As the members are aware, Alteration of Memorandum of Association is necessary to bring it in line with newly notified Companies Act, 2013. According to the new act, the companies can now have only Main business and Ancillary and Incidental Businesses to the attainment of Main Business, therefore it is mandatory to alter and adopt the new Format of Memorandum of Association as per the Companies Act, 2013.

None of the Directors and key managerial personnel (including relatives of directors or key managerial personnel) of the Company is concerned or interested, financially or otherwise, in this resolution.

The Board recommends the resolution set forth in item no. 3 for the approval of members.

ITEM NO. 4

As the members are aware, the existing Articles of Associations (AOA) are based on the Companies Act, 1956 and several regulations in the existing AOA contained references to specific sections of the Companies Act, 1956 and some regulations in the existing AOA are no longer in conformity with the new Act.

So, with the coming into force of the Companies Act, 2013, several regulations of the existing AOA of the Company require alteration or deletion. Accordingly, it is proposed to replace the entire existing AOA by a new set of Articles.

The new AOA to be substituted in place of existing AOA are based on Table-F of the Companies Act, 2013 which sets out the models Articles of Association for a Company limited by shares.

A copy of the proposed set of new articles of Associations of the Company would be available for inspection at the registered office of the Company during the business hours on any working day up to the date of the Annual General meeting.

None of the Directors and key managerial personnel (including relatives of directors or key managerial personnel) of the Company is concerned or interested, financially or otherwise, in this resolution.

The Board recommends the resolution set forth in item no. 4 for the approval of members

MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT

The management discussion and analysis presents the industry Overview, opportunities and Threats, Initiatives by the Company and overall strategy of Riba Textiles Limited becoming a market driven producer/exporter of various innovative models and ranges of Textiles products. The company is very optimistic of capturing a substantial share of Export market in the midst of the threats faced due to the liberalization and increased competition from well established companies from abroad.

1. Overview of economy:

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 11 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organized sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The Indian textiles industry is extremely varied, with the hand-spun and hand woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralized power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

2. Industry Structure and Development:

The textile and apparel industry can be broadly divided into two segments - yarn and fibre, and processed fabrics and apparel. India accounts for 14 per cent of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton, and third largest in cellulosic fibre). India has the highest loom capacity (including hand looms) with 63 per cent of the world's market share. The domestic textile industry in India is estimated to reach US\$ 250 billion by 2019 from US\$ 150 billion in July 2017, while cotton production in India is estimated to reach 37.7 million bales in FY18.

Increased penetration of organised retail, favourable demographics, and rising income levels are likely to drive demand for textiles. India is the world's second largest exporter of textiles and clothing.

Textile and apparel exports from India are expected to increase to US\$ 82 billion by 2021. Exports of textiles and Apparels from India reached US\$ 21.15 billion and US\$ 16.71 billion respectively during 2017-2018. Manmade garments remain the largest contributor to total textile and apparel exports from India, contributing 25.60 per cent to total textile.

Rising government focus and favourable policies is leading to growth in the textiles and clothing industry. The Ministry of Textiles is encouraging investments through increasing focus on schemes such as Technology Up-gradation Fund Scheme (TUFS). Under the Union Budget 2018-19, Rs 2,300 (US\$ 355.27 million) crore have been allocated for TUFS and Rs 30 crore (US\$ 4.63 million) for the Scheme for Integrated Textile Parks, under which there are 47 ongoing projects. In May 2018, textiles sector recorded investments worth Rs 27,000 crore (US\$ 4.19 billion) since June 2017. The Cabinet Committee on Economic Affairs (CCEA), Government of India has approved a new skill development scheme named 'Scheme for Capacity Building in Textile Sector (SCBTS)'. Cumulative FDI in the Indian textiles reached US\$ 2.8 billion between April 2000 to December 2017.

The Directorate General of Foreign Trade (DGFT) has revised rates for incentives under the Merchandise Exports from India Scheme (MEIS) for two subsectors of Textiles Industry - Readymade garments and Made

ups - from 2 per cent to 4 per cent. The government is also planning to conduct roadshows to promote the country's textiles in non-traditional markets like South America, Russia and select countries in West Asia.

3. Government Initiatives

The Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent FDI in the Indian textiles sector under the automatic route.

Some of initiatives taken by the government to further promote the industry are as under:

- India's first integrated textiles city, which will largely cater to the export market and build a brand for Indian textiles abroad, is likely to be set up in the state of Andhra Pradesh.
- The Clothing Manufacturers' Association of India (CMAI) has signed a memorandum of understanding (MOU) with China Chamber of Commerce for Import and Export of Textiles (CCCT) to explore potential areas of mutual co-operation for increasing apparel exports from India.
- The Department of Handlooms and Textiles, Government of India, has tied up with nine e-commerce players and 70 retailers to increase the reach of handlooms products in the Indian market, which will generate better prices and continuous business, besides facilitating direct access to markets and consumers for weavers.
- The Union Ministry of Textiles, which has set a target of doubling textile exports in 10 years, plans to enter into bilateral agreements with Africa and Australia along with working on a new textile policy to promote value addition, apart from finalising guidelines for the revised Textile Upgradation Fund Scheme (TUFS).
- The Government of India has started promotion of its 'India Handloom' initiative on social media like Facebook, Twitter and Instagram with a view to connect with customers, especially youth, in order to promote high quality handloom products.
- Subsidies on machinery and infrastructure
 - The Revised Restructured Technology Up gradation Fund Scheme (RRTUFS) covers manufacturing of major machinery for technical textiles for 5 per cent interest reimbursement and 10 per cent capital subsidy is provided to the specified technical textile machinery under RRTUFS.
 - Under the Scheme for Integrated Textile Parks (SITP), the Government of India provides assistance for creation of infrastructure in the parks to the extent of 40 per cent with a limit up to Rs 40 crore (US\$ 6 million). Under this scheme the technical textile units can also avail its benefits.
 - The major machinery for production of technical textiles receives a concessional customs duty list of 5 per cent.
- The Government of India has implemented several export promotion measures such as Focus Market Scheme, Focus Product Scheme and Market Linked Focus Product Scheme for increasing share of India's textile exports.
- Under the Market Access Initiative (MAI) Scheme, financial assistance is provided for export promotion activities on focus countries and focus product countries.
- Under the Market Development Assistance (MDA) Scheme, financial assistance is provided for a range of export promotion activities implemented by Textiles Export Promotion Councils.
- The government has also proposed to extend 24/7 customs clearance facility at 13 airports and 14 sea ports resulting in faster clearance of import and export cargo.

4. India's major Competitors in The World

To understand India's position among other textile producing the industry contributes 9% of GDP and 35% of foreign exchange earnings, India's share in global exports is only 3% compared to China's 13.75% percent. In addition to China, other developing countries are emerging as serious competitive threats to India. Looking at export shares, Korea 6% and Taiwan 5.5% are ahead of India, while Turkey 2.9% has already caught up and others like Thailand 2.3% and Indonesia 2% are not much further behind.

5. Road Ahead

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. The organised apparel segment is expected to grow at a Compound Annual Growth Rate (CAGR) of more than 13 per cent over a 10-year period.

STRENGTHS

- Strong long-term demand potential as clothing consumption in emerging markets is likely to take a greater share of household spend
- Global rebound in the luxury goods segment after a plateau period

WEAKNESSES

- Decreasing length of fashion cycles giving rise to sustainability issues
- Oversaturation of the retail space in the context of digitalization

6. Initiatives has been taken by the Company

The company has planned a small expansion to purchase some dyeing and weaving machine which purpose to adequate usages of machinery which was installed last year, and expected production in March 2019. It would achieve the economies of scale resulting into higher productivity and reduced cost of production.

7. Financial Performance / Product wise Performance

During the year under review your company had achieved a turnover of Rs.137.25 Crores against the last year turnover of Rs.101.18 Crores. Your Company has earned a net profit of Rs. 529.88 Lacs as against a profit of Rs.429.29 Lacs during the last year. In view of improving financial results and positive outlook of the near future, your directors are hopeful that in current year better financial results would follow.

8. Risks and concerns

Among the largest textile markets there are two major groups. On the one side, the developed countries demonstrate slow or negative sales growth. This trend translates into the top-line challenges even for the largest apparel manufacturers. On the other side, the emerging markets represent the biggest long-term growth opportunities and despite the fact that the size of some emerging markets, such as China and India, already surpasses that of some matured markets there is still plenty of room for growth considering their current per capita spending and the rise of the middle class..

The two most important challenges faced by the industry are both related to technologies. One is developing an online sales channel to offset the declining sales in physical stores and failure to do so may have serious consequences as suggested by an impressive number of insolvent clothing retailers in the US in 2017, which partly explains our "sensible" risk stance in this country. Another one is investing in automatization technologies helping to improve margins in the context of ever increasing labor cost in countries traditionally considered low-cost. On top of that Amazon's first investments in the fashion industry were made last year

and more moves in this direction can be expected in 2018 adding to the list of worries for companies targeting low to middle income consumers.

9. Internal Control Systems and their adequacy

The company has a proper and adequate system of internal controls commensurate with its size to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly.

There is an Internal Audit Committee with clearly laid down powers and responsibilities that are entrusted to them to ensure that the Internal Audit Department works independently. This department maintains various manuals which contain various controls and checklists that are to be carried out before execution of any activity.

Internal checks are exercised so that the various procedures are laid at the time of delegation of authorities and other procedures are strictly followed. The delegation clearly indicates the powers along with the monetary limits, wherever necessary, that can be exercised by various levels of Managers in the Company.

Similarly, the Company has well defined manuals for all the functional areas, viz., Production, Sales, Administration, Personnel, etc. These manuals contain elaborate procedures and checklist for the related activities. Necessary controls and checks are exercised by strictly adhering to the various procedures and checklist prescribed in the Manuals. Also these are updated from time to time on ongoing basis, keeping in view the latest developments in different areas.

Proper controls and checks are exercised by the company by following the procedures prescribed in the various manuals.

10. Material Developments in Human Resources/ industrial relations front, including number of people employed

The company believes that employees are the real strength of organization. Employee involvement continued to receive the focus it deserves. The Company has identified Human Resources Development as a major strategic initiative since it believes that people's contribution will be the main engine for growth. Current efforts include building skills, attracting and retaining talent and nurturing and developing leadership potential.

Industrial relations during the year remained cordial and initiative were taken to enhance productivity of employees. The company is gearing itself to take on the challenges in the business environment and march towards achieving its mission with success. At present company is employing man power of around 400 peoples including technical, non-technical, managerial and non- managerial, casual and contract labour.

11. Cautionary Statement

The Management Discussion and Analysis statement of the Annual Report has been included in adherence of the spirit enunciated in the code of Corporate Governance approved by the Securities and Exchange Board of India. Statement in the Management Discussion and Analysis describing the Company's objectives, projects, estimates, expectations may be 'forward – looking statements' within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference of the Company's operation include economic conditions affecting demand.

■ **Notes forming parts of financial statements for the year ended 31st March 2018.**

1- Corporate Information:

Riba Textiles Limited (the Company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on Bombay Stock Exchange (BSE). The Company is engaged in Manufacturing & Export of terry towels.

2- Significant Accounting Policies

A) Basic of Accounting & preparation of Financial Statement

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting principles in India (India GAAP) to comply with the Accounting Standards notified under Section 211(3C) of the Companies Act, 1956 (“the 1956 Act”) (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 (“the 2013 Act”) in terms of General Circular 15/2013 dated 13 September, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act/2013 Act, as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

B) Use of estimates

The preparation of the financial statements in conformity with India GAAP requires the Management to make estimates and assumption considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the period in which the results are known/ materialize.

C) . Inventories

1. Raw materials, stores and spares are valued at cost.
2. The value of work in process is taken on estimated cost of process completed.
3. Finished goods are valued at cost or net realizable value, whichever is less.

D) Depreciation on tangible fixed assets

Depreciation is provided on straight line basis over the useful life of the assets, which is stated in schedule II of Companies Act, 2013 or reassessed by the company based on technical evaluation.

E) Revenue recognition

Revenue including other income is recognized when no significant uncertainty as to it's' determination or realization exists.

F) Export Benefits

Export Benefits available under prevalent schemes are accrued in the year when the right to receive credit as per the terms of the scheme is established in respect of exports made and are accounted to the extent there is no significant uncertainty about the measurability and ultimate realization/utilization of such benefits.

G) Tangible fixed assets

Fixed assets are recorded at cost of acquisition or construction. They are started at the historical cost less accumulated depreciation, amortization and impairment loss, if any.

H) Foreign currency transaction and translations

Transactions in foreign currency are recorded at the original rates of exchange in force at the time the transactions are effected. At the year-end, monetary items denominated in foreign currency and forward exchange contracts are reported using closing rates of exchange. Exchange differences arising thereon and on realization/payment of foreign exchange are accounted, in the relevant year, as income or expense.

In case of forward exchange contracts, or other financial instruments that are in substance forward exchange contracts, the premium or discount arising at the inception of the contracts is amortized as expense or income over the life of the contracts. Gains/losses on settlement of transactions arising on cancellation/renewal of forward exchange contracts are recognized as income or expense.

I) Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments includes acquisition charges such as brokerage, fees and duties. Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalized and depreciated in accordance with the policy stated for Tangible Fixed Assets. Impairment of investment property is determined in accordance with the policy stated for Impairment of Tangible Assets.

J) Employee benefits

- a) The Company contributes towards Provident Fund, Welfare fund. Fund which is defined contribution scheme. Liability in respect thereof is determined on the basis of contribution as required to be made under the statutes/rules.
- b) Gratuity Liability, a defined benefit scheme, and provision for compensated absences are accrued and provided for on the basis of actuarial valuations made at the year /period end.

K) Borrowing Costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

L) Taxes on income

Tax expenses comprise both current and deferred tax at the applicable enacted/substantively enacted rates. Current tax represents the amount of income tax payable/recoverable in respect of the taxable income/loss for the reporting period.

M) Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are not recognized in the financial statement.

N) Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding at end of the year.

O) Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.
