MANAGEMENT DISCUSSION AND ANALYSIS REPORT**1. INDUSTRY STRUCTURE AND DEVELOPMENTS:**

Hospitality industry is becoming more technology-driven, customer-centric, and sustainability-focused. Organizations that invest in innovation, digital capabilities, environmental responsibility, and personalized services are likely to strengthen their competitive position and achieve sustainable long-term growth. Growth is being driven by digital innovation, evolving customer preferences, and strategic investments in sustainable and technology-enabled operations. These days, the hospitality business is presumably the world's quickest developing, work making calling, utilizing one out of ten individuals around the world. It is a noteworthy player inside the worldwide economy.

The primary goal of the tourism strategy in India is to position tourism as a noteworthy motor of monetary development. Rising incomes among India's growing middle class are driving strong growth in domestic leisure travel. Supportive government initiatives like improved connectivity and Dekho Apna Desh campaigns have made travel more accessible, making the middle class a key driver of India's tourism growth.

2. OPPORTUNITIES, THREATS, RISK AND CONCERNS:

One of the most significant trends shaping the hospitality industry is the rise of hybrid work and leisure travel. Hybrid work allows employees to divide their time between working from the office and working remotely. As a result, many professionals are no longer required to remain in one location, creating greater flexibility to combine business and leisure travel. This trend has increased demand for hotels that provide both business facilities and leisure amenities.

Your Company is in well position to take advantage of the following situations:

- Healthy economy having positive support of Tourism Sector.
- Well framed State and Central Government policies to attract tourists.
- Proximity to Railway station and Bus station.
- Healthy Competition in the city.
- Extending the product portfolio by offering various types of facilities.
- Demand between the national and the inbound tourists can be easily managed due to difference in the period of holidays.

Recent geopolitical tensions and ongoing wars (particularly in West Asia and surrounding regions) have created significant uncertainty for the global hospitality and tourism industry. These conflicts have both direct and indirect effects on travel demand, operational costs, and overall business stability. Wars reduce global tourist confidence due to safety concerns, travel advisories, and fear of instability.

Cyber security threats and data breaches represent a significant and evolving risk for the hospitality industry. As digital adoption increases, the attack surface continues to expand, making robust cyber security frameworks essential.

5. FUTURE PROSPECTS:

Green technology investments, as well as a change in how hotels conduct their business, will be necessary for this. The hotel sector in emerging nations is still expanding, which is a significant trend. People are eager to travel and discover new locations more frequently as more and more individuals worldwide have access to more disposable income. In previously untouched markets, this will provide hotels with new opportunities to grow.

The expansion of regional airports under schemes like UDAN (UDE DESH KA AAM NAGRIK) has improved connectivity to Tier-II and Tier-III cities in India, enabling the growth of new hospitality markets. Improved road networks and high-speed rail connectivity have also reduced travel time and increased tourist mobility. As travel demand continues to rise, the sector is expected to expand significantly, offering increased employment, investment opportunities, and sustained economic growth.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of the affairs of the Company as at 31st March, 2026, the profit and the total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion:

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgments, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	Revenue Recognition To ensure accuracy of recognition, measurement, presentation and disclosures of revenues and related accounts.	Principal Audit Procedures • We have assessed the Company's internal controls surrounding its revenue transactions; • We tested the key controls identified; • We performed substantive detail testing by selecting a sample of revenue transactions that we considered appropriate to test the evidence of effectiveness of the internal controls and adherence to accounting policies in recognizing the revenue, and the rebates and discounts there against.

Information Other than the Financial Statements and Auditor's Report Thereon:

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements:

The Company's Board of Directors is responsible for the matters stated in the Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind-AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgments and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

for the year ended on 31st March, 2026**

Note `1'- SIGNIFICANT ACCOUNTING POLICIES**A. Corporate Information:**

These financial statements comprise financial statements of H S India Limited ("the Company") for the year ended on 31st March, 2026. The Company was incorporated on 12th September, 1989 under the provisions of the Companies Act, 1956. The Company is into the business of Hotels and Restaurants. The Company is listed on BSE Ltd.

B. Basis of Preparation:

The financial statements of the Company have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and amendments thereof issued by Ministry of Corporate Affairs under Section 133 of the Companies Act, 2013 and other accounting principles generally accepted in India based on Schedule III of the Companies Act, 2013.

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision of an existing Accounting Standard requires a change in accounting policy hitherto in use unless otherwise stated.

C. Use of Estimates:

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

D. Classification of Assets and Liabilities into current and Non-current:

The company presents its assets and liabilities in the Balance Sheet based on current/non-current classification; an asset is treated as current when it is:

- i) Expected to be realized or intended to be sold or consumed in the normal operating cycle; or
- ii) Held primarily for the purpose of trading; or
- iii) Expected to be realized within twelve months after the reporting period; or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when it is:

- i) Expected to be settled in the normal operating cycle; or
- ii) Held primarily for the purpose of trading; or

**Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026**

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets and their realization in cash and cash equivalents. Based on the services rendered and their realizations in cash and cash equivalents, the Company has ascertained its operating cycle is twelve months for the purpose of current and non-current classification of assets and liabilities.

E. Property, Plant and Equipment:

Property, Plant and Equipment:

Freehold land is carried at historical cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Costs include freight, import duties, non-refundable purchase taxes and other expenses directly attributable to the acquisition of the asset but exclude GST and / or other Taxes against which credit is availed.

Depreciation and Amortisation:

Depreciation is provided on straight line method applying the useful lives as prescribed in Part C of the Schedule II to the Companies Act, 2013.

Gains/Losses on disposals/de-recognition of property, plant and equipment are determined by comparing proceeds with carrying amount and these are recognized in Statement of Profit and Loss.

F. Intangible Assets:

Intangible assets are carried at cost, net of credit availed in respect of any taxes and duties, less accumulated amortization.

G. Leases:

The determination of whether an arrangement is (or contains) a finance lease or operating lease is based on the substance of the arrangement at the inception of lease. A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfer substantially all the risks and rewards incidental to ownership to the lessee is classified as finance lease.

Lessee: Leases where the lessor effectively retains substantially all the risks and benefits of ownership of assets over the lease term, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight line basis unless payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

Lessor: Rental income from operating lease is recognised on a straight line basis over the lease term unless payments to the Company are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increase. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

H. Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the performance specific transaction price (net of variable consideration, if any) received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026

- i) Revenue from Rooms, Food and Beverage and Banquets is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and banquet services which is recognised after completion of service to the customer.
- ii) Other revenue such as laundry income, communication income and other allied services, the revenue has been recognised by reference to the time of service rendered.
- iii) Income from sale of Liquor is recognised at the time of delivery of goods to the customer.
- iv) Rentals are recognized on accrual basis.
- v) Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.
- vi) Insurance claims are recognized as and when they are settled / admitted.
- vii) Income stated above is exclusive of taxes collected. Rebates and discounts granted to customers are reduced from revenue.

I. Foreign Exchange Transactions:

The Company's financial statements are presented in Indian Rupee (Rs.), which is also the Company's functional currency.

- a. Initial recognition: Transactions in foreign currencies are initially recorded at the exchange rates (Rs. spot rate) prevailing on the date of the transaction.
- b. Conversion: Foreign currency monetary items are reported at the exchange rates (Rs. spot rate) on Balance Sheet date.
- c. Exchange Difference: Exchange differences arising on the settlement of monetary items, on reporting of such monetary items at rates different from those at which they were initially recorded during the year or reported in previous financial statements, are recognized as income or expense in the year in which they arise. Foreign currency assets / liabilities are restated at the rates prevailing at the year end and the gain / loss arising out of such restatement is taken to revenue.

J. Inventories:

Inventories of food and beverages and other consumables and operating supplies are measured at cost. Inventories of liquor / wine are valued at the lower of cost and net realisable value.

K. Financial Instruments:

Financial assets and liabilities are recognised when the Company becomes party to the contractual provisions of the instrument. Financial assets (except Trade Receivables that are measured at transaction value) and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial assets or financial liabilities.

Financial Assets:

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

- (a) the entity's business model for managing the financial assets; and
- (b) the contractual cash flow characteristics of the financial asset.

**Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026**

(a) Measured at amortised cost:

A financial asset is measured at amortised cost, if it is held within a business model whose objective is to hold the assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

(b) Measured at fair value through other comprehensive income (FVOCI):

A financial asset is measured at FVOCI, if it is held within a business model whose objective is achieved by both contractual cash flows and selling such financial asset and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

(c) Measured at fair value through profit or loss (FVTPL):

A financial asset, which is not classified in any of above categories, is measured at FVTPL.

Equity Instruments:

All equity instruments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in "Other Comprehensive Income". If sufficient more recent information is not available to measure the fair value of the equity instrument or where the cost represents the best estimate of fair value, in such cases, such equity instruments has been measured at cost.

Impairment:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 months ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Financial Liabilities:**Initial Recognition and measurement:**

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026

Subsequent measurement :

All financial liabilities are recognized at fair value except when the effect of applying it is immaterial and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

De-recognition of Financial Instruments:

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

L. Impairment of non-financial assets:

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss. An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

M. Fair Value Measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value

**Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026**

measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

N. Employee Benefits:

The Company has following post-employment plans:

- (a) Defined benefit plans such a gratuity;
- (b) Defined contribution plans such as Provident fund and Superannuation fund; and
- (c) Other Employee Benefits.

a) Defined-benefit plan:

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring cost or termination benefits.

**Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026**

The retirement benefit obligations recognised in the Balance Sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

b) Defined-contribution plan:

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

c) Other employee benefits:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date.

O. Taxes on Income:

The tax expense for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income or in equity. In which case, the tax is also recognised in Other Comprehensive Income or Equity.

(a) Current Tax:

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are applicable for the period of Financial Statement.

(b) Deferred Tax:

Deferred tax is recognised on time differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

P. Provisions and Contingencies:

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

**Significant Accounting Policies & Notes on Financial Statement
for the year ended on 31st March, 2026**

The Company has pending litigations with the Goods & Services Tax Department against the Tax demands as detailed below, probability of the impact of which to the financial position is considered to be low.

Cash flows are reported using the indirect method where by the profit before tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

S. Borrowing Cost:

Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other borrowing costs are recognized as an expense in the period in which they are incurred.

T. Earnings Per Share:

The Company did not have any potentially dilutive securities in any of the years' represented.

Diluted earnings per share: Diluted earnings per share is calculated by dividing the net profit or loss for the year after tax from continuing operations attributable to equity shareholders by the weighted average number of equity shares outstanding including equity shares which would have been issued on the conversion of all dilutive potential equity shares unless they are considered anti-dilutive in nature.

U. Dividend:

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.
