The resolution shall be deemed to be passed on the date of AGM, subject to the receipt of requisite votes.
14. Trading in the shares of the Company to be done compulsorily in dematerialized form only. Dematerialization would facilitate paperless trading through state-of-the-art technology, quick transfer of corporate benefits to members and avoid inherent problems of bad deliveries, loss in postal transit, theft and mutilation of share certificate and will not attract any stamp duty. It also substantially reduce the risk of fraud. Hence, we request all those members who have still not dematerialized their shares to get their shares dematerialized at the earliest.
15. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in dematerialized form are, accordingly, requested to submit their PAN to the Depository Participants (DP) with whom they maintain their demat accounts. Members holding shares in physical form submit their PAN to the Bigshare Services Pvt. Ltd. (RTA) or to the Company.
16. Members holding shares in physical form are requested to forward all applications for transfers and all other share related correspondence (including intimation for change of address) to the Share Transfer Agents of the Company.
17. Pursuant to Section 72 of the Companies Act, 2013, shareholders holding shares in physical form may file nomination in the prescribed Form SH-13 and for cancellation / variation in nomination in the prescribed Form SH-14 with the Company's RTA. Members holding shares in the dematerialized form may contact the Depository Participant for recording nomination in respect of their shares.

ITEM NO. 3:

Mr. Mayank Tandon is a B. Tech. in computer engineering from Manipal University and has been working with the Company since 2004. He played an important part in the Eurep GAP (now Global GAP) certification process of the first set on Indian grape growers in 2004. He assisted APEDA in establishing the traceability and control process without which no Indian grapes can now be exported to EU. He also assists the Managing Director in International marketing of fresh produce and jointly manages the grapes procurement and packing operations of the company in Nashik.

Mr. Mayank Tandon is responsible for the cut fruit business of the Company and has 14 years of experience in fresh produce export business. Your directors are fully confident that his services to the Company are of great value. Mr. Mayank Tandon, is related to Mr. Ashok Motiani, Chairman & Managing Director of the Company. Mr. Mayank Tandon was paid salary of ₹1,89,650 p.m. from June, 2009 till June, 2013. Thereafter, he was paid salary of ₹2,25,000 p.m. from July, 2013 to March, 2015.

Thereafter, as per approval given by the members of the Company at the Annual General meeting held on 28th September 2015, he has been drawing a salary of ₹3,49,998 p.m. from 1st April 2015. There has not been any increase in his salary for the last 3 years in spite of considerable increase in the working of the Company, general level of inflation, improved performance of the Company and increased responsibilities shouldered by him.

The Nomination and Remuneration committee in its meeting held on 14th August, 2018 has approved the revision in his remuneration package. Your directors in their meeting held on 14th August, 2018 have approved the revision in remuneration on terms and conditions as given below:

Mr. Mayank Tandon shall be given Salary of ₹5,00,000 per month w.e.f. 1st October, 2018 with the authority to Board of Directors of the Company to increase the salary upto ₹8,50,000 per month without the matter being referred to the members. Apart from this, the appointees will be entitled to the Company's contribution to Provident Fund, Superannuation Fund and other benefits as per the rules of the Company. Further, Gratuity is payable at the rate not exceeding half a month's salary for each completed year of service. The other terms and conditions are already incorporated in the text of the proposed resolution.

The Nomination and Remuneration Committee as well as the Board has noted the proposed increase in the remuneration is in line with the current industry scenario and also in line with the remuneration structure of the other employees of the Company. Hence, the proposed remuneration structure sufficiently balances the interest of all stakeholders and is in alignment with the organization structure of the Company.

Mr. Ashok Motiani, Managing Director and Mrs. Nanita Motiani Whole-time Director are deemed to be concerned or interested in the said resolution. No other Director, key managerial personnel or their relatives are concerned or interested in passing of Special Resolution as set out at Item No. 3 of the notice convening the 26th Annual General Meeting.

All the documents connected with this resolution is open for inspection at the registered office of the Company on any working day during normal business hours of the Company.

The Members' approval to the above material related party transactions is sought in terms of Regulation 23(4) of the SEBI (LODR) Regulations, 2015 read with Section 188 of the Companies Act, 2013. The above proposal is in the interest of the Company and the Directors recommend the Resolution in Item No.5 of the Notice as Special Resolution.

ITEM NO. 6:

At the annual general meeting held on 28th September, 2015, Mrs. Nanita Motiani was re-appointed as Whole-time Director of the Company for a period commencing from 1st April, 2015 to 31st March, 2018 on the terms and conditions as approved by the shareholders at the said annual general meeting. Moreover, the present term of appointment of Mrs. Nanita Motiani as Whole-time Director has expired on 31st March, 2018. The Board of Directors at their meeting held on 14th February, 2018 have, subject to the approval of the members, re-appointed Mrs. Nanita Motiani as Whole-time Director of the Company with effect from 1st April, 2018 for a period of 3 years on the remuneration, terms and conditions recommended by the Nomination and Remuneration committee and Audit Committee as set out in the resolution mentioned at Item No. 6.

The Board is of the opinion that her services should continue to be available to the Company to achieve still greater heights, by re-appointing her as Whole-time Director as mentioned in the resolution, subject to the approval of shareholders. Taking into consideration the duties and responsibilities of the Whole-time Director, the prevailing managerial remuneration in industry and on the recommendation of the Nomination and remuneration committee, the Board at their meeting held on 14th February, 2018 approved the remuneration, terms and conditions of the reappointment of Mrs. Nanita Motiani as Whole time Director of the Company, for a period of three (3) years from 1st April, 2018 on the terms and conditions as set out in the resolution set out in the Notice of 26th AGM, subject to approval of the shareholders.

The Board recommends the adoption of the Special Resolution contained in Item no. 6 of the notice. Mr. Ashok Motiani, Managing Director and Mrs. Nanita Motiani Whole-time Director are deemed to be concerned or interested in the said resolution. No other Director, key managerial personnel or their relatives are concerned or interested in passing of Special Resolution as set out at Item No. 6 of the notice convening the 26th Annual General Meeting. The above proposal is in the interest of the Company and the Directors recommend the Resolution in Item No. 6 of the Notice for approval of the Members.

ITEM NO. 7

As you are aware that Mr. Ashok Motiani was re-appointed as Managing Director of the Company for a further period of three years w.e.f. 1st August, 2016, on the terms and conditions, as approved by the members of the Company in the AGM held on 29th September, 2016, with a liberty to the Board of Directors or Nomination and Remuneration Committee to revise the remuneration without approval of Shareholders within the prescribed ceiling limit of Schedule V and other applicable provisions of the Companies Act, 2013.

The present terms of appointment of Mr. Ashok Motiani as Managing Director will expire on 31st July, 2019. However with view to increased work load on the shoulders of Mr. Ashok Motiani, the Nomination and Remuneration Committee and Board of Directors deems it fit to revise the terms of remuneration payable to Mr. Ashok Motiani and further it will be necessary to revise the terms of appointment as Managing Director with same effective date and hence the Board decided to re-appoint Mr. Ashok Motiani as

Managing Director of the Company for a further period of three years with effect from 1st October, 2018 on the revised terms and conditions as prescribed in the Notice of 26th Annual General Meeting.

ITEM NO. 8:

As per SEBI Circular No. SEBI/LAD-NRO/GN/2018/10 dated 9th May, 2018, upon insertion of Regulation 17 (6) (e) in SEBI LODR (Amendment) Regulations, 2018, the Company cannot pay remuneration exceeding 2.5% of the net profit or ₹5 Crores whichever is more to all the managerial personnel. Moreover, the total remuneration payable to all Executive Directors shall not exceed 5% of the net profit of the Company calculated as per provisions laid down in Section 198 of the Companies Act, 2013.

Hence, it is necessary for the Company to pass the Special resolution for payment of remuneration to all Executive Directors above the limits prescribed in the said Regulation inserted by the SEBI Circular dated 9th May, 2018.

The Board recommends the adoption of the Special Resolution contained in Item no. 6 & 7 of the notice to enable the payment of remuneration which may be in excess of the said SEBI LODR regulation, but which are permissible under Schedule V of the Companies Act, 2013.

Mr. Ashok Motiani, Managing Director and Mrs. Nanita Motiani Whole-time Director are deemed to be concerned or interested in the said resolution. G. Road, Ahmedabad – 380 015 on all working days between 10.00 a.m. and 1.00 p.m. upto the date of Annual General Meeting of the Company.

None of the Directors, Key Managerial Personnel of the Company and their respective relatives are in any way interested in the resolution except to the extent of their shareholding in the Company.

The Board of Directors recommends the aforesaid Resolution for the approval by the Members by way of Special Resolution.

ITEM NO. 10

Equity based compensation is considered to be an integral part of employee compensation across sectors which enables alignment of personal goals of the employees with organizational objectives by participating in the ownership of the Company through stock based compensation scheme. Your Company believes that equity based compensation plans are an effective tool to reward the talents working with your the Company. With a view to motivate the key work force seeking their contribution to the corporate growth, to create an employee ownership culture, to attract new talents, and to retain them for ensuring sustained growth, your Company intends to implement an employee stock option plan namely 'Freshtrop Employee Stock Option Plan 2018' ("ESOP 2018"/ "Plan") seeking to cover eligible employees of the Company.

Accordingly, the Nomination and Remuneration Committee of the Directors ("Committee") and the Board of Directors of the Company at their respective meetings held on 14th August, 2018, had approved the introduction of ESOP 2018, subject to your approval.

In terms of Section 62(1)(b) of the Companies Act, 2013 read with Regulation 6 of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 ("SEBI SBEB Regulations"),

the Company seeks your approval as regards implementation of the Plan and grant of options thereunder to the eligible employees of the Company as decided from time to time as per provisions of the Plan read with provisions of SEBI SBEB Regulations.

The main features of the ESOP 2018 are as under:

A. Brief Description of the Plan:

Keeping view the aforesaid objectives, the ESOP 2018 contemplates grant of options to the eligible employees of the Company. After vesting of options, the eligible employees earn a right, but not obligation, to exercise the vested options within the exercise period and obtain equity shares of the Company subject to payment of exercise price and satisfaction of any tax obligation arising thereon.

The Committee shall act as Compensation Committee for the administration of ESOP 2018. All questions of interpretation of the ESOP 2018 shall be determined by the Committee and such determination shall be final and binding upon all persons having an interest in ESOP 2018.

B. Total number of options to be granted:

The total number of options to be granted under the ESOP 2018 shall not exceed 250,000 (Two Lakhs Fifty Thousand). Each option when exercised would be converted in to one equity share of ₹10 (Rupees Ten) each fully paid-up.

Further, SEBI SBEB Regulations require that in case of any corporate action(s) such as rights issue, bonus issue, merger, sale of division etc., a fair and reasonable adjustment needs to be made to the options granted. In this regard, the Committee shall adjust the number and price of the options granted in such a manner that the total value of the options granted under the ESOP 2018 remain the same after any such corporate action. Accordingly, if any additional options are issued by the Company to the option grantees for making such fair and reasonable adjustment, the ceiling of 250,000 (Two Lakhs Fifty Thousand), shall be deemed to be increased to the extent of such additional options issued.

C. Identification of classes of employees entitled to participate in the ESOP 2018:

All permanent employees and Directors (hereinafter referred to as "Employees") of the Company shall be eligible subject to determination or selection by the Committee. Following classes of employees/ Directors are eligible being:

- i. a permanent employee of the Company who has been working in India or outside India;
- ii. a director of the Company, whether a whole time director or not but excluding an independent director.

but does not include—

- (i) an employee who is a Promoter or belongs to the Promoter Group; and
- (ii) a Director who either by himself or through his relatives or through anybody corporate, directly or indirectly holds more than 10% of the issued and subscribed Shares of the Company.

D. Requirements of Vesting and period of Vesting:

All the options granted on any date shall vest not earlier than minimum period of 1 (One) year and not later than a maximum period of 6(Six) years from the date of grant of options as may be determined by the Committee. The Committee may extend, shorten or otherwise vary the vesting period from time to time subject to these minimum and maximum vesting periods.

The vesting dates in respect of the options granted under the ESOP 2018 shall be determined by the Committee and may vary from an employee to employee or any class thereof and / or in respect of the number or percentage of options to be vested.

Options shall vest essentially based on continuation of employment/ service as per requirement of SEBI SBEB Regulations. Apart from that the Committee may prescribe achievement of any performance condition(s) for vesting.

E. Maximum period within which the options shall be vested:

All the options granted on any date shall vest not later than a maximum of 6(Six) years from the date of grant of options as stated above.

- F. Exercise price or pricing formula:
The exercise price shall be determined by the committee at its sole discretion which shall not be less than the higher of the following:
- the average of the weekly high and low of the closing price of the share listed on the stock exchange during the 26 (Twenty Six) weeks preceding the grant date;
 - or
 - the average of the weekly high and low of the closing price of the share listed on the stock exchange during the 2 (Two) weeks preceding the grant date.
- G. Exercise period and the process of exercise:
The exercise period would commence from the date of vesting and will expire on completion 3 (Three) years from the date of respective vesting or such other shorter period as may be decided by the Committee from time to time.
The vested option shall be exercisable by the option grantees by a written application to the Company expressing his/ her desire to exercise such options in such manner and on such format as may be prescribed by the Committee from time to time. Exercise of options shall be entertained only after payment of requisite exercise price and satisfaction of applicable taxes by the option grantee. The options shall lapse if not exercised within the specified exercise period.
- H. Appraisal process for determining the eligibility of employees under the ESOP 2018:
The appraisal process for determining the eligibility shall be decided from time to time by the Committee. The broad criteria for appraisal and selection may include parameters like tenure of association with the Company, performance during the previous year(s), contribution towards strategic growth, contribution to team building and succession, cross-functional relationship, corporate governance, etc.
- I. Maximum number of options to be issued per employee and in aggregate:
The maximum number of options that may be granted to any specific employee of the Company per employee and in aggregate under the ESOP 2018 shall not exceed (number) options.
- J. Maximum quantum of benefits to be provided per employee under the ESOP 2018:
Apart from grant of options as stated above, no monetary benefits are contemplated under the ESOP 2018.
- K. Route of ESOP 2018 implementation:
The ESOP 2018 shall be implemented and administered directly by the Company.
- L. Source of acquisition of shares under ESOP 2018:
The ESOP 2018 contemplates issue of fresh/ primary shares by the Company.
- M. Amount of loan to be provided for implementation of the scheme(s) by the Company to the trust, its tenure, utilization, repayment terms, etc.:-
This is currently not contemplated under the present ESOP 2018.
- N. Maximum percentage of secondary acquisition:
This is not relevant under the present ESOP 2018.
- O. Accounting and Disclosure Policies:
The Company shall follow the IND AS 102 on Share based Payments and/ or any relevant Accounting Standards as may be prescribed by the Institute of Chartered Accountants of India (ICAI) from time to time, including the disclosure requirements prescribed therein. In case, the existing guidance note or accounting standards do not prescribe accounting treatment or disclosure requirements, any other Accounting Standard that may be issued by ICAI or any other competent authority shall be adhered to in due compliance with the requirements of Regulation 15 of SEBI SBEB Regulations.
- P. Method of option valuation:
The Company shall adopt 'fair value method' for valuation of options as prescribed under guidance note or under any accounting standard, as applicable, notified by appropriate authorities from time to time.
- Q. Declaration:
In case, the Company opts for expensing of share based employee benefits using the intrinsic value, the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the options and the impact of this difference on profits and on Earning Per Share (EPS) of the Company shall also be disclosed in the Directors' Report.

Annual Report 2017 - 2018

Consent of the members is being sought by way of special resolution pursuant to Section 62(1)(b) and all other applicable provisions, if any, of the Companies Act, 2013 and as per Regulation 6 of the SEBI SBEB Regulations.

A draft copy of the ESOP 2018 is available for inspection at the Company's Registered office during official hours on all working days till the date of the Annual General Meeting.

None of the Directors, key managerial personnel of the Company including their relatives are interested or concerned in the resolutions, except to the extent they may be lawfully granted options under the ESOP 2018.

In light of above, you are requested to accord your approval to the Special Resolution as set out at Agenda Item No.10 of the accompanying notice.

OPERATIONS:

During the year under review, total revenue of your Company increased from ₹14,224 lakhs to ₹17,639 lakhs, an increase of 24% over the previous year. The profit after tax for the year stood at ₹830.41 lakhs against ₹892.59 lakhs in the previous year.

Further in connection with strengthening of fruit processing business, the Company has started the commercial production of HPP (High Pressure processing) fruit and vegetable juices and initially the product has been launched in Pune and Mumbai.

FRESH FRUITS SEGMENT:

TABLE GRAPES

In addition to their exquisite flavor, grapes are known for their beneficial nutrients. They are progressively popular in diets around the world, not only for consumption as fresh fruit, but also in processed products such as wine, raisins, juice, jam, jelly and even canned foods.

The worldwide consumption of fresh grapes has reached 24.1 million tons. China is the largest consumer, followed by India and the United States. Brazil is considered an important consumer in the Latin American region. The grape consumption is not only on the rise in these traditional markets but there is clearly growing interest in this fruit in Southeast Asian markets like Thailand, Hong Kong, and Malaysia.

Assuming a continued trend, it is estimated that seedless grape varieties will be in the greater demand from traditional consumers, such as Europe and the United States. There are also good growth expectations for upcoming grape season, especially to the Asian market, with emphasis on China and Russia.

POMEGRANATES ARILS

Gradually but progressively, pomegranates arils are attracting interest, now that consumers worldwide see the pomegranate arils as a "super fruit" due to its high nutritional value and health benefits.

FOOD PROCESSING SEGMENT:

India's Food Processing Sector Poised for Growth.

India's food processing sector continues to grow in response to changing demographics, evolving preferences for branded and convenient items, retail and food service sector modernization, and government efforts to develop food manufacturing. Increasing health consciousness is influencing the development and sales growth of packaged foods. Imports of non-standardized processed foods and ingredients remain a challenge, though regulatory reforms are supporting progress.

As consumers' preferences shift to healthier products, owing to changing lifestyle and rise in disposable income levels, companies should look at offering a greater number of nutritional foods and beverages. In addition, better preserving and packaging techniques need to be developed that not only increase the shelf life but also improve the nutritive value of the processed food and beverages.

DIVIDEND:

Your Directors do not recommended payment of any Dividend for the Financial Year ended 31st March 2018, in order to conserve the resources of the Company. The Company will retain the earning for use in the future operations & Projects and strive to increase the net worth of stakeholders of the Company.

DIRECTORS AND KEY MANAGERIAL PERSONNEL

Pursuant to the provisions of Section 149 of the Act, which came into effect from April 1, 2014, Mr. Mayur Shah, Mr. Dinesh Oza, and Mr. Anil Sharma were appointed as independent directors at the Annual General Meeting of the Company held on September 22, 2014. The terms and conditions of appointment of independent directors are as per Schedule IV of the Companies Act, 2013. Your Company has received declarations from all the Independent Directors of the Company confirming that they meet with the criteria of independence as provided in Section 149(6) of the Companies Act, 2013 and the SEBI Listing Regulations and there has been no change in the circumstances which may affect their status as independent director during the year. There was no appointment or cessation of any Director during the year.

Brief details of Directors proposed to be appointed / re-appointed as required under Regulation 36 of the SEBI Listing Regulation are provided in the Notice of Annual General Meeting.

**ANNEXURE
TO THE DIRECTOR REPORT
MANAGEMENT DISCUSSION AND ANALYSIS**

The discussion hereunder covers the financial results of Freshtrop Fruits Limited for the financial year 2017-18 and its business outlook for the future. Certain statements in the 'Management Discussion and Analysis Report' section may be forward looking and are stated as required by applicable laws and regulations. Many factors may affect the actual results, which could be different from what the Directors envisage in terms of the future performance and outlook.

1. INDUSTRY STRUCTURE AND DEVELOPMENT:

FRUITS PROCESSING:

India is the second largest country in terms of arable land, roughly 160 million hectares. It also ranks second in production of fruits and vegetables. India has 15 agro-climatic zones, which can support most of the fruits. Despite that, the level of fruit processing in India is very low (around 2.2%) as compared to countries like the US (65%), China (23%) & Philippines (78%).

The biggest challenge faced by the fruit processing industry is perhaps, limited and inconsistent availability of fruits. Due to low per capita availability of fruits in India, most fruits find their way to retail markets, and almost nothing is left for processing. In the absence of consistent fruit supply, the industry cannot assure supply to its customers. They are reduced to marginal players processing table varieties and filling the gap left by crop failures in other parts of the world. This leads to uncertainty and low capacity utilization of processing units.

However, there is a significant opportunity for us. We need to work towards improving, both overall fruit availability and farm productivity. Globally, every country focuses on one or two fruits. For example, Brazil on orange juice, Europe/China on apple juice, Argentina leads in lemon juice, and India in mango. We need to select fruit to scale, and then make small clusters of excellence to pool in all resources in these clusters. Within these clusters, we need to promote Farmer Producer Organizations, have model food processing units, provide logistics support and market linkages for backward and forward integration. Advancements in agricultural research must reach farmers fast. From a sustainability perspective, farmers need to be appraised on good practices in terms of water, nutrition, and climate to grow new varieties. They should be warned against adverse effects of using pesticides beyond the prescribed dosage. This not only affects yield and quality but also makes it hard for the industry to export pulp/concentrate amid growing health and environmental concerns. The ability to segregate raw material at source and create separate distribution systems ensures the processing variety goes to the processors, while the table variety goes to the fresh distributors. This maximizes the price realization as per fruit grades for the farmer. The government may look at subsidizing the setting up of integrated units for by-product processing. These projects should aim to fill in the existing gaps in terms of developing new varieties, improving productivity, farm extension services and providing efficient market linkage for farmers.

FRESH FRUIT EXPORTS:

There is a need for Post-harvest management of fresh produce because of the perishable nature and short storage life of the produce. The process of the supply chain of fresh produce (fruits) from the farm to the end point of consumption is highly complex. Post-harvest management includes cooling, handling, storage, processing, packaging, transport and market phase. The main objective of post-harvest management and operations is to make appropriate conditions to increase the shelf life of the produce and at the same time preserve the nutritional composition and quality attributes of the produce.

A cold chain facility is a temperature- controlled facility, along with warehousing and distribution operations. It has been noted that in India only 10-11 percent of the fruits produced move in the cold chain. There are various challenges involved in the industry related to cold storage facilities like technical issues, institutional issues, high energy costs and temperature variability adding to the deterioration of the fresh produce.

GRAPES:

Exports of Fresh Grapes had a good start this year with the early arrival of the fruit and strong demand from the traditional markets such as European Union and Russia. The season started earlier by a couple of weeks in mid-January.

India has been attempting to make inroads into new export markets such as China, Russia, Indonesia and Saudi Arabia. These countries have now decided to come up with norms for Indian grapes. Some of the norms are stricter than those set by the European Union. Next year onwards, the government has decided to issue certificates to exporters to these nations as well, such that exports do not face any hurdles.

POMEGRANATES ARILS:

What has made this once anonymous fruit so popular is the refreshing winey flavor of its juicy seeds as well as its health benefits. However, the consumers find it difficult to manage the peeling and de-seeding. We now offer to consumers all the health benefits of this fruit without the trouble of peeling. And the best part is its 52-week availability from a single source!

INTRODUCING SECOND NATURE- B2C PRODUCT:

"SECOND-TO-TREE" these three words adequately summarize who we are and what we are about. We know that the best way to get the maximum nutrition and taste out of most fruits is when you pluck them from the tree and have them. We believe, the second best is our way. And we have gone to great lengths to ensure that our customers get to relish nature's bounty as nature intended it to be. It starts with building meaningful relationships with our farmers and cultivating them with education and inclusive growth. The seeds of this fruitful relationship that were sown over two decades back have been bearing fruits for a long time now. And it's this long-standing inner circle of trust that helps us achieve our goal.

Cold Pressed juices usually are hard pressed to come up with a difference. We are not cold pressed. We are one step better than cold pressed. We are Cold Extracted. Actually, Cold Vacuum Extracted to be precise. We don't use heat or any form of pasteurization or concentrates in our products. We use a process of cold extraction which gently extracts the pulp from the fruits and vegetables along with the natural soluble fibers. While this is getting done in a reduced oxygen environment to minimize oxidation, vacuum is created to remove even the dissolved oxygen to ensure a longlasting retention of natural taste, flavor and nutrients. This specialized process does not use any bags or belts which can be quite cumbersome to clean. Our process allows us to retain far more fiber and avoid oxidation as compared to conventional pressing.

We use the latest international technology called High Pressure Processing to maintain the quality of the juice. It allows us to protect, and at the same time pack in more natural flavors, colours and nutrients in every bottle. This technology applies pressure that is five times of what is found at the deepest end of the ocean. The pressure disrupts the microbial biochemistry of bacteria therefore lengthening shelf-life of the product. HPP is a natural environmentally friendly process that respects the ingredients and ensures retention of the original flavor and nutrition of the fruits, veggies and nuts.

2. OPPORTUNITIES AND THREATS:**OPPORTUNITIES****GRAPE:**

The market for grapes worldwide is growing steadily. In addition to a growing production in different parts of the world, seasonal changes worldwide are shaping up the market. Table grapes require a high input of labour in the growing process. India offers a good quality and competitive price during the first few months of the calendar year and hence the market for Indian grapes has shown a consistent and steady growth.

FOOD PROCESSING:

Fruit processing industry is considered to be the sunrise sector of the Indian economy. India has a strong potential for production, consumption and exports. Citrus, Banana, mango, guava, grapes, pineapple and apple are the major varieties grown in India. Favorable agro-climatic conditions make India a potential producer of fruits and hence the fruit processing Industry has a tremendous scope for growth.

Several schemes and promotional measures have been formulated by the Government of India to promote the industry growth.

THREATS / CHALLENGES

GRAPES:

Small land holdings of growers in India , make it difficult even for progressive growers to achieve consistent quality of their fresh produce and unpredictable weather conditions are a permanent risk for this business.

FOOD PROCESSING:

High competition from global players and fast obsolescence of technology are the threats faced by the industry. Skilled manpower shortage, poor cold storage facilities, inefficient post-harvest management and minimal technological interventions, have been slowing down the growth of this Industry.

3. SEGMENT WISE PERFORMANCE:

The Company has identified following segments as reportable segments:

- 1) Fresh Fruits
- 2) Food Processing

Details of Segment wise performance are given at respective place of in this report.

4. FUTURE OUTLOOK:

The future for India's fruit and vegetable business looks very bright as opportunities beckon in new export markets while aspirational Indian consumers drive demand for higher grade domestically-grown produce and high-value imported fruits. India must develop new markets, particularly in Asia, and cut its dependence on Europe. It must develop new coloured varieties, and cut its dependence on white seedless grapes, particularly Thompson Seedless. It needs to create transparent data and information systems, and it must capitalise on the opportunity to extend its season by developing production in new growing areas.

Growth in food processing business is expected to stem from countries like India and China because of rising average incomes, westernized diet and strong domestic demand. After China, India is considered to be the second largest producer of fruits across the globe. 30-35% of the overall production is presently lost due to unskilled labor, inefficient cold storage facilities and spoilage at post-harvest stages. With the creation of adequate specialized cold storage facilities, logistics infrastructure, skilled manpower and modern technological interventions, post-harvest losses can be minimized resulting in higher returns to the major stakeholders of the entire fruit supply chain i.e. farmers and the consumers.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has adequate Internal control systems commensurate with its size and operations to ensure orderly and efficient conduct of business while safeguarding the assets, quality, safety, procurements, finance and accounts and reducing and detecting error.

6. FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

The financial performance of the Company is described in the Director's Report under the head "Financial Results" and "Review of Operations".

7. MATERIAL DEVELOPMENT IN HUMAN RESOURCES AND INDUSTRIAL RELATIONS FRONT:

The Company routinely undertakes employee development activities keeping in mind the professional requirements of the employees as well as the growth of the Company.

The Company has embarked on the path to formalize its CSR commitments – and is perhaps the only company in India in the fresh produce export sector to move in this direction. This is not only going to result in better integration within the supply chain but also offer a significant competitive edge in marketing our products in the developed markets across the world.

The Industrial Relations were cordial throughout the year with no incidence of strike or lockouts.

CAUTIONARY NOTE

Statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations and others may constitute "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results may differ from those expressed or implied. Several factors that could significantly impact the Company's operations include economic conditions affecting demand, supply and price conditions in the domestic and overseas markets, changes in the Government regulations, tax laws and other statutes, climatic conditions and such incidental factors over which the Company does not have any direct control.

The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

INDEPENDENT AUDITOR'S REPORT**TO THE MEMBERS OF FRESHTROP FRUITS LIMITED****Report on the Ind AS Financial Statements**

We have audited the accompanying Ind AS financial statements of **FRESHTROP FRUITS LIMITED** ('the Company'), which comprise the Balance Sheet as at 31st March 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended 31st March, 2017 and the transition date opening Balance Sheet as at 1st April, 2016 included in these Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting

Standards) Rules, 2006 audited by the predecessor auditor whose report for the year ended 31st March, 2017 and 31st March, 2016 dated 30th May, 2017 and 26th May, 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Our opinion on the Ind AS financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of **FRESHTROP FRUITS LIMITED** (the "Company") as of 31st March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Control over Financial Reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Control over Financial Reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls system over Financial Reporting and their operating effectiveness. Our audit of Internal Financial Control over Financial Reporting included obtaining an understanding of Internal Financial Control over Financial Reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal Financial Control system over Financial Reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's Internal Financial Control over Financial Reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's Internal Financial Control over Financial Reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of Internal Financial Controls system over Financial Reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls over Financial Reporting, to future periods are subject to the risk that Internal Financial Controls over Financial Reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the criteria for internal financial controls over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31.03.2018

1. CORPORATE INFORMATION

Freshtrop Fruits Limited ("The Company") is a public company domiciled in India and incorporated under provisions of the Companies Act, 1956. The company is primarily engaged in the business of exports of fresh fruits and vegetables to leading supermarket chains in various parts of Europe, Russia & Hong Kong as well as in Domestic Market. The company is producing Fruit Pulp & Concentrate for both the Domestic & International Customers. The company has started new venture of cold processed juice for the domestic customers.

2. SIGNIFICANT ACCOUNTING POLICIES:

2.1 Basis of preparation of financial statements

(i) Compliance with Ind AS

These financial statements have been prepared in accordance with Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified under Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

For all periods up to and including the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with Accounting Standards notified under the Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP').

These financial statements are the first financial statements prepared under Ind AS. The date of transition to Ind AS is 1st April, 2016. Refer Note 46 for an explanation of how the transition from Indian GAAP (IGAAP) to Ind AS has affected the Company's financial position, financial performance and cash flows.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities (including Derivative Instrument) that are measured at fair values (Refer note No. 34) and Defined benefit planned assets measured at fair value (Refer note no. 37) at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

(ii) Use of estimates and judgements

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialized.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(iii) Current / Non Current Classification

All assets and liabilities have been classified as current or noncurrent as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

2.2 Property Plant and Equipment

Recognition and measurement

Freehold land is carried at historical cost. All the other items of Property, Plant and Equipment are stated at cost, net of recoverable taxes, less accumulated depreciation and accumulated impairment losses, if any.

The cost of Property, Plant and Equipment comprises of its purchase price or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of

operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and borrowing costs for assets that necessarily take a substantial period of time to get ready for their intended use. Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Capital work-in-progress is stated at cost. All the direct expenditure related to implementation including incidental expenditure incurred during the period of implementation of a project, till it is commissioned, is accounted as Capital work-in-progress (CWIP) and after commissioning the same is transferred / allocated to the respective item of property, plant and equipment.

Pre-operating costs, are expensed to the Statement of Profit and Loss as and when incurred.

If significant parts of an item of Property, Plant and Equipment have different useful lives and cost, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in Statement of Profit and Loss.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue the previous GAAP carrying value of all its Property Plant and Equipment as at April 1, 2016 and use that carrying value as deemed cost of property plant and equipment.

2.3 Intangible asset

Recognition and measurement

Intangible assets are initially measured at cost. Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses. The cost of an intangible asset comprises of its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the previous GAAP carrying value of all the intangible assets recognised as at April 1, 2016 and use that carrying value as the deemed cost of the intangible assets.

2.4 Depreciation method, estimated useful lives and residual value

The estimate of the useful life of the assets has been assessed based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Depreciation is provided on a pro-rata basis on the straight line method over the useful lives as prescribed under Schedule II to the Companies Act, 2013 with the exception of the following:

Asset Description	Useful Life
Office Building with RCC frame structure	30
Factory building	20

The management believes that these estimated useful lives reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if required.

Intangible assets are amortized over the estimated period of benefit, not exceeding five years.

2.5 Impairment

Assets that have an indefinite useful life, for example goodwill, are not subject to amortization and are tested for impairment annually and whenever there is an indication that the asset may be impaired.

Assets that are subject to depreciation are reviewed for impairment, whenever events or changes in

circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss and included in depreciation and amortization expense. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

2.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

A financial asset is recognised in the balance sheet when the Company becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset at its fair value plus or minus, in the case of a financial asset not at fair value through statement of profit and loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset.

Subsequent measurement

For purpose of subsequent measurement, financial assets are classified into:

- a. Financial assets measured at amortized cost;
- b. Financial assets measured at fair value through other comprehensive income (FVTOCI);
- c. Financial assets measured at fair value through statement of profit and loss (FVTPL)

The Company classifies its financial assets in the above mentioned categories based on:

- a. The Company's business model for managing the financial assets;
- b. The contractual cash flows characteristics of the financial asset.

Financial assets measured at amortized cost

This category generally applies to trade and other receivables.

A financial asset is measured at amortized cost if both of the following conditions are met:

- a. The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows;
- b. The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Financial assets measured at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- a. The financial asset is held within a business model whose objective is achieved by both collecting the contractual cash flows and selling financial assets;
- b. The asset's contractual cash flows represent SPPI.

Financial assets measured at fair value through the statement of profit and loss (FVTPL)

FVTPL is a residual category. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

Equity Instruments

All the equity instruments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL.

If the company decides to classify an equity instrument as at FVTOCI, then all the fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity. Equity instruments included within FVTPL category are measured at fair value with all the changes recognized in statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's balance sheet) when:

- a. The contractual rights to the cash flows from the financial asset have expired, or
- b. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
- c. The Company has transferred substantially all the risks and rewards of the asset, or
- d. The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company assesses impairment based on expected credit loss (ECL) model to the following:

- a. Financial assets measured at amortized cost;
- b. Financial assets measured at fair value through other comprehensive income

Expected credit losses are measured through a loss allowance at an amount equal to:

- a. The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- b. Full time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

The Company follows simplified approach for recognition of impairment loss allowance on trade receivables, under the simplified approach; the Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable which is adjusted for management's estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Financial Liabilities**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through statement of profit and loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and short term borrowings.

Subsequent measurement

- a. Financial liabilities measured at amortized cost;

b. Financial liabilities subsequently measured at fair value through statement of profit and loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through statement of profit and loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

Trade and other payables

These amounts represent liability for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

2.7 Derivative financial instruments and Hedge Accounting

The company's activities exposes it to the financial risk of the changes in foreign exchange and interest rates. The use of financial derivative is governed by the company's risk management policies approved by the board of the directors. The company has taken cross currency interest rate swaps for its floating rate foreign currency borrowings to hedge foreign currency risk and interest rate risk. The company has taken forward contracts to hedge future probable forecasted export sales.

The company documents at the inception of the hedging transaction the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset changes in cash flows of hedged items. The company documents its risk management objective and strategy for undertaking various hedge transactions at the inception of each hedge relationship.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are also classified as a current asset or liability when expected to be realized /settled within 12 months of the balance sheet date.

a. Cash flow hedges that qualify for hedge accounting:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve

within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in statement of profit and loss, within other gains/(losses). Amounts accumulated in equity are reclassified to statement of profit and loss in the periods when the hedged item affects statement of profit and loss

2.8 Inventories

Inventories are valued at cost or net realizable value (NRV), whichever is lower. The basis of determining cost for various categories of inventories is as follows:

- a. Raw materials, finished goods, packing materials, stores and spares and consumables are carried at the lower of cost and net realizable value after providing for obsolescence, if any. The comparison of cost and NRV is made on an item-by item basis.
- b. In determining the cost of raw materials, packing materials, consumables, stores and spares, First-in-First-Out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.
- c. Cost of finished goods includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location and condition.

2.9 Employee benefit

Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus, short term compensated absences, ex-gratia, etc. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Compensated Absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

Post-Employment Benefits:

(i) Defined Contribution plans:

Defined contribution plans are employee state insurance scheme and Government administered provident funds scheme for all applicable employees and superannuation scheme for eligible employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceed the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

(ii) Defined Benefit Plans

Provident Fund scheme:

Defined Contribution Plans such as Provident Fund etc., are charged to the Statement of Profit and Loss as incurred. The contributions are made to a government administered Provident Fund scheme towards which the Company has no further obligations beyond its monthly contributions.

Defined benefit Gratuity plan:

The Company has funded its gratuity liability with Life Insurance Corporation of India (LIC) under the Group Gratuity Cash Accumulation Plan.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the LIC within the next twelve months.

2.10 Borrowing Cost

The Company is capitalizing borrowing costs that are directly attributable to the acquisition or construction of qualifying assets. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. For borrowing cost capitalization, the capital cost of a particular project is identified against a borrowing in terms of period of construction and the borrowing cost for the relevant period is added to the capital cost till the particular project is capitalised and thereafter the interest is charged to the statement of profit and loss. All other borrowing costs are recognized as expense in the period in which they are incurred and charged to the statement of profit and loss.

2.11 Foreign Currency Translation**Functional and presentation currency**

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Transactions and balances:

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realized gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

2.12 Revenue Recognition**Sale of goods**

Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably.

Amount disclosed as revenue are inclusive of excise duty and net of returns, trade allowance, rebates, goods services and tax (GST) and amount collected on behalf of third parties.

Revenue from export sales is recognized when the significant risks and rewards of ownership of products are transferred to the customers.

Sale of service- Job work

Job Work Sales are recognized as and when the processing of specific products is completed and related costs are incurred in accordance with the terms of the specific contracts.

Export incentive

Export Incentives are recognized as income when right to receive credit as per the terms of the scheme is established in respect of the exports made and when there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

Interest and Dividend Income

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive dividend is established.

2.13 Taxation

Income taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961.

Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

2.14 Provisions and Contingent Liabilities

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

2.15 Research and Development Expenditure

Expenditure on research is recognised as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognised as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalised and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

2.16 Earnings per Share

Basic EPS is computed by dividing net profit after taxes for the year by weighted average number of equity shares outstanding during the financial year, adjusted for bonus share elements in equity shares issued during the year and excluding treasury shares, if any.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.17 Segment Reporting

The Chief Operational Decision Maker (CODM) monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Operating segments are reported in a manner consistent with the internal reporting provided to the CODM.

The Board of Directors (BOD) of the Company assesses the financial performance and position of the Company, and makes strategic decisions; hence the Board of Directors are CODM. Refer note 39 for segment related information.

2.18 Cash and cash equivalents

Cash and cash equivalents comprise cash and deposits with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

2.19 Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

2.20 KEY ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the Company's financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the

reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

Income taxes

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions (Refer Note 33).

Property, Plant and Equipment

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

Defined Benefit Obligation

The costs of providing gratuity and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. The same is disclosed in Note 37, 'Employee benefits'.

Fair value measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

3. STANDARD ISSUED NOT YET EFFECTIVE

Standards issued but not yet effective

In March, 2018, the Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Ind AS 115, Revenue from Contract with Customers, Appendix B to Ind AS 21, Foreign Currency Transactions and advance consideration and amendments to certain other standards. These amendments are in line with recent amendments made by International Accounting Standards Board (IASB). These amendments are applicable to the Company from 1st April, 2018. The Company will be adopting the amendments from their effective date.

a) Ind AS 115, Revenue from Contract with Customers:

Ind AS 115 supersedes Ind AS 11, Construction Contracts and Ind AS 18, Revenue. Ind AS 115 requires an entity to report information regarding nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with customers. The Principle of Ind AS 115 is that an entity should recognize revenue that demonstrates the transfer of promised goods and services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard can be applied either retrospectively to each prior reporting period presented or can be applied retrospectively with recognition of cumulative effect of contracts that are not completed contracts at the date of initial application of the standard.

Based on the preliminary assessment performed by the Company, the impact of application of the standard is not expected to be material.

b) Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:

The Appendix clarifies that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the asset, expenses or income (or part of it) is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration towards such asset, expenses or income. If there are multiple payments or receipts in advance, then an entity must determine transaction date for each payment or receipts of advance consideration.

The impact of the Appendix on the financial statements, as assessed by the Company, is expected to be not material.

Fair value of financial assets and liabilities measured at amortised cost is not materially different from the amortised cost. Further, impact of time value of money is not significant for the financial instruments classified as current. Accordingly, the fair value has not been disclosed separately.

Types of inputs for determining fair value are as under:

Level 1: This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, and mutual fund investments. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

B. Measurement of fair values

i) Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used.

Notes to the Financial Statements for the year ended 31st March, 2018**Financial instruments measured at fair value**

Cross Currency Interest Rate Swaps and Forward contracts	This instrument is valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include swap models, using present value calculations. The model incorporate various inputs including credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads, interest rate curve.
---	--

ii) Transfers between Levels 1 and 2

There have been no transfers between Level 1 and Level 2 during the reporting periods

iii) Transfer out of Level 3

There were no movement in level 3 in either directions during the financial year ending on 31 March 2018 and 31 March 2017.

C. Financial risk management

The Company has a well-defined risk management framework. The Board of Directors of the Company has adopted a Risk Management Policy. The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

(i) Credit risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or fail to pay amounts due causing financial loss to the company. The potential activities where credit risks may arise include from cash and cash equivalents, derivative financial instruments and security deposits or other deposits and principally from credit exposures to customers relating to outstanding receivables. The maximum credit exposure associated with financial assets is equal to the carrying amount. Details of the credit risk specific to the company along with relevant mitigation procedures adopted have been enumerated below:

Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base. Majority of the customers have been associated with the company for a considerable period of time. Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Sale limits are established for each customer and reviewed regularly

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. The company reviews the receivables in light of their historical payment patterns and adjusts the same to estimate the expected loss on account of credit worthiness of the customer or delay in payments leading to loss of time value of money.

Notes to the Financial Statements for the year ended 31st March, 2018**Aging of Account Receivables****(₹ in Lakhs)**

Particulars	As at 31st March, 2018	As at 31st March, 2017	As at 1st April, 2016
Not Due	-	-	-
0-3 Months	5,003.72	3,311.05	2,508.75
3-12 Months	-	1.69	2.50
Total	5,003.72	3,312.74	2,511.25

The above receivables which are past due but not impaired are assessed on case-to-case basis. Management is of the view that these financial assets are not impaired as there has not been any adverse change in credit quality and are envisaged as recoverable based on the historical payment behaviour and extensive analysis of customer credit risk, including underlying customers' credit ratings, if they are available. Consequently, no additional provision has been created on account of expected credit loss on the receivables. There are no other classes of financial assets that are past due but not impaired.

Other financial assets

Other financial assets includes loan to employees, security deposits, investments, cash and cash equivalents, other bank balance, derivative asset, advances to employees etc.

- Cash and cash equivalents and Bank deposits are placed with banks having good reputation and past track record with adequate credit rating.
- Investments are made in credit worthy mutual funds.
- Derivative instrument comprises cross currency interest rate swaps and forward contracts where the counter parties are banks with good reputation, and past track record with adequate credit rating. Accordingly no default risk is perceived.
- Company has given security deposit to various government authorities (like Municipal corporation, Nagarpalika, Grampanchayat, etc.). Being government authorities, the Company does not have exposure to any credit risk.
- Loan and advances to employees are majorly secured in nature and hence the Company does not have exposure to any credit risk.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are proposed to be settled by delivering cash or other financial asset. The Company's financial planning has ensured, as far as possible, that there is sufficient liquidity to meet the liabilities whenever due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company's liquidity management policy involves periodic reviews of cash flow projections and considering the level of liquid assets necessary, monitoring balance sheet, liquidity ratios against internal and external regulatory requirements.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

(iii) Market risk

Market risk is the risk that changes in market prices – such as currency risk, other price risk and interest rate risk – will affect the Company's income or the value of its holdings of financial instruments.

a. Foreign Currency risk

The functional currency of the company is Indian Rupees and its revenue is generated from operations in India as well as outside India through its exports and is therefore exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EURO and GBP. Foreign exchange risk arises from highly probable forecast transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (INR). The risk is measured through sensitivity analysis. The primary objective for forex hedging against anticipated foreign currency risks will be to hedge the Company's highly probable foreign currency cash flows arising from such transactions (thus reducing cash flow and profit volatility). The Company does not enter into any derivative instruments for trading or speculative purposes.

The Company uses forward exchange contracts, to hedge the effects of movements in exchange rates on foreign currency denominated assets. The sources of foreign exchange risk are outstanding amounts payable for capital goods denominated in foreign currency. The Company is also exposed to foreign exchange risk on its exports. These transactions are denominated in US dollars, EURO and GBP.

Foreign Currency Risk Sensitivity

The Company is mainly exposed to changes in USD, EURO & GBP. The below table demonstrates the sensitivity to a 5% increase or decrease in the USD, EURO and GBP against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

A Change of 5% in foreign currency net of hedges would have following impact on profit before tax

Other Price Risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from financial assets such as investments in equity instruments. The Company is mainly exposed to the price risk due to its investments in equity mutual fund recognised at FVTPL. As at 31st March, 2018, the carrying value of the investments in equity mutual fund amounts to ₹97.06 Lakhs (₹Nil as at 31st March, 2017 and ₹Nil as at 1st April, 2016). The details of such investments in equity mutual fund is given in Note 6. The price risk arises due to uncertainties about the future market values of these investments.

Notes to the Financial Statements for the year ended 31st March, 2018

The Company is mainly exposed to change in market rates of its investments in equity mutual funds recognised at FVTPL. A sensitivity analysis demonstrating the impact of change in market prices of these instruments from the prices existing as at the reporting date is given below:

(₹ in Lakhs)

	effect on Profit / (Loss)		effect on Equity

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

As disclosed above, The interest rate exposure on floating rate Foreign Currency Loan has been fully hedged through a pay fixed – receive floating cross currency interest rate swap. Since there are no financial assets or financial liabilities which are at floating interest rate, there is no interest risk

35 CAPITAL MANAGEMENT

The Company defines capital as total equity including issued equity capital, share premium and all other equity reserves attributable to equity holders of the Company (which is the Company's net asset value). The primary objective of the Company's financial framework is to support the pursuit of value growth for shareholders, while ensuring a secure financial base.

The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio of the Company.

Decrease by 1%	(2.33)	(1.44)	(1.77)

Notes to the Financial Statements for the year ended 31st March, 2018

The above sensitivity analysis may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same method as that applied in calculating the projected benefit obligation as recognized in the balance sheet.

Notes to the Financial Statements for the year ended 31st March, 2018**46 FIRST TIME ADOPTION of IND AS****These are the Company's first financial statements prepared in accordance with Ind AS.**

For all periods up to and including the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with the accounting standards notified under Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP'). This note explains the principal adjustments made by the Company in restating its financial statements prepared under Previous GAAP for the following:

- a) Balance Sheet as at 1st April, 2016 (Transition date);
- b) Balance Sheet as at 31st March, 2017;
- c) Statement of Profit and Loss for the year ended 31st March, 2017; and
- d) Statement of Cash flows for the year ended 31st March, 2017.

Exemption and exception applied

Ind AS 101- First-time adoption of Indian Accounting Standards, allows first-time adopters, exemptions from the retrospective application and exemption from application of certain requirements of other Ind AS. The Company has availed the following exemptions as per Ind AS 101:

1 Estimates:

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in financial instruments carried at FVTPL or FVOCI,
- Impairment of financial assets based on expected credit loss model
- Determination of the discounted value for financial instruments carried at amortised cost.

2 Classification and measurement of financial assets:

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

3 Hedge Accounting

Hedge accounting can only be applied prospectively from the transition date to transactions that satisfy the hedge accounting criteria in Ind AS 109, at that date. Hedging relationships cannot be designated retrospectively, and the supporting documentation cannot be created retrospectively. As a result, only hedging relationships that satisfied the hedge accounting criteria as of 1st April 2016 are reflected as hedges in the company's results under Ind AS.

4 Deemed cost for property, plant and equipment (PPE), intangible assets

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets

Notes to the Financial Statements for the year ended 31st March, 2018

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

5 Fair value measurement of financial assets and liabilities

For financial instruments, where in fair market values are not available (viz. interest free and below market rate security deposits or loans) the Company has elected to adopt fair value recognition prospectively to transactions entered after the date of transition.

The presentation requirements under Previous GAAP differs from Ind AS, and hence, Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

Notes to the reconciliation of equity as at 1st April 2016 and 31st March 2017 and Total comprehensive income for the year ended 31st March 2017.

1 Proposed dividend and its DDT

Under Previous GAAP, dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividends are to be recognised only on approval by the shareholders in the general meeting. Accordingly, liability amounting to ₹121.45 Lakhs and related dividend distribution tax amounting to ₹24.72 Lakhs are recognised as a liability in the year in which it is approved by the shareholders in the Annual General Meeting of the Company. This has resulted in increase in equity amounting to ₹146.17 Lakhs as at 1st April 2016 and subsequent decrease in profit in FY 2016-17.

2 Excise Duty:

Under Previous GAAP, sale of goods was presented as net of excise duty. However, under Ind AS, sale of goods includes excise duty. Excise duty on sale of goods amounting to ₹160.27 Lakhs is separately presented on the face of Statement of Profit and Loss. Thus, sale of goods under Ind AS has increased by an amount of ₹160.27 Lakhs.

Notes to the Financial Statements for the year ended 31st March, 2018**3 Forward contract**

Under the previous GAAP the premium or discount arising at the inception of forward exchange contracts entered into to hedge an existing asset/liability, was amortised as expense or income over the life of the contract. Under the Ind AS 109, Forward Contracts are carried at fair value and the resultant gains and losses are recorded in the statement of Profit and Loss. Accordingly, the same has been fair valued resulting in decrease in equity by ₹36.08 Lakhs as at 31st March, 2017 (decrease ₹20.02 Lakhs as at 1st April, 2016). Consequently, the profit for the year ended 31st March 2017 decreased by ₹16.06 Lakhs.

4 Interest bearing loans and borrowings

Under Previous GAAP, transaction charges directly attributable to borrowings were either expensed or capitalized as appropriate. Under Ind AS, these have been considered to determine the amortized cost of the respective borrowings using effective interest rate method. Accordingly borrowings as at 01st April 2016 decreased by ₹0.71 Lakhs with corresponding effect in retained earning.

5 Loans given to employee

Under Previous GAAP, loan given to employee is considered in connection with interest bearing loans and borrowings. Under Ind AS, if loans are repayable on demand, then they are classified as current loan. As loan given to employees are repayable on demand, it is shown as current in nature.

6 Employee benefits :

Both under Previous GAAP and Ind-AS, the company recognises costs related to its post-employment defined benefit plan on an actuarial basis. Under Previous GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind-AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI.

7 Deferred tax assets (net) :

Under Previous GAAP, deferred tax accounting used the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind-AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base.

The changes in deferred tax liability is as follows:

(₹ in Lakhs)

Particulars	Foot note reference	31st March, 2017	1st April, 2016
Mark to market on forward contract	3	(12.49)	(6.93)
Employee benefits	6	(8.44)	(8.32)
Total		(20.93)	(15.25)

8 Restatement of Prior Period Expenses

Under Previous GAAP, Prior period expenses of ₹3.22 Lakhs was recorded in the statement of Profit and Loss for the year ended March 31, 2017.

However in accordance with the requirements of Ind AS the same has been recognised by restating the retained earnings as on April 01, 2016.

9 Statement of cash flows

The transition from Indian GAAP to Ind AS do not have any material impact on the statement of cash flows.

10 Other Comprehensive Income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income'. The concept of other comprehensive income did not exist under previous GAAP.
