## **EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013**

### **ITEM NO.3:**

Equity based compensation is considered to be an integral part of employee compensation across sectors which enables alignment of personal goals of the employees with organizational objectives. Your Company believes that equity based compensation schemes are an effective tool to reward the employees (including Directors) of the Company in the growth of the Company, to create an employee ownership in the Company, to attract new talents, to retain the key resources in the organization and for the benefit of the present and future employees of the Company.

With this objective in mind, your Company intends to implement Goldstone Technologies Limited Employee Stock Option Plan 2020 ("GTLESOP 2020") for the aforesaid employees.

The Company seeks members' approval in respect of GTLESOP 2020 and grant of Stock Options to the eligible employees of the Company as decided in this behalf from time to time in due compliance of the Regulation 6 of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 "[SEBI (SBEB) Regulations]."

### **The main features of the GTLESOP 2020/ Scheme are as under:**

#### **a) Brief description of the Scheme:**

The Company proposes to introduce the GTLESOP 2020 for the benefit of the permanent employees and Directors of the Company and such other eligible persons as may be determined as per SEBI (SBEB) Regulations. Options granted under the Scheme shall vest on satisfaction of vesting conditions which can thereafter be exercised resulting in allotment/issue of equity shares of the Company.

All questions of interpretation of the GTLESOP 2020 shall be determined by the

Compensation Committee ("Committee") and such determination shall be final and binding upon all persons having an interest in GTLESOP 2020.

#### **b) Total number of Options to be granted:**

The total number of options to be granted under GTLESOP 2020 shall not exceed 9,00,000 (Nine Lakhs) options. Each option when exercised would be converted into one Equity Share of Rs.10/- (Rupees Ten Only) each fully paid-up.

The SEBI Regulations require that in case of any corporate action(s) such as rights issues, bonus issues, merger and sale of division and others, a fair and reasonable adjustment needs to be made to the options granted. In this regard, the Committee shall adjust the number and price of the options granted in such manner that the total value of the options granted under GTLESOP 2020 remain the same after any such corporate action. Accordingly, if any additional options are issued by the Company to the option grantees for making such fair and reasonable adjustment, the ceiling of 9,00,000 (Nine Lakhs) shall be deemed to be increased to the extent of such additional options issued.

#### **c) Identification of classes of employees entitled to participate in GTLESOP 2020:**

Only the permanent employees (including a Director, whether whole-time or not) of the Company shall be eligible to participate in the Scheme. Provided however that the following persons shall not be eligible to participate in GTLESOP 2020:

- a) an employee who is a Promoter or belongs to the Promoter Group as defined in the SEBI Regulations;
- b) a Director who either by himself / herself or through his/her relatives or through anybody corporate, directly or indirectly holds more than 10% of the

issued and subscribed Equity Shares of the Company;

c) **Independent Directors.**

In case any grant of options would be contemplated to the employees of any Subsidiary Company set-up if any in future and that of the Holding Company, separate approval of the Shareholders shall be obtained as per provisions of SEBI (SBEB) Regulations, prior to such grant.

**d) Requirements of vesting and period of vesting:**

All the options granted on any date shall vest not earlier than 1 (one) year and not later than a maximum of Four (4) years from the date of grant of options as may be determined by the Committee. The Committee may extend, shorten or otherwise vary the vesting period from time to time, in accordance with the applicable laws and in the interest of the option grantee.

The vesting dates in respect of the options granted under the Scheme shall be determined by the Committee and may vary from an employee to employee or any class thereof and/or in respect of the number or percentage of options granted to an employee.

Options shall vest essentially based on continuation of employment and apart from that the Committee may prescribe achievement of any performance condition(s) for vesting.

**e) Maximum period within which the options shall be vested:**

All the options granted on any date shall vest not later than a maximum four (4) years from the date of grant of options as may be determined by the Committee.

**f) Exercise price or pricing formula:**

The Exercise Price for the grant or options shall be computed at a discount of up to

75% on (a) either the average closing prices for the company equity shares quoted on the Stock Exchanges having the maximum volume of transactions during the two weeks preceding the date of grant or (b) closing prices on the date of grant for the company equity shares quoted on the Stock Exchanges or such other price as may required to be calculated in accordance with SEBI(SBEB)Regulations as amended from time to time.

**g) Exercise period and the process of Exercise:**

The exercise period would commence from the date of vesting and will expire on completion of 3(three) years from the date of respective vesting of options.

The vested Option shall be exercisable by the employees by a written application to the Company expressing his/ her desire to exercise such Options in such manner and on such format as may be prescribed by the Committee from time to time. The Options shall lapse if not exercised within the specified exercise period.

**h) Appraisal process for determining the eligibility of employees under GTLESOP 2020:**

The appraisal process for determining the eligibility shall be decided from time to time by the Committee. The broad criteria for appraisal and selection may include parameters like tenure of association with the Company, performance during the previous years, contribution towards strategic growth, contribution towards team building and succession, cross-functional relationship, corporate governance, etc.

**i) Maximum number of Options to be issued per employee and in aggregate:**

The number of options that may be granted to any specific employee of the Company under the Scheme, in any financial year and in aggregate under the GTLESOP 2020

shall not exceed 1,00,000(One Lakh), options.

**j) Maximum quantum of benefits to be provided per employee under the GTLESOP 2020:**

The maximum quantum of benefits underlying the options issued to an eligible employee shall depend upon the market price of the shares as on the date of sale of shares.

**k) Route of Scheme implementation:**

The Scheme shall be implemented and administered directly by the Company through the Committee. In case Company wishes otherwise, it may be intimated to the members in due course as per the applicable laws.

**l) Source of acquisition of shares under the Scheme:**

The Scheme contemplates fresh/new issue of shares by the Company.

**m) Amount of loan to be provided for implementation of the scheme(s) by the Company to the trust, its tenure, utilization, Repayment terms, etc.:**

This is currently not contemplated under the present Scheme.

**n) Maximum percentage of secondary acquisition:**

This is not relevant under the present Scheme.

**o) Accounting and Disclosure Policies:**

The Company shall follow the accounting of ESOPs awarded to the employees as per the Companies (Indian Accounting Standards) Rules, 2015 as notified by Ministry of Corporate Affairs (MCA) dated February 16, 2015, and/or any relevant Accounting Standards as may be prescribed by the Institute of Chartered Accountants of India (ICAI), as amended from time to time, including the disclosure requirements prescribed therein.

**p) Method of option valuation:**

The Company shall adopt the intrinsic value method of valuation of options. Notwithstanding the above, the Company may adopt any other method as may be required under prevailing applicable laws.

**q) Declaration:**

In case the Company opts for expensing of share based employee benefits using the intrinsic value, the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the options and the impact of this difference on profits and on Earning Per Share of the Company shall also be disclosed in the Directors' Report.

Consent of the members is being sought by way of a special resolution pursuant to Section 62(1)(b) and all other applicable provisions, if any, of the Companies Act, 2013 and as per Regulation 6 of the SEBI (SBEB) Regulations.

A draft copy of the GTLESOP 2020 Scheme is available for inspection at the Company's Registered Office from 11.30 A.M. to 5.00 P.M. on all working days (excluding Saturdays, Sundays and Holidays) till the date of Annual General Meeting.

None of the Directors, Key Managerial Personnel of the Company including their relatives are interested or concerned in the resolution, except to the extent of their entitlements, if any, under the Scheme.

In light of the above, you are requested to accord your approval to this Special Resolution.

**ITEM NO.4:**

Mr.Pavan Chavali, who was appointed as a Whole Time Director of the Company with effect from 23rd May, 2019 same was subsequently approved by the members by way of Special Resolution passed by the members at the 25th Annual General Meeting held on 26th September, 2019.

Further, considering the immense contribution of Mr. Pavan Chavali even during the time of Pandemic Covid-19 and progress made by the company under his leadership and guidance and as per the recommendation of the Nomination and Remuneration Committee, the Board at its Meeting held on 25th August, 2020 approved the revision in the remuneration of Mr. Pavan Chavali for the present term of remaining period of 1(One) year with effect from 01st September, 2020 on the terms and conditions enumerated in the Resolution.

As your company

doesn't fall under the provisions of sec 135 of Companies Act, 2013, hence it is not applicable to company.

### **INSURANCE:**

All the properties of your Company including its building, plant & machinery and also the Company has Insurance coverage for Director and Officer and other liability insurance have been adequately insured.

### **AUDITORS:**

#### **Statutory Auditors:**

The members at its Annual General meeting held on 28th September, 2017, pursuant to the provisions of the Section 139 and other applicable provisions of the Companies Act, 2013, appointed M/s. P C N & Associates, [Formerly known as M/s. Chandra Babu Naidu & Co.,] (FRN: 016016S), Chartered Accountants, Hyderabad as Statutory Auditors of the Company to hold office up to the conclusion of 28th Annual General Meeting to held in the year 2022.

However, pursuant to the amendments made to Section 139 Act, by the Companies (Amendment) Act, 2017, effective from May 7, 2018, the requirement of seeking ratification of the members for appointment of Statutory Auditors has been withdrawn. In view of the same, the ratification of members for continuance of appointed M/s. P C N & Associates, Chartered Accountants, as the Statutory Auditors of the Company, is not being sought.

The Audit Committee of your Company meets periodically with Statutory Auditors and Internal Auditors to review the performance of the Internal Audit, to discuss the nature and scope of statutory auditors functions, and to discuss auditing, internal control and financial reporting issues. To ensure complete independence, the statutory auditor and the internal auditor have full access to the Members of the Audit Committee to discuss any matter of substance.

The Report of the Auditors for the year ended 31st March, 2020 forming part of this Annual Report does not contain any qualification, reservation, observation, adverse remark or disclaimer.

#### **Internal Auditors:**

M/s. CKS & ASSOCIATES, Chartered Accountants, Hyderabad, appointed as internal Auditors for conducting the internal audit of the company for the financial year 2020-21. The main thrust of internal audit is to test and review controls, appraisal of risks and business processes, besides benchmarking controls with best practices in the industry.

#### **Secretarial Auditor:**

Pursuant to provisions of Section 204 of the Companies Act, 2013 read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 the company has appointed M/s. VCSR & Associates, Practising Company Secretaries, Hyderabad to undertake the Secretarial Audit of the Company. The Secretarial Audit report for the financial year 2019-20 is annexed herewith as **"Annexure - 2"** to the Board Report.

One Observation reported in Secretarial Audit Report:

Secretarial Auditor has reported the following observation in their report:

The company has transferred the equity shares to Investor Education and Protection Fund during the year, in respect of which unclaimed dividend relating to the Financial Year 2007-08.

Management Reply to the observation:

As per the Circular No. 11/06/2017-IEPF, dated 16.10.2017 Government of India, Ministry of Corporate Affairs, states that "pursuant to second proviso to Rule 6 of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time wherein the seven years period provided under sub-section (5) of section 124 is completed for

unpaid/unclaimed dividends during 7th September, 2016 to 31st May, 2017, the due date of transfer of the shares by Companies is 31st October, 2017.”

“Whereby it is clearly indicating, 7 years period, is completed during 7th September, 2016 to 31st May, 2017, for the aforementioned purpose” and accordingly we had followed the same limited to the unclaimed dividends where such seven years is completed during the aforesaid period since the words “is completed” is in presenti and does not in its natural meaning include “was completed”.

The Company declared dividend for the financial year 2007-08, on 30th September, 2008 and the due date of transfer of unclaimed dividend to the IEPF A/c was 29th October, 2015, Therefore, as per the interpretation mentioned above, the Company did not transfer the respective Equity Shares to Demat Account of IEPF Authority. Hence, no corresponding form IEPF-4 has been filed during the above said period. However, the company has transferred the respective unclaimed dividend amount to IEPF. The respective shares were transferred during the year and filed the requisite forms with ROC.

However the company is adherent to comply all the applicable provisions from time to time.

### **Annual Secretarial Compliance Report:**

The Company has undertaken an audit for the financial year ended March 31, 2020, with all applicable compliances as per SEBI's Regulations and Circulars/Guidelines issued thereunder. ## **MANAGEMENT DISCUSSION ANALYSIS AND BUSINESS OUTLOOK**

(This review contains Management's discussion of the Company's operational results and financial condition, and should be read in conjunction with the accompanying audited financial statements and associated notes).

### **Industry Structure, Development and Outlook**

The currently low business confidence, higher than usual volatility, and the continuing spread of COVID 19 will likely result in global GDP degrowth in FY 2020-21 as compared with FY 2019-20

**IMF**  
**-6%**

contraction from the projected  
FY 2020-21 growth rate of ~3%

**McKinsey**  
**-1.8% to -5.7%**

GDP drop from previous  
projected levels for FY 2020-21

**World Bank Group**  
**~-1.9 to -2%**

drop from 2.5% for developing,  
1.8% for industrial countries

**United Nations**  
**-0.9% to -1%**

from a 2.5% growth estimate  
resulting in 3-4% YoY degrowth

Business confidence is low with deepening concerns about degrowth in FY 2020-21. Yet, overall demand outlook appears strong in the long term, largely hit in the short term due to lack of visibility.

Tech industry in India is taking urgent measures to help clients manage the temporary demand shifts. While simultaneously helping clients build Tech resilience through long term digital transformation initiatives. New digital tech deals are being explored, in the backdrop of the crisis; greater focus on workplace automation, quick scale cloud workloads, and AI driving digitalization

### **Tech Industry in India: Covid 19 Impact**

While impact varies by companies, Tech industry in India expects a muted FY 2021. FY 2021 revenues may be negatively impacted with the global slowdown in demand. However, companies

also expect strong growth in strategic technology sourcing as part of global sourcing strategy. Tech companies indicate that this crisis will lead to technology offshoring becoming a more strategic aspect of the overall tech strategy. Tech companies are witnessing rebound opportunities as clients start to revisit their digital transformation journey, mainly in areas that will help build agility, security, and reliability.

## Emerging Tech Spend Areas

## Data, Artificial Intelligence, IoT, Cybersecurity are key tech themes

Industry ensured “BAU” delivery with timely activation of BCP measures, most importantly, with quick transition to Work from Home (WFH). 94% of the companies accomplishing successfully operational WFH setup within 4 weeks.

Further, industry effectively adopted standard BCP/DR protocols, communication best practices, and consistent partner engagement measures. Resulting in a highly probable shift to continued, and sustainable, WFH strategy as the new BAU routine. WFH will become an integral part to executing Business As Usual

## Indicated Measures For A Sustainable WFH Strategy

### Robust Connectivity

Connectivity, bandwidth, redundancy, and security solutions across all locations

### WFH SOPs

WFH readiness SOP on the lines of industry-standard BCP/DR protocols

### WFH in Contracts

WFH security approval clauses in all existing and future contracts for time-bound action

### Employee Empathy

HR-led engagement models to maintain empathetic connect during WFH

### Evangelize WFH

Demystify WFH related job security or growth myths to enable a sustainable shift

### Favorable WFH Policy

Coordinate with stakeholders for policy changes

## Imperatives for Indian Tech Industry

### **Get ready for the new normal –**

- New revenue sources from digital deals
- Flexible contractual terms
- Innovative sales models

### **Stay close to the clients with –**

- Differentiated client services
- “Go-to” trusted digitalization solutions
- Becoming the global “skills hub”

### **Put skin in the game for strategic partnerships –**

- Co-invest in the future growth projects
- Co-create CoEs
- Collaborate with emerging tech ecosystems

## **Artificial Intelligence platforms:**

### **What are AI Platforms?**

- An AI Platform is a collection of open source products, cognitive technologies and proprietary capabilities that allow to build, deploy and operationalize analytical workflows and intelligent solutions.
- AI Platforms offer plug and play, reusable and customizable AI models to accelerate enterprise use case adoption

### **Why AI Platforms?**

- AI platforms bring-in cognitive capabilities to existing AI, IT and enterprise systems to deliver
  - Improved employee efficiency and productivity
  - Enhanced customer experience
  - Improved accuracy of existing systems
  - Cost optimization

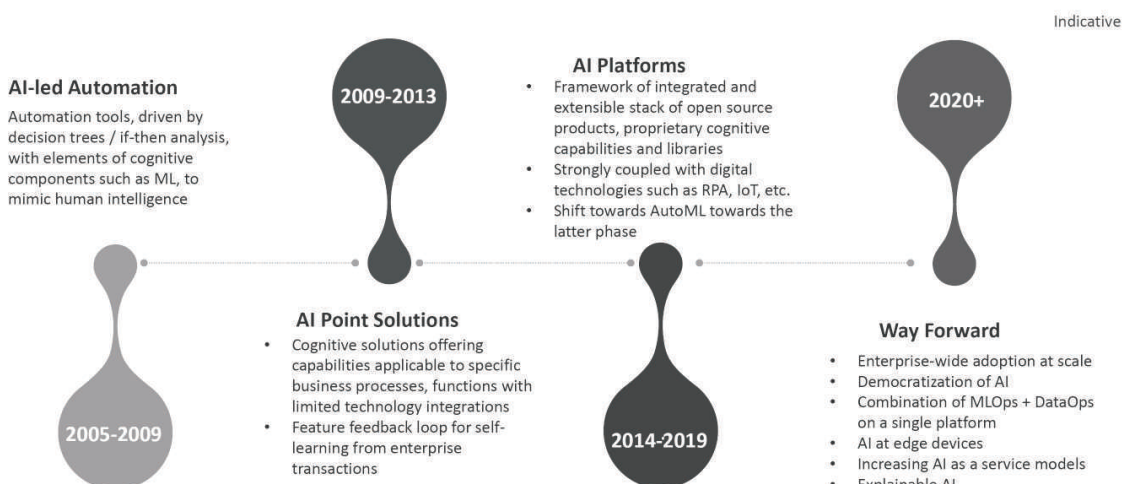

AI platforms help accelerate life cycle of enterprise AI projects by providing a structured yet flexible way to create AI-powered solutions

AI Platforms enable enterprises to scale AI services, from PoCs to production-scale systems, operationalized by incorporating focused guidelines drawn from service-oriented and event-driven architectures.

Technological advancements and strong R & D ecosystem have resulted in evolution of AI Platforms from AI-led automation solutions to full-stack pure AI solutions

## Business Intelligence (BI) and Analytics;

Over the next few years, data and analytics programs will become even more mission-critical throughout the business and across industries. This research rounds up Gartner's top 100 predictions that are relevant to CIOs,

CDOs, and data and analytics leaders to enhance their strategic plans.

With remarkable advancements, business intelligence software solutions continue to gain momentum in the marketplace.

Gartner identified the following three business intelligence trends, to help make sound buying decisions when it comes to BI software.

**Augmented Analytics driven by AI becoming fashionable and functional :** Gartner's recent reports Magic Quadrant on Analytics and BI Platforms cites the newest disruption in the market is

augmented analytics (AA) driven by artificial intelligence (AI). By adding machine learning on ever greater amounts of aggregated data, companies are mining ever selective actionable insights.

**Augmented Analytics-backed BI will yield stronger return on investment :** As BI software evolves toward all-out machine-driven data diving, augmented analytics will place a cost premium on solutions that can deliver it. Pundits predict that the analytics delivered and their corresponding insights will be worth the cost. Or said another way, the ROI will be more valuable than the added expense.

### **Machine Learning:**

Popular culture is fueling a dystopian view of what artificial intelligence can do. But while research and technology continue to improve, machine learning is rapidly becoming a valuable supplement for the analyst, providing assistance and driving efficiency.

By automating simple, yet, labor intensive tasks like basic math, analysts gain time to think strategically about the business implications of their analysis and plan for next steps. Secondly, it helps the analyst stay in the flow of their data. Without stopping to crunch numbers, analysts can ask the next questions to drill deeper.

Machine learning's potential to aid an analyst is undeniable, but it's critical to recognise that it should be embraced when there are clearly defined outcomes. While there might be concern over being replaced, machine learning will supercharge analysts and make them more precise and impactful to the business.

### **The promise of Natural Language Processing (NLP) :**

Gartner predicts that by 2020, 50 percent of analytical queries will be generated via search, natural language processing (NLP), or voice. NLP will empower people to ask more nuanced questions of data and receive relevant answers that lead to better insights and decisions.

Simultaneously, developers and engineers will make greater strides in exploring how people use NLP by examining how people ask questions – from instant gratification to exploration. The biggest analytic gains will come from tackling this ambiguity and understanding the diverse workflows that NLP can augment.

The opportunity will arise not from placing NLP in every situation, but making it available in the right workflows so it becomes second nature to those using it.

### **Location of Things will drive IoT innovation :**

As a subcategory of IoT, the “location of things,” covers devices that sense and communicate their geographic position. Capturing this data allows users to consider the added context of a device's location when assessing activity and usage patterns.

This technology can be used to track assets, people and even interact with mobile devices like smartwatches or badges to provide more personalized experiences. As it relates to data analysis, location-based figures can be viewed as an input versus an output of results.

If the data is available, analysts can incorporate this information to better understand what is happening, where it is happening, and what they should expect to happen.

### **Opportunities, Threats, Risks and Concerns:**

Goldstone Technologies continues to focus on rapid growth opportunities in the technology sector. The business and analytics domain remains our core priority area for the next few years. We are keen on transitioning to the next level of BI/AI/ML solutions by integrating our services and offering a complete package of analytics. #### **Internal Control Systems and their adequacy:**

Internal financial control systems of the Company are commensurate with its size and the nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable accounting standards and relevant statutes, safeguarding assets from unauthorized use, executing transactions with proper authorisation and ensuring compliance of corporate policies. The Company has a well-defined delegation of authority with specified limits for approval of expenditure, both capital and revenue.

The Audit Committee deliberated with the members of the management, considered the systems as laid down and met the internal auditors and statutory auditors to ascertain, their views on the internal financial control systems. The Audit Committee satisfied itself as to the adequacy and effectiveness of the internal financial control system as laid down and kept the Board of Directors informed. However, the Company recognises that no matter how the internal control framework is, it has inherent limitations and accordingly, periodic audits and reviews ensure that such systems are updated on regular intervals.

#### **Material Developments in Human Resource/Industry Relations front, including number of people employed:**

The Company's greatest asset is its rich human capital which is a robust mix of experience and young talent. **Debtors Turnover :** In GTL Standalone Financials, this Ratio has decreased from 4.53 in FY 2018-19 to 3.34 in FY 2019-20. Also in GTL Consolidated Financials, this Ratio has decreased from 4.86 in FY 2018-19 to 3.89 in current FY 2019-20. The decrease in the said ratio is due to the company executed large sized Data Analytics License Sale orders to big corporates with special extended credit period terms during the current financial year.

**Interest Coverage Ratio :** In GTL Standalone Financials - Interest coverage ratio decreased to 5.47 in current FY 2019-20 from 10.66 in previous FY 2018-19. In GTL Consolidated Financials, this ratio has decreased to 1.25 in current FY 2019-20 from 1.52 in previous FY 2018-19. The said decrease is due to discounts offered to large sized orders in Data Analytics Software License Sale to big corporates.

**Debt /Equity Ratio :** In GTL Standalone Financials – this Ratio has increased to 0.56 in current FY 2019-20 from 0.44 in the previous FY 2018-19. Also in GTL Consolidated Financials, the same Ratio has increased to 0.40 in Current FY 2019-20 from 0.32 in the previous FY 2018-19. This is due to the company availed Overdraft (Working Capital Loan) Facility from ICICI Bank Limited in current FY 2019-20 for an amount of INR 50 Million (outstanding as on 31 March 2020 is INR 38.13 Millions) and closed the Overdraft facility given by Central Bank of India for INR 20 Million. The increase in the Overdraft facility resulted in increase of Debt/Equity Ratio.

**Operating Profit Margin Ratio :** In GTL Standalone Financials – this Ratio has decreased to 4.26% in current FY 2019-20 from 7.85% in the previous FY 2018-19. Also in GTL Consolidated Financials, the same Ratio has increased to 0.71% in Current FY 2019-20 from 0.40% in the previous FY 2018-19. The said decrease is due to discounts offered to large sized orders in Data Analytics Software License Sale to big corporates in GTL Standalone. In the increase in GTL Consolidated is because of data analytics software licence sale made in the Subsidiary Company Staytop Systems, Inc., USA.

**Net Profit Margin (%) :** In GTL Standalone Financials - there is decrease in Net Profit Ratio to 3.09% in current FY 2019-20 in comparison to 4.87% in previous FY 2018-19 due to the fact that, the company offered discounts to large sized orders in Data Analytics Software License Sale to big corporates. In GTL Consolidated Financials, the Net Profit/ (Loss) Ratio in current FY 2019-20 stood at (0.30%) against (2.11%) in previous FY 2018-19 due to Sale of Data Analytics Software Licenses in US Subsidiary i.e. Staytop Systems, Inc., USA.

## **INDEPENDENT AUDITOR'S REPORT**

### **"TO THE MEMBERS OF GOLDSTONE TECHNOLOGIES LIMITED"**

#### **Report on the Audit of the Standalone Financial Statements Opinion**

We have audited the accompanying standalone financial statements of Goldstone Technologies Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there

under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in

accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have pending litigations which would impact on its financial position in its standalone financial statements.
- ii. The Company has made provision, as required under the applicable law or accounting

standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## **ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT**

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of GOLDSTONE TECHNOLOGIES LIMITED of even date)

### **Report on the Internal Financial Controls Over Financial Reporting under Clause**

#### **(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of GOLDSTONE TECHNOLOGIES LIMITED ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial

Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and

dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of GOLDSTONE TECHNOLOGIES LIMITED of even date)**

i. In respect of the Company's fixed assets:

- (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a program of verification to cover all the items of fixed assets in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of records of the company, the title deeds of immovable properties are held in the name of the company.

ii. The Company is in the business of providing software services and does not have any physical inventories. Accordingly, reporting under clause 3 (ii) of the Order is not applicable to the Company.

iii. The company has not granted any loans, secured or unsecured, to companies, firms, and Limited Liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, reporting under clause 3 (iii) of the Order is not applicable to the Company.

iv. The company has not granted any loans or provided any guarantee or security to the

parties covered under section 185 and 186 of the Companies Act, 2013. The Company has complied with the provisions of Section 185 and 186 of the Act in respect of Investments made by the Company.

v. The Company has not accepted deposits during the year and does not have any unclaimed deposits as at March 31, 2020 and therefore, the provisions of the clause 3 (v) of the Order are not applicable to the Company.

vi. The maintenance of cost records has not been specified by the Central Government under section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Thus reporting under clause 3(vi) of the order is not applicable to the Company.

vii. According to the information and explanations given to us, in respect of statutory dues:

(a) The Company is regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues applicable to it with the appropriate authorities.

(b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues in arrears as at March 31, 2020 for a period of more than six months from the date they became payable.

(c) According to the information and explanations given to us and based on the records of the company examined by us, there are no dues of Sales Tax, Service Tax, Excise Duty, Income Tax and Value Added Tax which have not been deposited as at March 31, 2020 on account of disputes.

- viii. In our opinion, and according to the information and explanations given to us, the company has not defaulted in repayment of dues to financial institution or banks or Government or dues to debenture holders as at the balance sheet date.
- ix. The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause 3 (ix) of the Order is not applicable to the Company.
- x. To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- xi. In our opinion and according to the information and explanations given to us, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- xii. The Company is not a Nidhi Company and hence reporting under clause 3 (xii) of the Order is not applicable to the Company.
- xiii. In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly paid convertible debentures and hence reporting under clause 3 (xiv) of the Order is not applicable to the Company.
- xv. In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected to its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

(All amounts in Indian Rupees Millions, except share data and where otherwise stated)

### 1. General Information

Goldstone Technologies Limited ('the Company') is a Public Limited Company incorporated in India, having its registered office at Hyderabad (Secunderabad), India. The Company is primarily engaged in the business of IT and ITES services. The Company is listed in the National Stock Exchange of India Ltd. (NSE) and BSE Ltd.(BSE).

### 2. Basis of preparation of Financial Statements

#### 2.1 Statement of Compliance

The Financial Statements have been prepared in accordance of Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015 notified under Section 133 of Companies Act 2013 (the 'Act') and other relevant provisions of the Act.

The Financial Statements were authorized for issue by the Company's Board of Directors on 26 June 2020.

Details of the Accounting Policies are included in Note 3.

#### 2.2 Basis of measurement

These Financial Statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the Statement of Financial position:

- certain Financial Assets and Liabilities are measured at Fair Value;
- Employee Defined Benefit Assets/(Liability) are recognized as the net total of the fair value of Plan Assets, plus Actuarial Losses, less Actuarial Gains and the present value of the Defined Benefit Obligation;
- Long Term Borrowings are measured at amortized cost using the effective interest rate method.

### 2.3 Functional Currency

The Financial Statements are presented in Indian Rupees Millions, which is the functional currency of the Company. Functional currency of an entity is the currency of the primary economic environment in which the entity operates.

All amounts are in Indian Rupees Millions except share data, unless otherwise stated.

### 2.4 Operating Cycle

All the Assets and Liabilities have been classified as Current or Non-current as per the Company's Normal Operating Cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

Assets: An Asset is classified as Current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Company's Normal Operating Cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the reporting date; or
- d) it is Cash or Cash equivalent unless it is restricted from being exchanged or used to settle a Liability for at least twelve months after the reporting date.

Liabilities: A Liability is classified as Current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's Normal Operating Cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or

- d) the Company does not have an unconditional right to defer settlement of the Liability for at least twelve months after the reporting date. Terms of a Liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current Assets / Liabilities include the current portion of Non-current Assets / Liabilities respectively. All other Assets/ Liabilities are classified as Non-current.

## 2.5 Critical accounting judgements and key sources of estimation uncertainty Operating Cycle

In the application of the Company's Accounting Policies, which are described in note 3, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of Assets and Liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's Accounting Policies and that have the most significant effect on the amounts recognized in the Financial Statements:

### Provision and Contingent Liability

On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For Contingent Losses that are considered probable, an estimated

loss is recorded as an accrual in Financial Statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the Financial Statements. Contingencies the likelihood of which is remote are not disclosed in the Financial Statements. Gain Contingencies are not recognized until the Contingency has been resolved and amounts are received or receivable.

### Useful lives of Depreciable Assets

Management reviews the useful lives of Depreciable Assets at each reporting. As at March 31, 2020 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

## 2.6 Measurement of Fair Values

A number of the Company's Accounting Policies and disclosures require the measurement of fair values, for both Financial and Non-financial Assets and Liabilities.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted Prices (unadjusted) in active markets for identical Assets or Liabilities.
- Level 2: inputs other than Quoted Prices included in Level 1 that are observable for the Asset or Liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the Asset or Liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an Asset or a Liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an Asset or a Liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety

in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

### **3. Significant Accounting Policies**

#### **3.1 Revenue recognition**

Revenue is recognized upon transfer of control of promised licenses or services to customers in an amount that reflects the consideration which the company expects to receive in exchange for those licenses or services.

The company's revenues are derived from sale of goods and services.

- Revenue from sale of licenses is recognized where control is transferred to the company's customers at the time of receipt of licenses by the customers.
- Service income, is recognized as and when the underlying services are performed. Upfront non-refundable payments received under these arrangements continue to be deferred and are recognized over the expected period that related services are to be performed.
- Dividend income is accounted for when the right to receive the income is established.
- Difference between the sale price and carrying value of investment is recognized as profit or loss on sale / redemption on investment on trade date of transaction.
- Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### **3.2 Leases**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### **Company as a lessee**

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Company uses

incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

### 3.3 Foreign Currencies

In preparing the Financial Statements of the Company, transactions in currencies other than the Company's functional currency (Foreign Currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period,

monetary items denominated in Foreign Currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a Foreign Currency are not retranslated. Exchange differences on monetary items are recognized in Profit or Loss in the period in which they arise.

### 3.4 Borrowing Costs

Specific Borrowing Costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of such asset till such time the asset is ready for its intended use and borrowing costs are being incurred. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing Cost includes Interest Expense, Amortization of Discounts, Ancillary Costs incurred in connection with borrowing of funds and exchange difference arising from Foreign Currency Borrowings to the extent they are regarded as an adjustment to the Interest Cost.

### 3.5 Taxation

Income Tax expense consists of Current and Deferred Tax. Income Tax expense is recognized in the Income Statement except to the extent that it relates to items recognized directly in Equity, in which case it is recognized in Equity.

#### Current tax

Current Tax is the expected tax payable on the Taxable Income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

#### Deferred tax

Deferred Tax is recognized using the Balance Sheet method, providing for temporary differences between the carrying amounts of Assets and Liabilities

for financial reporting purposes and the amounts used for taxation purposes. Deferred Tax is not recognized for the following temporary differences: the initial recognition of Assets or Liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising upon the initial recognition of goodwill. Deferred Tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred Tax Assets and Liabilities are offset if there is a legally enforceable right to offset Current Tax Liabilities and Assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax Liabilities and Assets on a net basis or their Tax Assets and Liabilities will be realized simultaneously.

A Deferred Tax Asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred Tax Assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

### 3.6 Earnings Per Share

The Company presents Basic and Diluted Earnings Per Share ("EPS") data for its ordinary Shares. The Basic Earnings Per Share is computed by dividing the Net Profit attributable to Equity Shareholders for the period by the weighted average number of Equity Shares outstanding during the year.

Diluted earnings per share is computed by dividing the Net Profit attributable to Equity Shareholders for the year relating to the dilutive potential Equity Shares, by the weighted average number of Equity Shares

considered for deriving basic Earnings Per Share and the weighted average number of Equity Shares which could have been issued on the conversion of all dilutive potential Equity Shares. Potential Equity Shares are deemed to be dilutive only if their conversion to Equity Shares would decrease the Net Profit Per Share.

### 3.7 Property, Plant and Equipment (PPE)

The initial cost of PPE comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use, including relevant borrowing costs and any expected costs of decommissioning, less accumulated depreciation and accumulated impairment losses, if any. Expenditure incurred after the PPE have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the period in which the costs are incurred.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 – Property, Plant and Equipment.

### 3.8 Expenditure during construction period

Expenditure during construction period (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under Capital Work-in-Progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other Non-current Assets".

### 3.9 Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a straight-line basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company, or the number of production or similar units expected to be obtained from the asset by the Company

The Company has componentized its PPE and has separately assessed the life of major components. In case of certain classes of PPE, the Company uses different useful lives than those prescribed in Schedule II to the Act. The useful lives have been assessed based on technical advice, taking into account the nature of the PPE and the estimated usage of the asset on the basis of management's best estimation of obtaining economic benefits from those classes of assets.

Such classes of Assets and their estimated useful lives are as under:

Particulars	Useful life
Buildings	30 years
Plant and Machinery	15 years
Electrical Equipment	5 years
Office Equipment	5 years
Computers - Laptops & Desktops	3 years
Computers - Servers	6 Years
Furniture and Fixtures	10 years
Vehicles - Four Wheelers	8 years
Vehicles - Two Wheelers	10 years
Leasehold Improvements	10 years

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production. Depreciation on deductions/disposals is provided on a

pro-rata basis up to the date of deduction/disposal.

### 3.10 Intangible Assets and Amortization

Intangible Assets are stated at cost less accumulated amortization and impairment. Intangible Assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use.

#### Amortization

The estimated useful life of an identifiable Intangible Asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Software is amortized over a period of three to five years.

### 3.11 Cash and Cash Equivalents

Cash and Cash Equivalents in the Balance Sheet comprise Cash at Bank and in Hand and Short-term Deposits with Banks that are readily convertible into Cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting Short-term Cash commitments.

### 3.12 Cash Flow Statement

Cash Flows are reported using the indirect method, whereby net Profit Before Tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The Cash Flows from Operating, Investing and Financing activities of the Company are segregated.

### 3.13 Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

Where the Company receives non-monetary grants, the asset and the grant are accounted at fair value and recognized in the Statement of Profit and Loss over the expected useful life of the Asset.

### **3.14 Impairment of non Financial Assets**

The carrying amounts of the Company's Non-financial Assets, Inventories and Deferred Tax Assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the Asset's recoverable amount is estimated.

The recoverable amount of an Asset or Cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future Cash Flows are discounted to their present value using a Pre-tax Discount Rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, Assets are grouped together into the smallest group of Assets that generates Cash Inflows from continuing use that are largely independent of the Cash Inflows of other Assets or groups of Assets (the "cash-generating unit").

An Impairment Loss is recognized in the Income Statement if the estimated recoverable amount of an asset or its Cash-generating unit is lower than its carrying amount. Impairment Losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An Impairment Loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An Impairment Loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of Depreciation or Amortization, if no Impairment Loss had been recognized. Goodwill that forms part of the carrying amount of an Investment in an Associate is

not recognized separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an associate is tested for impairment as a single Asset when there is objective evidence that the investment in an associate may be impaired.

An Impairment Loss in respect of Equity accounted investee is measured by comparing the recoverable amount of investment with its carrying amount. An Impairment Loss is recognized in the Income Statement, and reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

### **3.15 Employee Benefits**

#### **Short-term Employee Benefits**

Short-term Employee Benefits are expensed as the related service is provided. A Liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### **Defined Contribution Plans**

The Company's contributions to Defined Contribution Plans are charged to the Income Statement as and when the services are received from the employees.

#### **Defined Benefit Plans**

The liability in respect of Defined Benefit Plans and other Post-employment Benefits is calculated using the projected unit credit method consistent with the advice of qualified actuaries. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality Corporate Bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related defined benefit obligation. In countries where there is no deep market in

such bonds, the market rates on Government Bonds are used. The current service cost of the Defined Benefit Plan, recognized in the Income Statement in Employee Benefit expense, reflects the increase in the Defined Benefit Obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in income. The net interest cost is calculated by applying the discount rate to the net balance of the Defined Benefit Obligation and the fair value of Plan Assets. This cost is included in employee benefit expense in the Income Statement. Actuarial Gains and Losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to Equity in Other Comprehensive Income in the period in which they arise.

### **Termination Benefits**

Termination Benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

### **Other Long Term Employee Benefits**

The Company's net obligation in respect of other Long Term Employee Benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the Statement of Profit and Loss in the period in which they arise.

## **3.16 Provisions**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected Future Cash Flows at a Pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

## **3.17 Contingent Liabilities & Contingent Assets**

A disclosure for a contingent Liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent Assets are not recognized in the Financial Statements. However, Contingent Assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the Asset and related Income are recognized in the period in which the change occurs.

## **3.18 Financial Instruments**

### **a. Recognition and Initial recognition**

The Company recognizes Financial Assets and Financial Liabilities when it becomes a party to the contractual provisions of the instrument. All Financial Assets and Liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issues of Financial Assets and Financial

Liabilities that are not at fair value through profit or loss, are added to the fair value on initial recognition.

A Financial Asset or Financial Liability is initially measured at fair value plus, for an item not at Fair Value Through Profit and Loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

## **b. Classification and Subsequent measurement**

### **Financial Assets**

On initial recognition, a Financial Asset is classified as measured at

- Amortized Cost;
- FVTPL

Financial Assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing Financial Assets.

A Financial Asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold Assets to collect contractual Cash Flows; and
- the contractual terms of the Financial Asset give rise on specified dates to Cash Flows that are solely payments of Principal and Interest on the Principal amount outstanding.

All Financial Assets not classified as measured at amortized cost as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a Financial Asset that otherwise meets the requirements to be measured at amortized cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

### **Financial Assets: Business Model Assessment**

The Company makes an assessment of the objective of the business model in which a Financial Asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated Policies and Objectives for the Portfolio and the operation of those Policies in practice. These include whether management's strategy focuses on earning contractual Interest Income, maintaining a particular interest rate profile, matching the duration of the Financial Assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the Assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the Business Model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of Financial Assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of Financial Assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the Assets.

Financial Assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial Assets: Assessment whether contractual cash flows are solely payments of Principal and Interest

For the purposes of this assessment, 'Principal' is defined as the fair value of the Financial Asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the Principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of Principal and Interest, the Company considers the contractual terms of the instrument. This includes assessing whether the Financial Asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of Cash Flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified Assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of Principal and interest criterion if the prepayment amount substantially represents unpaid amounts of Principal and Interest on the Principal amount

outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a Financial Asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial Assets: Subsequent measurement and gains and losses

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any Interest or Dividend Income, are recognized in Profit or Loss.

Financial Assets at Amortized Cost: These Assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest Income, Foreign Exchange Gains and Losses and Impairment are recognized in Profit or Loss. Any gain or loss on derecognition is recognized in Profit or Loss.

Financial Liabilities: Classification, Subsequent measurement and Gains and Losses

Financial Liabilities are classified as measured at amortized cost or FVTPL. A Financial Liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net Gains and Losses, including any interest expense, are recognized in

Profit or Loss. Other Financial Liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange Gains and Losses are recognized in Profit or Loss. Any Gain or Loss on derecognition is also recognized in Profit or Loss.

## **c. Derecognition**

### **Financial Assets**

The Company derecognizes a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the Financial Asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the Financial Asset.

If the Company enters into transactions whereby it transfers Assets recognized on its Balance Sheet, but retains either all or substantially all of the risks and rewards of the transferred Assets, the transferred Assets are not derecognized.

### **Financial Liabilities**

The Company derecognizes a Financial Liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a Financial Liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new Financial Liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the Financial Liability extinguished and the new Financial Liability with modified terms is recognized in Profit

## **d. Offsetting**

Financial Assets and Financial Liabilities are offset and the net amount presented in the Balance Sheet when and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the Liability simultaneously.

## **e. Impairment**

The Company recognizes loss allowances for expected credit losses on Financial Assets measured at amortized cost;

At each reporting date, the Company assesses whether Financial Assets carried at amortized cost and debt securities at fair value through other comprehensive income (FVOCI) are credit impaired. A Financial Asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the Financial Asset have occurred.

Evidence that a Financial Asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured

as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a Financial Asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

#### Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

#### Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for Financial Assets measured at amortized cost are deducted from the gross carrying amount of the Assets.

#### Write-off

The gross carrying amount of a Financial Asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the trade receivable does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, Financial Assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

### 35 Leases

#### Where the Company is a Lessee:

Effective 1 April 2019, the Company adopted Ind AS 116, Leases. This standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. There is no significant impact of the standard on the financial results of the Company and the Company has not recognized any Right of use asset or Lease liability in accordance of this standard.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases amounting to INR 6.09 million (Previous Year: INR 4. 16 Million) are recognized as an expense on a straight-line basis over the lease term.

### 37 Financial Risk Management Objectives and Policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support Company's operations. The Company's principal financial assets include inventory, trade and other receivables, cash and cash equivalents and refundable deposits that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

#### a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as commodity risk. Financial instruments affected by market risk include loans and borrowings and refundable deposits. The sensitivity analysis in the following sections relate to the position as at 31 March 2020 and 31 March 2019. The sensitivity analyses have been prepared on the basis that the amount of net debt and the ratio of fixed to floating interest rates of the debt.

The analysis excludes the impact of movements in market variables on: the carrying values of gratuity and other post retirement obligations; provisions.

The below assumption has been made in calculating the sensitivity analysis:

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

(All amounts in Indian Rupees Millions, except share data and where otherwise stated)

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2020 and 31 March 2019.

### Interest Rate Risk

Interest Rate Risk is the risk that the fair value or future Cash Flows of a Financial Instrument will fluctuate because of changes in Market Interest Rates. The Company's exposure to the risk of changes in Market Interest Rates relates primarily to the Company's Short-term Debt Obligations with floating Interest Rates.

The Company manages its Interest rate risk by having a balanced Portfolio of Variable Rate Borrowings. The Company does not enter into any interest rate swaps.

### Interest Rate Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in Interest Rates on that portion of Loans and Borrowings affected. With all other variables held constant, the Company's Profit Before Tax is affected through the impact on Floating Rate Borrowings, as follows:

	Increase / decrease in Interest Rate	Effect on Profit Before Tax
<b>31 March 2020</b>		
INR	+ 1%	(0.41)
INR	- 1%	0.41
<b>31 March 2019</b>		
INR	+ 1%	(0.21)
INR	- 1%	0.21

### b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The credit risk arises principally from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions and other financial instruments.

Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

The Company establishes an allowance for credit loss that represents its estimate of expected losses in respect of trade and other receivables based on the past and the recent

collection trend. The maximum exposure to credit risk as at reporting date is primarily from trade receivables amounting to INR 116,767,278 (31 March 2019: INR 77,541,712). Basis the estimate, there is no allowance for expected credit loss provided by the Company.

The top 3 to 5 customers account for more than 30% of the revenue as of 31 March 2020 and more than 50% of the revenue as of 31 March 2019 as the Company has diversified business in the areas of IT Consulting, IT Staffing, Off-shore Technical Support and Big Data Analytics Software License Sales. Credit risk on cash and cash equivalent is limited as the Company generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

### c) Liquidity Risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of Bank Deposits and Loans.

The table below summarizes the maturity profile of the Company's Financial Liabilities based on contractual undiscounted payments:

	On demand	Less than 3 months	3 to 12 months	1 to 5 years	>5 years	Total
<b>Year ended 31 March 2020</b>						
Borrowings	38.13	0.38	1.18	1.26		40.95

Borrowings	18.55	0.52	1.14	2.82		23.03
Trade Payables		40.61				40.61

## 38 Capital Management

The Company's policy is to maintain a stable Capital base so as to maintain Investor, Creditor and Market confidence and to sustain future development of the business. Management monitors Capital on the basis of Return on Capital Employed as well as the Debt to Total Equity Ratio.

For the purpose of Debt to Total Equity Ratio, Debt considered is Long-term and Short-term Borrowings. Total Equity comprise of issued Share Capital and all other Equity Reserves.

The capital structure as of 31 March 2020 and 31 March 2019 was as follows:

### 39 Recent Indian Accounting Standards

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 1 April 2020.

### 40. Update on COVID-19 pandemic

In view of pandemic relating to COVID-19, the Company has considered internal and external information and has performed sensitivity analysis based on current estimates in assessing the recoverability of receivables, unbilled receivables and other financial assets. The Company has also assessed the impact of this whole situation on its Capital and Financial resources, Profitability, Liquidity position, Internal Financial Reporting controls, etc. and is of the view that based on its present assessment this situation does not materially impact this Standalone Financial Result as on 31 March 2020. However the actual impact of COVID-19 on the Company's Financial Statements, in future, may differ from that estimated and the Company will continue to closely monitor any material changes to future economic conditions.

### 41. Prior year comparatives

The figures of the previous year have been regrouped/reclassified, where necessary, to conform with the current year's classification.

## **Independent Auditor's Report**

### **To The Members of GOLDSTONE TECHNOLOGIES LIMITED**

#### **Report on the Audit of the Consolidated Financial Statements**

##### **Opinion**

We have audited the accompanying consolidated financial statements of GOLDSTONE TECHNOLOGIES LIMITED ("the Company") and its subsidiaries (the Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("IndAS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2020, the consolidated loss, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

##### **Basis for Opinion**

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

##### **Information Other than the Consolidated Financial Statements and Auditor's Report Thereon:**

- The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Management's Responsibility for the Consolidated Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the IndAS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is also responsible for overseeing the financial reporting process of the Group.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that

includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt

on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in : (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding

independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **OTHER MATTER:**

We did not audit the financial statements of one subsidiary Company whose financial statements reflect total assets before elimination of Rs. 20.16 crores as at 31.03.2020 and the total revenue of Rs. 10.78 crores and Group's share of total net loss after tax of Rs. 1.22 crores for the year then ended which are considered in preparation of the Consolidated Financial Statement. This Subsidiary financial statements and other financial information have been audited by other auditor whose reports have been furnished to us by the management, and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of subsection (3) of section 143 of the Act, in so far as it relates to aforesaid subsidiary is based solely on the report of such other Auditor.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors of the company and its subsidiaries, none of the directors of the group companies is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the Auditor's reports of the Company and its subsidiary companies. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial controls over financial reporting of those companies, for reasons stated therein.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of

section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The consolidated financial statement does not have pending litigations which would have impact on its consolidated financial position of the group.
  - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies.

## **ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT**

**(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of GOLDSTONE TECHNOLOGIES LIMITED of even date**

### **Report on the Internal Financial Controls Over Financial Reporting under Clause**

#### **(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of **GOLDSTONE TECHNOLOGIES LIMITED** (herein after referred to as "Company") and its subsidiary company, which is incorporated in India, as of that date.

### **Management's Responsibility for Internal Financial Controls**

The Board of Directors of the Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its Subsidiary Companies.

## **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls Over Financial Reporting:**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

(All amounts in Indian Rupees Millions, except share data and where otherwise stated)

### 1. General Information

Goldstone Technologies Limited ('the Company') is a Public Limited Company incorporated in India, having its registered office at Hyderabad, India. The Company along with its subsidiaries (hereinafter referred to as "the Group") is primarily engaged in the business of IT and ITES services. The Company is listed in the National Stock Exchange of India Ltd. (NSE) and BSE Ltd. (BSE).

### 2. Basis of preparation of Financial Statements

#### 2.1 Statement of Compliance

The financial statements have been prepared in accordance of Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015 notified under Section 133 of

Companies Act 2013 (the 'Act') and other relevant provisions of the Act.

The Group's financial statements up to and for the year ended 31 March 2020 were prepared in accordance with the Companies (Accounting Standards) Rules 2006, notified under Section 133 of Companies Act 2013 (the 'Act') and other relevant provisions of the Act.

The financial statements were authorized for issue by the Company's Board of Directors on 26 June 2020.

Details of the accounting policies are included in Note 3.

#### 2.2 Group Information

The consolidated financial statements of the Group includes subsidiaries listed in the table below:

Name of Investee	Principal Activities	Country of Incorporation	Percentage of ownership/ voting rights	
			31 March 2020	31 March 2019
Staytop Systems, Inc.	IT and ITES	USA	100%	100%
Staytop Systems and Software Private Limited	IT and ITES	India	100%	100%

#### 2.3 Basis of Consolidation

- (i) The Consolidated Financial Statements incorporate the financial statements of the Parent Company and its Subsidiaries. For this purpose, an entity which is, directly or indirectly, controlled by the Parent Company is treated as Subsidiary. The Parent Company together with its Subsidiaries constitute the Group. Control exists when the Parent Company, directly or indirectly, has power over the investee, is exposed to variable returns from its involvement with the investee and has the ability to use its power to affect its returns.
- (ii) Consolidation of a subsidiaries begins when the Parent Company, directly or

indirectly, obtains control over the Subsidiary and ceases when the Parent Company, directly or indirectly, loses control of the Subsidiary. Income and expenses of a Subsidiary acquired or disposed off during the year are included in the Consolidated Statement of Profit and Loss from the date the Parent Company, directly or indirectly, gains control until the date when the Parent Company, directly or indirectly, ceases to control the Subsidiary.

- (iii) The Consolidated Financial Statements of the Group combines Financial Statements of the Parent Company and its Subsidiary line-by-line by adding together the like items of

Assets, Liabilities, Income and Expenses. All intra-group Assets, Liabilities, Income, Expenses and Unrealized Profits/Losses on intra-group transactions are eliminated on consolidation. The Accounting Policies of Subsidiaries have been harmonized to ensure the consistency with the policies adopted by the Parent Company.

The Consolidated Financial Statements have been presented to the extent possible, in the same manner as Parent Company's Standalone Financial Statements. Profit or Loss and each component of other Comprehensive Income are attributed to the owners of the Parent Company and to the non-controlling interests and have been shown separately in the Financial Statements.

Non-controlling interest represents that part of the total Comprehensive Income and net assets of Subsidiaries attributable to interests which are not owned, directly or indirectly, by the Parent Company.

- (iv) Non-controlling interest represents that part of the total Comprehensive Income and net assets of Subsidiaries attributable to interests which are not owned, directly or indirectly, by the Parent Company.
- (v) Goodwill on consolidation as on the date of transition represents the excess of cost of acquisition at each point of time of making the investment in the Subsidiary over the Group's share in the net worth of a Subsidiary. For this purpose, the Group's share of Net Worth is determined on the basis of the latest Financial Statements, prior to the acquisition, after making necessary adjustments for material events between the date of such Financial Statements and the date of respective acquisition. Capital Reserve on consolidation represents excess of the Group's share in the Net Worth of a

Subsidiary over the cost of acquisition at each point of time of making the Investment in the Subsidiary. Goodwill arising on consolidation is not amortized, however, it is tested for impairment annually. In the event of cessation of operations of a Subsidiary, the unimpaired goodwill is written off fully.

Goodwill on consolidation arising on acquisitions on or after the date of transition represents the excess of the cost of acquisition at each point of time of making the investment in the Subsidiary, over the Group's share in the fair value of the Net Assets of a Subsidiary.

Goodwill on consolidation is allocated to cash generating units or group of cash generating units that are expected to benefit from the synergies of the acquisition.

## 2.4 Basis of measurement

These financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the statement of financial position:

- certain Financial Assets and Liabilities are measured at Fair Value;
- employee defined benefit Assets/(Liability) are recognized as the net total of the fair value of Plan Assets, plus Actuarial Losses, less Actuarial Gains and the present value of the Defined Benefit Obligation;
- Long Term Borrowings are measured at amortized cost using the effective interest rate method.

## 2.5 Functional Currency

The financial statements are presented in Indian Rupees Millions, which is the functional currency of the Group. Functional currency of an entity is the currency of the primary economic environment in which the entity operates.

All amounts are in Indian Rupees Millions except share data, unless otherwise stated.

## 2.6 Operating Cycle

All the Assets and Liabilities have been classified as Current or Non-current as per the Group's normal Operating Cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

### Assets:

An Asset is classified as Current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Group's Normal Operating Cycle;
- b) it is held primarily for the purpose of being traded;
- c) months after the reporting date; or
- d) it is Cash or Cash Equivalent unless it is restricted from being exchanged or used to settle a Liability for at least twelve months after the reporting date.

### Liabilities:

A Liability is classified as Current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Group's Normal Operating Cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or
- d) the Group does not have an unconditional right to defer settlement of the Liability for at least twelve months after the reporting date. Terms of a Liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current Assets / Liabilities include the current portion of Non-current Assets / Liabilities respectively. All other Assets / Liabilities are classified as Non-current.

## 2.7 Critical accounting judgements and key sources of estimation uncertainty Operating Cycle

In the application of the Group's accounting policies, which are described in note 3, the management of the Group are required to make judgements, estimates and assumptions about the carrying amounts of Assets and Liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Group's Accounting Policies and that have the most significant effect on the amounts recognized in the Financial Statements:

### Provision and Contingent liability

On an ongoing basis, Group reviews pending cases, claims by third parties and other contingencies. For Contingent Losses that are considered probable, an estimated Loss is recorded as an accrual in Financial Statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent Liabilities in the Financial Statements. Contingencies the likelihood of which is remote are not disclosed in the Financial Statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

## Useful lives of Depreciable Assets

Management reviews the useful lives of Depreciable Assets at each reporting. As at 31 March 2020 management assessed that the useful lives represent the expected utility of the assets to the Group. Further, there is no significant change in the useful lives as compared to previous year.

## 2.8 Measurement of Fair Values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both Financial and Non-financial Assets and Liabilities.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted Prices (unadjusted) in active markets for identical Assets or Liabilities.
- Level 2: inputs other than Quoted Prices included in Level 1 that are observable for the Asset or Liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the Asset or Liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an Asset or a Liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an Asset or a Liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

## 3. Significant Accounting Policies

### 3.1 Revenue recognition

Revenue is recognized upon transfer of control of promised licenses or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those licenses or services.

The Group's revenues are derived from sale of goods and services.

- Revenue from sale of licenses is recognized where control is transferred to the Group's customers at the time of receipt of licenses by the customers.
- Service income, is recognized as and when the underlying services are performed. Upfront non-refundable payments received under these arrangements continue to be deferred and are recognized over the expected period that related services are to be performed.
- Dividend income is accounted for when the right to receive the income is established.
- Difference between the sale price and carrying value of investment is recognized as profit or loss on sale / redemption on investment on trade date of transaction.
- Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

### 3.2 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the

consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease

payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Group recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 Leases to short term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

### **3.3 Foreign Currencies**

In preparing the Financial Statements of the Group, transactions in currencies other than the Group's functional Currency (Foreign Currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in Foreign Currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of Historical Cost in a Foreign Currency are not retranslated. Exchange differences on monetary items

are recognized in Profit or Loss in the period in which they arise.

### 3.4 Borrowing Costs

Specific Borrowing Costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of such asset till such time the Asset is ready for its intended use and borrowing costs are being incurred. A qualifying Asset is an Asset that necessarily takes a substantial period of time to get ready for its intended use. All other Borrowing Costs are recognized as an expense in the period in which they are incurred.

Borrowing Cost includes Interest Expense, Amortization of Discounts, ancillary costs incurred in connection with borrowing of funds and exchange difference arising from Foreign Currency borrowings to the extent they are regarded as an adjustment to the Interest Cost.

### 3.5 Taxation

Income Tax expense consists of Current and Deferred tax. Income Tax expense is recognized in the Income Statement except to the extent that it relates to items recognized directly in Equity, in which case it is recognized in Equity.

#### Current Tax

Current Tax is the expected Tax payable on the Taxable Income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to Tax payable in respect of Previous Years.

#### Deferred tax

Deferred tax is recognized using the Balance Sheet method, providing for temporary differences between the carrying amounts of Assets and Liabilities for financial reporting purposes and the amounts used for Taxation purposes. Deferred Tax is not recognized for the following temporary differences: the initial recognition of Assets or Liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; differences

relating to Investments in Subsidiaries and jointly controlled Entities to the extent that it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising upon the initial recognition of goodwill. Deferred Tax is measured at the Tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred Tax Assets and Liabilities are offset if there is a legally enforceable right to offset Current Tax Liabilities and Assets, and they relate to Income Taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle Current Tax Liabilities and Assets on a net basis or their Tax Assets and Liabilities will be realized simultaneously.

A Deferred Tax Asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred Tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

### 3.6 Earnings Per Share

The Group presents Basic and Diluted Earnings Per Share ("EPS") data for its ordinary shares. The Basic Earnings Per Share is computed by dividing the Net Profit attributable to Equity Shareholders for the period by the weighted average number of Equity Shares outstanding during the year.

Diluted Earnings Per Share is computed by dividing the Net Profit attributable to Equity Shareholders for the year relating to the dilutive potential Equity Shares, by the weighted average number of Equity Shares considered for deriving Basic Earnings Per Share and the weighted average number of Equity Shares which could have been issued on the conversion of all dilutive potential Equity Shares. Potential Equity Shares are deemed to be dilutive only if their conversion to Equity Shares would decrease the Net Profit per Share.

### 3.7 Property, Plant and Equipment (PPE)

The initial cost of PPE comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an Asset to working condition and location for its intended use, including relevant borrowing costs and any expected costs of decommissioning, less accumulated depreciation and accumulated impairment losses, if any. Expenditure incurred after the PPE have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the period in which the costs are incurred.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 – Property, Plant and Equipment.

### 3.8 Expenditure during construction period

Expenditure during construction period (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under Capital Work-in-Progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other Non-current Assets".

### 3.9 Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a straight-line basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which

PPE is expected to be available for use by the Group, or the number of production or similar units expected to be obtained from the asset by the Group.

The Group has componentized its PPE and has separately assessed the life of major components. In case of certain classes of PPE, the Group uses different useful lives than those prescribed in Schedule II to the Act. The useful lives have been assessed based on technical advice, taking into account the nature of the PPE and the estimated usage of the asset on the basis of management's best estimation of obtaining economic benefits from those classes of assets.

Such classes of Assets and their estimated useful lives are as under:

Particulars	Useful life
Buildings	30 years
Plant and Machinery	15 years
Electrical Equipment	5 years
Office Equipment	5 years
Computers - Laptops & Desktops	3 years
Computers - Servers	6 Years
Furniture and Fixtures	10 years
Vehicles - Four Wheelers	8 years
Vehicles - Two Wheelers	10 years
Leasehold Improvements	10 years

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production. Depreciation on deductions/disposals is provided on a pro-rata basis up to the date of deduction/disposal.

### 3.10 Intangible Assets and Amortization

Intangible Assets are stated at Cost less Accumulated Amortization and Impairment. Intangible Assets are amortized over their respective estimated useful lives on a Straight-line basis, from the date that they are available for use.

## **Amortization**

The estimated useful life of an identifiable Intangible Asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Software is amortized over a period of three to five years.

### **3.11 Cash and Cash Equivalents**

Cash and Cash Equivalents in the Balance Sheet comprise Cash at Bank and in Hand and Short-term Deposits with Banks that are readily convertible into Cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting Short-term Cash commitments.

### **3.12 Cash Flow Statement**

Cash Flows are reported using the indirect method, whereby Net Profit Before Tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The Cash Flows from Operating, Investing and Financing activities of the Group are segregated.

### **3.13 Government Grants**

Government Grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

Where the Group receives non-monetary grants, the asset and the grant are accounted at fair value and recognized in the Statement of Profit and Loss over the expected useful life of the Asset.

### **3.14 Impairment of Non Financial Assets**

The carrying amounts of the Group's Non-financial Assets, Inventories and Deferred Tax Assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the Asset's recoverable amount is estimated.

The recoverable amount of an Asset or Cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future Cash Flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the Asset or the cash-generating unit. For the purpose of impairment testing, Assets are grouped together into the smallest group of Assets that generates cash inflows from continuing use that are largely independent of the cash inflows of Other Assets or Groups of Assets (the "Cash-generating unit").

An Impairment Loss is recognized in the Income Statement if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment Losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An Impairment Loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the Asset's carrying amount does not exceed the carrying amount that would have been determined, net of Depreciation or Amortization, if no Impairment Loss had been recognized. Goodwill that forms part of the carrying amount of an Investment in an Associate is not recognized separately, and therefore is not tested for impairment separately. Instead, the entire amount of the Investment in an Associate is tested for impairment as a Single Asset when there is objective evidence that the investment in an associate may be impaired.

An Impairment Loss in respect of Equity accounted investee is measured by comparing the recoverable amount of investment with its carrying amount. An Impairment Loss is recognized in the Income Statement, and reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

### 3.15 Employee Benefits

#### Short-term Employee Benefits

Short-term Employee Benefits are expensed as the related service is provided. A Liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the Employee and the obligation can be estimated reliably.

#### Defined Contribution Plans

The Group's contributions to Defined Contribution Plans are charged to the Income Statement as and when the services are received from the employees.

#### Defined Benefit Plans

The Liability in respect of Defined Benefit Plans and other post-employment benefits is calculated using the projected unit credit method consistent with the advice of qualified actuaries. The present value of the Defined Benefit Obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related defined benefit obligation. In countries where there is no deep market in such bonds, the market rates on Government Bonds are used. The current service cost of the Defined Benefit Plan, recognized in the Income Statement in Employee Benefit Expense, reflects the increase in the Defined Benefit Obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in income. The net interest cost is calculated by applying the discount rate to the Net Balance of the Defined Benefit Obligation and the fair value of Plan Assets. This cost is included in Employee Benefit Expense in the Income Statement. Actuarial Gains and Losses arising from experience adjustments and

changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

#### Termination benefits

Termination benefits are recognized as an expense when the Group is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Group has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

#### Other Long-term Employee Benefits

The Group's net obligation in respect of other Long Term Employee Benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the Statement of Profit and Loss in the period in which they arise.

### 3.16 Provisions

A Provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future Cash Flows at a Pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

### 3.17 Contingent Liabilities & Contingent Assets

A disclosure for a Contingent Liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent Assets are not recognized in the Financial Statements. However, Contingent Assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

### 3.18 Financial Instruments

#### a. Recognition and Initial recognition

The Group recognizes Financial Assets and Financial Liabilities when it becomes a party to the contractual provisions of the instrument. All Financial Assets and Liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issues of Financial Assets and Financial Liabilities that are not at fair value through Profit or Loss, are added to the fair value on initial recognition.

A Financial Asset or Financial Liability is initially measured at fair value plus, for an item not at fair value through Profit and Loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

#### b. Classification and Subsequent measurement

Financial Assets

On initial recognition, a Financial Asset is

classified as measured at

- amortized cost;
- FVTPL

Financial Assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing Financial Assets.

A Financial Asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the Asset is held within a business model whose objective is to hold assets to collect contractual Cash Flows; and
- the contractual terms of the Financial Asset give rise on specified dates to Cash Flows that are solely payments of Principal and Interest on the Principal amount outstanding.

All Financial Assets not classified as measured at amortized cost as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a Financial Asset that otherwise meets the requirements to be measured at amortized cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial Assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a Financial Asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income,

maintaining a particular interest rate profile, matching the duration of the Financial Assets to the duration of any related liabilities or expected cash outflows or realizing Cash Flows through the sale of the Assets;

- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the Assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of Financial Assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of Financial Assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the Assets.

Financial Assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial Assets: Assessment whether contractual cash flows are solely payments of Principal and Interest

For the purposes of this assessment, 'Principal' is defined as the fair value of the Financial Asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of Principal and Interest, the Group considers the contractual terms of the instrument. This includes assessing whether the Financial Asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a Financial Asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

**Financial Assets: Subsequent measurement and gains and losses**

Financial Assets at FVTPL: These Assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in Profit or Loss.

**Financial Assets at Amortized Cost:** These Assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in Profit or Loss. Any gain or loss on derecognition is recognized in Profit or Loss.

**Financial Liabilities: Classification, Subsequent measurement and gains and losses**

Financial Liabilities are classified as measured at amortized cost or FVTPL. A Financial Liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in Profit or Loss. Other Financial Liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and Foreign Exchange Gains and Losses are recognized in Profit or Loss. Any gain or loss on derecognition is also recognized in Profit or Loss.

### **c. Derecognition**

#### **Financial Assets**

The Group derecognizes a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the Financial Asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the Financial Asset.

If the Group enters into transactions whereby it transfers Assets recognized on its Balance Sheet, but retains either all or substantially all of the risks and rewards of the transferred Assets, the transferred Assets are not derecognized.

### **Financial Liabilities**

The Group derecognizes a Financial Liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognizes a Financial Liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new Financial Liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the Financial Liability extinguished and the new Financial Liability with modified terms is recognized in profit

### **d. Offsetting**

Financial Assets and Financial Liabilities are offset and the net amount presented in the Balance Sheet when and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

### **e. Impairment**

The Group recognizes loss allowances for expected credit losses on Financial Assets measured at amortized cost;

At each reporting date, the Group assesses whether Financial Assets carried at amortized cost and debt securities at fair value through other comprehensive income (FVOCI) are credit impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the Financial Asset have occurred.

Evidence that a Financial Asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;

- it is probable that the borrower will enter bankruptcy or other financial reorganization; or

- the disappearance of an active market for a security because of financial difficulties.

The Group measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and

- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial Asset has increased

significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward- looking information.

#### Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

#### Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for Financial Assets measured at amortized cost are deducted from the gross carrying amount of the Assets.

#### Write-off

The gross carrying amount of a Financial Asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the trade receivable does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, Financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

### 30 Segment Information

Ind AS 108 "Operating Segment" ("Ind AS 108") establishes standards for the way that public Business Enterprises report information about Operating and Geographical Segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, Operating Segments and Geographical Segments are to be reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM evaluates the Group's performance and allocates resources on overall basis.

During the year, the Company has three Reportable Segments, i.e. USA - Information Technology / Software Services, India - Information Technology / Software Services and Software License

The Segment Revenue, Profitability, Assets and Liabilities are as under:

### 33 Dues to Micro, Small and Medium Enterprises

The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum. Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2020 has been made in the financial statements based on information received and available with the Group. Further in view of the management, the impact of interest, if any, that may be payable in accordance with the provisions of the Micro, Small and Medium Enterprises Development Act, 2006 ('The MSMED Act') is not expected to be material. The Group has not received any claim for interest from any supplier.

### 34 Leases

#### Where the Group is a Lessee :

Effective 1 April 2019, the Group adopted Ind AS 116, Leases. This standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. There is no significant impact of the standard on the financial results of the Group and the Group has not recognized any Right of use asset or Lease liability in accordance of this standard.

The Group has elected not to apply the requirements of Ind AS 116 Leases to short term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases amounting to INR 6.22 million (Previous Year: INR 4.32 Million) are recognized as an expense on a straight-line basis over the lease term.

### 35 Earnings Per Share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity Shares.

#### Earnings Per Share (Continued)

The following table sets out the computation of basic and diluted Earnings Per Share:

### 36 Financial Risk Management Objectives and Policies

The Group's Principal Financial Liabilities comprise Loans and Borrowings, Trade and Other Payables. The main purpose of these Financial Liabilities is to finance and support Group's operations. The Group's Principal Financial Assets include Inventory, Trade and Other Receivables, Cash and Cash Equivalents and Refundable Deposits that derive directly from its operations.

The Group is exposed to Market Risk, Credit Risk and Liquidity Risk. The Group's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

#### a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as commodity risk. Financial instruments affected by market risk include loans and borrowings and refundable deposits. The sensitivity analysis in the following sections relate to the position as at 31 March 2020 and 31 March 2019. The sensitivity analyses have been prepared on the basis that the amount of net debt and the ratio of fixed to floating interest rates of the debt.

The analysis excludes the impact of movements in market variables on: the carrying values of gratuity and other post retirement obligations; provisions.

The below assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2020 and 31 March 2019.

#### Interest Rate risk

Interest Rate Risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's short-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of variable rate borrowings. The Group does not enter into any interest rate swaps.

#### Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

INR	-1%	0.41
<b>31 March 2019</b>		
INR	+1%	(0.21)
INR	-1%	0.21

### b) Credit Risk

Credit Risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The credit risk arises principally from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions and other financial instruments.

Credit Risk is controlled by analyzing credit limits and credit worthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

The Group establishes an allowance for credit loss that represents its estimate of expected losses in respect of trade and other receivables based on the past and the recent collection trend. The maximum exposure to credit risk as at reporting date is primarily from trade receivables amounting to INR 117,493,334 (31 March 2019: INR 88,054,084). Basis the estimate, there is no allowance for expected credit loss provided by the Group.

The top 3 to 5 customers account for more than 30% of the revenue as of 31 March 2020 and more than 50% of the revenue as of 31 March 2019 as the Company has diversified business in the areas of IT Consulting, IT Staffing, Off-shore Technical Support and Big Data Analytics Software License Sales. Credit risk on cash and cash equivalent is limited as the Company generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

### c) Liquidity Risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank deposits and loans.

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:
