KESHAV CEMENT Premium brand catering to North Karnataka and South Maharashtra

Strategically Located Plants With Proximity to Markets & Raw Materials

With modern instrumentation technology such as Electronic weigh feeders, Centralized control systems and one point control process, the product achieved is constant and superior.

Due to availability and usage of high CaO content limestone around the manufacturing facility, the cement produced naturally carries these vital minerals resulting in optimum physical strength and chemical characteristics.

Cement Consumption & Production

Growth Drivers & Opportunities

The demand of Cement industry is expected to achieve 550 600 million tonnes per annum constantly by 2025 because of the expanding requests of different divisions i e housing, commercial construction and industrial construction

HOUSING AND REAL ESTATE

- Government initiatives like Housing for All will push demand in the sector
- Real estate market in India is expected to reach US\$ 1 trillion by 2023 Strong growth in rural housing and low cost housing to amplify demand

PUBLIC INFRASTRUCTURE

- As per Budget 2022 23 a spending of over Rs 10 lakh crore (US\$ 134.34 billion) on infrastructure is proposed
- As per the Union Budget 2022 23 the government approved an outlay of 1 99 107 crore (US\$ 26.74 billion) for the Ministry of Road Transport and Highways
- In October 2021 Prime Minister, Mr Narendra Modi, launched 'PM Gati Shakti National Master Plan (for multimodal connectivity Gati Shakti will bring synergy to create a world class, seamless multimodal transport network in India This will boost the demand for cement in the future
- As per the Invest India, National Infrastructure Pipeline (NIP) (expanded to 9,305 projects from 7,400 projects

INDUSTRIAL DEVELOPMENT

- Strong economic growth is expected to lead to growth of the industrial sector and in turn increase in demand in the long run
- Implementation of PLI scheme to boost domestic demand
- Demand for warehousing space to be strong on back of e-commerce and retail growth
- Fresh capex uptick in mature capital intensive sectors (steel and cement)

STRENGTHS

- Experienced management team
- Strategic location of the manufacturing facility – proximity to raw material and no major regional competition (only two other companies have plant set up)
- Strong brand presence in Tier III market region
- Strong Sales and marketing network
- Only cement plants in India to run on 100% green power energy

OPPORTUNITIES

- Stable to rising cement prices
- Rising demand backed by infrastructural development

WEAKNESS

- Restricted regional presence

THREAT

- Tough competition from established players

Increase market depth and increase market share within 200 kms of plant location

Secure Government Related Contacts

Invest In Digital Marketing To Improve The Brand Image.

Prospect of doubling cement capacities by 2023

Modernize the plant to achieve lower fuel consumption and improve the chemical characteristics of the cement
