MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Global Economic Conditions

Despite improved global financial conditions and reduced short-term risks, the world economy continues to expand at a subdued pace. After a marked downturn over the past two years, global economic activity is expected to slowly gain momentum in the second half of 2013 and 2014 on the back of accommodative monetary policies in developed and developing economies. Most world regions are likely to see a moderate pick-up in activity, but growth will continue to be below potential and employment gains, especially in developed economies, will remain weak at best.

The short-term risks associated with the situation in the euro area, the fiscal adjustments in the United States and the economic slowdown in large developing countries have diminished, but not disappeared. At the same time, new medium-term risks have emerged, including possible adverse effects of unconventional monetary measures in developed economies on global financial stability. These risks have the potential to once again derail the feeble recovery of the world economy. The main priority for policy makers worldwide should therefore be to support a robust and balanced global recovery, with a focus on promoting job creation. International policy coordination needs to be enhanced to mitigate negative policy spillovers, curb protectionism, promote cooperation in reforming the international financial system, and ensure sufficient resource flows to developing economies, and in particular the least developed countries.

Developing countries and economies in transition continue to register much stronger growth than developed economies. In response to the economic slowdown in 2012, many of them, including some large countries in East Asia, South Asia and Latin America, adopted more expansionary monetary and – to a lesser extent – fiscal policies to strengthen domestic demand. This, along with a slight upturn in external demand, should provide a lift to economic growth in 2013. The pick-up in growth will, however, be slower than previously estimated as many large economies in this group, including Brazil, China, India and Russia face significant structural challenges. Potential growth in many developing countries is likely lower than before the global financial crisis; China, for example, is expected to have shifted to a lower but more sustainable and balanced growth trajectory. The least developed countries (LDCs) are projected to see faster growth in 2013 than in the past two years. However, with commodity demand moderating and Official Development Assistance (ODA) falling, the pace of expansion in LDCs will still be notably slower than during the period 2004-08.

Indian Economic Review

The Indian economy has seen a sustained downturn over the last two years with the result that GDP growth was merely ~5% in FY13 – slowest pace of expansion in nearly a decade. Despite such a sharp slowdown, inflation concerns have persisted with WPI inflation ruling over 7% in FY13 and CPI inflation still running close to double-digits. At the same time, Current Account Deficit (CAD) as a percentage of GDP has continued to widen in recent years and was at an all time high of ~5% in FY13. Along with this, the fiscal deficit also continued to present challenges to economy; though the Union Budget 2013-14 did try to assure greater level of discipline over fiscal deficit. High CAD and fiscal deficit together present some of the most serious challenges to bringing Indian economy back on the path of growth. Such a prolonged slowdown has been the result of a confluence of factors – lingering administrative bottlenecks and associated slowdown in project clearance, large fiscal spending, tight monetary conditions and weak external demand.

However, during second half of FY13, there was some stability in macro environment, largely as a result of a series of steps undertaken by the government such as liberalizing of FDI regime in certain sectors, rationalization of retail fuel prices and reining in of fiscal spending; although a lot more remains to be done. While the situation appeared to be improving, some recent developments on political front have once again raised concerns about Government's ability to carry forward the reform process.

On the domestic front, the service sector activity decelerated which is considered to be the backbone of India's recent growth story. Further, Industrial growth virtually faced stagnation resulting from a combination of factors, most notably the investment cycle downturn, supply-side bottlenecks, governance problems and weak external demand. The recent quarters slow down in the private consumption demand is also dragging down growth.

However, with the introduction of government's concerted policy action and reforms during second half of FY12-13, the risk of further slowdown in the coming fiscal FY13-14 seems limited and might lead to a slow-paced recovery.

Wholesale Price Index (WPI) hovered in the band of 7.0% - 8.0% band for most of the year before moderating to about 6.0% by the end of FY12-13. However, a more perceptible fall in non-food manufactured product inflation along with marked progress in addressing fiscal risks provided headroom for monetary policy to start easing. Using the available space, the RBI lowered policy rates cumulatively by 100 bps, Cash Reserve Ratio (CRR) by 75 basis points (bps) (on top of a 125 bps reduction in Q4 of 2011-12) and Statutory Liquidity Ratio (SLR) by 100 bps.

Considering the recent macro-economic dynamics, the economic recovery would critically depend on supply-side action to remove a host of micro-constraints and structural bottlenecks that impede production and investment, especially in growth-driving sectors such as road, power, housing & other infra projects. The year 2014 being the election year might lead to a slow pace fiscal implementation, thus tightening the scope of Central Bank in going more aggressive for further rate cuts to support growth.

Achievements

It gives us immense pleasure to inform our investors that we were the first lead manager to get a company listed on the SME Platform of BSE and also awarded the Top Performer Award in SME Segment by BSE Ltd.

Risk Factors relating to our business operations

The Company faces a variety of risks because of the business environment it operates in, which may affect its operations or financial results and many of those risks are driven by factors that your Company cannot control or predict. Capital markets worldwide, including the Indian capital markets, are exposed to several risks apart from the fundamental risk of business operations. Hence adequate risk management system has been put in place by the management to ensure the success and financial soundness of the company. However, despite the company's attempt to identify areas of potential risks and implement policies and procedures to mitigate those risks, there can be no assurance that the company will not suffer unexpected losses in its area of operations.

Capital Market risk is inherent in our business. The major sources of our revenues are derived from Merchant Banking business. Hence, like other players in the market, our business is highly sensitive to economic and political conditions prevalent in the country. Any sustained downturn in general economic conditions or Indian equity markets and a severe market fluctuations would likely result in reduced Initial Public Offerings by the Companies and net revenues and hence, will have a material adverse effect on our profitability.

System failures, delays and capacity constraints could harm our business. Even after making substantial investments in upgrading the reliability and scalability of our systems, they are vulnerable to the damage or interruption from human errors, natural disasters, power loss, computer viruses, spurious spam attacks, etc. Further, system failures and delays could occur and, inter-alia could cause unanticipated disruptions in service to our clients, slower system response time resulting in either non-processing of transactions in time or not as quickly as our clients desire. This would lead to decreased level of client service and could materially affect the level of client satisfaction.

We are exposed to credit risk with clients. We provide credit limits to clients, in connection with our Merchant Banking business. By permitting clients to make part payments, we are subject to risks inherent in extending credit

to them. Failure by parties to honour their commitments on a timely basis could have a material adverse effect on the profitability of our operations.

Substantial competition could reduce our market share. There are many big Investment Bankers in the Indian financial services market and they continue to grow. There has been a substantial price competition in the industry, including various free trade offers and a declining trend in the fees charged to the clients. We expect this competitive environment to continue in the future and this would affect our results of operations.

Human Resources

The company's success is dependent on our ability to attract, retain and motivate highly talented human capital and good support staff. We accomplish this by ensuring that we have competitive compensation structure. Employees are the key to achievement of the company's objectives and strategies. The company provides employees with a fair and equitable work environment and support from the peers to develop their capabilities, trusting them with freedom to act and to take the responsibility. The company is committed to providing an environment that is encouraging and appreciative under which the employees can work to their potential and grow professionally and personally. The company continuously invests in the development of its human resources through a series of employee friendly measures aimed at talent acquisition, development, motivation and retention.

Internal Control System

The company has an Internal Control System commensurate with its requirement and size of business to ensure that the assets and interest of the company assets are safeguarded. The adequacy and effectiveness of the internal control across various activities, as well as compliance with laid down system and policies are comprehensively and frequently monitored by your company's management at all the levels of the organization. The company has established well defined written policies and processes across the organization covering all major activities including authority for approvals. In all cases where monetary decisions are involved, various limits and authorities are in place.

The financial services business in India is well regulated and compliance intensive. The company is governed by the Companies Act, 1956 and SEBI Merchant Banker Regulation-1992.

Risk Management

A comprehensive and integrated risk management framework forms the basis of all the de-risking efforts of the company. Formal reporting and control mechanisms ensure timely information availability and facilitate proactive risk management. We recognize that risk is the inherent in our business and the market in which we operate. As such the Company is committed to the creation and maintenance of strong risk management as well as rigorous control standards. The company's risk management policies encompass structured reporting and strict controls to ensure smooth running of the business and security of client's data.

Uninterrupted connectivity is vital for the company's smooth running and risk management. Technology plays an integral role in the company's business operations and we have put in place a strong business continuity plan to mitigate the risk owing to technology failure. We have a strong internal control system in a place, discussed above, as a part of our risk management process. Being in the financial services sector, we work in a highly regulated environment and strictly abide by the policies and laws prescribed by the regulatory authorities such as SEBI, BSE, NSE, ROC and RBI.

Commitment of doing what is right

Our management team and board of directors are resolved to do what, we believe, is best for our shareholders, clients and associates.

Opportunities and threats

India is an attractive investment destination and the company is a part of India's growth story, which provides us immense opportunity to strengthen and grow our business. We have enough headroom available to expand our distributor network and utilize the opportunity to educate and get wallet share of many Indians who still to do not invest in equity. However the volatility in the Indian equity markets, political uncertainty coupled with the slowdown in economy would be a threat for the company's business growth. The margin in the retail broking market is thinning and the competition is getting intense every day, thus affecting our bottom-line. More opportunities and threats that the company faces have also been discussed under different heads of this report.

Cautionary Statements

Statement in this report describing the company's objective, or outlook, opportunities, future business strategies, expectations or predictions contain certain forward looking statement within the meaning of applicable laws and regulations. The actual results may differ materially from those expressed in this statement.

INDEPENDENT AUDITOR'S REPORT

To the Members of ARYAMAN FINANCIAL SERVICES LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of ARYAMAN FINANCIAL SERVICES LIMITED, which comprise the Balance Sheet as at March 31, 2013, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements:

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
- c) the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- d) in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
- e) on the basis of written representations received from the directors as on March 31, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
- f) Since the Central Government has not issued any notification as to the rate at which the cess is to be paid under section 441A of the Companies Act, 1956 nor has it issued any Rules under the said section, prescribing the manner in which such cess is to be paid, no cess is due and payable by the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of ARYAMAN FINANCIAL SERVICES LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of ARYAMAN FINANCIAL SERVICES LIMITED ("the Company), and its subsidiaries, (collectively referred to as "The Group") which comprise the consolidated Balance Sheet as at March 31, 2013, and the consolidated Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, consolidated the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the consolidated Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- b) in the case of the consolidated Statement of Profit and Loss, of the profit for the year ended on that date; and

c) in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date.
