ANNEXURE - E**MANAGEMENT DISCUSSION AND ANALYSIS****1. INDUSTRY STRUCTURE AND DEVELOPMENTS:****COAL INDUSTRY**

Coal sector plays a crucial role in a country like India where energy security is a critical pillar for sustained economic growth and prosperity. The energy security of the country and its prosperity are integrally linked to efficient and effective use of its most abundant, affordable and dependent fuel, coal.

Today India is the 2nd largest producer of coal in the world. The All-India Coal Production during 2024-25 stood at 1047.69 MT with a positive growth of 4.99%. In India's energy sector, coal remains the predominant source of primary commercial energy. As of 2024, India has substantial coal reserves, estimated at approximately 389.42 billion tonnes by the Geological Survey of India (GSI). Of these reserves, about 95% consists of non-coking coal, which is primarily used for power generation and industrial applications. Coking coal, which is used in steel production, constitutes a smaller portion of the total reserves.

In India's energy sector, coal continues to play a crucial role, accounting for approximately 55-60% of the primary commercial energy supply. India has a balanced energy basket and coal sector is an important contributor in fulfilling nation's energy needs. The sector is not only committed to meet coal demand in the country but also sensitive towards building a sustainable ecosystem. Coal is a critical input for power, fertilizer, iron & steel and cement sector. India's coal imports dropped by 7.9 per cent to 243.62 million tonnes (MT) in FY 2025 against 264.53 MT in the year-ago period, driven by softness in seaborne prices and likelihood of increase in power demand during summer.

Details of import of coal and products i.e. coke during the last four years including the current year is as under:

(Million tonnes)

Coal	2021-22	2022-23	2023-24	2024-25

The real estate sector in India is expected to reach US\$ 1 trillion in market size by 2030, up from US\$ 200 billion in 2021. By 2025, it will contribute 13% to the country's GDP. The emergence of nuclear families, rapid urbanisation and rising household income are likely to remain the key drivers for growth in all spheres of real estate, including residential, commercial, and retail. Rapid urbanisation in the country is pushing the growth of real estate.

The Indian real estate market is projected to experience a substantial increase, potentially reaching a value of US\$ 5-7 trillion by the year 2047, with the possibility of surpassing US\$ 10 trillion.

Construction is one of the largest sectors in terms of FDI inflow. FDI in the sector (including construction development & activities) stood at Rs. 3,94,340 crore (US\$ 45.75 billion) from April 2000- March 2025

In the first quarter of CY25 (January–March), India's residential real estate market experienced a notable slowdown, with total housing sales across the top seven cities declining by 28% year-on-year to approximately 93,280 units, down from over 1.30 lakh units in Q1 2024

The Smart Cities Mission presents a major opportunity for real estate developers by targeting the development of 100 smart cities in India, stimulating the growth of commercial centers in their vicinity. Demand for industrial and logistics space hit a record in 2023, totaling 38.8 million square feet across 8 cities.

2. OUTLOOK

COAL INDUSTRY

India is the world's second-largest coal consumer, behind China. The United States ranks third in terms of coal consumption with the share of coal in India's electricity mix continuing to rise. In 2024, India's coal consumption was estimated at approximately 800 million tonnes (or 536 million tonnes of coal equivalent (Mtce)), which is around 5-10 percent less than the United States. Thermal coal accounts for about 85 percent, or 680 million tonnes, of India's coal consumption. Metallurgical coal constitutes around 85 million tonnes, and lignite makes up approximately 50 million tonnes of the total consumption.

India's coal import rose 5.3% to 52.29 million tonnes in the first two months of the ongoing fiscal as against the year-ago period. The country's coal import was 49.62 MT in April and May in FY24, according to data compiled by mjunction services ltd -- a B2B e-commerce platform from a joint venture between Tata Steel and SAIL.

However, coal import in May dropped marginally to 26.19 MT, from 26.57 MT a year earlier.

"Coal imports... were down 1.43% as against 26.57 MT imported in May 2023," it said. According to mjunction MD and CEO Vinaya Varma, the demand for imports is likely to remain subdued in the coming weeks due to the onset of monsoon while the production growth should stay healthy in the domestic market. Also, coking coal prices are expected to move up in the seaborne market due to supply tightness and this may impact buyers' interest in the country.

Of the total imports in May, non-coking coal imports stood at 17.53 MT, against 18.10 MT imported in May last year. Coking coal import volume was 5.03 MT, against 5.10 TMT imported in May 2023. Coal India accounts for over 80% of domestic coal output. After taking charge as coal and mines minister, G Kishan Reddy had said India should increase domestic production of the fossil fuel and reduce coal imports.

Reddy had said that 10 years ago there was coal shortage in the country which resulted in electricity shortage. But in the last 10 years there has been sufficient power availability, he said.

Global coal consumption is expected to remain over 8 billion tonnes through 2026. The chart shows the appetite for the fuel

Domestic Coal Production Rises 23% In Five Years

The thrust is on increasing domestic production. During 2023-24, in India domestic coal production increased to 997.26 Million Tonnes (MT) registering thereby a growth of 11.65% over last financial year (2022-23). In the current financial year till July 2024, coal production was 321.41 MT registering 9.6% growth compared to the same period of last financial year. However, as per the existing import policy, coal is kept under the Open General License (OGL) and consumers are free to import coal from the source of their choice as per their contractual agreement on payment

of applicable duty. Government has initiated several measures to ramp up domestic coal production and to substitute coal imports.

Government has decided in 2022 that the coal to meet the full PPA requirement of all the existing linkage holders of Power Sector shall be made available by the coal companies. The decision of the Government of meeting the full PPA requirement of the linkage holders of the Power Sector shall reduce the dependence on the imports.

- Government has approved creation of a new sub-sector under the NRS linkage auctions with the nomenclature of 'Steel using Coking coal through Washery Developer and Operator (WDO) route'. Creation of the new sub-sector with the assurance for long-term coal linkage to the Steel Sector from the identified mines for the entire term of the contract period shall increase the availability of washed coking coal in the country and enhanced domestic coking coal consumption by the Steel Industry in the country, thereby reducing the coking coal imports.

An Inter - Ministerial Committee (IMC) has been constituted in the Ministry of Coal on 29.05.2020 for the purpose of coal import substitution. The Representatives from Ministry of Power, Ministry of Railways, Ministry of Shipping, Ministry of Commerce, Ministry of Steel, Ministry of Mines, Ministry of Micro, Small & Medium Enterprises (MSME), Department for Promotion of Industry & Internal Trade (DPIIT), Central Electricity Authority (CEA), Coal Companies and Ports are members of this IMC. Eleven meetings of the IMC have been held so far. On the directions of the IMC, an Import Data System has been developed by Ministry of Coal to enable the Ministry to track the imports of coal. Efforts are taken to ensure more domestic supplies of coal.

The following steps have been taken by the Government to boost the production of coal:

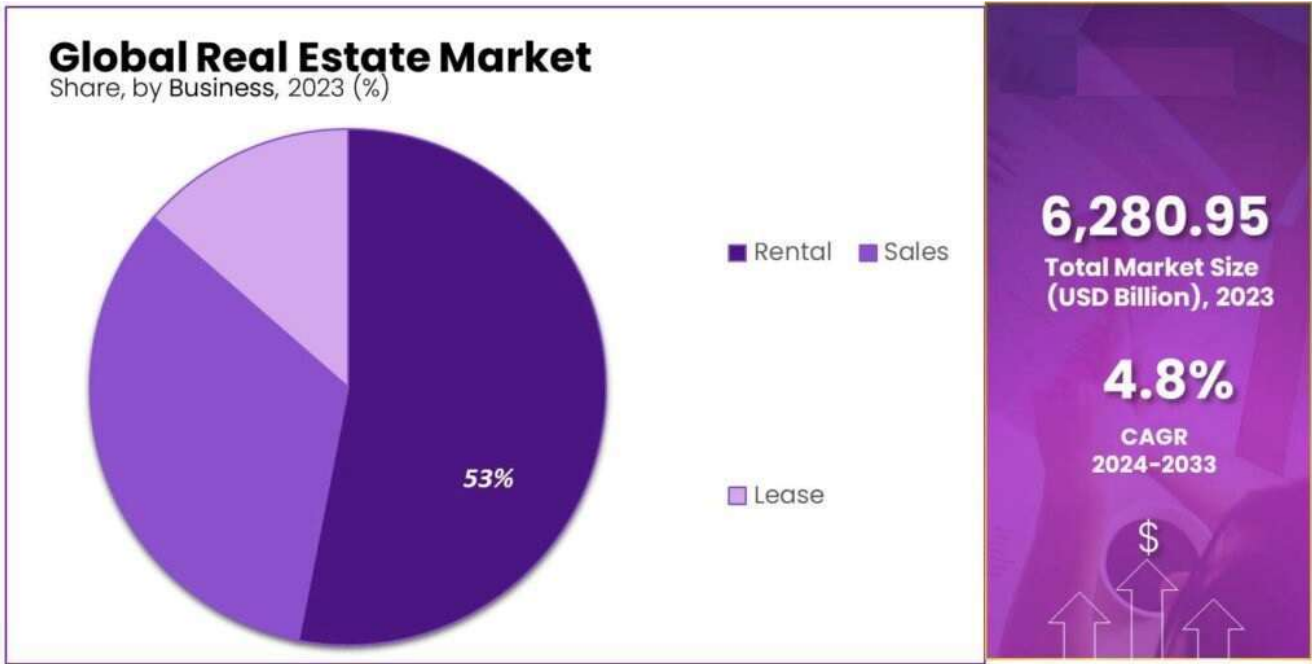

- i. Regular reviews by Ministry of Coal to expedite the development of coal blocks.
- ii. Enactment of Mines and Minerals (Development and Regulation) Amendment Act, 2021 [MMDR Act] for enabling captive mines owners (other than atomic minerals) to sell up to 50% of their annual mineral (including coal) production in the open market after meeting the requirement of the end use plant linked with the mine in such manner as may be prescribed by the Central Government on payment of such additional amount.
- iii. Single Window Clearance portal for the coal sector to speed up the operationalization of coal mines.
- iv. Project Monitoring Unit for hand-holding of coal block allottees for obtaining various approvals / clearances for early operationalization of coal mines.
- v. Auction of commercial mining on revenue sharing basis launched in 2020. Under commercial mining scheme, rebate of 50 % on final offer has been allowed for the quantity of coal produced earlier than scheduled date of production. Also, incentives on coal gasification or liquefaction (rebate of 50 % on final offer) have been granted.

Terms and conditions of commercial coal mining are very liberal with no restriction on utilization of coal, allowing new companies to participate in the bidding process, reduced upfront amount, adjustment of upfront amount against monthly payment, liberal efficiency parameters to encourage flexibility to operationalize the coal mines, transparent bidding process, 100% Foreign Direct Investment (FDI) through automatic route and revenue sharing model based on the National Coal Index

REAL ESTATE INDUSTRY

In India, the real estate industry is one of the highest employment generators after the agriculture sector. This can be attributed to the escalating demand for residential properties due to rapid urbanization and inflating disposable incomes of individuals. Moreover, the increasing need for contemporary office spaces and the emerging trend of urban and semi-urban lodging are acting as other significant growth-inducing factors. Furthermore, the expanding e-commerce sector in the country is catalyzing the demand for warehousing facilities, which is providing a positive thrust to the market. Besides this, with the growing use of telecommunication services and the implementation of 5G and data localization norms, there is a rise in the need for data storage facilities. This, in turn, is positively influencing the demand for resilient data center infrastructure and consequently bolstering the market growth. Apart from this, various initiatives undertaken by the Government of India, such as investments in smart city projects and tax exemption for interest on housing loans, are anticipated to create lucrative business opportunities for industry investors in the country.

India's real estate sector is expected to expand to US\$ 5.8 trillion by 2047, contributing 15.5% to the GDP from an existing share of 7.3%.

The Securities and Exchange Board of India (SEBI) has also given its approval recently for the Real Estate Investment Trust (REIT) platform, which will allow all kinds of investors to invest in the Indian real estate market. It would create an opportunity worth Rs. 1.25 trillion (USD 19.65 billion) in the Indian market in the coming years.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. According to the reports, by 2025, Indian real estate is expected to increase by 15-18 million per square foot for data centres. Metro cities, including Bengaluru, Ahmedabad, Pune, Chennai, Goa, Delhi, and Dehradun, are expected to witness the most favoured property investment destination for NRIs.

Annexure - B to the Auditors' Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **HEMANG RESOURCES LIMITED** ("the Company") as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- o. An Execution Petition No. 240/2011 filed by Vitol against Asian Natural Resources India Ltd. (ANRIL) is pending before the Bombay High Court. During pendency of the said execution petition 54300 MT of coal was imported by Sharp Corp in the vessel named MV Vishva Ekta which was discharged at Tuticorin Port. Hemang Resources Ltd. (HRL) entered into two HSS agreement with Sharp Corp for purchase of 34300 MT coal. At the instance of Vitol, Bombay High Court vide Judges order no. 215/2014 issued precept to Tuticorin Court for attachment of entire quantity of 54300 MT coal. Tuticorin Court vide order dated **22.12.2014** passed in EA No. 159/2014 attached the coal. Later on the Tuticorin court vide order dated **10.12.2015** released 20000 MT coal owned by Sharp Corp and the remaining quantity of 34300 MT coal remained attached.

On attachment of coal of HRL, HRL approached Bombay High Court for releasing the coal on the ground that, they are not party to the Execution Petition hence the coal owned by them cannot be attached. However the court dismissed their application against which they went in appeal. The Bombay High Court vide order dated **06.09.2016** passed in Appeal No. 794/2015 held that, " on account of various factors such as common directorships, interlocking shareholding HRL is not only part of ANRIL/BIL group, but are alter-egos" hence the attachment of coal was upheld.

That out of 34300 MT 17300 MT coal was auctioned to Global Coal Ventures Pvt. Ltd. in compliance to the order dated **16.11.2016** passed by Tuticorin Court and the balance coal of 17000 MT was also auctioned by the Court Receiver appointed by the Bombay High Court to Global Coal Ventures Pvt. Ltd. for a sum of Rs. 3,14,50,000/- which was deposited with the Court Receiver.

HRL had filed an application under Order 21 Rule 58 of Civil Procedure Code before Tuticorin Court claiming his title over the 34300 MT and also filed an application for transferring the said amount Rs. 3,14,50,000/- to Tuticorin Court. But both the said applications were returned back to HRL holding that the applications are not maintainable. Against this order the management is in the process of filing petition before the Madurai High Court. The Management is hopeful of favorable orders from the higher courts and hence no provision has been made.

Further there was an order received from High Court of Judicature at Bombay Ordinary and Original Civil Jurisdiction Chamber Summons No. 1364 of 2018 in Execution Application No.240 of 2011 dated **10.01.2019**, Global Coal Ventures Pvt Ltd has taken out chamber summons seeking refund of Rs.78,63,758/- as Global Coal

Ventures Pvt Ltd had paid for 17000 Mt but got delivery of only 12,749.32 Mt and therefore Global Coal Ventures has paid for 4250.680 MT coal which the coal was not received.

Global Coal Ventures states that they have paid excess of Rs.78,63,758/- to the court receiver and therefore the said amount to be refunded.

The court was satisfied that the actual available quantity was 12749.32 Mt only and certainly Global Coal Ventures Pvt Ltd has paid excess a sum of Rs.78,63,758/- and therefore they are entitled to be refunded. Court has refunded the excess sum to Global Coal Ventures Private Limited.

Further, the order dated 30.01.2025 has been passed in favour of the applicant i.e Vitol S.A and the court has ordered to remit the accrued amount of Rs.3,76,41,754/- to the applicant's account.
