PAT	46.95	21.87	45.20

### Leadership Comment:

**Mr. Ashwin Muthiah, Vice Chairman - TPL and Founder Chairman, A M International, Singapore said:**

TPL's continued robust performance despite the pandemic related challenges demonstrates the company's inherent ability to deliver despite external challenges. Going ahead, the company may face increased price pressure with the resumption of global trade and Indian imports. However, we are building a resilient organization that is future-ready to meet any changing market dynamics.

**Mr. Muthukrishnan Ravi, CEO, Petrochemicals Division of AM International group,** said that TPL has maintained its performance thanks to demand and price trends continuing for LAB. Ups and downs in chlor-alkali off-take are a concern, further accentuated by direct and indirect imports of these products. However, the PO unit stabilizing, and meeting supply commitments is a good sign. The company's market leadership and customer confidence would help sustain the present trend.
