AGM Notice 87

Dear Shareholders,

This year Accelya Kale had its own set of challenges and opportunities. Overall we have been able to maintain our revenues and earnings to last year's levels and continue on our journey of innovation and winning new customers.

The company's revenues and profits at a consolidated level have grown marginally. Total revenues for FY 2014 stood at Rs. 3,215.30 million and net profit after tax was at Rs. 861.92 million. This is despite the loss of a significant sized customer contract, which was made up partly by acquisition of new customers like Hawaiian Airlines, GoAir and Garuda Indonesia.

Accelya Kale continued the practice of rewarding its shareholders, with dividends. This year, the total dividend is Rs. 49 per share, including Rs. 22 per share recommended as final dividend.

I am pleased to share that we accomplished a major technology refresh to our flagship product- REVERA®. The enhanced version of REVERA sets new benchmarks in Revenue Accounting on accuracy, speed and intelligence – across passenger, cargo and airmail. REVERA NEXT is now ready from technology perspective to meet demands of global airlines for the next decade. It will also help in creating further differentiation vis-à-vis our competitors.

REVERA NEXT also addresses the needs of Low Cost Carriers who are moving to hybrid models. We see this as a potential opportunity to grow our market share in the industry.

Accelya Kale's Finesse suite of products has been well received by the Airline industry. On the back of excellent traction to miscellaneous billing solution- FinesseMBS™, the Company launched FinesseCost™ to help airlines prevent overpayments to suppliers and efficiently manage their Direct Operating Costs (DOC).

I am also delighted to share that during the year Accelya Group was acknowledged 'IT Company of the year 2014' by Air Transport News Awards and 'Information Technology for the Air Cargo Industry 2014' at the ACW World Air Cargo Awards 2014. These awards are testament to the value delivered by our Group to our customers and the airline industry.

I look forward to your continued support as we enter the new financial year.

Yours truly,

A handwritten signature in black ink, appearing to read 'Vipul Jain', with a long horizontal stroke extending to the right.

Dividend

The Company had declared and paid an interim dividend of Rs.27 per equity share during the year.

Your Directors are pleased to recommend a final dividend of Rs.22 per equity share for the financial year ended June 30, 2014.

Operating Results

Considering the current economic scenario where the GDP growth in the country has been less than 5% for the second consecutive year, your Company's performance has shown a steady growth.

During the year under review, your Company's total revenues have increased by 13.27% from Rs. 2,671.05 million to Rs.3,025.55 million. The total expenditure for the year 2013-14 stood at Rs. 1,740.62 million as against Rs. 1,626.33 million in the previous year, a marginal increase of 7.03%.

The Profit before tax for 2013-14 increased to Rs.1,284.93 million from Rs. 1,044.72 million in the previous year, an upsurge of 22.99%.

The Company has registered profit after tax of Rs.895.93 million in the current year as against Rs.712.44 million in the previous year, an impressive growth of 25.76%.

Business Operations

Accelya Kale continued with its focus on innovation, increased productivity and quality by launching some key solutions during the year:

- The Company accomplished a major technology refresh to its flagship product- REVERA®. The enhanced version of REVERA sets new benchmarks in Revenue Accounting on accuracy, speed and intelligence – across passenger, cargo and airmail.
- Accelya Kale's Finesse suite of products has been well received by the Airline industry. On the back of excellent traction to miscellaneous billing solution- FinesseMBS™; the Company launched FinesseCost™ to help airlines prevent overpayments to suppliers and efficiently manage their Direct Operating Costs (DOC).
- In a bid to help airlines easily evaluate their interline performance, the Company launched eSpin™. Web-based and easy to use, eSpin helps airlines evaluate interline billing and bring greater efficiency into their operations.

Accelya Kale further consolidated its position as the leading and preferred solution provider to the Airline industry and added leading global airlines to its growing customer list. Some of these were:

- Hawaiian Airlines, the largest carrier in Hawaii, USA, selected Accelya Kale's passenger revenue accounting solution, REVERA PRA, to re-engineer their passenger revenue accounting process.

- Bangkok Airways, Asia's boutique airline, selected Accelya Kale to provide services including the complete Book-to-Cash cycle including passenger revenue accounting, cargo revenue accounting, sales audit, card billing and miscellaneous billing.
- GoAir, a leading budget carrier from India, chose Accelya's REVERA NEXT to automate its revenue accounting process, build in better audit controls and be future-ready to accommodate any changes in business model.
- Flybe, Europe's largest independent regional airline selected FinesseMBS™ solution to automate and standardise the entire miscellaneous billing process.
- Garuda Indonesia, national carrier of Indonesia outsourced its fare filing to Accelya Kale.

The Company was conferred with some prestigious awards during the year. Accelya Kale was once again featured in the prestigious Forbes Asia's 200 List of 'Best Under a Billion'. This is the second time the Company has featured in the elite list after having featured in 2011 for the first time. Accelya Kale was also voted as 'IT Company of the year 2014' by leading global media awards viz. Air Transport News Awards and Air Cargo Week World Air Cargo Awards.

Subsidiaries

The Central Government has, vide General Circular No:2 / 2011 dated February 8, 2011, granted general exemption to companies from attaching a copy of the Balance sheet, Profit and Loss Account, Report of the Board of Directors and the Report of the Auditors of subsidiary companies, subject to the fulfillment of certain conditions mentioned therein. As a result, the Balance sheet, Profit and Loss Account, Report of the Board of Directors and the Report of the Auditors of the following subsidiary companies:

Accelya Kale may, from time to time, make additional written and oral forward-looking statements, including reports to shareholders. The Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

The following discussion and analysis should be read in conjunction with the Company's audited Financial Statement and the notes thereon.

INDUSTRY OUTLOOK

GLOBAL TRAVEL SECTOR

This is a special year for the global airline industry, completing the first 100 years of scheduled commercial aviation. According to the International Air Transport Association (IATA) the industry outlook is positive. IATA has made following forecasts for airline industry in 2014:

- Airlines are expected to transport around 3.3 billion passengers and 50 million metric tons of cargo across a network of almost 50,000 routes. This connectivity has an estimated global economic impact of \$2.4 trillion.
- In 2014, the airline industry revenues are forecasted to be \$745 billion with profit of \$18.9 billion. That is a 2.5% net profit margin. That compares with revenues of \$708 billion, profit of \$12.9 billion and a 1.8% net profit margin in 2013.
- Put another way, airlines are expected to make a profit on average of \$5.65 for every passenger carried in 2014 as compared to \$4.13 in 2013.
- 2014 promises an improvement in profitability, with developed economies leading growth. Passenger demand remains strong, and rising business confidence is expected to stimulate the cargo business as 2014 progresses.

ACCELYA GROUP'S STRATEGY

Airlines face a complex operating environment and are looking at ways to simplify their business processes and make them efficient and agile.

Accelya Group's vision is **'to be the market leader of integrated suite of financial and business intelligence solutions to airlines'**, Accelya is strategically focused to help airlines integrate and simplify their financial processes; to better manage costs, risks, revenue leakages, cash flows, profitability and overall business performance.

Accelya partners with airlines right from the time a ticket or an air waybill is issued, all the way through its entire financial lifecycle and until the data is converted to actionable decision support. For our customers, there is a wider choice of solutions and the confidence that they are engaging with a Group that can become their long term and strategic solutions provider. Pay-per-use business model further helps airlines avoid upfront capital investments and achieve business growth. It also provides the Group annuity revenue streams that ensure revenue visibility and foundation for growth.

ACCELYA KALE UPDATES

Accelya Kale had a challenging year because the year started with the loss of a significant sized contract with one of its key customers. This was largely due to change in the customer's IT and outsourcing strategy and not on account of dissatisfaction with Accelya Kale's services. However the Company continues to provide other solutions to the customer and enjoys healthy relationship with them. The loss of revenue on account of this contract has been partly compensated through acquisition of new customers during the year. Some of these were:

- Hawaiian Airlines, the largest carrier in Hawaii, USA, selected REVERA PRA, to re-engineer their passenger revenue accounting process
- Bangkok Airways, Asia's boutique airline, outsourced its complete Book-to-Cash cycle including passenger revenue accounting, cargo revenue accounting, sales audit and miscellaneous billing
- GoAir, a leading budget carrier from India, chose REVERA NEXT to automate its revenue accounting process, build in better audit controls and be future-ready to accommodate any changes in business model
- Flybe, Europe's largest independent regional airline selected FinesseMBS™ solution to automate and standardise the entire miscellaneous billing process
- Garuda Indonesia, national carrier of Indonesia outsourced its fare filing to Accelya Kale

Accelya Kale continued its focus on innovation, increased productivity and quality by launching some key solutions during the year.

- The Company accomplished a major technology refresh to its flagship product- REVERA®. The enhanced version

called REVERA NEXT sets new benchmarks in Revenue Accounting on accuracy, speed and intelligence – across passenger, cargo and airmail.

- The Company launched FinesseCost™ to help airlines prevent overpayments to suppliers and efficiently manage their Direct Operating Costs (DOC).
- To help airlines identify cash blocked in interlining due to billing delays and rejections, the Company launched eSpin™.

Accelya Group was conferred with some prestigious industry awards during the year. The Group was acknowledged by leading global media awards viz. 'IT Company of the year 2014' by Air Transport News Awards and 'Information Technology for the Air Cargo Industry 2014' by ACW World Air Cargo Awards 2014. These awards were determined through voting by airline industry professionals and are testament to the value delivered by the Group to its customers and the airline industry.

ACCELYA KALE'S MAJOR OFFERINGS

Accelya Group's expertise spans across all critical airline financial processes – BSP Processing, Revenue Accounting, Audit & Revenue Recovery, Card Management, Miscellaneous Billing, Cost Management and Business Intelligence. The Group partners with airlines right from the time a ticket or an air waybill is issued, all the way through its entire financial life cycle, until the data is converted into actionable decision support.

ACCELYA KALE SOLUTIONS

REVERA® - Revenue Accounting Solution

Accelya Kale has more than 20 years of experience in revenue accounting and helps airlines process over 300 million revenue accounting transactions annually. In this category we are considered to be one of the leaders in the industry.

REVERA suite of solutions enables airlines to streamline and simplify revenue accounting across passenger, proration, interline, cargo and airmail. REVERA suite includes REVERA PRA, APEX® Proration, REVERA Interline, REVERA CRA and REVERA Airmail.

Accelya Kale is a pioneer of platform based BPO or Outsourced Services model for airlines. This business model offers outsourced services on the REVERA platform and combines domain expertise with service orientation (as per SLAs). The company takes complete accountability of accuracy, timeliness and completeness of data.

For customers who do not wish to outsource, but use the platform in-house, the company offers Managed Hosting model.

FinesseCost™ - Cost Management Solution

FinesseCost™ helps airlines efficiently manage their Direct Operating Costs (DOC). It streamlines the payables process by automatically processing E-invoices from various DOC vendors such as airports, ATC and fuel companies.

FinesseMBS™ - Miscellaneous Billing Solution

FinesseMBS™ is a SIS-compliant miscellaneous (non - transport) billing solution that streamlines miscellaneous receivables and payables. Using a single, integrated invoicing and settlement process, FinesseMBS standardises billing and accounting practices across business units.

Audit and Revenue Recovery Service

Accelya Kale is the leader in revenue recovery and protection services to airlines. Its audit services span across the entire ticket lifecycle from original booking through to the completion of the journey. This is supported by comprehensive recovery services - from raising of Agent Debit Memos (ADMs) to fund collection. Through proprietary platform, skilled staff and best practices, the Company ensures maximised recovery and minimised errors.

eSpin™

Accelya Kale's eSpin helps airlines identify cash blocked in interlining due to billing delays and rejections.

Industry Solutions (IATA Business Partner)

Accelya Kale partners with IATA on industry-wide initiatives and provides strategic solutions that aim to transform and simplify a variety of airline processes. The Company's robust industry solutions include Neutral Fare Proration (NFP) and Simplified Interline Settlement (SIS).

Accelya Kale is primary technology partner for IATA's Simplified Interline Settlement (SIS) platform.

Accelya Kale's NFP (Neutral Fare Proration) engine APEX® (jointly offered with ATPCO) is the backbone of the First & Final™ Billing service offered by IATA. As a part of the NFP process, APEX® accurately prorates more than 3 million transactions per month to over 35 airlines.

RISKS, CONCERNS AND RISK MITIGATION

Increasing competition

The airline and travel solutions business is seeing a lot of interest in recent times. Many new providers and existing technology vendors are foraying into the business. Accelya Kale is closely monitoring the industry challenges and investing in innovation and productivity improvements to add value to customers through its solutions. In-depth knowledge of the industry and its requirements make Accelya Kale the partner of choice for airlines.

Uncertain economic environment

The airline industry is amongst the first to be impacted by any major economic or political situations.

Accelya Kale is in a good position to mitigate this risk. The company has a large customer base spread globally with strong presence in growing regions such as the Middle East and Latin America. The company has long term contracts with its customers. This generates annuity revenues and provides good visibility on business.

Regulatory Risk

Proposed legislation in certain countries in which Accelya Kale operates, may restrict airlines in those countries from outsourcing work to the Company, or may limit its ability to

send employees to certain client sites. Airline industry being a global industry, with Accelya Kale's customers spread across the world; mitigates this risk to some extent.

Currency Volatility

Being a global organization dealing with global customers, volatility in currency exchange movements may affect the results of Accelya Kale's operations. The Company has got currency hedging policies and practices in place which are regularly reviewed to mitigate this risk.

Resource Availability

Accelya Kale being in an industry driven by domain knowledge and intellectual property, the Company's success depends in large part on its ability to attract and retain talent. Strong HR processes to identify competency and skill gaps on a continuous basis, a well defined hiring program and competency development of the Company's employees continues to be a key area of strategic focus for Accelya Kale.

Adequacy of Internal Control Systems

The company's internal control systems are well designed to provide reasonable assurance that assets are safeguarded, transactions are properly recorded in accordance with management's authorization, and accounting records are adequate for preparation of financial statements and other financial information. Internal audits are performed regularly to ascertain their adequacy and effectiveness. The internal audit function also carries out Operations Review Audits. The audit committee periodically reviews the functions of internal audit.

Human Capital

The work culture of Accelya Kale is built around creating excellence in domains and technology. We are a diverse, multicultural and secular work place. We are a 1500+ strong workforce company spread across various nationality and geographies. Accelya Kale encourages an 'Equal Employment Opportunity Policy' which discourages discrimination for employment on account of sex, race, color, religion, physical challenge and so on. Accelyaites are with an average age of 32 years.

Accelya Kale Women Network (AKWN)

AKWN is a networking forum for professional women, enabled by Accelya Kale. This offers an opportunity to women employees to learn, share and empower themselves and their women colleagues.

"A good company delivers excellent products and services, and a great company does all that and strives to make the world a better place."

(Executive Chairman of one of the world's largest public companies on the Forbes 2014 Global 2000 list)

Today, we live in an age in which companies, businesses and society are more connected and interactive than ever before in the past. Corporations are more aware of their role towards the society. They are responsible bodies that feel a sense of duty towards society and the environment and as an integral part of this society themselves, can contribute to its upliftment and empower the entire country in turn.

Corporate Social Responsibility (CSR) is a crucial bridge between organizations and society and also a means to create awareness amongst Corporates, NGOs and civic bodies regarding the value and importance of social responsibility. CSR is an important link between the privileged and the disadvantaged of society.

CSR is the soul of every business these days. It has also become the password to ensure sustainable growth. It has been supported not only by the shareholders but stakeholders by and large encompassing the whole community.

As a socially responsible organization, we have been supporting **Catalysts for Social Action (CSA)**, a Not-For-Profit organization dedicated to the cause of child welfare and rehabilitation for children living in orphanages since 2003.

CSA works as a "catalyst" focusing on a holistic approach to child care and optimal rehabilitation outcomes.

CSA is making a valuable difference to **2800+** children across **55+** child care institutions in **4** states that they work out of.

Accelya Kale Solutions Limited believes strongly in 'striving to make the world a better place' for less fortunate children in child care institutions / orphanages & therefore, support a number of initiatives ranging from -

- Campaigns covering distribution of school stationery & supplies to children in child care institutions;
- Provision of hygiene kits to enable better health and sanitary practices at child care institutions;
- Financially contributing via payroll giving, individual donations and donations in kind;
- Participating in fund raising / awareness events such as CSA Charity Dinner, Mumbai and Delhi Marathons 2014;
- Celebrating fun events such as festivities, Christmas party, various recreational activities, conducting hobby classes with kids, doing awareness sessions on personal, oral and skin care with children etc.
- A key highlight was the organization of a 'Friendly Cricket Match' between the winners and runners up of the Accelya Kale Cricket Tournament and 40 children from a children's home in Mumbai. The riding thought was to bring smiles and give these children memories to cherish. Employees contributed warm-heartedly towards cricket set and gear, shoes, sportswear etc. This event was covered by several media publications and newspapers.

During the year Accelya Kale's corporate contribution to CSA amounted to Rs.2.32 million and Accelya Kale employees contributed Rs.0.87 million. We also encourage our vendors to support CSA's work and have facilitated donations for CSA amounting to Rs. 0.5 million.

As CSA forges ahead in its endeavor, Accelya Kale pledges our support to CSA in making this world a better place for these children.

Independent Auditors' Report

To the Members of
Accelya Kale Solutions Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Accelya Kale Solutions Limited ("the Company"), which comprise the Balance Sheet as at 30 June 2014 and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") read with the General Circular 15/2013 dated 13 September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at 30 June 2014;
- (b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 2 As required by section 227(3) of the Act, we report that:
 - a. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d. in our opinion, the Balance Sheet, Statement of Profit and Loss and Cash Flow Statement comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 read with the General Circular 15/2013 dated 13 September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013; and
 - e. on the basis of written representations received from the directors as on 30 June 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on 30 June 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.

Notes to the financial statements

1. Background

Accelya Kale Solutions Limited ("Accelya") is a software solutions provider to the global Airline and Travel industry.

Accelya delivers world class software products, managed processes, technology and hosting services. Accelya's industry solutions are driven by active partnerships with industry bodies and customers, and significant domain knowledge. Its customised approach in deploying these solutions supports clients with best fit solutions to match their requirements.

2. Summary of significant accounting policies

a) *Basis of preparation of financial statements*

The financial statements are prepared and presented under the historical cost convention, on the accrual basis of accounting and in accordance with the provisions of the Companies Act, 1956 ('the Act') and the accounting principles generally accepted in India ('Indian GAAP') and comply with the Accounting Standards ('AS') as prescribed by the Companies (Accounting Standards) Rules, 2006 and the relevant provisions of the Companies Act, 2013 to the extent applicable. The financial statements are presented in Indian Rupees except for number of shares/securities, per share data and where mentioned otherwise.

b) *Use of estimates*

The preparation of financial statements in conformity with generally accepted accounting principles in India requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent liabilities as of the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

c) *Current-non-current classification*

All assets and liabilities are classified into current and non current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is expected to be realised within 12 months after the reporting date; or
- (d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date;

Current assets include the current portion of non current financial assets.

All other assets are classified as non current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be settled in the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is due to be settled within 12 months after the reporting date; or
- (d) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instrument do not affect its classification.

Current liabilities include current portion of non current financial liabilities.

All other liabilities are classified as non current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

Notes to the financial statements

d) *Revenue recognition*

Revenue is derived primarily from transaction processing and sale of software license, related implementation and maintenance service.

Revenues from transaction processing service i.e. airline ticket and coupon processing charges, is recognized based on the rates fixed in the contract with customers based on the work completed.

Arrangements with customers for software development and related implementation services are classified as fixed-price contracts. Revenue from maintenance services are on a time and material basis.

Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in cases of multiple element contracts which require significant implementation services, where revenue for the entire arrangement is recognized over the implementation period based upon the percentage-of-completion.

Revenue from fixed-price contracts where there is no uncertainty as to measurement or collectability of consideration, is recognized based on the percentage of completion. Percentage of completion is measured as a proportion of time spent on the contract till the balance sheet date to the total estimated time to complete the contract. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Cost and estimated earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and estimated earnings are classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenue.

Revenue from client training, support and other services arising due to the sale of software products, is recognized as the related services are performed.

Interest income is recognized using the time proportion method based on the underlying interest rate.

Dividend income is recognized when the right to receive dividend is established.

e) *Fixed assets and depreciation (including intangible assets)*

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. Cost includes freight, duties, taxes and incidental expenditure relating to the acquisition and installation of fixed assets incurred up to the date the asset is ready for its intended use.

Assets costing less than Rs. 5,000 are fully charged to the profit and loss account in the year of acquisition.

Capital work-in-progress includes the cost of fixed assets that are not ready to use at the balance sheet date. Depreciation on fixed assets is provided pro rata for the period of use based on management's best estimate of useful lives of the assets (which are shorter than those prescribed under the Companies Act, 1956) as summarised below:

Leased assets	To be amortized over the lesser of the period of lease and the useful life of the asset
Building	30 years
Computer equipment and Plant and machinery	3 to 6 years
Furniture and Fixture, Equipment and Other Assets	4 to 6 years
Software Acquired/developed	3 to 5 years
Vehicles	5 years

f) *Research and Development cost*

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable and Company has intention and the ability to complete and use or sell the software and the costs can be measured reliably.

Notes to the financial statements

g) Asset impairment

In accordance with AS 28-'Impairment of Assets', where there is an indication of impairment of the Company's asset, the carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. An impairment loss is recognized whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. Impairment loss is recognized in the profit and loss account.

h) Investments

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long term investments.

Long term investments are carried at cost. Provision for diminution, is made to recognize a decline, other than temporary, in the value of long term investments and is determined separately for each individual investment. The fair value of a long term investment is ascertained with reference to its market value, the investee's assets and results and the expected cash flows from the investment. Current investments are carried at lower of cost and market value of each investment individually.

i) Leases

Operating lease

Lease rentals under an operating lease, are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

Finance Lease

Assets acquired under finance lease are recorded as an asset and liability at the inception of the lease and are recorded at an amount equal to lower of fair value of the leased asset and the present value of the future minimum lease payments.

j) Foreign currency transactions

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the period are recognized in the profit and loss account of the period.

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end closing exchange rate and the resultant exchange differences are recognized in the profit and loss account. Non-monetary foreign currency items are carried at cost.

Translation of foreign operations

For translating the financial statements of foreign branches, these are classified into 'integral' and 'non integral' foreign operation.

Integral foreign operations are those which carry on their business as if they were an extension of the Company's operation. Other foreign operations are classified as non-integral.

The financial statements of an integral foreign operation are translated into Indian rupees as if the transaction of the foreign operation were those of the Company itself.

In the case of a non integral foreign operation, the assets and liabilities, both monetary and non-monetary, are translated at the closing exchange rate and income and expense items are translated at the exchange rates on the date of transaction. The resulting exchange differences are accumulated in foreign currency translation reserve. On the disposal of non-integral foreign operation, the cumulative amount of foreign currency translation reserve, which pertains to that operation, is recognised as income or expense.

Derivative instruments

Forward foreign exchange contracts and other derivatives are not covered by AS 11 and relates to a firm commitment or highly probable forecasted transactions, these contract are mark to market as on the reporting date and loss on these contract are charged to the Statement of Profit and Loss.

k) Employee benefits

Defined Contribution Plan

Notes to the financial statements

Company's contributions during the year to Provident Fund are recognized in the Statement Profit and Loss.

Defined Benefit Plan

The Company's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government securities as at the Balance Sheet date. Actuarial gains and losses are recognized immediately in the Statement Profit and Loss.

Provision for leave encashment cost has been made based on actuarial valuation by an independent actuary at balance sheet date.

The employees of the Company are entitled to compensated absence. The employees can carry-forward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at termination of employment for the unutilized accrued compensated absence. The Company records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date.

I) Income taxes

Income-tax expenses comprise current tax and deferred tax charge or credit.

Current taxes

Provision for current income-tax is recognised in accordance with the provisions of Indian Income-tax Act, 1961 and is made annually based on the tax liability after taking credit for tax allowances and exemptions.

The profits pertaining to the Unit situated at Software Technology Park, Pune of the Company were exempt from taxes under the Income tax Act, 1961, being profit from industrial undertakings situated in Software Technology Park. Under Section 10A / 10B of the Income tax Act, 1961, the Company availed an exemption of profits from income tax for a period ended 31 March 2011 in relation to its undertakings set up in the Software Technology Park.

The Income tax Act, 1961 allows credit in respect of Minimum Alternate Tax ("MAT") paid under section 115JB, to be carried forward up to five succeeding assessment years. The amount of MAT credit can be set-off only in the year in which the Company is liable to pay tax as per the normal provisions of the Income tax Act 1961, and such tax is in excess of MAT for that year. The amount of set-off would be to the extent of excess of normal income-tax over the amount of MAT calculated as if Section 115JB had been applied for that assessment year for which the set-off is being allowed.

In accordance with the guidance note on "Accounting for credit available in respect of Minimum Alternate Tax under the Income tax Act, 1961" issued by the Institute of Chartered Accountants of India, MAT paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal tax within the eligible period and the asset can be measured reliably.

Deferred taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result from differences between the profits offered for income taxes and the profits as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and the tax laws that have been enacted or substantively enacted at the balance sheet date. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the enactment date. Deferred tax assets on timing differences are recognized only if there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and losses carried forward exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reassessed for the appropriateness of their respective carrying amounts at each balance sheet date.

Notes to the financial statements

m) Earnings per share ('EPS')

Basic and diluted earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earning per share, and also the weighted average number of equity shares which may be issued on conversion of all dilutive potential shares, unless the results would be anti – dilutive.

n) Provisions and contingent liabilities

Provisions are recognized when the Company recognizes that it has a present obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in financial statements. However, contingent assets are assessed continuously and if it is virtually certain that economic benefit will arise, the assets and related income are recognized in the period in which the changes occur.

o) Onerous contracts

Provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

p) Employee stock options

The Company determines the compensation cost based on the intrinsic value method. The compensation cost is amortized on a straight line basis over the vesting period.

b. Right, preference and restriction attached to equity shares

The company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting right of an equity shareholder on a poll (not on show of hands) is in proportion to its share of the paid-up equity capital of the company. Voting right cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the company, the holders of equity shares will be entitled to receive the residual assets of the company, remaining after distribution of all preferential amounts in proportion to the number of equity held.

Independent Auditors' Report on Consolidated Financial Statements

To the Board of Directors
Accelya Kale Solutions Limited

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Accelya Kale Solutions Limited ("the Company" or "the Parent Company") and its subsidiaries (as per the list appearing in schedule 1 to the consolidated financial statements) [collectively referred to as "the Group"] which comprise the consolidated Balance Sheet as at 30 June 2014 and the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) Section 211 of the Companies Act, 1956 ("the Act"), read with the General Circular 15/2013 dated 13 September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, and to the best of our information and according to the explanations given to us, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- i. in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at 30 June 2014;
- ii. in the case of the consolidated Statement of Profit and Loss, of the profit of the Group for the year ended 30 June 2014; and
- iii. in the case of the consolidated Cash Flow Statement, of the cash flows of the Group for the year ended 30 June 2014.

Notes to the consolidated financial statements

1. Background

Accelya Kale Solutions Limited ("Accelya") is a software solutions provider to the global Airline and Travel industry.

Accelya delivers world class software products, managed processes, technology and hosting services. Accelya's industry solutions are driven by active partnerships with industry bodies and customers, and significant domain knowledge. Its customised approach in deploying these solutions supports clients with best fit solutions to match their requirements.

The list of subsidiaries considered in these consolidated financial statements as at 30 June, 2014 with percentage holding is summarized below:

Subsidiaries	Country of incorporation and other particulars	Percentage of holding by the immediate parent (%)	Year of consolidation
Kale Softech, Inc., USA	A Subsidiary of Accelya incorporated under the laws of United States of America	100%	1998-99
Kale Revenue Assurance Services Ltd, UK	A Subsidiary of Accelya incorporated under the laws of United Kingdom	100%	2007-08
Zero Octa UK Limited, UK	A Subsidiary of Kale Revenue Assurance Services Ltd, UK, incorporated under the laws of United Kingdom	100%	2007-08

2. Summary of significant accounting policies

a) Basis of preparation of financial statements

The financial statements are prepared and presented under the historical cost convention, on the accrual basis of accounting and in accordance with the provisions of the Companies Act, 1956 ('the Act') and the accounting principles generally accepted in India ('Indian GAAP') and comply with the Accounting Standards ('AS') as prescribed by the Companies (Accounting Standards) Rules, 2006 and the relevant provisions of the Companies Act, 2013 to the extent applicable. The financial statements are presented in Indian Rupees except for number of shares/securities, per share data and where mentioned otherwise.

b) Basis of consolidation

These consolidated financial statements are prepared in accordance with the principles and procedures prescribed under AS 21- 'Consolidated Financial Statements' for the purpose of preparation and presentation of consolidated financial statements.

The financial statements of the Parent Company and its subsidiaries have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group balances/ transactions and resulting unrealised profits in full. Unrealised losses resulting from intra-group transactions have also been eliminated unless cost cannot be recovered. Minority interests' share of profits or losses is adjusted against income to arrive at the net income attributable to the Company's shareholders. Minority interests' share of net assets is disclosed separately in the balance sheet.

The consolidated financial statements are prepared using uniform accounting policies for transactions and other similar events in similar circumstances across the Group.

c) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in India requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent liabilities as of the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

d) Current- non-current classification

All assets and liabilities are classified into current and non current.

Notes to the consolidated financial statements

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is expected to be realised within 12 months after the reporting date; or
- (d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date;

Current assets include the current portion of non current financial assets.

All other assets are classified as non current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be settled in the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is due to be settled within 12 months after the reporting date; or
- (d) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instrument do not affect its classification.

Current liabilities include current portion of non current financial liabilities.

All other liabilities are classified as non current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

e) Revenue recognition

Revenue is derived primarily from transaction processing, sale of software license, related implementation and maintenance service.

Revenue from transaction processing service i.e. airline ticket and coupon processing charges is recognized based on the rate fixed in the contract with customer based on the work completed.

Arrangements with customers for software development and related implementation services are classified as fixed-price contracts. Revenue from maintenance services are on a time and material basis.

Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license; except in cases of multiple element contracts, which require significant implementation services, revenue for the entire arrangement is recognized over the implementation period based upon the percentage-of-completion.

Revenue from fixed-price contracts where there is no uncertainty as to measurement or collectability of consideration, is recognized based on the percentage of completion. Percentage of completion is measured as a proportion of time spent on the contract till the balance sheet date to the total estimated time to complete the contract. When there is uncertainty as to measurement or ultimate collectability revenue recognition is postponed until such uncertainty is resolved. Cost and estimated earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and estimated earnings are classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenue.

The revenue from the transaction processing service is recognized based on the rate fixed in the contract entered with customer. Revenue from airline ticket and coupon processing charges is recognized on the basis of the work completed.

Revenue from client training, support and other services arising due to the sale of software products, is recognized as the related services are performed.

Notes to the consolidated financial statements

Interest income is recognized using the time proportion method based on the underlying interest rate.

Dividend income is recognized when the right to receive dividend is established.

f) Goodwill on consolidation

Goodwill arising on the acquisition of a subsidiary represents the excess of the cost of acquisition over the Group's interest in the carrying value of the identifiable assets and liabilities of the subsidiary recognized at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to the cash-generating unit that is expected to benefit from the synergies of the business combination. Cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized in goodwill is not reversed in a subsequent period.

g) Fixed assets and depreciation (including intangible assets)

Fixed assets are stated at cost of acquisition or construction, less accumulated depreciation and impairment, if any. Cost includes freight, duties, taxes and incidental expenditure relating to the acquisition and installation of fixed assets incurred up to the date the asset is ready for its intended use.

Assets costing less than Rs. 5,000 are fully charged to the profit and loss account in the year of acquisition.

Capital work-in-progress includes the cost of fixed assets that are not ready to use at the balance sheet date.

Depreciation on fixed assets is provided pro rata for the period of use based on management's best estimate of useful lives of the assets (which are shorter than those prescribed under the Companies Act, 1956) as summarised below:

Goodwill	Annual impairment test whenever there is indication that goodwill may be impaired
Leasehold improvement	To be amortized over the lesser of the period of lease and the useful life of the asset
Building	30 years
Computer equipment and Plant and machinery	3 to 6 years
Furniture, Fixture, Equipments and Other Assets	4 to 6 years
Software acquired /developed	3 to 5 years
Vehicles	5 years

h) Research and Development cost

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable and the Company has intention and the ability to complete and use or sell the software and the costs can be measured reliably.

i) Asset impairment

In accordance with AS 28-'Impairment of Assets', where there is an indication of impairment of the Company's asset, the carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. An impairment loss is recognized whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. Impairment loss is recognized in the profit and loss account.

Notes to the consolidated financial statements

j) Investments

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long term investments.

Long term investments are carried at cost. Provision for diminution, is made to recognize a decline, other than temporary, in the value of long term investments and is determined separately for each individual investment. The fair value of a long term investment is ascertained with reference to its market value, the investee's assets and results and the expected cash flows from the investment. Current investments are carried at lower of cost and market value of each investment individually.

k) Leases

Operating lease

Lease rentals under an operating lease, are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

Finance Lease

Assets acquired under finance lease are recorded as an asset and liability at the inception of the lease and are recorded at an amount equal to lower of fair value of the leased asset and the present value of the future minimum lease payments.

l) Foreign currency transactions

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the period are recognized in the profit and loss account of the period.

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end closing exchange rate and the resultant exchange differences are recognized in the profit and loss account. Non-monetary foreign currency items are carried at cost.

Translation of foreign operations

For translating the financial statements of foreign branches, these are classified into 'integral' and 'non integral' foreign operation.

Integral foreign operations are those which carry on their business as if they were an extension of the Company's operation. Other foreign operations are classified as non-integral.

The financial statements of an integral foreign operation are translated into Indian rupees as if the transaction of the foreign operation were those of the Company itself.

In the case of a non integral foreign operation, the assets and liabilities, both monetary and non-monetary, are translated at the closing exchange rate and income and expense items are translated at the exchange rates on the date of transaction. The resulting exchange differences are accumulated in foreign currency translation reserve. On the disposal of non-integral foreign operation, the cumulative amount of foreign currency translation reserve, which pertains to that operation, is recognised as income or expense.

The functional currency of the Company is the Indian Rupee. The functional currency for Zero Octa UK and Kale Revenue Assurance Services Limited is the UK Pound Sterling and of Kale Softech Inc. is the US Dollar. The translation of financial statements of non integral subsidiaries from the local currency to functional currency is performed for assets and liabilities using the rate prevailing at the date of the balance sheet. The items in the profit and loss account are translated at the average exchange rate during the period. Goodwill arising on the acquisition of non-integral operations is translated at exchange rates prevailing at the date of the balance sheet. The difference arising out of the translations are transferred to foreign currency translation reserve under reserves and surplus.

Derivative instruments

For forward foreign exchange contracts and other derivatives that are not covered by AS 11 and that relate to a firm commitment or highly probable forecasted transactions, are marked to market as on the reporting date and any loss on these contract is charged to the Statement of Profit and Loss.

Notes to the consolidated financial statements

m) Employee benefits

Defined Contribution Plan

Company's contributions during the year to Provident Fund are recognized in the Statement of Profit and Loss.

Defined Benefit Plan

The Company's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to one additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government securities as at the Balance Sheet date. Actuarial gains and losses are recognized immediately in the Statement of Profit and Loss.

Provision for leave encashment cost has been made based on actuarial valuation by an independent actuary at balance sheet date.

The employees of the Company are entitled to compensated absence. The employees can carry-forward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at termination of employment for the unutilized accrued compensated absence. The Company records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date.

n) Income taxes

Income-tax expenses comprise current tax and deferred tax charge or credit.

Current taxes

Provision for current income-tax is recognised in accordance with the provisions of Indian Income-tax Act, 1961 and is made annually based on the tax liability after taking credit for tax allowances and exemptions.

The profits pertaining to units situated at Software Technology Park, Mumbai, Pune and Goa of the Company were exempt from taxes under the Income tax Act, 1961, being profit from industrial undertakings situated in Software Technology Park. Under Section 10A / 10B of the Income tax Act, 1961, the Company availed an exemption of profits from income tax for the periods end with 31 March 2011 in relation to its undertakings set up in the Software Technology Park.

The Income tax Act, 1961 allows credit in respect of Minimum Alternate Tax ("MAT") paid under section 115JB, to be carried forward up to seven succeeding assessment years. The amount of MAT credit can be set-off only in the year in which the Company is liable to pay tax as per the normal provisions of the Income tax Act, 1961, and such tax is in excess of MAT for that year. The amount of set-off would be to the extent of excess of normal income-tax over the amount of MAT calculated as if Section 115JB had been applied for that assessment year for which the set-off is being allowed.

In accordance with the guidance note on "Accounting for credit available in respect of Minimum Alternate Tax under the Income tax Act, 1961" issued by the Institute of Chartered Accountants of India, MAT paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal tax within the eligible period and the asset can be measured reliably.

Deferred taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result from differences between the profits offered for income taxes and the profits as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and the tax laws that have been enacted or substantially enacted at the balance sheet date. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the enactment date. Deferred tax assets on timing differences are recognized only if there is

Notes to the consolidated financial statements

a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and losses carried forward exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reassessed for the appropriateness of their respective carrying amounts at each balance sheet date.

o) Earnings per share ('EPS')

Basic and diluted earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which may be issued on conversion of all dilutive potential shares, unless the results would be anti – dilutive.

p) Provisions and contingent liabilities

Provisions are recognized when the Company recognizes that it has a present obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in financial statements. However, contingent assets are assessed continuously and if it is virtually certain that economic benefit will arise, the assets and related income are recognized in the period in which the changes occur.

q) Onerous contracts

Provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

r) Employee stock options

The Company determines the compensation cost based on the intrinsic value method. The compensation cost is amortized on a straight line basis over the vesting period.

b. Right, preference and restriction attached to equity shares

The company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting right of an equity shareholder on a poll (not on show of hands) is in proportion to its share of the paid-up equity capital of the company. Voting right cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the company, the holders of equity shares will be entitled to receive the residual assets of the company, remaining after distribution of all preferential amounts in proportion to the number of equity held.

Statement (Pursuant to section 102 of the Companies Act, 2013)

As required by section 102 of the Companies Act, 2013 (Act), the following statement sets out all material facts relating to the business mentioned under Item Nos. 4 to 8 of the accompanying Notice:

Item No. 4

This statement is provided though strictly not required as per section 102 of the Act.

M/s. B S R & Co., LLP, Chartered Accountants, (Firm's Registration No. 101248W), were appointed as the statutory auditors of the Company for financial year 2013-14 at the AGM of the Company held on 26 September, 2013.

As per the provisions of section 139 of the Act, no listed company can appoint or re-appoint an audit firm as auditor for more than two terms of five consecutive years. Section 139 of the Act has also provided a period of three years from the date of commencement of the Act to comply with this requirement.

In view of the above, M/s. B S R & Co., LLP, Chartered Accountants, being eligible for re-appointment and based on the recommendation of the Audit Committee, the Board of Directors has, at its meeting held on 6 August, 2014, proposed the appointment of M/s. B S R & Co., LLP, Chartered Accountants, as the statutory auditors of the Company for a period of two years to hold office from the conclusion of this AGM till the conclusion of the thirtieth AGM (subject to ratification of the appointment by the members at every AGM held after this AGM) on a remuneration as may be fixed by the Board of Directors of the Company.

The Board recommends the Resolution at Item No. 4 for approval by the Members.

None of the Directors and Key Managerial Personnel of the Company or their relatives is concerned or interested, in the resolution set out at Item No. 4, except to the extent of their respective shareholding, if any, in the Company.

Item Nos. 5 to 7

The Company has appointed, pursuant to the provisions of clause 49 of the Listing Agreement, stipulated number of Independent Directors, in compliance with the requirements of the clause.

Pursuant to the provisions of section 149 of the Act, which came into effect from 1 April, 2014, every listed public company is required to have at least one-third of the total number of directors as independent directors, who are not liable to retire by rotation.

The Nomination and Remuneration Committee of the Board has recommended the appointment of these directors as Independent Directors from 25th September, 2014 up to 24th September, 2019.

Mr. K. K. Nohria, Mr. Sekhar Natarajan and Mr. Nani Javeri, non-executive directors of the Company, have given a declaration to the Board that they meet the criteria of independence as provided under section 149(6) of the Act. In the opinion of the Board, each of these directors fulfill the conditions specified in the Act and the Rules framed thereunder for appointment as Independent Director and they are independent of the management.

In compliance with the provisions of section 149 read with Schedule IV of the Act, the appointment of these directors as Independent Directors is now being placed before the Members for their approval.

Copy of the draft letter for appointment of each of the above Independent directors setting out the terms and conditions will be available for inspection by members at the registered office of the Company during normal business hours on any working day, excluding Saturday.
