### **Sub: Investor Presentation**

Dear Sir/Madam,

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), Regulations, 2015, we enclose herewith Investors Presentation on the Financial Highlights for the quarter ended December 31, 2025.

The copy of the same is also available on the website of the Company i.e. <https://www.bhagirad.com>

Kindly take the same on record and display on the website of your exchange.

Thanks & Regards,

**For Bhagiradha Chemicals and Industries Limited,**

## Bhagiradha Chemicals & Industries Limited

---

**Investor Presentation**

**Q3 & 9MFY26**

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Bhagiradha Chemicals and Industries Limited (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks.

The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections

**Q3 & 9MFY26 Results  
Highlights**

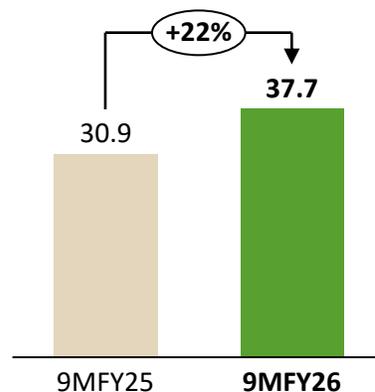

# 9MFY26 Consolidated Financial Highlights

## Revenue From Operations

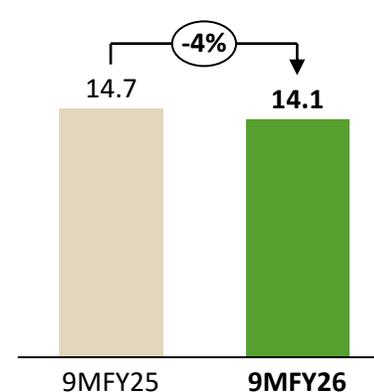

Rs. In Crores

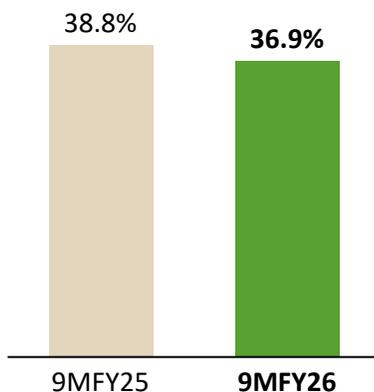

## EBITDA

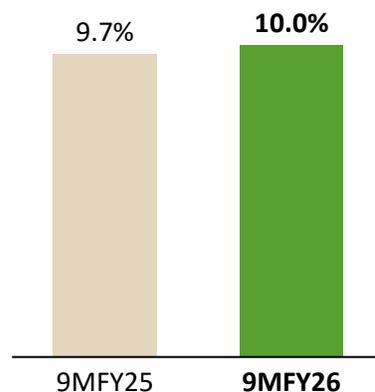

## PAT

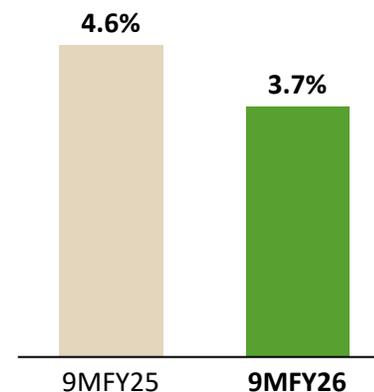

## Gross Margin (%)

## EBITDA Margin (%)

## PAT Margin (%)

### Volumes:

- Achieved mid-single digit volume growth, supported by a sustained improvement in demand trends

### Price Realizations:

- Reported double-digit growth in average price realisations, driven by a favorable product mix

### Revenue:

- Revenue growth was supported by both volume expansion and improved value realisations

### Gross Margins:

- Gross margins were impacted due to the clearance of low-margin inventory

### EBITDA:

- Operating efficiencies and cost discipline led to healthy EBITDA growth despite margin pressures at the gross level

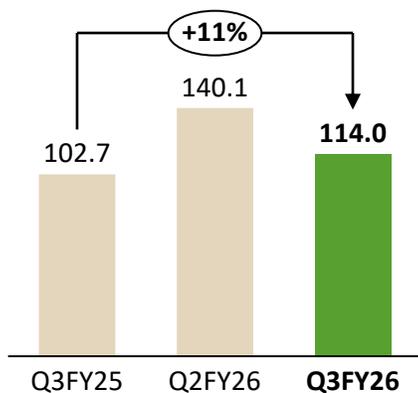

### PAT:

- Profit After Tax was largely impacted by elevated finance costs arising from higher working capital utilization during the period and higher depreciation

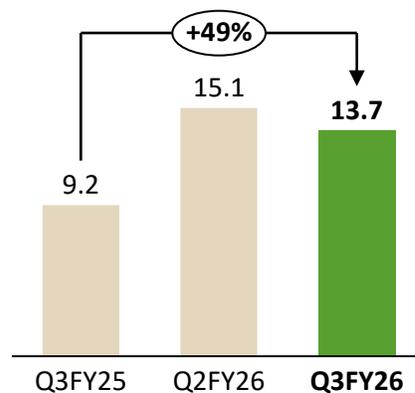

# Q3FY26 Consolidated Financial Highlights

## Revenue From Operations

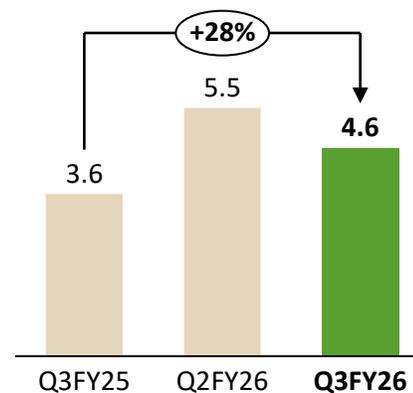

Rs. In Crores

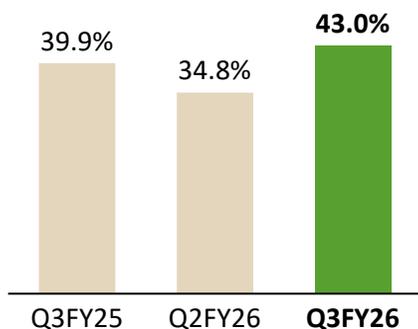

## EBITDA

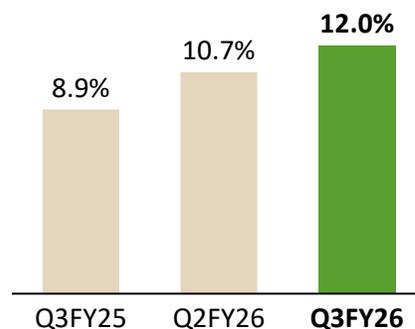

## PAT

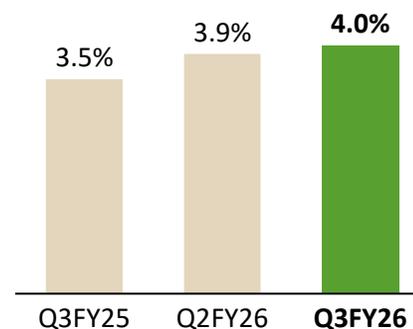

## Gross Margin (%)

## EBITDA Margin (%)

## PAT Margin (%)

### Volumes:

- Volumes were marginally lower compared to the previous quarter

### Price Realizations:

- Average realisations improved in line with revenue growth, supported by a better product mix

### Revenue:

- Revenue grew by 11% YoY. The decline in volumes was more than offset by higher average realisations, driven by an improved product mix

### Gross Margins:

- Gross margins expanded by 311 basis points YoY, led by process improvements and a favourable product mix

### EBITDA:

- Operational efficiencies and process improvements resulted in a strong EBITDA growth of 49% YoY

### PAT:

- Profit After Tax increased by 28% YoY. The growth was relatively lower than EBITDA growth due to higher depreciation and interest costs during the period

# Consolidated Profit & Loss Statement

## Commenting on the performance Mr. A. Arvind Kumar, Executive Director & CEO said:

*“Q3 is typically a softer quarter in the financial year. Due to this seasonality, volumes witnessed a marginal decline. However, revenue growth was supported by improved realizations, driven by a better product mix.*

*A key highlight of the quarter was the progress made on the process front. Several critical processes were upgraded, resulting in enhanced operational efficiency. Additionally, the product mix during the quarter was significantly better than both the previous year and the preceding quarters in terms of realization. These improvements translated into stronger gross profit performance, with margins expanding by ~311 bps YoY to ~43% in Q3FY26.*

*Raw material prices remained stable during the quarter compared to same period last year, with no sharp increases, reflecting a more settled cost environment. At the same time, realisations showed steady improvement, driven by a favorable product mix.*

*With increased capacity utilization in the current quarter, we expect a meaningful ramp-up, with the business well positioned to achieve its full revenue potential in FY27.*

*As volatility across the agrochemical industry continues to ease, the operating environment is becoming increasingly supportive. With the Bheema facility functioning at higher capacities, we are confident of delivering stronger growth in both revenue and profitability in the coming financial year. ”*

## 9MFY26 Key Highlights

- We are witnessing a recovery in volumes since H2FY25, driven by improved product mix and expanding market reach
- In 9MFY26, price realizations improved on the back of a better product mix
- During the 9MFY26 we launched a new product - in herbicide segment
- Implemented & commissioned 4MW solar plant in the factory premises

## Capex Update of the Subsidiary

- Total expansion plan of ~Rs. 800 crore, including a ~Rs. 70 crore for solar project
- Full capacities of Phase 1 are geared up for utilisation. Structured ramp-up of production planned over the next 3 months
  - Aiming to make 5 to 8 new & existing molecules, with higher gross material margin
- Phase 2 civil works are under progress; expected to commence operations by H1FY28, with an estimated capital investment of ~Rs. 350 crore

**BHAGIRADHA**

*Rooted in Chemistry,*  
**Rising with Promise**

**Company Overview**

## 30+ years Establishment

Established in 1993 by visionary entrepreneur, late Sri. S. Koteswara Rao who was well recognised scientist in South India

- **Backward integration** to basic chemicals and **faster adaptation to new chemistries** are the core strengths applied across multiple products
- **Long-standing relationship of 10+ years** with top customers in domestic and international markets

**BCIL is well-established, trusted & respected name in the Agrochemical space**

whose DNA is to Deliver Quality products on consistent basis

## Product Portfolio

**Established Capacity of 32**  
Active Ingredients, Intermediates & Formulations

## Manufacturing Facilities

**2** manufacturing facilities at Andhra Pradesh (existing) & Karnataka (upcoming)

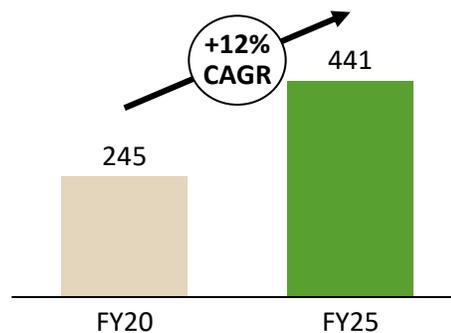

Capacity at existing facility is **3,250 MT**

Capacity of upcoming facility is **9,002 MT**

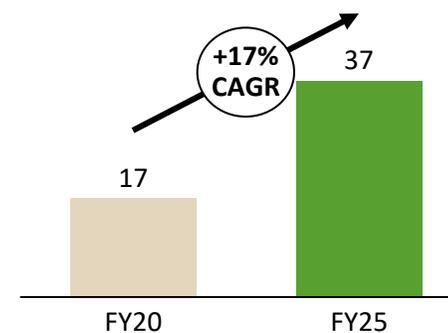

## Robust R&D infrastructure

One of the few R&D focused active ingredient players in India - **Tactically curated product basket** comprising 'Exclusive' and 'Complex' products

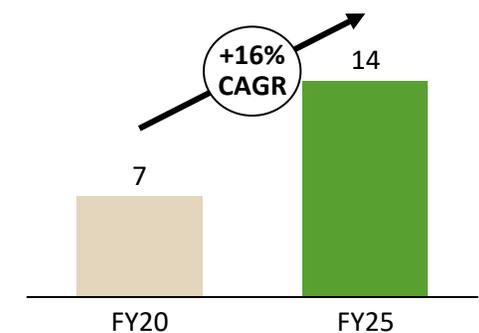

## Revenue (Rs. In Cr.)

## EBITDA (Rs. In Cr.)

## PAT (Rs. In Cr.)

# Transformational Journey so far

## BCIL 1.0

**FY04**  
Revenue:  
52 crores

**1993 - 2004**

- **1993:** Founded by Sri Koteswara Rao, a well-recognized scientist in South India.
- **1995:** Set-up manufacturing plant and launched Chlorpyrifos as Flagship product.
- **1996:** Launched IPO and listed on BSE
- **1998:** Ventured into international regulated markets including EU, Australia, Peru and Costa Rica.
- **2002:** Founder's son, S. Chandrasekhar, joined the business.
- **2004:** Set-up 2<sup>nd</sup> manufacturing block and also launched a dedicated in-house R&D facility.
- **2004:** Launched herbicide Triclopyr for exports to Australia and insecticide Imidacloprid in domestic market.

**FY11**  
Revenue:  
60 crores

**2005 - 2011**

- **2005:** Started contract manufacturing for US based MNC.
- **2008:** Set up Block 3, enhancing capacity to 3,250 MT for manufacturing new molecules.
- **2009:** Commercialized Herbicide products Clodinafop Propargyl and Cloquintocet Mexy.
- **2010:** Launched insecticide Thiamethoxam.
- **2011:** Launched Azoxystrobin at N-1.

**FY19**  
Revenue:  
384 crores

**2012 - 2019**

- **2012:** Backward integration of Azoxystrobin to N-5 level.
- **2012:** Ventured into regulated markets of Brazil and EU.
- **2014-16:** Launched 3 new intermediates for contract manufacturing business for India and US market.
- **2017:** Expanded export markets by adding big ticket customers in regulated markets like US.

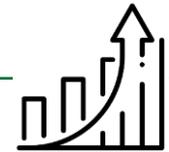

**FY25**  
Revenue:  
441 crores

**2020 - 2025**

- **2020:** Backward integration of Azoxystrobin to N-7, highest among the Indian peers.
- **2021:** Evolved a large molecule - Fipronil at high backward integration level.
- **2023:** Turnover crossed Rs. 500 crores.
- **2024:** Commencement of operations of wholly owned subsidiary Bheema Fine Chemicals.
- **2025:** Introduced new product Trifloxystrobin.

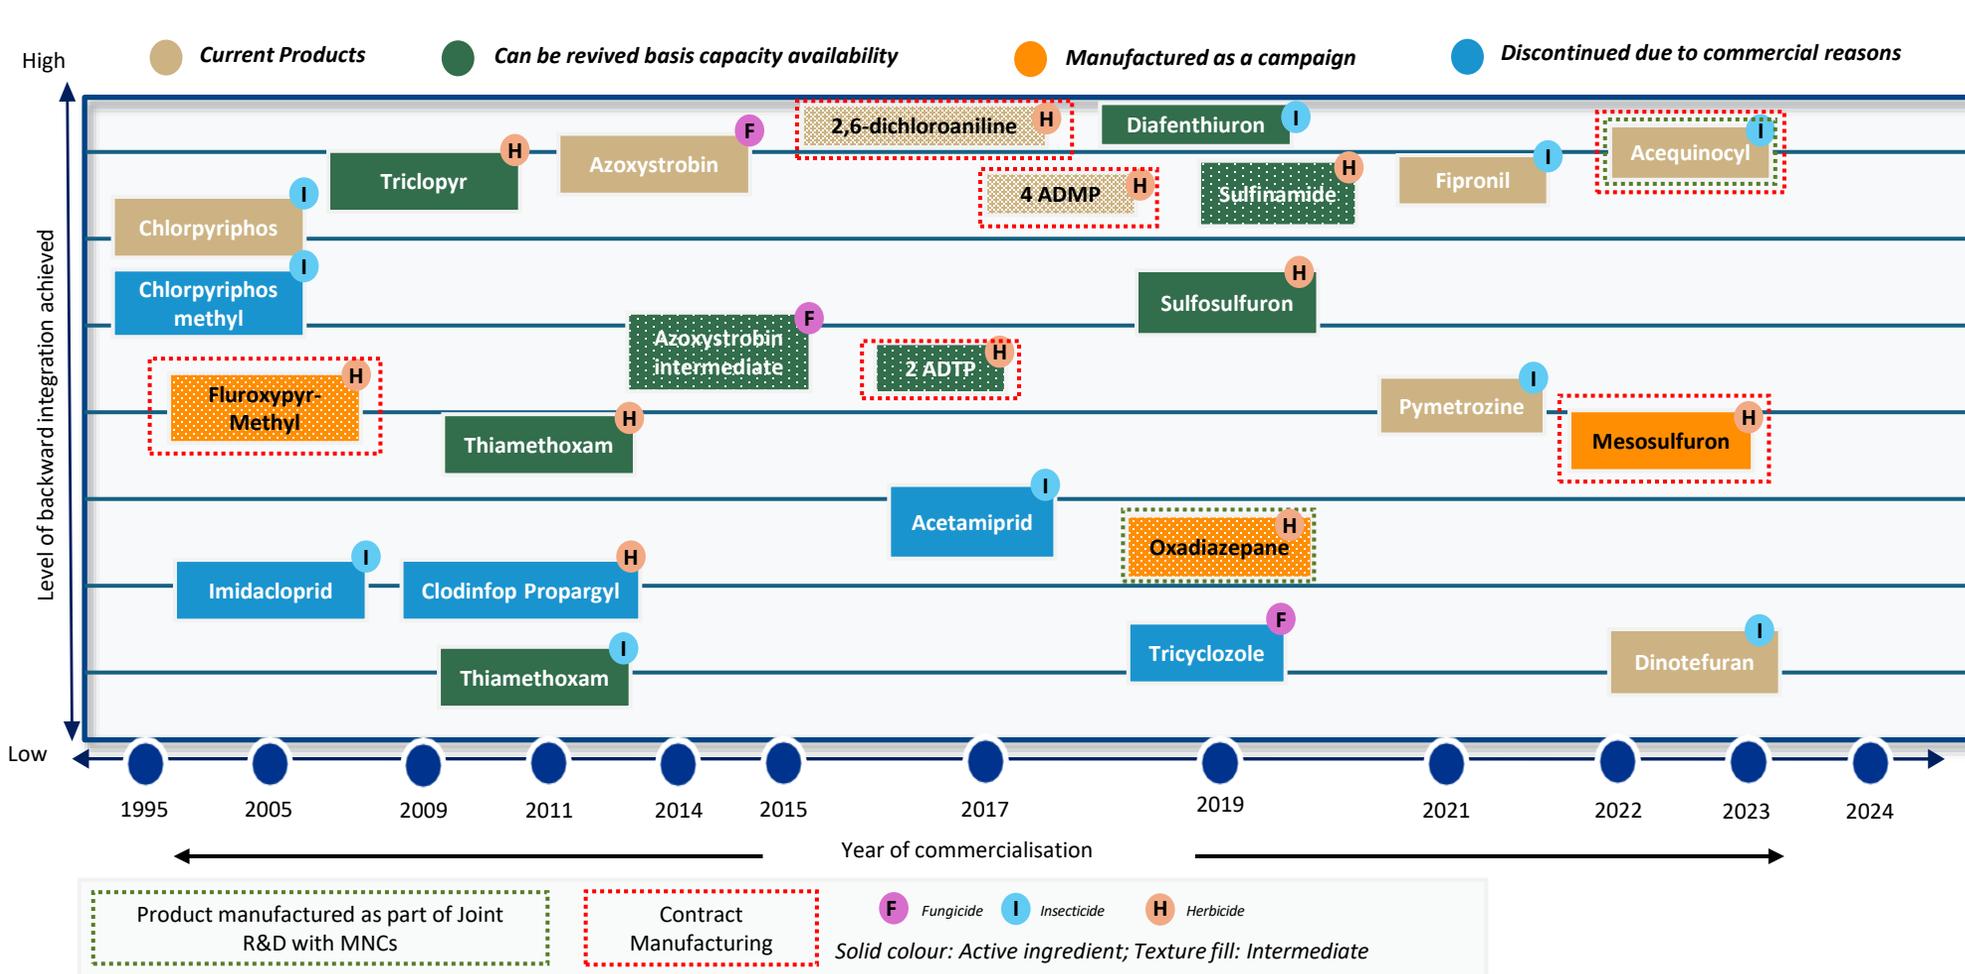

## BCIL 2.0

**Growth Phase**

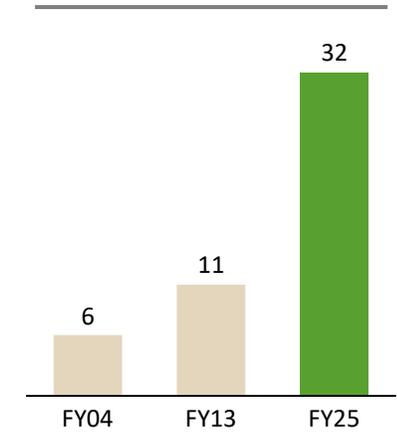

- ✓ Commencement of operations of wholly owned subsidiary Bheema Fine Chemicals.
- ✓ Greenfield expansion with incremental capacity of 9,002 MTPA.
- ✓ New Products/molecule introduction.
- ✓ Further backward integration.
- ✓ Revenue Target of ~5x in next 6 to 7 years with operating efficiency and better margin profile.

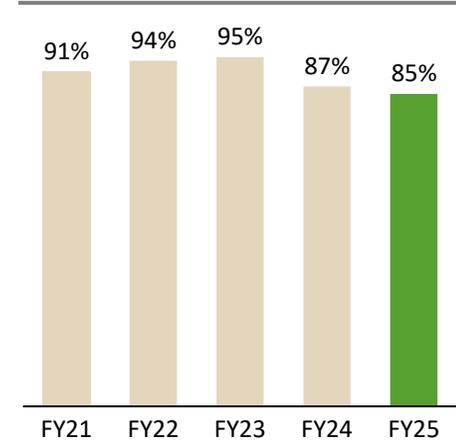

# With Product Launches at Regular Intervals

\*Products Capability

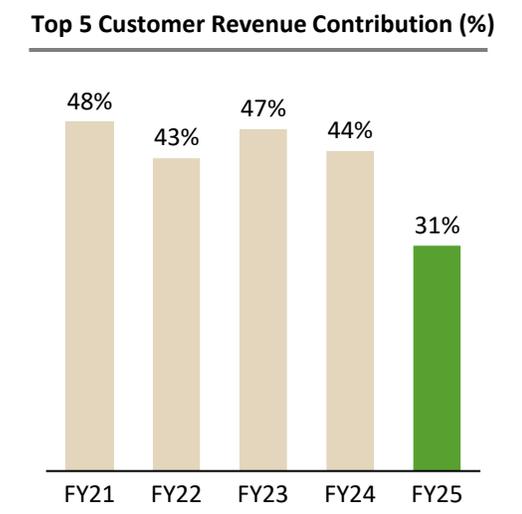

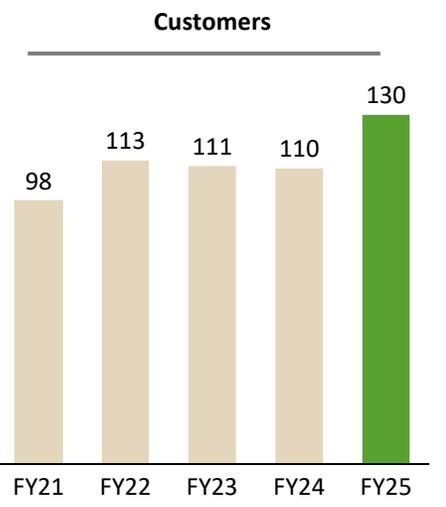

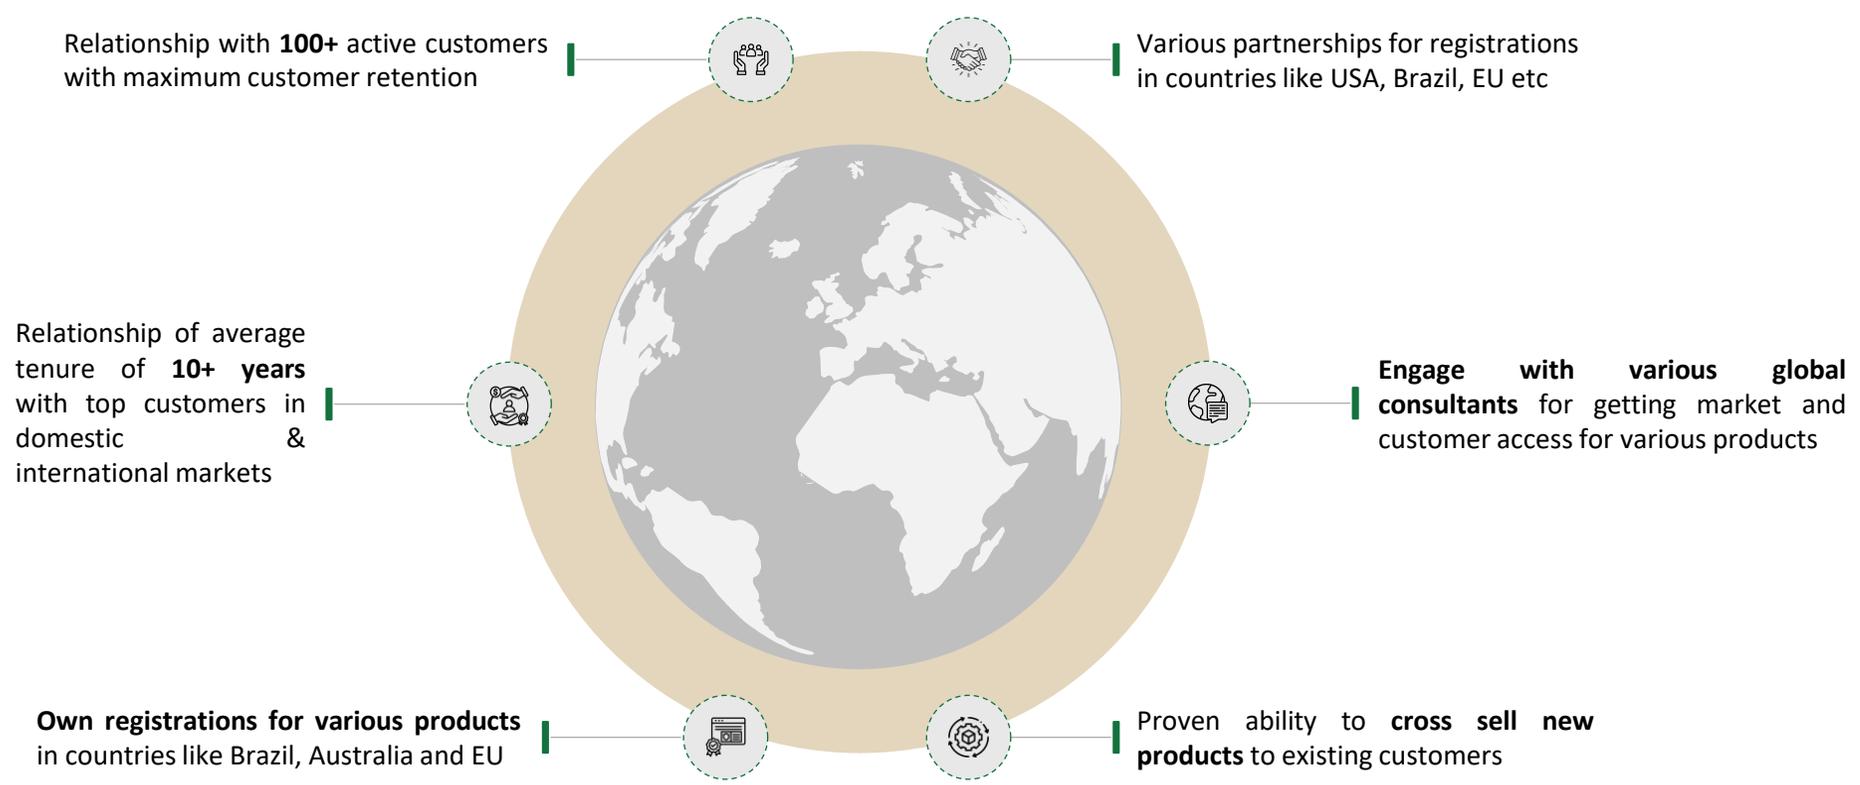

Top 5 Products Revenue Contribution (%)

**\*Over the years successfully launched 30+ Active Ingredients, Intermediates & Formulations at regular intervals, through strong in-house R&D, reflecting the innovative mindset of the leadership and R&D team**

# and Established Customer Base

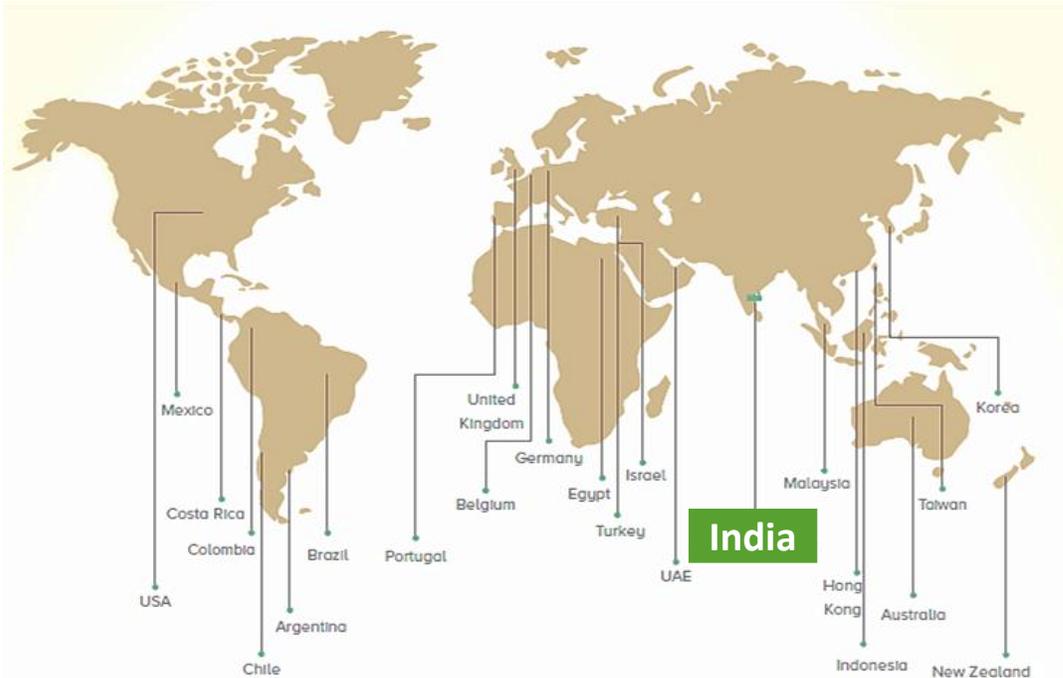

No single customer contributes more than 20% of the sales

# Along with Strong Market Presence

Presence in 20+ countries - Serving the farming communities worldwide

Manufacturing Plants in Andhra Pradesh & Karnataka (India)

**>80%** of exports sales in **regulated markets**

## Andhra Pradesh

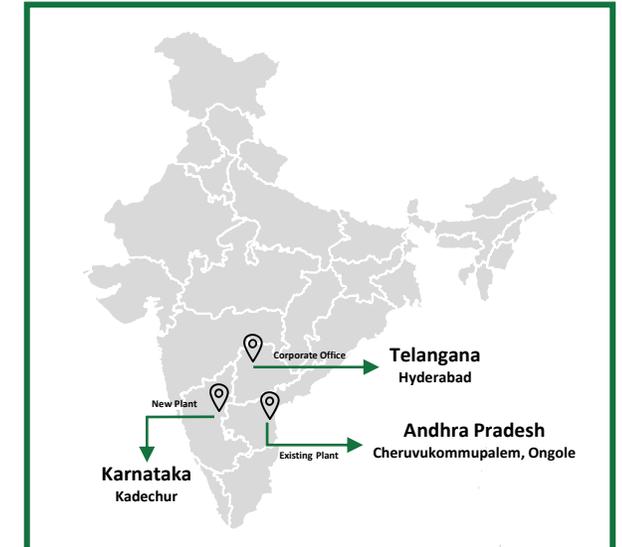

(Existing Plant)

- **No. of production blocks:** 3 production blocks with 4 process lines
- **Capacity:** 3,250 MT / p. a.
- **Capacity Utilization:** ~80%
- **No. of products manufactured in year:** 7 - 10

## Karnataka

(New Plant)

- **No. of production blocks:** 2 production blocks with 5 process lines (proposed)
- **Capacity:** 9,002 MT / p. a.
- **No. of products manufactured in year:** 10 - 14

Production blocks are equipped to manufacture multiple products as per business requirement

- **Quality infrastructure :** Well, laid out infrastructure with assured water supply by KIADB, with no dependency on outside water supply
- **Access to work force:** Proximity to key towns, help in sourcing skilled manpower
- **Cost savings on waste disposal:** Availability of TSDF inside industrial area, leading to reduced transport cost related to waste disposal
- Zero liquid discharge effluent treatment facility

*Rooted in Chemistry,*  
**Rising with Promise**

**Bhagiradha's Competitive Edge**

## Well-established R&D centre –

Approved by Department of Scientific and Industrial Research & Ministry of Technology and Science, Government of India

8 Synthesis labs with  
60+ Chemists

R&D center,  
Pilot and semi  
commercial plant

- Establishing an R&D lab for new product development, a pilot plant for sample production, and semi-commercial plant to support early-stage commercialization.
- Pursuing joint R&D initiatives with leading multinational partners from Japan, the US, and Israel

**New Process development:** Developing synthesis routes for off-patent and upcoming off-patent molecules

**Off Patent Products:** Developing cost-effective, non-infringing processes for off-patent molecules

**Backward Integration:** Enhancing backward integration of products to match leading global active ingredient players

**Library of Reactions:** Designing versatile manufacturing facilities capable of 25+ chemistries and 120+ reactions proven in R&D

**Launch Complex Products in Quick Turnaround Time:** Competency to develop complex products from lab to production scale; with quick turnaround time

**R&D Facility – Synthesis, Kilolab & Process Safety Lab**

- Process development for new products and optimization studies for existing products
- Generation of product samples and impurities to support registration process
- Process safety studies

**Pilot Plant**

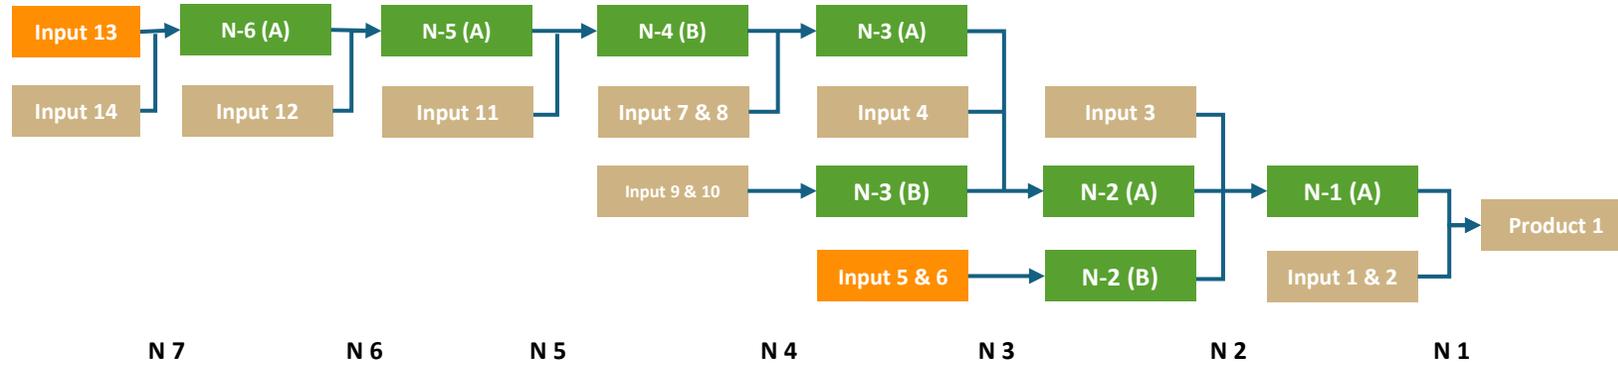

- Scaling of process up to 25 kg per batch
- Generation of product samples to support registration process
- Scale-up studies for technology transfer to semi-commercial / commercial plant

**Semi – Commercial Plant**

- Batch reactors, autoclave, condensers, etc. that can produce up to 250 kg/batch
- Support customer campaigns and enabling customer feedback to support future commercial scale campaigns

# Creating Entry Barrier: Backward Integration

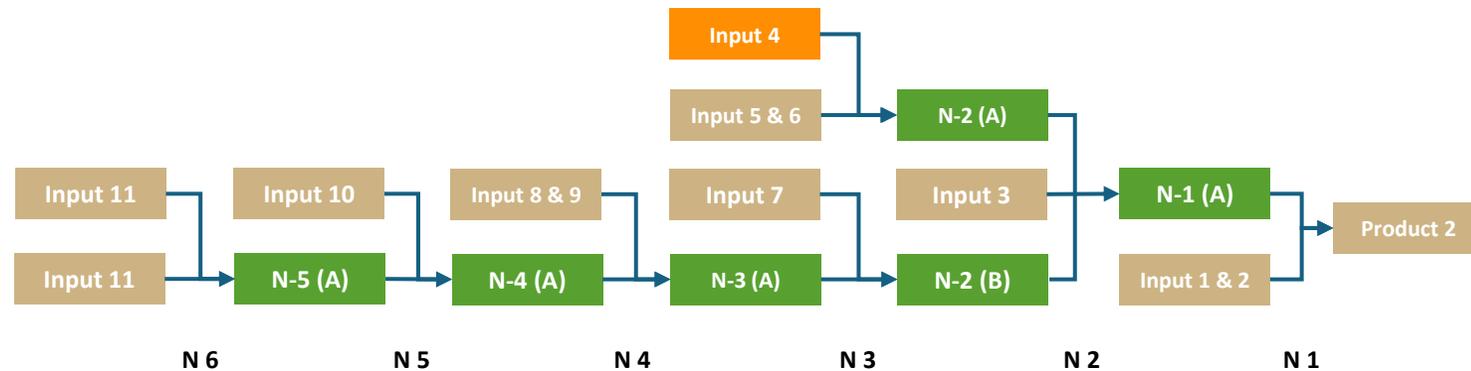

Future backward integration planned to N-7 with 13 process stages, which is expected to increase the margins

Backward integration to increase to N-9 level with 16 process stages by FY 26, thus increasing margin

~4%  
Global Market share

~14%  
Domestic Market share

Imports  
~60%

We intend to backward integrate in all the key future products on similar lines

Launched the product with high level of backward integration right from the start, commanding a high margin.

Allowed to operate at competitive pricing and capture the market

~6%  
Global Market share

~27%  
Domestic Market share

Imports  
~23%

## Effluent Treatment Plant

- Zero Liquid Discharge (ZLD) ETP which recycles water for reuse. ~30% of daily water requirement is catered through recycling
- Organic waste generated is sent to authorized cement plant for co-incineration while Inorganic solid waste is disposed to APPCB\* approved secured landfill
- Biological sewage treatment plant has been set up for treatment of domestic wastewater

## Electro Oxidation Plant

- Effluent treatment process based on electro-oxidation technology implemented for first time in an agrochemical facility
- Highly effective process for treatment of Chemical Oxygen Demand (COD) in waste waters which improve the quality of recycle water

## Pollution Control Measures

- Multi-stage scrubbers installed to control gaseous emission
- Mechanical dust collector, bag filter and stack of adequate height provided for boilers to control suspended particulate matter (SPM)
- Online Continuous Monitoring Systems (OCMS) installed as per the CPCB and APPCB guidelines

## Fire Safety Measures

- Nitrogen breathing systems installed for all bulk storage tanks (flammable solvents) and process equipment to ensure inert atmosphere (fire safety)
- Continuous earth monitoring systems installed to ensure the earth bonding to ensure no static charge accumulation
- Fire hydrant systems implemented as per Tariff Advisory Committee guidelines

## Greenery Around Plant

## ETP

## Green Belt

## Audit by Reputed External Agencies

- Ground water quality assessment (2020, 2022, 2024)
- Odor Assessment Report (2022)

- Off-site emergency plan (2021)

- Safety audit (2019)

- Risk assessment and disaster management planning

Our CSR initiatives focus on education, healthcare, and skill development, with this year's funds directed towards reconstructing and repairing a building for future use in skill development and training

## Promoting Education, Healthcare & Skill Development

## Training & Workplace Safety

*Rooted in Chemistry,*  
**Rising with Promise**

**BCIL 2.0**  
**Growth Investment**

**Bhagiradha Chemicals & Industries Limited  
(BCIL)**

**Bheema Fine Chemicals Private Limited  
(100% subsidiary)**

**Incorporated in July 2020 in Karnataka**

**Commenced commercial production on 27<sup>th</sup>  
March 2024**

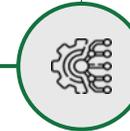

**Tax rate (@ 17.16%) for newly established  
manufacturing units**

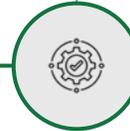

**Total Investments of Rs. 800+ crores under the Expansion Program**

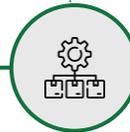

**Land size of 34 acres:**  
New manufacturing facility  
at Kadechur Industrial  
area, Karnataka

**Higher level of  
backward integration**  
for new molecules

**9,002 MT**  
Installed capacity with  
2 processing blocks

**Automated Operation**  
through implementation  
of Distributed Control  
Systems

**Zero Liquid Discharge  
ETP**  
with complete water  
recycling

**Solar Power Plant**  
for saving in power cost

# will have Exponential Growth

Expansion of Rs. 800+ crores in Phases

Direct infusion of equity from BCIL  
~ 109+ crores

~450+ crores  
Equity

Convertible Warrants  
~341 crores

~280+ crores  
Debt

Term Loan

~70+ crores  
Internal accruals

## Allocation of Funds

- Land & Building: ~190 crores
- Plant & Machinery: ~540 crores
- Solar Project: ~70 crores

Phases	Capex incurred	Expected Commencement Date	Ramp-up
Phase 1A	~39 crores	Commenced in March 2024	
Phase 1B	~346 crores	Commenced in Q3 FY26	12–24 months from date of commencement
Phase 2	~350 crores	Q2 FY28	12–24 months from date of commencement

Greenfield Capacity Expansion

Backward Integration

New Product Introduction

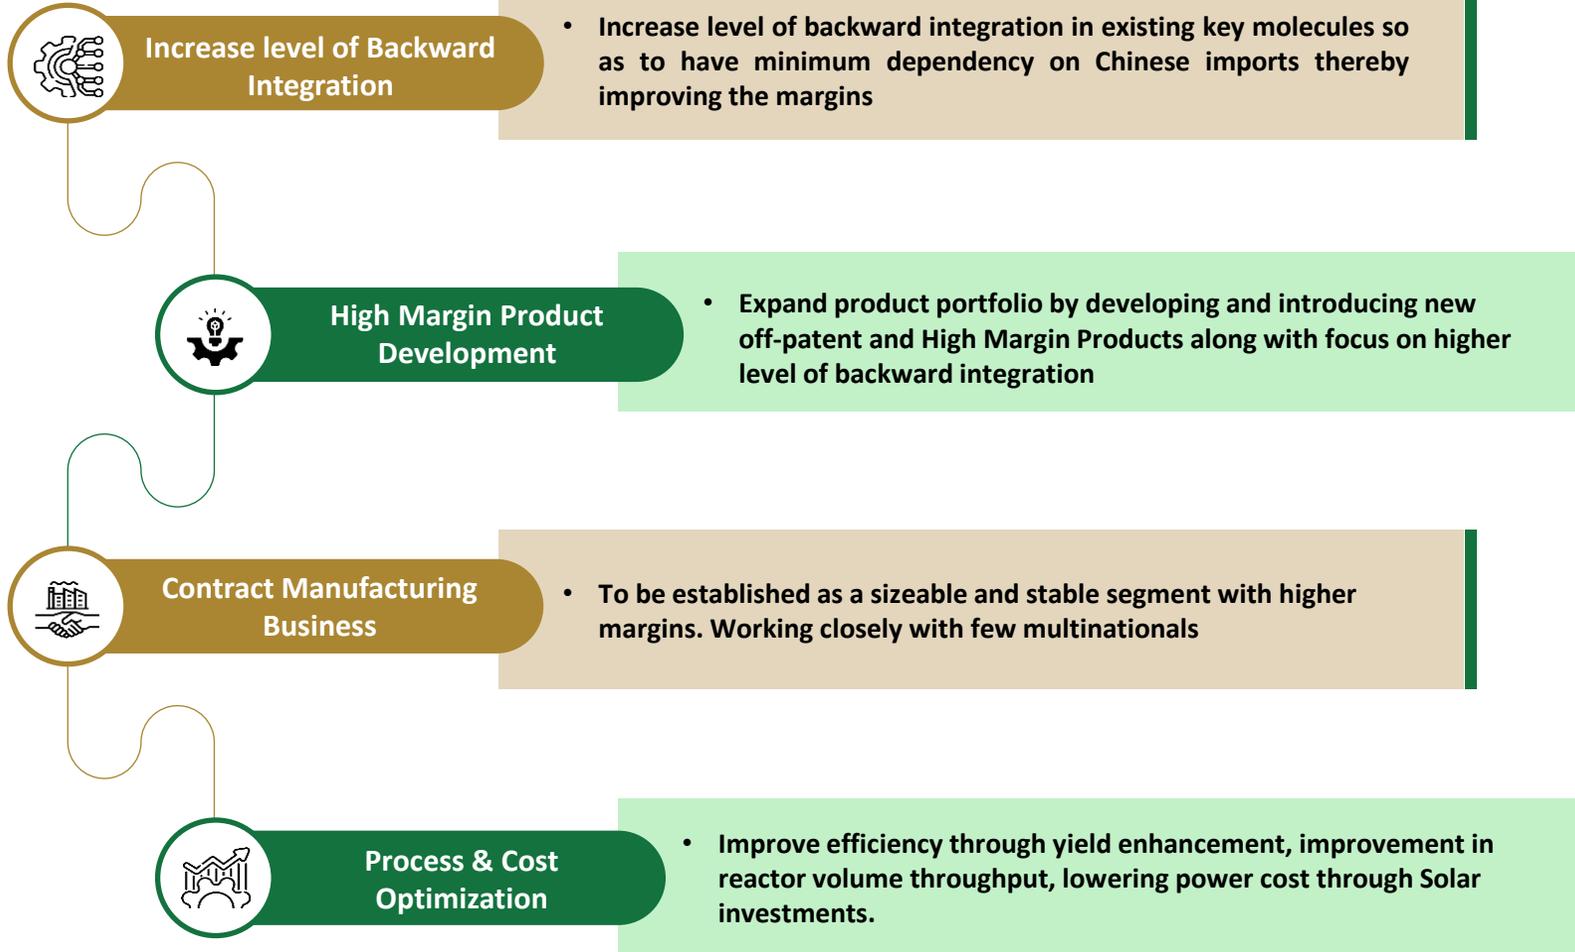

Operating Efficiency

Expected to yield ~1.5x asset turn at full potential with improved margin

Revenue Growth

Margin expansion

Higher RoCE

**Revenue Target of ~5x in next 6 to 7 years with operating efficiency and better margin profile**

- ✓ Leveraging existing relationships to capture markets & adding new customers through competitiveness pricing & ability to offer high quality products
- ✓ Launching new products which are globally top selling molecules in their respective categories with significant level of backward integration.
- ✓ New products expected to have higher margins because of the limited competition, first mover advantage & high level of backward integration
- ✓ Partnering with innovators on exclusive basis by leveraging our product development capabilities
- ✓ Ability to decode complex chemistries and develop non-infringing processes within a reasonable turnaround time.
- ✓ Preferred partner in regulated markets by virtue of its intellectual property rights in respect of certain processes

*Rooted in Chemistry,*  
**Rising with Promise**

**Annexure**

**Late Singavarapu  
Koteswara Rao**

**Scientist Founder**

- Late Sri Koteswara Rao was one of the well-recognized scientists in South India. His years of hard work, research and innovative mindset have spurred the growth and success of BCIL.
- He held a postgraduate degree in Chemical Engineering from IIT Madras.
- He started his career working in research related roles at global reputed institutes. He joined University of Stuttgart, Germany as a research fellow, after which he played a key role as production engineer at Chemische WerkeHuels AG for 6 years.
- After a successful stint in Germany, Mr. Rao returned to India and joined as a Senior Scientist at Indian Institute of Chemical Technology, Hyderabad.
- In 1988, he co-promoted Vantech Industry Limited to set up a Monocrotophos plant.
- He founded BCIL in 1993 along with his former colleague. He steered the company to success as its Managing Director.
- Under his leadership, BCIL became an internationally respected agrochemical player in a short period of time.

# Have Strong Leadership Team

**S. Chandra Sekhar**  
Promoter & Managing Director

- Sri. S. Chandra Sekhar is a Chemical Engineer holding a B. Tech degree with distinction from Osmania University and Master's Degree in Chemical Engineering from University of Illinois.
- He has over two decades of experience in speciality chemicals synthesis and chemical plants design.
- He also has strong expertise in governance, compliance and technology.

**A. Arvind Kumar**  
Executive Director & CEO

- Sri. A. Arvind Kumar holds a Master's degree in Chemical Engineering from IIT, Madras.
- He was earlier the COO of BCIL. Prior to that, he was the Executive Director of JC Biotech, another group company, and was involved in the design and commissioning of its fermentation plant.
- He has about 15 years of experience in agrochemical and pharmaceutical manufacturing

**B. Krishna Mohan Rao**  
Chief Financial Officer till 28<sup>th</sup> February 2026

- Graduate in Arts and Associate of the Indian Institute of Banking & Finance.
- 35+ years of experience Corporate finance function, Commercial and SME banking.
- Responsible for the financial operations of the Company, and legal & regulatory compliances.

**Ranjit Kumar Kilaru**  
Chief Financial Officer from 1<sup>st</sup> March 2026

- FCA-qualified Chartered Accountant with 23 years of diversified experience spanning banking, structured finance, and manufacturing sectors.
- Held senior leadership roles at Axis Bank and ICICI Bank, overseeing large SME portfolio and leading credit and relationship management teams with consistent growth and strong asset quality.

**Venkat Sai**  
Group President

- Result oriented business leader with extensive experience of over 35 Years in Agrochemical Industry.
- Prior to joining the Group during this year, he was Associated with Nichino for about 3 decades.
- Responsible for driving business growth of the group focusing both on domestic and international markets.

**Dr. Venkatesan Subbusamy**  
Vice President - Regulatory Affairs & Registration

- Holds a PhD degree in Entomology from the University of Madras.
- Associated with BCIL since 2022.
- Prior to joining BCIL, Dr Subbusamy held senior positions in UPL, NACL and ZIBO NAB Agrochemicals, China.
- Responsible for product registration in India and overseas geographies.

**Sharanya M.**  
Company Secretary & Compliance Officer

- Qualified Company Secretary, Member of the Institute of Company Secretaries of India (ICSI) and a Law Graduate.
- With over 5+ years of experience in Secretarial, Legal, Regulatory Compliances and Corporate laws.
- Responsible for ensuring compliance with Secretarial, Statutory and legal requirements while promoting corporate governance practices.

# Experienced Board Members

**Kishor Shah**  
Non-Executive Chairman

- He is a Fellow Member of the Institute of Chartered Accountants of India.
- Over 30 years of experience in senior positions in finance and accounts.
- He served as the CFO and also Board member of Balrampur Chini Mills.
- His areas of expertise include accounting, financial and treasury management, project finance, compliance, etc.

**GSV Krishna Rao**  
Non-Executive Director

- An Independent and Non-Executive Director on the Board of BCIL since November 2018.
- He is a graduate in commerce and a Fellow Member of the Indian Institute of Banking & Finance.
- He has over three decades of experience in industrial and corporate banking.

**Dr. G. Aruna**  
Non-Executive Women Director

- She is B. Tech in Chemical Engineering from Osmania University and MS in Chemical Engineering from Indian Institute of Science.
- She also completed her PhD in Chem. Engineering from the Indian Institute of Science.
- She has over 21 years of consultancy experience (post-PhD) in process design of refinery units, upstream petrochemical industries, etc.

## Non-Independent Directors

**S. Chandra Sekhar**  
Managing Director

- Sri. S. Chandra Sekhar is a Chemical Engineer holding a B. Tech degree with distinction from Osmania University and Master's Degree in Chemical Engineering from University of Illinois.
- He has over two decades of experience in speciality chemicals synthesis and chemical plants design.
- He also has strong expertise in governance, compliance and technology.

**A. Arvind Kumar**  
Executive Director & CEO

- Sri. A. Arvind Kumar holds a Master's degree in Chemical Engineering from IIT, Madras.
- He was earlier the COO of BCIL. Prior to that, he was the Executive Director of JC Biotech, another group company, and was involved in the design and commissioning of its fermentation plant.
- He has about 15 years of experience in agrochemical and pharmaceutical manufacturing.

**L. S. Singavarapu**  
Non-Executive Director

- Smt. Lalitha Sree Singavarapu has been a Promoter Director since 2015.
- She holds a Post Graduate Degree in commerce and hails from a business family.

**Suresh K. Somani**  
Non-executive Director

- Sri. Suresh Kumar Somani is the Founder and Joint Managing Director of Ratnabali Group.
- He is an entrepreneur, investor and philanthropist with a substantial experience of over 40 years in the equity markets.
- He is a commerce graduate from St Xavier's college, Kolkata.

### Power & Fuel Cost (% to sales)

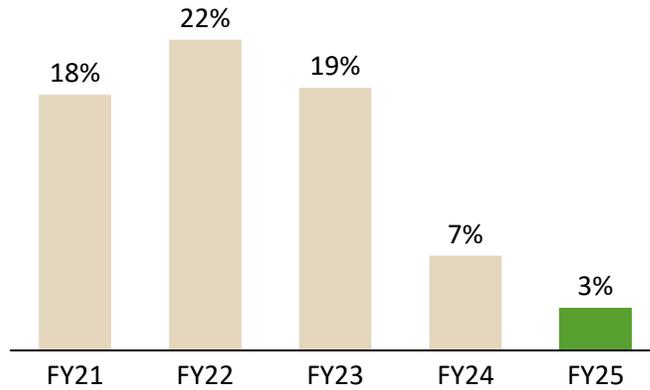

### Other Expenditure (% to Sales)

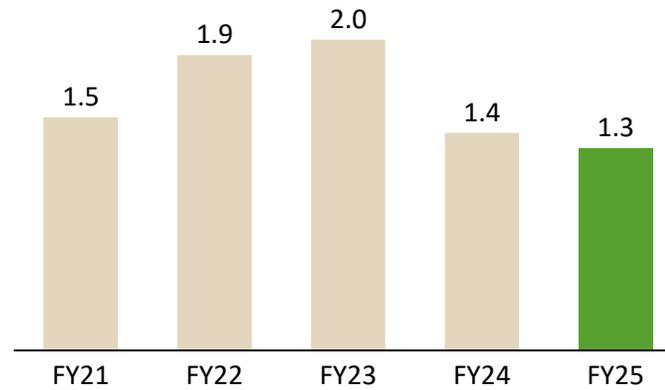

Cost of overheads in percentage terms is higher, owing to lower revenue in FY2024

# Key Ratios

### Return on Capital Employed (%)

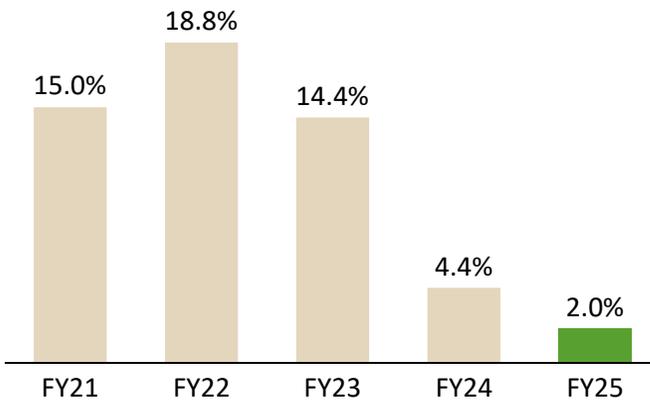

### Asset turnover ratio

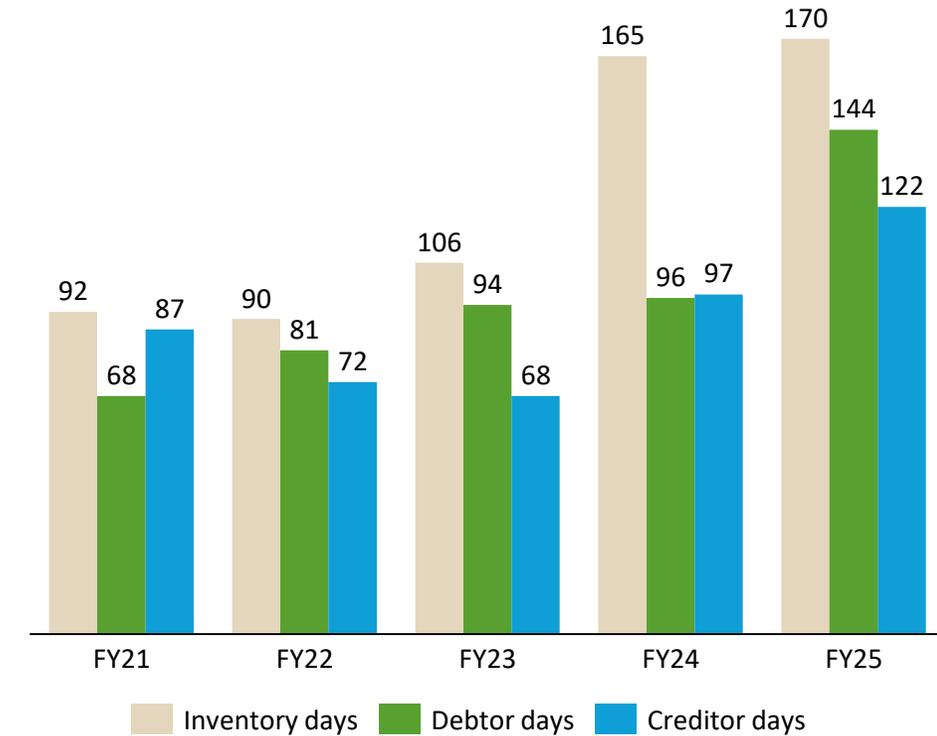

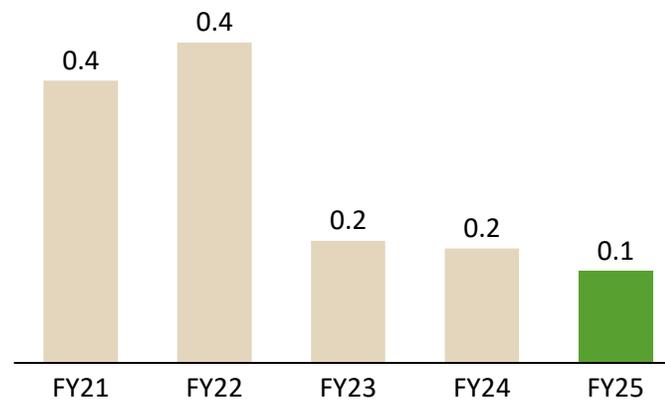

### Working Capital (No. of Days)

### Return on Equity (%)

### Debt to Equity Ratio

ROCE and ROE appear lower as the fund raised for the subsidiary's project are under deployment and improvements shall be reflected upon achieving full scale operations

Assets turnover is lower due to ongoing investments taking place in subsidiary, expected to be operationalized from this financial year
