About the Company

Bhagawati Gases Limited (BGL) has a rich history and a legacy of innovation spanning decades. Since its inception, the Company has consistently demonstrated its commitment to excellence in manufacturing, trading, and sustainability.

- **Early Beginnings and Growth**

Established in 1994 as a trader, BGL initially focused on supplying liquid oxygen to Hindustan Copper Limited (HCL) for its copper smelter operations. To meet increasing demand, the Company set up a state-of-the-art 50 TPD (1600 m³/hour) oxygen plant at Khetrinagar, Rajasthan, with technology imported from Hitachi, Japan. The plant commenced commercial production in August 1988.

- **Expansion and Technological Advancement**

In 1995, BGL expanded its capacity by installing a 120 TPD (3400 m³/hour) oxygen plant sourced from Air Liquide, France. Since then, the Company has been a reliable supplier of oxygen gas to HCL through a dedicated 1.5 km pipeline. Additionally, BGL diversified its offerings to include liquid oxygen, medical oxygen, nitrogen, and argon, which are supplied to various customers in bulk using Vacuum Insulated Transport Tanks (VITTs). The USD 12 million project was funded through leading financial institutions and internal accruals, marking a milestone in the Company's growth journey.

- **Strategic Partnerships**

In 1998, BGL entered into a long-term agreement with Air Liquide North India Pvt. Ltd., a subsidiary of Air Liquide, France, for the supply of surplus liquid oxygen, nitrogen, and argon after fulfilling the requirements of HCL.

Another significant milestone was achieved when BGL signed a Memorandum of Understanding (MoU) with Rotor-1 Limited, Russia, to bid for an Oil and Natural Gas Corporation (ONGC) tender. The project involved low-frequency passive seismic surveys for hydrocarbon detection in Gujarat's South Kadi Area. The project was successfully executed, showcasing BGL's technical expertise and global partnerships.

- **Diversification and Sustainability Focus**

BGL has evolved into a diversified group with expertise in manufacturing, wastewater treatment, renewable energy, contracting, and international trading. Its manufacturing division specializes in atmospheric industrial gases from large tonnage air separation plants, FRP pipes, and composite products.

The Company has made significant strides in wastewater bioremediation, treating polluted water bodies such as lakes and industrial wastewater from sectors like chemicals, agrochemicals, leather, pharmaceuticals, textiles, and electroplating. With over three decades of experience, BGL has developed advanced biological solutions for previously untreatable industrial waste streams.

- **Future-Oriented Initiatives**

BGL is actively engaging with ONGC to collaborate on sustainable energy solutions. This includes rare gas extraction, geothermal initiatives, and carbon capture technologies, leveraging its expertise in cryogenics, industrial gases, and green technologies.

The Company is also in advanced discussions with ONGC for projects focused on water treatment and remediation, further cementing its commitment to sustainability.

- **Recent Developments**

Recently, BGL entered into an agreement with a leading Korean company to market medical oxygen plants in India, enhancing its portfolio and expanding its footprint in the healthcare sector.

ANNEXURE-D TO BOARD'S REPORT

MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

The Management of the Company is pleased to present its report on the Industry Scenario including on the Company's performance during the financial year 2023-24.

Global economy overview

Indian Economy REVIEW

The Indian economy in 2023-24 witnessed robust growth, with the gas industry playing a pivotal role in the energy transition and economic development. Government initiatives, including expanding city gas distribution networks and promoting LNG infrastructure, bolstered the sector. Increased focus on clean energy and decarbonization drove investments in natural gas as a bridge fuel for sustainable growth. Despite global volatility in energy markets, India maintained a steady increase in domestic gas production and imports to meet rising demand. The gas sector's growth aligns with India's "Amrit Kaal" vision, ensuring energy security and reducing carbon emissions.

THREATS, RISKS AND CONCERNS

The Company is concerned about prevailing exposure norms, financial position, entry of new players in the market, rising competition from banks & multilateral agencies, uncertain business environment, fluctuation in rupee, likely increase in cost of capital due to volatile market conditions. Further, the state of business and policy environment in the country also has a cascading effect on the interest-rate regime, cost and availability of raw materials and gestation period & capital outlays required for raw material. General economic conditions may also affect the capacity and production of the company.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

As on date your company is doing business activity of supply and installation of medical oxygen gas plant and the Company is continue doing the business of treatment of waste water and water bodies like River, Lake, Pond, Drain etc. as well treatment of Industrial effluents by using Phytoremediation technology.

OUTLOOK

During the financial year 2023-24, the Company supplied a medical oxygen gas plant to UP State PWD. The Company is looking more opportunity for installation of such medical oxygen plant. In addition, after 2 years pandemic, the Company received orders for cleaning of water bodies which were executed during the year. The Company is hopeful of getting more business in such activities during the year.

In the gaseous business during the year, the Company has participated in EOI floated by THDC India Limited a Govt. Undertaking for putting-up a Green Hydrogen Plant in their premises in Rishikesh.

Further the Honorable Prime Minister has laid emphasis for use of Hydrogen as alternative source fuel which is also in no polluting Clean Energy.

Bhagawati Gas Limited has in principal made an understanding with a Canadian Company for supply of Technology, Engineering and sourcing of plant and equipment for production of Green Hydrogen.

But the increasing government regulations and focus on water and water management such as the Swachh Bharat Mission, the Clean Ganga initiative, the National Rural Drinking Water Programme, along- with stricter enforcement of the environmental norms for polluted water discharge, reduced carbon footprint, waste water treatment and requirement of zero liquid discharge plants from various industries will also drive the demand for water and wastewater treatment solutions.

Technical papers have been prepared and technical presentation has been conducted before various Government Departments including “Navami Ganga Authority”. Your company is expecting to get good business in this area in the coming years.

Rapid urbanization, dwindling fresh water reserves, a widening demand-supply gap and a depleting groundwater table will keep the water treatment business thriving for a long time. An Ernst & Young (E&Y) study says the Indian water sector could require investment of around \$130 billion till Wastewater management, in particular, is emerging as a key thrust area. Water availability is a huge challenge for everyone today in industry, and decisions on industrial locations are now taking into account the availability of adequate water. Public awareness is also growing very fast with the Internet explosion as information flows across geographies in minutes.

The Indian water and wastewater market is growing at a steady rate of 10-12 percent every year. Government-related projects contribute over 50 percent of the revenues in this market while private sector funds constitute the rest of it.

With the growing rate of industrialization and urbanization India faces up with the major challenge of providing for the robust and clean water supplies for all domestic and commercial needs. Also, a conscious effort is on from Government in regards to reduce the pollution levels amongst country’s fresh water river sources and better accommodate the guidelines and regulations for maintaining the clean sources of water.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. Other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone

Financial Statements

The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that

includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

“ANNEXURE -B” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENT OF BHAGAWATI GAS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Bhagawati Gas Limited (“the Company”) as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The Company’s Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by the Institute of Chartered Accountants of India (“ICAI”) and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, and the Guidance Note issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for

external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, have an adequate internal financial controls system over financial reporting except as stated in our Audit Report and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

iii) Actuarial assumptions:

Particulars	Gratuity	
	Year ended 31.03.2024	Year ended 31.03.2023
Mortality Table (IALM)	2012-14	2012-14
Discount rate (per annum)	7.13	7.29
Expected rate of return on plan assets (per annum)		
Rate of escalation in salary (per annum)	5.50	5.50

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary.

iv) Sensitivity Analysis

Significant Actuarial Assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below, have been determined based on reasonably possible changes of the assumptions occurring at end of the reporting period, while holding all other assumptions constant. The result of Sensitivity analysis is given below:

Particulars	Gratuity	
	As at 31st March 2024	2023
<u>a) Impact of the change in discount rate</u>		
Present value of obligation at the end of the period	36,423.95	38,205.70
i) Impact due to increase of 0.5%	226.47	(220.41)
ii) Impact due to decrease of 0.5%	254.25	246.97
<u>b) Impact of the change in salary increase</u>		
Present value of obligation at the end of the period	36,423.95	38,205.70
i) Impact due to increase of 0.5%	257.12	250.16
ii) Impact due to decrease of 0.5%	(230.79)	(224.95)

These plan typically expose the Company to actuarial risks such as : investment risk, interest risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined

by reference to market yields at the end of the reporting period on government bonds.

Interest risk

A decrease in the bond interest rate will increase the plan liability.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and other their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Summary of Significant accounting policies and other explanatory information for the year ended 31 March 2024

NOTES TO THE FINANCIAL STATEMENTS

CORPORATE INFORMATION

Bhagawati Gas Limited ("the Company") is a company incorporated in India. The registered office is in S-492/A, Greater Kailash 1, New Delhi, 110048 INDIA

The principal activity of the Company is now cleaning & treatment of water bodies.

Accounting Policies

Statement of compliance

The financial statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the Accounting Standards notified under the relevant provisions of the companies Act, 2013.

Upto the year ended March 31, 2017, the Company prepared its financial statements in accordance with the requirement of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Company's first Ind AS financial statements. The date of transition to Ind AS is April 1, 2016.

BASIS OF PREPARATION AND PRESENTATION

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The Company's Financial Statements are presented in Indian Rupees (C), which is also its functional currency and all values are rounded to the nearest hundred (00), except when otherwise indicated.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) **Property, plant and equipment:**

Under the previous GAAP (erstwhile Indian GAAP), Property Plant and Equipments, were carried in the balance sheet at historical cost. The Company has elected to regard those values of property as deemed cost as at April 1, 2016 (date of transition to Ind AS).

Recognition and de-recognition

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes purchase price, taxes and duties, labour cost and other direct costs incurred up to the date the asset is ready for its intended use.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Projects under which assets are not ready for their intended use are shown as Capital Work-in-progress.

Gains or losses arising from de-recognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is de-recognised

Subsequent measurement (depreciation)

Depreciation on property, plant and equipment is provided to the extent of depreciable amount on the Straight Line (SLM) Method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Pursuant to the enactment of the Companies Act, 2013 (the Act), cost of leasehold improvements is being amortised over the remaining period of lease of the premises. Plant and machinery - distribution equipment is being depreciated over a period of 10 years.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) **Leases:**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Company as a lessee

Assets held under finance leases are initially recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

(c) Intangible assets:

Recognition and de-recognition

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation/depletion and impairment loss, if any. The cost comprises purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use and net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Subsequent measurement (amortisation)

The cost of intangible asset is amortized over a period of its useful life from the date of its acquisition.

Computer software is being depreciated over a period of 5 years.

(d) Development Expenses

Revenue expenditure pertaining to pre-production activity is charged to the Profit and Loss Statement. Development costs of shows are charged to the Profit and Loss Statement unless a shows's feasibility has been established, in which case such expenditure is recognised as work-in-progress.

(e) Borrowing Cost

Borrowing costs that are directly attributable to acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset when it is probable that they will result in future economic benefits to the enterprise and the costs can be measured reliably.

Other borrowing costs are recognised as an expense in the year in which they are incurred.

(f) Inventories

Items of inventories are measured at lower of cost and net realisable value. . Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition.

(g) Impairment of non-financial assets

At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite lives may be impaired. If any such impairment exists the recoverable amount of an asset is estimated to determine the extent of impairment, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value, using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of operations.

(h) Provisions, Contingent liabilities and Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are not recognised in the financial statements.

Contingent assets are disclosed when there is a possible inflow of economic benefits resulting from past events, the realization of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. Alternatively, a contingent asset arises from past events where it is either not probable that an inflow of economic benefits will occur or a reliable estimate of the amount cannot be made.

(i) Employee Benefits

Short Term Employee Benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-Employment Benefits

Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company makes specified monthly contributions towards Provident Fund, Superannuation Fund and Pension Scheme. The Company's contribution is recognised as an expense in the Profit and Loss Statement during the period in which the employee renders the related service.

Defined Benefit Plans

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Actuarial gains and losses in respect of post-employment and other long term benefits are charged to the Other Comprehensive Income.

Employee Separation Costs

Compensation to employees who have opted for retirement under the voluntary retirement scheme of the Company is charged to the Profit and Loss Statement in the year of exercise of option by the employee

(j) Taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In this case, the tax is also recognised in other comprehensive income and equity.

- Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance sheet date.

- Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

(k) Cash and cash equivalents

Cash and cash equivalents includes cash in hand and deposits with any qualifying financial institution repayable on demand or maturing within three months of the date of acquisition and which are subject to an insignificant risk of change in value.

(l) Foreign currencies

Company's financial statements are presented in INR, which is also its functional currency.

Transactions and balances

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss except to the extent that exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings are capitalized as cost of assets under construction. Additionally, exchange gains or losses on foreign currency borrowings taken prior to April 1, 2016 which are related to the acquisition or construction of fixed assets are adjusted in the carrying cost of such assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

(m) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Revenue is recognised only if following condition are satisfied:

- The Company has transferred risks and rewards incidental to ownership to the customer;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

- It is probable that the economic benefit associated with the transaction will flow to the Company; and
- It can be reliably measured and it is reasonable to expect ultimate collection

(n) Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(o) Financial Instruments

Initial recognition

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are recognised using trade date accounting

II Subsequent measurement

Non Derivative Financial Instruments

(i) Financial assets carried at amortised cost (AC) :

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI):

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

(iii) Financial assets at fair value through profit or loss (FVTPL):

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Mutual funds – All mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).

Equity instruments

All equity investments in scope of Ind-AS 109 are measured at fair value either as at FVTOCI or FVTPL. The company makes such election on instrument-by-instrument basis.

For equity instruments measured as at FVTOCI, all fair value changes on the instrument, excluding dividends, are recognized in the OCI. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Impairment of financial assets

The company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- b) Financial assets that are debt instruments and are measured as at FVTOCI
- c) Lease receivables
- d) Trade receivables or any contractual right to receive cash or another financial asset
- e) Loan commitments which are not measured as at FVTPL
- f) Financial guarantee contracts which are not measured as at FVTPL

The company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

III. De-recognition of financial instruments

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

IV. Fair value of financial instruments

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices. All methods of assessing fair value result in general approximation of value and such value may vary from actual realization on future date.

CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

- **Recognition of deferred tax assets** - The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.
- **Evaluation of indicators for impairment of assets** - The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
- **Recoverability of advances/receivables** - At each balance sheet date, based on discussions with the respective counter-parties and internal assessment of their credit worthiness, the management assesses the recoverability of outstanding receivables and advances. Such assessment requires significant management judgement based on financial position of the counter-parties, market information and other relevant factors.
- **Defined benefit obligation (DBO)** - Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.
- **Fair value measurements** - Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.
