The total comprehensive income for the year was increased to ₹ 795.93 Lakhs as against ₹ 597.43 Lakhs in the previous year.

SEGMENT-WISE PERFORMANCE

From the very inception, the Company's main activity is concentrated in the production and export of Industrial Safety Gloves which are considered essential elements in minimizing health related risk at work places for over the three decades. With the passing of years, the Company has diversified its range of products encompassing various types of protective wears like industrial gloves of several varieties like leather gloves, cotton gloves, synthetic gloves, dotted gloves, coated gloves and industrial shoes & safety garments as well as readymade garments.

The Company's manufacturing and business activities are broadly divided into four (4) distinct segments. They are -

1. Manufacturing of Hand Gloves of various materials and diverse qualities for industrial safety modules for both export and domestic markets;
2. Manufacturing of both industrial safety garments and readymade garments in bulk for both export as well as for domestic markets;

3. Power generation by operation of wind mills to supply on commercial base; and
4. Procurement, part processing and supply of non-conventional industrial safety gears in domestic market and in export.

Hand Gloves:

This is the oldest segment with which the Company commenced its journey of business operations and it is still the main revenue earner for the Company. In the year under review, the total Revenue receipt from this segment was ₹ 14,037.54 Lakhs as against ₹ 11,278.93 Lakhs in the previous year. The segment surplus marginally reduced from ₹ 1,262.43 Lakhs to ₹ 1,172.18 Lakhs.

Garment:

This segment deals in both domestic market as well as export and registered increase in revenue earnings from ₹ 5,754.00 Lakhs to ₹ 7,132.31 Lakhs with surplus being increased immensely by 131.65% from ₹ 185.51 Lakhs to ₹ 429.74 Lakhs as compared to previous year.

Power Generation:

Revenue income from this segment was increased from ₹ 28.93 Lakhs to ₹ 38.02 Lakhs thereby decreased loss from ₹ 14.52 lakhs to ₹ 7.90 Lakhs during the period under review as compared to previous year.

Others Non- Conventional Segment:

This is the newest and not properly organized segment started on a trial basis only a couple of years back with prospective risk of minimum loss. The working experience and viability study has so far revealed immense prospect in a properly organized operation of the segment. The management has accordingly decided to set up appropriate infrastructure for the segment at the right moment in the near future. The current year operation has witnessed a profit of ₹ 39.07 Lakhs in Financial Year 2021-22 as against a loss of ₹ 3.86 Lakhs in the previous year 2020-21. In the reporting year, the revenue earning has increased to ₹ 530.53 Lakhs from ₹ 279.24 Lakhs in the previous year.

DIVIDEND

Your Directors are pleased to recommend dividend of ₹ 1.50 per equity share of ₹ 10/- each for the Financial Year 2021-22 i.e. 15% on the paid-up equity share capital of the Company, subject to deduction of tax at source ("TDS") at applicable rates. The proposed dividend is subject to approval of shareholders in the ensuing Annual General Meeting of the Company and it would result in appropriation of ₹ 45.60 Lakhs (gross amount). Your Company retains the extra profit for future plans.

**Annexure - VI****MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

In terms of Regulation 34(2) read with Paragraph B of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Management Discussion and Analysis Report is attached hereto forms part of this Report.

GENERAL ECONOMIC STATE:

The world economy continues to suffer from a series of destabilizing shocks. After more than two years of pandemic, Russian invasion of Ukraine and its global effects on commodity markets, supply chain, inflation and financial conditions have steepened the slowdown in global growth. In particular, the war in Ukraine is leading to soaring prices and volatility in energy markets, with improvements in activity in energy exporters more than offset by headwinds in most other economies. The invasion of Ukraine has also led to a significant increase in agricultural commodity, which is exacerbating food insecurity and extreme poverty in many emerging market and developing economies. Numerous risks could further derail what is now a precarious recovery. Among them is, in particular, the possibility of stubbornly high global inflation accompanied by tepid growth, reminiscent of the stagflation of the 1970s. This could eventually result in a sharp tightening of monetary policy in advanced economies to rein in inflation, lead to surging borrowing costs, and possibly culminate in financial stress in some developing economies. These risks underscore the importance of a forceful policy response. The global community needs to ramp up efforts to mitigate humanitarian crises caused by the war in Ukraine and conflict elsewhere and alleviate food insecurity, as well as expand vaccine access to ensure a durable end of the pandemic. Meanwhile, policymakers need to refrain from implementing export restrictions or price control, which could end up magnifying the increase in commodity prices. Of late, unstable political crisis in countries like Sri Lanka and overall market predictions of similar situations in other countries due to worldwide stagflation calls for a serious evaluation and continuous supervision of the business both domestic and overseas.

OPERATING SEGMENTS IN THE COMPANY:

The Company operates through four (4) broad segments. They are -

1. Manufacturing Hand Gloves of various materials and diverse qualities for industrial safety modules for both export and domestic markets;
2. Manufacturing of both industrial safety garments and readymade garments in bulk for both export as well as for domestic markets;
3. Power generation by operation of wind mills to supply on commercial base; and
4. Procurement, part processing and supply of non-conventional industrial safety gears in domestic market and in export.

CHALLENGES:

India is one fifth of the world's population and fifth or sixth largest economy in the world. But the current economic environment is affected by Covid-19 pandemic, followed by Russia-Ukraine war and rising inflation in India (including USA) is causing concern. It seems that the Indian economy has

recovered after pandemic situation, however, the war and inflation seem to have influenced a kind of recession, if not stagnation, and the rates of exports and imports have shown a decline in progress.

- Consumption was about 1.5 percent higher in 2021-22 compared with 2019 -20 while gross fixed capital formation in real terms was 3.75 percent higher. The reason for the higher investment compared with consumption may be due to clubbing of investment projects that had been postponed from lockdown period or replacement & modernization expenditure in some sectors.
- The growth in two critical sectors viz. construction and manufacturing, has come down recently, resulting in loss of employment & falling wages.
- Imports increased at an increasing rate when compared to the export rate during the period 2019-20 and 2021-22.
- Since the Russian invasion of Ukraine, oil prices have started moving to uncomfortable zones. The most obvious impact of high oil prices in India is on domestic inflation. There has been a steep hike of ₹ 25/litre in bulk diesel prices, and petrol, diesel and LPG prices are steadily moving up.

Challenges facing the Company vis-à-vis the Country:

- i. Global Recession – The overall impact of the recession on India will not be significant, as, among other factors, global community prices will also fall which is positive. India's exports will, however, be affected negatively due to heavy dependence on the EU and the US as export markets, and the global trade will slow.
- ii. Fluctuations in foreign currency – The rupee's slump because of such fluctuations is having far reaching effects, from making imported goods and materials more expensive for businesses to driving up inflation. Indian exporters are though benefitting as their goods become more competitive in prices, however if the price is sharp, there could be concern and general instability in markets.
- iii. Freight and shipping costs and delays – There are a number of current shipping issues impacting freight costs & shipping delays. Seasonality, a drop in available exports, and inflations' impact on European consumer demand are causing decreased Asia-Europe pricing, while the lockdown in Shanghai drove down Asia-North America Ocean rates in May-though these remain extremely elevated compared to pre-pandemic prices.
- iv. Oil prices – Climbing oil prices translate directly to higher diesel prices. US diesel prices are up significantly from last year & are likely to go higher as sanctions are mounted against Russia, the third largest oil producer in the world. These costs could be passed down to shippers, making international shipping even more expensive.

RISKS AND CONCERNS:

Risk is integral to any business and Acknit is no exception. The major areas of risks as envisaged by the company are as under:

- Rising costs of wages and salaries
- Availability of appropriate manpower
- Volatility in raw material prices
- Demand uncertainties
- Huge increase in overseas freight

- Borrowing Costs
- Taxation
- Lack of export incentives

Risk management is an integral part of Company's management over the years. Company has identified key internal & external factors associated with the operations of the Company alongwith the control process to mitigate such risks. Further, the Company regularly reviews the identified risks & control process.

INTERNAL CONTROL SYSTEMS AND ADEQUACY:

The Company has in place a well-established framework of internal control systems which is commensurate with the size and complexity of its business. The Company has an independent internal audit function covering major areas of operations and the same is carried out by external firms of Chartered Accountants engaged for this purpose.

FINANCIAL PERFORMANCE:

The Company could achieve a turnover of ₹ 21,738.40 Lakhs and total comprehensive income of ₹ 795.93 Lakhs during the year under review.

Segment-wise performance:

(₹ in Lakhs)

INDEPENDENT AUDITOR'S REPORT

To the Members of "ACKNIT INDUSTRIES LIMITED".

Report on the Audit of the Financial Statements.

Opinion:

We have audited the accompanying financial statements of Acknit Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, and the Cash Flows statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion:

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter:

We draw attention to the financial results with related to COVID-19 that has caused significant disruptions in the business operations of companies across India and has caused significant accounting and auditing challenges. One such challenge being inability for the Company to verify inventories physically since Government imposed restrictions during the lockdown on account of health, travel and safety concerns.

The extent to which the COVID-19 pandemic will impact the Company's assets and future results will depend on the future developments, which are highly uncertain. Hence the impact of the pandemic may be different from that estimated as at the date of approval of these financial results.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No.	Key Audit Matter	Auditor's Response
1.	Revenue Recognition Revenue from the sale of goods (hereinafter referred to as "Revenue") is recognised when the Company performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery. The timing of revenue recognition is relevant to the reported performance of the Company. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred. Refer Note 1 to the Standalone Financial Statements - Significant Accounting Policies	Principal Audit Procedures Our audit approach was a combination of test of internal controls and substantive procedures including: <ul style="list-style-type: none"> Assessing the appropriateness of the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and testing thereof. Evaluating the integrity of the general information and technology control environment and testing the operating effectiveness of key IT application controls. Evaluating the design and implementation of Company's controls in respect of revenue recognition. Testing the effectiveness of such controls over revenue cut off at year-end. Testing the supporting documentation for sales transactions recorded during the period closer to the year end and subsequent to the year end, including examination of credit notes issued after the year end to determine whether revenue was recognised in the correct period. Performing analytical procedures on current year revenue based on monthly trends and where appropriate, conducting further enquiries and testing.
2.	Litigations –Contingencies The Company is periodically subject to challenges/scrutiny on range of matters relating to direct tax, indirect tax. Further, potential exposures may also arise from general legal proceedings environmental issues etc. in the normal course of business. Assessment of contingent liabilities disclosure requires Management to make judgements and estimates in relation to the issues and exposures. Whether the liability is inherently uncertain, the amounts involved are potentially significant and the application of accounting standards to determine the amount, if any, to be provided as liability, is inherently subjective.	Principal Audit Procedures Our audit procedures included: <ul style="list-style-type: none"> We tested the effectiveness of controls around the recording and re-assessment of contingent liabilities. We used our subject matter experts to assess the value of material contingent liabilities in light of the nature of exposures, applicable regulations and related correspondence with the authorities. We discussed the status and potential exposures in respect of significant litigation and claims with the Company's internal legal team including their views on the likely outcome of each litigation and claim and the magnitude of potential exposure and sighted any relevant opinions given by the Company's advisors. We assessed the adequacy of disclosures made. We discussed the status in respect of significant provisions with the Company's internal tax and legal team. We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

Sl. No.	Key Audit Matter	Auditor's Response
3	Capitalisation of property, plant and equipment. During the year ended March 31, 2022, the Company has incurred significant capital expenditure. Total additions to property, plant and equipment was ₹ 881.31 Lakhs in the current year.	Our audit procedures included and were not limited to the following: • Assessed the nature of the additions made to property, plant and equipment and capital work-in-progress on a test check basis to test that they meet the recognition criteria as set out in para 16 to 22 of Ind AS 16, including any such costs incurred specifically for trial run. Reviewed the project completion/handover certificate provided by the management to determine whether the asset is in the location and condition necessary for it to be capable of operating in the manner intended by the management.
4	Allowance for Credit Losses The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the Company deals with and the countries where it operates. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID - 19. We identified allowance for credit losses as a key audit matter because the Company exercises significant judgment in calculating the expected credit losses.	Principal Audit Procedures Our audit procedures related to the allowance for credit losses for trade receivables and unbilled revenue included the following, among others: We tested the effectiveness of controls over the (1) development of the methodology for the allowance for credit losses, including consideration of the current and estimated future economic conditions (2) completeness and accuracy of information used in the estimation of probability of default and (3) computation of the allowance for credit losses. For a sample of customers: We tested the input data such as credit reports and other credit related information used in estimating the probability of default by comparing them to external and internal sources of information. We tested the mathematical accuracy and computation of the allowances by using the same input data used by the Company.

Information Other than the Financial Statements and Auditor's Report Thereon:

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements:

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those

risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 1 (f) under "Report on other legal and regulatory requirements" section of our report to the members of Acknit Industries Ltd of even date]

Report on the Internal Financial Controls over Financial under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of "ACKNIT INDUSTRIES LTD" as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safe guarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

**Meaning of Internal Financial controls over Financial Reporting;**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Board of Directors have proposed a dividend of ₹ 1.50 per equity share of ₹10/- each for the financial year ended 31st March 2022.

Capital Reserve : This Reserve represents the value of amounts paid by the share applicant on account of share forfeited.

Securities Premium Account: This Reserve represents the premium on issue of shares and can be utilized in accordance with the provisions Companies Act 2013

General Reserve: This Reserve is created by an appropriation from one component of equity (generally retained earnings) to another not being an item of Other Comprehensive Income. The same can be utilized by the Company in accordance with the provisions of the Companies Act 2013.

Retained Earnings: Retained earnings are the profits that the company has earned till date, less any transfer to general reserve, dividends or others distributions paid to shareholders.

Other Comprehensive Income: This Reserve represents the cumulative gains (net losses) arising on the revaluation of Equity Instruments measured at fair value through Other Comprehensive Income net of amounts reclassified if any to Retained Earnings when those instruments are disposed of.

**NOTES TO THE FINANCIAL STATEMENTS****Note 1****SIGNIFICANT ACCOUNTING POLICIES****Statement of Compliance**

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Company adopted Ind AS from 1st April, 2017.

Basis of preparation and measurement

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values, as explained in the accounting policies.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosures in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17 – Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 – Inventories or value in use in Ind AS 36 – Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Property, plant and equipment-Tangible Assets**Tangible Assets**

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of property, plant and

equipment recognised as at 1st April, 2016 measured as per the previous GAAP.

Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. In respect of major projects involving construction, related pre-operational expenses form part of the value of assets capitalised. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All upgradation / enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets after commissioning, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Land is not depreciated.

The estimated useful lives of property, plant and equipment of the Company are as follows:

Building	30-60 Years
Leasehold Improvements	Shorter of lease period or estimate useful life
Plant and Equipment	7-25 Years
Furniture and Fixture	8-10 Years
Vehicles	8-10 Years
Office Equipment	5 Years

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.

Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

The carrying value of intangible assets includes deemed cost which represents the carrying value of intangible assets recognised as at 1st April, 2016 measured as per the previous GAAP.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from

indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Impairment of assets

Impairment loss, if any, is provided to the extent, the carrying amount of assets or cash generating units exceed their recoverable amount.

Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the carrying amounts that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

Inventories

Inventories are stated at lower of cost and net realisable value. The cost is calculated on weighted average method. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to its present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

Foreign currency transactions

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currency are translated at the rates of exchange at the balance sheet date and resultant gain or loss arising out of fluctuations in the exchange rates are recognized in the Statement of Profit and Loss in the period in which they arise, except in respect of fixed assets where exchange variance is adjusted in the carrying amount of respective fixed assets.

To account for differences between the forward exchange rates and the exchanges rates at the date of transactions as income or expense over the life of the contracts.

To account for profit / loss arising on cancellation or renewal of forward exchange contracts as income / expenses for the period.

To recognize the net mark to market losses & gain in the Statement of Profit and Loss on the outstanding portfolio of forwards as at the Balance Sheet date.

Financial instruments, financial assets, financial liabilities and Equity instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the

acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Financial Assets

Recognition: Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at: amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/ or interest.

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

Revenue Recognition

Revenue from business and other activities consist primarily of revenue earned on a "time and material" basis. The related revenue is recognized as and when the material supplied / services performed. Sales are recognized inclusive of duty if any but net of GST. Export Incentives are accounted on accrual basis and include estimated realisable value / benefits from Duty Drawback, Merchandise Export Incentive Scheme (MEIS), Rebate of State & Central Taxes and Levies (ROSTL), and Remission of Duties and Taxes on Exported Products (RODTEP), etc. The expenditures are recognized on accrual basis.

Sales & Export Incentives

Sales are recognized, net of return, on dispatch of goods to customers and are reflected in the accounts at gross realizable value net of taxes but inclusive of excise / customs duties.

Export incentives are accounted on accrual basis and include estimated realizable value / benefits from Duty Drawback, Merchandise Export Incentive Scheme (MEIS), Rebate of State & Central Taxes and Levies (ROSTL), and Remission of Duties and Taxes on Exported Products (RODTEP), etc.

Investment Income

To account for income from investments on an accrual basis,

inclusive of related tax deducted at source. To account for Income from dividends when the right to receive such dividends is established.

Government Grant

The Company may receive government grants that require compliance with certain conditions related to the Company's operating activities or are provided to the Company by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Company will comply with the conditions attached to the grant.

Accordingly, government grants:

- (a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- (b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- (c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

Dividend Distribution

Dividends paid is recognised in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

Employee Benefits

The Employee benefits are provided in accordance with INDAS 19 and are dealt in the following manner:

- (i) Contribution to Provident Fund and other Funds are accounted on accrual basis.
- (ii) Gratuity Liability is determined by actuarial valuation done at the end of the year and the current year charge is debited in the Statement of Profit and Loss.

Leases

Leases are recognised as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Taxes on Income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, in so far as it relates to items disclosed under other comprehensive income or equity, are disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

Claims

Claims against the Company not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Provisions

Provisions are recognised when, as a result of a past event, the Company has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is a best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee.

Segments are organised based on business which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods.

Segment revenue arising from third party customers is reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led. Segment results represent profits before finance charges, unallocated corporate expenses and taxes.

"Unallocated Corporate Expenses" include revenue and expenses that relate to initiatives/costs attributable to the enterprise as a whole and are not attributable to segments.

Financial and Management Information Systems

The Company's Accounting System is designed to unify the Financial and Cost Records and also to comply with the relevant provisions of the Companies Act, 2013, to provide financial and cost information appropriate to the businesses and facilitate Internal Control.

**Note 2****USE OF ESTIMATE AND JUDGEMENT**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below), that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of intangible assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement. Certain trademarks have been considered of having an indefinite useful life taking into account that there are no technical, technological or commercial risks of obsolescence or limitations under contract or law. Other trade marks have been amortized over their useful economic life. Refer notes to the financial statements.

B. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Useful lives of property, plant and equipment and intangible assets:

As described in the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

2. Fair value measurements and valuation processes

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

3. Actuarial Valuation:

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

4. Claims, Provisions and Contingent Liabilities:

The Company has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

**32. Impact of COVID-19**

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of receivables, inventories and other assets, etc. For this purpose, the company has used internal and external sources of information upto the date of approval of these financial statements including economic forecasts and consensus estimates. The company does not expect any significant impact on such carrying values. The final impact of COVID-19 on the Company's financial statement may differ from that estimates as at the date of approval of Financial Statements.

33. Additional Notes to Defined Benefit Plans/Long Term Compensated Absences**Defined Contribution Plans -**

The employees' gratuity fund scheme managed by Life Insurance Corporation of India is a defined benefit plan. The present value obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognized each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Provident Fund, Pension and Gratuity Benefits are funded and Leave Encashment Benefits are unfunded in nature. The Defined Benefit Pension Plans are based on employees' pensionable remuneration and length of service. Under the Provident Fund, Gratuity and Leave Encashment Schemes, employees are entitled to receive lump sum benefits

Risk Management

The Defined Benefit Plans expose the Company to risk of actuarial deficit arising out of investment risk, interest rate risk and salary cost inflation risk

Investment Risks: This may arise from volatility in asset values due to market fluctuations and impairment of assets due to credit losses. These Plans primarily invest in debt instruments such as Government securities and highly rated corporate bonds – the valuation of which is inversely proportional to the interest rate movements.

Interest Rate Risk: The present value of Defined Benefit Plans liability is determined using the discount rate based on the market yields prevailing at the end of reporting period on Government bonds. A decrease in yields will increase the fund liabilities and vice-versa.

Salary Cost Inflation Risk: The present value of the Defined Benefit Plan liability is calculated with reference to the future salaries of participants under the Plan. Increase in salary due to adverse inflationary pressures might lead to higher liabilities

These Plans have a relatively balanced mix of investments in order to manage the above risks. The investment strategy is designed based on the interest rate scenario, liquidity needs of the Plans and pattern of investment as prescribed under various statutes.

The Trustees regularly monitor the funding and investments of these Plans. Risk mitigation systems are in place to ensure that the health of the portfolio is regularly reviewed and investments do not pose any significant risk of impairment. Periodic audits are conducted to ensure adequacy of internal controls. Pension obligation of the employees is secured by purchasing annuities thereby de-risking the Plans from future payment obligation.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	Valuation as at	
	As at March 31, 2022	As at March 31, 2021
Discount rate(s)	7.10%	6.90%
Expected rate(s) of salary increase	4.00%	4.00%

Financial Liabilities	4.49	1.05

D. Fair value measurement**Fair value hierarchy**

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted price included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

The fair value of financial instruments that are not traded in an active market is determined using market approach and valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Derivatives are valued using valuation techniques with market observable inputs such as foreign exchange spot rates and forward rates at the end of the reporting period, yield curves, risk free rate of returns, volatility etc., as applicable.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty.

The fair value of trade receivables, trade payables and other Current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature. Where such items are Non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis. Similarly, unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair cost has been considered as the best estimate of fair value.

There has been no change in the valuation methodology for Level 3 inputs during the year. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. There were no transfers between Level 1 and Level 2 during the year.
