The information on conservation of energy, technology absorption and foreign exchange earnings and outgo stipulated under Section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of The Companies (Accounts) Second Amendment Rules, 2015 (as per the notification dated 4th September, 2015), is annexed herewith as "Annexure-E".

DISCLOSURE UNDER THE SEXUAL HARASSMENT OF WOMAN AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013

The Company has in place an Anti Sexual Harassment Policy in line with the requirements of the Sexual Harassment of Woman at Workplace (Prevention, Prohibition and Redressal) Act, 2013. During the year under review, no complaints were received by the Company.

FUTURE OUTLOOK

GDP growth for the year 2019-20 was originally projected at 7.4%, which is now revised to 7.2%. However, there are several uncertainties which can have an impact in the projected GDP. The outlook of oil prices continue to be hazy both on upside and downside. It is expected that the demand for cement would grow at around 8% for the financial year 2019-20. Our plants are fully equipped and supported with grinding units at strategic locations. Our company will be

able to take full advantage of the economic momentum in the coming years.

THREATS

The Sanctions imposed on countries from where India is imposing maximum crude would adversely affect the fuel price, which would have negative impact on our manufacturing and transportation cost. The Mines and Minerals (Development & Regulation) Amendment Act, 2015, (MMDR) has made the Limestone as a notified mineral. Pursuant to the amendment act, grant of mining lease for all notified minerals shall be through public auction process by the respective State Governments. Since, several State Governments do not have the required geological data of availability of the reserves and they are not able to proceed with the auction. This is delaying the process of getting fresh mining leases allotted.

OPPORTUNITIES

The Company's products have always been perceived to possess superior quality standards in the market and the company has been enjoying a high level customer satisfaction index. Hence, products will be sold at higher profitability and revenue. The Company is planning to introduce products catering to specific customers to meet their customized applications and requirements.

ACKNOWLEDGEMENT

The Board places on record its sincere appreciation and gratitude to various Departments and Undertakings of the Central Government, and State Governments, Financial Institutions, Banks and other authorities for their continued co-operation and support to the Company. The Board sincerely acknowledges the faith and confidence reposed by the Shareholders in the Company.

For and on behalf of the Board

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

(Forming part of the Report of Directors for the Year ended 31st March, 2019)

1. Cement Industry Overview

The Indian Cement Industry is the second largest in the World with an annual production capacity approaching 500 million tons (2018). The Industry has seen significant consolidation in recent times and 50% of the total production capacity is now owned by the largest five Companies. In fact, less than 25 Companies account for almost 90% of the total production capacity.

Cement is a critical industry which provides direct and indirect employment to over a million people and forms part of the eight core sectors contributing to the economy sectors which are major consumers of Cement are Housing, Infrastructure and Commercial and Industrial Construction in decreasing order of consumption. Amongst these, the year gone by has seen robust to demand from the infrastructure construction sector driven primarily by the Government's focus on infrastructure development and provision of affordable housing to India's Citizens. The Central Government backed mega-infrastructure projects like Bharatmala for Roads, Sagarmala for Ports and the development of dedicated railway freight corridors and Smart City projects reported a surge in the award and implementation of new projects. This sector while accounting for only 20% of the demand for cement has driven most of its growth in 2018-19.

India's cement production grew 13% in 2018-19 over the previous financial year 330 million tons, the first time it has exceeded 300 million tons and outpacing every other core industry growth rate by some distance. Since most of this growth has been driven by public spending on infrastructure, this has also seen an impact on the product mix demanded by customers, with a clear tilt towards OPC versus other blended forms of cement. Housing continues to be a large driver of demand accounting for almost 65% of total consumption of cement in the country. The fact that India's per capita consumption of cement remains at a mere 230 kg compared to the global average of 580 kg, indicates substantial headroom for growth ahead.

While seeing considerable growth in volumes in 2018-19, the cement industry's profit margins have been impacted by the high energy prices prevailing through most of 2018-19 versus the previous year, raising the cost of power and fuel in the production of cement and overall logistics costs, which are very significant in the cement industry. While there was some moderation in energy prices in the later part of the year, energy prices have again regained their upward trend in the recent months. Axle load revisions by the Ministry of Road and Transport in the year gone by has helped to somewhat moderate the cost of transportation.

Cement prices, which had trended lower in the second half of previous year, fell further during the year, particularly in the South and West of the Country and negatively impacted the financial results of the industry for most of the year. However, some recovery has been noticed towards the end of the year on the back of the very strong surge in demand seen during the year, resulting in higher capacity utilization, more so at the clinker level.

Various Government initiatives in infrastructure and social housing as well as strong budgetary allocation for these projects have boosted cement use and is

expected to continue to booster demand for cement in the years ahead. Programmes of Pradhan Mantri Awas Yojana (PMAY), Smart Cities Mission, Pradhan Mantri Gram Sadak Yojana (PMGSY) and Highway projects has provided an immense thrust to use of cement and have propelled the high rate of growth of cement demand in 2018-19.

2. Outlook

India has a lot of potential for development in the infrastructure and construction sector and the cement sector is expected to largely benefit from it. Some of the recent major government initiatives such as development of smart cities are expected to provide a major boost to the sector.

In the next 10 years, India could become the main exporter of clinker and gray cement to the Middle East, Africa, and other developing nations of the world. Cement plants near the ports, for instance the plants in Gujarat and Visakhapatnam, will have an added advantage for exports and will logistically be well armed to face stiff competition from cement plants in the interior of the country.

A large number of foreign players are also expected to enter the cement sector, owing to the profit margins and steady demand. In future, domestic cement companies could go for global listings either through the FCCB route or the GDR route.

With help from the government in terms of friendlier laws, lower taxation, and increased infrastructure spending, the sector will grow and take India's economy forward along with it.

3. Opportunities and Threats

GDP growth for the year 2019-20 was originally projected at 7.4%, which is not revised to 7.2%. However, there are several uncertainties which can have an impact in the projected GDP. The outlook of oil prices continue to be hazy both on upside and downside. It is expected that the demand for cement would grow at around 8% for the financial year 2019-20. Our plants are fully equipped and supported with grinding units at strategic locations. Our company will be able to take full advantage of the economic momentum in the coming years.

The Company's products have always been perceived to possess superior quality standards in the market and the company has been enjoying a high level customer satisfaction index. Hence, products will be sold at placed on higher profitability and revenue. The Company is planning to introduce products catering to specific customers to meet their customized applications and requirements.

The Sanctions imposed on countries from where India is imposing maximum crude would adversely affect the fuel price, which would have negative impact on our manufacturing and transportation cost. The Mines and Minerals (Development & Regulation) Amendment

Act, 2015, (MMDR) has made the Limestone as a notified mineral. Pursuant to the amendment act, grant of mining lease for all notified minerals shall be through public auction process by the respective State Governments. Since, several State Governments do not have the required geological data of availability of the reserves and they are not able to proceed with the auction. This is delaying the process of getting fresh mining leases allotted.

4. Risks and Concerns

The Indian Cement Industry is materially dependent for growth on the development of Infrastructure. Infrastructure development in the Country being predominantly in the hands of Government, any decline in Government spends adversely impacts the well being of cement. In addition, Government buying cannot always be divorced from an oligopolistic situation where prices tend to be dictated by the buyer. Access to insufficient quantities of sand adds a further discordant note to the overall scenario as the genesis of concrete or mortar which is the basic raw material for any building activity is contingent upon cement being mixed with sand. Certain India States seem perpetually stretched in making availability sufficient quantities of natural sand for the sector. A solution could probably lie in entering the area of artificial sand. That would benefit the cement industry.

The Industry seems continually hamstrung in reining in energy and logistics costs. Present price trends of such key energy inputs, as fossil fuel in the form of coal and pet coke are unfavourable. While this has afforded industry the required stimulus to step up conservation through research, the process is, by its very nature, time consuming. Increases in the cost of the other fossil fuel, high speed diesel and hurt logistics cost since cement has to be transported in bulk.

5. Financial and Operational Performance

Financial Performance

During the year under review the Company recorded a net loss of ₹ 18011 lakhs. Financial performance of the Company, in brief, is as under:

	(₹ in lakhs)	
	Current Year 2018-19	Previous Year 2017-18
Net Sales	32124	48422
Other Income	180	463
PBIDT	1509	5951
Finance Cost	10844	12739
Depreciation	4747	4476
Profit/(Loss) before exceptional Items	(14082)	(11264)
Exceptional Item	(3974)	4071

	(₹ in lakhs)	
	Current Year 2018-19	Previous Year 2017-18
Profit/(Loss) before Tax	(18056)	(7193)
Deferred Tax	43	84
Net Profit / (Loss)	(18013)	(7109)
Other Comprehensive Income	2	(4)
Total Comprehensive Income	(18011)	(7113)

Operational Performance

Your Company is primarily engaged in manufacture and sale of Cement including Ordinary Portland Cement, Portland Pozzolana Cement, and Portland Slag Cement. In the domestic market the company operates through a net work of dealers and agents for sale of its products. Its major markets include Andhra Pradesh, Telangana, Tamilnadu, Orissa, Karnataka and other nearby states.

Company's business going forward

With the Government aspiring to boost investment in infrastructure, including on the construction of New Capital City of Andhra Pradesh and the projects of Telangana State, the business perceives an accretion in the demand pull for cement during the current year. There would, of course, be a more complex competition landscape to reckon with given the manufacturing capacity additions in the Business's serviced areas.

6. Internal Control Systems and their adequacy

The Company has adequate system of Internal Financial Controls in place. It had adopted policies and procedures regarding financial and operating functions for ensuring the orderly and efficient conduct of its business including adherence to Company's assets, prevention & detection of frauds and errors and timely preparation of reliable financial information. The Internal Control Systems are commensurate with the size of operations of the Company and are manned by qualified and experienced personnel.

In addition to internal controls, the internal audit function has also been set up by a firm of Chartered Accountants, who conducts audit on the basis of the Accounting Standards and Annual Audit Plan. The process includes review and evaluation of effectiveness of the existing processes, controls and compliances. It also ensures adherence to Internal control policies and systems and mitigation of the operational risks perceived for each area under audit. The Internal Audit Report(s) are reviewed by the Audit Committee.

6. Human Resources/Industrial Relations

The Company recognizes its human resources as the most valued asset. The Company has appointed specialized

professionals in the fields of engineering, finance, administration and technical and non-technical staff to take care of its operations and allied activities.

Necessary training was imparted to the staff for operations and maintenance of Machinery by specialist from related fields including the equipment suppliers from time to time.

During the period the Industrial Relations continued to be cordial.

7. Details of Significant Changes in Key financial ratios

Sl. No.	Particulars	31.03.2019	31.03.2018	Formula adopted
1	Debtors Turnover Ratio (Days)	26.44	20.47	365 Days/(Net Revenue/ Average Trade Receivables)
2	Inventory Turnover Ratio (Days)	24.38	21.33	365 Days/ Net Revenue/Average Inventories)
3	Interest Coverage Ratio	(0.67)	0.44	(Profit before Tax +Interest)/(Interest + Interest Capitalised)
4	Current Ratio	0.14	0.38	Current Assets/(Total Current Liabilities-Security Deposits payable on demand-Current maturities of Long Term Debt)
5	Debt-equity Ratio	-*	-*	Total Debt/Total Equity
6	Operating Profit Margin Ratio	(0.08)	0.21	EBITDA/Net Revenue
7	Net Profit Margin Ratio	(0.56)	(0.15)	Net Profit/Net Revenue
8	Return on Networth	-**	-**	Total Comprehensive Income/Average Networth

* Since Equity is negative, ratio cannot be calculated.

** Since Networth is negative, ratio cannot be calculated.

- EBITDA denotes Profit before Interest+Tax+Depreciation.
- Increase in Debtor Turnover Ratio is on account of reduction in sales.
- Reduction in Interest Coverage Ratio is due to reduction in Sales and Profit.
- Current Ratio is reduced as current liability has increased due to reduction in Sales and Profit.

8. Future Outlook

GDP growth for the year 2019-20 was originally projected at 7.4%, which is now revised to 7.2%. However, there are several uncertainties which can have an impact in the projected GDP. The outlook of oil prices continue to be hazy both on upside and downside. It is expected that the demand for cement would grow at around 8% for the financial year 2019-20. Our plants are fully equipped and supported with grinding units at strategic locations. Our company will be able to take full advantage of the economic momentum in the coming years.

Cautionary Statement

Certain statements made in this Report detailing to the Company's objectives, projections, outlook, estimates and expectations may be 'forward looking statements' within the applicable laws and regulations. As these statements are based on certain assumptions and expectations of future events over which the Company exercises no control, the Company cannot guarantee their accuracy. The actual results may differ materially from such estimates, projections, etc. Significant factors that could make a difference to the Company's operations include domestic and international economic conditions affecting demand, supply and price conditions in the industry, changes in government regulations, tax regimes and other statutes, over which the Company does not have any direct control.

Report on the Audit of the Financial Statements

1. Qualified Opinion

We have audited the accompanying financial statements of Andhra Cements Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flows Statement for the year then ended and notes to the financial statements including a summary of the significant accounting policies and other explanatory information (herein after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph mentioned below, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its losses (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

2. Basis for Qualified Opinion

We refer to Note 35 to the financial statements in respect of preparation of the financial statements of the Company on going concern basis for the reasons stated therein. During the financial year ended March 31, 2019, the Company has incurred losses of ₹ 18,011.42 lakhs, resulting into accumulated losses of ₹ 70,156.70 lakhs and erosion of net worth as at March 31, 2019. The Company has obligation towards fund based borrowings aggregating to ₹101,064.49 lakhs as on March 31, 2019 including working capital loans and interest accrued thereon. The Company's current liabilities have exceeded current assets as on March 31, 2019. These matters require the Company to generate additional cash flow to fund the operations as well as payments to lenders, creditors, statutory dues and other obligations. These conditions indicate the existence of a material uncertainty that may cast significant doubt

on the company's ability to continue as going concern and therefore the company may be unable to realize its assets and discharge its liabilities in the normal course of business. Accordingly, we are unable to comment on the consequential impact, if any on the accompanying financial statements.

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the financial statements.

3. Emphasis of Matters

We refer to:

- (a) Note 40 to the financial statements regarding pending confirmation in respect of certain trade receivables, security deposits given/taken, advances to suppliers, trade payables and advances from customers. The Management believes that on confirmation, there will not be any material impact on the accompanying financial statements.
- (b) Note 33(iv) to the financial statements, in respect of confiscation of imported capital goods having import value of ₹3,979 lakhs due to non-fulfillment of certain export obligations.

Our opinion is not modified in respect of these matters.

4. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be key audit matters to be communicated in our report:

S. No.	Key Audit Matter	How our audit addressed the key audit matter
1.	Revenue from Sale of Products (as described in note 3.5 of the financial statements) Revenue from contracts with customers is recognized when control of the goods are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The revenue is one of the key profit drivers. The terms of sales arrangements, including the timing of transfer of control, delivery specifications, create complexity and judgement in determining timing of sales revenues. Accordingly, due to the significant risk associated with revenue recognition in accordance with terms of Ind AS 115 'Revenue from Contracts with Customers', it was determined to be a key audit matter in our audit of the financial statements.	Following audit procedures have been performed to address this key audit matter: <ul style="list-style-type: none"> Assessed the design and tested the operating effectiveness of internal controls, automated and manual, related to revenue recognition. Performed sample test of individual sales transaction and traced to sales invoices, sales orders and other related documents. Checked that the conditions for revenue recognitions are satisfied. Performed inventory reconciliation, substantive testing for cut-offs, confirmation of receivables balances and analytical procedure. Assessed the relevant disclosures made within the financial statements.

5. Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Director's Report including its Annexure, Corporate Governance and Shareholder's Information but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

6. Responsibility of Management and Those Charge with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the accounting standards specified under

section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

7. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or

error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings,

including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with Governance, we determine those matters that were of most significance in the Audit of Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's Report unless Law or Regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our Report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), as amended, issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and except for the possible effects of the matter described in the "Basis for Qualified Opinion" paragraph, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Annexure "A" referred to The Independent Auditor's Report of even date to the Members of Andhra Cements Limited ("the Company") on the financial statements for the year ended March 31, 2019

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a program of verification to cover all the items of fixed assets in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the management during the year. According to information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to information and explanations given to us, the title deeds of the immovable properties have been mortgaged as security with the Banks and Financial Institutions for securing the borrowings and loans raised by the Company. On the basis of our examination of the records of the Company and copy of the title deeds of immovable properties, the title deeds of immovable properties are held in the name of the Company.
- (ii) According to the information and explanations given to us, physical verification of inventories has been conducted by the management at reasonable intervals during the year. The discrepancies noticed on verification between physical inventories and book records were not material and have been properly dealt with in the books of account.
- (iii) According to the information and explanations given to us, the Company has not granted loan, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraph 3 (iii)(a), (iii)(b) and (iii)(c) of the Order are not applicable to the Company.
- (iv) According to the information and explanations given to us, there are no loans, guarantee or securities granted and made investment in respect of which provisions of section 185 and 186 of the Act are applicable to the Company.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits within the meaning of Section 73 to 76 of the Act, and the rules framed thereunder to the extent notified during the year. Further, in respect of deposits accepted by the Company during an earlier year, the Company Law Board (Southern Regional Bench) has by its order dated July 07, 2001 directed the company to repay the said deposits in accordance with the scheme sanctioned by the BIFR. However, the BIFR in its Modified Rehabilitation Scheme dated July 21, 2008 directed the fixed deposits holders to accept the outstanding principal amount, in four annual installments, on interest free basis. Further, no other Order against the Company has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal. In respect of these deposits, the Company is yet to comply with the requirement of maintaining liquid assets and filing of Return of Deposit.
- (vi) We have broadly reviewed the cost records maintained by the Company pursuant to the Rules made by the Central Government under sub-section (1) of Section 148 of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of these records with a view to determining whether they are accurate or complete.
- (vii) (a) According to information and explanations given to us, the Company is not regular in depositing of undisputed statutory dues of Goods and Services Tax (GST) with the appropriate authorities. However, in case of Provident Fund, Employee's State Insurance, Customs Duty, Income Tax, Cess and other statutory dues as applicable, the company is generally regular in depositing with the appropriate authorities. There were no outstanding of such undisputed statutory dues for a period of more than six months from the date it become payable except the following:

S. No.	Name of the Statute	Nature of Dues	Amount	Period to which it relates	Due Date
			(₹ in lakhs)		
1.	Goods and Services Tax Act, 2017	Interest on GST*	21.28	November 21, 2017 to January 8, 2018	January 8, 2018
			41.44	December 21, 2017 to March 20, 2018	March 20, 2018
			38.21	January 21, 2018 to April 7, 2018	April 7, 2018
			89.23	February 21, 2018 to July 16, 2018	July 16, 2018
			55.82	March 21, 2018 to August 14, 2018	August 14, 2018

*Interest payment on GST is continuously default which is being due on or after November 21, 2017 and still pending to be paid as on the reporting date.

- (b) According to the information and explanations given to us and the records of the Company examined by us, there were no outstanding dues in respect of Income Tax, Sales Tax, Service Tax, Goods and Services tax, Custom duty, Excise Duty and Value Added Tax which have not been deposited on account of any dispute except the following:

*Including default made good during the year.

- (ix) According to the information and explanations given to us, the Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year. In our opinion, the term loan was applied for the purpose for which the loan was obtained during the year.
- (x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees have been noticed or reported during the year.

- (xi) According to the information and explanations given to us, the Company has not paid or provided any managerial remuneration during the year. Accordingly, the provisions of Para 3 (xi) of the Order are not applicable to the Company.
- (xii) The Company is not a Nidhi Company. Accordingly, the provisions of Para 3 (xii) of the Order are not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of the Act, wherever applicable and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the provisions of clause 3 (xiv) of the Order are not applicable to the company.
- (xv) According to the information and explanations given to us, the company has not entered into any non-cash transactions with directors or persons connected with them as referred to in section 192 of the Act. Accordingly, the provisions of clause 3 (xv) of the Order are not applicable to the company.
- (xvi) According to the information and explanations given to us, the Company is not required to be registered under section 45 IA of the Reserve Bank of India Act, 1934.

Annexure "B" to the Independent Auditor's Report on the financial statements of Andhra Cements Limited ("the Company") for the year ended March 31, 2019

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Andhra Cements Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Emphasis of Matter:

Attention is drawn to:

Internal control system for financial reporting with respect to confirmations of certain trade receivables, security deposits given/taken, advances to suppliers, trade payables and advances from customers are pending (Read with note no. 40 of the financial statements), may potentially have impact in the financial statements.

Our opinion is not modified in respect of this matter.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

1. Company Overview

Andhra Cements Limited (the Company) is a Public Limited Company domiciled in India and is incorporated in India under the provisions of Companies Act, 1956. Its shares are listed on two stock exchanges in India i.e. Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The company is engaged in the manufacturing and selling of Cement and Cement related products. The Company caters mainly to the domestic market.

2. Recent accounting pronouncement

Standards issued but not yet effective

Ind AS 116 Leases:

Ind AS 116 will replace the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees.

The Company will recognize a lease liability measured at the present value of the minimum lease payments. The right-of-use asset is recognised at its carrying amount as if the Standard had been applied since the commencement date, but discounted using the lessee's incremental borrowing rate as at April 1, 2019. In accordance with the standard, the Company will elect not to apply the requirements of Ind AS 116 to short-term leases and leases for which the underlying asset is of low value.

The Company will adopt Ind AS 116 effectively for the annual reporting period beginning April 1, 2019. and the Company is currently evaluating the effect of this amendment on the financial statements.

Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, the company needs to assess whether it is probable that the relevant tax authority will accept an uncertain tax treatment used or a treatment which is being proposed to be used in its income tax filings.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019 and

the Company is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 12 – Income taxes:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognise the income tax consequences of dividends Statement of profit and loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 19 – plan amendment, curtailment or settlement-

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity:

- to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- to recognise in Statement of profit and loss a part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company does not have any impact on account of this amendment.

3. Significant Accounting policies

3.1 Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (hereinafter referred to as the "Ind AS") as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("Act") read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act. The Accounting policies are applied consistently to all the periods presented in the financial statement.

3.2 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and presentation

requirements of Schedule III to the Act under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

3.3 Critical accounting judgments and key sources of estimation uncertainty

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

Discount rate used to determine the carrying amount of the Company's defined benefit obligation: The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Contingences and commitments: In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, company treat them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be

no assurance regarding the final outcome of the legal proceedings, the company do not expect them to have a materially adverse impact on the financial position or profitability.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

- (a) **Income taxes:** The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.
- (b) **Useful lives of property, plant and equipment:** As described in Note 3.8, the Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.
- (c) **Allowances for doubtful debts:** The Company makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgment and estimates.

3.4 Operating Cycle and Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification in accordance with Part-I of Division- II of Schedule III of the Companies Act, 2013.

An asset is treated as current when it (a) Expected to be realised or intended to be sold or consumed in normal operating cycle; (b) Held primarily for the purpose of trading; or (c) Expected to be realised within twelve months after the reporting period, or (d) The asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when (a) It is expected to be settled in normal operating cycle; or (b) It is held primarily for the purpose of trading; or (c) It is due to be settled within twelve months after the reporting period, or (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, results in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its normal operating cycle.

3.5 Revenue recognition

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch / delivery.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for discounts/incentives and returns are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers. Due to the short nature of credit period given to customers, there is no financing component in the contract.

The Company has adopted Ind AS 115 using the cumulative catch-up method whereby the effect of applying this standard is recognised at the date of initial application (i.e. 1 April, 2018). Accordingly, the comparative information in the Statement of Profit and Loss is not restated. Impact on adoption of Ind AS 115 is not material.

Cost to obtain a contract

The Company pays sales commission to its selling agents for contracts that they obtain for the Company and the same is expense out on the basis of sales took place. (included in Commission on Sales under "Other Expense").

Costs to fulfill a contract i.e. freight, insurance and other selling expenses are recognized as an expense in the period in which related revenue is recognised.

Interest income Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends Dividend income from investments is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Profit/Loss on sale of units of Mutual funds/Bonds/Shares are accounted on transfer of ownership.

3.6 Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief

operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3.7 Foreign Currencies

Functional and presentation Currencies: The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

Transactions and translations: Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

3.8 Property, plant and equipment

Property, plant and equipment (PPE) are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The

carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the reporting period in which they are incurred.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and useful lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the straight-line method ("SLM") in the manner prescribed in schedule II to the Act. Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.) that the useful lives of the assets as considered by the company reflect the periods over which these assets are expected to be used. Such classes of assets and their estimated useful lives are as under;

S. NO	Nature of Asset/ Component of an Assets	Useful life of assets/ components of assets
1	Building	5-60
2	Plant and Machineries	
	-Power plant	30-40
	-Other than Power Plant	5-30
3	Furniture and Fixtures	3-10
4	Office Equipment	10
5	Vehicles	5-10
6	Railway Siding	25

Carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an

item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss. Fully depreciated assets still in use are retained in financial statements.

3.9 Capital work-in-progress and intangible assets under development

Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

3.10 Intangible assets

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortization and accumulated impairment losses, if any.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on derecognition are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss within other gains/(losses).

The Company amortises intangible assets with a finite useful life using the straight-line method over the useful lives determined by the terms of the agreement / contract. The estimated useful life is reviewed annually by the management.

3.11. Impairment of Non-Financial Assets

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in Statement of Profit and

Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

3.12 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax: Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax: Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

3.13 Leases

Leases are classified as finance leases whenever the terms of lease transfer substantially all the risks and rewards of ownership to the lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

Operating Lease: Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding in inflationary increases where rentals are structured solely to increase in line with the expected general inflation to compensate for the lessor's inflationary cost increases, such increases are recognised in the year in which the benefits accrue) provided by the lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

Finance Lease: Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

3.14 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily

convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.15 Provisions and Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

3.16 Inventories

Inventories are valued as follows:

- **Raw materials, fuel, stores & spare parts and packing materials:**

Valued at lower of cost and net realisable value(NRV). However, these items are considered to be realisable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Cost is determined on weighted average basis.

- **Work-in- progress (WIP), finished goods, stock-in-trade and trial run inventories:**

Valued at lower of cost and NRV. Cost of Finished goods and WIP includes cost of raw materials, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories is computed on weighted average basis.

- **Waste / Scrap:**

Waste / Scrap inventory is valued at NRV.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

3.17 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

Amortised Cost:

A financial asset shall be classified and measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair Value through OCI:

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair Value through Profit or Loss:

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification and Subsequent Measurement: Financial liabilities:

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL:

Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or a shorter period (where appropriate), to the net carrying amount on initial recognition.

Impairment of financial assets:

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognizes a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial assets:

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially

all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Offsetting of financial instruments

Financial assets and financial liabilities are set off and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.18 Exceptional items

Items of income or expense from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company are disclosed as Exceptional items in the Statement of Profit and Loss.

3.19 Borrowing costs

General and specific borrowing costs (including exchange differences arising from foreign currency borrowing to the extent that they are regarded as an adjustment to interest cost) that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees rendered the related services are recognized in respect of employees' services up to the end of the reporting period and or measured at the amounts expected to be paid when the liabilities are settled.

3.20 Employee Benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees rendered the related services are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

Post-employment benefit plans

Defined Contribution plans: Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has

no further defined obligations beyond the monthly contributions.

Defined benefit plans: The Company operates defined benefit plan in the form of gratuity and compensated absence. The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated by actuaries using the projected unit credit method.

The interest expense is calculated by applying the discount rate to the net defined benefit liability or asset. The net interest expense on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in Other Comprehensive Income in the Statement of Changes in Equity and in the Balance Sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in Statement of Profit and Loss as past service cost.

The classification of the company's net obligation into current and non-current is as per the actuarial valuation report.

3.21 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

- (iii) **Excise authority**, although accepted payment of principal amount of ₹ 629 Lakhs under installment scheme in terms of BIFR Order (MS-08), has subsequently filed an appeal in AAIIR against the said order in respect of reliefs for interest etc., granted to the Company. AAIIR allowed the appeal which was contested by the Company before Hon'ble Delhi High Court. The Delhi High Court disposed the appeal by giving liberty to revenue to decide case on merits and as per guidelines applicable to sick Companies which later confirmed by AAIIR in its Final order. The Excise Department has issued a Show Cause Notice (SCN) on 19th June 2015 demanding ₹ 984.70 Lakhs towards interest on the principal amount against which Company file writ petition no. 27732 of 2015 in Hon'ble High Court, Hyderabad. Simultaneously, Company submitted the reply for the SCN on March 21, 2016. Excise Department confirmed the Demand against SCN on 04.10.2016 subjected to decision in writ petition no. 27732 of 2015. Company preferred Writ petition no 36553 of 2016 dated 28.10.2016 in the Hon'ble High Court, Hyderabad against the orders of Commissioner Excise confirming the Demand but the Hon'ble High Court, Hyderabad in its order dated 24.03.2017 has dismissed both the petition

with mentioned that there are no merits in the writ petition. Against the order of the Hon'ble High Court, Hyderabad, the Company has filed SLP(C) with Hon'ble Supreme Court of India on 26-05-2017 which was registered as civil appeal no. 9332/2017 and the Company is confident of waiver of interest in terms of Hon'ble BIFR directions in MS08.

- (iv) The Company has export obligation in connection with import of machineries under Export Promotion Capital Goods Scheme (EPCG). In the event of non-fulfillment of the export obligation upto FY 2016-17, the company may be held liable for differential custom duty of ₹ 838.16 Lakhs (approximately) and interest thereon. Further, the Company has made request on March 17, 2016 for 8 years extension from December 2014 for Export Commitments as the commercial production from the Plant started from December 2014. The concerned authorities had demanded payment of partial duty during the year for considering the request for extension, which was not deposited by the company. Further, during the year, the Directorate of Revenue Intelligence has issued an order to the company u/s 110(1) of Customs Act, 1962 confiscating the capital goods having import value of 3,979 lakhs due to non-fulfillment of export obligations. Therefore, the company has provided 2,644.10 lakh during the financial year ended March 31, 2019 as differential Custom Duty and interest thereon.

(v) **Employee benefit:** The Company had entered into Memorandum of Settlement u/s 18(1) of the Industrial Dispute Act, 1947 with the Labour Unions on March 06, 2012 for settlement of salaries and wages arrears. However, some of the workers and staff have filed an application with Central Government Industrial Tribunal cum Labour Court under section 33(c) (2) of Industrial Disput Act, 1947 in year 2013-14 of ₹ 59.34 Lakhs which had been waived off as per the above settlement.

(vi) **Fuel Surcharge Adjustment (FSA)** of ₹ 550.65 lakhs levied by APSPDCL in 2008-09 which is under disputed and challenged by all cement companies

in the Hon'ble Supreme Court. The management is confident that decision will be in favour of Company. However, the Company has sufficiently provided the same along with interest thereon as disclosed in Note No. 23(f)(iii).

(vii) **The Ministry of Textiles** vide its Order dated June 30th, 1997 and July 1st, 1999, has deleted the Cement from the list of commodities to be packed in Jute bags, under the Jute Packaging Materials (Compulsory Use of Packing Materials), Act, 1987. In view of this, the Company does not expect any liability for non-dispatch of cement in jute bags in respect of earlier years.

45. Fair Value

The fair value of the financial assets are included at amounts at which the instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

- Fair value of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments.
- Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables. Accordingly, fair value of such instruments are not materially different from their carrying amounts.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair value.

46.2 Financial-Risk-Management

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets comprise investments, cash and bank balance, trade and other receivables.

The Company is exposed to various financial risks such as market risk, credit risk and liquidity risk. The financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

a) Market Risk

The Company's activities expose it primarily to the financial risk of changes in foreign currency exchange rates and changes in interest rates. There have been no changes to the Company's exposure to market risk or the manner in which it manages and measures the risk in recent past.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and bank deposits.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The particulars relating to Company's exposure to the risk of changes in market interest rates as at reporting date is given below:

(a) Interest Sensitivity**Exposure to interest rate risk related to borrowings with floating rate of Interest**

(₹ in lakhs)		
Particulars	As at March 31, 2019	As at March 31, 2018

50 bp increase would decrease the profit before tax by	(464.08)	(452.79)
50 bp decrease would Increase the profit before tax by	464.08	452.79

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of store and spare and other materials. The Company's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Company's policies.

b) Credit Risk:

Credit risk is the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The Company has adopted a policy of only dealing with creditworthy customers.

In many cases an appropriate advance as security deposits or letter of credit / bank guarantee is taken from the customers to cover the risk. In other cases, credit limit is granted to customer after assessing the credit worthiness based on the information supplied by credit rating agencies, publicly available financial information or its own past trading records and trends.

At March 31, 2019, the company did not consider there to be any significant concentration of credit risk, which had not been adequately provided for. The carrying amount of the financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the maximum exposure to credit risk.

c) Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.
