According to commerce ministry of India, the Technical Textile sector is expected to grow at a significant growth rate of 20% p.a. over the next five years.

OPPORTUNITIES AND THREATS FOR THE COMPANY

OPPORTUNITIES:

For the apparel industry in general and our market in particular:

- Company has a locational advantage of supplying goods to its overseas customers, as it also has a plant in VIETNAM, which is presently a large global textile Hub, and ranks amongst the most rapidly growing countries for textiles manufacturing and exporting.
- Increasing fashion consciousness, higher disposal incomes and consumers becoming more aspirational, discerning and brand savvy, will help the brands for which Company has been manufacturing ELASTIC TAPES grow rapidly and will increase the demand for Company's products.
- In 2018-19, Company received SINGLE STAR EXPORT HOUSE CERTIFICATE, which will enable our company to be recognized for ease of operation with tax and banking officials.
- Setting up of new factory: Based on current growth trends and market opportunities, the Board of Directors at its meeting held on 21st May 2022 granted approval for setting up New Factory at Gujarat for Capacity expansion with a capital outlay of Rs.18 crores to be funded through internal Accruals of Company and bank borrowings.

THREATS

Many major international apparel brands and textile companies have commenced operations in India realizing that Indian markets are likely to emerge as one of the largest markets in the world in the next few decades. Due to this we expect enhanced competition for the Company's Products.

Company's Exposure to Foreign Currency Risks due to Overseas Operations.

SEGMENTWISE PERFORMANCE:

The Company is mainly engaged in the business of Manufacturing of Woven & Knitted Elastic Tapes and all other activities of the Company revolve around the main business, and as such, there are no separate reportable segments.

OUTLOOK

Company continues to strive for maximizing its capacity utilization in India & Vietnam by concentrating on new customers and innovating and expanding its Product Mix for its Products.

INDEPENDENT AUDITOR'S' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

**TO THE MEMBERS OF
PREMCO GLOBAL LIMITED**

Opinion

We have audited the accompanying consolidated financial statements of **PREMCO GLOBAL LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at 31st March, 2022, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement, Consolidated statement of Changes in Equity for the year then ended, notes to consolidated financial statements and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and accounting principles generally accepted in India, of the state of affairs of the Group as at March 31, 2022, and its Total Comprehensive Income (comprising of Profit /loss and other comprehensive Income), Cash Flow and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon. There are no other key audit matters and we do not provide a separate opinion on these matters.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management

Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Consolidated Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated financial statements that give a true and fair view of the Statement of Affairs, Profit and Loss Account and other comprehensive income and changes in equity and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management and Board of Director are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs

will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement

that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

We did not audit the financial statements of the Foreign Subsidiary, Premco Global Vietnam Company Limited included in the Statement, whose interim financial statement reflect Total assets of Rs.4000.42 lakhs at 31st March 2022 as well as Total revenue of Rs. 5500.92 lakhs for the year ended 31st March 2022. These interim financial statement and other financial information have been audited by other auditor whose report for the period ending 31st March 2022 is furnished to us by the management of the Company. Our opinion on the Statement, in so far as it relates to the amounts and disclosures included, is based solely on the report of the other auditor as well as management certified statements. Our opinion is not modified on this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, the subsidiary company is a foreign company and statement on the matters specified in paragraphs 3 and 4 of the Order is not applicable to the company included in consolidated financial statements. Hence the relevant disclosure for the matters specified in paragraphs 3 and 4 of the Order is not applicable to this consolidated Auditors Report.
2. As required by section 143 (3) of the Act, based on our audit, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive Income), the Consolidated Cash Flow Statement and consolidated statement of changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2022 taken on record by the Board of Directors of the Holding Company, none of the directors of the company is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure A**”.
- g. With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- The Consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 35 and 36 to consolidated financial statements.
 - The Group, has long-term contracts including derivative contracts as at March 31 2022 for which there were no material foreseeable losses;
 - There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company or its subsidiary to or in any other person(s) or entity(ies), including foreign entities (“ Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company or Subsidiary (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been received by the company or its subsidiary from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our attention that has caused us to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
- v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.

The interim dividend declared and paid by the Company during the year and until the date of this report is in accordance with section 123 of the Companies Act 2013.

As stated in Note 19.1 to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

“Annexure A” to the Independent Auditor’s Report of even date on the Consolidated Financial Statements of Premco Global Limited

(Referred to in Paragraph 1(f) under “Report on other Legal and Regulatory Requirements” of our report of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

OPINION :

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2022, we have audited the internal financial controls over financial reporting of **Premco Global Limited** (“the Holding Company”) incorporated in India as of that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company and its subsidiary has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company assesses its liability based on (using the Projected Unit Credit method) and Actuarial losses/ gains are recognized in the statement of profit & loss in the year in which they arise.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income, which are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the statement of profit and loss as past service cost.

c) Employee Security Deposit scheme:-

The company retains an amount as a security deposit on monthly basis for eligible employees as a part of employee retention policy for 3 years from the date of appointment. The company also under an obligation to pay interest on the security deposit retention received from the employee covered in the scheme. The interest is provided as liability to be paid upon Retirement, resignation, termination of employment subject to fulfillment of agreed term & Conditions.

d) Leave Encashment:-

Leave Encashment towards accumulated Compensated Absences are the company's defined benefit plan payable upon Retirement, resignation, termination of employment. The present value of the obligation under such defined benefit plan is determined based on actuarial Valuation using the Projected Unit Credit Method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income, which are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the statement of profit and loss as past service cost.

e) Gratuity:-

The company provides for gratuity, a defined benefit plan (the Gratuity plan) covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The company's liability is actually determined under (using the Projected Unit Credit method) at the end of each year.

Actuarial losses/ gains are recognized in the statement of profit & loss in the year in which they arise.

The company has subscribed to a gratuity plan which is administrated through HDFC Standard life and a trust which is administrated through trustees.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income, which are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the statement of profit and loss as past service cost.

10. Provision & Contingent Liabilities

Provision

provision are recognized when there is a present obligation as a result of a past event and it is probable that an outflow of benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from the past events, the existence of which will be confirmed only on the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not portable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

11. Income Tax, Deferred Tax and Dividend Distribution Tax

a) Current and Deferred Tax

Tax expense for the period, comprising Current tax and Deferred Tax are included in the determination of net profit or loss for the period.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in India.

Deferred Tax is recognized for all the timing differences, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred Tax assets and liabilities are measured using the tax rates and tax laws that have been enacted and substantively enacted by the Balance Sheet date. At each Balance Sheet date, the company re-assesses unrecognized deferred tax assets, if any.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity.

12. Borrowing Cost

Borrowing cost incurred in relation to the acquisition, construction of assets are capitalized as the part of cost of such assets up to date which such assets are ready for intended use. Other borrowing costs are charged as an expense over the period of Term Loan.

13. Impairment of Assets

Assessment is done at each Balance Sheet date as to whether there is any indication that a tangible asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of asset that generates cash inflows from continuing use that are largely independent of the cash inflow from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made.

Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an assets and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased.

14. Leases (As a lessee):

The Company has adopted Ind AS 116 "Leases" using the modified retrospective approach with effect from initially applying this standard from 1st April 2019.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116 and this may require significant judgment. The Company also uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend or terminate the lease if the Company is reasonably certain based on relevant facts and circumstances that the option to extend or terminate will be exercised. If there is a change in facts and circumstances, the expected lease term is revised accordingly.

The discount rate is generally based on the interest rate specific to the lease being evaluated or if that cannot be easily determined the incremental borrowing rate for similar term is used.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and restoration cost, less any lease incentives received.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. When a lease liability is remeasured, the corresponding adjustment of the lease liability is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

15. Cash and Cash Equivalents:

In the Cash flow statement, cash and cash equivalents include cash on hand, demand deposits with bank, other short term highly liquid investments with original maturity of three months or less.

16. Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by weighted average number of equity shares outstanding during the period. The Weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for the events, such as bonus shares, other than conversion of potential equity share that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity share holders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

17. Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1) Financial Assets

i) Classification

The Company classifies its financial assets in the following measurement categories:

- a) at fair value either through other comprehensive income (FVOCI) or through profit and loss (FVTPL); and
- b) at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Gains and losses will either be recorded in the statement of profit and loss or other comprehensive income for assets measured at fair value.

For investments in debt instruments, this will depend on the business model in which the investment is held.

For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value or through other comprehensive income.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, in case of a financial asset not at fair value through the statement of profit and loss account, the Company measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through the statement of profit and loss are expensed in profit or loss.

a) Debt instruments

There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in the statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit and loss and recognised in other income or other expenses (as applicable). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit and loss (FVTPL) : Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through the profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss and is not part of a hedging relationship is recognised in the statement of profit and loss and within other income or other expenses (as applicable) in the period in which it arises. Interest income from these financial assets is included in other income or other expenses, as applicable.

b) Equity instruments

The Company measures all equity investments (except Equity investment in subsidiaries and joint ventures) at fair value. The Company's management has opted to present fair value gains and losses on equity investments through profit and loss account. Dividends from such investments are recognised in the statement of profit and loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognised in other income or other expenses, as applicable in the statement of profit and loss.

iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv) Derecognition of financial assets

A financial asset is derecognised only when –

- a) The Company has transferred the rights to receive cash flows from the financial asset or
- b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Where the company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) **Income Recognition**

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividends are recognised in the statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

vi) **Cash and cash equivalents**

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

vii) **Trade Receivables**

Trade receivables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment.

2) **Financial Liabilities**

i) **Measurement**

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liabilities not recorded at fair value through profit and loss), that are directly attributable to the issue of financial liability. All financial liabilities are subsequently measured at amortised cost using effective interest method. Under the effective interest method, future cash outflow are exactly discounted to the initial recognition value using the effective interest rate, over the expected life of the financial liability, or, where appropriate, a shorter period. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit and loss.

ii) **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

iii) **Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

iv) Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Resulting gains/(losses) are recorded in statement of profit and loss under other income/other expenses. Derivatives are classified as a current asset or liability when expected to be realised/settled within 12 months of the balance sheet date.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

NOTE : 3A Critical estimates and judgments

In the application of the company's accounting policies, which are described in note 2, the management is required to make judgment, estimates, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other process. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future period if the revision affects both current and future period.

The following are the critical estimates and judgments that have the significant effect on the amounts recognised in the financial statements.

Critical estimates and judgments

i) Estimation of current tax expense and deferred tax

The calculation of the company's tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax in the period in which such determination is made.

Recognition of deferred tax assets / liabilities

The recognition of deferred tax assets is based upon whether it is probable that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. To determine the future taxable profits, reference is made to the approved budgets of the company. Where the temporary differences are related to losses, local tax law is considered to determine the availability of the losses to offset against the future taxable profits as well as whether there is convincing evidence that sufficient taxable profit will be available against which the unused tax losses or unused tax credits can be utilised by the company. Significant items on which the Company has exercised accounting judgment include recognition of deferred tax assets in respect of losses. The amounts recognised in the financial statements in respect of each matter are derived from the Company's best estimation and judgment as described above.

ii) Estimation of Provisions and Contingent Liabilities

The company exercises judgment in measuring and recognising provisions and the exposures to contingent liabilities, which is related to pending litigation or other outstanding claims. Judgment is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement.

Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision. Although there can be no assurance of the final outcome of the legal proceedings in which the company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

iii) Estimation of useful life of Property, Plant and Equipment, Intangible assets, Investment properties

Property, Plant and Equipment, Intangible assets, Investment properties represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

iv) Estimation of provision for inventory

The company writes down inventories to net realisable value based on an estimate of the realisability of inventories. Write downs on inventories are recorded where events or changes in circumstances indicate that the balances may not be realised. The identification of write-downs requires the use of estimates of net selling prices of the down-graded inventories. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

v) Estimation of defined benefit obligation

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for post employment plans include the discount rate. Any changes in these assumptions will impact the carrying amount of such obligations.

The company determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefit obligations. In determining the appropriate discount rate, the company considers the interest rates of government bonds of maturity approximating the terms of the related plan liability.

vi) Estimated fair value of Financial Instruments

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Management uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

vii) Impairment of Trade Receivable

The impairment provisions for trade receivable are based on assumptions about risk of default and expected loss rates. The company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTE 43:**Adoption of Ind AS 116 – Leases**

- (a) Effective 1st April 2019, the Company has adopted Ind AS 116 - Leases using a modified retrospective approach. Accordingly, on initial application of Ind AS 116, in respect of leases previously classified as operating leases, lease liability is measured at the present value of remaining lease payments discounted using the incremental borrowing rate at the date of initial application and the Right-of-use asset has been measured at the amount equal to lease liability, adjusted for any prepaid or accrued lease payments recognised in the balance sheet immediately before the date of initial application.
- (b) Effect of initial application of Ind AS 116 on transaction date subsequent to addition is disclosed below.
- (i) Lease liabilities recognised on the date of initial application: Rs. 1,312.49 Lakhs.
- (ii) Right of use asset recognised on the date of initial application: Rs. 1,312.49 Lakhs.

(i) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. The Company has mutual funds for which all significant inputs required to fair value an instrument falls under level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and unlisted preference shares are included in level 3.

There are no transfers between levels 1, 2 and 3 during the year.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

Investments in quoted equity instruments are valued using the closing price at Bombay Stock Exchange (BSE) at the reporting period.

The fair value of forward foreign exchange contracts is determined using forward exchange rates as at the balance sheet date, prevailing with authorised dealers dealing in foreign exchange.

The use of Net Assets Value ('NAV) for valuation of mutual fund investment. NAV represents the price at which the issuer will issue further units and will redeem such units of mutual fund to and from the investors.

The fair value of the debentures is determined based on present values and the discount rates used were adjusted for counterparty risk and country risk.

The Company risk management is carried out by a central treasury department under the guidance from the board of directors. Company's treasury identifies, evaluates and hedges financial risks in close coordination with the company's operating units. The

board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity. There is no change in objectives and process for managing the risk and methods used to measure the risk as compared to previous year.

1) Credit Risk :

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The Credit risk mainly arises receivables from customers, cash and cash equivalents, loans and deposits with banks, financial institutions & others.

a) Trade receivables

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to Rs. 1,567.54 Lakhs as at March 31, 2022 (March 31, 2021- Rs. 1,616.35 Lakhs) and from loans amounting Rs. 17.06 Lakhs (March 31, 2021- Rs. 14.36 Lakhs) Trade receivables are typically unsecured and are derived from revenue earned from customers located in India as well as outside India.

The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade receivables.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry, the country and the state in which the customer operates, also has an influence on credit risk assessment.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

The management continuously monitors the credit exposure towards the customers outstanding at the end of each reporting period to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macroeconomic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

The movement in the allowance for impairment in respect of trade receivables during the year was as follow:

Movement in expected credit loss allowance on trade receivables

(Rs.in Lakhs)

	As at March 31, 2022	As at March 31, 2021
Opening provision	43.72	7.11
Add: Additional provision made	0.63	39.34
Less: Provision write off	--	---
Less: Provision reversed	4.45	2.73
Closing provision	39.91	43.72

The average credit period on sales of products is less than 90 days. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified. For trade receivables, as a practical expedient, the Company computes credit loss allowance based on a provision table as above.

b) Cash and cash equivalents:

As at the year end, the Company held cash and cash equivalents of Rs. 2,688.32 Lakhs (March 31, 2021: Rs. 1,521.83 Lakhs). The cash and cash equivalents are held with bank and financial institution counterparties with good credit rating.

c) Other Bank Balances:

Other bank balances are held with bank and financial institution counterparties with good credit rating.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

d) **Loans** : The maximum exposure from loans is from loans due to employees and the repayments are regular and neither past due nor impaired.

e) **Other financial assets:**

Other financial assets includes security deposits which are neither past due nor impaired.

2) **Liquidity Risk :**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses.

Company treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

(i) **Financing arrangements**

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Trade Payable	----	449.66	----	----
Other financial liabilities	----	211.76	3.91	148.26

3) **Market Risk:**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks namely interest rate risk, currency risk and other price risk, such as commodity risk. The Company is not exposed to interest rate risk whereas the exposure to currency risk and other price risk is given below:

A) **Market Risk- Foreign currency risk.**

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales in overseas and purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by maintaining an EEFC bank account and purchasing of goods, commodities and services in the respective currencies. The Company also uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments, highly probable forecast transactions and foreign currency required at the settlement date of certain

The company is mainly exposed to the price risk due to its investment in mutual funds and investment in equity instruments held by the company and classified in the balance sheet as fair value through profit or loss. The investment in mutual funds is mix of equity and debt based mutual funds. The price risk arises due to uncertainties about the future market values of these investments. To manage its price risk arising from investments in equity securities and mutual funds, the company diversifies its portfolio.

(b) Sensitivity

The table below summarizes the impact of increases/decreases of the BSE index on the Company's equity and Gain/Loss for the period. The analysis is based on the assumption that the index has increased by 5% or decreased by 5% with all other variables held constant, and that all the company's equity instruments moved in line with the index.

NOTE 54 :

The third wave of COVID-19 seems to have had minimal effect on businesses in India. Various measures taken by the Government have resulted in containment of virus. However Government restrictions continue to have impact on certain businesses. The Company's financial stability in such testing times is intact and financial controls are well in place. Company has considered adequately while making doubtful provisions as on 31.03.2022 if any. However the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of COVID-19 may be different from that estimated as at the date of approval of these financial results and the Board will continue to closely monitor the developments.

Independent Auditor's Report on Standalone Financial Statements

To the Members of
Premco Global Limited
Mumbai.

Opinion

We have audited the accompanying (Standalone) financial statements of **Premco Global Limited ("the Company")** which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Cash Flows, the Statement of changes in Equity for the year then ended and notes to standalone financial statements, including summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its Total Comprehensive Income (comprising of Profit /loss and other comprehensive Income), Cash Flow and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon. There are no other key audit matters and we do not provide a separate opinion on these matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Standalone Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone financial statements that give a true and fair view of the Statement of Affairs, Profit and Loss Account and other comprehensive income and changes in equity and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Director are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the

disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Ind AS Financial Statements of Premco Global Limited

(referred to in paragraph 2(f) under “Report on Other Legal and Regulatory Requirement” of our report of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

OPINION :

We have audited the internal financial controls over financial reporting of **Premco Global Limited** (“the Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

benefit obligation resulting from plan amendments or curtailments are recognized immediately in the statement of profit and loss as past service cost.

10. Provision & Contingent Liabilities

Provision

provision are recognized when there is a present obligation as a result of a past event and it is probable that an outflow of benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from the past events, the existence of which will be confirmed only on the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not portable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

11. Income Tax, Deferred Tax and Dividend Distribution Tax

a) Current and Deferred Tax

Tax expense for the period, comprising Current tax and Deferred Tax are included in the determination of net profit or loss for the period.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in India.

Deferred Tax is recognized for all the timing differences, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred Tax assets and liabilities are measured using the tax rates and tax laws that have been enacted and substantively enacted by the Balance Sheet date. At each Balance Sheet date, the company re-assesses unrecognized deferred tax assets, if any.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity.

12. Borrowing Cost

Borrowing cost incurred in relation to the acquisition, construction of assets are capitalized as the part of cost of such assets up to date which such assets are ready for intended use. Other borrowing costs are charged as an expense over the period of Term Loan.

13. Impairment of Assets

Assessment is done at each Balance Sheet date as to whether there is any indication that a tangible asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of asset that generates cash inflows from continuing use that are largely independent of the cash inflow from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made.

Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an assets and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

14. Leases (As a lessee)

The Company has adopted Ind AS 116 “Leases” using the modified retrospective approach with effect from initially applying this standard from 1st April 2019.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116 and this may require significant judgment. The Company also uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend or terminate the lease if the Company is reasonably certain based on relevant facts and circumstances that the option to extend or terminate will be exercised. If there is a change in facts and circumstances, the expected lease term is revised accordingly.

The discount rate is generally based on the interest rate specific to the lease being evaluated or if that cannot be easily determined the incremental borrowing rate for similar term is used.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and restoration cost, less any lease incentives received.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. When a lease liability is remeasured, the corresponding adjustment of the lease liability is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

15. Cash and Cash Equivalents:

In the Cash flow statement, cash and cash equivalents include cash on hand, demand deposits with bank, other short term highly liquid investments with original maturity of three months or less.

16. Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by weighted average number of equity shares outstanding during the period. The Weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for the events, such as bonus shares, other than conversion of potential equity share that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity share holders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

17. Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1) Financial Assets

i) Classification

The Company classifies its financial assets in the following measurement categories:

- a) at fair value either through other comprehensive income (FVOCI) or through profit and loss (FVTPL); and
- b) at amortised cost.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Gains and losses will either be recorded in the statement of profit and loss or other comprehensive income for assets measured at fair value.

For investments in debt instruments, this will depend on the business model in which the investment is held.

For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value or through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, in case of a financial asset not at fair value through the statement of profit and loss account, the Company measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through the statement of profit and loss are expensed in profit or loss.

a) Debt instruments

There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in the statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit and loss and recognised in other income or other expenses (as applicable). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit and loss (FVTPL) : Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through the profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss and is not part of a hedging relationship is recognised in the statement of profit and loss and within other income or other expenses (as applicable) in the period in which it arises. Interest income from these financial assets is included in other income or other expenses, as applicable.

b) Equity instruments

The Company measures all equity investments (except Equity investment in subsidiaries and joint ventures) at fair value. The Company's management has opted to present fair value gains and losses on equity investments through profit and loss account. Dividends from such investments are recognised in the statement of profit and loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognised in other income or other expenses, as applicable in the statement of profit and loss.

iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

iv) Derecognition of financial assets

A financial asset is derecognised only when –

- a) The Company has transferred the rights to receive cash flows from the financial asset or
- b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Income Recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividends are recognised in the statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

vi) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

vii) Trade Receivables

Trade receivables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment.

2) Financial Liabilities

i) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liabilities not recorded at fair value through profit and loss), that are directly attributable to the issue of financial liability. All financial liabilities are subsequently measured at amortised cost using effective interest method. Under the effective interest method, future cash outflow are exactly discounted to the initial recognition value using the effective interest rate, over the expected life of the financial liability, or, where appropriate, a shorter period. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit and loss.

ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

iii) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms.

iv) Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Resulting gains/(losses) are recorded in statement of profit and loss under other income/other expenses. Derivatives are classified as a current asset or liability when expected to be realised/settled within 12 months of the balance sheet date.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

NOTE : 3A Critical estimates and judgments

In the application of the company's accounting policies, which are described in note 2, the management is required to make judgment, estimates, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other process. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future period if the revision affects both current and future period.

The following are the critical estimates and judgments that have the significant effect on the amounts recognised in the financial statements.

Critical estimates and judgments

i) Estimation of current tax expense and deferred tax

The calculation of the company's tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax in the period in which such determination is made.

Recognition of deferred tax assets / liabilities

The recognition of deferred tax assets is based upon whether it is probable that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. To determine the future taxable profits, reference is made to the approved budgets of the company. Where the temporary differences are related to losses, local tax law is considered to determine the availability of the losses to offset against the future taxable profits as well as whether there is convincing evidence that sufficient taxable profit will be available against which the unused tax losses or unused tax credits can be utilised by the company. Significant items on which the Company has exercised accounting judgment include recognition of deferred tax assets in respect of losses. The amounts recognised in the financial statements in respect of each matter are derived from the Company's best estimation and judgment as described above.

ii) Estimation of Provisions and Contingent Liabilities

The company exercises judgment in measuring and recognising provisions and the exposures to contingent liabilities, which is related to pending litigation or other outstanding claims. Judgment is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement.

Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision. Although there can be no assurance of the final outcome of the legal proceedings in which the company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

iii) Estimation of useful life of Property, Plant and Equipment, Intangible assets, Investment properties

Property, Plant and Equipment, Intangible assets, Investment properties represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

iv) Estimation of provision for inventory

The company writes down inventories to net realisable value based on an estimate of the realisability of inventories. Write downs on inventories are recorded where events or changes in circumstances indicate that the balances may not realised. The identification of write-downs requires the use of estimates of net selling prices of the down-graded inventories. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

v) Estimation of defined benefit obligation

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for post employments plans include the discount rate. Any changes in these assumptions will impact the carrying amount of such obligations.

The company determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefit obligations. In determining the appropriate discount rate, the company considers the interest rates of government bonds of maturity approximating the terms of the related plan liability.

vi) Estimated fair value of Financial Instruments

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Management uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

vii) Impairment of Trade Receivable

The impairment provisions for trade receivable are based on assumptions about risk of default and expected loss rates. The company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTE 43:

Adoption of Ind AS 116 – Leases

- (a) Effective 1st April 2019, the Company has adopted Ind AS 116 - Leases using a modified retrospective approach. Accordingly, on initial application of Ind AS 116, in respect of leases previously classified as operating leases, lease liability is measured at the present value of remaining lease payments discounted using the incremental borrowing rate at the date of initial application and the Right-of-use asset has been measured at the amount equal to lease liability, adjusted for any prepaid or accrued lease payments recognised in the balance sheet immediately before the date of initial application.
- (b) Effect of application of Ind AS 116 on transaction date subsequent to addition is disclosed below.
- (i) Lease liabilities recognised on the date of initial application: Rs. 243.41 Lakhs
- (ii) Right of use asset recognised on the date of initial application: Rs. 243.41 Lakhs

(i) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. The Company has mutual funds for which all significant inputs required to fair value an instrument falls under level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and unlisted preference shares are included in level 3.

There are no transfers between levels 1, 2 and 3 during the year.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

Investments in quoted equity instruments are valued using the closing price at Bombay Stock Exchange (BSE) at the reporting period.

The fair value of forward foreign exchange contracts is determined using forward exchange rates as at the balance sheet date, prevailing with authorised dealers dealing in foreign exchange.

The use of Net Assets Value ('NAV') for valuation of mutual fund investment. NAV represents the price at which the issuer will issue further units and will redeem such units of mutual fund to and from the investors.

The fair value of the debentures is determined based on present values and the discount rates used were adjusted for counterparty risk and country risk.

NOTE 47A: Financial risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. In order to minimize any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

The company has a robust risk management framework comprising risk governance structure and defend risk management processes. The risk governance structure of the company is a formal organization structure with defend roles and responsibilities for risk management.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

The Company risk management is carried out by a central treasury department under the guidance from the board of directors. Company's treasury identifies, evaluates and hedges financial risks in close coordination with the company's operating units. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity. There is no change in objectives and process for managing the risk and methods used to measure the risk as compared to previous year.

1) Credit Risk :

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The Credit risk mainly arises receivables from customers, cash and cash equivalents, loans and deposits with banks, financial institutions & others.

a) Trade receivables

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to Rs. 1,569.15 Lakhs as at March 31, 2022 (March 31, 2021- Rs. 1,343.91 Lakhs) and from loans amounting Rs. 17.06 Lakhs (March 31, 2021- Rs. 14.20 Lakhs) Trade receivables are typically unsecured and are derived from revenue earned from customers located in India as well as outside India.

The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade receivables.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry, the country and the state in which the customer operates, also has an influence on credit risk assessment.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

The management continuously monitors the credit exposure towards the customers outstanding at the end of each reporting period to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macroeconomic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

The movement in the allowance for impairment in respect of trade receivables during the year was as follow:

Movement in expected credit loss allowance on trade receivables

(Rs.in Lakhs)

	As at March 31, 2022	As at March 31, 2021
Opening provision	43.72	7.11
Add: Additional provision made	0.63	39.34
Less: Provision write off	--	---
Less: Provision reversed	(4.45)	(2.73)
Closing provision	39.90	43.72

The average credit period on sales of products is less than 90 days. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified. For trade receivables, as a practical expedient, the Company computes credit loss allowance based on a provision table as above.

b) Cash and cash equivalents:

As at the year end, the Company held cash and cash equivalents of Rs. 565.65 Lakhs (March 31, 2021: Rs. 425.15 Lakhs). The cash and cash equivalents are held with bank and financial institution counterparties with good credit rating.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS**c) Other Bank Balances:**

Other bank balances are held with bank and financial institution counterparties with good credit rating.

d) Loans : The maximum exposure from loans is from loans due to employees and the repayments are regular and neither past due nor impaired.**e) Other financial assets:**

Other financial assets includes security deposits which are neither past due nor impaired.

2) Liquidity Risk :

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses.

Company treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(Rs. in Lakhs)

Other financial liabilities	----	122.91	3.91	148.26

3) Market Risk :

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks namely interest rate risk, currency risk and other price risk, such as commodity risk. The Company is not exposed to interest rate risk whereas the exposure to currency risk and other price risk is given below:

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

A) **Market Risk- Foreign currency risk.**

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales in overseas and purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by maintaining an EEFC bank account and purchasing of goods, commodities and services in the respective currencies. The Company also uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments, highly probable forecast transactions and foreign currency required at the settlement date of certain receivables/payables. The use of foreign currency forward contracts is governed by the Company's strategy approved by the board of directors, which provide principles on the use of such forward contracts consistent with the Company's risk management policy and procedures.

NOTE 54 :

The third wave of COVID-19 seems to have had minimal effect on businesses in India. Various measures taken by the Government have resulted in containment of virus. However Government restrictions continue to have impact on certain businesses. The Company's financial stability in such testing times is intact and financial controls are well in place. Company has considered adequately while making doubtful provisions as on 31.03.2022 if any. However the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of COVID-19 may be different from that estimated as at the date of approval of these financial results and the Board will continue to closely monitor the developments.
