The remuneration is approved by the members of Remuneration Committee. Mr. Priyanshu A. Shah is interested in resolution no. 15.

ITEM NO. 16:

One of the strongest pillars of the Company - Chairman Mr. Dinesh T. Shah started his career as diamond manufacturer and then entered in the trade in the year 1971. The earlier partner became the Chairman of the Company because of his strategic vision, professionalism and 40 years experience. With this great contribution the Remuneration Committee approved appointment of Mr. Dinesh T Shah as Chief Financial Officer in terms of Section 203 of Companies Act, 2013 subsequently the Board of Directors of the Company on March 31, 2014 redesignated Mr. Dinesh T. Shah as Executive Chairman and approved his appointment as Chief Financial Officer in terms of Section 203 of Companies Act, 2013.

He is one of the senior Directors and his guidance contributed Asian Star Company Limited in attaining status of one of the leading company as a diamond exporter.

His appointment was proposed and approved by the Remuneration Committee at a remuneration of Rs. 1,25,00,000 (Rs. One Crore Twenty Five Lacs only) which is subject to the approval of the members of the Company in the ensuing Annual General Meeting.

ITEM NO. 17:

As per Article 128 of the Articles of Association of the Company, the number of Directors of the Company shall not be less than three and more than twelve.

Currently, the Company has twelve Directors. In anticipation of the requirement of section 149 under Companies Act 2013, it is proposed to increase the upper limit to fifteen directors, on an enabling basis. Section 149(1) of the Companies Act, 2013 allows maximum strength of fifteen directors.

Therefore, the Board of Directors recommends amendment to the Articles of Association of the Company by deleting the existing Article 128 and substituting with new Article 128, to increase the maximum number of directors of the Company from twelve (12) to fifteen (15), subject to the requirements of the Companies Act, 2013.

The Resolution at Item No. 17 of the Notice is set out as a Special Resolution for approval by the members in terms of Section 14 of the Companies Act, 2013.

A copy of the Memorandum and Articles of Association of the Company together with the proposed alterations would be available for inspection by the members at the Registered Office of the Company during business normal hours on any working day, excluding Saturday, upto and including the date of the Annual General Meeting.

None of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No. 17.

ITEM NO. 18 & 19:

The shareholders of the Company had passed ordinary resolution in terms of Section 293(1)(d) and 293(1)(a) of the Companies Act, 1956, authorising the Board of Directors of the Company to borrow funds up to Rs. 2,000 Crores and to create security on the assets of the Company for securing the borrowings that would be made by the Company from time to time respectively, through Postal Ballot proceedings held on August 18, 2007. Sections 180(1)(c) and 180(1)(a) of the Companies Act, 2013, which have become effective from September 12, 2013, provide that the Board of Directors of a Company shall not, without the consent of members in general meeting by way of special resolution, borrow money in excess of the Company's paid up share capital and free reserves, apart from temporary loans obtained from the Company's bankers in the ordinary course of business; and/ or sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company, respectively.

Ministry of Corporate Affairs (MCA) vide General Circular No.04/2014 dated March 25, 2014 had clarified that the resolutions passed under Section 293 of the Companies Act, 1956, prior to September 12, 2013 with reference to borrowings and/ or creation of security on the assets of the Company will be regarded as sufficient compliance of the requirement of Section 180 of the Companies Act, 2013, for a period of one year from the date of notification of Section 180 of the Companies Act, 2013. It is, therefore, necessary for the members to pass special resolutions under Section 180(1)(c) and Section 180(1)(a) and other applicable provisions of the Companies Act, 2013, as set out at Item Nos. 18 and 19 of the Notice, to enable the Board of Directors to borrow moneys in excess of the aggregate of the paid up share capital and free reserves of the Company.

Considering the Company's future growth plans, it is proposed to increase the above borrowing limits from the existing 2,000 crores to an amount not exceeding at any time a limit of Rs. 2,500 crores (Rupees Two Thousand Five Hundred Crores only). To create security on the assets of the Company through mortgage or pledge or hypothecation or otherwise or through combination of them for securing the borrowings as the creation of security/ mortgage/ pledge/ hypothecation/ charge or encumbrance may be covered by the term "otherwise disposed of" used in Section 180(1)(a) of the Companies Act, 2013. Accordingly, approval of the shareholders is sought by way of special resolutions set out at Item Nos. 18 & 19 of the Notice.

Your Directors recommend these special resolutions for your approval.

Lasting and long-term success is a complicated and composite construct, easy to identify but difficult to define.

The visible and tangible hard outer edges of success are simple to quantify, measure and manage. They comprise metrics like pricing, supply-chain and capital efficiency that are easy to understand and analyse. While these hard edges are necessary and provide a definite advantage, this advantage is fleeting and transitory. These hard edges are easy to clone and copy.

The kernel of lasting success is ensconced deep inside these outer hard-edges. Akin to DNA in organisms, this kernel contains the unique soft code that forms, shapes and defines the character and longevity of businesses. It gives businesses the soft edge and the intrinsic strength to outlast disruptions and overcome difficulties. Unlike tangible hard edges, these soft edges are both ethereal and elusive. They cannot be cloned or copied.

At Asian Star, ENDURING EXCELLENCE forms our unique soft edge and advantage which has ensured our success for the last 43 years.

From manufacturing to marketing, from design to distribution and from expansion to execution, every step we take and every decision we make emanates and ends with our unwavering and uncompromising focus on...

...ENDURING
EXCELLENCE

Children and rough diamonds, both, require moulding and polishing to reach their true potential and acquire a shine and brilliance that is ENDURING.

Curious about learning,
experimenting and discovering...

ENDURING EXCELLENCE IN MANUFACTURING

Manufacturing is the core of our business and at the heart of our success. In both of our businesses, diamond processing and jewellery manufacturing, enduring excellence in manufacturing has given us a distinct edge through our products that have always stood apart and above for their superior quality and value.

Cutting and polishing diamonds is a highly-skilled process. It takes perseverance and patience, fortitude and focus, experience and expertise to create the best cuts. The 'Asian Star Make' has set a benchmark in the industry with its renowned consistency of cut and quality. Another example of our mastery in cutting is our special cuts. We have persevered with excellence to develop special cuts and deliver EX-EX-EX cuts in the smallest pointers. Whilst delivering best-in-class cuts, we also ensure higher yields and shorter production cycles.

In jewellery manufacturing, we have been enduring excellence through our persistent innovations in process and design. Design is a key differentiator in jewellery, and our highly-creative design team ensures we offer trendy and original designs in our collections. Through rigorous R&D, we create innovative diamond settings that make it possible to visually enhance even the smallest diamond and deliver maximum sparkle.

At Asian Star, ENDURING EXCELLENCE in manufacturing has always been our priority.

Today, we have four manufacturing locations based at Surat, Mumbai and Hosur, India. These have state-of-the art facilities with over 2000 highly-skilled workers, assiduously focussed on excellence through best-in-class operations management, quality control and timely execution.

Such has been our focus on ENDURING EXCELLENCE in manufacturing that we are among the select players in our business to leverage economies of not only size, but also of scale and scope. Our manufacturing capabilities give us the edge to offer the best cuts in diamonds and latest designs in jewellery, with assured quality and timely deliveries to our customers.

ENDURING EXCELLENCE IN FINANCE

Passionate about caring and protecting...

Finance and financial management have always played a vital role in our business due to stretched working capital cycles. The working capital cycle begins with purchase of rough diamonds, cutting and polishing, marketing and delivery, and ends with realisation of sales. In the jewellery business too, working capital is required to sustain wide range of designs, prototyping & sampling and eventual sales. Long working capital cycles necessitate financial support from banks.

In the last few years, a large number of banks have burnt their fingers with increasing cases of defaults in the industry. Many well-known players struggled to manage their finances, over-stretching themselves, and faced liquidity crisis. Banks were forced to squeeze credit to the sector, unsettling established names and sending shock-waves throughout the industry.

At Asian Star, ENDURING EXCELLENCE in finance has always been our precedence.

We have never been under any such liquidity or credit pressure. Finance is a key function at Asian Star. All aspects of finance like budgeting, planning, working capital management, treasury operations and resource are handled by a strong team of experienced professionals. The finance department aligns resources, technology and people to ensure steady cash flows, mitigation of risks, cost efficiency and an overall excellent performance.

Our ENDURING EXCELLENCE in finance is further demonstrated by our credit ratings that are amongst the best in the industry. We have been given A2+ rating by CARE (Credit Analysis and Research Ltd.) and enjoy a sustained confidence of the bankers as one of the preferred clients in the industry. We have consistently featured amongst pre-eminent companies in India. We have been ranked 299 among the top Indian companies by Dun & Bradstreet's 'India's Top 500 Companies' in 2013.

Today, at Asian Star, such has been our ENDURING EXCELLENCE in finance that all our infrastructure expansion and market development plans have been funded with internal accruals and continues to power our success and growth.

Confident about connecting and growing...

ENDURING EXCELLENCE IN MARKETS AND DISTRIBUTION

Marketing and distribution are the lifeline of our business. ENDURING EXCELLENCE in markets and distribution both complements and completes the entire business process.

Diamonds and jewellery have always been a global business, with customers spread far and wide, across all corners of the world. At the centre of this global mesh is India, with its traditional strength and advantage of being the cutting and polishing capital of the world, and home to the best designs in jewellery.

The global market-place for diamonds and jewellery is in a state of constant flux. Economic shifts are causing new consumption hot-spots to emerge in new geographies. Innovative marketing platforms like online retailing are creating new categories of customers.

At Asian Star, ENDURING EXCELLENCE in markets and distribution has always been a penchant.

The final leg of the journey is always the most crucial, and to that end, we have always been close to our customers and clients. Being keyed on to market dynamics, we are able to take strategic decisions that guide us to enter the right market at the right time, and equally, pre-empt us to exit falling markets. Our decision to re-align focus of business from Western markets to Asian markets in the last few years as well as concentrate on the next generation retail platforms like TV channels and online sellers exemplify our market alignment.

Today, we are present in all the key markets of the world from USA - the largest market, to Russia, South Africa, Indonesia and Turkey - the newest markets. Being close to our customers creates superior client engagement and bespoke servicing. This translates into customised product development and merchandising, and relevant promotional support.

At Asian Star, we are ENDURING EXCELLENCE in our markets and distribution by regularly re-arranging our geographic markets. We are constantly de-risking our business by adjusting to market dynamics, becoming more relevant and significant to our customers, resulting in strong growth and expansion.

Vipul P. Shah

Dear Shareholders,

It is always a pleasure to review performance for the year and share with you plans for the forthcoming year. The year 2013-14 was indeed an eventful and interesting one, due to external challenges in the economy as well as developments in the industry.

The global economy continued to face stiff headwinds with key developing economies all struggling to grow at desired levels. In the USA, growth stalled in 2013 to 1.9 per cent after an encouraging 2012 when the economy grew by 2.8 per cent. Retail sales continued to remain disappointing with the key bridal and engagement ring segment remaining flat. The EU continued to de-grow in 2013, albeit at a lower rate of 0.2 per cent compared to 0.4 per cent in 2012. The emerging economies, particularly of China and India faced challenges on both domestic and international front with further slowdown in growth compared to the previous year.

In the Indian Gems and Jewellery industry, restrictions on gold imports to reign in current account deficits caused a near panic in the industry. The prices of rough diamonds remained high throughout the year, squeezing margins. The declining currency further aggravated the situation.

In spite of a difficult operating environment, there was a marked increase of 12.65 per cent in the export of cut and polished diamonds in value terms to US\$ 19.6 billion for the year 2013-14. The import of rough diamonds also increased by 11.98 per cent to US\$ 16.7 billion during the year signifying an increase in cutting, polishing and other manufacturing activities in the diamonds processing space. However, there was a discernible decrease of 39.5 per cent in the export of Gold jewellery & Gold medallions which stood at US\$ 11 billion for the year 2013-14. This was largely due to limited supply of gold throughout the year, imposing restrictions on the extent of trade for many of the Indian jewellery manufacturers.

Against this backdrop of challenges on both the economic and industry fronts, Asian Star delivered yet another excellent performance. Our consolidated turnover for the year was Rs. 3,250 crore against Rs. 2,462 crore in the previous year, an increase of 32.01 per cent. Our diamond business increased from Rs. 2,022 crore in 2012-13 to Rs. 2,768 crore in the current year, rising by 36.89 per cent, while our jewellery business increased from Rs. 431 crore in 2012-13 to Rs. 476 crore in the current year, registering an increase of 10.44 per cent. Our margins improved significantly too, with our PBT increasing to Rs. 97 crore

compared to Rs. 62 crore in the previous year, while our PAT increased to Rs. 78 crore from Rs. 48 crore in 2012-13.

This outstanding performance has been a result of our ENDURING EXCELLENCE. From our manufacturing to financial management to marketing and distribution, we have been enduring excellence with our capacities and capabilities. Excellence, we have always believed, is more of an attitude and approach than an outcome. Enduring excellence is ingrained and embedded into the very DNA of our company, and it is this soft edge of excellence that is providing us with the thrust to progress ahead, powering our success and growth.

We have ambitious plans to maintain our momentum of growth by further expanding our capacity and improving upon our capabilities. We are constantly upgrading our manufacturing facilities for diamond processing as well as jewellery manufacturing with a clear focus on not only increasing output, but also reorienting our manufacturing efficiencies for a stronger focus on special cuts, especially in smaller sizes, to garner a bigger share of this growing premium segment. In the jewellery business, we continue to invest in our design capabilities and R&D processes to deliver innovations.

As I look ahead, I am filled with a sense of optimism and positivity. India has always possessed unbeatable edge in gems and jewellery since ancient times. As a country, we have been renowned for the best skills and quality in the world. With the right support and policies, the sector indeed has an immense potential. With economies in key diamond and jewellery markets like the USA and Japan improving, and with the Indian economy forecast to pick-up, the future looks assured and affirmative.

At Asian Star, we are committed to continue with our expansion, be it in manufacturing or distribution, with a growth-oriented focus to improve efficiencies and deliver superior products and services. We are poised to progress further on the strong trajectory of growth and sustain ENDURING EXCELLENCE, not only for our customers, but also for all our stakeholders.

With best wishes,

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

The year 2013-14 was a year of uncertainty when the expectations weathered a setback. Amidst challenges, growth was elusive with under performance being the norm in almost all regions and major economies. Growth in the world GDP dipped from 3.2 per cent in 2012 to 3.0 percent in 2013. (Source IMF).

The second half of the year marked a significant turnaround in the fortunes of global economy which saw a clear pickup in momentum with rise in output, investments and confidence, both on consumer as well as on the investor fronts. Europe witnessed greater financial stability and there were signs of revival in a number of its constituent nations. The US too registered improvement in employment levels and overall growth prospects prompting Federal Reserve to initiate withdrawal of stimulus measures. The slowdown in the Chinese economy seems to have bottomed out with its growth steadying at 7.7 per cent for two consecutive years. Though this is much lower as compared to the double digit growth which it used to have, it is still formidable as compared to growth in other major economies.

In India, growth continued to be muted with the second successive year of sub 5% GDP growth. Volatile rupee with free fall in the first half, stubborn inflation, high cost of borrowing and delays in project approvals adversely impacted the consumer as well as business and investor confidence. Confronted with a difficult macroeconomic situation, the government and RBI took various corrective measures to support the economic growth. These had a positive impact in the latter half of the fiscal year with GDP growth recovered at 4.9%. Formation of a strong and stable government at the Centre is expected to augur well for India's economy with improved sentiment fuelled by expectation of speedier reforms and implementation of progressive policies.

INDUSTRY OVERVIEW

Global Gems and Jewellery Industry

The year 2013-14 was yet another challenging year for the Gems and Jewellery Industry. Growth was subdued as retail sales in all the major markets continued to be slow during major part of the year owing to uncertain economic conditions. Rough prices continued to rise throughout the year without corresponding rise in the prices of cut & polished diamonds and jewellery due to low consumer confidence. This further squeezed the already shrinking margins. There were signs of improvement and optimism towards the latter part of the year with economies of major diamond markets stabilising and starting to grow.

Despite slowdown, the US currently accounts for the largest share of jewellery market in the world with more than half of its market being dominated by the diamond jewellery segment. Euro zone is showing signs of revival and demand in this region is expected to improve in the coming year. Regionally, Asia Pacific holds the world's largest jewellery market and is being driven largely by China and India, the two

largest consumers of gold in the world and also hold majority of the processing and manufacturing industry for jewellery. Though the demand in both these countries had slowed down in past couple of years, they are poised for growth as their economies seem to have bottomed out. India, alongside China, has been identified as the fastest growing market in the world for luxury jewellery over the next five years. In fact, Indian consumers' aspirations for diamonds may eventually outpace their demand for gold. Analyst expect China to double its share of global jewellery market in couple of years and become the second largest diamond consuming market after the US.

Indian Gems and Jewellery Industry

The Gems and Jewellery industry has been playing a very important role in the Indian economy and contributes about 6-7 per cent to the country's gross domestic product (GDP), besides large scale employment generation and contribution to the country's foreign exchange earnings. In FY 2013-14, the Indian gems and jewellery sector contributed US\$ 34.75 billion to India's foreign exchange earnings. Sensing its immense potential, the Government of India has declared the sector as a thrust area for export promotion.

The overall export of Gems and Jewellery fell by 11 per cent to US\$ 34.75 billion in 2013-14 as compared to US\$ 39.04 billion in previous year. This was mainly due to subdued demand in the global markets and gold supply constraints in the domestic market throughout the year. The UAE was a key export destination with 35 per cent export followed by Hong Kong at 28 per cent and the US at 14 per cent.

Cut and Polished Diamonds

India is the world's largest centre for cutting and polishing of rough diamonds. Historically developed as a cutting centre for smaller sized and lower valued diamonds, India is now seen as a centre that can provide diamonds of virtually all sizes, shapes and colour with many of the larger companies having moved into cutting diamonds of larger sizes and fancy shapes and cuts. India provides the best solution in diamond processing in terms of cost, quality and timeline. Its favourable geographic location has made India a one-stop sourcing centre for overseas buyers.

During the year 2013-14, exports of cut and polished diamonds increased by over 12 per cent to US\$ 19.63 billion as compared to 17.43 billion in the previous year.

% Share In Export Basket

Jewellery

Jewellery witnessed one of the most challenging year. Export of jewellery and gold medallion fell by 39.5 per cent during the year mainly due to prolonged global economic crisis and various regulatory curbs imposed by government to rein the current account deficit. However, improvement in the global economies, relaxation of various restrictions by the government and reduction in import duty of gold is expected to put this segment back on the growth trajectory.

India is witnessing a shift in consumer preference towards platinum jewellery and diamond studded jewellery. The increase in sales of platinum and diamond jewellery alone accounted for a third of the jewellery sales in 2013. Furthermore, the aggregate demand for diamond jewellery has increased by over 25 per cent in the domestic market, with the high-end diamond jewellery exhibiting strong sales.

The Indian branded jewellery market is growing far more rapidly than the overall jewellery market. Changing demographic profile, increasing disposable incomes, changing consumer tastes and preferences is driving and will continue to drive the demand for branded jewellery. Branded jewellery has an aspirational value catering to the rising desires and wants of the upwardly mobile segments. Retail brands are expanding their reach in tier II and tier III cities to penetrate and explore the untapped market. Many global majors are looking at India strategically, both in terms of a lucrative market as well as a destination for cost competitive solutions.

COMPANY OVERVIEW

Asian Star Company Ltd. is a one of the largest integrated diamantaires in the world and Diamond Trading Company Sightholder. The Company has a presence across the entire value chain: from

diamond cutting and polishing, jewellery manufacturing and distribution to jewellery retailing. The Company has been Enduring Excellence to create a distinct and differentiated edge over its competitors, which has enabled the Company to emerge as a preferred supplier for diamonds and diamond jewellery to some of the leading retail brands and retail chains across the globe.

Manufacturing Facility for Polished Diamonds

The Company has been a pioneer in cutting and polishing of diamonds. It has a world-class manufacturing set up in Surat with state-of-the art machinery and equipment. The Company completed expansion at this facility during the last fiscal year. This facility, spread across 1,00,000 sq.ft., employs more than 1300 skilled workforce. This technically advanced facility with production team having an experience of more than four decade is fully competent to deal with the complexities with regard to size, colour and cuts. The Company has been known for the consistency in its quality and cut which is known as 'Asian Star Make' in the industry.

Manufacturing Facility for Jewellery

The Company has three units for jewellery manufacturing, two dedicated for domestic market and one serving to the international clients. These units located at Mumbai and Hosur are spread over 50,000sq.ft and employ more than 500 skilled employees. These units are equipped with advanced machinery and technology, encompassing rapid prototyping technology, the CAD/CAM software and 'Lean Manufacturing' processes. Production processes are synchronised to deliver maximum flexibility and minimum production cycle times, thus maximising client value. Mass produced or customised, hand-made or machine-made, the highly skilled artisans deliver a trademark precision to detail in every jewellery piece.

Distribution

The Company has aligned its global presence over the years through focussed marketing and expansion into newer geographies and emerging hot-spots of consumption. It has positioned itself strategically in the major diamond consuming centres with an extensive network of subsidiaries and marketing arms enabling it to create bespoke products. Currently, the Company is looking towards strengthening its presence in other key emerging markets, namely Russia, South Africa and Turkey.

Retail

The Company has a couture boutique, ex-factory Mumbai, to cater to HNI customers. From simply elegant to stunning signature pieces, the collections portray an exquisite blend of the modern and classic. Besides offering a wide range of prêt diamond jewellery, the Company also undertakes customised orders with jewellery design consultation.

FINANCIAL OVERVIEW

During the year 2013-14, the Company delivered outstanding results with marked improvement in both diamonds as well as diamond jewellery businesses. The Company has always focussed on improving its operational efficiency by Enduring Excellence in manufacturing to create compelling value for its customers. It has always taken a pragmatic view of markets, and ensured its presence in the key diamond markets of the world to engage closely with its customers. Based on these strengths, the Company has consistently performed well, even during difficult times when both the industry and the economy were under pressure.

For the year 2013-14, some key financial highlights of the consolidated performance were:

- Crossed a milestone of Rs. 3,000 crore in turnover during the year.
- Turnover increased by 32% to Rs. 3,250 crores against that of Rs. 2,462 crores in the previous year.
- PBT for the year increased by 62% to Rs. 97 crores compared to Rs. 62 crores in the previous year.
- PAT for the year increased by 56% to Rs. 78 crores compared to Rs. 48 crores in the previous year.

FUTURE OUTLOOK

The world economic outlook appears more upbeat for 2014 and is expected to rebound for the first time since the global financial crisis of 2008. The World Bank report projects the global economy to strengthen this year, with growth picking up in developing countries. The growth rate for the US economy is predicted to rise to 3.0 per cent in 2015 from 2.8 per cent in 2014. The Japanese economy has also shown signs of improvement under the leadership of its new government. In China, there are positive signs of a better 2014. Euro zone too is showing signs of stability. Despite many challenges it is facing at present, the World Bank is projecting India's economy to grow by over 6 per cent in 2014-15 and 7.1 per cent by 2016-17. The global diamond consumption is expected to increase by about 5 per cent as compared to 3 percent in the previous year. USA, the largest jewellery market is set to grow by more than 5 to 7 per cent for the coming few years. The overall jewellery market in China is likely to remain stable with a 10 per cent growth rate. Given the positive fundamentals for the economic climate, CARE Research expects the growth rate of the diamond industry to break through historical levels in the next two years.

In India, sentiments have improved substantially post the strong verdict in the 2014 elections. The new government has expressed its commitment to bring about sustainable and inclusive growth. It aims to usher the economy to a higher pedestal, rein in inflation, reduce current account deficit, reignite the investment cycle and restore the confidence of domestic and international communities in the national economy. In India, CARE Research anticipates expansion of the market

to fast-track with improved consumer confidence, rising income, urbanization and increasing population of working women and upper middle class.

OPPORTUNITIES

Demand Forecasts in Key Markets

USA

USA is the largest and most developed diamond markets in the world. With indications of improvement in the economy, demand for diamonds is expected to rise at 2.4 per cent on a CAGR to approximately US\$ 8 billion by 2023. One of the key drivers of this growth is expected to come from the engagement jewellery business, by far the most important segment of the US jewellery business accounting for almost half of total jewellery sold in the USA.

China

China is now the second-largest diamond market, after the US. Over the course of five years, diamond jewellery has grown from about one-quarter of China's total retail jewellery market to approximately one-third. Though the economic growth has slowed down in past couple of years, the demand for diamond jewellery will continue to grow driven by the huge surge in middle class consisting of young population. This middle class has more disposable income to spend on aspirational consumption, of which diamond jewellery is set to emerge as a priority spend.

The diamond market in China is evolving from a wedding-oriented market to a more broad-based diverse market, with consumers buying diamonds to celebrate an anniversary or for general gifting or to be in tune with the latest fashion. Popularity and demand for diamond jewellery is spreading from the big cities to the medium and small cities. These trends, along with rapid urbanization, a burgeoning middle class, and a younger generation of sophisticated shoppers signal exciting opportunities for the Global Gem and Jewellery Industry.

India

The Indian middle class is expected to rise from 16 per cent of population to 46 per cent of population by 2023. As in the case of China, this emerging and burgeoning middle class in India will be dominated by the young and upwardly mobile population, with a substantial amount of disposable income to spend. Ensured of financial security, a major portion of their disposable income is likely to be spent on purchase of conspicuous products, including jewellery.

Luxury retailing including diamond jewellery is gaining importance in India. Indian consumer is ready to splurge on luxury items and is increasingly doing so. A globally connected youth market in metropolitan cities is revolutionizing jewellery consumption in India with demand for fashion

jewellery on the rise. Indian diamond industry players are taking diamonds to the mainstream, allowing people of most economic levels to purchase diamond jewellery. Furthermore, the introduction of certified diamonds has increased trust and made diamond valuations more transparent. Jewellery manufacturers are innovating and producing fashionable and still affordable diamond jewellery targeted at the middle class where demand for such products is strong and growing by leaps and bounds.

Transition from traditional retail to organised retail is taking place with sale of branded jewellery on upswing. The convenience of shopping with multiplicity of choice under one roof, innovative and trendy designs, affordable price points are some of the factors appreciated by the new generation. This change in pattern, marked by a shift away from gold, is likely to continue, driving the diamond jewellery.

Online Sales

In the last two years, e-commerce and online shopping in India has exploded. Gone is the old notion that Indian need to see-touch-feel everything before they buy. From apparels to electronics, all categories have shown an exponential growth in online sales. Online sales offer distinct advantages of deeper catalogues and offer wider choices. Moreover, due to their 24x7 access, buyers can shop at their convenience beyond traditional shopping hours.

In line with the overall growth in e-commerce, online sales of jewellery are also on the upswing. Coupled with international designs, aggressive pricing, easy payment options like EMI and features like 30 days no questions asked return policy, these e-tailers are providing an excellent option for customers. Online sales and e-commerce in jewellery is expected to grow strongly in the future.

Diamond as an Investment Option

Diamonds are emerging as an alternate investment option. Diamonds offer moderate to low volatility in returns compared to most other asset class and yet they represent a store of value as prices have historically been growing and will continue to do so in the long term due to an expected shortage of supply, while the demand for diamonds is increasing by a double digit in India, China and other emerging markets. It has attracted public awareness in the last two years and offers huge growth potential.

RISK, THREATS AND CONCERNS

The Company has comprehensive risk management system where the senior management team sets the overall tone and risk culture of the organisation through defined and communicated corporate

values and a risk management model which promotes out-of-the-box thinking for converting potential risk to potential business opportunities.

The Company regularly scans the macro economy and industry for risks which it believes would affect its performance and prospects. The Company ensures that all such foreseeable risks are analysed in detail and appropriate measures are taken to mitigate these or limit their effect to minimal. Some of the foreseeable risks as envisaged and their management as envisaged by the Company are:

Rising Prices of Rough Diamonds

Rough prices continued to move upwards during the year and remained firm throughout the year. The prices are expected to increase further during the coming year. This coupled with weakening rupee has resulted in substantial increase in the cost.

The Company has its own manufacturing facilities that work on a 'Lean Manufacturing Process', with high yields and amongst the lowest wastages in the industry. Being vertically integrated also means that the Company can offer lowest-cost solution to its customers. The Company is constantly upgrading its plant and processes and emphasising on product innovations, thereby becoming more efficient not only in terms of quality and processing times, but also in terms of product pricing. With recent expansion of diamond processing capacity the Company will reduce outsourcing, resulting in better quality and yield with improved margins.

Synthetic Diamonds

There has been an influx of Synthetic Diamonds in all the major markets. In the recent past few cases of undisclosed mixing of synthetic diamonds with natural diamonds have been reported. With improvement in technologies year over year, it is getting increasingly difficult to differentiate between the natural and artificial diamonds. The situation is evolving into a major challenge as Consumer confidence has taken a serious blow.

Various initiatives are being undertaken by major diamond producers, trade bodies and retailers to increase the awareness about synthetic diamonds and its proper disclosure to boost the consumer confidence. The Gems and Jewellery Export Promotion Council has set up a Natural Diamond Monitoring Committee (NDMC) consisting of representatives from various trade bodies to address this issue. Proper disclosure of synthetic diamonds has been encouraged at all the levels in the value chain. Use of technically advanced equipment for the detection of undisclosed synthetic diamonds has also been increased.

Exchange Rate Risks

The industry is exposed to inherent risk of exchange rate fluctuations. The year 2013-14 witnessed continuous weakening of rupee amidst some

wild fluctuations. Rupee has depreciated over 11 per cent during last year. After breaching level of 68 per US\$, rupee stabilized around level of 60 toward the year end.

The import centric nature of the trade, acts as a natural hedge for the Company. The Company has a sound foreign exchange policy and experienced personnel constantly monitor the exchange rate movements and keep all exposures fully hedged. This ensures that the exchange rate fluctuations have no adverse impact on the margins of the Company.

Shortage of Skilled Workers

Diamond polishing and jewellery making is an art which has been passed on from generation to generation. With the advent of modern education, the age-old business of craftsmanship has been steadily losing steam. Various other career opportunities for the young educated Indians have taken precedence to this industry. Retaining the existing talent pool and attracting new manpower is a major concern for the industry.

The government has set up various training institutes to provide the Gems and Jewellery sector with a well-trained professional workforce that is proficient in all aspects of diamond assortment, grading, jewellery designing, jewellery manufacturing etc. The Company considers its people to be its most important resource and tries to ensure that they can climb up both the social as well as professional ladder while they are working for the Company. There is a continuous focus on employee training and development with specific emphasis on skill enhancement. With its people centric policies the Company has been able to attract and retain talent over years and enjoys one of the lowest attrition rate in the industry.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company is committed to ensuring that its operations are carried out within a well defined internal control framework. Good governance, well defined systems and processes and comprehensive internal audit function are the foundation of the internal control system. The Company's internal control systems are commensurate with the nature of its business and the size and complexity of its operations. These are routinely tested and certified by internal as well as statutory auditors and covers all the offices, manufacturing units and key areas of business. The Company has a well-defined system of management reporting and periodic review of businesses to ensure timely decision-making. These internal control procedures ensure the following:

- Efficient use and protection of resources
- Compliance with policies, procedures and statutes
- Accuracy and promptness of financial reports

The internal audit team routinely audits all processes and functions from manufacturing to accounting. Any discrepancy is immediately flagged off for corrective measures to the senior management. Internal audit reports are reviewed by the Audit Committee and corrective measures are carried out towards further improvement in systems and procedures and compliance with Internal Control System.

HUMAN RESOURCES

The Company prides in its people-centric principle in guiding its relationship with its employees. Employees are a key facet to the Company and the Company acknowledges that their contribution has played a key role in its growth and success. The Company ensures that safe working conditions are provided both in the manufacturing plants as well as offices of the Company. The Company regularly updates their skills with training and development programmes, which take place at all levels. The Company pursues a culture of rewarding of excellence and commitment and encouraging bonding and team work. The Company believes in creating positive, proactive and professional work environments where talents are nurtured and careers are advanced.

AUDITORS' CERTIFICATE ON CORPORATE GOVERNANCE

To the Members
Asian Star Company Limited

We have examined the compliance of conditions of Corporate Governance by Asian Star Company Limited, for the year ended on March 31, 2014 as stipulated in clause 49 of the Listing Agreement of the said Company with Bombay Stock Exchange Ltd.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance with the conditions of Corporate Governance as stipulated in the said clause. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to explanations given to us and based on the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Clause 49 of the Listing Agreement.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

To,
The Members of Asian Star Company Limited,

Report on the Financial Statements

We have audited the accompanying financial statements of Asian Star Company Limited ("The Company"), which comprise the Balance Sheet as at 31st March, 2014, the Statement of Profit and Loss and Cash Flow Statement for the year ended on that date and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards notified under the Companies Act, 1956 ("the Act") read with the General Circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Financial Statements are free of material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanation given to us, the aforesaid financial statements give the information required by the Companies Act, 1956 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- i) In the case of the Balance Sheet, of the state of the affairs of the Company as at 31st March, 2014 ;
- ii) In the case of the Statement of Profit and Loss, of the profit for the year ended on that date ; and
- iii) In the case of Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003, as amended by Companies (Auditor's Report) (Amendment) Order, 2004 (together 'the order'), issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the order.
2. As required by Section 227(3) of the Act we report that:
 - a) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company, so far as appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss and Cash Flow Statement dealt with by this report are in agreement with the books of Account.

ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT

Re: Asian Star Company Limited

Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date:

1. a. The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
b. As explained to us, all the assets have been physically verified by the Management at the end of the accounting year and no material discrepancies were noticed on physical verification as compared to the book records.
c. The assets disposed off during the year are not significant and therefore do not affect the going concern assumption.
2. a. The stocks of finished goods and raw-materials have been physically verified by the management at the end of the accounting year.
b. In our opinion, and according to the information and explanations given to us, the procedures of physical verifications of stocks followed by the management are reasonable and adequate in relation to the size of the Company and nature of its business.
c. In our opinion the Company has maintained proper records of inventory. No material discrepancies were noticed on physical verification as compared to the book records.
3. a. The Company has granted loans to one company covered in the register maintained under Section 301 of the Act. The maximum amount involved during the year was Rs. 971.41 lacs and the year end balance was Rs. 790.41 lacs.
b. These loans are unsecured, interest free and unconditional.
c. The principal amounts are repayable on demand and there is no repayment schedule.
d. There is no overdue amount. In view of this sub clause (d) of this clause is not applicable.
e. The Company has not taken any loan (secured or unsecured) from companies, firms or other parties covered in the register maintained under Section 301 of the Act excepting unsecured loan from five of its Directors. The maximum amount involved during the year was Rs. 6,108.05 lacs and the year end balance of loans taken was Rs. 5,818.05 lacs.
f. These loans are unsecured, interest free and unconditional.
g. The principal amounts are repayable on demand and there is no repayment schedule.
4. In our opinion and according to the information and explanations given to us, the company has an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchases of inventory and fixed assets and also for sale of goods and services. During the course of our audit, no major weaknesses were noticed in the internal control system.
5. a. In our opinion and according to the information and explanations given to us, we are of the opinion that the contracts or arrangements that need to be entered into the register maintained under Section 301 have been properly entered in the said register.
b. In our opinion and according to the information and explanations given to us, the transactions entered in the register maintained under Section 301 in respect of each party have been made at prices which are reasonable having regard to the prevailing market prices at the relevant time and as per the Company's business need and exigencies.
6. In our opinion and according to the information and explanations given to us the Company has not accepted any deposits from the public within the meaning of the directives issued by the Reserve Bank of India and provisions of Section 58A and 58AA or any other relevant provisions of the Companies Act, 1956 and rules framed there under.
7. In our opinion the Company has internal audit system commensurate with the size and nature of its business.
8. We have broadly reviewed the cost records maintained by the company pursuant to the Companies (Cost Accounting Records) Rules, 2011 prescribed by the Central Government for the maintenance of cost records under section 209(1)(d) of the Companies Act, 1956 and are of the opinion that prima facie, the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

9. a. According to the records of the Company and as per information and explanation given to us, the Company is generally regular in depositing with appropriate authorities undisputed amount of Provident Fund, Investor Education and Protection Fund, Employee's State Insurance, Income Tax, Sales Tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty, cess and other statutory dues applicable to it and there were no undisputed dues outstanding as on 31st March, 2014 for a period of more than six months from the date they become payable.
- b. In our opinion and according to the information and explanation given to us, there are no dues in respect of Sales Tax, Custom Duty, Wealth Tax, Excise Duty, and Cess that have not been deposited on account of any dispute.
- c. Details of dues of Income Tax and Service Tax which have not been deposited as at March 31, 2014 on account of disputes are given below:

Nature of Dues	Period to which the amount relates	Forum where the dispute is pending	Amount (in Lacs)
Income Tax	F.Y: 2004-05 to 2010-11	Commissioner of Income Tax (Appeals)	54.21
Service Tax	May'06 to September'12	Assistant Commissioner of Service Tax	446.43

10. The Company neither has any accumulated losses at the end of the financial year nor it has incurred any cash loss during the financial year or immediately preceding financial year.
11. In our opinion and according to the information and explanations given to us the Company has not defaulted in repayment of dues to any Financial Institution or Bank.
12. In our opinion and according to the information and explanations given to us the Company has not granted any loans and advances on the basis of security by way of pledge of shares, debentures or other securities.
13. The Company is not a chit/nidhi/mutual benefit fund/society and hence clause (xiii) of the Order is not applicable.
14. In our opinion, the Company has maintained proper records of transactions and contracts in respect of dealing or trading in shares, securities and other investments and timely entries have been made therein. All shares and other investments have been held by the Company in its own name except for shares held in accordance with exemption provided under section 49 (3) of the Companies Act, 1956.
15. In our opinion and according to the information and explanations given to us, the guarantee given by the Company in respect of loans taken by others from bank, the terms and conditions thereof is not prejudicial to the interest of the Company.
16. To the best of our knowledge and belief and according to the information and explanations given to us, the Company has not obtained any term loans.
17. In our opinion and according to the information and explanations given to us the short term funds raised by the Company have not been used for long term investment.
18. The Company has not made any preferential allotment of shares to parties and companies covered in the register maintained under section 301 of the Act.

SIGNIFICANT ACCOUNTING POLICIES

A. Basis for Preparation of Financial Statements

The financial statements have been prepared using mercantile system of accounting under the historical cost convention. It recognises significant items of income and expenditure on accrual basis. The accounts have been prepared to comply in all material aspects with applicable accounting principles in India and the provisions of the Companies Act, 1956.

B. Sales

Income from the sale of diamonds / jewellery is recognised when the sale has been completed with the passing of the title. Income from sale of wind energy is recognised on its transmission and delivery. Sales includes sale of goods and services and gain/loss on exchange fluctuations.

C. Other Income

Interest

Interest income is recognised on accrual basis.

Income from Investments

Income from investment is accounted in the year in which the unconditional right to receive such income is established.

D. Depreciation

Depreciation on fixed assets has been provided at the rates and in the manner prescribed in schedule XIV to the Companies Act, 1956 on straight line basis.

E. Impairment of Assets

An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An Impairment loss is charged to the profit and loss account in the year in which the asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

F. Foreign Currency Transactions

F.1 Transactions denominated in foreign currencies are recorded at the Exchange rate prevailing at the time of the transaction.

F.2 Monetary items denominated in foreign currencies at the year-end are translated at year-end exchange rate and the resultant exchange differences are recognised in the profit and loss account.

F.3 The Company enters into forward / option contracts for hedging purpose. In case of forward contracts, the difference between the year end rate and rate on the date of contract is recognised as exchange difference. The proportionate difference between the forward rate and the exchange rate on the date of transaction is recognised over the life of the contract. In case of option contracts, the premium paid and gain / loss are recognized as exchange difference on the date of settlement of the contract. Mark to market loss, if any, is recognized as exchange difference at the year end.

F.4 Non monetary foreign currency items are carried at cost.

F.5 Any income or expense on account of exchange difference either on settlement or on translation is adjusted to the profit and loss account except in cases where they relate to acquisition of fixed assets in which case they are adjusted to the carrying cost of such assets.

G. Fixed Assets

Cost of Fixed Assets comprises of purchase price, duties, levies and any cost directly attributable to bringing the asset to its working condition for the intended use. Fixed Assets are stated at cost less accumulated depreciation.

H. Capital Work in Progress

Capital work in progress comprises of cost of acquisition of assets, duties, levies and any cost directly attributable to bringing the asset to its working condition for the intended use. Expenditure incurred on project under implementation is treated as incidental expenditure incurred during construction and is pending allocation to the assets which will be allocated / apportioned on completion of the project.

I. Borrowing Costs

All borrowing costs, which are of revenue nature, are charged to Profit and Loss Statement.

J. Investment

J1. Long term investments are valued at cost. Provision for diminution in value is made only if such diminution is otherwise than temporary in the opinion of the management.

J2. Current Investments - Quoted are valued at cost or market value, whichever is lower.

K. Inventories

K1. Stock of raw materials is stated at weighted average cost or net realizable value whichever is lower. Stock of polished diamonds (for jewellery operations) is valued at technically evaluated cost or net realizable value whichever is lower. Specific items of cost are allocated and assigned to inventory wherever practicable.

K2. Work in Process is valued at technically evaluated cost. Finished goods are valued at technically evaluated cost or estimated net realizable value, whichever is lower. Cost includes cost of material and related conversion cost. In view of the nature of variation in the values of individual diamonds and the differential in their processing costs, it is not practicable to compute the cost of polished diamonds using either FIFO or weighted average cost. In view of the numerous grades, it is not practicable to use specific costs. The method of valuation is therefore in compliance with "AS2" issued by the Institute of Chartered Accountants of India to the extent practicable.

K.3 Consumables are valued at cost.

L. Employee Benefits

L1. Short term Employees benefit

Short term employee benefits are recognized in the period during which the service has been rendered.

L2. Long Term Employee Benefit

a) Provident Fund Act, Family Pension Fund & Employees State Insurance Scheme.

As Per Provident Fund Act, 1952 all employees of the company are entitled to receive benefits under the provident fund & family pension fund which is a defined contribution plan. These contributions are made to the fund administrated and managed by the Government of India. In addition some employees of the company are covered under Employees State Insurance Scheme Act, 1948, which are also defined contribution schemes recognized and administered by Government of India.

The company's contributions to these schemes are recognized as expense in Profit and Loss account during the period in which the employee renders the related services. The company has no further obligation under these plan beyond its monthly contributions.

b) The company provides for gratuity obligation through a Defined Benefit Retirement Plan ('The Gratuity Plan') covering it's employees. The present value of the obligation under such Defined plan is determined based on actuarial valuation. Actuarial gains and losses are recognized in Profit & Loss Statement as and when determined. The company makes annual contribution to LIC for the Gratuity plan in respect of employees.

M. Taxation

Current Tax is determined as the amount of tax payable in respect of taxable income for the year after considering various relief's admissible under provisions of the Income Tax Act, 1961. The deferred tax for timing difference between the book and tax profit for the year is accounted for using tax rates and tax laws that have been enacted or substantially enacted at the Balance Sheet date. Deferred tax asset arising from timing difference are recognised to the extent that there is virtual certainty that sufficient future taxable income will be available.

N. Provisions, Contingent Liabilities and Contingent Assets

The company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

Segment Reporting and Related Information requires that an enterprise report a measure of total assets for each reportable segment. The fixed assets and inventories used in the company's business are not identifiable to any particular reportable segment and can be used interchangeably among geographical segments. Consequently, management believes that it is not practical to provide segment disclosures relating to total assets since a realistic analysis among the various geographic segments is not possible. Therefore, information has been restricted to direct debtors of each geographical segment.

INDEPENDENT AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

To
The Board of Directors of
Asian Star Company Limited

We have examined the accompanying consolidated financial statements of ASIAN STAR COMPANY LIMITED, (the "Company") and its subsidiaries (collectively referred to as the "Group"), which comprise the Consolidated Balance Sheet as at 31st March, 2014, the Consolidated Statement of Profit and Loss and Consolidated Cash Flow Statement for the year ended on that date and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Standards on Auditing issued by the Institute of Chartered Accountants of India. These Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Financial Statements are free of material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on the Financial Statements of the subsidiaries as noted below, the consolidated Financial Statements give a true and fair view in conformity with the accounting principles generally accepted in India,

- i) in the case of the Consolidated Balance Sheet, of the consolidated state of affairs of the Group as at March 31, 2014,
- ii) in the case of the Consolidated Statement of Profit and Loss, of the profit of the Group for the year ended on that date, and
- iii) in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

Other Matters

We did not audit the Financial Statements of certain subsidiaries whose financial statements reflect total assets (net) of Rs. 34,714.63 lacs as at March 31, 2014, total revenues of Rs. 1,02,354.28 lacs and net cash flows of Rs. 2,361.98 lacs for the year ended on that date. These Financial Statements have been audited by other auditors whose reports have been furnished to us, and our opinion, in so far as it relates to the amounts included in respect of the subsidiaries, is based solely on the reports of the other auditors.

Our opinion is not qualified in respect of other matter.

SIGNIFICANT ACCOUNTING POLICIES

A. Basis for Preparation of Financial Statements

The financial statements have been prepared using mercantile system of accounting under the historical cost convention. It recognizes significant items of income and expenditure on accrual basis. The accounts have been prepared to comply in all material aspects with applicable accounting principles in India and the provisions of the Companies Act, 1956.

B. Sales

Income from the sale of diamond / jewellery is recognised when the sale has been completed with the passing of the title. Income from sale of wind energy is recognised on its transmission and delivery. Sales includes sale of goods and services and gain/loss on exchange fluctuations.

C. Other Income

Interest

Interest income is recognised on accrual basis.

Income from Investments

Income from investment is accounted in the year in which the unconditional right to receive such income is established.

D. Depreciation

Depreciation on fixed assets has been provided at the rates and in the manner prescribed in schedule XIV to the Companies Act, 1956 on straight line basis. Depreciation of Asian Star Co. Ltd., New York and Asian Star DMCC, Dubai has been provided on Straight Line Basis.

E. Impairment of Assets

An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An Impairment loss is charged to the profit and loss account in the year in which the asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

F. Foreign Currency Transactions

F.1 Transactions denominated in foreign currencies are normally recorded at the Exchange rate prevailing at the time of the transaction.

F.2 Monetary items denominated in foreign currencies at the year-end are translated at year-end exchange rate.

F.3 The company enters into forward / option contracts for hedging purpose. In case of forward contracts, the difference between the year end rate and rate on the date of contract is recognised as exchange difference. The proportionate difference between the forward rate and the exchange rate on the date of transaction is recognised over the life of the contract. In case of option contracts, the premium paid and gain / loss are recognised as exchange difference on the date of settlement of the contract. Mark to market loss, if any, is recognised as exchange difference at the year end.

F.4 Non monetary foreign currency items are carried at cost.

F.5 Any income or expense on account of exchange difference either on settlement or on translation is adjusted to the profit and loss account except in cases where they relate to acquisition of fixed assets in which case they are adjusted to the carrying cost of such assets.

G. Fixed Assets

Cost of Fixed Assets comprises of purchase price, duties, levies and any cost directly attributable to bringing the asset to its working condition for the intended use. Fixed Assets are stated at cost less accumulated depreciation.

H. Capital Work in Progress

Capital work in progress comprises of cost of acquisition of assets, duties, levies and any cost directly attributable to bringing the asset to its working condition for the intended use. Expenditure incurred on project under implementation is treated as incidental expenditure incurred during construction period and is pending allocation to the assets which will be allocated / apportioned on completion of the project.

I. Borrowing Costs

All borrowing costs, which are of revenue nature, are charged to Profit and Loss Account.

J. Investment

J.1 Long term investments are valued at cost. Provision for diminution in value is made only if such diminution is otherwise than temporary in the opinion of the management.

J.2 Current Investments -Quoted are valued at cost or market value, whichever is lower.

K. Inventories

K.1 Stock of raw materials is stated at weighted average cost or net realizable value whichever is lower. Stock of polished diamonds (for jewellery operations) is valued at technically evaluated cost or net realizable value whichever is lower. Specific items of cost are allocated and assigned to inventory wherever practicable.

K.2 Work in Process and Finished goods are valued at technically evaluated cost or estimated net realizable value, whichever is lower. Cost includes cost of material and related conversion cost. In view of the nature of variation in the values of individual diamonds and the differential in their processing costs, it is not practicable to compute the cost of polished diamonds using either FIFO or weighted average cost. In view of the numerous grades, it is not practicable to use specific costs. The method of valuation is therefore in compliance with "AS2" issued by the Institute of Chartered Accountants of India to the extent practicable.

K.3 Consumables are valued at average cost.

L. Employee Benefits

L1. Short term Employee benefit

Short term employee benefits are recognised in the period during which the service has been rendered.

L2. Long Term Employee Benefit

a) Provident Fund Act, Family Pension Fund & Employees State Insurance Scheme.

As per Provident Fund Act, 1952 all employees of the Asian Star Company Ltd. & Asian Star Jewels Private Limited are entitled to receive benefits under the provident fund & family pension fund which is a defined contribution plan. These contributions are made to the fund administrated and managed by the Government of India. In addition some employees of the company are covered under Employees State Insurance Scheme Act, 1948, which are also defined contribution Schemes recognized and administered by Government of India.

The company's contributions to these schemes are recognised as expense in Profit and Loss account during the period in which the employee renders the related services. These companies has no further obligation under these plan beyond its monthly contributions.

b) Asian Star Company Ltd. provides for gratuity obligation through a Defined Benefit Retirement Plan ('The Gratuity Plan') covering it's employees. The present value of the obligation under such Defined plan is determined based on actuarial valuation. Actuarial gains and losses are recognized in Profit & Loss Account as and when determined. The company makes annual contribution to LIC for the Gratuity plan in respect of employees.

M. Taxation

Current Tax is determined as the amount of tax payable in respect of taxable income for the year after considering various relief admissible under provisions of the Income Tax Act, 1961. The deferred tax for timing difference between the book and tax profit for the year is accounted for using tax rates and tax laws that have been enacted or substantially enacted at the Balance Sheet date. Deferred tax asset arising from timing difference are recognised to the extent that there is virtual certainty that sufficient future taxable income will be available.

N. Preliminary Expenses

Preliminary expenses and expenses incurred on the issue of shares are amortized over a period of five years, from the year in which the company starts its operations.

O. Provisions, Contingent Liabilities and Contingent Assets

The company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

- P. (i) In order to comply with Accounting Standard 21 issued by Institute of Chartered Accountants of India, the Company has prepared the accompanying consolidated financial statements, which include the financial statements of the Company along with its subsidiaries. Details of subsidiaries are as under:

Name of Subsidiary	Country of Incorporation	Percentage of ownership (Previous Year)
