Item No.4

The Company is a Non-Banking Financial Company and is into the business of making investments and granting of loans, inter corporate deposits to its group companies and others.

IITL-Nimbus The Express Park View (EPV II), a Joint Venture Partnership Firm between the Company's subsidiary IITL Projects Limited, Nimbus Projects Limited and Assotech Limited and is engaged into real estate business and construction of residential complex in the National Capital Region (NCR).

The Company had granted an unsecured loan amounting to ₹ 23,19,87,365/- to EPV II in various tranches between November 2011 to August 2015. EPV II was regular in servicing its interest obligation upto September 30, 2015.

However, due to crisis in real estate industry EPV II could not achieve the expected sales volume. This affected the profitability as well as the debt repayment capacity of EPV II. In view of the aforesaid, EPV II failed to service its interest obligation from October 01, 2015 and expressed its inability to repay the interest and the loan. EPV II had requested the Company to restructure the said loan by grant of moratorium on repayment of loan and

The related information as envisaged under the Companies (Meetings of Board and its Powers) Rules, 2014 are furnished hereunder:

interest thereon for a period of four years alongwith reduction in rate of interest.

However, the process of Restructuring of Loan could not be consummated within a period of 120 days as stipulated by the provisions of Prudential Norms of the Reserve Bank of India pertaining to Restructuring of Loans.

Subsequently, EPV II has requested the Company to restructure the said loan on revised terms and conditions as reproduced in the table hereunder.

Considering the Cash Flow Projections obtained from EPV II upto year ended March 31, 2022 and various other parameters, the Board of Directors are of the opinion that EPV II will be able to generate sufficient cash surplus by year ending March 2022 to repay the said Loan and interest thereon.

Based on the prior approval granted by the Audit Committee in its meeting held on August 08, 2017, the Board of Directors in its meeting held on even date granted its approval for Restructuring of its outstanding loan and interest thereon.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL ECONOMIC SCENARIO:

Global economy stagnated in 2016 with GDP growth of 3.1 per cent, following slow trades, low investments and policy uncertainties in advanced economies. It was a year of challenges for global and Indian economy. The most important events that took place during the year were United Kingdom's decision to leave the European Union and the outcome of the presidential elections in United States of America. These events led to a lot of uncertainty. There was spurt in volatility across financial markets and an immediate ratings downgrade. US election outcome led to a lot of capital flight away from the emerging markets, including India, on the hopes of strong pro-US growth policy rollouts from the new Government. In other advanced economies, economic activity eased moderately compared to the previous year, with sluggish performance of the US being the major contributor. Meanwhile, emerging economies performed relatively better. China's slowdown, plummeting oil prices, and overall economic weakness in US and Europe contributed towards slow growth. The Global growth is projected to rise to 3.5 per cent in 2017-18.

INDIAN ECONOMIC SCENARIO:

During the financial year 2016-17, while the global economy remained subdued, India continued its growth trajectory. India is considered as one of the fastest growing economies in the world, recording a GDP of 7.1 per cent in financial year 2016-17. The spate of reforms which were unleashed in the financial year 2015-16 and 2016-17 helped India in containing fiscal deficit, current account deficit and inflation. It was only in the second half of the financial year 2016-17, India was struck by a surprise demonetization operation in November 2016. The Government of India announced that high-denomination notes (₹ 500/- and ₹ 1,000/-) would cease to be legal tender. The news immediately created disruption and there was panic. Consumer spending activity fell to a near halt. Consumers refrained from making any purchases except essential items. The cash shortage and payment disruptions caused by demonetization, strained business activity for a major part of the second half of the year. Capital investments remained stagnant. Real estate sector, which includes a lot of cash, slowed down significantly. Metropolitan and Tier 1 cities reported up to a 30 per cent fall in house prices. Several other industrial sectors scaled back services or production.

However inflation, though inched up in the last few months, stayed below the RBI's target of 5 per cent. The Indian rupee stayed relatively stable, trading in a range of ₹ 66-67 to USD for most part of the year before seeing a sharp appreciation during the close of the financial year.

Besides demonetization, the year was marked by other major domestic policy developments, the constitutional amendment paving the way for implementing the Goods and Service Tax (GST), The Insolvency and Bankruptcy Code and The Real Estate (Regulation and Development) Act, 2016 (RERA). GST implementation is expected to improve compliance, boost tax revenue and expand GDP by bringing more business under its ambit. It will streamline Central and State Government taxes and pave the way for uniform tax system in the country. 100 per cent FDI into gamut of services will help India in building global

confidence. RERA which came into effect from May 01, 2017, covers all the residential and commercial projects in every state. RERA is aimed to protect the interest of consumers, promote fair play in real estate transactions and to ensure timely execution of projects.

INDIAN CAPITAL MARKETS:

Despite a series of developments perceived to be negative to the markets- the UK's referendum to leave the European Union, Donald Trump's victory in the US presidential election, the US Federal Reserve's decision to hike interest rates and the Government's demonetization move, on November 8, 2016, Indian stocks have risen to new highs this fiscal year, except for the interregnum period.

While Brexit, Donald Trump's victory in US elections, demonetization and US Fed rate hikes threatened to pull down markets, events such as BJP's win in Uttar Pradesh elections powered the Sensex to new highs.

During the last two months, particularly after the (Donald) Trump victory and Indian government's announcement of demonetization there was a massive pullout of FPI investment, particularly in debt, foreign portfolio investors pulled out ₹ 28,919 crores from India in November with debt outflow accounting for ₹ 15,194 crores. On November 9, the Sensex had plunged by about 1,600 points. By end of November, the Sensex was hovering near 26,450, over 1,350 points down, over uncertainty about the economic impact of demonetization. The Nifty had shed 420 points in the same period to end the month at 8,208.

By end of November, the Sensex was hovering near 26,450, over 1,350 points down, over uncertainty about the economic impact of demonetization. The Nifty had shed 420 points in the same period to end the month at 8,208.

After the demonetization announcement, all four indices fell for about two weeks due to uncertainty in the economy. This was followed by a stable period of two weeks, during which markets even recovered. Nearing the cut-off date for depositing old notes (December 30, 2016), the markets again fell as there was uncertainty about the future due to the shortage of new currency in circulation. The S&P BSE MidCap and S&P BSE SmallCap fell more compared with the S&P BSE SENSEX and S&P BSE LargeCap, as the demonetization had a greater effect on smaller companies. (Life and Non-Life).

The Company has granted loans from time to time to its Group Companies which includes subsidiaries, joint ventures of subsidiaries and associates. During the period between February 2010 to September 2015, the Company had granted unsecured loan to the subsidiary IITLPL amounting to ₹ 36.48 crores in various tranches for its business. IITLPL was regular in servicing its interest obligation upto June 30, 2015.

However, due to crisis in real estate industry IITLPL and its Joint Ventures could not achieve the expected sales volume. This affected the profitability as well as the debt repayment capacity of the subsidiary company IITLPL and its Joint-Ventures.

In view of the aforesaid, IITLPL failed to service its interest obligation from July 01, 2015. In November 2015, at the specific request of IITLPL the Company granted a moratorium to IITLPL on payment of interest upto April 30, 2016 and also the period for repayment of loan was further extended upto March 31, 2018. However even after the end of the moratorium period, IITLPL could not service its interest obligation.

On account of said circumstances, IITLPL approached the Company with a request for One Time Settlement (OTS) of its outstanding loan and interest amount.

Based on the approval accorded by the members of the Company in April 2017 through Postal ballot, the Company entered into One Time Settlement (OTS) of outstanding Loan of ₹ 36.48 crores granted to IITLPL alongwith outstanding interest amount of ₹ 3.61 crores and a waiver of interest of ₹ 5.47 crores, subject to recompensing the holding company in case IITLPL turns profitable in future and has surplus cash flows. Due to declining sales, increasing burden of interest costs, the losses of joint ventures of the subsidiary company are increasing.

Property developers continue to face a challenging operating environment including weak cash flows, flat sales and stagnant prices and this may continue over the next one year. OUTLOOK

The year 2017 will be the most crucial year globally as well as domestically. There are few pressure points such as sluggish improvement in economic conditions worldwide, structural unemployment, growing digital trades, labour saving technology and geopolitical conflicts Protectionism is on the rise in the US and EU and financial stability will be under stress in the EU. These factors will create an uncertainty around the global growth outlook in 2017. The financial markets may, therefore, witness uncertainty during this year and beyond.

Despite uncertainty on global front, India's economy has been able to move on a steady path recording a GDP of 7.1 per cent in the year goneby. Though in the coming year, India's economy will have many challenges to surmount. The protectionism of the West may constrain our ability on certain sectors.

The government has completed three years in office. The spate of reforms being undertaken is laying a solid foundation for future like 'Make in India', Ease of doing business which has paved smooth way for industries, with single window clearance where earlier multiple approvals and licensing were required and the implementation of GST, paving the way for a unified national market in goods and services. The Real Estate (Regulation and Development) Act, 2016 (RERA) which has come into effect from May 1, 2017, covers all the residential and commercial projects in every state. RERA is aimed to protect the interest of consumers, promote fair play in real estate transactions and ensure timely execution of projects.

Overall, both monetary and fiscal policy will be conducive for stable economic growth. According to IMF's World Economic Outlook Update, India's GDP is estimated to be 7.2 per cent for the financial year 2017-18

Your company being into investments and loans is hugely impacted by several factors on standalone basis as well as on consolidation. Due to sudden changes in the domestic policies and regulatory requirements, the business of subsidiary company may be affected which in turn may impact the revenue of the holding company. The management is of the opinion that in the current fiscal the sales of residential flats will pick up on account of reduction of rates on housing loans and tax benefits by Government of India. Ample liquidity post demonetization will also keep the interest costs down.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements

that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

However, the Management of the Company is of the view, for the reasons stated in the Note, that there is no diminution other than temporary in the value of investment of the Company in FGILICL as at 31st March, 2017.

Our opinion is not modified in respect of this matter.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date to the members of Industrial Investment Trust Limited on the standalone financial statements for the year ended 31st March, 2017)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Industrial Investment Trust Limited (“the Company”) as of 31st March, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)

1.2 Significant Accounting Policies (Contd.)

(F) Taxation:

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

(G) Provisions and contingencies:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

(H) Operating Lease:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets, are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

(I) Employee benefits:

(a) Short term employee benefits:

Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the period in which the related service is rendered.

(b) Long term employee benefits:

1. Defined Contribution Plan:

The eligible employees of the Company are entitled to receive post employment benefits in respect of provident and family pension fund, in which both employees and the Company makes monthly contributions at a specified percentage of the employees' eligible salary (currently 12% of employees' eligible salary). The contributions made to Employees Provident Fund Organisation, Provident Fund and Family Pension Fund are classified as Defined Contribution Plans as the Company has no further obligation beyond making the contribution. The Company's contributions to Defined Contribution Plans are charged to Statement of Profit and Loss as incurred.

2. Defined Benefit Plans:

Gratuity

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuation being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (Contd.)

service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

3. Other long term employee benefits:

Compensated absences

The Company provides for the encashment of leave or leave with pay subject to certain rules. The Employees are entitled to accumulate leave subject to certain limits for future encashment/availment. The Company makes provision for compensated absences based on an actuarial valuation carried out at the end of the year. Actuarial gains and losses are recognised in the Statement of Profit and Loss.

(J) Foreign Currency Transactions:

Transactions in foreign currencies are translated to reporting currency based on the exchange rate on the date of the transaction. Exchange differences arising on settlement thereof during the year are recognized as income or expense in the Statement of Profit and Loss.

Cash and bank balances, receivables and liabilities (monetary items) in foreign currencies as at the year end are translated at closing date rates and unrealized translation differences are included in the Statement of Profit and Loss.

(K) Share issue expenses:

Share issue expenses are adjusted against Securities Premium Account in terms of Section 52 of the 2013 Act, to the extent any balance is available for utilisation in the Securities Premium Account. Share issue expenses in excess of the balance in Securities Premium Account is expensed in the Statement of Profit and Loss.

(L) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

(M) Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(N) Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

In August 2016 and December 2016 FGILICL came out with Rights Issues of 30,000,000 and 25,508,850 equity shares respectively of Rs. 10 each at par aggregating to ₹ 300,000,000 and ₹ 255,088,500, in the ratio of 10:484 and 21:1220 respectively. The Company did not subscribe to both the rights issues. The management views the investment in positive light as insurance industry plays a crucial role in the growth and development of the overall economy. There is a huge potential to be tapped across India for life insurance. Life Insurance Industry has a long gestation period and the Company views this as a long term investment. Having regard to the projections and future business plan provided by FGILICL to the Company and based on management's assessment of the same, the management of the Company is of the view that, although the net-worth of FGILICL as at 31st March 2017 has substantially eroded, there is no diminution other than temporary in the value of investment of the Company in FGILICL as at 31st March 2017.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraphs (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries, associates and jointly controlled entities referred to in the Other Matters paragraph below, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and jointly controlled entities as at 31st March, 2017, and their consolidated loss and their consolidated cash flows for the year ended on that date.

Emphasis of Matters

- We draw attention to Note 2.34 of the consolidated financial statement. As stated in the Note the net worth of Future Generali India Life Insurance Company Limited ("FGILICL"), a Joint Venture of the Holding Company, as at 31st March 2017 has substantially eroded. However, the Management of the Holding Company is of the view, for the reasons stated in the Note, that there is no impairment as at 31st March, 2017 in the value of Goodwill on Consolidation arising on such acquisition.
- We draw attention to Note 2.38 of the consolidated financial statement. In case of FGILICL, their auditors in their report under Emphasis of Matters paragraph stated regarding accounting of expenses in excess of limits specified by Insurance Regulatory and Development Authority of India ("IRDAI") Expenses of Management Rules 2016, aggregating ₹ 1,521,439,000 (the Company's proportionate share ₹ 329,695,831). The FGILICL has applied to IRDAI for forbearance of same, but approval from the IRDAI is still awaited.

Our opinion is not modified in respect of these matters.

Other Matters

- We did not audit the financial statements of four subsidiaries and five jointly controlled entities, whose financial statements reflect total assets of ₹ 11,218,794,104 as at 31st March, 2017, total revenues of ₹ 3,226,951,529 and net cash (outflows) amounting to ₹ 51,066,702 for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of ₹ 4,022,631 for the year ended 31st March, 2017, as considered in the consolidated financial statements, in respect of two associates, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, jointly controlled entities and associates, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, jointly controlled entities and associates is based solely on the reports of the other auditors.
- In the case of FGILICL, their auditors in their report under Other Matters paragraph stated that the actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued but liability exists as at 31st March, 2017, is the responsibility of the Company's

Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities as at 31st March, 2017 has been duly certified by the appointed actuary. The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation are in accordance with the generally accepted actuarial principles and practices, requirements of the Insurance Act, regulations notified by the Insurance Regulatory Development Authority of India ("IRDAI") and Actuarial Practice Standards issued by the Actuarial Society of India in concurrence with the IRDAI. Accordingly, FGILICL auditors have relied upon the Appointed Actuary's certificate for forming their opinion on the financial statements of the company.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below is not modified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date to the members of Industrial Investment Trust Limited on the consolidated financial statements for the year ended 31st March, 2017)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2017, we have audited the internal financial controls over financial reporting of Industrial Investment Trust Limited (hereinafter referred to as “the Holding Company”) and its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company, its subsidiary companies, its associate companies and its jointly controlled companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence

about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, associate companies and joint controlled companies, which are companies incorporated in India, in terms of their reports referred to in the sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company, its subsidiary companies, its associate companies and its jointly controlled companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial

control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the sub-paragraph (a) of the Other Matters paragraph below, the Holding Company and its subsidiary companies, associate companies and jointly controlled companies which are companies incorporated in India have, in all material respects, maintained adequate internal financial controls over financial reporting as of 31st March, 2017, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

- a. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to four subsidiary companies, two associate companies and two jointly controlled companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of these matters.

(vii) Taxation:

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability. "

These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

(ix) Impairment of assets:

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Consolidated Statement of Profit and Loss, except in case of revalued assets.

Actuarial gains and losses are recognised in the Consolidated Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

2. Compensated absences

(xv) Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

(d) Policy Liabilities pertaining to Insurance Company :

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Contd.)

- 2.34** The Company had entered into Share Purchase Agreement with Pantaloon Retail India Limited (now known as Future Retail Limited) to acquire 22.5% of its equity stake in Future Generali India Life Insurance Company Ltd (FGILICL). Pursuant to approval received from CCI, RBI & IRDA the transaction was consummated on 17th December 2013 for a total consideration of ₹ 3,400,000,000. FGILICL became a joint venture of the Group.

In August 2016 and December 2016 FGILICL came out with Rights Issues of 30,000,000 and 25,508,850 equity shares respectively of ₹ 10 each at par aggregating to ₹ 300,000,000 and ₹ 255,088,500, in the ratio of 10:484 and 21:1220 respectively. The Company did not subscribe to both the rights issues. The total subscription amount received from the other shareholders was ₹ 299,414,160 equivalent to 29,941,416 equity shares and ₹ 255,088,500 equivalent to 25,508,850 equity shares. The resultant effect is, the Company's stake in FGILICL reduced to 22.05% after the first rights issue and 21.67% after the second rights issue.

Consequent to the decrease in the Company's share of interest in FGILICL, the gain of ₹ 5,805,556 arising on deemed disposal of partial interest in FGILICL has been recognized and disclosed separately under Revenue and further necessary adjustment of ₹ 96,648,152 has been made to the goodwill on consolidation.

Subsequent to the year end, in April 2017, FGILICL came out with third rights issue of 75,372,514 equity shares of ₹ 10 each at par aggregating to ₹ 753,725,140, in the ratio of 5:100. The Company did not subscribe to the rights issue. The total subscription amount received from the other shareholders was ₹ 753,725,140 equivalent to 75,372,514 equity shares. The resultant effect is, the Company's stake in FGILICL reduced to 20.64% after the third rights issue.

The management views the investment in positive light as insurance industry plays a crucial role in the growth and development of the overall economy. There is a huge potential to be tapped across India for life insurance. Life Insurance Industry has a long gestation period and the Company views this as a long term investment. Having regard to the projections and future business plan provided by FGILICL to the Company and based on management's assessment of the same, the management of the Company is of the view that, although the net-worth of FGILICL as at 31st March 2017 has substantially eroded, there is no impairment as at 31st March 2017, in the value of goodwill on consolidation arising on such acquisition.

- 2.35** There are no amounts due to the suppliers covered under the Micro, Small and Medium Enterprises Development Act, 2006 ("the Act"). The identification of vendors as a "Supplier" under the Act has been done on the basis of the information to the extent provided by the vendors to the Group. This has been relied upon by the auditors.

- 2.36** The amount of ₹ 19,869,855 disclosed as Contingent Liability (See note 2.26(i)(a)) is towards the disputed property tax levied by MMC based on enhanced ratable value for the period 1st April 2007 to 31st March 2010 in respect of the Company's Investment Property in Atlanta Building, Nariman Point.

During the financial year 2015-16, the Company sold four units of the said property. Upon sale of said units the Company was required to deposit ₹ 10,028,864 with Atlanta Premises Co-operative Society Limited (the society) towards part of the disputed property tax related to units sold. The said amount of ₹ 10,028,864 has been placed by the society in fixed deposits with Bank.

The disputed property tax issue is still subjudice and the order is awaited from the Mumbai High court. Pending the outcome of the matter, out of abundant caution, the Company had, in the previous year, made a provision of ₹ 5,000,000 in respect of the units sold.

However, the total amount of ₹ 24,869,855 is fully recoverable from the ex-Licensee as per the Leave and License Agreements entered by the Company with them from time to time.
