## ANNEXURE - F

### Management Discussion and Analysis

#### Preamble:

If there's one industry that's been hit hard by the COVID-19 pandemic, it's tourism and hospitality. Hospitality has been particularly vulnerable to COVID-19 for several reasons. For hotels and leisure resorts the business model is all about inviting people to their premises for not just a stay, but an experience. Travel restrictions and country wide lockdowns impacted the hospitality industry in an enormous way. In other industries, work from home (WFH) opportunities allow companies to maintain a workforce and maintain some level of business continuity, other industries have opportunities for employees to work from home. WFH doesn't really apply for hospitality; employees must be on the premises to provide the customer experience.

However, FY 2021-22 has been a year of strong recovery in the Indian travel and tourism industry.

While flight restrictions continued for most part of the year subduing international travel, demand was largely from pent-up domestic leisure travel, extended stays, wedding, social events and a partial resumption of business travel in the country.

The Indian GDP grew during FY 2021-22 at 8.7% compared to a contraction of 6.6% in FY 2020-21 as per the Press Note dated May 31, 2022 of the National Statistical Office of the Government of India. Trade, Hotels, Transport, Communication and Broadcasting related services, constituting about a third of overall services grew by 11.1%.

The Company has discontinued the business of managing theatres as mentioned in Clause III (C) 103 in Memorandum of Association during the year 2018-19 and started new business of running and managing restaurant, café tavern, beer house, refreshment-room lodging housekeepers etc. as mentioned in Clause III (C) 21 in Memorandum of Association during the previous year.

The following discussion and analysis should be read in conjunction with the financial statements and accompanying notes included in this report. This discussion contains forward-looking statements.

The growth of the Company is mainly linked to the growth of the Hotel, tourism and hospitality industries. Given below is the profile and outlook of the same.

#### **a) Indian Industry Structure and Development**

The Company is primarily engaged in managing hotels and restaurants activities during the year under review.

The Indian hospitality industry, spearheaded by the hotel market, has emerged as one of the primary sectors which are driving the economic growth of the country. In India, hotels are classified based on location (city hotels, airport motels, resorts, etc.), level of service (upscale, mid-market, and economy), and themes (boutique hotels, heritage hotels, etc.). The hospitality sector encompasses a wide variety of activities within the services sector and is a major job provider both direct and indirectly. The sector attracts the most FDI (Foreign Direct Investment) inflow and is the most important net foreign exchange earners for the country. It also contributes significantly to indirect tax revenue at the state and central level.

The hotel industry in India is expected to reach a value of INR 1,210.87 Billion by the end of 2023, expanding at a compound annual growth rate (CAGR) of 13% during the 2018-2023 period, owing to the high arrival rate of foreign tourists and business delegates.

Infrastructure development is the backbone and key to the growth of the hospitality sector. Taxes on real estate development for the hospitality sector must be lowered to boost investments as there is an acute shortage of good quality accommodation in the country. Secondly, the industry has been clamouring for industry status for over two decades. Providing industry status to the hospitality sector will go a long way in attracting investment and development of the sector.

## **b) Opportunities and Threats:**

**Opportunities:** The Indian Government has realised the country's potential in the hospitality and tourism industry and has taken several steps to make India a global tourism hub. Some of the major initiatives planned by the Government of India to boost the hospitality and tourism sector of India are as follows:

- The Indian government has allowed 100% foreign direct investment (FDI) in tourism construction projects, development of hotels, resorts, and recreational facilities. This will act as a driving force for the development of new hotels across the country. From November 15, 2021, India allowed fully vaccinated foreign tourists to visit India, which in turn will help revive the Indian travel and hospitality sector.
- In November 2021, the Ministry of Tourism signed a Memorandum of Understanding (MoU) with Indian Railway Catering and Tourism Corporation to strengthen hospitality and tourism industry. The ministry has also signed an MoU with Easy My Trip, Cleartrip, Yatra.com, Make My Trip and Goibibo.
- In September 2021, the government launched NIDHI 2.0 (National Integrated Database of Hospitality Industry) scheme which will maintain a database of hospitality sector components such as accommodation units, travel agents, tour operators, & others. NIDHI 2.0 will facilitate the digitalisation of the tourism sector by encouraging all hotels to register themselves on the platform.
- The implementation of the goods and services tax (GST) has helped customers of the hospitality industry with reduced expenditure, by harmonizing taxes and reducing business transaction costs. This however, has turned out to be a disadvantage for hotel owners since the final cost that end users bear has decreased, thus reducing their profit margins.

As far as taxation and legal aspects are concerned, there is much that hoteliers can do but the regulators and the policy makers can surely take steps that will ease out some of the challenges for this industry. At present, the hotel industry is considered to be a real estate industry rather than an infrastructure project-based industry. Thus, a lot of benefits that are applicable to infrastructure projects are not extended to the hospitality sector.

I believe that the government must provide its full support in incentivizing the sector and the overall taxation on the hospitality sector should be reduced to stimulate its growth and make India competitive against other internationally renowned hospitality chains.

**Threats:** There are a few issues that have emerged as key challenges affecting the Indian Hospitality Industry. Financing (High Financing Costs and difficulty in raising finance) has emerged as one of the key issues that needs to be addressed. Some other pertinent issues are: Falling top lines and margins in the era of competition and economic fluctuations and other unforeseen scenarios such as economic downturns. The sector as such faces many significant challenges both near term and longer term.

**c) Segment wise performance:** The Company is primarily engaged in hospitality business only during the year under review and therefore there is no need of segment-wise reporting.

**d) Outlook:**

The outlook for the sector undoubtedly looks positive. The company continues to remain focused on risk management and mitigation. An analysis of contracts shows that the initial development and construction stages involve significant risks.

**e) Risks and concerns:**

The Company recognizes the need to control and limit risk, which it faces in day to day course of the business. The Company is exposed to certain financial risks, interest rate risk, liquidity risk and credit risk, risks associated with the economy, regulations, competition among others. The concerns for the company are associated with settlement of pending claims cases, slow decision making process at client level, delays with some of the jobs due to severe liquidity crunch, and very slow progress on arbitration.

The hotel business faces the high level of competition amongst the industry players. The sector is reeling under a severe shortage of skilled workforce, and increased prices of grain, vegetables and other materials causes the costing at high level.

**f) Internal control systems and their adequacy:** The Company has adequate internal control systems commensurate with its size and need.

**g) Discussion on Financial performance with respect to operational performance:**

There was revenue from operation of Rs. 33.41 lacs during the FY 2021-22 as compared to Rs. 43.76 lacs during the previous FY 2020-21 and there is loss of Rs. 9.32 lacs during the FY 2021-22 as compared to loss of Rs. 2.76 lacs during the previous FY 2020-21.

**h) Material development in Human resource / Industrial relations front, including number of people employed:**

The key HR objective is to ensure that employees are aware of the role they are expected to play in the organization to be able to drive organizational momentum.

The top management conducts several discussions with their employees to discuss multiple issues towards values, responsibilities etc. Going ahead, the Company will continue to invest in its people to strengthen its delivery model. There was no strike or labour unrest during the period under review. The employee turnover ratio is high in the company due to poor financial condition of the company. There were total 3 employees employed during the year under review.

**i) Details of significant changes in financial ratio:**

**Annexure - B to the Auditors' Report****Report on the Internal Financial Controls under Clause (i) of Sub Section 3 of Section 143 of the Companies Act, 2013 ("the Act")****Opinion**

We have audited the internal financial controls over financial reporting of **"AARCON FACILITIES LIMITED"** "the Company" as of 31<sup>st</sup> March, 2022 in conjunction with our audit of the financial statements of for the period ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Financial Instrument by category and hierarchy**

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

i. Fair value of cash and short-term deposits, trade and other short-term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.

ii. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

iii. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instrument by valuation technique.

Level 1: Quoted (unadjusted) price in active markets for identical assets or liabilities

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.
