CHAIRMAN

Chairman Speech

Hello Friends,

Hope you all are doing well and taking care and precaution of yourself, your family and adhering all guidelines & Instructions issued by government to perform your social duties in order to curb the further spread of Pandemic Covid-19.

It is an unprecedented time and unpredictable situation, which has never seen before and not experienced by any one. Every day new studies and new challenges are coming out and all are learning and trying to handle it in innovative ways. It is not only the challenging situation for health sector but every person is facing hardship and the pandemic has hit economy and the Industries across all spectrums very hard. Be it a street vendor or an Industrialist all are trying to find new ways and methods to cope up with the new situation. As the experts of its own field are of the view that the Covid-19 will stay for a longer period, we must all understand that current situation will not improve itself and we have to learn living in the new normal. I personally find a very positive thing among all the negativity nowadays pouring in from the entire corner that, we all have become tech prone or are trying to become tech prone, either in handling day to day chores or handling business matters. I strongly believe that this new developing strength will act as a new growth engine for the Indian Economy and will make us able to bring the business back on the fast track.

Coming to the performance of the Company during the Financial Year 2019-20, year gone by had been very challenging due to demand slowdown and pressure on margin. Following the clarion call given by our Honorable Prime Minister for the nationwide lockdown and the various advisories / directives / guidelines issued by local, State and Central Governments considering the Pandemic, the manufacturing operations in all of our plants had been suspended. This ended with severe disruption in the production activities in the last fortnight of the financial year which also affected the yearly performance of the Company. Now after slowly lifting up the ban on economic activities by the Government, we have also restarted our manufacturing facilities and other business activities and from June onwards we have been able to achieve about 85% capacity utilization. The domestic demand is still sluggish but it is the export market demand which made the company floating after unprecedented lockdown. However due to slower demand, margins are again under pressure.

Economic situation in the country is still very challenging. Different verticals are having different kind of stresses. Overall economy is very difficult and unprecedented and difficult to give any guidance. However, Company expects to remain buoyant on the bottom line by having strict control on expenses and achieving efficient management of inventory and debtors.

In spite of all the challenges and adverse situation I am happy to share with you that we have been able to receive formal approval of vendor's registration from Maruti Suzuki for which company has been trying hard for a long time. It will provide good traction. We have also established component manufacturing facility in Auto Tube Division, which will improve our margin once Auto sector achieve full demand potential. Also we have been registered as vendor by Pratt & Whitney USA for Aero space supplier from our forging division. This is a landmark achievement and assurance of bright future of the Company. The Company is preparing to keep itself ahead of the curve with respect to the new technologies that are coming up and at the same time develop new products and processes for the customers in both the auto and the industrial space. We plan to undertake expansion of forging capacity to cater aerospace requirement in the near future.

The Company strives to maintain a cordial relationship and healthy atmosphere with its employees at all levels. Human resources are considered the most important and valuable asset of the Company. The Company has been taking various precautionary measures to ensure the safety and health of the employees, stakeholders and their families, at all its offices and manufacturing locations. The focus is on to create a healthy and safe working environment for all of its employees in view of the current pandemic and motivate them to deliver their best in the current challenging situation so that without compromising with health and safety of the employees the company can achieve its target.

At the end, I would like to express my gratitude to all employees for their dedication & hard work and by the end of this fiscal we hope to achieve growth and thereafter your company is assured of bright future.

Stay Healthy & Safe.

Thanks and regards
Mahesh Chandra Garg

1. RESULTS OF OPERATIONS AND THE STATE OF COMPANY'S AFFAIRS

During the year, Goodluck India Limited is reporting its financial statements for the financial year ended March 31, 2020, forming part of this Annual Report, in compliance with Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs. In the financial year 2019-20, the Gross turnover from Operations is 1633.81 crore as against Rs. 1656.83 crore in the previous year. Though the turnover marginally reduced in the financial year 2019-20, the overall sales in quantity wise has been increased by more than 8%. The reduction in turnover was due to reduction in sales price during the financial year 2019-20. Due to better sales price realization, the EBIT has been increased from Rs. 128.50 crore to Rs. 131.45 crore in the current financial year. The Profit after tax stood at Rs. 33.88 crore during the year against the previous year of Rs. 30.59 crore. The EPS has registered a growth of around 10% in the current financial year as comparison of previous financial year. The last quarter of the financial year was disturbed due to spread of COVID-19 globally which affected the global demand and in the month of March many countries in the world declared lockdown suddenly to prevent the spread of COVID-19. In India too business was disturbed in the month of March and there was a complete lockdown in the late March which effected the performance of the Company.

Management Discussion and Analysis

INDUSTRY STRUCTURE & DEVELOPMENTS

India is currently the world's 2nd largest producer of crude steel in January-December, 2019, producing 111.245 Million Tonnes (MT) (provisional) crude steel with growth rate 1.8% over the corresponding period last year. The country is also likely to become the 2nd largest consumer of finished steel in 2019, preceded by China as the largest steel consumer. The Government's vision to achieve a \$5 trillion economy by 2024 entails investments in several steel intensive sectors like infrastructure, housing for all, 100% electrification, piped water for all, etc. India's annual per capital steel consumption is 74 kg and is one-third the global average (224.5kg). A transition to steel intensive construction will also support India's rise to a \$5 trillion economy by 2024-25. Steel intensive construction is prevalent across the globe and an increase in steel use is strongly correlated with an economy's GDP growth, especially during the nation building phase. National Steel Policy 2017, which has laid down the broad roadmap for encouraging long term growth for the Indian steel industry, both on demand and supply sides, by 2030-31, with a vision to create a technologically advanced and globally competitive steel industry that promotes economic growth. This policy seeks to accomplish Hon'ble Prime Minister's vision of 'Make in India' with the objective of nation building and to encourage domestic manufacturing. By implementing Make In India policy, Steel imports worth more than Rs. 15,000 cr. have so far been avoided.

Economy Overview

Against the backdrop of US via raising tariff on certain china imports in early 2019, global growth is forecast at 3.2 percent in 2019, picking up to 3.5 percent in 2020. Investment and demand for consumer durables have been subdued across advanced and emerging market economies as firms and households continue to hold back on long-term spending. Accordingly, global trade, which is intensive in machinery and consumer durables, remains sluggish. The projected growth pickup in 2020 is precarious, presuming stabilization in currently stressed emerging market and developing economies and progress toward resolving trade policy differences. The emerging market and developing economy group is expected to grow at 4.1 percent in 2019, rising to 4.7 percent in 2020. The forecasts for 2019 and 2020 are 0.3 and 0.1 percentage point lower, respectively. Multilateral and national policy actions are vital to place global growth on a stronger footing. The pressing needs include reducing trade and technology tensions and expeditiously resolving uncertainty around trade agreements. The COVID-19 pandemic has, with alarming speed, delivered a global economic shock of enormous magnitude, leading to steep recessions in many countries. The baseline forecast envisions a 5.2 percent contraction in global GDP in 2020—the deepest global recession in eight

decades, despite unprecedented policy support. Per capita incomes in the vast majority of

Emerging Markets and Developing Economies (EMDEs) are expected to shrink this year. The global recession would be deeper if bringing the pandemic under control took longer than expected, or if financial stress triggered cascading defaults.

Outlook

In view of the COVID-19 pandemic, there remains considerable uncertainty around the global economic forecast for 2020. According to the International Monetary Fund ('IMF'), global economy is projected to contract sharply by 4.9% in 2020, surpassing the decline seen during the global financial crisis a decade ago. Stark differences will be observed between impact of the pandemic on advanced economies, and emerging markets and developing economies owing to differences in governance capacity, health care systems, strength of financial institutions, and currency strength. Growth is expected to be slower in most advanced economies. Countries in the emerging market and developing economies will also witness a slump in growth due to external demand shock, tightening in global financial conditions, and a plunge in commodity prices. In China, where recovery from the sharp contraction in the first quarter is underway, growth is projected at 1% in 2020, supported in part by policy stimulus. The IMF projects a partial recovery in 2021, however, the level of GDP growth is expected to remain below the pre-COVID-19 trend, with uncertainty about strength of the rebound.

India's economy in the Financial Year 2020-21 is projected to grow at a slower pace following a longer period of lockdown and slower rate of recovery than anticipated. Effective policies and fiscal measures by the Government will be essential to forestall contraction of growth. The COVID-19 pandemic has severely affected economies and industries globally and the steel industry is no exception. Therefore, outlook for the steel industry includes scenarios regarding the pandemic's speed of propagation, possible recurrence, near-term impact of measures being taken to contain the outbreak, and the effectiveness of the stimulus announced by the Governments of various nations. After slower than expected growth in 2019, steel demand is estimated to contract significantly in the Financial Year 2020-21. According to the World Steel Association ('WSA'), it is possible that the impact on steel demand in relation to the expected contraction in GDP may turn out to be less severe than that seen during the erstwhile global financial crisis. In comparison with other sectors, the manufacturing sector is expected to rebound quicker though supply chain disruptions are likely to continue. Most of the steel producing regions are expected to witness a decline in crude steel output due to production cuts amidst

ongoing lockdowns. Governments of different nations have announced sizeable stimulus packages which are expected to favour steel consumption through investment in infrastructure and other incentives for the steel industry. In India, muted demand and oversupply is likely to result in suppressed steel prices and capacity utilization in the near term. Since India depends largely on migrant labour, restarting construction and infrastructure projects will be a challenge. The demand from infrastructure, construction, and real estate sectors is likely to be subdued in the first half of the Financial Year 2020-21. Further, the demand from automobile, white goods, and capital goods sectors is likely to reduce significantly with consumers deferring discretionary spends in the near term. Effective government stimulus and return of consumer confidence is likely to be the key driver for a gradual recovery over the second half of the Financial Year 2020-21. The recovery is expected to be gradual, with growth estimated at 5.4% in CY 2021, which reflects the disruptions to economic activity, policy countermeasures and commodity prices. Going forward, the Indian economy is expected to contribute 13.7% to total world economic growth, which is higher than that of several developed countries, including the US. Continued economic reforms, along with efforts to reduce public debt, is a prerequisite for the country's growth. Given the strong mandate, the government is likely to push through key structural reforms towards its ambition of making India a US\$5 trillion economy by 2024.

The Internal Control systems ensure the business operations function efficiently and the applicable laws, rules, regulations, policies of the Company are followed, in addition to safeguarding the reliability of financial reporting.

Opportunities and Threats

In 2020 world steel forecasts that steel demand will contract by 6.4%, dropping to 1,654 Mt due to the COVID-19 crisis. In

2021 steel demand is expected to recover to 1,717 Mt, an increase of 3.8 % over 2020. The Indian steel industry has entered into new development stage and with the aid of Govt. by putting conditions on import of steel has given erroneous opportunities to the Indian steel industry. Your company's one of the major customer is automobiles industry (fourth in the world), It contributes to around 9% of steel demand in India. India is the largest manufacturer of two-wheelers, three-wheelers and tractors, the fourth largest producer of passenger vehicles, and the seventh largest in commercial vehicles in the world. Two-wheelers occupy a dominant position with an 81% market share and overall passenger vehicles compose 13% of the market. India's automobile sector is domestic market oriented, with domestic sales accounting for over 80% of sales. The Government of India announced the Automotive Mission Plan 2016-26 (AMP 2026) in 2015. The plan outlines the vision for all sub-segments in terms of size, global footprint and technological maturity, etc. It aims at sustained automotive growth and bringing India at par with the global auto giants. Therefore, steel demand from the automotive sector is expected to be sustained, despite the temporary blip in growth this year. However, the Indian government is putting a significant thrust on electric vehicles, which will require less steel as these vehicles have fewer auto components. The Company targets "Make in India" program, which is likely to present multiple opportunities for indigestion and offsets in defence and aerospace. These segments will drive business growth and reduce cyclicality. The company is working towards becoming a full supplier indigenously developed systems. However, factors such as labor laws, environmental costs and permanent loss of the optionality value of the plants are curbing steel manufacturers from shutting down steel capacity permanently. Additionally, government intervention in the steel industry provides an additional political incentive to keep employing workers regardless of profitability. Further, COVID-19 has created the issue for companies to get the labour due to migration.

Risks and Concern

The COVID-19 has disrupted operations globally is well-known. Moreover, the new normal that will emerge is likely to witness a realignment of power centres in different domains. The coronavirus crisis has impacted almost all supply chains dependent on China, which includes the steel sector. Given the closure of operations in most industries, the nation's steel demand in FY2020-21 is slated to fall by about 15%. This will lead to oversupply, suppressed prices and rising inventories once the lockdown is properly lifted, as per an India Ratings report. Even after the lockdown is lifted, most likely in phases, the steel sector will continue

confronting sustained challenges on account of the labour shortage and hampered logistics movement. The nationwide lockdown is an unprecedented test for every sector, including steel. Under such circumstances, it is up to the government to boost infrastructure investments across the country. This can become a key driver for India's eventual economic recovery. Such infrastructure projects need to be fast-tracked for the steel sector to stabilise operations after the demand slump. Since many steel producers are MSMEs, the current moratorium on term loans can be extended by another three months without penal interest. Such measures will help the sector survive today's harsh conditions. In sync with this, the Centre could consider offering relief on some levies imposed on steel-making raw materials. Demand from infrastructure, construction and real estate sectors is likely to be subdued in 1HFY21 (first half of FY21) with the lockdown in 1QFY21 (April-June FY21) and the monsoon season over 2QFY21 (July-September FY21). Furthermore, the demand from automobile, white goods and capital goods sectors are likely to reduce with consumers deferring discretionary spends in the near term.

Independent Auditors' Report

To The Members of

GOODLUCK INDIA LIMITED

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of Goodluck India Limited ("the Company"), which comprises the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Cash Flow and the Statement of Changes in Equity for the year then ended and Notes to the Standalone Financial Statements including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2019. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

1. Assessment of litigations and related disclosure of contingent liabilities

[Refer to Note 3 to the Standalone Financial Statements – "Critical estimation and Judgements" and Note 33 to the Standalone Financial Statements – "Contingent liabilities and commitments"]

As at March 31, 2020, the Company has exposures towards litigations relating to various matters as set out in the aforesaid Notes.

Significant management judgement is required to assess such matters to determine the probability of occurrence of material outflow of economic resources and whether a provision should be recognised, or a disclosure should be made. The management judgement is also supported with legal advice in certain cases as considered appropriate.

As the ultimate outcome of the matters are uncertain and the positions taken by the management are based on the application of their best judgement, related legal advice including those relating to interpretation of laws/regulations, it is considered to be a Key Audit Matter.

How our audit addressed the Key Audit Matter

Our audit procedures included the following:

- We understood, assessed and tested the design and operating effectiveness of key controls surrounding assessment of litigations relating to the relevant laws and regulations;
- We discussed with management the recent developments and the status of the material litigations which were reviewed and noted by the audit committee;
- We performed our assessment on a test basis on the underlying calculations supporting the contingent lia-

bilities/other significant litigations made in the Standalone Financial Statements;

- We considered external legal opinions, where relevant, obtained by management;
- We met with the Company's external legal counsel to understand the interpretation of laws/regulations considered by the management in their assessment relating to a material litigation;
- We evaluated management's assessments by understanding precedents set in similar cases and assessed the reliability of the management's past estimates/judgements;
- We evaluated management's assessment around those matters that are not disclosed or not considered as contingent liability, as the probability of material outflow is considered to be remote by the management; and
- We assessed the adequacy of the Company's disclosures.

2. Property, Plant & Equipment and Capital Work in progress

Valuation and existence of property, plant and equipment including assessment of useful lives and residual value. Property, plant and equipment represents a significant proportion of the Company's asset base. The estimates and assumptions made to determine the carrying amounts, including whether and when to capitalize or expense certain costs, and the determination of depreciation charges are material to the Company's financial position and performance. The charges in respect of periodic depreciation are derived after estimating an asset's expected useful life and the expected residual value. Changes to asset's carrying amounts, expected useful lives or residual value could result in a material impact on the financial statements and hence considered as key audit matter.

How our audit addressed the Key Audit Matter

Our audit procedures included the following:

Our audit approach consisted evaluation of design and implementation of controls, and testing the operating effectiveness of the internal controls over valuation of property, plant and equipment and review of useful lives; Periodic physical verification of property, plant and equipment for adequacy and appropriateness of the accounting and disclosure by the Management:

- We obtained an understanding of the Company's capitalization policy and assessed for compliance with the relevant accounting standards;
- We carried out substantive tests on random sampling for all the major additions, deletions to the assets by applying all the characteristics of capital expenditure,

proper classification of the same, with reference to the company's policy and accounting standards

- We obtained an understanding on management assessment relating to progress of projects and their intention to bring the asset to its intended use.
- We obtained certificates relating to useful lives of assets where, required.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive Income, cash flows and changes in the equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities For The Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw

attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, and on the basis of such checks of the books and record of the Company as we considered appropriate and according to the information and explanations given to us, we give in 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company

- so far as it appears from our examination of those books.
- c. The Balance Sheet, The Statement of Profit and Loss including Other Comprehensive Income, the statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d. In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
- e. On the basis of written representations received from the directors as on March 31, 2020, taken on record by the Board of Directors, none of the Directors is disqualified as on 31st March, 2020, from being appointed as a Director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in "Annexure B" to this report.
- g. In our opinion, the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us :
- (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements.
- (ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- (iii) There has been no delay in transferring amount, required to be transferred, to the Investor Education and Protection Fund by the Company

ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Control Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Goodluck India Limited ("the Company") as on March 31, 2020 in conjunction with our audit of the standalone Ind AS financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the company considering essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its asset, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of the reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit

opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Notes on Financial Statement for the year ended 31st March, 2020

1. COMPANY OVERVIEW

Goodluck India Limited ('The Company') is engaged in the business of manufacture and sale of engineering product i.e. heavy engineered structure, transmission and distribution tower, CDW Tubes, Precision Tubes, Pipes, Sheets and forged engineering products at its manufacturing facilities located at Sikandrabad, Industrial Area, and Dadri in Uttar Pradesh and Kutch in Gujarat.

Goodluck India Limited is a public limited company, incorporated on November 06, 1986 and is listed on BSE Ltd and NSE Ltd.

2. SIGNIFICANT ACCOUNTING POLICIES

A. STATEMENT OF COMPLIANCE

Standalone Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement of Division II of Schedule III of the Companies Act 2013, (Ind AS Compliant Schedule III), as applicable to standalone financial statement.

Accordingly, the Company has prepared these Standalone Financial Statements which comprise the Balance Sheet as at 31 March, 2020, the Statement of Profit and Loss, the Statements of Cash Flows and the Statement of Changes in Equity for the year ended 31 March, 2020, and accounting policies and other explanatory information (together hereinafter referred to as "Standalone Financial Statements" or "financial statements").

These financial statements have been approved by the Board of Directors in the meeting held on 15 July 2020.

B. BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS

These financial statements have been prepared in accordance with the accounting policies, set out below and were consistently applied to all periods presented unless otherwise stated.

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets and liabilities which are measured at fair value as explained in the accounting policies below.

Company's financial statements are presented in Indian Rupees (₹), which is also its functional currency.

C. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work - in - Progress.

The gain or loss arising on disposal of an item of property, plant and equipment is determined as the difference between sale proceeds and carrying value of such item, and is recognised in the statement of profit and loss.

Depreciation on property, plant and equipment is provided using straight line method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013

D. INVENTORY

Inventories are stated at the lower of cost and net realizable value except in case of waste and scrap which are valued at net realizable value.

Cost of raw material includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of finished goods and work in progress include cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.

E. REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable. The

Company recognizes revenues on sale of products, net of discounts, returns, sales taxes and duties when the products are delivered to customer or when delivered to a carrier for export sale, when significant risks and rewards of ownership pass to the customer. Sale of products is presented gross of manufacturing taxes like excise duty wherever applicable. Revenue from sale of waste and scrap are included in revenue.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, using effective interest rate.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

F. EMPLOYEES' BENEFITS

Retirement benefits, such as gratuity are accounted for on the basis of provisions as lay down under Ind AS-19 "Employee Benefits" for employees are as per the certificate provided by the management.

Contributions to Provident Fund, a defined contribution plan are made in accordance with the statute, and are recognized as an expense when employees have rendered service entitling them to the contribution.

Company's contribution to state defined contribution plan namely, Employee State Insurance are made in accordance with the statute, and are recognized as an expenses when employees have rendered services entitling them to the contribution.

G. BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Profit and Loss account.

H. FOREIGN CURRENCY TRANSACTIONS

The functional currency of the Company is determined on the basis of the primary economic environment in which it operates. The functional currency of the Company is Indian Rupee (Rs.).

The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the period in which they arise.

I. FINANCIAL INSTRUMENTS

1. Financial Assets

I. Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value are adjusted through profit or loss on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

II. Subsequent measurement

i) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in

any of the above categories are measured at FVTPL.

III. Investment in subsidiaries

The Company has accounted for its investments in subsidiaries at cost.

IV. Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

2. Financial liabilities

I. Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

II. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

3. Derivative financial instruments

The Company uses various derivative financial instruments such as interest rate swaps, currency swaps and forwards contracts to mitigate the risk of changes in interest rates, exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

4. Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

J. LITIGATION

The Company is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions when ultimately concluded and determined will have a material and adverse affect on the Company's result of operations or financial condition.

K. TAXATION

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

L. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the Balance Sheet.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefit is probable.

M. CASH AND CASH EQUIVALENT

Cash and cash equivalent in the Balance Sheet comprise cash at banks and in hand.

N. EARNING PER SHARE

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of

any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

3. CRITICAL ESTIMATION AND JUDGEMENTS

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

- Estimation of current tax expense and payable – Note 16
- Estimation of defined benefit obligation – Note 15
- Recognition of deferred tax assets for carried forward tax losses – Note 16

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances.

Notes on Financial Statement for the year ended 31st March, 2020

Before accepting any new customer, the Company uses an external credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed once a year.

The Company does not hold any collateral or other credit enhancements over the balances of trade receivables.

Trade receivables have been given as collateral towards borrowings from financial institutions.

In determining the recoverability of a trade receivable, the Company considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

(i) General reserve

Under the erstwhile Indian Companies Act 1956, a general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year.

Consequent to introduction of Companies Act 2013, the requirement of mandatory transfer of a specified percentage of the net profit to general reserve has been withdrawn and the Company can optionally transfer any amount from the surplus of profit or loss account to the General reserves.

The Company has not transferred any amount to general reserve during the year.

(ii) Retained Earnings

Retained earnings are the profits that the company has earned till date less any transfer to general reserve, dividends or other distribution paid to shareholders.

(iii) Security Premium

The amount received in excess of face value of the equity shares is recognised in security premium. This reserves utilised in accordance with the specific provisions of the Companies Act 2013.

(iv) Capital Reserve

Reserve is primarily created on amalgamation as per statutory requirement. This reserve is utilised in accordance with the specific provisions of the Companies Act, 2013

(v) Share Warrant

The Company has issued 15,00,000 warrants convertible in equity shares within 18 months at Rs. 65/- each on 20th September 2019

16. Income Tax

Income of companies are subject to Indian income tax on a standalone basis. Each entity is assessed to tax on taxable profits determined for each fiscal year beginning on April 1 and ending on March 31. For each fiscal year, the respective entities' profit or loss is subject to the higher of the regular income tax payable or the minimum alternative tax ("MAT").

Statutory income taxes are assessed based on book profits prepared under generally accepted accounting principles in India adjusted in accordance with the provisions of the (Indian) Income tax Act, 1961. Such adjustments generally relate to depreciation of fixed assets, disallowances of certain provisions and accruals, deduction for tax holidays, the set-off of tax losses and depreciation carried on book profits adjusted for certain items as compared to the adjustments followed for assessing regular income tax under normal provisions. The Company has made the provision of current tax after set off of brought forward of MAT credit.

31. Financial instruments

31.1. Capital risk management

The Company being in a capital intensive industry, its objective is to maintain a strong credit rating, healthy capital ratios and establish a capital structure that would maximise the return to stakeholders through optimum mix of debt and equity.

The Company's capital requirement is mainly to fund its capacity expansion, repayment of principal and interest on its borrowings. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings and the capital markets.

The Company regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce interest cost and elongate the maturity of its debt portfolio, and closely monitors its judicious allocation amongst competing capital expansion projects to capture market opportunities at minimum risk.

The Company monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents, Bank balances other than cash and cash equivalents.

31.3 Financial risk management

The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Company's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Company.

The risk management policies aims to mitigate the following risks arising from the financial instruments:

- Market risk
- Credit risk and
- Liquidity risk

31.4 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Company is exposed in the ordinary course of its business to risks related to changes in foreign currency exchange rates, commodity prices and interest rates.

The Company seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the Management and the internal auditors

on a continuous basis. The Company does not enter into or trade financial instruments, including derivatives for speculative purposes.

31.5 Foreign currency risk management

The Company's functional currency is Indian Rupees (INR). The Company undertakes transactions denominated in foreign currencies; consequently, exposure to exchange rate fluctuations arise. Volatility in exchange rates affects the Company's revenue from export markets and the costs of imports, primarily in relation to raw materials. The Company is exposed to exchange rate risk under its trade and debt portfolio.

Adverse movements in the exchange rate between the Rupee and any relevant foreign currency result's in increase in the Company's overall debt position in Rupee terms without the Company having incurred additional debt and favourable movements in the exchange rates will conversely result in reduction in the Company's receivables in foreign currency. In order to hedge exchange rate risk, the Company has a policy to hedge cash flows up to a specific tenure using forward exchange contracts. At any point in time, the Company hedges its estimated foreign currency exposure in respect of forecast sales over the following 6 months. In respect of imports and other payables, the Company hedges its payables as when the exposure arises.

All hedging activities are carried out in accordance with the Company's internal risk management policies, as approved by the Board of Directors, and in accordance with the applicable rules and regulations where the Company operates.

The carrying amounts of the Company's monetary assets and monetary liabilities at the end of the reporting period are as follows:

31.6 Commodity price risk

The Company's revenue is exposed to the market risk of price fluctuations related to the sale of its steel products. Market forces generally determine prices for the steel products sold by the Company. These prices may be influenced by factors such as demand and supply, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Company earns from the sale of its steel products.

The Company primarily procured its raw materials i. e. HR Coil, Angle shape and section, Ingot, Zinc etc. in the open market from third parties during the financial year ended 31.03.2020 and is therefore subject to fluctuations in prices.

The Company aims to sell the products at prevailing market prices. Similarly the Company procures key raw materials like HR Coil, Angle shape and section, Ingot and Zinc based on prevailing market rates as the selling prices of steel prices and the prices of input raw materials move in the same direction.

The Company as a matter of policy has not hedged the commodity risk.

The following table details the Company's sensitivity to a 5% movement in the input price of HR Coil, Angle shape and section, Ingot, Zinc etc. The sensitivity analysis includes only 5% change in commodity prices for quantity sold or consumed during the year, with all other variables held constant. A positive number below indicates an increase in profit where the commodity prices increase by 5%. For a 5% reduction in commodity prices, there would be a comparable impact on profit, and the balances below would be negative.

HR Coil, Angle shape and section, Ingot, Zinc	6,051.18	6,477.24	(6,051.18)	(6,477.24)

31.7 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees and US dollars with a mix of fixed and floating rates of interest. The Company has exposure to interest rate risk, arising principally on changes in MCLR rate and LIBOR rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the Company's profit for the year ended 31 March 2020 would decrease / increase by Rs. 476.47 lakhs (for the year ended 31 March 2019: decrease / increase by Rs.423.94 lakhs). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

31.8 Credit risk management:

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company has adopted a policy of only dealing with creditworthy counterparties.

Customer credit risk is managed centrally by the Company and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits defined in accordance with the assessment.

Credit risk on receivables is also mitigated by securing the same against letters of credit and guarantees of reputed nationalised and private sector banks. Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

31.9 Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for long term capital expenditure growth projects. The Company generates sufficient cash flow for operations, which together with the available cash and cash equivalents provide liquidity in the short-term and long-term. The management of the Company has established an appropriate liquidity risk management framework for Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods and its non-derivative financial assets. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Consolidated Ind AS Financial Statements

Independent Auditors' Report

To The Members of

GOODLUCK INDIA LIMITED

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying Consolidated Ind AS financial statements of Goodluck India Limited ('The Company' or 'the Parent Company') and its subsidiaries (the Company and its subsidiaries company together referred as 'the Group'), which comprises the Consolidated Balance Sheet as at March 31, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Cash Flow, the Consolidated Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information ('the consolidated Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Group as at March 31, 2020, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the Consolidated Ind AS

financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Ind AS financial statements. The results of audit procedures performed by us and by other auditor of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Consolidated Ind AS financial statements.

1. Assessment of Parent Company's litigations and related disclosure of contingent liabilities

[Refer to Note 3 to the Consolidated Financial Statements – "Critical estimation and Judgements" and Note 32 to the Consolidated Financial Statements – "Contingent liabilities and commitments"]

As at March 31, 2020, the Parent Company has exposures towards litigations relating to various matters as set out in the aforesaid Notes.

Significant management judgement is required to assess such matters to determine the probability of occurrence of material outflow of economic resources and whether a provision should be recognised, or a disclosure should be made. The management judgement is also supported with legal advice in certain cases as considered appropriate.

As the ultimate outcome of the matters are uncertain and the positions taken by the management are based on the application of their best judgement, related legal advice including those relating to interpretation of laws/regulations, it is considered to be a Key Audit Matter.

How our audit addressed the Key Audit Matter

Our audit procedures included the following:

- We understood, assessed and tested the design and operating effectiveness of the Parent Company's key controls surrounding assessment of litigations relating to the relevant laws and regulations;
- We discussed with management the recent developments and the status of the material litigations which were reviewed and noted by the Parent Company's audit committee;

- We performed our assessment on a test basis on the underlying calculations supporting the contingent liabilities/other significant litigations made in relation to the Parent Company's Standalone Financial Statements;
- We considered external legal opinions, where relevant, obtained by management;
- We met with the Parent Company's external legal counsel to understand the interpretation of laws/regulations considered by the management in their assessment relating to a material litigation;
- We evaluated management's assessments by understanding precedents set in similar cases and assessed the reliability of the management's past estimates/judgements;
- We evaluated management's assessment around those matters that are not disclosed or not considered as contingent liability, as the probability of material outflow is considered to be remote by the management; and
- We assessed the adequacy of the Company's disclosures.

Based on the above work performed, management's assessment in respect of Parent Company's litigations and related disclosures relating to contingent liabilities/other significant litigations in the Consolidated Financial Statements are considered to be reasonable.

2. **Property, Plant & Equipment and Capital Work in progress**

Valuation and existence of property, plant and equipment including assessment of useful lives and residual value. Property, plant and equipment represents a significant proportion of the Parent Company's asset base. The estimates and assumptions made to determine the carrying amounts, including whether and when to capitalize or expense certain costs, and the determination of depreciation charges are material to the Parent Company's financial position and performance. The charges in respect of periodic depreciation are derived after estimating an asset's expected useful life and the expected residual value. Changes to asset's carrying amounts, expected useful lives or residual value could result in a material impact on the financial statements and hence considered as key audit matter.

How our audit addressed the Key Audit Matter

Our audit procedures included the following:

Our audit approach consisted evaluation of design and implementation of controls, and testing the operating effectiveness of the internal controls over valuation of property, plant and equipment and review of useful lives; Periodic physical verification of property, plant and equipment for adequacy and appropriateness of the accounting and disclosure by the Management:

- We obtained an understanding of the Parent Company's capitalization policy and assessed for compliance with the relevant accounting standards;
- We carried out substantive tests on random sampling for all the major additions, deletions to the assets by applying all the characteristics of capital expenditure, proper classification of the same, with reference to the Parent Company's policy and accounting standards
- We obtained an understanding on management assessment relating to progress of projects and their intention to bring the asset to its intended use.
- We obtained certificates relating to useful lives of assets where, required.

Other Information

The Parent Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Parent Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated Ind AS financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive Income, consolidated cash flows and consolidated statement of changes in the equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that

were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities For The Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Parent Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Parent Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or

when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

We did not audit the financial statements and other financial information, in respect of 3 subsidiaries, whose Ind AS financial statements include total assets of Rs4.73 Lakhs as at March 31, 2020, and total revenues of Rs Nil and total profit (Loss) after tax of Rs(0.71) Lakhs for the year ended on that date. These Ind AS financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the report(s) of such other auditors.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the management.

Report on Other Legal and Regulatory Requirements

ANNEXURE 'A' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Control Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Goodluck India Limited ("the Parent Company") and its subsidiary Companies as on March 31, 2020 in conjunction with our audit of the Consolidated Ind AS financial statements of the Parent company and its Subsidiary Companies for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent Company and 3 Subsidiary Companies are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its asset, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of the reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these Consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to Consolidated financial

statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated financial statements included obtaining an understanding of internal financial controls with reference to Consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control with reference to these Consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to these Consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to these Consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to these Consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to these Consolidated financial statements may become inadequate because of changes in conditions, or that the degree of

compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Parent Company, its subsidiary companies have, in all material respects, an adequate internal financial controls system with reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

OTHER MATTER

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls

over financial reporting with reference to these consolidated Ind AS financial statements of the Parent Company, in so far as it relates to 3 subsidiary company, which is incorporated in India, is based on the corresponding report of the auditors of such Subsidiary Companies.

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

1. COMPANY OVERVIEW

Goodluck India Limited ('The Company' or 'the Parent') and its subsidiaries (together referred to as "the Group") are engaged in the business of manufacture and sale of engineering product i.e. heavy engineered structure, transmission and distribution tower, CDW Tubes, Precision Tubes, Pipes, Sheets and forged engineering products at its manufacturing facilities located at Sikandrabad, Industrial Area, and Dadri in Uttar Pradesh, and Kutch in Gujarat.

Goodluck India Limited is a public limited company, incorporated on November 06, 1986 and is listed on BSE Ltd and NSE Ltd.

2. SIGNIFICANT ACCOUNTING POLICIES

A. STATEMENT OF COMPLIANCE

Consolidated Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement of Division II of Schedule III of the Companies Act 2013, (Ind AS Compliant Schedule III), as applicable to Consolidated financial statement.

Accordingly, the Group has prepared these Consolidated Financial Statements which comprise the Balance Sheet as at 31 March, 2020, the Statement of Profit and Loss, the Statements of Cash Flows and the Statement of Changes in Equity for the year ended 31 March, 2020, and accounting policies and other explanatory information (together hereinafter referred to as "Consolidated Financial Statements" or "financial statements").

These financial statements have been approved by the Board of Directors in the meeting held on 15 July 2020.

B. BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS

These financial statements have been prepared in accordance with the accounting policies, set out below and were consistently applied to all periods presented unless otherwise stated.

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets

and liabilities which are measured at fair value as explained in the accounting policies below.

The Group's Consolidated financial statements are presented in Indian Rupees (₹), which is also its functional currency

C. BASIS OF CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company i.e. its subsidiaries. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like item of assets, liabilities, equity, income and expense. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

D. BUSINESS COMBINATIONS

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. If the consideration transferred for the acquisition of a subsidiary, over the fair value of the net identifiable assets acquired, is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in other equity as capital reserve

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

Business combinations – common control transaction

Business combinations involving entities that are controlled by the group are accounted for using the pooling of interests method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee.
- The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

E. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work - in – Progress.

The gain or loss arising on disposal of an item

of property, plant and equipment is determined as the difference between sale proceeds and carrying value of such item, and is recognised in the statement of profit and loss.

Depreciation on property, plant and equipment is provided using straight line method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013

F. INVENTORY

Inventories are stated at the lower of cost and net realizable value except in case of waste and scrap which are valued at net realizable value. Cost of raw material includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of finished goods and work in progress include cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.

G. REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable. The Group recognizes revenues on sale of products, net of discounts, returns, sales taxes and duties when the products are delivered to customer or when delivered to a carrier for export sale, when significant risks and rewards of ownership pass to the customer. Sale of products is presented gross of manufacturing taxes like excise duty wherever applicable. Revenue from sale of waste and scrap are included in revenue.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, using effective interest rate.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

H. EMPLOYEES' BENEFITS

Retirement benefits, such as gratuity are accounted for on the basis of provisions as lay down under Ind AS-19 "Employee Benefits" for

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

employees are as per the certificate provided by the management.

Contributions to Provident Fund, a defined contribution plan are made in accordance with the statute, and are recognized as an expense when employees have rendered service entitling them to the contribution.

Group's contribution to state defined contribution plan namely, Employee State Insurance are made in accordance with the statute, and are recognized as an expenses when employees have rendered services entitling them to the contribution.

I. BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Profit and Loss account.

J. FOREIGN CURRENCY TRANSACTIONS

The functional currency of the Company and its subsidiaries is determined on the basis of the primary economic environment in which it operates. The functional currency of the Company is Indian Rupee (₹).

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the period in which they arise.

K. FINANCIAL INSTRUMENTS

1. Financial Assets

I. Initial recognition and measurement

All financial assets are initially recognized

at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value are adjusted through profit or loss on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

II. Subsequent measurement

i) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

III. Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

2. Financial liabilities

I. Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

II. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

3. Derivative financial instruments

The Group uses various derivative financial instruments such as interest rate swaps, currency swaps and forwards contracts to mitigate the risk of changes in interest rates, exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

4. Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires

L. LITIGATION

The Group is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Group's management does not reasonably expect that these legal actions when ultimately concluded and determined will have a material and adverse affect on the Group's result of operations or financial condition.

M. TAXATION

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

N. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably.

The Group does not recognize a contingent liability but discloses its existence in the Balance Sheet.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefit is probable.

O. CASH AND CASH EQUIVALENT

Cash and cash equivalent in the Balance Sheet comprise cash at banks and in hand.

P. EARNING PER SHARE

Basic earning per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number

of equity shares which could have been issued on the conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

3. CRITICAL ESTIMATION AND JUDGEMENTS

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

- Estimation of current tax expense and payable – Note 15
- Estimation of defined benefit obligation – Note 14
- Recognition of deferred tax assets for carried forward tax losses – Note 15

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances.

Before accepting any new customer, the Group uses an external credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed once a year.

The Group does not hold any collateral or other credit enhancements over the balances of trade receivables.

Trade receivables have been given as collateral towards borrowings from financial institutions.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

(i) General reserve

Under the erstwhile Indian Companies Act 1956, a general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year.

Consequent to introduction of Companies Act 2013, the requirement of mandatory transfer of a specified percentage of the net profit to general reserve has been withdrawn and the Company can optionally transfer any amount from the surplus of profit or loss account to the General reserves.

The Company has not transferred any amount to general reserve during the year.

(ii) Retained Earnings

Retained earnings are the profits that the company has earned till date less any transfer to general reserve, dividends or other distribution paid to shareholders.

(iii) Security Premium

The amount received in excess of face value of the equity shares is recognised in security premium. This reserve is utilised in accordance with the specific provisions of the Companies Act 2013.

(iv) Capital Reserve

Reserve is primarily created on amalgamation as per statutory requirement. This reserve is utilised in accordance with the specific provisions of the Companies Act, 2013

(v) Share Warrant

The Company has issued 15,00,000 warrants convertible in equity shares within 18 months at ₹ 65/- each on 20th September 2019

30. Financial instruments

30.1. Capital risk management

The Group being in a capital intensive industry, its objective is to maintain a strong credit rating, healthy capital ratios and establish a capital structure that would maximise the return to stakeholders through optimum mix of debt and equity.

The Group's capital requirement is mainly to fund its capacity expansion, repayment of principal and interest on its borrowings. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings and the capital markets.

The Group regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce interest cost and elongate the maturity of its debt portfolio, and closely monitors its judicious allocation amongst competing capital expansion projects to capture market opportunities at minimum risk.

The Group monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents, Bank balances other than cash and cash equivalents.

30.3 Financial risk management

The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Group's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Group.

The risk management policies aims to mitigate the following risks arising from the financial instruments:

- Market risk

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

- Credit risk and
- Liquidity risk

30.4 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Group is exposed in the ordinary course of its business to risks related to changes in foreign currency exchange rates, commodity prices and interest rates.

The Group seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Group's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the Management and the internal auditors on a continuous basis. The Group does not enter into or trade financial instruments, including derivatives for speculative purposes.

30.5 Foreign currency risk management

The Group's functional currency is Indian Rupees (INR). The Group undertakes transactions denominated in foreign currencies; consequently, exposure to exchange rate fluctuations arise. Volatility in exchange rates affects the Group's revenue from export markets and the costs of imports, primarily in relation to raw materials. The Group is exposed to exchange rate risk under its trade and debt portfolio.

Adverse movements in the exchange rate between the Rupee and any relevant foreign currency result's in increase in the Group's overall debt position in Rupee terms without the Group having incurred additional debt and favourable movements in the exchange rates will conversely result in reduction in the Group's receivables in foreign currency. In order to hedge exchange rate risk, the Group has a policy to hedge cash flows up to a specific tenure using forward exchange contracts. At any point in time, the Group hedges its estimated foreign currency exposure in respect of forecast sales over the following 6 months. In respect of imports and other payables, the Group hedges its payables as when the exposure arises.

All hedging activities are carried out in accordance with the Group's internal risk management policies, as approved by the Board of Directors, and in accordance with the applicable rules and regulations where the Group operates.

The carrying amounts of the Company's monetary assets and monetary liabilities at the end of the reporting period are as follows:

30.6 Commodity price risk

The Group's revenue is exposed to the market risk of price fluctuations related to the sale of its steel products. Market forces generally determine prices for the steel products sold by the Group. These prices may be influenced by factors such as demand and supply, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Group earns from the sale of its steel products.

The Group primarily procured its raw materials i. e. HR Coil, Angle shape and section, Ingot, Zinc etc. in the open market from third parties during the financial year ended 31.03.2020 and is therefore subject to fluctuations in prices.

The Group aims to sell the products at prevailing market prices. Similarly the Group procures key raw materials like HR Coil, Angle shape and section, Ingot and Zinc based on prevailing market rates as the selling prices of steel prices and the prices of input raw materials move in the same direction.

The Group as a matter of policy has not hedged the commodity risk.

The following table details the Group's sensitivity to a 5% movement in the input price of HR Coil, Angle shape and section, Ingot, Zinc etc. The sensitivity analysis includes only 5% change in commodity prices for quantity sold or consumed during the year, with all other variables held constant. A positive number below indicates an increase in profit where the commodity prices increase by 5%. For a 5% reduction in commodity prices, there would be a comparable impact on profit, and the balances below would be negative.

DESCRIPTION	Increase		Decrease	
	31-Mar-20	31-Mar-19	31-Mar-20	31-Mar-19
HR Coil, Angle shape and section, Ingot, Zinc	6,051.18	6,499.24	(6,051.18)	(6,499.24)

30.7 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Group are principally denominated in rupees and US dollars with a mix of fixed and floating rates of interest. The Group has exposure to interest rate risk, arising principally on changes in MCLR rate and LIBOR rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the Group's profit for the year ended 31 March 2020 would decrease / increase by ` 476.47 lakhs (for the year ended 31 March 2019: decrease / increase by ` 423.94 lakhs). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

30.8 Credit risk management:

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Group has adopted a policy of only dealing with creditworthy counterparties.

Customer credit risk is managed centrally by the Group and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits defined in accordance with the assessment.

Credit risk on receivables is also mitigated by securing the same against letters of credit and guarantees of reputed nationalised and private sector banks. Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

30.9 Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Group requires funds both for short term operational needs as well as for long term capital expenditure growth projects. The Group generates sufficient cash flow for operations, which together with the available cash and cash equivalents provide liquidity in the short-term and long-term. The management of the Group has established an appropriate liquidity risk management framework for Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Notes on Consolidated Financial Statement for the year ended 31st March, 2020

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods and its non-derivative financial assets. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.
