About Us

Dangee Dums has become a household name in Gujarat when it comes to Cakes and other Bakery products. The brand began its journey on August 13, 2010 as a boutique store of high-end chocolates. Since then, the brand has pivoted to a cakery format to best exploit available growth opportunities. The brand has found its niche in democratizing consumption of high quality cakes and pastries. The brand caught the imagination of the public with its 'Cake of the Week' campaign when it's introduced best-in-class half kg cakes at Rs. 250 in the city of Ahmedabad. These prices were unheard of at the time for a product of that quality and the campaign allowed the company to scorch the competition and establish its credentials.

The company keeps the customer at the centre of all its initiatives with the intention of providing best customer experience possible. With this in mind, the company maintains a rigid control of the entire supply chain right from manufacturing to the stores. The company manufactures all products sold under its label, the company also owns all of its stores, and all this has been done to ensure that customer is delighted at each touch point.

The company has a state-of-the-art manufacturing facility at Piplaj; spread over 25,000 square feet. The factory has been designed with an objective to minimize time between making of the products and its pickup point for delivery. The company maintains the highest of standards in quality con-

trol. The company maintains the most stringent norms in the category for quality aspects like shelf-life, hygiene, stacking aesthetics, and so on. The company has its own fleet for transporting the products from the factory to the stores, these are own's refrigerated, temperature-controlled van with GPS tracking for timely deliveries.

The company operates through a Company Owned Company Operated model (COCO) that's allows for maintenance of the highest possible quality parameters. The company regularly trains its store operation personnel to maintain rigid control over processes involving storage of raw materials, stocking of products and so on. The company has also designed a plannogram for the most optimal and easy to locate display of products.

DANGEE DUMS®

Even at the other end of the supply chain, the company continuously monitors post purchase customer response through its in-house Customer Relationship Management (CRM) team. Through its proprietary 'Voice of Customer' program, the company makes enquires about customer responses to product quality and we also understand our brand perception in relation to that of our competitors. Food being a very local and fluid category, the company has to be on its toes for local, national and multinational competition in the various categories that it operates in.

The company has transitioned over a period of time into a master brand with sub-brands offspring basis the format. The company currently operates across two formats, the regular Dangee Dums stores (around 300 square feet) which is cakery format and Dangee Dums Yums (1200 square feet+) which is a dessert café format. This year the Company has introduced gourmet format. The company currently operates through 40 COCO stores across 3 formats. Of the 40 stores, 3 stores (Panjarapole, New Shahibaug and Bopal) in Ahmedabad (Gujarat) are in the Dangee Dums Yums format and also 1 store in the Dangee Dums Gourmet (Shyamal) and the other 36 are regular cakery format stores. The brand is present in four cities with 33 stores in Ahmedabad, 4 stores in Baroda, 2 stores in Anand and 1 store in Gandhinagar.

The company also has a Consumer Products Group (CPG) vertical which makes packaged products for sales in its own stores. The company has launched products in chocolate, cookies and khari through this vertical. The company has also fortified its presence in the ice-cream segment by launching its signature range in two new packaging formats to target a fresh consumption occasion. The old family pack range of ice-cream has been relaunched with new flavors and packaging. The CPG product range is characterized by attractive packaging and convenient form factors. The company is scouting for other allied categories in western dessert CPG segment to augment its portfolio. The company is scouting for opportunities to sell these products in General Trade (GT) and Modern Trade (MT) stores as well as online platforms like Amazon.

In addition to its own stores, Dangee Dums is also present on third party food delivery platforms like Swiggy and Zomato and has stepped in at Amazon, Flipkart and Big

Basket for its packaged products. Yet another touch-point in the online domain is the company's website and app. These two platforms enjoy a loyal base of followers who regularly order their favorite dessert from these touch-points. The company has also launched an innovative 'Order on Whatsapp' channel to further reduce the friction in ordering and ensure that the company's patrons never without their favorite delicacies from Dangee Dums. The company has also recently dabbled in the cloud kitchen model to aggregate demand from third party platforms in some areas, the experiment is still in its formative stage but it presents yet another example of the company's intention of keeping its engines of innovation going. Going forward the company will continue to invest in its own platforms while supplementing this with its presence on any third party platforms where our customer may be present.

The company's growth plans have been facilitated by dedicated management team comprising our promoters, directors and key managerial personnel. Our promoters are still passionately involved in the business and their efforts are supplemented by a growing cadre of experienced and knowledgeable management team. The company is trying to build a dedicated and talented team of experienced and young employees alike that delivers in the present and also guarantees its future. Dangee Dums operates in a dynamic category like food retail, the tastes vary not only by geography but also by time as people are exposed to newer and more innovative products and formats, our company's talented employee base and our strong group of partners and vendors is our only moat against this ever present challenge.

MESSAGE FROM THE CHAIRMAN

Dear Esteemed Shareowners,

The year 2020-21 has impacted our lives in unforeseen ways. It was undoubtedly one of the most difficult and unprecedented times which we have not recovered from completely. Before sharing the financial highlights, I would firstly like to thank the frontline healthcare staff for their utmost dedication and heroic efforts for providing the essential service to the nation.

In furtherance of the same, the performance of the Company effected due to this ongoing pandemic and in FY 2020-21, the Company has incurred loss of Rs.1004.74 Lakhs and generated a turnover of Rs.1343.63 Lakhs.

During the year, we have witnessed drastic impact on the company revenue due to the second wave of COVID-19, followed by the partial lockdown imposed by the State Government.

As on date the Company has in total 40 COCO stores across 3 formats. Of the 40 stores, 3 stores (Panjarapole, New Shahibaug and Bopal) in Ahmedabad (Gujarat) are in the Dangee Dums Yums format and also 1 store in the Dangee Dums Gourmet (Shyamal) and the other 36 are regular cakery format stores. The brand is present in four cities with 33 stores in Ahmedabad, 4 stores in Baroda, 2 stores in Anand and 1 store in Gandhinagar.

The Company is committed to invest in product development that not only refreshes our presence in existing categories but also allows us to enter new product categories.

In the year 2020-21, the Company has introduced a new category of product in its bucket i.e., bread which includes all types of breads.

The Company continues to keep a watchful eye on emerging opportunities, by continuing to focus on building a strong brand, with improved products and reach.

MESSAGE FROM THE CHAIRMAN

By grabbing this opportunity, we have also entered into MoU with Magson Retail and Distribution Pvt. Ltd. for the supply of a diverse range of frozen products, party products, disposables, beverages, chocolates to its customers at large.

The Company has also started the process of franchising its brand under the FOFO (Franchisee Owned Franchisee Operated) and FOCO (Franchisee Owned Company Operated) models and is ready to welcome potential franchisees who can run our brand with utmost loyalty and maintain the brand image of the Company. The new addition of franchise stores will be in addition to existing store patterns.

We have also invested in the brand development on online platforms in line with the trend in the market. Along with online delivery platforms Zomato and Swiggy, the Company also has presence on Big Basket, Amazon and Flipkart for its packaged products. Further, we have also developed our own dedicated website for online orders and delivery.

The growth of an industry comes with its own challenges and the most important aspect of it is to expand production capacity to meet the new age demands. The Company has pursued business excellence through passion, perseverance and commitment to offer the best to its customers.

I would like to extend my gratitude for the incredible support that you all have extended throughout the journey of Dangee Dums Limited (DDL) as Gujarat's one of the leading Corporate in Cake and Bakery Sector.

I would also like to pay my sincere acknowledgement to the Government and Semi-Government Authorities, Esteemed Customers, Suppliers, Bankers, Business Associates and all the Stakeholders for their immense faith and continued support to the Company.

I assure you that we will achieve new heights in the coming years!

Thank You!

Nikul Jagdishchandra Patel

THE CAKE CONNOISSEUR

Still Spreading Sweetness In People's Lives Since 2011

Cakes make life a bit more sweeter! Born out of sheer love for cakes, Dangee Dums came into existence for all candied dessert lovers! While the saga of Dangee Dums is still being written, we can give our customers a glimpse into the journey of the company into a thriving growing entity!

Growth Story

2011

- The brand 'Dangee Dum' is born under the auspices of its mother company Aromen Hospitality
- We bring on board Barry Calebout as technical advisor, he is the World's leading manufacturer of high-quality chocolate and cocoa products
- We win the award of the best dessert place in Ahmedabad by Times Food Awards in the inception year itself

2013

- We consolidate our presence in Ahmadabad by entering key markets such as Naranpura, Prahaladnagar, Paldi and so on

2015

- A key milestone in the journey of the brand as we launch 'Cake of the Week' campaign in July. The campaign helped establish Dangee Dums credentials as a serious player in the cakery segment
- Dangee Dums enters the Baroda market with outlets in key markets like Manjalpur, Karelibag and Jetalpur

2016

- We continue to consolidate our presence in Ahmadabad and Baroda with three outlets each
- Dangee Dums enters in Anand with two outlets and later in the year adds one more
- Dangee Dums enters Surat adding outlets through the year
- We reach another landmark with launch of its 50th outlet

Growth Story

2017

- Yet another landmark is breached with the launch of the 75th outlet
- Dangee Dums enters a new category with launch of its ice cream product

2018

- The flagship store at Panjarapole is re-launched with much fanfare as a sit-in format with multiple dessert options beyond the regular fare at Dangee Dums
- Dangee Dums enter the packaged good segment with launch of its coated chocolate product in two flavors
- We mark a major landmark with our listing on NSE-SME Emerge platform on 3rd Sep. 2018

2019

- A new identity is created for our sit-in format, the store at Panjarapole is rebranded as 'Dangee Dums Yums' our sub-brand for dessert café format
- The second store of this format is launched in Shyamal
- Dangee Dums expands its Consumer Packaged Group (CPG) portfolio by re-launching its ice cream product in a new consumer friendly packaging format
- Dangee Dums makes an entry into a new category in the CPG domain with the launch of cookies

ii. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting.

iii. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders / retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

iv. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ECONOMIC / INDUSTRY OVERVIEW

The novel coronavirus/COVID-19 pandemic has significantly impacted the whole food and beverages industry among which bakery industry is one of them. This pandemic has resulted into mass production shutdowns and supply chain disruptions which has also affected the economy as well. The Covid-19 pandemic has drastically affected the world. It has not only put the life of the people at stake but also has crashed down the world's economy. Every industry, either supporting industry in terms of supply chain or directly involved in manufacturing, has been adversely affected by this pandemic. The food industry was allowed to resume the operations earlier.

The majority of products preferred by consumers are bread, biscuits, and cakes whose market was about to increase by the growth rate of 12% but unfortunately, due to the Covid-19 pandemic, the growth has become stagnant. The growth rate has fallen and many of the small scale start-ups are even struggling for their survival.

Presently, the bread and bakery product market is expected to grow at a compound annual growth rate (CAGR) of 1% due to the economic slowdown and lockdown effects. Although the market is expected to recover from 2021 by the growth rate of 4-5%, it is still less than the growth rate expected before Covid-19 pandemic.

The cake market in India is expected to witness notable growth in near future with a projected market value likely to exceed USD 12 billion by 2024 expanding at a CARG of 9.3% during 2019 to 2024. Alongside these predictions, India occupies a unique position in the market as flavour innovation continues to grow in importance on a global scale. Indian traditions and access to interesting and unusual flavour combinations will allow them to continue to excel and innovate in this market., owing to change in spending patterns of consumers, on the back of expanding middle-class population and increasing consumer preference for cakes as a regular sweet rather than an occasional treat. Moreover, growing population base of the young working class, which prefers to spend on lifestyle & luxury products, availability of innovative packaged products, and aggressive marketing & promotional activities expected to boost demand for dry cakes in India in the coming years.

FISCAL YEAR 2021 AND OUTLOOK

During the fiscal year ended 31st March 2021, your Company has achieved a total net sale of Rs. 1343.63 lakhs and incurred loss of **Rs1004.47 lakhs**.

The Company's main revenue comes from selling of bakery, confectionery and ice cream products through its outlets spread in the state of Gujarat, further, the Company has its manufacturing facility in Ahmedabad.

Therefore, due to partial lockdown announced by the State Government, the company has impacted negatively to its business operation and financial position. The business was heavily impacted due to second wave of COVID-19 in March-April 2021.

Your Company will be introducing shortly a new category of product i.e. various types of breads in its bucket of various products.

DANGEE DUMS®

Further, your Company has also entered into MoU with Magson Retail And Distribution Pvt Ltd for the supply of various frozen products, party products, disposables, beverages, chocolates etc to its customers at large.

Your Company has also started franchising its brand under FOFO model (Franchisee Owned Franchisee Operated) and FOCO (Franchisee Owned Company Operated) model and is ready to welcome potential Franchisees who can run our brand with utmost loyalty and maintain the brand image of the Company.

BUSINESS STRATEGY

Going forward our business strategy will rest on four pillars, the idea is to put in place a proper framework to give us the best chance to grow in the face of challenges from the competition and external events over which we may have no control. Each of tenets of our strategy is explained below:

- > **Strengthen our core**
- > **Exploit our expertise in western dessert products**
- > **Offer newer formats**
- > **Increase points of distribution**
- > **Putting it all together**

While strategies often look good on paper, what often separates successful ones from the not-so-successful is their execution. Each of these pillars requires a proper structure to ensure proper planning, execution and monitoring. Your company will invest in putting in place the right structure that ensures precise execution, the investment may vary from say putting in place a business development team or resources and tools for GT and MT store fulfillment or even increasing the numbers of product development team and innovation team. While as mentioned before that of this takes us in new directions, we feel that it essential for the company to adjust, pivot and transform in order to best respond to emerging opportunities and challenges. We are confident that with the team we have in place we are on track to achieve our growth objectives

OUR COMPETITIVE STRENGTHS

We derive our strengths from following factors:

1. Brand Name and Image
2. End to end ownership of the Supply chain
3. Our talented employee base
4. Expertise in western dessert products

Emerging Opportunities:

1. India's strong consumption fundamentals
2. Logistics based startups augmenting distribution
3. Acceptance of western dessert items in gifting
4. The third place i.e. a hangout place for all purpose for our customers

Threats:

1. Shifts in customer tastes away from the Company's products

2. Emergence of substitute products.
3. Change in modus-operandi
4. The arrival of third party marketplaces
5. Unforeseen government regulation
6. Increased trade barriers

KEY RISKS AND CONCERNS

The Company is exposed to business risks which may be internal as well as external and the growth of our Industries is linked to the overall economic growth. Primary risk to the business will be on account of adverse changes to the economy. Volatility in commodity prices is the other significant risk.

Other Disclosures:

1. Related Party Transactions:

All Related Party Transactions that were entered during the financial year were on an arm's length basis and were in the ordinary course of business and also in compliance with the applicable provisions of the Act and the SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015. During the Financial Year 2020-21, there were no materially significant related party transactions made by the Company with Promoters, Directors, Key Managerial Personnel or other designated persons which may have a potential conflict with the interest of the Company at large. All Related Party Transactions were placed before the Audit Committee and also before the Board for approval. The Company has formulated a policy on dealing with Related Party Transactions which specifies the manner of entering into Related Party Transactions. This policy has also been posted on the web site of the Company and can be accessed through web link www.dangeedums.com.

2. Details of Non-Compliance

There was no non-compliance during the year except mentioned hereunder and no penalties were imposed or strictures passed on the Company by the Stock Exchanges, SEBI or any other Statutory Authority.

• As per regulation 33(3) of SEBI (LODR) Regulations, 2015- the listed entity shall submit quarterly and year-to-date standalone financial results to the stock exchange within forty-five days of end of each quarter, other than the last quarter therefore the listed entity has to submit results of third quarter i.e., 31.12.2020 on or before 14.02.2021. However, the Company has submitted the same on 03.03.2021. So, there was a delay of 17 days.

The Board would like to clarify that since the Company has migrated from NSE Emerge (SME) to NSE (Main Board) w.e.f. 13.11.2020, the Company has to prepare its financials according to IND-AS. Migrating from existing Accounting Standards of Indian GAAP to IND-AS requires restating of previous years accounts, therefore the Financial Results of the Company for the quarter ended 31.12.2020 was not finalized within time. However, till the date of this report, there was no penalty imposed by the Stock Exchange.

A practicing Company Secretary has certified the compliance of the conditions of Corporate Governance and annexed the certificate with the Directors' Report and sent the same to all the shareholders of the Company. The certificate shall also be sent to all the concerned Stock Exchanges along with the Annual Report filed by the Company.

3. Compliance with Accounting Standards

The Ministry of Corporate Affairs issued "The Companies (Indian Accounting Standards) Rules, 2015 and amendment thereto "The Companies (Indian Accounting Standards) Rules, 2016 as converged version of International Financial Reporting Standard (IFRS). INDEPENDENT AUDITORS' REPORT

To,
The Members of
DangeeDums Limited

Report on the Audit of the Financial Statements
Opinion

1. We have audited the accompanying financial statements of **DangeeDums Limited** (the 'Company') which comprise the Balance Sheet as at **31 March 2021**, the Statement of Profit and Loss, Statement of Changes in Equity and the Cash Flow Statement for the year then ended and a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind As') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2021 and its loss, total comprehensive income, its cash flows and the changed in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further, described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional, judgment, were of most significance in our audit of the, financial statements of the current period. These matters were addressed in the context of our audit, of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion, on these matters.

5. Key audit matter identified in our audit is on transition to Ind AS accounting framework:

Key audit matter	How our audit addressed the key audit matter
Assessment of transition to Ind AS accounting framework	
The company has adopted Ind AS from 1 April 2020 with an effective date of 1 April 2019 for such transition. For periods up to and including the year ended 31 March 2020, the company had prepared and presented its financial state-	In respect of the same our audit procedures included the following: 1. Read the Ind AS impact assessment performed by the management and the resultant

ments in accordance with the erstwhile generally accepted accounting principles in India (Indian GAAP). In order to give effect of the transition to Ind AS, these financial statements for the year ended 31 March 2021, together with the comparative financial information for the previous year ended 31 March 2020 and the transition date balance sheet as at 1 April 2019 have been prepared under Ind AS.

The transition has involved significant change in the company's policies and processes for financial reporting, including generation of supportable information and exercise of estimates to inter alia determine impact of Ind AS on accounting and disclosure requirements.

In view of the complexity involved, Ind AS transition and the preparation of financial statements subsequent to the transition have been areas of key focus in our audit.

changes made to the accounting policies in light of the requirements of the new framework.

2. Evaluated the exemptions and exceptions allowed by Ind AS and applied by the management in applying the firsttime adoption principles of Ind AS 101 in respect of fair valuation of assets and liabilities existing as at transition date.

3. Tested the accounting adjustments posted as at the transition date and in respect of the previous year to convert the financial information reported under erstwhile Indian GAAP to Ind AS.

4. Tested the disclosures prescribed under Ind AS.

Information other than the Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and as may be legally advised.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

7. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and cash flows of the Company in accordance with the accounting principles generally accepted in India specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other

irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for explaining our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

16. Further to our comments in Annexure A, as required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

c) The Balance Sheet, the Statement of Profit & Loss and the cash Flow Statement dealt with by this report are in agreement with the books of account;

d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act;

f) With respect to the adequacy of the Internal Financial Controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" ;

g) With respect to the other matters to be included in the Auditor's Report in accordance with rule

11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending Litigation which would impact its Financial position;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

3. The company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained under section 189 of the Companies Act, 2013 and therefore, the Clauses (iii) (a) to (c) of the Companies (Auditor's Report) Order, 2016 are not applicable.

4. In our opinion and according to information and explanations given to us, the Company has not granted any loan or made any investment or provided any guarantee or security to the parties covered under section 185 and 186. Therefore clauses (iv) of Companies (Auditor's Report) Order, 2016 is not applicable.

5. During the year, the Company has not accepted any deposits and hence the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed there under are not applicable to the Company. Therefore clauses (v) of Companies (Auditor's Report) Order, 2016 is not applicable.

6. According to the information and explanations given to us, the Company is not required to maintain cost records as required by the central government under sub section (1) of section 148 of the Companies Act, 2013. Hence clause (vi) of the (Auditor's Report) Order, 2016 is not applicable.

7. In respect of Statutory Dues :

(a) According to the records of the Company, the Company is by and large regular in depositing with appropriate authorities undisputed statutory dues including Value Added Tax, Tax Deducted at Source, Provident Fund, Employee State Insurance, Professional Tax and other statutory dues with the appropriate authorities applicable to it except there was delay in payment of Goods & Service Tax. According to the information and explanations given to us, no undisputed amount payable in respect of statutory dues were outstanding as at 31st March, 2021 for a period of more than six months from the date they became payable.

(b) According to the records of the Company, there are no dues of income tax, service tax, duty of customs, duty of excise, value added tax, central sales tax, Service Tax, Goods & Service Tax or cess which have not been deposited on account of disputes.

8. In our Opinion and according to the information and explanations given to us, we are of the opinion that the Company has not defaulted in repayment of dues to Bank and Financial Institutions. The Company has no debenture holder during the year.

9. According to the information and explanations given to us, the Company has not raised any money by way of Public Issue during the year. According to the information and explanations given to us, and on an overall examination of the balance sheet of the Company, in our opinion, the term loans taken during the year were applied for the purpose for which they were obtained.

10. Based upon the audit procedures performed and information and explanations given by the management, we report that no fraud by the Company or any fraud on the Company by its officer or employees has been noticed or reported during the course of our audit.

11. In our opinion and according to the information and explanations given to us, the company had paid managerial remuneration which is in accordance with the requisite approvals mandated by the provisions of section 197 read with schedule V of The Companies Act, 2013.

12. In our opinion and according to the information and explanations given to us, the provisions of special statute applicable to chit funds and nidhi / mutual benefit funds / societies are not applicable to the Company, hence, clause 3(xii) of the Company's (Auditor's Report) Order, 2016 is not applicable.

13. In our opinion and according to the information and explanations given to us, the transactions entered by the Company with related parties are in compliance with the provisions of section 177 and 188 of the Companies Act, 2013 and details thereof are properly disclosed in the financial statements as required by the applicable accounting standard.

14. In our opinion and according to the information and explanation given to us, no preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review was made by the company and hence, clause (xiv) of the company's (Auditors' Report) Order, 2016 is not applicable.

15. The Company had not entered in to any non-cash transactions with the directors or persons connected with him during the year, hence section 192 of the Companies Act, 2013 is not applicable, hence clause (xvi) of Company's (Auditor's Report) Order, 2016 is not applicable.

ANNEXURE-B TO THE AUDITORS REPORT

Referred to in paragraph 16 (f) to The Independent Auditor's Report of Even Date on the Financial Statements of DangeeDums Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of DANGEE DUMS LIMITED ("the Company") as of 31st March 2021, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide rea-

sonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statement for the year ended March 31, 2021**1. Corporate information:**

The Dangee Dums Limited ('the Company') is a listed company, incorporated on August 13, 2010 under the provisions of the Companies Act 1956, having its registered office at 4-A, Ketan Co-Op Housing Society Ltd, Opp. B D Patel House, Naranpura, Ahmedabad, Gujarat, India. The shares of the company are listed on NSE. The Company is engaged in the business of manufacturing and trading of Bakery & Confectionery Products. The Company has manufacturing plant located in state of Gujarat.

The financial statements are approved for issue by the Company's Board of Directors on July 1, 2021.

2. Statement of compliance:

The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2020 as amended read with Section 133 of the Companies Act, 2013.

Upto the year ended March 31, 2020, the Company prepared its financial statements in accordance with the accounting standards notified under section 133 of the Companies Act 2013, read together with rules thereunder ('Indian GAAP' or 'previous GAAP'). The current financial statements comprising of Balance Sheet, Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows as at March 31, 2021 have been prepared in accordance with Indian Accounting Standards ('Ind AS') as prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2020. These are the Company's first Ind AS financial statements. The date of transition to Ind AS is April 1, 2019. Previous period numbers in the financial statements have been restated to Ind AS. Refer Note 45 for an explanation of the transition from previous GAAP to Ind AS.

3. Basis of preparation:

The financial statements have been prepared on accrual basis of accounting under historical cost convention in accordance with generally accepted accounting principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following where the fair valuation have been carried out in accordance with the requirements of respective Ind AS:

- a. Employee defined benefit plans – Plan assets - Note 43.
- b. Financial Instruments recognised at FVTPL or FVTOCI - Note 46.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

4.1. Summary of significant accounting policies:**i) Use of estimates:**

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the financial statements. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Critical Accounting Estimates and Judgements used in application of Accounting Policies:

a. Income Taxes

Significant judgements are involved in determining the provision for Income Taxes, including amount expected to be paid / recovered for uncertain tax positions. (Also refer Note 11 and 39)

b. Property, Plant and Equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful life and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The life is based on historical experience with similar assets as well as anticipation of future events, which may impact their life such as changes in technology. (Refer Note 5)

c. Impairment of Financial Assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on empirical evidence available without undue cost or effort, existing market conditions as well as forward looking estimates at the end of each reporting period. (Refer Note 15 and 47)

d. Defined Benefit Plan

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligations is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. (Refer Note 35 and 43)

e. Fair Value Measurement of Financial Instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets, where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair values of financial instruments. (Refer Note 47)

ii) Revenue recognition:

Under Ind AS 115 - Revenue from Contracts with Customers, revenue is recognised upon transfer of control of promised goods or services to customers. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts, incentives, performance bonuses, price concessions, amounts collected on behalf of third parties, or other similar items, if any, as specified in the contract with the customer. Revenue is recorded provided the recovery of consideration is probable and determinable.

Sale of Products

Revenue from the sale of products is recognised at a point in time, upon transfer of control of products to the customers which coincides with their delivery and is measured at fair value of consideration received/receivable, net of discounts, amount collected on behalf of third parties and applicable taxes.

Sale of Scrap

Sale of scrap is recognised upon transfer of control of products to the customers which coincides with their delivery to customer

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income

Dividend income is recognised when the Company's right to receive the payment has been established.

iii) Property, Plant & Equipment:**Property, Plant & Equipment**

All other Property, Plant and Equipments are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to getting the asset ready for intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

An item of property, plant and equipment is de recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Capital Work-in-progress

Properties in the course of construction (CWIP) for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready

Transition to Ind-AS:

For transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2019 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

iv) Depreciation on Property, Plant & Equipment:

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on tangible property, plant and equipment is provided over the useful lives specified under Schedule II to the Companies Act, 2013.

The estimated useful lives are mentioned below:

Nature of Assets	Useful life (in Years)
Buildings	30 / 9
Computer	6
Furniture & Fixtures	10
Office Equipments	5
Plant & Machinery	15
Vehicle	8
Intangible Assets	6

v) Intangible Assets and Amortization:

Intangible assets purchased are measured at cost or fair value as on the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets are amortised on a straight line basis over their estimated useful lives, commencing from the date the asset is available to the Company for its intended use.

Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the Statement of Profit and Loss in the year in which the expenditure is incurred.

The estimated useful life of the intangible assets and the amortisation period are reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any

vi) Impairment of Property, Plant & Equipment and intangible assets :

At the end of each reporting period, the Company reviews the carrying amounts of its Property, Plant & Equipment and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

Carrying amount equals to cost less accumulated depreciation and accumulated impairment losses recognised previously.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

vii) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

viii) Inventories:

Raw Materials, Packing Materials, Stores and Spares

Raw Materials, Packing Materials, Stores & Spares and consumables are valued at lower of cost (net of refundable taxes and duties) and net realisable value. Inventories are not written down below cost if the related finished products are expected to be sold at or above cost. Cost is determined on First-In-First-Out basis and includes all cost incurred in bringing the inventories to their present location and condition.

Finished Goods and Work-in-progress

Work-in-progress and finished goods are valued at lower of cost and net realisable value. Cost includes direct material and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost in respect of Finished Goods and Work-In-progress are computed on Weighted Average Basis Method. Net Realizable Value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Obsolete, slow moving and defective inventories are identified and provision made wherever necessary.

Stock in Trade

Stock in Trade is valued at lower of cost and net realisable value. Cost is determined on FIFO basis.

ix) Leases:

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee:

The Company applies a single recognition and measurement approach for all leases. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

a-Right-of-use Assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

b-Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are included in Other non-current financial liabilities.

x) Government Grants and Subsidies:

Government grants are recognised when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

xi) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets**a. Initial recognition and measurement**

At initial recognition, the Company measures a financial asset (which are not measured at fair value) through profit or loss at its fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

b. Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- i) Financial assets measured at amortised cost;
- ii) Financial assets at fair value through profit or loss (FVTPL) and
- iii) Financial assets at fair value through other comprehensive income (FVTOCI).

The Company classifies its financial assets in the above mentioned categories based on:

- a) The Company's business model for managing the financial assets, and
- b) The contractual cash flows characteristics of the financial asset.

- i) Financial assets measured at amortised cost :

A financial asset is measured at amortised cost if both of the following conditions are met:

- a) A financial asset is measured at amortised cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the Contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- b) Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

- ii) Financial assets at fair value through profit or loss (FVTPL):

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

- iii) Financial assets at fair value through other comprehensive income (FCTOCI):

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by collecting both contractual cash flows that gives rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

A financial asset is measured at fair value through profit or loss unless it is measured at amortised cost or fair value through other comprehensive income. In addition, The Company may elect to designate a financial asset, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch')

Trade receivables, Advances, Security Deposits, Cash and Cash Equivalents etc. are classified for measurement at amortised cost.

c. Derecognition

The Company derecognizes a financial asset when contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the assets's carrying amount and the sum of the consideration received and receivable is recognized in the Statement of Profit and Loss.

d. Impairment

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables,
- ii. Financial assets measured at amortized cost (other than trade receivables and lease receivables),
- iii. Financial assets measured at fair value through other comprehensive income (FVTOCI).

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance. As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables.

In case of other assets (listed as ii and iii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

a. Initial recognition and measurement

All financial liabilities are recognised initially at fair value and subsequently carried at amortised cost using the effective interest method.

The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

b. Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

- i) Financial liabilities measured at amortised cost.
- ii) Financial liabilities at fair value through profit or loss.

- i) Financial liabilities measured at amortised cost :

All financial liabilities are measured at amortised cost. Any discount or premium on redemption/ settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

- ii) Financial liabilities at fair value through profit or loss (FVTPL):

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

c. Derecognition

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged or cancelled or expiry. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The Company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

(a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

(b) Level 2 inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability.

(c) Level 3 inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants.

xii) Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

xiii) Foreign currency Transactions

The functional currency of Dangee Dums Limited is Indian rupee.

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss

xiv) Employee benefits

Short term employee benefits

Short Term benefits are recognised as an expense at the undiscounted amounts in the Statement of Profit and Loss of the year in which the related service is rendered.

Post employment benefits

a. Defined contribution plans

The Employee and Company make monthly fixed Contribution to Government of India Employee's Provident Fund equal to a specified percentage of the covered employees' salary, Provision for the same is made in the year in which service are render by employee.

b. Defined benefit plans

The Liability for Gratuity to employees, which is a defined benefit plan, as at Balance Sheet date determined on the basis of actuarial Valuation based on Projected Unit Credit method.

The present value of the defined benefit obligations is determined by discounting the estimated future cash flows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in balance sheet. Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognized immediately in profit or loss as past service cost

xv) Income Taxes:

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax

Current tax is determined on income for the year chargeable to tax in accordance on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Current tax items are recognised in correlation to the underlying

transaction either in OCI or directly in equity. The Company has adopted Appendix C of Ind AS-12 and has provided for the tax liability based on the significant judgment that the taxation authority will not accept the tax treatment. However adoption of the same does not have any impact on the Balance Sheet, Statement of Change in Equity and Statement of Profit & Loss Account.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, unabsorbed losses and tax credits to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, unabsorbed losses and tax credits will be utilised. The carrying amount of deferred tax assets is reviewed at the end of financial year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is expected to be settled or the asset realised, based on tax rates and tax laws that have been substantively enacted by the balance sheet date. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

xvi) Provisions :

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

xvii) Earnings per equity share:

Basic earnings per share is calculated by dividing the profit or loss for the period attributable to the equity holders of the Company by the weighted average number of ordinary shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xviii) Dividend:

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's Board of Directors.

xix) Cenvat, Service Tax, Vat & GST:

GST credit on materials purchased for production / service availed for production / input service are taken into account at the time of purchase and GST credit on purchase of capital items wherever applicable are taken into account as and when the assets are acquired.

The GST credits so taken are utilized for payment of GST on goods sold. The unutilized GST credit is carried forward in the books.

(xx) Segment reporting

The Chief Operational Decision Maker (CODM) monitors the operating results of its business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. Operating segments are reported in a manner consistent with the internal reporting to the CODM.

Accordingly, the Board of Directors of the Company is CODM for the purpose of segment reporting. Refer note 44 for segment information presented.

(xxi) Statement of Cash flows

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(xxii) Operating cycle

The Operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle. Accordingly, all assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Ind AS 1- 'Presentation of Financial Statements' and Schedule III to the Companies Act, 2013.

4.2. Standards issued but not yet effective:

The ministry of corporate affairs vide notification no. G.S.R. 419(E) dated 18th June 2021 has notified amendment that will be effective from the beginning of the next financial year, that is, 1 April 2021, except for amendments to Ind AS 116, Leases, extending the practical expedient for recognising any lease rent concessions due to COVID-19 till 30 June 2022 as variable lease payments which may be applied for the current financial year ended on 31 March 2021. These amendments can be broadly categorised into the following:

a) Amendments related to changing reference to new conceptual framework for financial reporting from the old framework for the preparation and presentation of financial statements both issued by The Institute of Chartered Accountants of India. These amendments do not have impact on the financial position, performance or cash flows of the company.

b) Amendments to Ind AS 116, Leases, related to lease rent concessions due to COVID-19 where the practical expedient for recognising any lease rent concessions due to COVID-19 till 30 June 2022 as variable lease payments. The company is in the process of collecting the required information and therefore will apply the amendment in the next financial year.

c) Amendments related to interest rate benchmark reform.

The term 'interest rate benchmark reform' refers to the market-wide reform of an interest rate benchmark, including the replacement of an interest rate benchmark with an alternative benchmark rate such as that resulting from the recommendations set out in the Financial Stability Board's July 2014 report 'Reforming Major Interest Rate Benchmarks'. The company is evaluating the impact of such amendments. Based on current understanding, the amendments may increase the disclosures related to the reform and as such are less likely to have any material impact on the financial position and performance of the company.

F. Characteristics of defined benefit plans and risks associated with them:

Valuation of defined benefit plan are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit plans which are as follows:

a. Actuarial Risk: It is a risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates : If actual mortality rate are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates : If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

b. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

c. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.

d. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

e. Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

44. Segment Reporting

The Company's operations pre-dominantly relates to manufacturing and trading of bakery and confectionery products. The Company has considered the only one reporting segment in accordance with the requirement of Ind AS 108 - Operating Segments.

The Board of Directors ("BOD") evaluates the Company's performance and allocates resources based on an analysis of various performance indicators of this single operating segment. The BOD reviews revenue and gross profit as the performance indicator for this single operating segment. Accordingly, it constitutes as a single reportable operating segment.

All the operations of the company are carried out in India, hence no separate disclosure has been given for geographical segment.

The company sells its products through its retail outlets and hence there is no single customer contributing 10% or more of the total Revenue of the company.

Notes to financial statement for the year ended March 31, 2021

45 Transition to Ind-AS

These financial statements, for the year ended March 31, 2021, are the first financials of the Company being prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2020, the Company has prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013 read together with relevant rules of the Companies (Accounts) Rules, 2020 (Indian GAAP). Therefore, comparative information is reclassified / remeasured so as to comply with Ind AS.

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2021, together with the comparative period data as at and for the year ended March 31, 2020, as described in the summary of significant accounting policies. The Company has prepared the opening balance sheet as per Ind AS as of April 1, 2019 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognized assets and liabilities.

An explanation of how the transition from previous GAAP to Ind AS has affected the Company's Balance sheet, Statement of Profit and Loss, is set out here-in-after.

However, this principle is subject to the certain mandatory exceptions and optional exemptions availed by the Company in line with principles of Ind AS 101 as detailed below:

45.1 Exemptions and exceptions availed

I Optional exemptions

1 Property, Plant and Equipment (PPE) :

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Company has elected to measure all of its property, plant and equipment at their previous GAAP carrying value.

II Mandatory Exceptions

1 Estimates

The estimates as at April 1, 2019 and as at March 31, 2020 are consistent with those made for the same dates in accordance with the Indian GAAP (after adjustments to reflect any differences in accounting policies) apart from the impairment of financial assets based on the risk exposure and application of ECL model where application of Indian GAAP did not require any estimation.

The estimates used by the Company to present these amounts in accordance with Ind AS, reflect conditions at April 1, 2019, the date of transition to Ind AS and as at March 31, 2020.

2 Classification and measurement of financial assets

Ind AS 101 provides exemptions to certain classification and measurement requirements of financial assets under Ind AS 109, where these are impracticable to implement. Classification and measurement is done on the basis of facts and circumstances existing as on the transition date. Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the transition date.

3 De-recognition of financial assets and liabilities:

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

Footnotes:

1. Adoption of IND AS 116 - Leases:

The Company has adopted IND AS 116 effective 1 April 2019 which replaced the previous standard IND AS 17 and specifies a new lease accounting model, where lessees are required to recognize a right of use assets, lease liability & Lease deposit arising from a lease on its balance sheet. The Company adopted the modified retrospective approach as per para C8(c)(ii) of IND AS 116-‘Leases’ as on the date of transition.

As a result, the Company recognized Assets & Liabilities as at 01 April 2019, which are as under:

Right of use asset of Rs. 2228.15 Lakhs

Lease deposits of Rs. 82.72 Lakhs

Notes to financial statement for the year ended March 31, 2021

Non current Lease Liabilities of Rs. 2263.92 Lakhs

Current Lease Liabilities of Rs. 295.57 Lakhs

and further the company recognized Assets & Liabilities as at 31st March, 2020, which are as under:

Right of use asset of Rs. 2688.41 Lakhs

Lease deposits of Rs. 144.96 Lakhs

Non current Lease Liabilities of Rs. 2685.30 Lakhs

Current Lease Liabilities of Rs. 377.08 Lakhs

2. Change in fair value of Non-current investments classified through FVTPL:

Under previous GAAP, the company accounted for investments in equity shares measured at cost. As per Ind AS, investments in equity shares have been revalued at fair value. The resulting fair value changes of these investments have been recognised in profit and loss.

3. Accounting of other financial assets and liabilities on amortised cost method under effective rate of interest:

Financial assets and liabilities have been valued by applying amortised cost method using Effective Interest Rate as per requirements of Ind AS 109 'Financial Instruments'. Subsequent to the transition date, such valuation difference on financial assets and liabilities has been recognized in statement of profit & loss resulting in increase in interest income by Rs. 6.70 Lakhs and increase in finance cost by Rs. 6.70 Lakhs for the year ended 31 March, 2020.

4. Change in fair value of Current investments classified through FVTPL:

Under previous GAAP, the company accounted for investments in Mutual Funds measured at cost. As per Ind AS, investments in Mutual Funds have been revalued at fair value. The resulting fair value changes of these investments have been recognised in profit and loss.

5. Remeasurement of employment benefit obligations:

Under previous GAAP, the company recognised actuarial gains and losses on defined benefit plans in profit or loss. Ind AS 19 requires the same to be recognised in Other Comprehensive Income. This has resulted in decrease in retain earning and increase in Provision as on 1st April, 2019 by Rs. 0.56 Lakhs. Further for the year ended 31st March, 2019-20 increase in employee benefit expense of Rs. 5.89 Lakhs and other comprehensive income for the year ended 31st March, 2017 by Rs. 6.48 Lakhs. The impact of tax on the same is also adjusted to "Other Comprehensive Income" only.

6. Deferred Tax Adjustments:

Tax adjustments include deferred tax impact on account of differences between previous GAAP and Ind AS which mainly includes employee benefit obligations.

7. Prior Period Expenses:

Under Previous GAAP, prior period items were reflected as part of current year expense or income in the statement of profit & loss. Under Ind AS, material prior period items are adjusted to the period to which they relate and in case they relate to the period earlier than period presented, these are adjusted against opening equity of the earliest period presented.

i. Prior period expenses (expenses which relate to earlier period):

The prior period expenses of Rs. 0.86 Lacs have been adjusted against opening equity resulting in to decrease in other equity as on the transition date i.e. 1 April, 2019 and increase in profit before tax for the year ended 31st March, 2020 by Rs. 0.62 Lakhs & for the year 31st March 2021 by Rs. 0.24 Lakhs.

In the similar way, the company has charged Rs. 0.22Lakhs to statement of profit and loss for the year ended 31 March, 2020 resulting in to decrease in profit before tax (under the previous GAAP, the same reflected as prior period expenses in the statement of profit and loss for the year ended 31st March, 2021).

The above fair value hierarchy explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost for which fair values are disclosed in the financial statements. To provide the indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments in to three levels prescribed is as under: Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs) There were no transfers between the levels during the year Valuation process The finance department of the Company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. The fair valuation of level 1 and level 2 classified assets and liabilities are readily available from the quoted prices in the open market and rates available in secondary market respectively. The carrying amount of trade receivable, trade payable, cash and bank balances, short term loans and advances, statutory/ receivable, short term borrowing, employee dues are considered to be the same as their fair value due to their short-term nature.									

Notes to financial statement for the year ended March 31, 2021

47	Financial risk management
	The Company's activities expose it to a variety of financial risks, including credit risk, market risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same.
	The Company's risk management is governed by policies and approved by the board of directors. Company's identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The company has policies for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments.
	The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.
I	Credit Risk
	Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits, and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The history of trade receivables shows a negligible provision for bad and doubtful debts. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of expected losses in respect of trade and other receivables and investments. The company has adopted simplified approach of ECL model for impairment.
i)	Trade Receivables:
	The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Company with various activities as mentioned above manages credit risk. An impairment analysis is performed at each reporting date on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on historical data. Ageing of trade receivables is as under. The Company does not hold collateral as security.
ii)	Financial assets that are neither past due nor impaired
	Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's assessment of credit risk about particular financial institution. None of the Company's cash equivalents, including term deposits (i.e., certificates of deposit) with banks, were past due or impaired as at each balance sheet date.
II	Liquid Risk
	Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages liquidity risk by maintaining adequate reserves, banking facilities including approved borrowing facilities sanctioned by the Parent Company, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Long-term borrowings generally mature between One to Ten years. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Company's policy is to manage its borrowings centrally using mixture of long-term and short-term borrowing facilities to meet anticipated funding requirements.
	The Company has access to a sufficient variety of sources of funding and debt maturing within 12 months can be rolled over with existing lender. As of March 31, 2021, March 31, 2020 and April 1, 2019; the Company had unutilized credit limits from banks of Rs. 298.61 Lakhs, Rs. 334.59 Lakhs and Rs. 262.04 Lakhs respectively. The tables below analyze the company's financial liabilities into relevant maturity groupings based on their contractual maturities.
	The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

III Market Risk							
Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt.							
a) Interest Risk							
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates related primarily to the Company's short-term borrowings with floating interest rates.							
Long-term borrowings expose the company to risk of changes in interest rates as the Company had External Commercial Borrowings (ECB) carrying a variable interest rate. In order to hedge interest rate risk arising out of variable interest rate ECBs, company has entered into Interest Rate swaps.							
For other borrowings, Company's treasury department monitors the interest rate movement and manages the interest rate risk based on its policies.							
The exposure of the company's borrowing to interest rate changes at the end of the reporting period are as follows:
