International revenue constituted 12% of the total customer revenue of the segment during the quarter.

The segment EBITDA margin for the quarter ended December 31, 2019 was at 3.4%, higher as compared to 2.9% recorded in corresponding quarter of the previous year.

Heavy Engineering Segment

International orders constituted 45% of the total order inflow of the segment. The gap between Government's aspiration and policy prescriptions, coupled with fund shortage continues to impact the order flows in this sector.

The Order Book of the Segment stood at ₹ 9,666 crore as on December 31, 2019, with the international order book constituting 18% of the total.

Defence Engineering Segment recorded customer revenue of ₹ 1,063 crore registering a y-o-y growth of 6% over the corresponding quarter of the previous year led by noteworthy progress in execution of a marquee order for tracked artillery guns. The EBITDA margin of the segment at 20.5% was higher for the quarter ended December 31, 2019 as compared to corresponding quarter of the previous year at 9.0%, with operational efficiencies and better project mix.

Hydrocarbon Segment

Hydrocarbon Segment recorded Customer Revenue of ₹ 4,386 crore during the quarter ended December 31, 2019, registering a robust y-o-y growth of 17% on back of strong execution momentum in Onshore vertical. International Revenue constituted 51% of the total customer revenue of the segment for the quarter ended December 31, 2019.

The segment recorded improvement in the EBITDA Margin to 12.1% for the quarter ended December 31, 2019 as compared to the corresponding quarter of the previous year at 8.2%, on back of execution efficiencies and claim realisation.

The segment however did not secure any major order during the quarter ended December 31, 2019. The segment has a healthy order book of ₹ 46,441 crore as on December 31, 2019 with international orders comprising 49%.

International sales constituted 92% of the total customer revenue of the segment for the quarter ended December 31, 2019. An array of business verticals has contributed to the strong growth which is above the industry average (CPG, Retail & Pharma, Energy & Utilities and Manufacturing in L&T Infotech Group, Transportation, Medical devices and Plant Engineering verticals in L&T Technology Services Group and Hi-Tech & Media, Travel & Hospitality and BFSI in Mindtree Limited). Due to consolidation of Mindtree limited from second quarter of current year, the resultant figures for the current periods are not comparable with the previous periods to that extent.

The EBITDA Margin for IT&TS Segment declined to 21.0% for the quarter ended December 31, 2019 as compared to the corresponding quarter of the previous year due to consolidation of Mindtree results coupled with increase in employee costs across the segment and increased composition of onsite work.

Financial Services Segment

Financial Services Segment recorded Customer Revenue of ₹ 3,550 crore during the quarter ended December 31, 2019, registering a y-o-y growth of 9%, driven by growth in loan assets of 'focussed' business lines.

The Loan Book grew from ₹ 94,711 crore to ₹ 99,453 crore registering a growth of 5% in a volatile and tight liquidity environment. The operating margin of the financial services segment for the quarter ended December 31, 2019 was lower at 21.3% as

compared to the corresponding quarter of previous year on account of higher credit cost coupled with lower disbursements and prudent provisions. The business is focusing on retailisation of the loan book, sustaining healthy Net Interest Margins, improving the asset quality and broad-basing funding sources.

Developmental Projects Segment

During the current quarter, 1.5 km metro line from Hitec City station to Raidurg was inaugurated. Developmental Projects Segment registered Customer Revenue of ₹ 1,238 crore during the quarter ended December 31, 2019, recording 4% growth over the corresponding quarter of the previous year, consequent to progressive commissioning of metro rail in Hyderabad.

The EBITDA Margin of the Segment for the quarter ended December 31, 2019 consequently improved to 17.3% as compared with the margin during the corresponding quarter of the previous year.

“Others” Segment

“Others” segment comprises Realty, Construction & Mining Machinery, Industrial Machinery & Products and Valves businesses.

Customer Revenue of “Others” Segment during the quarter ended December 31, 2019 at ₹ 1,248 crore registered decline of 22% over corresponding quarter of the previous year since that period included revenue from a large value transaction pertaining to the sale of commercial property in Realty business. International sales constituted 12% of the total customer revenue of the segment.

During the quarter ended December 31, 2019, the segment EBITDA margin stood at 21.9%, lower as compared to margin in the corresponding quarter of the previous year, mainly on account of profits from lumpy commercial property sale in the previous year.

Electrical & Automation Segment (Discontinued Operations)

Electrical & Automation Segment which has been classified as ‘Discontinued Operations’ in the financial statements pending divestment to Schneider Electric, has clocked Customer Revenue of ₹ 1,331 crore during the quarter ended December 31, 2019. Fulfilment of various pre-conditions to the divestment of the business is progressing satisfactorily and the sale transaction is expected to conclude in the next few months.

Outlook

The Indian economy has, over the last few quarters, been exhibiting signs of lacklustre growth in the backdrop of slowdown in consumption, lower tax collections, fiscal slippages in State and Central Government, muted private investment and a prolonged bout of tight credit conditions. To counter the challenges, the Government has initiated several measures, both monetary and fiscal viz. reduction in corporate tax rates, re-capitalisation of banks and consolidation within the banking sector, initiatives to improve credit availability, faster resolution of stressed assets and announcement of packages for reviving sectors like real estate and exports. The steps taken are expected to revive sentiment and spur domestic demand in the medium to long term.

During the quarter the Government released a document on National Infrastructure pipeline, detailing a plan to invest Rs.100+ lac crore on infrastructure over a six year period. This is expected to channelise resources into areas of infrastructure that currently act as impediments to growth and require resource augmentation. The forthcoming budget is expected to retain focus on potential near-term demand boosters from the Government.

On the global front, a synchronised slowdown in manufacturing and trade, lingering uncertainty over US-China trade, heightened geo-political tensions between US and Iran, OPEC curbs on crude output aimed at holding up oil prices coupled with protectionist measures adopted by various countries continues to wield pressure on the business world. On the positive side, resolution of Brexit, signs of a possible trade deal between US and China and easing of monetary policies augur well for the global economy.

The Company is able to tide over the challenging environment with its strong Balance Sheet, diversified portfolio and robust order book which act as a bulwark against short term economic cyclicity. The Company's proven execution leadership, ability to embrace new age digital technologies, strong talent pool, financial discipline and professional process-driven strategies places it in an advantageous position to effectively capture opportunities as and when they emerge. The Company continues to focus on cost efficiencies, resource optimisation, leveraging technology for productivity gains and efficient fund management with the ultimate aim of delivering shareholder value through superior return on equity.
