Annual Report
2024-25

Driven by **Strategy**, Designed for **Scale**

Prakash Pipes Limited has embodied the spirit of a pioneer, strategically forging new pathways to growth and global reach. This strategic journey aligns route mapping with real-world scalability and resilience. Accordingly, the Company has steered targeted capex into PVC pipes & fittings, CPVC pipes & fittings, water tanks, and HDPE drums, aligning product strategy with evolving customer requirements and market demands.

To optimise operational efficiency, Prakash Pipes has strengthened its distribution networks and supply chains, ensuring seamless expansion. Business expansion is not merely about increasing numbers; it is a calculated journey towards solidifying the Company's market leadership. For which the Company has charted a bold expansion path – for instance, installing advanced rotogravure tech to boost flexible packaging capacity at the Kashipur plant – to serve global markets. Having mapped new export routes, the Company is aiming to convert domestic know-how into international demand amid global packaging growth.

In this transitional phase, the Company's vision is sharper, ambitions higher, and plans more resolute. Every strategic step is measured not

only for immediate acceleration but also for sustainable, scalable impact. Prakash Pipes Limited commitment to innovation, therefore, fuels an operating model that welcomes complexity, adapts to change, and scales seamlessly to match opportunity, ensuring it remains at the forefront of value creation for all stakeholders.

Furthermore, the Company's response to dynamic market demands is evident in the investments directed toward capacity building, technology, and skill transformation. With every new line commissioned and every efficiency unlocked, the Company pursues greater operational leverage, translating enterprise agility into tangible growth.

All in all, Prakash Pipes Limited is not just scaling up – it is engineering resilience, targeting growth corridors, and creating a foundation that enables it to redefine industry benchmarks.

The journey ahead is ambitious. With the Company's strategic focus and scalable model, Prakash Pipes Limited is well-positioned to convert challenges into milestones and aspirations into achievements.

COMPANY OVERVIEW

About Prakash Pipes Limited

Prakash Pipes Limited is a leading manufacturer of high-quality PVC pipes, fittings, and flexible packaging solutions in India. Founded in 1981 by Shri Ved Prakash Agarwal, the Company has become a trusted brand, recognised for its commitment to quality, innovation, and operational excellence. Prakash Pipes Limited manufactures a diverse range of products, including Agri Pipes, Column Pipes, Plumbing Pipes, Casing Pipes, SWR Pipes, Garden Pipes, and related fittings, catering to applications in irrigation, drainage, housing, and sanitation.

With a strong focus on innovation, Prakash Pipes Limited continuously advances irrigation, sewerage, and plumbing technologies to address the nation’s growing water needs. Its products are distributed through a robust network of over 1200 dealer, distributor and retail counters, especially dominating the North Indian market. Every product is subjected to stringent quality control, ensuring compliance with both Indian and international standards.

The Company has also expanded into flexible packaging, operating a state-of-the-art facility in Kashipur, Uttarakhand, equipped to ISO 22000:2005, ISO 9001:2015, and BRCGS and Sedex standards. This unit produces high-performance barrier films, laminates, and pouches for packaging consumer goods such as snacks, soaps, shampoos, food, beverages, oils, personal care, and pharmaceutical products.

Message from the Managing Director

DEAR STAKEHOLDERS,

As FY25 winds up with its share of ups and downs, the Company is proudly looking at a resilient and sustained journey ahead. We have consistently navigated challenges with resilience, strengthening our position as a trusted organisation with a progressive outlook. India's promising economic prospects, underpinned by robust private consumption, macroeconomic stability, and sustained infrastructure investments, are expected to drive strong growth in the years ahead.

While demand is currently subdued owing to heightened global volatility arising from tariff wars, geopolitical conflicts, and climatic uncertainties such as early monsoons and extensive rainfall, we remain confident in the future prospects for our sector in FY26 and our ability to adapt swiftly to evolving market dynamics. Supported by government initiatives that continue to foster business confidence, the Company is strategically placed to capitalise on emerging opportunities in the PVC pipes and fittings sector.

Business Growth and Resilience

During FY25, our numbers reflected steady growth, despite market volatility, with an operational revenue of ₹780.5 Cr and a robust EBITDA of ₹130.2 Cr. In particular, PVC pipes & fittings displayed strong resilience despite weak demand, registering ~3% YoY growth at 42,632 MTPA from 41,584 MTPA in FY24, attributed to supply chain strength and brand equity. Moreover, the PVC pipes & fittings division is expected to flourish in FY26, driven by conducive demand due to the thriving infrastructure sector, enhanced irrigation and water access, higher government capital expenditure, and rising urbanisation.

On the other hand, the packaging division delivered a robust performance, with revenues rising from ₹259 Cr to ₹367 Cr. This growth was underpinned by economies

of scale in procurement and production, enhanced market pricing power driven by our strong brand and reputation for quality, and targeted outreach to manufacturers of all scales, which helped secure long-term supply agreements. Collectively, these strategic initiatives have strengthened our competitiveness and positioned us for sustainable growth in both domestic and international markets.

Our People, Our Strength

Our people remain the true drivers of our success. Their dedication, adaptability, and teamwork have been vital in overcoming challenges, enhancing efficiency, ensuring quality, and strengthening customer relationships. By embracing new technologies, upholding safety and sustainability goals, and taking ownership of outcomes, our teams have executed initiatives with precision and speed, reinforcing Prakash Pipes' reputation in domestic and international markets.

Navigating Supply Chain Challenges

FY25 brought a horde of challenges ranging from volatile commodity markets, supply chain delays, and increased raw material prices and competition in the PVC pipes and fittings and packaging segments. We took on this challenge head-on, through a multi-pronged approach. Our goodwill – built over the years – strengthened supplier partnerships to ensure stable raw material flow, thereby optimising procurement costs. Meanwhile, process automation, enhanced production planning, and energy-saving initiatives facilitated operational efficiency.

For packaging, the Company cemented its market presence by introducing value-added products customised to client requirements and focusing on customer service excellence. By staying agile, making quick decisions, and focusing on quality, we turned challenges into opportunities.

Evolving Strategy and Expanding Presence

Over the last year, Prakash Pipes' competitive edge was defined by integrated operational strength and a renewed focus on sustainability. The Company's strategy is now a gleaned combination of cost leadership and environmentally responsible manufacturing processes, aligning our growth with global market needs and environmental goals.

While we continue to sharpen our domestic leadership through product innovation and distributor expansion, we see significant opportunities to increase exports to markets increasingly inclined to eco-friendly products and sustainable practices. This is also an area where Prakash Pipes' ongoing improvements and product innovations position us for a strong market position in the coming years.

Sustainability is Our Endeavor

During FY25, Prakash Pipes advanced its sustainability agenda with impactful initiatives at the core of its operations in the pipes & fittings and packaging divisions. These include 100% recycling of PVC pipes; an advanced effluent treatment plant with zero liquid discharge; increasing recycled content in products (from 25% to 35%); reusing over 120 tonnes of production scrap for closed-loop waste recovery; adopting energy-efficient presses and lighting; and installing water recycling systems for cleaning processes, saving around 2.8 million liters annually. Together, these measures lowered our environmental footprint, delivered cost efficiencies, and reinforced our position as a responsible, future-ready supplier in domestic and global markets.

ESG is Our Enabler

Prakash Pipes Limited views ESG as integral to sustainable growth, inseparable from long-term business success. Our pipes & fittings division is advancing its ESG journey with a clear focus on zero pollution and sustainable operations, alongside the deployment of advanced

systems like the Venturi Wet Scrubber. Similarly, product innovations in pipes & fittings extend to enhancing reliability, performance, and long-term environmental stewardship. Similarly, we aim to increase the use of eco-friendly materials in our packaging to 35% by FY27, while reducing resource use and driving process innovation.

On the social front, we continue to invest in workforce safety, skills training and employee well-being. Meanwhile, community engagement has our primary focus, with initiatives in place for education, food security, and the environment. At the same time, Prakash Pipes Limited upholds the highest standards of governance built on ethics, transparency, and accountability. These priorities ensure our progress creates lasting value for stakeholders, society, and the environment alike.

Future Vision

Prakash Pipes envisions being the 'Supplier of Choice' and delivering high-level customisation at low costs. While our distribution network grows, our unique in-house capabilities will ensure quality and precision in every order.

To Our Shareholders...

...customers, partners, employees and the community, thank you for your trust and support. Your confidence fuels our ambition to grow responsibly, innovate consistently, and deliver lasting value.

We remain committed to building a sustainable and competitive business, strengthening relationships, and contributing positively to society and the environment. Together, we will continue shaping a future of shared success.

Warm regards,

Kanha Agarwal
Managing Director

SUSTAINABILITY IN ACTION

Environment **Initiatives**

Sustainable water management by implementing rainwater harvesting and wastewater recycling.

100% Recycling

PVC pipe rejects, side trims, and process waste are fully reprocessed, re-pelletised, and reused, ensuring complete recycling in both pipes & fittings and blown film production.

Water Conservation & Community Initiatives:

- Maintains green belts around its facilities
- Implements rainwater harvesting
- Provides deep tube wells to local communities for year-round potable water access
- Trains villagers in pump maintenance to ensure community-led sustainability

Wastewater Recycling:

- Wastewater treated and reused for horticulture and process utilities.

Zero Liquid Discharge

Hazardous water with high TDS is treated to safe levels (500–550 TDS, pH 6–9), and ultra-filtered water is evaporated, ensuring zero discharge.

Social Initiatives

Empowering Communities and People

Prakash Pipes Limited demonstrates a robust commitment to Corporate Social Responsibility (CSR), focusing on long-term, community-centric development. The Company views its role as deeply entwined with the welfare of the surrounding populace, measuring success partly by how well it fulfills social responsibilities.

Key initiatives include:

Education:

Supports village schools with repairs, classrooms, and supplies like science kits, computers, and sports gear. Distributes textbooks and uniforms to reduce dropouts.

Health:

Weekly health camps offering free check-ups and medicines; specialised camps for family planning, cancer detection, eye care, and blood donation.

Nutrition:

Funds mid-day meals for underprivileged children in Delhi through ISKCON's Food for Life, improving nutrition and school attendance.

Infrastructure and Beautification:

Renovates public spaces (bathing ghats, parks, roads, temples), constructs shelters and markets, installs deep tube wells, and train locals for maintenance.

Industry Engagement:

Showcased innovations at the 10th Gulfood Manufacturing, Dubai (5–7 Nov 2024), a leading global F&B manufacturing event.

Cultural Inclusivity:

Promotes cultural inclusivity by celebrating key festivals including Mahashivratri, Republic Day, Lohri, Makar Sankranti, Christmas, Guru Nanak Jayanti, Diwali, and Dussehra.

Organisational Culture and Learning:

Committed to continuous learning, innovation, and improvement as a knowledge-based organisation.

Community Engagement at Prakash Pipes

Prakash Pipes Limited engagement extends beyond compliance, focusing on tangible improvements in community life:

Collaborative Execution

Works closely with local bodies to identify needs and implement projects, ensuring community participation and long-term impact.

Cultural and Aesthetic Development

Beautifies community spaces and supports cultural heritage through the renovation of temples and community shelters.

Sustained Support

Provides ongoing support to marginalised groups, reflecting a commitment to continuous social development rather than one-off charity.

Employee Welfare at Prakash Pipes

Core Values:

- Equal career growth opportunities
- Care and compassion for employees
- Teamwork
- Inclusive environment, safety, and respect for every individual

Occupational Health and Safety:

Promotes a culture of care through regular training, awareness programmes, and stringent safety checks to uphold the highest standards of health and safety.

Celebration of Workforce:

Initiatives celebrating Labour Day and other milestones acknowledge employee contributions.

Human Resource Development:

Fosters personal and professional growth for every individual to imbue pride and ownership.

Governance

Prakash Pipes Limited upholds high standards of corporate governance through a well-structured and experienced Board of Directors, comprising industry veterans and independent professionals who provide strategic oversight and ensure accountability.

Prakash Pipes Limited governance framework emphasises transparency, regulatory adherence, and long-term stakeholder value creation. Simultaneously, independent directors and specialised committees enhance governance through oversight of compliance, ethics, risk management, and community engagement.

Recognised for Trust and Responsibility

Prakash Pipes Limited governance and sustainability efforts are underpinned by multiple internationally recognised certifications. These include ISO 9001:2015 for quality management, ISO 22000 series for food safety—particularly important for flexible packaging serving the food and pharmaceutical industries—and the British Retail Consortium (BRC) certification, reflecting adherence to stringent global hygiene and safety standards. Furthermore, Prakash Pipes Limited membership with Sedex signifies its commitment to ethical practices and sustainable supply chain management. Collectively, these elements exemplify Prakash Pipes Limited dedication to robust governance, operational excellence, environmental responsibility, and social accountability.

Statutory Reports and Financial Statements

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OUTLOOK

Indian Economy

India continues to stand out among major economies, with the RBI projecting real GDP growth at 6.5% for FY26, supported by strong agriculture, industry, and services sectors. The quarterly outlook remains robust: Q1 at 6.5%, Q2 at 6.7%, Q3 at 6.6%, and Q4 at 6.3%. High-frequency indicators, including industrial and services activity, GST collections above ₹2 lakh crore, digital transactions, and e-way bills, underscore economic resilience despite global headwinds. Despite the slight divergence, India remains the fastest-growing major economy in this cycle.

The growth is attributed to a robust agricultural sector, which expanded by 3.8%, and steady services sector growth, while manufacturing and industrial production showed signs of slowing, growing at 5.3% and contributing to the overall moderation in growth. On the expenditure side, private consumption remained resilient, supported by rising rural and urban demand, while government spending and investment also showed positive momentum. Exports grew by 5.9%, although this was tempered by slower global demand and trade barriers.

The Centre's debt-to-GDP ratio is estimated at 56.1% for FY26, with a target to reduce it gradually to around 50% by FY31. This fiscal discipline, combined with sustained

capital expenditure on infrastructure and social sectors, is expected to support medium-term growth and macroeconomic stability.

Inflationary pressures are projected to moderate, with the RBI targeting inflation around 4%, supported by stable food prices and effective monetary policy. The central bank's accommodative stance aims to balance growth support with inflation control, ensuring a stable monetary environment conducive to investment and consumption.

Despite global headwinds such as supply chain disruptions, geopolitical risks, and trade uncertainties, India's economy benefits from strong domestic consumption, a growing middle class, and ongoing structural reforms. The services sector, particularly IT and financial services, continues to be a significant growth driver, contributing to export resilience and employment generation. Steady remittance inflows and a manageable current account deficit further bolster external stability. While global uncertainties pose risks, the country's strong fundamentals and policy focus on inclusive and sustainable growth providing a solid foundation for continued economic expansion, making it a key engine of global growth in the coming years.

OUTLOOK

India remains the fastest-growing major economy among emerging markets and developing nations. In its latest World Economic Outlook, the International Monetary Fund (IMF) upgraded India's GDP growth forecast for FY25 by 20 basis points to 7.0%, citing improving consumption prospects, particularly in rural areas. This revision underscores the country's economic resilience and growth momentum.

Key drivers of this resilience include strong private consumption, a sustained infrastructure push, and overall macroeconomic stability. Government-led capital expenditure, high capacity utilisation, and improving business optimism are further catalysing investment activity. As a result, both urban and rural demand remain steady, while the services sector continues to demonstrate strong performance.

The outlook for the agriculture sector and rural demand is expected to strengthen, supported by the forecast of above-normal southwest monsoon rainfall. Concurrently, the government's sustained emphasis on capital expenditure,

coupled with elevated capacity utilisation, easing financial conditions, and improving business sentiment, is likely to further revive investment activity across sectors.

Private consumption, the primary driver of aggregate demand, remains robust, bolstered by a steady rise in discretionary spending. Investment momentum is also picking up, as reflected in several high-frequency indicators.

While the IMF's global outlook highlights rising uncertainties, India stands out for its stable macroeconomic fundamentals and reform-driven growth momentum. Even as the global economy slows, India remains well-positioned to lead among major emerging markets.

This resilience is supported by the Reserve Bank of India's prudent monetary policy, which balances inflation control with growth facilitation. By effectively managing interest rates and liquidity, the RBI has ensured financial sector stability, reinforcing the broader macroeconomic framework.

INDUSTRY OVERVIEW

PVC Pipes Industry Undergoing Rapid Growth

The demand for PVC pipes and fittings in India has remained strong, largely fuelled by sustained momentum in government-led initiatives such as the Jal Jeevan Mission and the Pradhan Mantri Awas Yojana, which prioritise water supply, sanitation, and housing. Notably, the government has more than doubled its budgetary allocation for these schemes in the current fiscal year, setting the stage for an even greater uptick in PVC demand.

Key Growth Drivers

Government Infrastructure Initiatives: The sector benefits significantly from continued budgetary allocations toward flagship schemes, including the Jal Jeevan Mission for rural water supply and Pradhan Mantri Krishi Sinchai Yojana for irrigation enhancement. The Jal Jeevan Mission has successfully provided tap water connections to over 15.19 crore households, representing 78.58% coverage of rural households as of October 2024.

Agricultural Modernisation: India's agricultural sector, contributing ~15% to GDP, is undergoing significant modernisation with increased adoption of efficient irrigation systems. PVC pipes are crucial for drip and sprinkler irrigation systems, which help conserve water and improve crop yields. The government's focus on improving irrigation coverage from the current 54% of net sown area presents substantial growth opportunities.

Urban Development: The residential real estate sector serves as an important demand driver, with mid to

premium residences showing strong sales momentum. Government initiatives under Pradhan Mantri Awas Yojana for affordable housing further support demand for PVC pipes in plumbing applications.

Water Infrastructure Investment: India's water infrastructure sector presents annual opportunities worth ₹1 lakh crore, driven by government initiatives and growing water stress affecting 66% of the population. The country's water and wastewater market is projected to expand at a CAGR of 11.6%, reaching \$17.9 billion by FY29.

Environmental Benefits

The manufacturing process supports waste reduction and circular economy models by incorporating a high proportion of recycled material, as PVC's thermoplastic properties allow multiple recycling cycles without significant loss of performance. Environmentally safer formulations are increasingly adopted, including lead-free stabilisers and bio-based plasticisers, which reduce health and ecological risks during production and use.

Innovations such as unplasticised PVC (uPVC) decrease harmful by-products, further enhancing environmental safety. Collectively, these attributes enable PVC pipes to contribute meaningfully to several United Nations Sustainable Development Goals (SDGs), especially those targeting clean water, sanitation, and energy efficiency through their critical role in modern infrastructure and reduced environmental footprint.

<https://www.maximizemarketresearch.com/market-report/india-pvc-pipes-market/21311/>

OUTLOOK

The outlook for the Indian PVC pipes industry remains robust, with the market projected to grow from approximately \$5.25 billion in 2024 to around \$7.43 billion by 2030, reflecting a CAGR of about 5.8% during this period. This growth is propelled by rapid urbanisation, increasing construction activities, and a strong government focus on infrastructure development, including flagship initiatives such as “Housing for All,” the “Smart Cities Mission,” and substantial investments in water supply and sanitation infrastructure.

The rural sector is also a significant contributor, as PVC pipes are increasingly adopted for irrigation and water management, supported by government schemes like the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), which received a substantial budget allocation for 2025-26 to enhance irrigation infrastructure and efficiency.

PVC pipes are favoured over traditional materials due to their durability, cost-effectiveness, corrosion resistance, and ease of installation, making them the preferred choice for water supply, sewage, drainage, and agricultural irrigation. Technological advancements are further improving product longevity and sustainability, while ongoing replacement of aging infrastructure and expansion of urban housing continue to drive demand. Despite challenges such as raw material price volatility, the sector is well-positioned for steady expansion, underpinned by India’s ongoing urban and rural infrastructure transformation and the increasing need for efficient water management solutions.

FLEXIBLE PACKAGING INDUSTRY ANALYSIS

The Indian flexible packaging market demonstrates exceptional growth potential, with the sector valued at \$20.41 billion in 2025 and projected to expand at a CAGR of 11.46% during 2025-2030. The industry benefits from multiple growth drivers, including rising demand for packaged food and beverages, expansion of e-commerce, and increasing consumer preference for convenience packaging. The shift toward sustainable packaging solutions and a growing middle-class population with higher disposable income further support market expansion.

Key Market Trends

E-commerce Growth: The Indian e-commerce market is projected to grow from \$125 billion in FY24 to \$345 billion in FY30, at a CAGR of 15%. COVID-19 accelerated the shift toward online shopping, creating sustained demand for flexible packaging solutions that offer durability, lightweight properties, and space efficiency.

Urbanisation Impact: India’s urbanisation rate is accelerating, with about 34% of the population currently living in urban areas, projected to reach 37% by 2025. This rapid urbanisation drives infrastructure development and creates demand for efficient food distribution channels, increasing the volume of packaged products.

Sustainability Focus: Environmental regulations and sustainability challenges are driving innovation in eco-friendly packaging solutions. The implementation of Extended Producer Responsibility (EPR) mandates companies to ensure responsible packaging disposal, creating opportunities for sustainable packaging alternatives.

Technological Advancements

The flexible packaging industry is experiencing significant technological innovation, with investments in bio-based materials reaching \$4.5 billion in 2024. Nearly 60% of consumers express a preference for brands using sustainable packaging, with 72% willing to pay premium prices for eco-friendly packaging solutions. The customisation trend is gaining momentum, with approximately 45% of millennials expecting personalised experiences from brands. This creates opportunities for flexible packaging manufacturers to develop tailored solutions that enhance brand image and consumer engagement.

KEY DRIVERS

Consumer Demand and Urbanisation: The shift toward urban lifestyles and the rise in disposable incomes has fuelled demand for packaged foods, beverages, and personal care products. The growing e-commerce sector has also accelerated the need for durable, lightweight, and tamper-evident packaging solutions.

Technological Advancements: Innovations in packaging materials and manufacturing processes have enabled the development of more sustainable and customisable packaging options, supporting market expansion.

Sustainability and Environmental Awareness: Increasing consumer and regulatory focus on sustainability is pushing manufacturers to develop eco-friendly, recyclable, and biodegradable packaging solutions. This trend is reinforced by government regulations and consumer willingness to pay a premium for sustainable packaging.

Food Safety and Shelf Life: The need for packaging that extends product shelf life and maintains food safety standards is a crucial driver, especially in the food and pharmaceutical sectors.

Export and Infrastructure Growth: The rapid growth of exports and government investment in infrastructure, such as under the National Infrastructure Pipeline, have enhanced supply chain efficiency and increased the volume of packaged products.

STRATEGIC GOVERNMENT INITIATIVES

Extended Producer Responsibility (EPR): The Indian government has implemented EPR guidelines that require manufacturers to ensure the responsible disposal and recycling of packaging materials. This has led to increased investment in recycling infrastructure and the development of sustainable packaging alternatives.

Plastic Waste Management Rules: Amendments to these rules mandate the use of compostable and biodegradable materials, encouraging innovation in eco-friendly packaging and reducing plastic waste.

Production Linked Incentive (PLI) Scheme: The expansion of the PLI scheme to include critical sectors such as electronics and pharmaceuticals has boosted demand for high-quality flexible packaging by incentivising domestic manufacturing and reducing import dependence.

National Packaging Initiative: Government-led initiatives aim to promote the adoption of advanced packaging technologies and support the transition to sustainable materials, aligning with global best practices.

India Plastics Pact: In collaboration with industry stakeholders, the government supports the India Plastics Pact, which provides a roadmap for transitioning to recyclable and mono-material flexible packaging, improving waste segregation, and expanding markets for recycled materials.

ENVIRONMENTAL PERFORMANCE

The flexible packaging industry is increasingly adopting mono-material structures to enhance recyclability, as these simpler material compositions facilitate more efficient sorting and processing within recycling systems. Companies are investing in bio-based polymers, recycled content,

and biodegradable additives to improve recyclability and decrease fossil fuel dependency. Alongside this, there is a growing emphasis on incorporating these sustainable materials into packaging formulations, which helps reduce reliance on virgin fossil-based resources and lowers the overall environmental footprint.

The industry is also advancing toward packages that are recyclable or compostable in mainstream waste streams, driven by regulatory and consumer pressure. The industry focuses on lightweighting and material simplification strategies, aiming to minimise the quantity of raw materials used while maintaining packaging performance. These combined efforts contribute significantly to improving the circularity of flexible packaging by making products easier to recycle, decreasing resource consumption, and aligning with evolving sustainability demands.

OUTLOOK

The outlook for the Indian flexible packaging industry remains highly positive, underpinned by sustained economic growth, rising consumer demand, and a strong policy push toward sustainability. The sector is expected to maintain double-digit growth rates, with increasing adoption of eco-friendly materials, technological innovation, and expansion into new end-use sectors. Government regulations and strategic initiatives will continue to drive the shift toward responsible packaging practices, positioning India as a leading market for flexible packaging solutions in the region. Continued investment in recycling infrastructure and the development of biodegradable materials will be crucial for balancing growth with environmental responsibility.

Provision for Taxes	2,907	1,996
Profit After Tax	8,310	8,964
Other Comprehensive Income	(26)	(21)
Total Comprehensive Income	8,284	8,943

PERFORMANCE

During the year under review, the Company has achieved Net Sales of ₹780.48 crore as against ₹669.35 crore in the previous financial year reflecting growth of 17%. The EBITDA for the year was ₹130.22 crore as against ₹123.10 crore in the previous financial year, up by 6%. After providing for interest, depreciation and tax, the profit after tax of the Company is ₹83.10 crore as against ₹89.64 crore in the previous financial year.

During the year, the PVC pipes & fittings division registered sales volume of 42,632 MT, up by ~3% over the previous financial year despite weak demand scenario on account of lower infra spending than envisaged and consequent destocking in the distribution pipeline. Going forward, the growing government CAPEX spending and improved rural consumption supported by a strong cropping season is expected to boost the demand in future. Also, as a step towards expanding the product portfolio, during the year the division has successfully commissioned HDPE Barrel capacity at its plant. The product is sold in B2B market and used for packaging, storing and transportation of industrial products.

During the year, the Flexible packaging division achieved highest ever sales volume of 15,458 MT, registering growth of ~28% over previous financial year. Looking at the growing demand for extrusion coated and laminated packaging material, the Company has successfully commissioned its 3rd extrusion coating and lamination line. Further, the division also successfully commissioned Nordmeccanica Supercombi 5000 laminator during the year to meet with the growing demand for value added solutions such as HSL coating, water based adhesive lamination, in-register cold seal adhesive and foil-to-foil based lamination. In view of the state of art machineries added in the line, the division is now focusing more on export orders which have higher margins.

FUTURE PROSPECTS

The Indian PVC pipe industry is projected to see continued growth in FY2026, with focus on infrastructure development besides increasing demand for housing, urbanization, agricultural irrigation and better water accessibility. The Union Budget for 2025-26 has also made allocation of more than ₹80 bn to the Pradhan Mantri Krishi Sinchai Yojana (PMKSY), reinforcing the government's commitment to enhancing irrigation facilities and improving water-use efficiency in India's agriculture sector. These factors are expected to result in the PVC Pipe industry growth of 10-12% in the fiscal 2026.

The flexible packaging market in India is projected to experience significant growth through fiscal 2026, driven by rapid growth of e-commerce, shifting consumer preference towards online shopping and innovation and technological advancements in the packaging solutions. The flexible packaging market in Indian is expected to reach a value of US\$ 15.6 billion by 2028, with a CAGR of 12.7%.

DIVIDEND

The Board of Directors of your Company are pleased to recommend a dividend of ₹2.40 per Equity Share of the face value of ₹10 each (i.e. @ 24%) payable to shareholders whose names appear in the Register of members as on book closure/record date.

The dividend, if approved by the members, would involve a cash outflow of ₹574 lakhs.

ENVIRONMENT

Your Company remains firmly committed to its environmental responsibilities toward society, including its customers, clients, employees, workers and the broader public. We actively promote environmental awareness among our workforce and encourage environmentally responsible behaviour at all levels of operation. By ensuring

strict compliance with all applicable environmental regulations at our manufacturing facilities, we are able to maintain safe, healthy and sustainable workplaces for our employees.

The Company is a leader in implementing initiatives for Plastic Waste Management, actively engaging in the recycling, reprocessing and reuse of plastic waste generated on the shop floor. These efforts are in line with the guidelines on Extended Producer Responsibility (EPR) under the Plastic Waste Management Rules (PWMR), 2016, issued pursuant to the Environment (Protection) Act, 1986 (Act No. 29 of 1986), through the notification dated 18th March 2016, as amended from time to time.

In addition to complying with all applicable environmental laws and regulations, Company is committed to:

- 100% recycling of PVC Pipes Rejects/Process Waste in PVC Pipes and Fittings Division
- 100% recycling of Polyethylene film Rejects/Wastage
- Re-processing of Multilayer Plastic Rejects/Wastage for use in other applications.
- Maintaining Zero Liquid Discharge through Effluent Treatment Plant (ETP) for treatment of waste water and re-use.
- Maintaining for zero air pollution through installation of biomass based thermic fluid heater with bag filters and other pollution control systems.
- Adopt the latest environment improvement and management technologies i.e. high efficient emission & effluent control devices for environment conservation.
- Optimum use of the resources by increasing efficiency and implementing the energy conservation and water conservation practices

INDEPENDENT AUDITOR'S REPORT

To,
THE MEMBERS OF PRAKASH PIPES LIMITED

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying financial statements of Prakash Pipes Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year on that date and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit and total other comprehensive income, changes in equity and its cash flows for the year ended on that date.

BASIS OPINION

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined there are no key audit matters to communicate in our report.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including its Annexures, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based

on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with the governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"). Issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we given in the "Annexure-A" a statement on the matters specified in paragraph 3 and 4 of the order, to the extent applicable.

As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.
- e) On the basis of written representations received from the directors as on March 31, 2025 taken on the record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over the financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure-B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid during the current year by the company to directors is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The company does not have pending litigation hence there is no impact on its financial position in its financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, there are on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring the amount required to be transferred, to the Investor Education and Protection Fund by the Company during the year.
 - iv. (a). The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b). The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- (c). Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. As stated in the note 42 (b) of the financial statement, the board have proposed the final dividend of ₹2.40 per share of ₹10.00 each for the year which is subject to approval at the annual meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been persevered by the Company as per the statutory requirement for record retention.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in 'Report on other Legal and Regulatory Requirement' section of our report to the Members of PRAKASH PIPES LIMITED of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Prakash Pipes Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was

established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion and according to the information and explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES ON FINANCIAL STATEMENTS

1. COMPANY OVERVIEW

Prakash Pipes Limited (the "Company") is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India and its equity shares are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) in India. It has been engaged primarily in the business of manufacturing of PVC pipes & fittings and Flexible packaging. The Company has its manufacturing facilities in India and sells its products in domestic as well as international market.

The financial statements for the year ended 31st March, 2025 were approved for issue in accordance with a resolution of the Board of Directors of the Company dated 30th May 2025.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended, and presentation requirements of Schedule III to the Act under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in INR, which is also the Company's functional currency and all values are rounded to the nearest lakhs (₹00,000), except when otherwise indicated.

All assets and liabilities, other than deferred tax assets and liabilities, have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III (Division II) to the Act. Deferred tax assets and liabilities are classified as non-current assets and liabilities. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for current and non-current classification of assets and liabilities.

2.2 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that

affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at the date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgements In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Discount rate used to determine the carrying amount of the Company's defined benefit obligation: In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

Contingences and commitments: In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, company treats them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, company does not expect them to have a materially adverse impact on the financial position or profitability.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Income taxes: The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

Useful lives of property, plant and equipment: As described in note 2.7, the Company reviews

NOTES ON FINANCIAL STATEMENTS

the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

Allowances for doubtful debts: The Company makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates.

2.3 Operating Cycle and Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification in accordance with Part-I of Division- II of Schedule III of the Companies Act, 2013.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its normal operating cycle.

An asset is treated as current when it (a) Expected to be realised or intended to be sold or consumed in normal operating cycle; (b) Held primarily for the purpose of trading; or (c) Expected to be realised within twelve months after the reporting period, or (d) The asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when (a) It is expected to be settled in normal operating cycle; or (b) It is held primarily for the purpose of trading; or (c) It is due to be settled within twelve months after the reporting period, or (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, results in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities as non-current.

2.4 Revenue recognition

Revenue

The Company manufactures and sells a range of PVC pipes & fittings and packaging products. The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided below.

Sale of products

Revenue from sale of products is recognised when control of the products has transferred, being when the products are delivered to the customer. Delivery occurs when the products have been delivered to the

specific location as the case may be, the risks of loss has been transferred, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied. Sale of products include related ancillary services, if any.

Revenue from these sales is recognised based on the price specified in the contract, net of the estimated trade discounts. Accumulated experience is used to estimate and provide for the discounts, using the most likely method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

No element of financing is deemed present as the sales are generally made with a credit term of 30-90 days, which is consistent with market practice. Any obligation to provide a refund is recognised as a provision. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due. The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends

Dividend income from investments is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.5 Segment Reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the Chief Financial Officer, in deciding how to allocate resources and assessing performance. Thus, the Company's business falls under two operational segments i.e. PVC pipes & fittings and Flexible Packaging.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on a reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

NOTES ON FINANCIAL STATEMENTS

2.6 Government grants

Grants from the government are recognized where there is a reasonable assurance that the grant will be received and the company will comply with all applicable conditions.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight line basis over the expected life of the related assets and presented within other income.

2.7 Property, plant and equipment

Property, plant and equipment (PPE) are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and useful lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the straight-line method ("SLM") in the manner prescribed in Schedule II of the Act. Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support,

etc.) that the useful lives of the assets as considered by the company reflect the periods over which these assets are expected to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

2.8 Capital work-in-progress

Capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

2.9 Impairment of PPE :

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the Statement of Profit and Loss.

2.10 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax: Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized

NOTES ON FINANCIAL STATEMENTS

amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax: Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of a deferred tax asset is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

2.11 Operating Leases Including Investment Properties

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

a) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to note 2.9 for accounting policies on impairment of non financial assets.

b) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments primarily comprise of fixed payments.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

c) Short-term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases of office spaces and certain equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

As a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

2.12 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and

NOTES ON FINANCIAL STATEMENTS

which are subject to an insignificant risk of changes in value.

2.13 Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

2.14 Inventories

Inventories are valued at lower of cost on FIFO basis and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, GST. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

2.15 Non-derivative financial instruments

Classification

The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets classified as 'measured at fair value', gains and losses will either be recorded in profit or loss or

other comprehensive income, as elected. For assets classified as 'measured at amortized cost', this will depend on the business model and contractual terms of the cash flows.

Initial Measurement and Recognition

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a. Financial assets – Subsequent measurement

Financial assets at amortised cost: Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI): Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through profit or loss (FVTPL): Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Investments are measured at fair value changes recognised in the Statement of Profit and loss. However, income on such investments are also recognised in the Statement of Profit & loss when the company's right to receive payment is established.

NOTES ON FINANCIAL STATEMENTS

b. Financial liabilities – Subsequent measurement

Financial liabilities are measured at amortised cost using the effective interest method. The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings: After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost on accrual basis.

Composite financial instrument: The fair value of the liability portion of an optionally convertible bond is determined using a market interest rate for an equivalent non-convertible bond. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the bonds. The remainder of the proceeds is attributable to the equity portion of the compound instrument. This is recognised and included in shareholders' equity.

Impairment of financial assets

The Company assesses on a forward-looking basis, the expected credit losses associated with its financial assets carried at amortised cost for e.g., debt securities, deposits, trade receivables and bank balances; and lease receivables. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables and all lease receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit losses (ECL) at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument over the expected life of the financial instrument.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss. The Balance Sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost, revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments based on shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

For debt instruments at fair value through OCI, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument.

However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

NOTES ON FINANCIAL STATEMENTS

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

c. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.16 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale otherwise to be charged to the statement of profit and loss. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

2.17 Employee Benefits

Employee benefits consist of contribution to employee's state insurance, provident fund, gratuity fund and compensated absences.

Post-employment benefit plans

Defined Contribution plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The

above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company operates defined benefit plan in the form of gratuity and compensated absence. The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the said obligation is determined by discounting the estimated future cash out flows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

The interest expenses are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest expense on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

The classification of the company's net obligation into current and non-current is as per the actuarial valuation report.

2.18 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

NOTES ON FINANCIAL STATEMENTS

Level 1 : The fair value of financial instrument traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period.

Level 2 : The fair value of financial instrument that are not traded in active markets is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimate. If all significant input required to fair value an instrument is observable, the instrument is included in level 2.

Level 3 : If one or more of the significant input is not based on observable data, the instrument is included in level 3.

42. FINANCIAL RISK MANAGEMENT AND POLICIES

Capital risk management

The Company manages its capital to ensure that the Company will be able to continue as going concern while maximizing the return to stakeholders through optimization of debt and equity balance. The Company is not subject to any externally imposed capital requirements.

The capital structure of the Company consists of total equity of the Company. Equity consists of equity capital and Retained Earning.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

Capital management

(a) The company's objectives when managing capital are to

- Safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits to other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital.
- The capital structure of the Company consists of net debt (borrowings as detailed in notes 16 & 19 less cash and bank balances as detailed in note 10 & 11) and total equity of the Company. Equity consists of equity capital, share premium and all other equity reserves attributable to the equity holders.

The company's strategy is to optimize gearing ratios. The gearing ratios are as follows:

NOTES ON FINANCIAL STATEMENTS

Financial risk management

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets comprise inventories, cash and bank balance, trade and other receivables.

The financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Company is not exposed to any financial risks such as market risk, credit risk and liquidity risk.

a. Market Risk

The Company's activities expose it primarily to changes in interest rates. There have been no changes to the Company's exposure to market risk or the manner in which it manages and measures the risk in recent past.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and bank deposits.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is limited.

(₹ in Lakhs)		
Interest-rate risk exposure: the exposure of the company borrowing to interest-rate changes at the end of the reporting period	As at 31 st March, 2025	As at 31 st March, 2024
Variable rate borrowings	1,969	1,448
Fixed rate borrowings	1,917	2,570

Sensitivity: Profit or loss is sensitive to higher/lower interest expense from borrowing as a result of change in interest rate.

(₹ in Lakhs)

Interest rate – increased by 50 basic points (Previous Year 50 bps)	(10)	(7)
Interest rate – decreased by 50 basic points (Previous Year 50 bps)	10	7

Credit risk

Credit risk is the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The Company has adopted a policy of only dealing with creditworthy customers.

The credit limit is granted to a customer after assessing the Credit worthiness based on the information supplied by credit rating agencies, publicly available financial information or its own past trading records and trends.

As at 31st March, 2025, the company did not consider there to be any significant concentration of credit risk, which had not been adequately provided for. The carrying amount of the financial assets recorded in the financial statements, grossed up for any allowances for losses, represent the maximum exposure to credit risk.

INSTRUCTIONS FOR REMOTE E-VOTING:

The remote E-voting facility will be available during the following period:

Commencement of E-voting	Saturday, the 27th September, 2025 from 09:00 a.m. (IST)
End of E voting	Monday, the 29th September, 2025 by 05:00 p.m. (IST)

- (i) During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date 23rd September, 2025, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/ CIR /P/2020/242 dated 9th December, 2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/ retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

- (iv) In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- (v) In terms of SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/ 2020/242 dated 9th December, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

EXPLANATORY STATEMENT

(Pursuant to Section 102 of the Companies Act, 2013)

As required by Section 102 of the Companies Act, 2013 ("Act"), the following explanatory statement sets out all material facts relating to the business mentioned under Item No. 4 to Item no. 7 of the accompanying Notice.

Item No.4

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014 the remuneration payable to the Cost Auditors has to be ratified by the members of the Company.

The Board on the recommendation of the Audit Committee has approved the remuneration of the Cost Auditors to conduct the audit of the cost records of the Company for the financial year 2025-26 as mentioned in the resolution set out at Item No.4 of the notice.

Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at this item of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year 2025-26.

The Board recommends the Resolution set out at Item No.4 for your approval.

Item No.5

Pursuant to the provisions of Section 204 of the Companies Act, 2013, read with the applicable rules framed thereunder and Regulation 24A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, every listed entity is required to obtain a Secretarial Audit Report from a practicing company secretary and annex the same with the Board's Report.

In compliance with the above statutory requirements, the Board of Directors at its meeting held on 30th May, 2025 and based on the recommendation of the Audit Committee, has proposed to the members of the Company appointment of Shri Bhoopendra Kumar Bohra, Proprietor of B K Bohra and Associates, Practicing Company Secretaries, as the Secretarial Auditor of the Company for a term of five consecutive financial years commencing from the financial year 2025-26.

Mr. Bhoopendra Kumar Bohra is a seasoned professional with substantial expertise in corporate laws, governance, and secretarial compliances. The Board is of the view that his appointment would facilitate the continued adherence to statutory requirements and best governance practices.

The terms and conditions of appointment, including the remuneration payable to the Secretarial Auditor, shall be determined by the Board of Directors of the Company, in consultation with the Secretarial Auditor, from time to time.

None of the Directors and Key Managerial Personnel of the Company or their respective relatives are, in any manner, concerned or interested, financially or otherwise, in the proposed resolution.

The Board recommends the Resolution set out at Item No.5 for your approval.

Item No.6

Shri Kanha Agarwal was reappointed as Managing Director and Chief Executive Officer w.e.f. 9th August, 2022 to 8th August, 2025. Keeping in view of his active involvement in management affairs, Nomination and Remuneration Committee and Board of Directors of the Company

has recommended for re-appointment of Shri Kanha Agarwal for further five years w.e.f. 9th August, 2025 to 8th August, 2030.

Shri Kanha Agarwal is eligible for re-appointment as Managing Director and Chief Executive Officer of the Company under the provisions of the Companies Act, 2013.

As on 31st March, 2025, Shri Kanha Agarwal holds 14739 equity shares of the Company.

Shri V.P. Agarwal, Chairman of the Company is father of Shri Kanha Agarwal, Managing Director. Shri Vikram Agarwal, Director of the Company is brother of Shri Kanha Agarwal.

None of the Directors except Shri Kanha Agarwal, Shri V.P. Agarwal and Shri Vikram Agarwal are interested in the Resolution.

The Board recommends the Resolution set out at Item No.6 for your approval.

A copy of the resolution passed by the Board of Directors relating to the terms and conditions of payment of remuneration and other relevant documents are open for inspection for the members at the Registered Office of the Company between 11.00 A.M. to 01.00 P.M. on any working day prior to the date of the meeting. The above terms and conditions as set out in the said Resolution may be treated as an abstract under Section 190 of the Companies Act, 2013.

Item No. 7

Dr. Satish Chander Gosain (DIN: 08202130) was appointed as an Independent Director of the Company for a term in accordance with the provisions of Section 149 of the Companies Act, 2013 and Regulation 17 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"). He has contributed significantly towards the governance, compliance and strategic oversight of the Company.

In terms of Regulation 17(1A) of the SEBI LODR Regulations, no listed entity shall appoint or continue the directorship of a non-executive director who has attained the age of 75 years, unless a special resolution is passed to that effect by the members and justification is provided in the explanatory statement.

Dr. Satish Chander Gosain will attain the age of 75 (seventy-five) years in the month of July, 2026, during the existing tenure as an Independent Director. Considering his vast experience, domain expertise, and continuing valuable guidance to the Board and pursuant to the recommendation of Nomination and Remuneration Committee, the Board of Directors, at its meeting held on 14th August, 2025, approved the continuation of his directorship beyond the age of 75 years, subject to the approval of the members by way of a special resolution.

The Board is of the view that Dr. Satish Chander Gosain continued association would be highly beneficial and in the best interest of the Company and recommends the resolution for approval of the members.

Dr. Satish Chander Gosain is interested in this resolution to the extent of his continuation as an Independent Director. None of the other Directors or Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board recommends the Resolution set out at Item No. 7 for your approval.
