MANAGEMENT DISCUSSION AND ANALYSIS REPORT

OVERVIEW

During the year under review, the Country had good monsoon that supported agriculture and rural consumption. Overall the crude prices also remained below \$ 60 per barrel throughout the year. The business situations for the Company were favorable until October, 2016. However, in November 2013, the Government announced demonetization which impacted India's growth story reducing India's GDP growth to 6.1% during last quarter of FY 16-17. This has slowed down business activities in several sectors where your Company is operating. A modest recovery is projected for most commodities in 2017 as demand strengthens and supplies tighten. Domestic demand is expected to remain strong, supported by ongoing policy reforms which will have a positive impact on the real estate, infrastructure and agriculture sectors.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The business conditions look favorable due to execution of various initiatives announced and getting implemented by the Government which are as follows :-

- 1) **On July 01, 2017 the Company started the Goods and Service Tax (GST) implementation** which is considered to be the biggest tax reform, post-independence and is expected to integrate the Country's economy as one. This will facilitate increased share In business of organized players like your Company.
- 2) **Affordable Houses for all by 2022 - this ambitious scheme in India is showing early signs of success.** The government is conscious of the fact that our urban infrastructure is under severe stress. The term "affordable housing" might sound hollow in this day and age of overpriced houses. However, beyond exorbitantly priced luxury homes in India's metros, affordable housing is a new wave sweeping India's real estate sector. Demand for housing will increase substantially in the next five years because of stable property prices during the last 3 years, reduction in the housing loan rate by 150 bps during the last two years, interest subsidy extended by the government and tax incentives for construction of affordable houses. This will boost your Company's business and offers new business opportunities.
- 3) **Doubling the farmer's income by 2022 from the base year of 2016.** In the Union Budget 2017, Government of India has given big thrust to the development and growth of farmer's income. With the increase in farmers income and government's support, agriculture piping business is set to grow steadily over the next five years.
- 4) **Government of India is committed to accord high priority to water conservation and its management.** The Government has a vision of 'Har Khet Ko Paani' and 'More crop per drop' in a focused manner with end to end solution on source creation, distribution, management, field application and extension activities. Increased spending on irrigation, augmenting drinking water supply, strengthening sewerage and drainage network will boost your Company's business in the coming years.

BUSINESS PERFORMANCE/OPPORTUNITIES AND THREATS:

The Company is presently working in five Locations providing wide bouquet of quality products. Completion of the Pipe Automation Project at the Mother Plant in Tarapur has resulted into, increased productivity, improved quality, improved robustness of processes and product, increased consistency of output and reduction in direct human labor costs and expenses. The success of Pipe Automation Project of Tarapur has led the Company to expedite automation projects for the Agricultural Pipes and Fittings, which will be completed in the current year.

The CAPEX plans of the Company have progressed well, with several key projects either complete or on the verge of completion. During the year under the review, the Company started working on setting up of plant for manufacturing Roto Moulded Tanks. The Company has successfully launched the Water Tank division in the current year, through its plant in Tarapur. Further, machines are being installed in North and South India to push the same regionally. This product is an essential part of the building materials industry and is therefore a natural addition to the Company's Product Portfolio.

During the year under review, the Company has been working to monetize non-core assets and can safely budget an estimated ₹ 1500 Lakhs to be realized, proceeds of which will reduce debt and subsequent interest costs. The Company's management has also decided

to follow the strategy to remain “asset light” and accordingly would not over burden the Company with additional financial cost. The additional leverages would improve Company’s cash flow and resultant revenues.

The current strategy of increasing capacity utilization to 80% would generate a turnover of ₹ 900 Crores Net Sales. The Company is increasing its sales footprint and has appointed new distributors in major metro cities across India, which will increase drastically, especially in the plumbing sector.

FUTURE OUTLOOK :

The recent policy announcements by the government including initiatives in housing, sanitation, and agriculture combined with an expectation of good monsoon suggest that the post monsoon period will see excellent demand for the Company’s products.

The Company’s growth was hugely impacted by the lingering effects of Demonetization. Demand for the Company's products improved, but the market expectation of increased credit to counter money shortage in the market forced the Company to avoid certain orders. To counter lower sales volume especially from the agricultural front, the Company has increased focus on higher value and higher margin products such as Building Products and Micro Irrigation Businesses.

The Company is making attempts for the improved quality of its distribution network, which can help the Company to control costs and maintain its competitive advantage.

Your Company is consistently investing in brand creation on year to year basis and hence the branding activities of the Company include Dealer Boards, Wall Paintings, Auto Branding, Hoardings. “Annexure-B” to the Independent Auditor’s Report

Report on the Internal Financial Controls under Clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kisan Mouldings Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of Internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the

maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the

internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such Internal financial controls over financial reporting were operating affectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

“Annexure-A” to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting of The Kisan Mouldings Limited ("the Holding Company") and its subsidiary company which is incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company, which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
