CORPORATE GOVERNANCE REPORT

1. COMPANY'S PHILOSOPHY ON MAXIMUM GOVERNANCE

The Securities and Exchange Board of India (SEBI) has been continuously fine tuning and upgrading the standards of Corporate Governance applicable to Indian companies. The formal code of Corporate Governance which was hitherto a part of listing agreement was subsequently subsumed in comprehensive regulations known as Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 – "Listing Regulations". While complying with the bedrock of the amended regulations by SEBI, your Company has built its Corporate Governance practices on the three inviolable principles of **TRANSPARENCY, INTEGRITY** (comprehensive all round disclosure + financial controls) and **ACCOUNTABILITY**. This report sets out the governance systems and processes of the Company, as set out in Listing Regulations for the financial year ended 31st March, 2017. The Company is in full compliance with the Corporate Governance norms as stipulated in Listing Regulations. Your Company believes that while implementation of the minimum framework is a prerequisite, superior governance practices are vital for growing a sustainable and successful business.

MANAGEMENT DISCUSSION AND ANALYSIS

Pursuant to the regulation 34 read with the Schedule V of the SEBI (Listing obligations and Disclosures Requirements) Regulations, 2015 you're Directors wish to report as follows:

ECONOMIC AND INDUSTRY OVERVIEW

A. INDUSTRY STRUCTURE AND DEVELOPMENTS

Domestic Scenario

Steel is crucial for the development of any modern economy and is considered to be one of the backbones of human civilization. The level of per capita consumption of steel is treated as an important index of the level of socio-economic development in a country.

In India, domestic steel use is estimated to grow by 6.5 % to 104 million tons in 2016-17 up from 94 MT in 2015, bucking the global trend which is expected to post a slower growth in steel demand. Total domestic demand for steel is estimated at 143.54 MTPA by 2016-17. India has become the world's 3rd largest producer of crude steel in 2016 against its 8th position in 2003. The growth in the Indian steel sector has been driven by domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output. The country has also been the largest sponge iron producer in the world since 2003 with coal based route accounting for 90% of total sponge iron production in the country during April- December 2016-2017 (prov.) Total finished steel exports during FY 2016-17 stood at 5.03 MT, whereas total finished steel imports stood at 12.45 MT for the same period. India's crude steel capacity has increased 8.2 per cent to 120.65 MT.

The steel sector in India contributes nearly two per cent of the country's Gross Domestic Product (GDP) and employs over 650,000 people. The per capita consumption of total finished steel in the country has risen from 51 Kg in 2009-10 to about 64.5 Kg in 2016-17. During the year Steel Industry registered a increase of 2.3%

Global Aspect

The economic environment facing the steel industry continues to be challenging with China's slowdown impacting globally across a range of indicators contributing to volatility in financial markets, sluggish growth in World economy. The global steel market is suffering from insufficient investment expenditure and continued weakness in the manufacturing sector. In 2016, while we are forecasting another year of contraction in steel demand in China, slow but steady growth in some other key regions including NAFTA and EU is expected. Growth for steel demand in all markets except China is expected in 2017.

World Steel forecast that global steel demand will increase by 1.3 % to 1533 MT in 2016. In 2017, it is forecast that world steel demand will return to growth of 0.4% and will reach to 1494 MT. World Crude Steel Production is down by -2.8 % as compared to year 2015-16. Asia's Crude Steel Production is down by - 2.3 % as compared to year 2015-16. China's share in world crude Steel production has increased from 49.30 % in 2016-17 to 49.50 % in 2015-16. China's over-supplied steel sector experienced years of plunging prices and factory shutdowns due to the sluggish economy. However, with encouragement from an upward trend in prices in March, many steel mills are resuming production. Indian Steel industry is passing through one of its toughest phase due to rise in imports which has put excessive pressure on domestic producers in order to ease pressure Government has taken various initiatives like safeguard duty, Minimum Import Price (MIP) & BIS. Government has also initiated anti-dumping investigations on certain countries including China, Russia, Japan & South Korea in order to save Indian Steel Industry from the current scenario.

B. OPPORTUNITIES AND THREATS

The Indian Steel Industry is poised for greater growth in the industrial sector and rise in infra expenditure projects in Railways, Roads and Highways etc.

Opportunities

- Unexplored rural market and Rapid Urbanization.
- Like flow of Foreign Investment under “MAKE IN INDIA”
- Increase Investment by Government in Infrastructure.
- The Plan for smart cities, improved roads and rail connectivity by building highways bridges and dedicated freight and super fast rail corridor.

Threats

- Technological changes/ obsolescence.
- Substitute- Steel is being replaced by Aluminum in auto industry.
- Higher duties and taxes.
- Steel prices will also remain restrained due to global weak steel pricing trends.

C. SEGMENT – WISE OR PRODUCT-WISE PERFORMANCE

Our Company is currently producing only one type of product i.e. Structural steel hence there are no different segments for separate data to reproduce.

D. OUTLOOK

India's average Gross Domestic Product (GDP) growth has been estimated to grow by 7.4 per cent in 2017 and 7.4 per cent in 2018, up from 7.2 per cent in 2016 supported by industrial growth of which would gradually increase steel demand in the country. India, according to WSA, is one of the few countries to remain a “resilient” economy in the face of a “global slowdown” because of its commitment to “reforms”. Indian steel demand in 2018 is expected to rise by over 8%. Hopefully, good showing in manufacturing, mining and electricity, will be sustained to generate improved demand for steel in the months ahead.

Access to infrastructure is an issue in India. As most new steel plants are likely to be situated in resource-rich states such as Odisha, Chhattisgarh, Jharkhand and Karnataka, these areas have become steel hubs needing access to infrastructure. Indian railways meet more than 70% of the steel industry's transportation needs. The Government will, therefore, need to plan for future rail network capacity and mobilize funds accordingly.

Cash flow for Indian steelmakers remains negative due to aggressive capital expenditure. This can have an impact on serviceability of debt in the short term. All investments are at all-time highs and give an indication that the investment cycle in manufacturing will pick up gradually with interest rate cuts expected to start by the end of this fiscal year.

The Indian iron and steel industry is expected to register exponential growth in future, riding on a projected growth wave of infrastructure, automobile and real estate sectors and notwithstanding challenges of unavailability of land, raw materials, power, and unaffordable capital. If the industry has to achieve this ambitious target, one of the critical imperatives is to bridge the yawning gap between demand and supply of skilled workforce in the iron and steel sector.

The speed and degree of changes in the global economy and the increasingly complex interplay of factors influencing more globally integrated steel business make horizon watching essential. To succeed, steelmakers must determine how to optimize and create a new product mix and decide whether they are prepared to take the plunge to invest in new geographic markets.

E. CHALLENGES RISKS AND CONCERNS

Competitiveness is imperative for survival and success. To achieve sustainable growth and success in the Indian steel landscape, several critical success factors, enablers and building blocks are essential. The steel industry, generally intertwined with national economies, has been receiving support from respective governments both during the development phase and during times of economic downturn. Such benefits include cheap loans, tax

incentives, availability of subsidized land and trade tariff mechanisms. The Indian Government too plans to provide an enabling environment and introduce measures such as single e-window and creation of special purpose vehicles (SPVs) to meet the most significant challenges of land acquisition, regulatory approvals and infrastructure access.

Technological innovations have provided the competitive edge to the technologically strong companies. Smooth and quick transfer of technology has, however, meant an increasingly competitive pressure on the companies to be ahead of the others in the race for technological superiority to maintain and, if possible, to strengthen the bottom-lines.

We have audited the Internal Financial controls over financial reporting of SHRI BAJRANG ALLOYS LIMITED ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on the date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respect.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting including those policies and procedures that (1) pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to

permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statement.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respect.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting including those policies and procedures that (1) pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of

management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statement.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other matters

Our aforesaid reports under section 143 (3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one subsidiary company incorporated in India is based on the corresponding report of the auditor of the company. Our opinion is not qualified in this matter.
