For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.
7. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at all members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and

Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.

8. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
9. Pursuant to the provisions of the Act and other applicable Regulations, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on their behalf and the proxy need not be a Member of the Company. However since this AGM is being held pursuant to the MCA/SEBI Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will also not be available for the AGM and hence the Proxy Form and Attendance Slip are not annexed to the Notice.
10. Corporate/institutional Members (i.e. other than individuals, HUF, NRI, etc.) are required to send a scanned copy (PDF/ JPG format) of the relevant Board Resolution/Authority Letter / Power of Attorney etc. together with attested specimen signature of the duly authorised signatory(ies) who is /are authorised to vote, to the Scrutinizer through e-mail at secretary@rajpack.com.
11. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM along with the Annual report has been uploaded on the website of the Company at [https:// www.rajpack.com](https://www.rajpack.com). The Notice calling the AGM along with the Annual report can also be accessed from the website of the BSE Limited at www.bseindia.com. The AGM Notice along with annual report is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM) i.e. www.evotingindia.com.
12. The dividend as recommended by the Board of Directors, if declared at the Annual General Meeting will be paid within a period of 30 days to those members whose name appear as:
 - a) Beneficial Owners as on 16th September, 2022 on the lists of Beneficial Owners to be furnished by National Securities Depository Limited and Central Depository Services (India) Limited; and
 - b) Members in the Register of Members of the Company on 16th September, 2022.
13. Recent circular requires submission of Aadhar/PAN number by every participant in securities market. Members holding shares in demat form are, therefore, requested to submit Aadhar card/PAN details to the Depository Participants with whom they have demat accounts. Members holding shares in physical form can submit their Aadhar card/PAN details to the Company/ Registrar and Share Transfer Agents (CIL Securities Limited)
14. Members holding shares in the same name under different ledger folios are requested to apply for Consolidation of such folios and send the relevant share certificates to CIL Securities Limited, Share Transfer Agents of the Company for their doing the needful.
15. Members are requested to send their queries at least 5 days before the date of meeting so that information can be made available at the meeting.
16. Pursuant to Finance Act 2020, dividend income will be taxable in the hands of shareholders w.e.f. April 01, 2020 and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates. For the prescribed rates as applicable to various

categories, the shareholders are requested to refer to the Finance Act, 2020 and amendments made thereto from time to time. Some of the major features of the latest tax provisions on dividend distribution are stated as hereunder for a quick reference.

17. For resident Shareholders, tax shall be deducted at source under Section 194 of the Income Tax Act, 1961 at 10% on the amount of Dividend declared and paid by the Company during financial year 2022-23 provided PAN is provided by the shareholder. If PAN is not submitted, TDS would be deducted @ 20% as per Section 206A of the Income Tax Act, 1961.
18. However, no TDS shall be deducted on the dividend payable to a resident Individual if the total dividend to be received by them during Financial Year 2022-23 does not exceed Rs. 5,000/-. Please note that this includes the previous dividend(s) paid, if any, and future dividend(s) which may be paid, during the Financial Year 2022-23, if declared.
 - i. To all the Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the Depositories viz. National Securities Depository Limited (NSDL) and the Central Depository Services (India) Limited (CDSL) as at the close of business hours on 16.09.2022 (viz. the "Record Date");
 - ii. To all the Members in respect of shares held in physical form as at the close of business hours on 16.09.2022.
19. In cases where the shareholder provides Form 15G (applicable to any person other than a Company or a Firm) / Form 15H (applicable to an Individual above the age of 60 years), provided that the eligibility conditions are being met, no tax at source shall be deducted.
20. Apart from the above, since the TDS/ Withholding rates are different for resident and non-resident shareholders, members are requested to confirm their residential status as per the provisions of the Income Tax Act 1961, by sending an email at secretary@rajpack.com
21. Company shall arrange to email the soft copy of TDS certificate of the Members at their registered email ID in due course, post payment of the dividend amount and in remaining cases where no email ID is registered, TDS certificates shall be posted to the Members when the postal services function normally.
22. In view of the above provisions, the shareholders are requested to update their PAN with the Company/R&T Agent (in case shares held in physical mode) and with the depositories (in case of shares held in demat mode). A Resident individual shareholder with PAN but not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H in the aforesaid manner, to avail the benefit of non-deduction of tax at source, by sending email to secretary@rajpack.com upto 5.00 p.m. (IST) on 17.09.2022.
23. Non-resident shareholders can avail beneficial rates under tax treaty between India and their country of residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F or any other document which may be required to avail the tax treaty benefits under the provisions of Income Tax Act, 1961 by sending an email to secretary@rajpack.com upto 5.00 p.m. (IST) on 16.09.2022.

24. In respect of shares held in physical mode, all shareholders are requested to intimate changes, if any, in their registered address immediately to the registrar and share transfer agent of the Company and correspond with them directly regarding share transfer/transmission /transposition, Demat/Remat, change of address, issue of duplicate shares certificates, ECS and nomination facility.
25. In terms of Section 72 of the Companies Act, 2013, a member of the Company may nominate a person on whom the shares held by him/her shall vest in the event of his/her death. Members desirous of availing this facility may submit nomination in prescribed Form-SH-13 to the Company/RTA in case shares are held in physical form, and to their respective depository participant, if held in electronic form.
26. Members holding shares in the electronic form are requested to inform any changes in address/bank mandate directly to their respective Depository Participants.
27. The company has appointed M/s. S.S. Reddy & Associates, Practicing Company Secretaries, as scrutinizer of the company to scrutinize the voting process.
28. Since securities of the Company are traded compulsorily in dematerialized form as per SEBI mandate, members holding shares in physical form are requested to get their shares dematerialized at the earliest.
29. In compliance with the MCA Circulars and SEBI Circular dated January 15, 2021 as aforesaid, Notice of the AGM along with the Annual Report 2021-2022 is being sent only through electronic mode to those Members whose email addresses are registered with the Company/Depositories.
30. Since the AGM will be held through VC / OAVM, the Route Map is not annexed in this Notice.
31. The Members can join the e-AGM 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice.
32. The Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 of the Companies Act, 2013, the Register of Contracts or arrangements in which the Directors are interested under Section 189 of the Companies Act, 2013, will be available for inspection at the registered office of the Company.

33. THE INTRUCTIONS FOR SHAREHOLDERS FOR REMOTE E-VOTING ARE AS UNDER:

- (i) The voting period begins on 21.09.2022 at 09.00 A.M. and ends on 23.09.2022 at 05.00 P.M. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of 16.09.2022 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed

that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.
- (v) Pursuant to above said SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode** is given below:

2. GENERAL INFORMATION: Overview of the industry and important changes in the industry during the last year, External environment and economic outlook

The growth of the packaging market in India is largely driven by various logistic applications, technological advancements, as well as the development of the packaging sector across the country. The packaging industry in India is expected to register a CAGR of approximately 26.7% during the period (2022-2027). The flexible packaging market size in India is expected to grow by USD 12.72 billion and record a CAGR of 10.63% during 2021-2025. The Indian packaging industry is dominated by plastic flexible packaging; the main reason for this is that flexible packages are found aesthetically attractive, cost-effective, sturdy and packaged products in affordable quantities. The rise of the Indian middle class and Increase in disposable income in rural India along with changing lifestyle, rapid expansion of organized retail, growth of exports, and India's rising e-commerce sector are further facilitating growth of packaging industry. On the industry front, the rapid growth of the market is primarily driven by the pharmaceuticals and foods and beverages industries. Huge investments in the food processing, personal care, and pharmaceuticals end-user industries are creating scope for expansion of the packaging market. This also opens possibilities for the new entrants in the field provided they meet fast changing customer needs and demands.

During the pandemic, the industry was focused on meeting the current demand as demand for FMCG, pharmaceutical packaging and rising e-commerce sales were on steep rise. Now industry and consumer are working towards reducing the impact of packaging on environment. Traditional packaging methods are evolving now with sustainability goals, and the need for circular economy is gaining importance. The packaging industry will need to re-structure, rebalance their sustainability goals along with requirement for hygiene along with cost being the main factor. With pandemic we have witnessed increase in demand for packaging and noted its value in the eye of the user. The entire packaging industry including raw material supplier, manufacturers, producers etc. have to work in future to work towards sustainability goals along with hygiene/safety standards but keeping in view the important factor/properties that is how plastic has been dominating packaging field since decades. *

MANAGEMENT DISCUSSION AND ANALYSIS REPORT*

1. Industry Overview:

Year 2021-2022 was a year filled with challenges. Along with the spread of pandemic, ongoing tension between Russia and Ukraine, we have witnessed rising energy prices, supply chain disruption and sticky inflation.

Amid this, Globally packaging market was valued around USD 1.01 trillion in 2021 after witnessing a slowdown in 2020 and expected to reach USD 1.22 trillion in 2026 as per a data by Smithers study. Traditional packaging methods are evolving now with sustainability goals, environmental issues and the need for circular economy gaining importance both at consumer and packaging business end. In the packaging segment flexible plastic packaging industry has seen continuous growth, mainly due to e-commerce industry and consumer goods industry. Flexible packaging presents low cost and convenient way to pack, preserve and transport goods.

In India packaging is fifth largest industry and one of the fastest growing industries. The packaging industry in India is expected to register a CAGR of approximately 26.7% during the period (2022-2027). The flexible packaging market size in India is expected to grow by USD 12.72 billion and record a CAGR of 10.63% during 2021-2025. The demand is growing due to rising population along with rise in income level, growth in retail business, growth in exports and rising e-commerce all have given new dimension to the packaging industry. In India the growth in the flexible industry is synonymous with growth sector like FMCG, Automotives, Pharmaceutical, Agriculture etc.

Plastics has been preferred choice for flexible packaging globally and in India due to inert properties, excellent barrier to oxygen, water, gases, solvents etc helps to increase product's shelf life thus aid in transportation, ability to be moulded to fit the package of many shapes and sizes and cost effective.

2. Opportunities, Threats, Risk and concerns:

During the pandemic and post-pandemic era flexible industry has witnessed major changes and flexible packaging pioneers are to adapt to these criteria. Customer is focusing on safety and contactless supply. Further sustainability and environmental issues are being empathized by legislation there is a need and chance to develop products that are eco-friendly, recyclable.

The Company with its vast experience is working to provide the customized solution to the customers and working to tap opportunities that are available to its fullest potential. However, there always continues to be threats to the Company as well as the industry and to highlight few of them:

- 1. Fluctuating raw material costs:** The fluctuating raw material prices affected the competitiveness of companies in the flexible packaging industry.
- 2. Sustainability challenges and Rapid technological advancement:** The flexible packaging industry has been facing flak from governmental organizations, consumers, and environmental groups due to the plastics waste. Most of the materials used are often non-recyclable. With consumer getting more and more conscious about plastic waste and its effect on environment and Government bringing in new Laws like Plastic waste Management rules, industry has been given more responsibility along with more and more compliance. Flexible packaging companies are working to address environmental issues, end-of-life disposal, and reduction of greenhouse gas and water footprints. Companies have to focus on new packaging products for its consumers

that are recyclable along with maintaining its original properties. This could prove to be a costly process. Furthermore, flexible packaging companies will also have to make constant technology upgrades to meet these demands, which would require huge capital investments.

3. **Internal control systems and their adequacy:** The Company adheres to corporate governance best practices and is achieved through a combination of internal audits, management reviews and audit committee. The Company is thus able to secure and validate its business transactions on an ongoing basis and thereby maintain the accuracy of its financial records and the safety of its property.
4. **Outlook:** Flexible Packaging Films India is leading the growth in the global flexible packaging films. The growth in the Industry is powered by increased penetration of packaged food and personal products in to the semi urban and rural segment. This results in increased use of flexible packaging consumption in the FMCG industry. The growth is likely to intensify in the next 2 - 3 years. The Company plans to continue to tap opportunities in its segments by launching innovative products and using technology to generate efficiencies across its business.
5. **Product-wise Performance:** The Company is into flexible packaging and the turnover of the constitutes from these allied products and there are no other segments in which the Company operates and thus 100% of the turnover which is improving year on year can be attributed to the niche the Company's product possess.
6. **Discussion on financial performance with respect to operational performance:** The year under the review has been best year for the company. The Company has achieved Turnover of Rs. 5089.31 Lakhs and EBITA Rs. 266.54 Lakhs and the Net profit stands at Rs.207.32 Lakhs against turnover of Rs. 4046.34 Lakhs and EBITDA of Rs. 3782.50 Lakhs and Net profit of Rs. 187.96 Lakhs in the previous Financial year. The Net profit has jumped by

This is very satisfactory performance of the company despite COVID-19 Pandemic and volatile price fluctuation in polymer prices due to increasing crude oil prices resulting from Global factor.

There is challenge for the company to maintain its performance.

Company is enjoying good liquidity and well managed working capital situation due to financial discipline and tight control over receivables and very well plan creditors.
7. **Material developments in human resource/ industrial relations front, including number of people employed:** There are no material developments in human resource/ industrial relations front, including number of people employed.
8. **Details of changes in key financial ratios, along with detailed explanation thereof:** There has been significant jump in net profit resulting in improved cash flow-improvement in several

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF RAJ PACKAGING INDUSTRIES LIMITED

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Raj Packaging Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022 the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	Auditor's Response
<p>Appropriateness of the Expected Credit Loss ("ECL") provision in respect of trade receivables carried at amortized cost:</p> <p>(Refer Note 6 and Note 31 to the Ind AS financial statements)</p> <p>The Company has trade receivables aggregating to Rs. 1348.98 lakhs as at March 31, 2022, in respect of which the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, and recognises expected lifetime losses from initial recognition of the receivables. The provision for ECL as at March 31, 2022 is Rs. 9.82 lakhs.</p> <p>This is determined as a key audit matter as determination of the ECL provision involved application of judgment by Management in respect of matters such as maximum contractual period of credit risk and probability of credit loss given the significant number of aged receivables from customers.</p>	<p>Our procedures, in relation to testing of ECL provision recognised, included the following:</p> <p>Understanding and evaluating the design and testing the operating effectiveness of controls in respect of ECL provision for trade receivables carried at amortised cost</p> <p>Reading of the underlying sale orders and invoices, as applicable to understand the nature of trade receivables, and the dates on which the payments fall due</p> <p>Assessing the appropriateness of the credit loss provisioning methodology used by the Management, which involves the use of historical trends such as cash collection, performance of the current year against historical trends and the level of credit loss over time</p> <p>Based on the above procedures performed, we did not find any significant exceptions to the ECL provision recognised in respect of trade receivables carried at amortized cost.</p>

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and those charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally

accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying

transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:

ANNEXURE B REFERRED TO IN PARAGRAPH 2(f) UNDER THE HEADING “REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS” OF OUR REPORT OF EVEN DATE TO THE MEMBERS OF M/s. RAJ PACKAGING INDUSTRIES LIMITED FOR THE YEAR ENDED 31ST MARCH, 2022

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **M/s. RAJ PACKAGING INDUSTRIES Limited** (“the Company”) as of March 31, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.
- 4) also provide reasonable assurance by the internal auditors through their internal audit reports given to the organisation from time to time.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, broadly in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Notes to Ind-AS Financial Statements for the year ended 31st March, 2022

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

1.1 COMPANY OVERVIEW

The Raj Packaging Industries Limited (the “Company”) is a public limited company incorporated and domiciled in India and has its registered office at 6-3-1247, Metro Residency, Flat No. 202 & 203, Raj Bhavan Road, Hyderabad 500 082. It is incorporated under the Companies Act, 1956 and its shares are listed on the Bombay Stock Exchange.

The Company has got its manufacturing facility at Sy.No.715, Kondamadugu Village, Bibinagar Mandal, Yadadri-Bhongiri District-508126, Telangana and is engaged in the manufacture of multilayer co-extruded plastic film and flexible packaging material.

1.2 BASIS OF ACCOUNTING

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with rule 4 of the Companies (Indian Accounting standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements of the Company are prepared in accordance with the Indian Generally Accepted Accounting Principal (GAAP) on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- Certain financial assets and liabilities are measured at Fair value (refer accounting policy on financial instruments)
- Defined Benefit and other Long-term Employee Benefits,

1.3 USE OF ESTIMATES AND JUDGEMENTS

The preparation of the financial statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

1.4 PROPERTY, PLANT AND EQUIPMENT & INTANGIBLE ASSETS

Property, Plant and Equipment

Property, Plant and Equipment are stated at cost net of recoverable taxes, trade discounts and rebates and include amounts added on revaluation, less accumulated depreciation (except Freehold Land) and impairment loss, if any. Costs include freight, import duties, non-refundable purchase taxes and other expenses directly attributable to the acquisition of the asset.

Capital Work-in-progress

Assets which are not ready for their intended use are disclosed as Capital Work-in-Progress.

Depreciation/amortisation:

Depreciation on Fixed Assets is provided to the extent of depreciable amount on the Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II of the Companies Act, 2013.

Individual Assets costing less than Rs. 5,000 are fully depreciated in the year of purchase.

Depreciation on assets added/sold or discarded during the year is being provided on pro-rata basis up to the date on which such assets are added/sold or discarded.

Gains/Losses on disposals/de-recognition of property, plant and equipment are determined by comparing proceeds with carrying amount and these are recognized in Statement of Profit & Loss.

1.5 IMPAIRMENT OF NON FINANCIAL ASSETS

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a Group of non-financial assets are impaired. If any such indication exists, the Company estimates the amount of impairment loss. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

1.6 REVENUE RECOGNITION

The Company recognizes revenue, when or as control over distinct goods or services is transferred to the customer; i.e. when the customer is able to direct the use of the transferred goods or services and obtains substantially all of the remaining benefits, provided a contract with enforceable rights and obligations exists and amongst others collectability of consideration is probable taking into account customer's creditworthiness.

Revenue is the transaction price the Company expects to be entitled to. In determining the transaction price, the Company considers effects of variable consideration, the existence of significant financing contracts, non-cash consideration and consideration payable to the customer,

if any. The Company considers whether there are other promises in the contract that are separate performance obligations to which the transaction price needs to be allocated.

Variable Consideration

If the consideration in a contract includes a variable amount, the company estimates the amount of consideration to which it will be entitled to in exchange for transferring goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant reversal of revenue will not occur once associated uncertainties are resolved.

The amount of variable consideration is calculated by either using the expected value or the most likely amount depending on which is expected to better predict the amount of variable consideration. Consideration is also adjusted for the time value of money if the period between the transfer of goods or services and the receipt of payment exceeds twelve months and there is a significant financing benefit either to the customer or the Company. If a contract contains more than one distinct good or service, the transaction price is allocated to each performance obligation based on relative stand-alone selling prices. If stand-alone selling prices are not observable, the Company reasonably estimates those.

Revenue is recognized for each performance obligation either at a point in time or over time.

Sale of goods:

Revenues are recognized at a point in time when control of the goods passes to the buyer, usually upon either at the time of dispatch or delivery. Export sales are recognized based on the shipped-on board date as per bill of lading, which is when substantial risks and rewards of ownership are passed to the customers. Revenue from sale of goods is net of taxes and recovery of charges collected from customers like transport, packing etc.

Other Income

Dividend income on investments is recognised when the right to receive dividend is established.

Interest income is recognized on a time proportionate basis taking into account the amounts invested and the rate of interest. For all financial instruments measured at amortised cost, interest income is recorded using the Effective interest rate method to the net carrying amount of the financial assets.

1.7 GOVERNMENT GRANTS

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Government grants related to revenue are recognised on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Such grants are deducted in reporting the related expense. When the grant relates to an asset, it is recognized as income over the expected useful life of the asset.

In case a non-monetary asset is given free of cost it is recognised at a fair value. When loan or similar assistance are provided by government or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is recognized as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received.

1.8 INVENTORIES

Inventories includes Raw Material, Work-in-Progress, finished goods, Stores & spares, Consumables and Packing Materials and are valued at lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw Material and Components – Cost include cost of purchases and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using Specific Identification Method.

Finished/Semi-Finished Goods –Cost includes cost of direct material, labour, other direct cost and a proportion of fixed manufacturing overheads allocated based on the normal operating capacity but excluding borrowing costs. Cost is determined on weighted average cost basis.

Stores, Spare Parts, Consumables, Packing Materials etc. – cost is determined on weighted average cost basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

Adequate allowance is made for obsolete and slow moving items.

1.9 FINANCIAL INSTRUMENTS

Financial assets - Initial recognition

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

Subsequent measurement

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

- (a) the entity's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

(a) Measured at amortised cost:

A financial asset is measured at amortised cost, if it is held under the hold to collect business model i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding. Amortised cost is calculated using the effective interest rate ("EIR") method by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, gain or loss, if any, is recognised to Statement of Profit and Loss.

(b) Measured at fair value through other comprehensive income (FVOCI):

A financial asset is measured at FVOCI, if it is held under the hold to collect and sell business model i.e. held with an objective to collect contractual cash flows and selling such

financial asset and the contractual cash flows are solely payments of principal and interest on the principal outstanding. It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in the OCI is reclassified from the equity to Statement of Profit and Loss.

(c) Measured at fair value through profit or loss (FVTPL):

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity Instruments:

All investments in equity instruments classified under financial assets are subsequently measured at fair value. Equity instruments which are held for trading are measured at FVTPL.

For all other equity instruments, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument shall be recognised in Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in the OCI. Amounts recognised in Other Comprehensive Income (OCI) are not subsequently transferred to Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised in Statement of Profit and Loss.

Impairment

The Company recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable including that which is forward-looking.

The Company's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Company does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables.

The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets other than trade receivables, the Company recognises 12-month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of

the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12 months ECL.

The impairment losses and reversals are recognised in Statement of Profit and Loss. For equity instruments and financial assets measured at FVTPL, there is no requirement for impairment testing.

De-recognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Financial Liabilities

Initial Recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Company's financial liabilities includes trade and other payables, loans and borrowings including bank overdrafts and derivative instruments.

Subsequent measurement

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Loans & Borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using EIR method. Gains and losses are recognized in profit & loss when the liabilities are derecognized as well as through EIR amortization process.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognized

at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.10 FAIR VALUE MEASUREMENT:

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ✓ In the principal market for the asset or liability, or
- ✓ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ✓ Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ✓ Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ✓ Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value

disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.11 EMPLOYEE BENEFITS

The Company provides following post-employment plans:

- (a) Defined benefit plans such a gratuity and
- (b) Defined contribution plans such as Provident fund and Superannuation fund

a) Defined-benefit plan:

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of defined benefit obligations at the end of the reporting period less fair value of plan assets. The defined benefit obligations is calculated annually by actuaries through actuarial valuation using the projected unit credit method.

The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- (a) Service costs comprising current service costs, past-service costs, gains and losses on curtailment and non-routine settlements; and
- (b) Net interest expense or income

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in employee benefit expenses in the statement of the profit & loss.

Re-measurement comprising of actuarial gains and losses arising from

- (a) Re-measurement of Actuarial(gains)/losses
- (b) Return on plan assets, excluding amount recognized in effect of asset ceiling
- (c) Re-measurement arising because of change in effect of asset ceiling

are recognised in the period in which they occur directly in Other comprehensive income. Re-measurement are not reclassified to profit or loss in subsequent periods.

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Company determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

b) Defined-contribution plan:

Under defined contribution plans, provident fund, the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. Defined Contribution plan comprise of contributions to the employees' provident fund with the government, superannuation fund and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Company's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers.

c) Other employee benefits:

- (a) Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date determined based on an actuarial valuation.
- (b) Undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the period when the employee renders the related services.
- (c) Expenses incurred towards voluntary retirement scheme are charged to the statement of profit and loss as and when incurred.
- (d) Other benefits comprising of discretionary long service awards are recognized as and when determined.

1.12 LEASES

As a Lessee:

The Company's lease asset classes generally consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset;
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease; and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The Company did not have any long-term leases, the adoption of this Standard did not have any impact on the loss for the quarter and year ended 31st March, 2020.

As a Lessor:

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

1.13 FOREIGN CURRENCY TRANSACTIONS

a) Initial Recognition

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

b) Measurement of Foreign Currency Items at the Balance Sheet Date

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non-monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

1.14 TAXES ON INCOME

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items that

are never taxable or tax deductible. Tax provisions are included in current liabilities. Interest and penalties on tax liabilities are provided for in the tax charge. The Company offsets, the current tax assets and liabilities (on a year on year basis) where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis or to realise the assets and liabilities on net basis.

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements. Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets are not recognised where it is more likely than not that the assets will not be realised in the future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Minimum Alternative Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income-tax during the specified period.

1.15 PROVISIONS AND CONTINGENCIES

A provision is recognised when there is a present legal or constructive obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, and in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.16 CASH AND CASH EQUIVALENTS

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

1.17 CASH FLOW STATEMENT

Cash flows are reported using the indirect method where by the profit before tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

1.18 BORROWING COST

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

1.19 EARNINGS PER SHARE

Basic EPS is arrived at based on net profit after tax available to equity shareholders to the weighted average number of equity shares outstanding during the year.

The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless impact is anti-dilutive.

1.20 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM).

The Company has identified its Managing Director as CODM which assesses the operational performance and position of the Company and makes strategic decisions.

1.21 RECENT ACCOUNTING PRONOUNCEMENTS

The Ministry of Corporate Affairs ("MCA") notifies new standards / amendments under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23rd March, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below:

- a) **Ind AS 16 - Property, plant and equipment** - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after 1st April, 2022.
- b) **Ind AS 37 - Provisions, contingent liabilities and contingent assets** - The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after 1st April, 2022, although early adoption is permitted.
- c) **Ind AS 103 - Business combinations** - The amendment adds a new exception in Ind AS 103 for liabilities and contingent liabilities. The effective date for adoption of this amendment is annual periods beginning on or after 1st April, 2022.

- d) **Ind AS 109 – Financial instruments** – The amendment clarifies which fees an entity includes when it applies the ‘10%’ test in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf. The effective date for adoption of this amendment is annual periods beginning on or after 1st April, 2022.

The Company is in the process of evaluating the impact of these amendments.

Footnotes : Nature and purpose of reserves**Securities Premium:**

Securities premium is created due to premium on issue of shares. This reserve is utilised in accordance with the provisions of the Act.

General Reserve:

General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the General Reserve will not be reclassified subsequently to statement of profit or loss.

Retained Earnings:

The balance in the Retained Earnings represents the surplus after payment of dividend and transfer to reserves.

30 FINANCIAL INSTRUMENTS
The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The carrying amounts and fair values of financial instruments by category are as follows:

31 RISK MANAGEMENT

Financial risk management objectives and policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity expose it to market risk, liquidity risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options. The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

S.No.	Risk	Exposure arising from	Measurement	Management Steps
A	Credit risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost.	Ageing analysis Credit ratings	Credit limits, letters of credit and Performance guarantees.
B	Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
C	Market risk - foreign exchange	Future commercial transactions recognised financial assets and liabilities not denominated in INR.	Cash flow forecasting Sensitivity analysis	Foreign exchange contracts
D	Commodity risk	Purchase of Raw Material	Fluctuation of Crude Price, Plastic Polymers and Currency rates	Procurement and inventory strategy

A. CREDIT RISK

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- Actual or expected significant adverse changes in business
- Actual or expected significant changes in the operating results of the counterparty
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- Significant increase in credit risk on other financial instruments of the same counterparty

The company categorises financial assets based on the assumptions, inputs and factors specific to the class of financial assets into High-quality assets, negligible credit risk; Quality assets, low credit risk; Standard assets, moderate credit risk; Substandard assets, relatively high credit risk; Low quality assets, very high credit risk; Doubtful assets, credit-impaired.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than one year past due. Where loans or receivables have been written off, the Company continues engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss.

Provision for expected credit losses:

Description of category	Category	Basis for recognition of expected credit loss provision		
		Investments	Loans and deposits	Trade Receivables
Assets where the counter-party has strong capacity to meet the obligations and where the risk of default is negligible or nil	High-quality assets, negligible credit risk	12 month expected credit losses	12 month expected credit losses	Life time expected credit losses (simplified approach)
Assets where there is low risk of default and where the counter-party has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past	Quality assets, low credit risk			
Assets where the probability of default is considered moderate, counter-party where the capacity to meet the obligations is not strong	Standard assets, moderate credit risk			
Assets where there has been a significant increase in credit risk since initial recognition. Assets where the payments are more than 365 days past due	Substandard assets, relatively high credit risk	Life-time expected credit losses	Life-time expected credit losses	
Assets where there is a high probability of default. In general, assets where contractual payments are more than 730 days past due are categorised as low quality assets. Also includes assets where the credit risk of counter-party has increased significantly though payments may not be more than 730 days past due	Low quality assets, very high credit risk			
Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or failing to engage in a repayment plan with the company. Where loans or receivables have been written off, the company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.	Doubtful assets, credit-impaired	Asset is written off		

Expected credit loss for security deposits and investments:

As at March 31, 2022

LIQUIDITY RISK

- B. Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

Financing arrangements

The Company had access to following undrawn Borrowing facilities at end of reporting period which could be used by the Management to mitigate its Liquidity Risk:

Particulars	As at March 31, 2022	As at March 31, 2021

Total	439.49	275.18

C. MARKET RISK- INTEREST RATE RISK

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Exposure to interest rate risk

Particulars	As at 31st March'22	As at 31st March'21
Borrowings bearing fixed rate of interest	397.25	561.65
Borrowings bearing variable rate of interest	401.79	268.73

Interest rate sensitivity**A change of 50 bps in interest rates would have following Impact on profit before tax**

	2021-2022	2020-2021
50 bp increase- decrease in profits	0.32	0.32
50 bp decrease- Increase in profits	(0.32)	(0.32)

D. MARKET RISK- FOREIGN CURRENCY RISK

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its purchases from overseas suppliers in various foreign currencies. Exports of the company are negligible in comparison to its imports. Foreign currency exchange rate exposure is balanced by and prudent hedging policy.

Foreign Currency Exposure

Name of the Instrument	2021-2022		2020-2021	
	Foreign Currency	INR	Foreign Currency	INR
Open Foreign Exchange Exposures - Payable-USD	3.48	263.87	2.07	152.27

Foreign Currency Risk Sensitivity**A change of 1% in Foreign currency would have following Impact on profit before tax:**

Particulars of Currency	2021-2022		2020-2021	
	1% Increase	1% decrease	1% Increase	1% decrease
USD	(2.64)	2.64	(1.52)	1.52
Increase / (decrease) in profit or loss	(2.64)	2.64	(1.52)	1.52

The Company enjoys natural hedge to the extent of: a) Exports effected and b) Inventory held (being sensitive to exchange rate fluctuations). Although the Company believes that these derivatives constitute hedges from a economic prospective, they might not qualify for hedge accounting under Ind AS 109.

E. COMMODITY RISK

- (a) Principal Raw Material for Company's products is variety of plastic polymers which are primarily derivatives of Crude Oil. Company sources its raw material requirement from across the globe. Domestic market prices are also generally remain in sync with international market price scenario.
- (b) Volatility in Crude Oil prices, Currency fluctuation of Rupee vis-a-vis other prominent currencies coupled with demand-supply scenario in the world market affect the effective price and availability of polymers for the Company. Company effectively manages deals with availability of material as well as price volatility through:
1. Widening its sourcing base
 2. Appropriate contracts and commitments
 3. Well planned procurement & inventory strategy and
 4. Prudent hedging policy on foreign currency exposure

Risk committee of the Company comprising members from Board of Directors and operations has developed and enacted a risk management strategy regarding commodity Price risk and its mitigation.

32 Capital risk management

- A The Company's objectives when managing capital are to
- ♦ safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders
 - ♦ maintain an optimal capital structure to reduce the cost of capital

The Company monitors capital on the basis of the following debt equity ratio:

	31 March, 2022	31 March, 2021
Net Debt	799.04	830.39
Total Equity	1529.09	1341.99
Net Debt to Total Equity	0.52	0.62

Company believes in conservative leverage policy. Its debt equity ratio is significantly lower than the industry average.
Company's moderate capex plan over the medium term shall be largely funded through internal accruals and term loans from banks.

Total amount recognised in Other Comprehensive Income	(5.87)	(0.47)

D. Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

	As at 31st March, 2022	As at 31st March, 2021
Financial Assumptions		
Discount rate	7.11%	6.80%
Salary Escalation Rate	6.00%	6.00%
Attrition Rate	3.00%	3.00%

Demographic Assumptions

Mortality in Service : Indian Assured Lives Mortality (2012-14)

E. Sensitivity

The sensitivity of the overall plan liabilities to changes in the weighted key assumptions are:

Impact on defined benefit obligation	Change in assumption	As at 31st March, 2022	
		Increase in assumption	Decrease in assumption
Discount rate	1.00%	(48.98)	54.43
Salary Escalation Rate	1.00%	57.19	(45.86)
Attrition Rate	0.50%	55.85	(46.95)
Impact on defined benefit obligation	Change in assumption	As at 31st March, 2021	
		Increase in assumption	Decrease in assumption
Discount rate	1.00%	(46.35)	54.43
Salary Escalation Rate	1.00%	53.98	(45.86)
Attrition Rate	0.50%	52.95	(46.95)

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

F. The defined benefit obligations shall mature as follows:

Particulars	As at 31st March, 2022	As at 31st March, 2021
2-5 years	4.00	7.68
6-10 years	6.16	9.35
More than 10 Years	35.68	33.06

ii) Compensated Absences: The Company permits encashment of compensated absence accumulated by their employees on retirement, separation and during the course of service. The liability in respect of the Company, for outstanding balance of leave at the balance sheet date is determined and provided as at the Balance Sheet date. The Company is of the opinion that compensated absences are payable within 12 months of their accrual and thus, are not required to be actuarially valued.
