Success Milestones

- Commenced PVC pipe manufacturing operations
- Established 3,000 MTPA plant in Sikanderabad, U.P.
- Started manufacturing uPVC Plumbing fittings with 180 MTPA capacity
- Commenced manufacturing cPVC Pipes & fittings using Remone, France resin
- Started manufacturing uPVC agri and SWR fittings
- Largest plastic piping solution company
- Installed capacity of molding division enhanced to 2,700 MTPA
- Concluded promoter infusion of Rs. 202 crore through issuance of Equity Shares and fully convertible warrants on Preferential basis
- Concluded the strategic acquisition of Kisan Mouldings' manufacturing unit in Bengaluru
- Successful listing of Company's shares on NSE

- Started manufacturing HDPE pipes
- Setup new plant at Dadri – UP of Capacity – 21000 MTPA
- 1st Company to start manufacturing of patented uPVC column pipes in North India
- First in North India to install 900 kg/hr PVC extension line
- Expanded capacity by 10,000 MTPA
- Took total available capacity to 50,000 MTPA
- Purchased a land with building in Noida to develop Apollo Pipes' corporate office
- Introduced a brand new product range of premium plastic faucets, taps, showers and accessories

Our Environment, Social, Governance and Safety Policy

- **Cost Savings and Energy conservation are one of the key focus areas for Apollo Pipes**

- Installed rooftop solar plant at Dadri for optimum utilisation of energy
- Evaluating opportunities to install rooftop solar plants at Ahmedabad and Bengaluru in the near future
- Organized various awareness programmes for Shop-floor manpower to ensure optimum utilization of energy across plants
- Complete in-house set-up for re-use of Polymer Waste ensuring nil environmental pollution

- **Social Welfare of the Society**

- Funds and efforts towards Education and Welfare of orphaned and abandoned children and Health Care of the unprivileged
- Associated with Bharat Lok Shiksha Parishad ("BLSP") and FCS Foundation to include scholarship programme for meritorious students who are socially backward and under-privileged

- **Effective safety policy and regular safety audits conducted regularly**

- RO and water softening plant facilitating safe consumption of water
- Regular workshops & training for machine operations / handling & safety
- Mechanized Finished Goods movement
- Usage of masks and safety gears for plant personnel

- **Highest standards of corporate governance practices**

- Maintains high levels of transparency, accountability in all its interactions with its stakeholders including shareholders, employees, lenders and the government

GROWTH LEVERS

12

Key Business Strengths

Strengthening distribution network across India to augment presence and improve market penetration

Enjoys a dominant and leading presence in North India

Tapping newer markets to reduce inventory cost for Distributors & Dealers

Extensive distribution network significantly reduces delivery time to 48 hours (from 10-12 days)

150+

Distributors

450+

Dealers / Retailers

Diversified Product Portfolio with total offerings at 1,000+, aiming to achieve 2,000+ products to the basket

- Range of products manufactured at the technologically-advanced manufacturing facility at Dadri and Ahmedabad
- Emphasis on innovation: One of the first companies to launch “Super Lock System” pipes in the country - Awarded 10 year patent for the innovative product
- Launched ‘Plastic Faucets, Taps and Showers’ in the domestic market – to drive higher brand visibility through New Products

Capacity Expansion to aid long-term growth plan – to achieve 90,000 MTPA in H1 FY21

* Includes acquired 12,000 MTPA capacity unit in Bengaluru

Efficiently leverage the 'APL Apollo' brand reach and recall to drive higher growth

The 'APL Apollo' Brand Edge enables better reach and product competitiveness

Branding Activities – Sports sponsorship

Principal Sponsor of Pro Kabbaddi League

IPL TVC – Principal sponsor of Delhi Capitals

Branding sponsor of 'India vs West Indies' cricket series

MACRO GROWTH DRIVERS

PVC pipe industry

The Indian PVC pipes and fittings market expected to register 15% CAGR during FY18 - FY26

- The domestic plastic pipes industry size at ~Rs. 315B
- Organized players account for ~60% market share
- Key features of plastic pipes against other pipes
 - Lightweight
 - Ease of transportation
 - Longer life span
- Key growth drivers:
 - Government's push for cleanliness and sanitation to boost water management sector
 - Increased Building of affordable houses and growing housing demand
 - Requirement for infrastructure for irrigation and water supplies

DEMAND SEGMENTATION – DOMESTIC INDUSTRY

DEMAND SPLIT – DOMESTIC INDUSTRY

At the Forefront of multiple sector trends

Urban Infrastructure & Construction

- Infrastructure push - plumbing and distribution requirements
- Water Management, Waste Management, Water Drainage & Sewerage System
- 'Housing for All' scheme and 'Smart Cities' scheme to drive demand
- Govt targeted construction of 20M and 40M houses in urban and rural areas, by 2022
 - One unit in the urban area nearly consumes 200 kg of PVC products
 - Rural house consumes ~75kg

Water Management

- Rehabilitation of aging pipelines and installation of new pipes in transportation of liquids offers a significant opportunity
- Government focus on providing clean water, clean cities with well-organized plans for sewage removal and efficient transport facilities
- National Rural Drinking Water Mission (NRDWM) to create a safe drinking water program

Agriculture Focus

- Improving irrigation schemes for farmers
- Water Table Depletion – increase in bore well activities leading to higher demand of larger diameter pipes
- Increase in land under irrigation for food production
- Increasing agriculture focus will have better demand for irrigation and thus demand for PVC pipes

Key Developments

Strengthening product basket through new and high-potential product segments – ‘Solvent Cements’ and ‘Water Storage Solutions’

- Commenced manufacturing of PVC ‘Solvent Cements’ in January 2020 – a superior quality product with excellent installation properties that can be used in various piping applications
- Key product features: 1) Meets high ASTM International standards used for plastic pipe installation 2) Qualified for use in various applications 3) User friendly as it reduces fumes and odor 4) Is environmentally Responsible by being LEED® Compliant (Leadership in Energy and Environmental Design)
- Product to be available in wide range of packaging
- The Company is also planning to launch products to provide water storage solutions in the next fiscal
 - To introduce Aqua Range of water tanks with 4 different variants – will meet the highest standard of hygiene
- In-line with its growth strategy, the Company is focusing towards improving product offerings across the value chain. This will enable enhanced business visibility, improved sales performance and profitability going forward

Key Developments

Successfully integrated the recently acquired 12,000 MTPA manufacturing facility at Tumkur, Bangalore in Company's operations

- The Company has successfully integrated the recently acquired manufacturing facility at Tumkur, Bangalore, in its business operations. The plant has started contributing to performance from January 2020 onwards
- The Company will also be establishing a manufacturing line for its high-margin 'Fittings' product at this facility
- Improved capacity and better utilization at this plant will enable healthy improvement in volume contribution, going forward

Key Developments

**Delivered a
healthy volume
growth of 15%
YoY in Q3 FY20**

- Apollo Pipes delivered a healthy volume growth despite the challenging demand conditions in the domestic market. Performance was primarily driven by a steady demand revival across product segments including the high margin product segments. Volumes stood at 10,712 MTPA as against 9,300 MTPA in Q3FY19
 - Volume in 9MFY20 stood at 34,971 MTPA as against 30,210 MTPA in 9MFY19, growing by a steady 16%
- Improving utilization levels at existing plants to enable healthy volume growth in the future - utilization levels at Dadri and Ahmedabad facilities are steadily improving and the Company expects it to improve to optimal levels in the upcoming fiscal
- The Company is also constantly working towards strengthening its sales team, dealer & distribution network, and building on brand presence to capture a higher market share and solidify business operations. Better capacity utilization and enhanced capacities should enable the Company to deliver a healthy 25%+ CAGR over the next 3 years

Financial Overview and Discussion (YoY)

Income From Operations during 9MFY20 stood at Rs. 313.8 crore, higher by 15% Y-o-Y; Income from Operations in Q3 higher by 15% at Rs. 100.02 crore

- The Company has delivered a healthy operational and financial performance during Q3 & 9M FY20. This was despite facing external challenges such as muted demand sentiments in the domestic market and impact of heavy monsoons & flooding in key geographies
- Steady sales volume growth of 16% in 9MFY20 and a 15% growth in Q3FY20 was driven by a healthy contribution from the cPVC, HDPE pipe and value-added product segment of Fittings
- The Company is witnessing a steady uptick in demand across all its product categories and remains confident of delivering and maintaining a healthy sales momentum, going ahead

EBITDA during 9MFY20 at Rs. 35.8 crore, higher by 25%; EBITDA during Q3FY20 stood at Rs. 10.7 crore, up by 25%

- EBITDA Margins for 9MFY20 improved by 91 bps to 11.4%; Margins in Q3 FY20 improved by 86 bps to 10.7%
- Improving contribution from the high-margin value added segments further resulted in a better gross margin performance

PAT for 9MFY20 stood at Rs. 22.31 crore, higher by 20% and in Q3FY20 it stood at Rs. 6.7crore, up by 25%

- Depreciation costs increased to Rs. 8.9 crore in 9M FY20 on account of increased commissioning of new capacities
- PAT margin stood at 6.7% in Q3FY20, higher by 55 bps YoY, while in 9M FY20, PAT margins stood steady at 7.1%

Management's Message

Mr. Sameer Gupta,
Managing Director

Commenting on the
Company's performance
for Q3 & 9M FY2020

"We have delivered an encouraging set of results during quarter despite facing subdued demand conditions and weak market sentiments. In the quarter, volumes stood healthy at 10,712 MTPA, higher by 15% YoY. This volume performance was driven by improving contribution across product categories including value-added product segments.

On the operational front, I am happy to share that we have successfully integrated the recently acquired plant at Bengaluru in our business operations. The plant, with a capacity of 12,000 MTPA, has started contributing to performance from January 2020 onwards. In addition, the utilization levels at our existing plants at Dadri and Ahmedabad are also steadily improving and we remain confident of further improving it in the quarters ahead.

I am also pleased to share that we have launched a brand-new segment of 'PVC Solvent Cements' during the quarter. This new segment has received a positive response from the market and it is our endeavor to steadily gain market share in this category. In addition, we are also planning to launch products to provide water storage solutions in the coming fiscal. Our growth strategy continues to be towards improving products offering across the value-added chain that will help drive enhanced business visibility and profitability going ahead.

On the whole, we believe, launch of value-added products, improved distribution network, enhanced branding activities and ramp-up in utilization at facilities will significantly enhance productivity and improve business efficiency for Apollo Pipes in the medium to longer term. To conclude, we remain optimistic of delivering a sales volume growth of over 25% CAGR over the next 3 years."

Conclusion

Key Takeaways

Aiming capacity upgradation to the tune of 90,000 MTPA

Target to achieve 25%+ sales volume growth CAGR over next three years

Value-added product categories to provide impetus to volumes and profitability

Increased market presence and improving distributor network to address demand across pan-India

Leveraging 'APL Apollo' brand reach and recall to drive higher growth in business

About Us

Apollo Pipes (BSE: 531761; NSE: APOLLOPIPE), is among the top 10 leading piping solution providing Company in India. Headquartered in Delhi, the Company enjoys strong brand equity in the domestic markets. With more than 3 decades of experience in the Indian Pipe Market, Apollo Pipes holds a strong reputation for high quality products and an extensive distribution network.

Equipped with state-of-the-art infrastructure, the Company operates large manufacturing facilities at Dadri – UP, Ahmedabad – Gujarat and Tumkur – Karnataka, with a total capacity of 75,000 MTPA. The multiple and efficient product profile includes over 1,000 product varieties of cPVC, uPVC, and HDPE pipes, PVC taps and fittings of the highest quality. The products cater to an array of industrial applications such as Agriculture, Water Management, Construction, Infrastructure, and Telecom ducting segments. The Company's extensive distribution network spreads across 450 dealers / retailers and over 150 distributors.
