience. He is responsible for overall strategic planning and provide guidance to the executive management team of the Bank and Head of Departments (HODS) of Treasury, Risk, Audit, Liability, Operations & Technology, Digital Analytics, HR and Distributions reports to him.

In view of above, the Nomination and Remuneration Committee, at its meeting held on 25th April 2018, reviewed the remuneration being paid to Mr. Sanjay Agarwal as the Managing Director & CEO of the Bank and recommended a revision in his remuneration, for the approval of the Board. Pursuant to the recommendation of the Nomination and Remuneration Committee, the Board of Directors of the Bank at its meeting held on 26th April 2018 approved the revision in the remuneration by way of salary, allowances and perquisites payable to Mr. Sanjay Agarwal as the Managing Director & CEO of the Bank, subject to the approval of the Shareholders of the Bank and the Reserve Bank of India.

The brief profile of Mr. Sanjay Agarwal, in terms of the Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India, New Delhi, has been provided as annexure to the Notice.

No Director and Key Managerial Personnel of the Bank other than Mr. Sanjay Agarwal himself or any of their relatives are, directly or indirectly, concerned or interested in the Resolution set out at Item No. 7 except to the extent of their shareholding in the Bank.

Further, Mr. Sanjay Agarwal is not related to any other Director or Key Managerial Personnel of the Bank.

The Board of Directors recommends the passing of the Ordinary Resolution as set out in Item No. 7 of the Notice.

ITEM NO. 8

During the year ended 31st March 2018, under the leadership of Mr. Uttam Tibrewal, Whole Time Director the Bank has shown growth in revenue and profits. Mr. Uttam Tibrewal has demonstrated his ability to take up higher responsibilities and presently, all retail assets verticals report to him. His dynamic vision, strategic focus, and entrepreneurial skills continue to guide the growth of the Bank's businesses.

In light of the above, the Nomination and Remuneration Committee at its meeting held on 25th April 2018 reviewed

the remuneration being paid to Mr. Uttam Tibrewal as the Whole-time Director of the Bank and recommended a revision in his remuneration, for the approval of the Board. Pursuant to the recommendation of the Nomination and Remuneration Committee, the Board of Directors of the Bank at its meeting held on 26th April 2018, approved the revision in the remuneration by way of salary, allowance and perquisites payable to Mr. Uttam Tibrewal as the Whole-time Director of the Bank subject to the approval of the Shareholders of the Bank and the Reserve Bank of India.

The brief profile of Mr. Uttam Tibrewal, in terms of the Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India, New Delhi, has been provided as annexure to this Notice.

No Director and Key Managerial Personnel of the Bank other than Mr. Uttam Tibrewal himself or any of their relatives are, directly or indirectly, financially or otherwise, concerned or interested in the Resolution set out at Item No. 8. except to the extent of their shareholding in the Bank.

Further, Mr. Uttam Tibrewal is not related to any other Director or Key Managerial Personnel of the Bank.

The Board of Directors recommends the passing of the Ordinary Resolution at Item No. 8 of the Notice to the members of the Bank.

ITEM NO. 9

The Board of Directors of the Bank envisages requirement of funds in future. As per the provisions of Section 180(1) (c) of the Companies Act, 2013, the Board can borrow money subject to the condition that the money to be borrowed together with the monies already borrowed by the Bank (apart from the temporary loans obtained from the Company's bankers in the ordinary course of business) shall not exceed the aggregate, for the time being, of the paid-up share capital, free reserves and securities premium of the bank, that is to say, reserves not set apart for any specific purpose unless the Shareholders have authorized the Board to borrow the monies up to some higher limits.

In terms of good asset financing led growth in FY 2017-18 and projected financing needs for FY 2018-19, Bank will be required to borrow funds for its business needs.

Hence, it is proposed to empower and authorize the Board of Directors of the Bank to borrow money from any Financial Institutions (FIs), Foreign Institutional Institutions (FIIs), Bodies Corporate or Business Associates or any other person or entity etc., in excess of paid up capital, free reserves & Securities premium of the Bank up to a sum not exceeding ₹ 22,000 Crore (Rupees Twenty-Two Thousand Crores Only) for the purpose of business activities of the Bank.

None of the Director or Key Managerial Personnel of the Bank or their relatives are, directly or indirectly, financially or otherwise, concerned or interested in the Resolution set out at Item No. 9

The Board of Directors recommends the passing of the Special Resolution as set out in Item No. 9 of the Notice.

Item No. 10

Section 42 of the Companies Act, 2013 read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 provides that a company can issue securities including non-convertible debentures (NCDs) on a private placement basis subject to the condition that the proposed offer of debt securities or invitation to subscribe to debt securities has been previously approved by the Shareholders of the company, by means of a special resolution, for each of the offers or invitations. In case of an offer or invitation for NCDs, it shall be sufficient if the company passes a special resolution only once in a year for all offer(s) or invitation(s) for issue of such NCDs on a private placement basis, during the period of one year from the date of passing of the special resolution.

Keeping in view the Bank's projections in domestic operations, the Bank may need to raise additional funds in one or more tranches in Indian as well as overseas market to maintain the desired capital to risk weighted assets ratio (CRAR) and to meet the funds requirements by issue of debt securities denominated in Indian rupees or any other permitted foreign currency (including but not limited to long term bonds, green bonds, non-convertible debentures, perpetual debt instruments and Tier II Capital Bonds or such other debt securities as may be permitted under RBI guidelines from time to time), on a private placement basis and/or for making offers and/or invitations thereof and /or issue(s)/ issuances thereof, on a private placement basis, during the period of one year from the date of passing of the special resolution.

Considering the above, the Board of Directors of the Bank at its meeting held on 26th April 2018 has proposed to obtain the consent of the Shareholders of the Bank for borrowing/ raising funds in Indian currency/ foreign currency by issue of debt securities in domestic and/ or overseas market, in one or more tranches as per the structure and within the limits permitted by the Reserve Bank of India and other regulatory authorities to eligible investors of an amount not exceeding ₹ 12,000 crore (Twelve Thousand Crore), on a private placement basis during a period of one year from the date of passing of the special resolution. The said debt securities would be issued by the Bank in accordance with the applicable statutory guidelines, for cash either at par or premium or at a discount to face value depending upon the prevailing market conditions.

None of the Director or and Key Managerial Personnel of the Bank or their relatives are, directly or indirectly, financially or otherwise, concerned or interested in the Resolution set out at Item No. 10.

The Board of Directors recommends the passing of the Special Resolution at Item No. 10 of the Notice to the members of the Bank.
