- i. OPPORTUNITIES AND THREATS

Demand for smart kitchen appliances has increased over the past few years. Technological advancements have influenced the demand for up gradation of kitchen appliances, thereby enabling smooth and reliable productivity while cooking. The Company has been adopting the strategy of continuously offering innovative, newer and improved products as well as marketing strategies to stay above competition whether organized or unorganized as a result of this the newly developed chimney has shown the growth in demand and has secured a status amongst the other established brands of same kind and quality with the most competitive pricing factor.

These facts are supporting practically our belief of catching and then holding the pace of growth in our segment of products, as also revealed by the current year performance.

Due to Covid-19 pandemic the availability of raw material from China and difficulties relating to skilled labour availability will certainly hit the productivity but held inventory level coupled with other benefits given by the state government like deferment of Power bills and other payments thereby bringing the relaxation in the cashflow. The scheme of sacrificing the LPG connection subsidy has also resulted into the increased demand of the LPG stove, our core product. Gas Geyser along with small size electric geyser is also becoming a necessity now a days and is also becoming a promising product.

The Single threat company foresees, is the political conditions of China which may cause delay in import of components and volatility in foreign exchange rates.

The company is in the process of making and implementing the strategies to capitalize available opportunities and minimizing the threats to ladder products across capacities, formats and prices. The company will put its every effort to maximize the internal accruals by way of input tax credit available in the GST law and by optimizing the product common costs so as to enable it to sustain profitably in the market.

SEGMENT WISE PERFORMANCE/PRODUCT WISE PERFORMANCE

The company has only one segment of Home Appliances and the products considered as part of the segment are, LPG

stoves, Gas Hobs, Gas geysers, Water Heaters and Kitchen Chimneys.

The company is hopeful that through a combination of powerful marketing strategies, innovative new products and market development and expansion activities, it would increase its share in the domestic market of most of its products. The newly added organized customers to the chain of company products due to GST regime are very promising for the segmental growth.

OUTLOOK

The Indian kitchen appliances market grew at a healthy double-digit rate over the last decade, driven by a host of factors such as increasing rural penetration, improved disposable incomes and a revolution in lifestyle standards, purchasing preferences and buying trends. In the last couple of years, availability of our products on the e-commerce platform has shown an attractive growth and looking in to the current scenario of people purchasing products directly through such platforms the company sees the jump in the turnover.

However, in the last four years, the high growth of the past tapered off thus witnessing a sobering effect in the kitchen appliances industry. The key growth challenge encountered by the industry primarily came from the consumer sentiment and stagnation of incomes.

After the Covid-19 impact and since the second un-locking in Jun-2021, both global and Indian economies are on the path of recovery. However, the overall market sentiment is positive and your Company expects to maintain its growth rates aided by the new ranges in all products, barring unforeseen circumstances.

ANNEXURE “B” AS REFERRED TO IN PARAGRAPH 3(f) UNDER THE HEADING OF “REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS” SECTION OF OUR REPORT OF EVEN DATE TO THE MEMBERS OF GORANI INDUSTRIES LIMITED LIMITED ON THE ACCOUNTS FOR THE YEAR ENDED 31ST MARCH 2022

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Gorani Industries Limited ('the Company') as of March 31, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to Ind-AS financial statements and such internal financial controls over financial reporting with reference to these Ind-AS financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance note on Audit of internal Financial controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Ind-AS financial statements based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Ind-AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Ind-AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting with reference to these Ind-AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting with reference to these Ind-AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes

in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Ind-AS financial statements includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Ind-AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Ind-AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Ind-AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Ind-AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Company has established a separate fund with Life Insurance Corporation of India. Liability on these benefits is calculated and provided based on actuarial valuation provided by independent actuary using "Projected unit credit" method.

K] Borrowing Cost

Borrowing cost that is attributable to the acquisition or construction of qualifying assets is capitalized as part of the cost of such assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing cost is recognized as an expense in the period in which they are incurred.

L] Income tax
a) Current tax :

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Tax payable is calculated using the tax rates that have been enacted by the end of the reporting period.

b) Deferred Tax :

Deferred tax is recognized using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting on the reporting date.

Deferred tax are recognized to the extent it is probable that taxable profit will be available against which the deductible differences against which the temporary differences and losses will be adjusted. Tax rate used to compute the tax is those that have been enacted by the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

M] Revenue Recognition

The Company derives revenue primarily from sale of manufactured and traded goods. The Company recognises revenue on the basis of Ind AS 115 – ‘Revenue from contracts with customers’ which establishes a comprehensive framework for

determining whether, how much and when revenue is to be recognized.

Revenue from sale of goods is recognized when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations.

The Performance Obligations in our contracts are fulfilled at the time of dispatch or delivery.

Revenue is measured at fair value of consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and service tax etc. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.

Interest income is recognised on accrual basis or by using the effective interest method, wherever applicable.

N] Earning per share

The company presents Basic and Diluted earnings per share data for its equity shares. Basic and diluted earnings per share are calculated by dividing the profit or loss attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the year.

O] Provisions, Contingent Liabilities and Assets:

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Disclosure is not made if the possibility of an outflow of future economic benefits is remote.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the

control of the entity. The Company does not recognise a contingent asset.

P] Research & Development:

Capital expenditure on research and development is treated in the same way as expenditure on Fixed Assets. The revenue expenditure on Research & Development is written off in the year in which it is incurred.

Q] Impairment :

The Company on an annual basis makes an assessment of any indicator that may lead to impairment of assets. If any such indication exists, the company estimates the recoverable amount of the assets. If such recoverable amount is less than the carrying amount, then the carrying amount is reduced to its recoverable amount by treating the difference between them, as impairment loss and the same is charged to profit & loss account. Based on the aforesaid review, the Company is of opinion that there is no impairment of any of its fixed assets as at 31st March 2022.

R] Fair Value Measurement :

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) Level:1 The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date.
- ii) Level:2 The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, dealer quotes for similar instruments and use of comparable arm's length transactions.
- iii) Level:3 The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs). When the fair value of unquoted instruments cannot be measured with sufficient reliability, the Company carries such instruments at cost less impairment, if applicable.

S] Leases (IND AS 116)

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to

control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company considers whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

The right-to-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-to-use asset or the end of the lease term. The estimated useful lives of right-to-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-to-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option.

The Company has elected not to recognise right-to-use assets and lease liabilities for short term leases that

have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

T] Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

U] Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs rupees upto two decimal places.

V] Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit & Loss.
