PRESS RELEASE

EKI Energy Services Limited Featured among Top Global Renewable Energy Carbon Credit Suppliers in Abatable's 2026 Carbon Market Report.

- Recognition underscores EKI's significant contribution to global voluntary carbon markets and its leadership in renewable energy-based emissions reduction solutions.

Indore, February 16, 2026: EKI Energy Services Limited, a leading global climate solutions provider, has been recognised as one of the Top Five Suppliers of Renewable Energy Carbon Credits for 2025 in the latest report titled "*The Carbon Market Dimensions that Matter in 2026*" published by Abatable, a global carbon market intelligence and solutions firm.

According to the report, renewable energy projects accounted for a significant share of carbon credit issuances in 2025, with the top five suppliers collectively contributing to a substantial portion of the market supply. EKI Energy Services Limited was listed among the leading organisations in this category, alongside other prominent international players.

The report highlights that emissions avoidance project types; including renewable energy, continued to dominate the voluntary carbon market supply landscape in 2025.

Commenting on the recognition, Manish Dabkara, Chairman and Managing Director, EKI Energy Services Limited, said: "This acknowledgement reflects EKI's continued commitment to advancing high-quality climate action through renewable energy projects and carbon market solutions. As global demand for credible carbon credits continues to evolve, we remain focused on delivering scalable and impactful sustainability solutions."

EKI Energy Services Limited has been actively engaged in developing, supplying, and facilitating carbon credits across multiple project categories globally, supporting organisations and governments in achieving their climate goals and net-zero commitments.

The Abatable report provides insights into global carbon market demand, supply, and pricing trends for 2026 based on analysis of developments in 2025.
